MYSTERY AS TO FUND

Says Dr. Everett In Discussing Problem of Adams Academy

The interesting letter of Dr. William Everett on the Adams Academy problem, sent to the City Council this week, is published in full below. Dr. Everett was for many years master of the school, and held the position when the academy closed last June. He is now in his 71st year, having been born in the same year as the Quincy Patriot in 1837. He is an ex-Congressman, a scholar of renoun, an author, lecturer, and frequent contributor to the press. His home is the old Miller estate on Miller Stile road which he purchased some years ago. He is very much attached to the men, who were his pupils at Adams Academy, and interested in their welfare.

To the Honorable the City Council of Quincy:

I feel much complimented by the invitation of the Council to address them on the proposed transfer of the Adams Temple and School Fund to the use of the public school system of Quincy, and the consequent merger of Adams Academy in the High school. I did not receive this invitation till Thursday last, and it was absolutely necessary, before returning any definite answer to consult my physician. He stated his emphatic conviction that in view of the serious weakness in the chest, which I contracted in England, and which has compelled my premature return, it would be the height of imprudence to attempt to address an audiance.

I am aware that at such short notice I cannot prepare any written statement of my views which will represent them as fully as a personal address would do. But I am unwilling to let the matter be decided without a word from one who I think I may say without conceit has taken a more active interest in the affairs of Adams Academy than any other individual since its operations began.

The question seems to me simply this: Is it well, when a school to prepare boys for college has subsisted in this city for thirty-five years, has done good work and earned a good reputation, it should have the existence terminated, and merged in a High school for both sexes, when the Woodward Institute for girls alone is accepted as a permanency? It is my conviction derived from close observation and enquiry, that in every large community, where education is held at its true value, there will always be a number of boys and a number of girls, who, on reaching the High school age, ought to be separated from the other sex, and have schools of their own.

SEPARATE SEXES.

That this is eminently true of boys is shown by the very flourishing state of the ancient boys' schools, the Boston Latin and High schools and the two Phillips Academies, and by the great multiplication of boys' boarding schools, of varying scales of expense all over the country. The citizens of Quincy, whose boys have attended Adams Academy cannot afford to send them to boarding school; but many Quincy parents have felt willing to incur the smaller expenses of the various schools named above, rather than subject their sons to coeducation.

There is another indication of the same need in the comparatively small number of boys, as set against that of the girls, who take the course of the mixed High schools, and the still smaller proportion who graduate.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists

President Hamilton of Tufts College has recently had the courage to state this plainly:—He shows that young men are simply deterred from entering upon the regular college course for the degree of Bachelor of Arts at those colleges where both sexes are educated, so that unless these are separated, the coeducational colleges will virtually become female colleges only.

If there was not and never had been a school for boys exclusively in Quincy, it would be a question worth considering if one ought not to be started; but now one exists, though for the moment in abeyance. It has its own building, no doubt originally defective, but not incapable of great improvement at moderate expense; needing no doubt renewed equipment and extensive repairs, but still perfectly capa-

ble of serving as a boys' school for many years to come. It has a reputation and a name everywhere creditable and distinguished. Its graduates, when they have gone to higher institutions, particularly Harvard college, have speedily secured the respect and active good will of their instructors, and those who have remained in their native town have easily proved themselves valuable citizens. It may be interesting to note that at this moment seven of the younger physicians of Quincy, who are esteemed for their thorough training and entire fitness for their profession were members of Adams Academy.

RETRENCHMENT.

That the school in its very last years has not had so large an attendance, or earned quite so high a repute, may be true. This has largely been owing to the necessity of cutting down the staff, and from the cloud cast over it by the rumor of its extinction. The late master is perfectly willing to admit that he has not performed his own work as efficiently as in times past. The work of fitting boys for the colleges is very much more exacting in 1907 than it was at the time of Dr. Dimmock's death in 1878; and the writer is entirely sensible that were the school to be reopened tomorrow, with most ample equipment, a younger master should be in control.

The reason for abruptly closing this eminently respectable and useful institution is that the income of the Adams Temple and School Fund is inadequate to its independent support, and can be more serviceable in aiding the general school system of Quincy. This inadequacy is no new discovery. It has been admitted and spoken of for many years, and both the plans now before the Council, the merger in the High school, and the closing of the building till the fund can accumulate to an adequate size, have been proposed to my personal knowledge. Yet since Mr. Tyler's death, and my own return to the mastership, I have been directly assured that the supervisors were determined to maintain the academy as a separate school, and have also been told to get all the teaching force I needed, with a view to that end. The change in policy, calling for immediate extinction can hardly have come from unexpected revelation as to the state of the fund.

FUND A MYSTERY.

It should appear in this connection that a good deal of mystery has been maintained as to the investment and management of the fund. The supervisors I believe, have never published any accounts. They have not till the last few years communicated to the board of managers how much income there was to dispose of; and indeed they have treated this board, who have the official control of the ex-

(Continued on Page 4.)

Drama and Dance Of Clan McGregor

The twenty-seventh annual entertainment and dance of Clan McGregor, O. S. C., was held New Year's eve at Music hall, and like other years, proved a social success.

There was a very large attendance and the drama which was given during the first part of the evening was greatly enjoyed. It was one of four acts, entitled "Our Jim." The characters were impersonated by well known Quincy people and were well sustained. In the cast were the following: Mr. Harry Doull, Mr. Stanley F. Duncan, Mr. Alex W. Russell, Mr. James Marr, Mr. Fred T. Malcolm, Mr. William Troupe, Mr. Robert Smith, Mrs. Elizabeth Russell, Miss Margaret Hall, Mrs. Jennie Fyfe and Miss Elsie Martin.

The drama over, dancing was in order until 3 A. M., music being furnished by the Granite City orchestra.

The committee in charge were: Thomas Johnston, Alexander T. Black, James M. Birnie, Alexander Half, Alex W. Russell, John M. Troupe, John B. Hutchinson, Alexander Mavor, Neil McDonald, George M. Mavor, Chief Alfred O. Diack, Secretary.

The Quincy Men At State House

Today Quincy's two representatives to the Great and General Court took their oath of office and assumed the positions to which they were elected. This year Quincy is represented by Eugene C. Hultman and Rednor P. Coombs.

Mr. Hultman has had two years' service which should ensure his assignment to important committee. Mr. Coombs, the new man, may not fare as well, for as a rule new men are not assigned to important committees.

Quincy has faith in its representatives and looks to them to guard well the city's interests and legislate for the best interests of Massachusetts.

Senator Jenney, who represents the district of which Quincy is a part, enters upon another year. Senator Jenney is looked upon as one of the leaders in the senate, and will be an important factor in this year's body.

Hold-up on Neponset Bridge

Mr. Sterling, the druggist in Sagamore block, Atlantic, narrowly escaped physical as well as financial injury last Saturday night. Mr. Sterling was crossing Neponset bridge on his way home. It was late and he carried with him a small bag containing the pecuniary results of the week's business. Without warning of any kind a large arm swung out from the darkness and suddenly struck the druggist a severe blow on the head with an empty bottle. Fortunately the assailant failed to strike his victim senseless and sustaining enough strength and presence of mind, Mr. Sterling did what any sensible man would have done—ran for his life. And best of all, he held on to the bag. Monday he reported to business but an extreme soreness of the head is a gentle reminder of "the unforseen that passeth all understanding."

New Noble Grand.

Mt. Wollaston lodge, I. O. O. F., elected these officers Tuesday evening:

N. G.—Charles Barron.
V. G.—Thomas J. Smith.
R. S.—Aubrey R. Keith.
F. S.—Arthur W. Stetson.

Dramatic Club Give Two Plays

Colonial hall was crowded to the doors Tuesday evening for the dramatics by Mrs. Isabelle Davis' Dramatic club. Two plays were given: "A Close Call" and "A Regiment of Two." The stage settings were artistic showing a comfortable living room which was the scene for both plays.

The cast for "A Close Call" was:

Jeanette (who has just "come out" and thinks she makes many conquests) Ruth Pennimaa
Edith Bertram (who is "all right" and has money in her own name) Minnie R. Hardwick
Lila Devereaux (a sentimental damsel) Blanche Morrison
Cora Carnes (who is very clever) Catherine Saville
Mrs. Marsh (a dashing widow) Lucile Elwell
Harold Bentwell (a young man about town with unimpeachable character) James Claflin

The cast for "A Regiment of Two" was:

Arthur Sewall (a theoretical warrior) Eliot C. Johnson
Ira Wilton (his father-in-law) L. Brewster Walker
Harry Buntworth (Arthur's friend) Ralph Austin
Reginald Dudley (an Englishman) James Claflin
Jim Buckner (known as "The Parson") Alan F. Arnold
Conrad Melzer (a plumber) Curtis Arnold
Eliza Wilton (Ira's better half) Beatrice Morrison
Grace Sewall (wife of Arthur) Minnie R. Hardwick
Laura Wilton (daughter of Ira) Catherine Saville
Lena (a German maid) Ruth Packard

Both plays abounded in humorous situations and caused much merriment, the audience showing their appreciation by frequent applause. The makeup and acting was capital, each artist being so imbued with the part that it would be almost impossible to pick out the star, as it was surely a star cast.

These young people are very fortunate in having the careful training of Mrs. Davis, and certainly, show that they profit by her instruction. It gives them a poise and a freedom from self conscientiousness that is of great future benefit to them.

Mr. William Weston of Wollaston gave piano selections between the plays and acts, and also for the dancing which followed the play, the young actors and friends dancing out the old year.

Suspicious Fire.

The house and restaurant of Silas Foley on Lawrence street off Chubbuck street, was damaged by fire Tuesday morning. Hose 4 responded on a still alarm. Cause of fire unknown, but the firemen discovered [illegible] blazes in eight different rooms, one blaze having no connection with the other.

Just Jotted Down By Ledger Men

1—9—0—8.

One-Nine-O-Eight.

A Happy New Year.

Volume 20 of the Quincy Daily Ledger.

Were you on deck to welcome in the New Year?

It is expected that Mayor Shea will announce his appointments next Monday.

Whist tournament at the Granite City club tonight. Henry P. Furnald will serve the lunch.

Mrs. Sadie E. Gould of Revere road has gone to the Boothby hospital, to undergo a serious operation.

The granite stock of the late firm of C. A. Swingle & Co. will be sold at auction tomorrow.

It was a busy time Tuesday with the City Auditor and City Treasurer closing their books for 1907.

The meadow in the rear of the street railway car barn on Hancock street has been flooded for a skating pond.

Miss Lucy Shunk of Wollaston has been spending the past few days with Mrs. Herbert Pottle of Revere road.

A Quincy Councilman will be manager of the Scenic Temple which opens at the Coliseum next Monday. He promises good shows.

Winer Bros start a large sale tomorrow of agate ware, galvanized ware, crockery, glass ware, etc., having purchased the stock of a Salem store.

The annual meeting of the Squantum Yacht club will be held Thursday evening. It is reported that ex-Commodore Bryant will be a candidate for commodore. Commodore Sawyer is also a candidate for reelection.

Walter Blake and family of Chicago have returned to their home after a visit in Atlantic. Much sympathy is expressed for Mr. Blake, who expected to spend Christmas day with his father in Franklin, but an unexpected illness caused his father's death on the eve of the holiday.

The Telephone at Harvard.

The effect of the long distance telephone in bringing together the various sections of this country was aptly noted by President Eliot of Harvard in his recent speech before the Associated Harvard Clubs in Detroit when he said: "There are thousands of parents scattered all over the region within a thousand miles of Cambridge who can talk to their boy any day and at any hour, recognize his voice, and learn that he is doing well. The continent has shrunk to an incredible degree and is still shrinking."

Every Harvard boy can in fact be reached by telephone from more than 40,000 points east of the Rocky Mountains. In many instances he can be in communication with his parents without leaving his study table, for very few rooms in the newer dormitories in Cambridge are without telephone connection. In the older buildings as in Gray's, Walter Hastings, Thayer, Matthews, Weld, Holyoke, Holworthy, Hollis and Stoughton there are pay stations. The private dormitories of the famous "Gold Coast" on Mt. Auburn street all have private branch exchanges connecting with all rooms and in some of the college buildings, as in Conant and Perkins, many of the students have telephones of their own connected directly with the New England Company's Cambridge exchange. No one is more appreciative of the time saving than the bright college boy.

WHAT CAUSES HEADACHE

From October to May, Colds are the most frequent cause of Headache. Laxative Bromo Quinine removes cause. E. W. GROVE on box 25c.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

MAYOR ELECT A GUEST

Again Promises Houghs Neck To Do For Section What He Can

The New Years supper of the Houghs Neck Improvement society Tuesday evening was a great success. It was held in Pandora hall and brought together a representative body of residents who are banded together to work for the good of the section.

During the first part of the evening an informal reception was held in the hotel office. Greetings were exchanged and wishes for a Happy New Year were passed around to everybody.

The 9 o'clock car from Quincy brought down Mayor-elect Shea with a body guard of reporters. They were met by Henry W. French, the master of ceremonies, and were given a hearty welcome.

After the introductions were over, the doors of the dining room were thrown open, and in a few minutes all were seated at the table enjoying an oyster stew. This over Mr. French rapped for order, and after a few words of welcome introduced Mayor Shea.

The newly elected executive received an enthusiastic greeting, and after the echo of the cheers had died away in the distance, said that such a gathering of representative citizens augured well for Houghs Neck. He thanked them for the interest they had taken in his candidacy in the last campaign.

At that time he said he told them that no reasonable requests would go unheeded, and he would say the same now. Whether the city would be able to grant all was a question, but he would grant all that he could.

The means at our disposal are limited, but Houghs Neck would have the same attention as other sections. As far as in his power everything that could be done would be done. He believed the section should have a school building and street lights. The schools should be first.

He did not want to say to much in advance of inauguration. Next Monday he would start on his administration. If at any time we do not agree as to what is wanted, believe I am doing the best I can and for the best interests of the city.

He would be glad to see and talk with any citizen at any time. He would not promise that all requests would be granted, but he would do what he could. When you have anything of interest come to City Hall and talk it over.

Three cheers for the Mayor were given at the conclusion of his remarks.

The toastmaster had outlined a number of toasts on Houghs Neck of the past, the present and the future. Some of the earlier residents who were called upon could not muster up courage to reply. Some of these toasts were: "Story of large war," "Story of old car service," "Fire department of the future," "Schools of the future," and "Car service of the future."

William Norterman spoke of Houghs Neck as the prettiest spot on earth, and he hoped the Mayor would live up to his promises.

Waldo Hutchins was glad to be counted as one of them. He spoke of the kind treatment that had been accorded him and the desirabliity of getting a good class of people here. He also spoke of the need of better car service, especially at morning and early evening to accommodate the business men. He also spoke of the kind and manly service given them by Motorman Gould and Conductor Brainard, the men who run the Houghs Neck car. This called for three cheers for the two men, and they were given with a will.

Frank Wall spoke of the advantages of such an organization, and how much they could do for the section.

Mr. Connors of the Steamboat company spoke of the advantages of such an association. He also referred to the street car service which was much better than formerly, and also told of what the steamboat line was doing to bring people to the beach.

President Cavanagh of the Steamboat company also spoke of the growth of Houghs Neck.

Just then the street car conductor stuck his head in at the door and shouted "Last car for Quincy." It was then 11.15 and the Quincy and out of town people took their departure, after wishing the association all success and its members a Happy New Year.

Toast master French said that the meeting would continue until the arrival of the new year, and that he hoped after the dignataries had departed, Arthur Dunham, James Sullivan and Mr. Regan would speak on the needs of a school building.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title - Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED, Adams Street, Quincy, or the Treasurer, RICHARD D. CHASE, Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

RIDGELY'S FORECAST

A General Revival In Business With the New Year

GOVERNMENT HAS SUFFERED

More Than $10,000,000 Drop In Receipts, Most of Loss Being Sustained During December—General Financial Outlook Reassuring

Washington, Jan. 1.—William B. Ridgely, comptroller of the currency, sounds a hopeful financial note in a statement just given out. The new year, he is confident, will bring a general revival in business. The banks of the country, he believes, will soon find it advisable to return to normal cash payments.

In a general review of the financial situation the comptroller reaches the conclusion that the blame for conditions that have existed the last two months cannot be justly placed on any man or set of men. It is sufficient, he thinks, to know that conditions are rapidly improving.

The United States, like many corporations and individuals, has had a bad two months, but things are looking better all along the line, it is asserted. During the first six months of the fiscal year, which ended with yesterday, the government's receipts have fallen off between $10,000,000 and $11,000,000. Most of this loss in receipts was sustained during the month just closed.

Since Nov. 30 customs receipts have fallen off about $6,000,000 and receipts from internal revenue have dropped about $2,000,000. It will thus be seen that about $8,000,000 of the $10,500,000 less in revenue during the six months occurred during this month.

The expenditures of government for last six months were $8,000,000 in excess of receipts. For the same period last year the receipts exceeded the expenditures by nearly $25,000,000. The working balance in the treasury reached the lowest point in many years last Saturday, when it dropped to a little less than $3,000,000. A call for $8,000,000 of government money on deposit with national banks has increased this balance the last two days.

It is the expectation of the treasury officials that the new year will bring a decided improvement in government finances. This expectation is based on the knowledge that since about the middle of October importers have been ordering goods purchased abroad held on the other side of the ocean until the currency situation here showed improvement. Information at hand indicates that these delayed shipments will shortly come in, and their coming will increase the government's receipts from customs duties materially.

It is also true, according to the customs officials, that imports have been stored in warehouses since the middle of October awaiting a better currency outlook. With the financial situation generally improving these goods in warehouse will be released and the duty on them will be paid.

The falling off in internal revenue receipts is accounted for by the inability of distillers to get currency in sufficient quantities to carry on a normal business. The hope and expectation is expressed that soon after the beginning of the year the internal revenue receipts will return to normal. It is admitted by the treasury officials that if these expectations are not realized the government will face a deficit of about $50,000,000 at the end of the fiscal year.

While the general financial outlook from a government viewpoint is reassuring, it is not such as to warrant any lavish expenditure of money by congress. It is to be the settled policy of the party leaders to keep expenditures down to the lowest point possible.

Summed Up by Trade Review

New York, Jan. 1.—The withdrawal of $125,000,000 from a few large trust companies, precipitating a season of hoarding and sending currency to a premium at a time when it was most needed throughout the country, is credited in R. G. Dun & Co.'s Annual Review of Trade, published today, with having been one of the great factors in turning the year 1907 from its promise of new records in prosperity to a closing period of financial disturbance that caused many plans for future extensions of business to be either abandoned or postponed.

The restoration of normal conditions, the review declares, depends upon easier money and a revival of confidence, both of which seem nearer today than at any time since October, when the stringency began.

While failures were frequent during the last quarter of the year, the review points out that, if the comparison is carried back to previous periods of distress, there is much cause for congratulation in the insolvency returns.

No Regret at Year's Departure

New York, Jan. 1.—The Stock Exchange community saw the expiration of the year 1907 without regret, but with some attempt at cheerful expectation for the coming year. The cheerful sentiment showed signs of being forced, to a degree, and was not maintained throughout the session, owing to the interference of one or two incidents calculated to dash any budding enthusiasm.

GREAT ROME FELL IN

Explosion Causes Panic In Italian Stock Exchange

PROBABLE CAUSED BY GAS

Majority of Brokers Had Left For the Day, but Many Clerks Were Caught In Wreckage--Building Figures In Biblical History

Rome, Jan. 1.—The Temple of Neptune, standing in the centre of the forum of Augustus, now occupied by the stock exchange, was the scene yesterday afternoon of a tremendous explosion, causing a sensation almost as great as the explosion of a bomb in St. Peter's on Nov. 18, 1906.

The excitement was so great that many persons throughout the city were terrified and great crowds rushed to the scene. Within the building there were few people, but the great majority of the brokers had left. No one was killed, but twenty persons, chiefly clerks were injured.

The explosion resulted in the collapse of the roof of the exchange and a number of those injured were caught in the wreckage, but later were released by the firemen who responded to the call. Although first impressions were that the explosion was caused by a bomb thrown by some one who wished either to prevent the end-of-the-month liquidation or to take advantage of the confusion to commit an extensive theft, it was generally accepted later that the disaster came from an explosion of gas. Officials, however, who made an investigation, do not admit such a possibility, but as there is no evidence to show that a bomb was thrown the probability of a gas explosion has been given out by the police.

Within half an hour of the explosion hundreds of brokers were gathered in the exchange, when money and securities to the amount of several million dollars changed hands. Luckily the business of the day was over and most of the brokers were returning to their homes, leaving behind the clerks and the exchange officials to complete their labors.

The destruction was terrific and when the roof fell clouds of dust were thrown high in the air. The police, firemen and troops hurried to the scene and had difficulty in quieting the excitement of the thousands who rushed to the temple. Later, when another explosion was feared, the crowds again became panic-stricken and many persons received minor injuries in the resulting crush.

Most of those who were taken from the ruins had received injuries about the head and upper part of the body, although none was known to have been injured fatally. Soon there was a procession of injured in open cabs and ambulances to the hospitals, traversing the crowded thoroughfares amid pitiful scenes.

The Stock Exchange of Rome is situated in one of the finest of the ancient remains of the city, the Temple of Neptune. It is in the south side of the Piazza di Pietro. The temple was built by Hadrian, and has eleven magnificent columns in the Corinthian style, of white marble, each forty-one feet high. The centre portico was built by Agrippa. The roof of the exchange was partly supported by these famous columns. They were assembled for this purpose by Pope Innocent XI.

Crime of German Army Officer

Berlin, Jan. 1.—Captain Von Goeben, a distinguished officer in the artillery branch of the German army, has confessed that he murdered Major Von Schoenbeck, a brother officer, at Allenstein. Von Goeben will be tried by court martial and if found guilty he will be executed by shooting in his own garrison. Schoenbeck, returning home at a late hour, heard some one descending the stairway leading from his wife's room. Drawing his revolver he tried to shoot the intruder. The revolver, however, missed fire, and Von Goeben then killed the major and made his escape. He was subsequently arrested upon suspicion and confessed.

Editor Perhaps Fatally Shot

St. Louis, Jan. 1.—Al H. Spink, editor of The Daily World, author of several plays and formerly a sporting writer of national reputation, was shot and perhaps fatally injured last night by Vic Groves, an employe, following an altercation with William Spink, the editor's son. Spink was rushing to the scene of the quarrel when Groves shot him.

Power Case Almost Ready For Jury

Georgetown, Ky., Jan. 1.—The case against Caleb Powers, charged with the murder of William Goebel, is rapidly drawing to a close. Mr. Owen opened the closing argument for the defense this morning and finished at noon. State Attorney Franklin will begin at 2:00. The jury will get the case for final consideration this evening.

FALSE BILLS GIVEN CITY

Boston Alderman Said to Have Secured a "Rake Off" of $298

Boston, Jan. 1.—The finance commission last night at a public hearing heard of crooked vouchers, by which the city paid $440 for goods actually costing the Fourth of July committee for East Boston sports the sum of $141.75.

Alderman Battis of East Boston of the joint committee was accused directly by two clerks (one of whom has subsequently left the employ of the selling jewelers) of having asked for two sets of bills. One was for the actual price, totalling $141.75 and the other for $440. He declared that Battis told him that he had to divide the difference with other members of the committee.

Alderman Battis, called to the stand to tell his story, said, in response to questions: "I absolutely refuse to answer." Battis was told by Chairman Matthews to answer the questions, but he refused to do so.

It was announced that an arrest for larceny may be expected at once.

Testimony Against Mahan

Bennington, Vt., Jan. 1.—For four hours yesterday Alfred Mahan, on trial for the murder of Ethel Mahan, his 3-year-old niece, sat and listened to his brother and sister testify for the government that is trying to convict him of murder in the first degree. It was one of the most pathetic scenes ever witnessed in the courtroom of this county, and again were the spectators moved to tears when the mother of the dead child took the stand and told of her daughter's death.

Ball Mystery Still Unsolved

Brockton, Mass., Jan. 1.—While volunteer searchers spurred on by the offer of a reward, tramped through the woods once more yesterday hunting for some trace of the missing Ball children, their efforts were unavailing. It seems incredible that the bodies of the little ones could be concealed in the woods now. More than three weeks of careful searching has failed to reveal them. The police believe that the children are dead. So do the majority of citizens.

Receiver Asked For Jewelry Firm

Boston, Jan. 1.—A bill asking for a receiver for the Wilson Bros. company, a jewelry firm, was brought in the superior court by Willard D. Lombard, who owns a majority of the stock of the company. He alleges that John W. Wilson has been controlling the affairs of the company. Wilson was arraigned in the municipal court yesterday on the charge of the larceny of $4000 from the company and a hearing was set for Friday.

The Sargeant Injunctions

Providence, Jan. 1.—The injunctions granted recently restraining certain trust companies and banks from paying to the relatives of the late Frederick E. Sargent, cashier of the Jewelers' National bank of North Attleboro, any money or delivering any valuables which the deceased had deposited with them, have been dismissed in the cases of three of the trust companies.

Two Hundred More Shriners

Boston, Jan. 1.—The annual meeting and election of officers of Aleppo temple, Ancient Arabic Order Nobles of the Mystic Shrine, was held here last night, the Shriners also holding a "watch meeting" to usher out the old year and welcome the new. A class of over 200 was admitted to membership, giving Aleppo temple a membership of nearly 5900.

Insane Asylum Statistics

Augusta, Me., Jan. 1.—The annual report of Superintendent Sanborn of the Maine insane hospital shows that the number under treatment is 1054. Of this number 577 are men and 477 are women and 104 died during the year. The largest number of commitments was between the ages of 30 and 40 years. The average age at death was 51.6 years.

Bay State Solons Gather

Boston, Jan. 1.—The great and general court, so named by the constitution, opened today. This is the 129th time it has assembled for business in the commonwealth. Under the constitution Governor Guild assisted in administering the oath of office to the members, after which the legislature adjourned until tomorrow.

Defective Wiring Started Fire

Providence, Jan. 1.—Sixteen persons, including two women who were sick in bed, had to be assisted from the Ellsmere lodging house when fire broke out in a clothing store on the ground floor of the building. No one was injured. The fire caused $10,000 damage. Defective electric wiring is supposed to have started the blaze.

Famous Greek Scholar Dead

New Haven, Jan. 1.—Professor Thomas D. Seymour, one of the most distinguished of the professors in Yale university, died after a short illness of pneumonia. He was one of the most noted Greek scholars in the world, and celebrated as an archeologist. He was born at Hudson, O., April 1, 1848.

Nine Horses Burned to Death

Boston, Jan. 1.—A three-story brick building used as a stable in East Boston was burned early this morning, nine horses being consumed, with several wagons and thirty sets of harnesses. The total loss is estimated at $10,000. The fire is believed to have been caused by defective wiring.

Struck and Killed by Car

Fall River, Mass., Jan. 1.—Ephraim Lamontagne, aged 25, of Little Compton, R. I., who was in this city on business, was struck by an electric car last night and instantly killed.

J. T. CONWAY, Supt.

POSTOFFICES SUSPENDED

Business Stopped In Greater Boston For Closing of Books

Boston, Jan. 1.—At the stroke of 12 o'clock this morning Edward C. Mansfield became postmaster of the city of Boston and George A. Hibbard, the recently elected mayor of Boston, retired to six days of private life, which precede his inauguration as chief magistrate of the city. Neither of the men were at the federal building to take part in the official transfer, but Mansfield was on hand early this morning to assume his new duties.

The business of the local postoffice department was almost at a standstill for several hours late yesterday, while the government experts went over and verified the accounts of all the carrier stations and the affairs of the main office.

The 147 sub-stations in Boston postal district closed at 1 o'clock yesterday and at 4 o'clock the forty-six full stations closed. Only the stamp and delivery windows at the central office were open last evening. The inspection of the accounts of the 195 superintendents of postal stations who came into the federal building took until a late hour last night and was under the charge of four inspectors. Postmaster Mansfield formerly served several years as assistant postmaster with Hibbard.

No Trace of Securities

New York, Jan. 1.—Upon a court order, a safe deposit box in the vaults of the Atlantic Safe Deposit company was opened here in furtherance of a search for securities missing from the estate of the late Mrs. Ellen M. Colton of Washington. The box proved to be empty. The original custodians of the securities were President Bartnett of the California Surety and Trust company of San Francisco, now closed. Vice President Brown of the institution. Both Bartnett and Brown are now under grand jury indictment, it is said, told a Canadian bank examiner that the securities, valued at $450,000, were in the banking house.

At Leas Nine Miners Killed

Albuquerque, N. M., Jan. 1.—At least nine miners were killed and three fatally and two seriously injured in an explosion of gas and coal dust in the Gallup coal mine at Carthage. Nine bodies have been taken out and, although the mine is still filled with gas, it is believed that no more victims remain in the workings. All of the men had apparently been killed instantly and some of the bodies were mangled beyond recognition.

Light on Rebel Conspiracy

Guayaquil, Ecuador, Jan. 1.—According to the official report of the investigation into the recent conspiracy to overthrow the Ecuadorian government after the arrest of General Teran and other prominent politicians, Teran relied upon the co-operation of ex-President Plaza, who, it is learned, was to invade Ecuador at the head of a body of Colombians.

Fifty Counties Without Saloons

Birmingham, Ala., Jan. 1.—With the shrill shrieks of the hundreds of whistles of industrial Birmingham announcing the advent of the new year, every saloon in the county closed its doors late last night. There are fifty counties which have closed the saloons permanently. This leaves seventeen counties in which liquor can be sold for another year.

Belgian Premier Dead

Brussels, Jan. 1.—M. De Troos, premier and minister of the interior, is dead. His death further complicates the situation with regard to the annexation by Belgium of the Congo Independent State. It was to him that all the political parties looked to arrive at some sort of a compromise, as he possessed considerable influence with King Leopold.

NEWS IN BRIEF

Five wireless telegraph messages have been received at Mare Island and Point Loma from Sitka, Alaska. This is the record for long distance on the Pacific coast.

The bubonic plague at San Francisco is almost eradicated as a result of the vigorous sanitary campaign conducted during the past four months.

With three bullet holes in the breast, the body of Alfred A. Reynolds was found in the plumbing shop of his brother at Worcester, Mass. Death was undoubtedly suicidal.

Anzela Debonay, an actress of the old school, died at the Edwin Forrest home, Philadelphia, aged 74. She was a daughter of John Seston, American playwright and theatrical manager.

General Albert L. Lee, at one time a judge of the supreme court of Kansas, as well as a veteran of the Civil war, died at New York. He was 73 years old and had been suffering from a lingering illness.

Judge John W. Barr, a distinguished Kentucky jurist, died at Louisville of pneumonia, aged 82. He was on the federal bench for 19 years.

Office furniture valued at $100,000 was burned in the building at New York used by the Derby Desk company. The building was damaged $15,000.

Charles H. Leon, the noted animal and genre painter, died at Paris. He was born at Havre in 1838. His hunting scenes are noted for their vigor. [illegible] of his best works [illegible] museums. [illegible] Governor Jones

...hers' association of Quincy ... a New Year's meeting in ...hapel this afternoon, present... ...eresting program.

... Chapter Daughters of the ...n goes to South Braintree on ...afternoon for its January meet... entertained at the home of ...kes A. Bridgham 985 Washing... ...et. The committee on hospital... ... entertainment are Mrs. Bridg... ...iss Potter and Mrs. E. G. Pratt. ...peaker will be Mrs. Herbert J. ... of Wollaston. It will be gift ...on, each member bringing some ... gifts which will be put in the ...ag on arrival to be distributed ... each one present receiving a gift. ...ext Monday afternoon the Junior ...day club meets at the home of Mrs. ...urance H. Sturtevant, Presidents ..., with Mrs. Alfred Thompson in ...rge of the afternoon's program will ...ntinue the study of "Florence: ...elphs and Ghibellines, city govern... ...ent, church and civil architecture and ...usic."

There will be a meeting of the Quin... Day Nursery association on Tuesday afternoon, Jan. 7th, at half past two o'clock at the club house of the Quincy Women's club when it is hoped there will be a large attendance of those interested.

QUINCY WOMEN'S CLUB.

The executive board will meet Thursday morning at ten o'clock at the club house.

The club has had a long Christmas recess since Dec. 10th and will not meet until Jan. 14th when Mrs. Isabelle Davis will speak on "Voice and Gesture" under the auspices of the Education committee. There will be the usual good musical program and a social tea.

On Jan. 28th will come the annual musicale which is always pleasantly anticipated as it is one of the favorite afternoons of the year.

The Civic committee has secured a notable speaker for its afternoon, the Hon. Carroll D. Wright, who is at present giving a course of lectures at Harvard college at one hundred dollars a lecture. He is one of the best known and prominent men in the state with wide experience and the Civic committee is much pleased that he has consented to come and lecture before the Quincy Women's club.

The year books are ready for distribution and may be had at the club house of the treasurer, Mrs. N. S. Hunting, at the January meetings. They are very complete and will prove interesting reading to members.

NEIGHBORING.

A presidents' conference will be held Saturday afternoon, Jan. 4, at hotel Vendome, Boston. Presidents of Federated clubs in Massachusetts and all members of the standing committees of the Federation are invited to this conference. Topic for discussion will be: "The Biennial; what we are to give and what we are to get."

Friday, Jan. 10th, the New England Associate Alliance will meet in All Souls' Unitarian church, corner of Warren street and Elm Hill avenue, Roxbury. The speakers will be Rev. Joseph H. Crooker, D. D., and Rev. F. W. Perkins.

...t meeting of the Old Colony ... will be the ann... evening, ... Mr. Bob"

AMONG THE CLUBS.

A HAPPY NEW YEAR.

So may the New Year be a happy one to you, happy to many more whose happiness depends on you! So may each year be happier than the last, and not the meanest of our brethren or sisterhood debarred their rightful share in what our Creator formed them to enjoy.—Charles Dickens.

Mrs. A. E. Sproul and Miss Alice Putnam have prepared an interesting program on "Florence in Fiction, Poetry and Song" for the next meeting of the Friday club which will be on January 3d with Mrs. Emery L. Crane of Whitney road.

Rev. Benjamin R. Bulkeley one of the most interesting speakers in the Unitarian faith will address the Wollaston Alliance on Wednesday afternoon, January 8th in the Unitarian vestry, taking for his subject "The Leadership of Jesus. Salvation by Character."

The Junior Friday club met on Monday at the home of Miss Edith Randall, Spear street with Venice as the subject for study under the leadership of Mrs. Laurance H. Sturtevant. Illness prevented the attendance of the full membership of the club but a very pleasant afternoon was passed. The hostess served a dainty lunch.

Mrs. Herbert J. Gurney of Wollaston is giving at Braintree, this afternoon at the Alliance meeting of All Souls church, ...r very interesting paper; "Putting off ...e Evil Day." This paper when given ... Quincy Alliance made a deep ...n.

A Woman's Remedy

There are times when a woman feels nervous, irritable, and blue. These symptoms are the result of peculiar conditions which indicate the need of a safe and dependable remedy to assist Nature in her efforts to establish healthy action to the organs which directly affect woman's health.

Beecham's Pills

may be safely employed whenever backache, weakness, a feeling of nausea, faintness, nervousness, lassitude or other disagreeable sensations foretell derangements that need righting and regulating.

Beecham's Pills improve the digestion, bring back the appetite, purify the blood and clear the complexion. They have been used by women of every land, with uniform success for nearly sixty years. They are universally recommended as a mild laxative, an ideal conditioner and

Newsy Budget From Shipyard

Mr. Kirpatrick, a leading man in the yard department under Mr. Whiton, has resigned.

Inspector Payne, representing the Brunswick Steamboat Company's interests, in connection with the construction of the Steamboat Altamaha, has returned to New York.

John Sherrer, of the S department has changed his residence from Norfolk Downs to Wollaston.

Visit to State Prison.

Representative E. J. Sandberg took another large party of Quincy gentlemen to State Prison at Charlestown on Tuesday, including Representative-elect Coombs, Chief Engineer Litchfield of the Fire department, the city editor of the Daily Ledger and about forty others. Gen. B. F. Bridges, the popular and successful warden for fifteen years received the party and personally conducted them through the institution, and made it very interesting for all. The Daily Ledger will have more to say about the visit tomorrow, and hereby extends thanks to Representative Sandberg for the privilege of inspecting the prison.

High school graduation, June 24.

Third term, Sept. 8 to Dec. 23.

New Year, Jan 5, 1909.

The financial statement for the fiscal year ending Dec. 31, 1907, follows:

Appropriated by City Council	$131,065.00
Received from tuition	224.00
Total	$131,289 00
EXPENDED	
Salaries	$100,498.70
Janitors	8.902.77
Books, supplies, sundries	10,224.00
Fuel	7,882.99
Transportation	1,243.80
Rents	1,036.74
Evening schools	1,500.00
Total	$131,289.00

Burglar Scare At Wollaston

A telephone message was received at the police station shortly after 7 o'clock this morning from a woman at 131 Beale street saying that she had two burglars corralled in the house. A wagon load of police was sent to the scene, the horse being driven at top speed. When the officers arrived they found no burglars, but after talking with the woman became convinced that she was unbalanced and they took her back with them for safe keeping.

Hammers Recovered.

Inspector McKay recovered seven more bush hammers in Boston pawnshops on Tuesday. It also developed ...dye of these are alleged to ...ve ...by H...

Mystery As to Fund

(Continued from Page 1.)

penditures and conduct of the school with scant courtesy. Undoubtedly the entire management of the fund is with the supervisors; but the fund was given to the citizens of Quincy; and they have a moral, if not a legal right, to be kept informed of its state.

It may be allowed however that the income of the fund is not sufficient to conduct the academy on the lines of its past efficiency. The building is in need of immediate and extensive repairs; and the sum hitherto paid to the master and assistants, while decidedly below the average salaries for such work, is yet not sufficient to maintain a proper staff to prepare boys for college in a four years' course. Hence it is held that the school must be discontinued at once, and the funds otherwise disposed of.

The question then becomes, does the continued existence of the school depend upon the immediate accession of such a sum of money as would enable it to be kept up on a proper basis? It is fair to say that if Mr. Carnegie or Mr. Rockefeller were disposed to present the supervisors with fifty thousand dollars, the school need not close. Nobody expects such a gift; but I mention such an idea to show that the continuance of the school is not beyond reasonable possibilities; could not the necessary increase of income be obtained elsewhere? And here we are met with a strange objection which seems to haunt the minds of many citizens. That additional funds, if obtained at all, must come from the descendants of the founder. Ever since the school was opened, this idea has been repeated over and over again, long after it was known that no funds were to be obtained from that source, as if the school was in some way the property of the founder's kin, and could no more receive outside help than could the private house of one of the name receive an addition. Even now, it is understood that many citizens think the representative of the founder has a right to close the school, without reference to outside opinion, as being in a manner his property.

CLAIMS OF SCHOOL.

The answer to this contention is very simple. An outside gift has been accepted by the supervisors. The surviving executor of the Robert Charles Billings estate transferred a large sum of money to the supervisors for the benefit of the pupils. This event happened about two years ago; and the gift was accepted by the supervisors when they could hardly have been ignorant of the state of the fund. Certainly this gift was never intended for the benefit of the Quincy schools.

If no funds have been forthcoming from the quarter from which persons choose to assume they ought to have come, are there no others on whom the school fairly has claims for support? Claims possibly of a secondary rank, but still claims? Is it nothing to the citizens of Quincy, especially the graduates of the academy, that such an institution should disappear. Three thousand dollars a year would amply suffice to save the school. Have we not thirty citizens who could give one hundred dollars a year at least for ten years? or sixty who would give fifty? or one hundred who could give thirty? It seems to me such suggestions are not absurd.

But granting that they cannot be carried out—what is the objection to closing the school, or keeping it closed till the funds can accumulate? The building need not stand idle. With all its faults, it could be utilized and can rent for many purposes. The Woodward Institute, nay, the new High school itself will probably require extra room from time to time; the immediate pressure in the Coddington and Cranch districts must be met; and there are other bodies which would find the academy building eminently central and otherwise convenient for meetings. Moreover there is a decided superfluity of land around the building itself, and this might be disposed of, while leaving the school house property in view from Hancock street. That there are precedents in the state for keeping our ancient academies closed for a time, till their funds accumulated, is I believe true.

HONORABLE HISTORY.

I have carefully forborne to touch on what many persons habitually disregard, but which still is a real thing, the sentiment, the associations connected with the schools. It has educated boys for an entire generation; before such extraordinary demands were made on boarding schools it attracted pupils from all parts of the country. Not only in this neighborhood, but in San Francisco, Arizona, Natchez, St. Louis, Milwaukee, Louisville, Detroit, Auburn, Charleston, New York, its graduates still cherish a grateful memory of the days they passed ,and the lessons they learned within its walls. Bronze tablets in its porch commemorate the services of two masters, who gave their whole energies to its service, and died in harness when long under fifty years of age. There have been gathered within its walls specimens of art and literature of no slight interest. It has a history; that history, honorable and beneficent, is fresh in the minds of many grateful sons and grateful parents. It seems as if such a school ought not to perish. Let its life be preserved,—preserved by waiting if not by action; and so not let the memory of Quincy's noblest citizen pass from his conspicuous and well known gift, to an obscure room which may itself be made to disappear in the course of years under that mistaken idea of necessity which means only reluctance to preserve the memorials of our greatest worthies by moderate sacrifices.

PRESIDENT PIPER

Retiring President Of City Council Now at Head of Board of Trade

The annual meeting of the Quincy Board of Trade was held Wednesday evening at the rooms in the Adams building. President T. L. Williams presided, and there was a large attendance of members.

WALTER E. PIPER.

During the first part of the evening Frank F. Crane, who represented the board at the recent River and Harbor Congress at Washington, gave a report of that hearing. He spoke of the great enthusiasm all over the country in this matter and of its importance to Quincy and Massachusetts.

He also read the following bill which was introduced Dec. 16 by Congressman Greene of Fall River.

"Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

That the Secretary of War be authorized and directed to cause a survey to be made of a route for a ship canal from Fall River harbor to Boston Harbor, Massachusetts, following approximately the line of Taunton river, thence by way of the cities of Taunton and Brockton by way of Weymouth Fore river to Boston Harbor, and that a report be made showing the practicability and probable cost of such a canal for light and great draft vessels."

A vote of thanks was given Mr. Crane at the conclusion of his remarks.

The regular business of the meeting was taken up. Several were elected to membership and the reports of the officers for the past year read.

The secretary's report showed that 59 had been admitted to membership during the year, making the total membership to date 114.

The treasurer's and auditor's report showed the total receipts for the year to have been $952.09, and the expenditures $950.27.

J. W. Pratt, C. C. Foster, E. J. Sandberg, E. R. Stone and John R. Richards were appointed to present names for the different offices.

After this report a vote was passed instructing the secretary to cast one ballot for Walter E. Piper for President.

A similar vote was passed in relation to the election of Charles H. Johnson as treasurer.

The other candidates were elected by ballot. The full board of officers elected is as follows:

President—Walter E. Piper.
Vice President—John R. Richards.
Secretary——Arthur W. Stetson.
Treasurer—Charles H. Johnson.

Directors—The above officers with T. L. Williams, Eugene R. Stone, and Eugene C. Hultman.

Thanks were extended to the retiring officers. Before leaving the presidents chair, Mr. Williams said he had a pleasant duty to perform. He made a few extemporaneous remarks about one of the members who had recently led a fair lady to the altar, and then presented John R. Richards with a beautiful silver water set in behalf of the officers and members of the Bird party.

For once John was at loss for words, and it was some minutes before he could recover his voice, which had gone down into his boots. He then thanked one and all for their pleasing gift.

The inscription on the silver pitcher read: "From officers of the Quincy Board of Trade, Jan. 1, 1908."

Following this there was an informal discussion on the abolition of the grade crossings in Quincy.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Houghs Neck Associates

After the Quincy people had departed from the Houghs Neck reception Tuesday night a business session was held at which it was voted that the association should be hailed and known as the Houghs Neck Associates, and that regular meetings should be held the fourth Wednesday of each month.

O. F. O'Brien, William Norteman and William Hutchins were appointed a committee to confer with Supt. Gammons about street car service.

A vote of thanks was passed for the use of the hotel for the gathering.

John Hancock Lodge.

On Wednesday evening D. D. G. M. Edward B. Prouty and suite of Rockland installed the following officers of John Hancock lodge, No. 224. I. O. O. F., of Wollaston:

N. G.—Herbert Thomas.
V. G.—Herbert D. Gearwar.
Rec. Secretary—George C. Ela.
Treasurer—Judson L. Smith.
Warden—Lawrence W. Frost.
Conductor—Charles M. Houghton.
O. G.—David Conway.
I. G.—Theodore C. Hay.
R. S. N. G.—Frank B. Woodruff.
L. S. N. G.—John C. Ward.
R. S. V. G.—Albert N. Birse.
L. S. V. G.—John M. Gordon.
R. S. S.—Frank E. Curtin.
L. S. S.—Verna J. Beede.
Chaplain—Thomas F. Mitchell.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Watch Night and Special Meetings

The watch meeting Tuesday night at the Hall place M. E. church was well attended and interesting.

At 8.30 the election of a lay delegate to the conference soon to be held in Worcester resulted in the choice of F. Wesley Fuller.

At 9.30 a church home hour was enjoyed being almost wholly of a social nature.

"With something to sing
And somthing to say
And (of course) something to eat
But nothing to pay."

During this hour delicious refreshments were served to all by the Ladies' Aid. The following program was also given:

Piano solo—Ernest Williams.
Music—choir.
Purpose of the Ladies' Aid—Mrs. William McCormick.
Song—William Williams.
Our Sunday School—Miss M. K. Shirley.
Ways in which men can help—Richard Moyle.
Music—choir.
Epworth League possibilities—Miss Hilda Francis.
Music as a help in the work—Charles Gouchier.
What the community owes to the church—Merton Turner.
What the church owes to the community—John Pierce.
"Outlook—Pastor.

At 10.30 a song service followed by a retrospect with some thanksgivings.

At 11.45—A message.
At 11.55—A resolution.
At 12.01—New Year's greetings.

The meeting was conducted throughout by the pastor, Rev. Carl H. Raupach, and was pronounced as being one of the best watch night services ever held here.

Special meetings in the interest of "The Christian Life" are being held each evening at 7.30 and will continue until further notice, Saturday evenings excepted.

On Sunday beside the regular services there will be a meeting for prayer at 10. A. M., and a childrens rally at 3 P. M., when the pastor will give an illustrated talk to the boys and girls.

All will find a cordial welcome to all these meetings.

Reception At The Y. M. C. A.

The annual New Year's reception of the Quincy Y. M. C. A .was held on Wednesday evening with Mayor Thompson and Mayor-elect Shea as special guests, and a large attendance of the parents and friends of the members.

Preceding the reception there was a social hour in which the guests became acquainted, enjoyed the music of the Association Mandolin and Guitar Club, viewed an extensive calendar exhibit, played pool and bowled and visited the gymnasium.

The formal reception was in the parlor, and there were ten in the receiving party, in the following order: President R. D. Chase, Mayor Thompson, Mayor-elect Shea, Rev. N. J. Sproul, Rev. E. N. Hardy, Mrs. Herbert W. Pinkham (president of the Women's Auxiliary), Herbert W. Pinkham, Mrs. E. G. Gay, Mrs. E. D. Gourd and Secretary Gay.

The ushers were W. F. Cummings, H. P. Dowst, Amos Leavitt, E. D. Gourd, H. O. Cassidy, F. W. Crane, and V. E. Miller.

The reading room was converted into a dining room, and was a popular place. Mrs. H. P. Dowst presided at the punch bowl, and Mrs. N. G. Nickerson at the coffee urn. Cake and confectionery were passed by Mrs. W. E. Burke, Mrs. W. F. Cummings, Mrs. E. S. Tenney, Mrs. M. T. Holbrook and Mrs. George Macfarlane.

Physical Director Maxwell furnished the entertainment during the last hour. Some of his star athletes appeared on the floor of the gymnasium as novices from "Wayback." They made considerable fun, but beneath it all showed that they were clever on the parallel bars, the horizontal bar, and at tumbling.

The artists included Russell Tupper, Romeo Picard, William Griffith, Helmuth Ulrick, Joseph McDonald, Carl Tirrell, Archie Levangie and others who completely hid their identity.

This was followed by an unique basket ball game in which the Midgets were pitted against the Giants. They held up their side, however, and the result was a tie, 6 to 6.

Banquet of the Pickwick Club

One of the pleasant annual events of the Quincy Pickwick club is the anniversary dinner and on Wednesday evening occurred the 35th of these happy occasions, when twenty-four members of the club and their guests dined at the United States hotel, Boston.

After enjoying an excellent menu, the president, Mr. Wilson Marsh, introduced Mr. W. Ward Whitcher of Atlantic, who with his usual versatility, entertained the club in a most pleasing manner. Together with much that was original, Mr. Whitcher gave selections from Kipling, Eugene Field and Whittier in which wit and pathos were intermingled.

The evening's entertainment was interspersed with anecdotes in lighter vein by the club members, and the 35th anniversary will be remembered by all present as a successful and an enjoyable one.

Record of City Council of 1907

The City Council of 1907 made quite a record for itself, having held 31 meetings and been in session 49 hours and 10 minutes, an average of 1 hour and 35 minutes for each meeting. The average attendance at these meetings was 16 members.

The longest meeting was March 25, and was of 3 hours and 55 minutes duration. The shortest meeting was August 29 and was 5 minutes long.

President Piper, Councilmen Polk and Walsh had a clean record, having been present at every meeting. Councilmen Pinkham and Teasdale were absent but one meeting.

One member was absent 19 meetings and two were absent 13 meetings each.

During the year the Council received 101 comunications and 80 petitions.

The number of orders introduced was 353, the largest in the history of Quincy Councils and was an increase of 70 over the year 1906.

Happy New Year Wollaston Baptists

In the newly fitted parsonage of the First Baptist church on Prospect avenue, Wollaston, on New Year's night, Rev. and Mrs. E. D. Webber held a very pleasant reception. Between 200 and 300 of the parishioners and other residents of Wollaston extended congratulations to the pastor and wife from 8 to 10. It was the first occasion for many of the guests to see the interior of the parsonage, which a few months ago was entirely renovated at an expense exceeding $1000 by the trustees of the church.

In the receiving party were Rev. and Mrs. Webber, Mr. and Mrs. Herbert B. Bailey, and Mr. and Mrs. Amos D. Albee. The guests were presented by Oscar L. Blaisdell, Walter Thomas and Fred Beckwith.

Proceeding to the library the guests found themselves at a table where punch was being served by Miss Marion Barker and Miss Gertrude Barbour.

In the dining room a prettily decorated table held refreshments, which were served by Mrs. A. G. Olney and Mrs. C. D. Young, assisted by Mr. Olney, Mr. Young, Mrs. Edwin Gannett, Miss Edith Barker and Miss Marjorie Rideout.

In the parlor Miss Florence Olney, the organist of the church, presided most acceptably at the piano. Pleasing baritone solos were rendered by Mr. A. L. Hayden of Quincy, and piano solos by Miss Ruth Hardy.

The Wollaston Baptist church has reason to be proud of the auspicious opening of the New Year, with an able pastor, a willing helpmate, a fine parsonage, and the church well equipped and organized.

New County Commissioner

It was Inauguration day for Norfolk county on Wednesday, and Silas A. Stone of Sharon took the oath of office as county commissioner on the board with John F. Merrill of Quincy and Evan F. Richardson of Millis. Lewis R. Whitaker and John Everett have been reelected as associate commissioners.

Samuel H. Capen of Dedham, who was reelected sheriff, took the oath of office, and has reappointed deputies as follows: Edward E. Wentworth, Cohasset as special sheriff; Charles C. Henry of Wellesley; Jerome B. Fitzpatrick of Franklin; Oscar D. Capen of Canton; George H. Field of Quincy; Thomas Farrell of Randolph; William Wragg of Hyde Park; D. Edward Beede of Brookline; Albert Fales of Norwood; Oliver J. Curtis of Stoughton; George W. Conant of Weymouth and Charles F. Pond of Wrentham.

A Happy New Year.

Just Jotted Down By Ledger Men

Have you written it 1908 every time since the new year came in?

Mrs. William Given of Scituate called on friends at the Park and Downs on Wednesday.

A box lunch meeting of the Fragment Society will be held next Wednesday, from 10 to 3.

Mrs. J. Miller of Winthrop has been spending two weeks with Mrs. R. H. Fraser of Beach street.

Henry Milbury of Somerville was the guest on Wednesday of Captain E. A. Snow of West Elm avenue.

Fred J. Gross of Auburn, Maine, visited his mother, Mrs. Fred A. Gross of West Elm avenue on Wednesday.

Harry Kayo of Willow street is spending his Christmas vacation with his sister at The Westminster, Boston.

Mr. and Mrs. C. A. Jones are visiting their sister, Mrs. George D. Emerson of Hancock street, Norfolk Downs.

The engagement is announced of Miss Minnie Lincoln Wrisley of 42 Edison street to Mr. George Henry Bent of Chciago Ill.

Mrs. Wong of Willow street is the proud mother of a baby boy born Tuesday night at The Westminister, Boston.

This week Wednesday, Thursday and Friday evenings special prayer meetings are being held at the Park and Downs Congregational church.

The Epworth League service at the Wollaston M. E. church Sunday evening will be led by J. A. Sedgwick, subject, "Secret prayer and the informing spe[c]ower of the word."

Fra[n]The election held Tuesday evening in caus[e] the Wollaston M. E. church, to choose the h[e]egates to the District Conference to [be] held in Worcester in April, resulted [in] the election of A. N. Murray as delegate and J. A. Sedgwick as alternate.

Dennis Connelly, the veteran Boston driver for F. C. Packard & Co., had the misfortune to have 100 pounds of metal fall from his team upon his foot on Monday. The accident was painful and will confine him to the house a few days.

Reform Club Election.

Quincy Reform club at its annual business meeting held at Faxon hall on Monday evening elected the following officers:

President—A. F. Macleod.

Vice president—Delcevare King and Frank M. Chubbuck.

Trustees—Theophilus King, Rev. E. N. Hardy and Elmer W. Baker,

Secretary and Treasurer—Henry Chubbuck.

Sergeant at Arms—James F. Merrill.

Marshal—Joseph W. Whiting.

This is the oldest total abstinence society in Quincy being organized Feb. 27, 1876, and owns the building known as Faxon hall.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

LAW IS DEFECTIVE

Betting Allowed at Certain Race Tracks In New York

HUGHES CALLS FOR HALT

Discrimination In Penalties Has Brought the Administration of Law Into Contempt--Wants It Corrected and Would Imprison Offenders

Albany, Jan. 22.—The legislature of 1908 has convened, completed the necessary organization, heard the second annual message of Governor Hughes, and adjourned until next Monday, when the actual work of the session will begin.

The striking feature of the day was Governor Hughes' second annual message, particularly that part of it recommending that the laws be so amended as to suppress race track gambling in this state.

Under the present law bookmaking and pool selling is permitted in certain narrowly confined sections, while in any other portion of the state such acts are held to be felonies. The places where such gambling now is permitted are within the enclosures of the licensed race tracks which operate under the supervision of the state racing commission. Betting at the race tracks became possible as a result of amendments to the constitution and the penal code, made by the legislature of 1895. As amended the constitution provides:

"Nor shall any lottery or the sale of lottery tickets, pool selling, bookmaking, or any other kind of gambling hereafter be authorized or allowed within this state, and the legislature shall pass appropriate laws to prevent offenses against any of the provisions of this section."

The governor says: "Following the addition of this provision the legislature amended the penal code so as to make it a felony to engage in pool selling or bookmaking at any time or place or to record bets or to occupy any place or stand for such purposes. It made an exception, however, of cases where an exclusive penalty was otherwise provided.

"At the same time, by the so-called racing law, a different and exclusive penalty was provided for bookmaking and pool selling on authorized race tracks, provided no memorandum or token of the bet was delivered. This exclusive penalty consists of the forfeiture of the amount wagered, to be recovered in a civil action. The constitutionality of this discrimination," says the governor, "has been upheld by the court of appeals on the ground that in carrying out the provisions of the constitution it was in the discretion of the legislature to fix the penalty and in the cases specified the legislature could make the penalty simply a forfeiture of the bet, to be recovered in a civil action. The question for the court was simply one of legislative power.

"A different question, however, is presented to the legislature in the exercise of its discretion, and that is the question of legislative policy and of a substantial, and not a mere technical, compliance with the explicit constitutional provision.

"The constitution makes it the duty of the legislature to enact appropriate laws to prevent pool selling, bookmaking and other kinds of gambling. Experience has shown that the laws enacted have not accomplished the purpose which the constitution defines. The evils and demoralizing influences and, it may be added, the economic waste, at which the constitution aimed, exist under the law and, in fact, are stimulated and increased through its provisions.

"The discrimination in penalties now existing rests on no distinction that is justified to the popular mind. Public sentiment is against such arbitrary distinctions, with the result that the laws against gambling on race tracks have been defied, and the administration of the law has been brought into contempt.

"The constitution makes no exception of race tracks. I recommend that the legisature carry out the clear direction of the people without discrimination. In connection with the repeal of the existing exception, I recommend that the offenses described in the penal code should be punished by imprisonment and that the alternative of fines should be abolished."

Pasadena's Rose Tournament

Pasadena, Cal., Jan. 2.—Pasadena's annual tournament of roses was held yesterday. Buds and blossoms of every hue and color, foliage and ferns of countless kinds, plants, shrubbery, twigs and vines of all varieties were gathered to make it the greatest day in the history of the city. The floral parade was formed in six divisions, headed by the Queen of Roses and her court. The parade extended four miles. Upwards of 70,000 persons lined the route of march.

French Victory In Algeria

Bally Maghnia, Algeria, Jan. 2.—General Yautey, commanding the French troops, considers that the operations against the frontier tribes are ended and that they have met with complete success, his men having penetrated the mountain fastnesses and Marabout Boutchich, the prime instigator of hostility toward the French, and the few remaining chiefs having surrendered yesterday.

MYSTERY UNFATHOMED

No Clue to Identity of "Woman In Red" or Her Slayer

New York, Jan. 2.—The mystery surrounding the murder of the "woman in red" is as impenetrable seemingly today as when her nude body was discovered on Christmas day, partly concealed in the water and slime of a pond near Harrison, N. J.

Baffled at every turn, the detectives have failed of a single clue to lead to the identity of the woman or her slayer. The identifications of the dead woman by Mrs. Hattie Hull and Detective Drabell of Orange, N. J., have completely collapsed and left the case more puzzling than ever. Word was received from Philadelphia that Agnes O'Keefe, whom Drabell believed the murdered woman to be, had been found in that city. Mrs. Hull's identification is not credited by the police.

The Harrison city council will offer a reward of $1000 for the arrest and conviction of the slayer of the woman. In the hope of finding a new clue in the way of clothing or effects, the pond in which the corpse was found is to be drained. The Belgian police hounds which Police Commissioner Bingham imported recently for trailing malefactors on the outskirts of New York will be used to track the murderer, Chief of Police Rogers of Harrison having asked for permission to use the dogs.

Saved Many From Suicide

London, Jan. 2.—Twelve months ago General Booth of the Salvation Army started anti-suicide bureaus in various cities of the world and he now has issued a review of the year's work. Altogether 1125 men and 90 women sought the assistance of the London bureau to save them from self-destruction, while about an equal number applied at the bureaus in other cities. Booth thinks it safe to say that 75 percent of the applicants have been diverted from contemplated suicide and helped to surmount their difficulties.

Renewal of Bomb Outrages

Barcelona, Jan. 2.—In consequence of the renewal of the campaign of bomb outrages by local anarchists, King Alfonso has signed a decree provisionally suspending a portion of the constitutional guarantees in this city. Last night a policeman found a large bomb on the doorstep of a mansion. In carrying it away the machine exploded, frightfully mutilating the officer, injuring several bystanders and partially wrecking surrounding buildings. The policeman died of the injuries he sustained.

Comstock Summoned by Thaw

New York, Jan. 2.—Anthony Comstock, secretary of the New York Society for the Suppression of Vice, will be a witness for the defense when Harry K. Thaw is again placed on trial for killing Stanford White. This was learned upon the serving of a subpoena on Comstock. By means of letters from Thaw to Comstock, counsel hope to show that Thaw was mentally unbalanced just prior to the shooting.

Mosquito Indians Making Trouble

Panama, Jan. 2.—Passengers arriving at Bocas del Toro from Bluefields, Nicaragua, report that the Mosquito Indians have risen against the government of President Zelaya, who is accused by them of being responsible for the death of their chief. The commander of a British man-of-war cruising in Nicaraguan waters landed bluejackets, ostensibly to protect the menaced interests of foreigners.

Prohibition Law Stands

Atlanta, Jan. 2.—The most notable feature of the first day of prohibition in Georgia was the refusal of Judge Newman, in the United States circuit court, to grant an injunction pending litigation which would prevent the operation of the prohibition law. Papers in the case were filed late Tuesday on behalf of two breweries, one in Chattanooga and the other in Cincinnati.

Worrying Over Empress

St. Petersburg, Jan. 2.—The present condition of Empress Alexandra, who has been ill for some time from the grip and is in a weakened condition as the result of a severe regimen to reduce her weight, is complicated by expectations of childbirth. Under these circumstances her general weakness is beginning to arouse concern.

Labor and Woman Suffrage

Boston, Jan. 2.—Mrs. Cobden-Sanderson of London, the English woman suffragette, spoke in Boston last night, a large audience, composed mostly of women, listening to her address on "The Power of the Wage Earner." She made an appeal to labor men to stand together and to join in aid of the women's suffragist question.

Rich Man Fell to Death

New York, Jan. 2.—Henry J. Miles, a wealthy machinery manufacturer, fell from the seventh story of an apartment house in which he was living and was instantly killed.

Lived 119 Years

Hillsboro, Or., Jan. 2.—Mrs. Mary R. Wood died yesterday at her daughter's home, aged 119 years. Mrs. Wood was a native of Tennessee.

Pettibone Is Very Sick

Boise, Ida., Jan. 2.—George A. Pettibone has been in the hospital since adjournment of court Tuesday and his condition is very serious.

The Weather Forecast

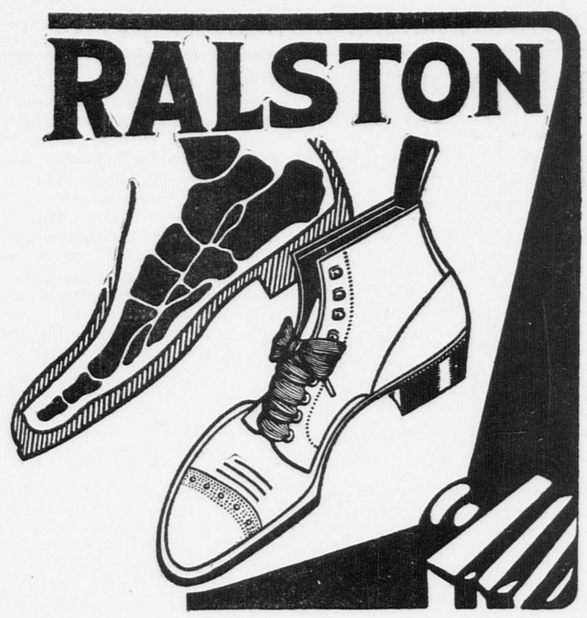

Almanac, Friday, Jan. 3.
Sun rises—7:14; sets—4:23.
New moon—4:45 p. m.
High water—10:30 a. m.; 11:15 p. m.
The weather will be generally fair and colder in New England.

For Coughs

Never hesitate to ask your doctor about Ayer's Cherry Pectoral. It is a regular medicine, a strong medicine, a doctor's medicine.

It would be very interesting to know how many years your family physician has prescribed Ayer's Cherry Pectoral for coughs, colds, and all forms of lung troubles. Ask him the next time you see him. We know physicians who have used it for over half a century. J. C. Ayer Co., Lowell, Mass.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

A WANT AD. will bring it if anything can!"

HARMONY DISTURBED

One Member of Bay State Legislature Opposed Speaker

REFUSED TO VOTE FOR HIM

Unusual Number of Noted Men to Pass Upon Affairs For Massachusetts--Characteristics of Some of the Newly-Installed Lawmakers

Boston, Jan. 2.—The state house sparkled today with the brilliance of Governor Guild's third inaugural, which set the legislature into the whir of its six months' session.

Today is the second in the session of the general court for 1908, the first day having been started yesterday with the organization of both branches with the re-election of Speaker Cole and of President of the Senate Chapple.

The most sensational event of the reassembling of the legislature was the opposition shown in the Republican caucus by Representative White of Brookline against the renomination of Cole.

It was in the middle of a most peaceful flood of harmony. Mr. Weeks of Everett had just nominated the speaker in a speech of praise. The speech had been seconded when White arose and said that for one he would not vote for Cole.

"I, for one, believe that John N. Cole is smart, that he is capable, and will give to the commonwealth the best ability he has as speaker," said White, "but I also believe that he holds political ambition higher than the good of this old commonwealth. Therefore, I am doing what is the most disagreeable duty of my life. I have no nomination to make, and I may be alone in voting against Mr. Cole, but I say that I know we are putting ourselves on record as doing something which is not for the best interests of the commonwealth, something that has been arranged by a machine."

Representatives Pattison of Barnstable and Ferber of Boston made short replies in answer to White, and the incident closed with the nomination of the speaker unanimous except for White, who voted a positive "no."

In the house the speaker was elected with 214 of the 220 votes cast. Davis of Salem got four, Dean of Wakefield got one, and there was one blank.

An echo of the tempest in the house caucus came on the re-election of Sergeant-at-Arms Remington, when three votes were cast for White.

A survey of the house and senate this year reveals the fact that there are an unusual number of celebrated men to pass upon the affairs of the state for the next six months.

"Dan" Morgan is still the richest man in the legislature, according to the gossip of the corridors. The best dressed man in the legislature is Senator Shaw of Manchester. The tallest man is Representative Cushing of Boston. The shortest is Senator Turner of Fall River. William E. Weeks of Everett is the "boy orator." Senator Abbott has been christened as the "kid" of the legislature on account of his health food smile. Senator Jenney of Hyde Park is the heaviest. Senator Williams of Attleboro is the lightest. Senator Dixon of Boston is the silent man. Captain Fogg of Newburyport and Captain Dixon are the lone fishermen of the legislature.

The oldest man in the legislature is Lucian B. Stone, born in September, 1829. The youngest is Harry Ham of Dorchester, born in March, 1883. As to the most and least attractive in personal appearance, there is a question of doubt that will not be settled until the big group pictures are finished and hung in the corridors at the end of the session.

Rioters Attack Street Cars

Muncie, Ind., Jan. 2.—Five persons were injured and two street cars were riddled with stones in a riot after an attempt by the Indiana Union Traction company to run cars manned by strike-breakers. The strike followed the refusal of the company to renew the wage agreement that has been in effect for five years. Efforts by the sheriff to swear in deputies were fruitless, for not a man would act.

No More Gambling In Denver

Denver, Jan. 2.—The closing of a gambling establishment at Petersburg by direction of District Attorney Smith of Arapahoe county marks the passing of the last gambling table near Denver. A prize fight which was to have been held at Petersburg last night was declared off when the authorities announced that such fights would not be permitted.

Judge Grants Liquor Licenses

Birmingham, Ala., Jan. 2.—Declaring the prohibition laws so far as 1908 is concerned unconstitutional, the probate judge of Cullman county issued nine saloon licenses. The mayor is said to be preparing to issue city licenses for saloons in the city of Cullman. Cullman county voted on Dec. 9 for prohibition.

Cord About Infant's Neck

Canton, Mass., Jan. 2.—The body of an infant not more than two days old was picked up on the shore of Muddy pond. Death had been caused by strangulation. The little body was wrapped in an old towel and a cord was tied around its neck.

TAFT IS COMING AGAIN

To Make Speeches at Concord and Fitchburg In March

APPRECIATES HUB WELCOME

War Secretary Calls on Cortelyou, Who Has Taken Himself Out of the Presidential Race--Campaign In the South Will Help Taft

Washington, Jan. 2.—Enthusiastic over the cordiality of his reception in Boston, Secretary Taft returned to Washington and plunged at once into a mass of correspondence that had accumulated in his absence. As the secretary and his family are in mourning they did not attend the New Year reception at the White House. Taft spent most of the day in his office.

"It is a pleasure," said the secretary to a newspaper correspondent on his arrival, "for me to express my very genuine appreciation of the welcome accorded me in Boston. It has touched me the more deeply because that was my mother's native city, and, as much of my boyhood was spent in Millbury, Boston was always 'town' to me. I was made to feel welcome from the moment of my arrival, and I am glad of the opportunity to express my warm thanks for the hospitality I received."

The secretary will make another trip to New England early in March. He has accepted an invitation to speak at Concord, N. H., and also at Fitchburg, Mass. He has received several other New England invitations, but these are the only engagements he has definitely accepted.

It is probable that several political announcements of far-reaching importance will be made during the next ten days. The announced determination of Taft on his return from his trip around the world to turn a deaf ear to the backbiting and bitter criticism which was rife in administration circles and for which some of his supporters were responsible has had a good effect, and he showed that he meant what he said by making a personal call upon Secretary Cortelyou at his residence. This appears to have shown the friends of Cortelyou that Taft was determined that the secretary of the treasury should have a square deal in the political field.

The result is that now that Cortelyou has for the time at least taken himself out of the race, his friends are disposed to feel very friendly toward the Ohio candidate. John G. Capers, commissioner of internal revenue and one of the men responsible for the southern third-term coalition, has let it be known that as Roosevelt and Cortelyou are out of the running, he is prepared to support Taft. The support of Capers will be especially valuable on account of his influence among southern Republicans. In addition to being national committeeman from South Carolina, he has considerable influence in North Carolina, Georgia and Florida.

The name of Frank H. Hitchcock, first assistant postmaster general, has frequently been mentioned recently in connection with the Taft campaign. The friends of Hitchcock declare that he has at no time been hostile to Taft. If the secretary should succeed in winning his support it is generally admitted that he would have acquired the services of a very clever politician. No man in the administration save the president is in closer touch with the southern Republicans than Hitchcock.

But no announcements regarding Hitchcock or Capers may be expected for a few days, as Taft has engagements with several friends from New England, New York and the west, whose advice he wishes to get, before making any political announcement about the conduct of his campaign.

Instead of selecting any one man for campaign manager it is not improbable that a number of men from various sections of the country, who are in thorough sympathy with the Taft policies, will be associated with him in his efforts to obtain the nomination.

"More Friendly" Toward Taft

Boston, Jan. 2.—A call for a conference of negro citizens to be held at Philadelphia on April 7 was sent out to representative negroes all over the country yesterday by the presidents of the Suffrage league of Boston and vicinity, National Afro-American council and the New England Constitutional and Suffrage league. The conference is called to determine what candidates for the presidential nomination most deserve the support of the negro voters.

To Pick Presidential Choice

Mobile, Ala., Jan. 2.—Ten thousand negroes yesterday celebrated emancipation day and adopted resolutions pledging "continual allegiance to Frank H. Hitchcock, first assistant postmaster general. And we consider Secretary of War Taft fortunate in securing such a man as Mr. Hitchcock to manage his interests in the southern states. We will now feel much more friendly in the future toward the Taft movement than we have in the past."

Car Got Beyond Control

Lewiston, Me., Jan. 2.—Five passengers on a street car were injured in a rear-end collision on Main street, caused by the brakes not working properly. The motorman and conductor both jumped from the car soon after it got beyond control. None of the injuries is considered serious.

BALL CHILDREN ALIVE?

Some Doubt That Mother Does Not Really Know of Their Fate

Brockton, Mass., Jan. 2.—A sensation was created for a time when an unknown woman telephoned the police matron that the missing Ball children were not dead, but in the care of a friend of Mrs. Ball. No name was given by the informant and the police take very little stock in the story.

There is an ever increasing doubt in the minds of the police and searchers for the children that their mother does not know of their fate.

The fact that she tells in sequence the happenings up to the time she lost the children and what occurred shortly after they were lost gives strength to the theory, and it is said that City Marshal Kingman will make a final, determined effort to get the truth from Mrs. Ball's lips within the next few days.

Blood-Stained Clothing In Court

Bennington, Vt., Jan. 2.—Two physicians were the principal witnesses at yesterday's session of the trial of Alfred Mahan, charged with the murder of his 4-year-old niece, Ethel Mahan. Dr. Gleason, who examined the body of the child on the night she was killed, testified that death was due to a deep cut in her throat. He found no evidence that the child had been criminally assaulted. Dr. Stone, who performed the autopsy on the body of the little girl, gave similar testimony. He exhibited portions of the child's blood-stained clothing.

Tax Is Legally Levied

Boston, Jan. 2.—The supreme court has ruled that Rear Admiral Dyer, retired, of Melrose, could not recover $36 from the city of Melrose, which was levied as a tax on his national bank account, which he claimed was levied illegally, as the bank account was a portion of the salary and emoluments of his office as an officer of the United States navy and exempt from taxation. The court ruled that the deposit was not a salary, but a bank deposit.

Sale of Trolley Road

Worcester, Mass., Jan. 2.—The Worcester and Holden street railway has been sold to the Worcester Railways and Investments company, which is controlled by the New England Investments and Securities company of Boston. The Holden road becomes a part of the Worcester Consolidated system, which now embraces all trolley lines entering Worcester with the exception of the Worcester and Boston road. The line is 12 miles long.

Insurance Commissioner Sustained

Boston, Jan. 2.—The full bench of the supreme court affirmed a decree in favor of Insurance Commissioner Cutting against the American Insurance company for an injunction and a receiver. The company suffered heavy losses in the San Francisco disaster and the insurance commissioner proceeded against the company on the ground that it was insolvent and its business hazardous to its policyholders and the public.

Murder Charge Placed on File

Boston, Jan. 2.—On the recommendation of the district attorney's office, the indictment against Frank Mule, accusing him of murder in the second degree, was placed on file in the superior criminal court. On the evidence the government would not expect to secure a conviction. Mule was charged with shooting Rasakalla J. Ayoub during a race war among Armenians. Mule was allowed to go on his personal recognizance.

Alleged Conspirator Sentenced

Boston, Jan. 2.—John W. Trafton, formerly an examiner of merchandise at the appraisers' stores, yesterday withdrew his appeal from a twenty months' sentence imposed on him in April, 1905, and was sentenced to serve his former sentence in jail for alleged conspiracy in the so-called custom house frauds. Trafton lost his right of appeal by not having entered the same at the session of the court in which he was convicted.

Judge Rebukes Law Student

Boston, Jan. 2.—"There are many in our own profession, God knows, who are not a credit to it, without those outside of it hanging to its skirts and further disgracing it." The above statement was made by Judge Burke in passing upon the case of Morris Rosen, a law student, convicted and fined $100 for an alleged larceny of $50 from a woman for whom he had undertaken to obtain a divorce.

Witness Changed His Mind

Boston, Jan. 2.—A surprise was sprung in the trial of former Greek Vice Consul Iatros of Lowell and John C. Simoyannis, charged with conspiracy to evade the immigration laws by bringing aliens into the country, in the United States district court, when Simoyannis retracted his plea of not guilty, pleaded guilty and turned government witness against Iatros.

Injunction Against Wilson

Boston, Jan. 2.—In consequence of the controversy which has developed within the firm of the Wilson Bros. company, jewelers, Judge Fox of the superior court has granted a temporary injunction against the president, John W. Wilson, to prevent him from handling the funds of the company. Wilson is charged with the larceny of about $4000.

Holyoke Factories Closed

Holyoke, Mass., Jan. 2.—Fifteen factories in this city are closed this week, partly on account of the New Year holiday and partly because of business depression. The number idle includes about 4500. It is expected that all the concerns will begin work next Monday.

HEADACHE

"My father had been a sufferer from sick headache for the last twenty-five years and never found any relief until he began taking your Cascarets. Since he has begun taking Cascarets he has never had the headache. They have entirely cured him. Cascarets do what you recommend them to do. I will give you the privilege of using his name." E.M. Dickson, 1120 Rosiner St., W. Indianapolis, Ind.

AERIAL NAVIGATION

Lahm Declares That It Will Become a Practical Success

USE OF BALLOON IN WAR

Spies Not Protected From Land Attack, but Would Be Fairly Safe While Sailing Over Enemy's Guns--Three Governments Experimenting

Washington, Jan. 1.—Lieutenant Lahm, U. S. A., who, in September of 1906, won for the United States the international dirigible balloon contest in France and who has returned to this country after four years spent in Europe, will report to General Allen, chief of the signal corps, for duty at Washington. Discussing aerial navigation and the progress made in it as an applied science, Lahm said:

"The chief war advantage of the dirigible over the old spherical, or wind-driven balloon, is that the former, after spying out an enemy's defenses and movements, can put about and return to its own lines with the information gained, while the old style vehicle had to depend on carrier pigeons or make a more or less perilous and uncertain descent and resort to ordinary means to send back reports.

"An agreement entered into by The Hague conference prohibits the dropping of shells from war balloons, so the field of operation is that of the scout purely. At the same time, The Hague conference failed to protect the aerial spy from land attack. However, the extreme difficulty of finding the range of a balloon sailing over an enemy's guns reduces the danger to a great degree, for the dirigible balloon is practically immune from big gun fire and a rifle ball would be of no consequence to the object itself, though it might to the occupants of the car.

"France, Germany and Great Britain are now equipped with dirigible war balloons and are constantly experimenting and building new ones. Italy has set her face to the task. Other European governments have held back, perhaps because of the great cost involved. The building of a dirigible balloon of the government type means an outlay of from $60,000 to $100,000. Germany has the largest dirigible ever built. It is so huge, indeed, that it cannot be easily handled and must be landed on water instead of on land for fear of a smash.

"As yet, the United States has made no move, so far as the public has been informed, toward the construction of a dirigible war balloon, but this government is deeply interested in the subject and may, I think, be expected to do something in that line. The dirigible balloon as a war instrument is no longer a theory. It has become a fact.

"I may say, generally speaking, that on the development of light and powerful enginery for purposes of propulsion depends almost entirely the practical success of the aerial navigation of the future. No one who is familiar with what has been accomplished in that direction doubts that success will be attained."

Railroad Finished by Torchlight

Fairview, Okla., Jan. 1.—By torchlight last night, tracklayers on the Kansas City, Mexico and Orient railroad drove the last spike on the road that connects Wichita with the South Fork of the Red river, a distance of 300 miles, and saves for the road a bond issue voted by Wichita and Sedgwick counties of $110,000. The first train was run over the line today. The tracklayers have been working night and day to complete the road.

Bank Teller's Second Arrest

Washington, Jan. 1.—Thomas G. Hayes, formerly receiving teller of the American National bank here, who was arrested Dec. 21 on a warrant alleging embezzlement of $535.32 of the bank's funds and who was subsequently released on $2500 bail, pending a hearing, has been rearrested. The warrant was sworn out by the national bank examiner, who makes additional charges against Hayes.

Lower Rents at Gotham

New York, Jan. 1.—The systematic campaign for lower rents by thousands of tenants on the East Side began to show material results yesterday when many landlords announced that they were ready to make reductions. Some offer compromise propositions, but in the main the tenants are holding out for a material reduction.

Wants to Extradite Cooke

New York, Jan. 1.—"I will immediately ask for the extradition of Jere K. Cooke, who eloped with Floretta Whaley of Hempstead, L. I., just as soon as I receive word from Mrs. Cooke that he is to be made defendant in abandonment proceedings," said District Attorney Coles of Nassau county last night.

Prohibition Law Attacked

Atlanta, Jan. 1.—A bill was filed in the United States circuit court last night, asking that the Georgia prohibition law be declared unconstitutional. Judge Newman has taken the matter under consideration.

Another New York Subway

New York, Jan. 1.—The public service commission has approved preliminary plans for a new subway extending from the Battery to the Bronx. The estimated cost is $60,000,000.

THOMAS GAMMON, Div. Supt.
J. T. CONWAY, Supt.

ATTRIBUTED TO FIREBUGS

Great Summer Hotel Burned, Entailing a Loss of $300,000

Gloucester, Mass., Jan. 2.—The Colonial Arms, the largest summer hotel on the north shore, was burned last night with nearly all its furnishings. The loss is estimated at $300,000. The hotel was built four years ago. The lessee was A. J. Sherrard, who conducted it last summer. On Sept. 15 the house was closed for the season, and since then it has been unoccupied. The fire is believed to have been the work of a firebug.

The Colonial Arms was a wooden structure, three stories in height at the front, which faced the harbor, and five stories at the rear. It contained 500 suites of rooms, all furnished in a more pretentious style than is customary in the average summer hotel. Its patrons included wealthy families from all parts of the country, and its wide piazzas and great ball room were the scenes of brilliant social functions during the summer months.

The destruction of the great caravansary, as the flames licked it up section by section, in spite of the efforts of the entire fire department, was watched with helpless dismay by thousands of Gloucester residents. From the western wing, where the blaze originated, the fire spread steadily and quickly through the structure.

The fire in the hotel was discovered by the caretaker of the building, who occupies a house in the vicinity. During the day carpenters and painters had been at work there making repairs, but they left about 4 o'clock. It was more than two hours later that the fire broke out.

Seamy Side of Brooklyn

New York, Jan. 2.—A long record of killings, assaults, accidents and minor crimes was written in Brooklyn police blotters yesterday. Gas escaping from a partly open burner asphyxiated Jacob Spriesterback and his wife in their home. An unknown burglar was shot and killed while trying to enter David Jaffe's store. The police are hunting for Frank Fereso, who shot and killed Michael Schindello as an outcome of an altercation. Hattie Shubert took umbrage at a remark made by her husband in their home and seriously stabbed him. After a quarrel with his wife, Achibald P. Mitchell took his life by inhaling illuminating gas in his home.

Druce Claimants Dissatisfied

London, Jan. 2.—The attorneys of George H. Druce, the claimant for the vast estates of the Duke of Portland and for the duke's title, express dissatisfaction over the conduct of the exhumation of the body of Thomas C. Druce because the floor of the vault was not opened. They say that their representatives at the exhumation were instructed to demand that this be done because they had received letters stating that a second coffin, containing lead, would be found there.

Twenty-Five Rounds to a Draw

San Francisco, Jan. 2.—Owen Moran, champion featherweight of England, fought twenty-five rounds to a draw with Abe Attell, champion of America. Moran was strong and aggressive, quick as a flash and kept after Attell all the time. Attell had plenty of opportunity to show his cleverness in keeping away from the rushes of the Briton. While interesting, the fight was not particularly exciting and did not come up to the standard of a championship contest.

Train Went Down Embankment

Barrie, Ont., Jan. 2.—An express was derailed near here last night. The whole train, with the exception of the locomotive, rolled down a forty-foot embankment and made three turns before it reached the bottom. The stove in the second car set the train on fire and it burned. All the passengers, of whom fifteen were injured, were taken out safely. The injured were brought to a hospital here, where it is said their injuries are not serious.

Assured of Blessing

Baltimore, Jan. 2.—Cardinal Gibbons expressed his opinion of the outlook for the next year in the following words: "The prospects for 1908 appear very fair. The most reasonable way to judge of the future is by the light of the past, and we find that if Almighty God had inflicted upon us some trials, the blessings he has vouchsafed have always exceeded them. This has been the experience in the years gone by."

New Year's at White House

Washington, Jan. 2.—President Roosevelt received a New Year's throng of 5645 well-wishers at the White House yesterday which took two hours in passing him. Mrs. Roosevelt and the members of the cabinet and their wives were his assistants. The reception was marked by all the incidents of tradition which accumulated for more than a hundred years.

NEWS IN BRIEF

Mgr. Agius, the papal delegate in the Philippine islands, has recommended to the Vatican the appointment of an American ecclesiastic as bishop of Jaro to replace the late Mgr. Rooker.

Mrs. Elizabeth A. Boswell, a Daughter of the Revolution, died at Worcester, Mass., aged 89 years. She had been sick but one day of pneumonia, formerly having exceptionally good health.

The body of Erastus K. Dean, 65, a well known citizen of Raynham, Mass., was found in the pond of a grist mill. He committed suicide while despondent.

The hall of Seaside grange, Patrons of Husbandry, at Belfast, Me., was burned. The fire is supposed to have been set purposely. The grange hall was valued at $5000.

The Old year is going

NEW ADVERTISEMENTS TODAY.

Lost—Locket and Chain
Cobe—Good Clothing for Men
Wanted—Situation to do housework

The Observations In the Daily Walk

Officer James W. Murray is on duty again.

Cobe is having a special sale of shirts.

Dr. C. R. Marstin, the dentist, has returned from a brief trip to Georgia.

Several from Quincy attended today the inauguration of Gov. Guild for the third time.

The gymnasium classes of the Y. M. C. A. are growing in interest and numbers.

Special New Year services were held in all of the Catholic churches of the city on Wednesday.

Rev. A. F. Roche has accepted the invitation to be chaplain at the inauguration ceremonies next Monday.

Mrs. R. S. Doane of Medfield was the guest on Wednesday of Mrs. Harry Doane of Bromfield street.

The personal property of the C. A. Swingle & Co granite company is being sold at auction today.

Inquiry meetings are being held this week at the Memorial church, Atlantic. They have been well attended.

Mrs. E. H. Angier of Goffe street is in New York for a few days and will be joined later in the week by Mr. Angier.

A New Year's party for the young people of the Park and Downs Congregational church was given Tuesday evening at the home of Mrs. Davis on Hamilton street.

The Enployed Boys meet Friday evening in the Y. M. C. A. gymnasium for games, and will have a social time after- ds around the fireplace.

Inspector McKay looked over the various article at police headquarters in Boston, yesterday, found in the rooms of two suspects but was unable to identify any of it as having been stolen in Quincy.

There was a good attendance Wednesday evening at the weekly whist tournament of the Granite City club. After twenty-five hands Henry P. Furnald served delicious escalloped oysters. Thomas J. Smith and Dr. C. R. Marstin were the high liners.

Attempted Suicide By Shooting

John Tite, of 266 Liberty street extension, made an attempt at suicide this noon at his home, by shooting himself with a revolver.

According to the police, Tite, who is a stone cutter, has not been working for some days and has been drinking hard.

This morning shortly before 11 o'clock he was seized with the idea that he had lived long enough. He obtained possession of a revolver, and placing it to his neck pulled the trigger. The bullet passed clear through his neck, making a bad but not necessarily fatal wound.

The police were notified and the man taken to the police station, where his wound was dressed by Dr. McLennan. He will probably be taken to the City Hospital.

The shot sobered him off somewhat, and now he is not as anxious to die.

TODAY'S COURT.

John Coughlin was sent to the State farm for drunkenness at Quincy.

William Crawford was fined $25 for assault on Oscar J. Lanoie, at Weymouth.

Thomas McDonnell was fined $15 for drunkenness at Quincy.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

May 1908 be Prosperous to You!

Quincy Groom Bath, Maine, Bride

Mr. Stanley Bone, a naval architect at the Fore River Shipbuilding plant, was united in marriage Wednesday evening at Bangor, Me., to Miss Maude Winifred Hellier.

It was an elaborate house affair, with handsome decorations, many guests and a pretty service, which was performed at 5 o'clock by Rev. Henry L. Griffin, D. D.

The bride wore white chiffon cloth with lace and carried roses. She was attended by her niece, Miss Louise Hellier of Boston, in Irish lace and batiste. Walter Hellier of Boston was groomsman. Nephews of the bride, Charles and James Earle Hellier, were the pages, and Margaret and Pauline Woodward were the flower girls.

A reception followed with a wedding dinner. The couple left on the night train on a wedding tour, after which they will live at 105 Putnam street, Quincy.

Among the out-of-town guests were Mr. and Mrs. Charles E. Hellier and family of Boston, Miss Annie Allyn of St. Paul, Mrs. Halburt of Portland and Miss Genieve Webster of Spokane, Wash.

Costs City Less For Postage

The new system of auditing and accounting which went into effect on Wednesday, has made busy times for the City Treasurer and City Auditor. The benefits of the system, and one of the savings to the city, has been immediately shown.

In the Water department it has been the custom to send out all bills Jan. 1. Each of these bils required a two cent stamp. It has also been necessary to send out many duplicate bills. Under the new system the bills were placed on file in the City Treasurer's office and postal cards sent out to the water takers. This item alone means a saving to the city of fully $100 in postage.

When the same system is carried out in the Tax Collector's office it means another large saving.

Under the new system all bills against the different departments must pass through the hands of the Mayor.

Not Always Pleasant To be Conductor

Mistaken identity caused a conductor to be roughly handled on Wednesday, and his assailant did not get satisfaction.

It appears that William Crawford had some trouble with a street car conductor in North Weymouth and was put off the car. Thoughts of revenge possessed him, and he decided to give the conductor a "licking." Laying in wait for a car to come along he hailed it and called the conductor to the street. It was dark and Crawford did not discover that the conductor was not the one who had put him off the car, but another man named Oscar J. Lavoie who was the victim of an assault.

Officer Walker was notified and Crawford was placed under arrest. In court a fine of $25 was imposed on Crawford.

New Year's Sing.

The Old Stoughton Musical Society at its annual meeting at Randolph on New Year's day adopted a constitution and by-laws, and took steps to become incorporated. These officers were elected:

President, L. Morton Packard of Brockton; vice president, Joseph Belcher of Randolph; secretary and treasurer, Edwin A. Jones of Stoughton, and chorister, Nelson Mann of Randolph.

The old songs were sung with spirit and it was an enjoyable reunion for the members who belong in all the surrounding towns.

The Noon Alarm.

The alarm from Box 58 at 1.02 this noon was for a lively brush fire near the stand pipe on Third hill. The fire was burning nearly all the morning and was getting beyond control. The alarm was somewhat jumbled in being sounded, and but one round of the box struck correctly.

A Happy New Year.

Monday, Feb. 17,	1—3,	2—4
Tuesday, Feb. 25,	1—4,	2—3
Tuesday, Mar. 3,	3—4,	1—2
Tuesday, Mar. 10,	2—4,	1—3
Tuesday, Mar. 17,	2—3,	1—4

Norfolk County Probate Court

Judge Flint transacted the following business at the Dedham session of probate court on Wednesday:

Wills allowed—Of Clara Allen Blake of Brookline, Henry S. Draper of Westwood, Harriet E. Norris of Dedham, Mary H. Newcomb of Quincy, Dennis Higgins of Norwood, Frederic J. Fuller of Quincy, Charles O. Parker of Weymouth, and Almira R. Smith of Lyndon, Vt.

Administrations granted—On the estates of Ellen N. Andrews of Hyde Park, Mary J. Colburn of Medfield, Harriet M. Draper of Westwood, Angelina P. Tufts of Brookline, Charlotte P. Allen of Weymouth, Jennie H. Beck of Wellesley, Linda McLean of Braintree and Joseph John Hayes of Braintree.

Several inventories were filed and accounts allowed.

Surprise and Presentation.

Miss Gertrude E. Hunt of the suit department at the store of Gilchrist Co., Boston, was pleasantly surprised Tuesday evening at her home on Squantum street, by a number of the employes in the same department. The party had kept their intended visit a secret, and it was a complete surprise when the door opened and a party of thirty walked in. The evening was passed in a pleasant manner with games music, etc. Refreshments which the party had also brought with them were served. During a lull in the festivities one of the party presented Miss Hunt with a gold signet bracelet as a slight token of their friendship.

Glanders and Other Diseases of Animals

Quincy and the neighboring towns have their full proportion of disease among domestic animals, according to the figures of Dr. Austin Peters, chief of the cattle bureau. For the official year which ended November 30, 1907, there were seven horses killed in Quincy for glanders, and four others were treated with negative results.

In Weymouth, nine were killed and four showed negative results.

In Braintree one was killed.

There was a total of 711 animals killed in the State for glanders, and one person died, for the disease is contagious and can be carried from animals to men.

There were released 463 animals. There are held for further testing 26 animals.

The previous year there were 570 killed and 295 showed negative results.

Of the 711 cases, 5088 or about 71 per cent. were within 10 miles of the State House and 450, or about 63 per cent were within a smaller area in which Quincy is figured. Boston does not get all its real due, for,—and there is good authority for saying so—there is so much graft in the city on the part of those who have the issue of licenses to keep stables ,that the expressmen cannot afford to pay the money demanded and so they go out of the city, over the line into the suburbs.

As to the killing of cattle for tuberculosis, there were 1418 killed, and their owners paid for them; 721 were released; 60 were killed by the owners on promise that the state would pay if they were diseased, as they were, and 301 similarly killed and not paid for, and others, making 2985 from Massachusetts alone. Other cases originated out of the state, making a total of 3404 during the year.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

ARE YOU VERY BUSY?
YOUR TIME IS MONEY.
We want one good, active agent who has a general acquaintance and popular, to sell our MONN CHEMICAL. It actually makes heat from what is now useless ashes. No smoke or soot. Newsy Budget From Shipyard

During the week just passed, the four light vessels for the United States, Department of Commerce and Labor, have made considerable headway. On all four vessels the keels are in place. There has been 19 shell frames put in position on hull number 147; 18 on hull number 148; 14 on hull number 149; and 17 on hull number 150. A few deck beams are also in place on each boat. Altho as yet no bulkheads have been put up, a great many which are being constructed on skids near at hand are in an advanced stage of completion.

The Old Colony Trust Company of Boston announced that the coupons on the five per cent. first mortgage bonds of the Brunswick Steamship Company, and for the five per cent. gold bonds of the Atlanta, Birmingham and Atlantic Railroad Company were payable beginning January 1, 1908, at their office in the Ames building, Boston, The Fore River Shipbuilding Company has built four steamships, rebuilt another, and has another under construction at the present time for the Brunswick Steamship Company, and is also constructing at Brunswick, Ga., under the supervision of M. M. Cannon, C. E., a water front terminal for the Brunswick Steamship Company and the Atlanta, Birmingham and Atlantic Railroad Company, which will be second to none in the United States.

Naval necessities are such that the domestic manufacturers are unable to supply within a reasonable time ordinances, projectiles, powder and torpedoes for the fleet, and Rear Admiral M. E. Mason, chief of the Bureau of Ordnance, in his annual report to the Secretary of the Navy, strongly urges legislation that will authorize the department to purchase such material when "it is to the manifest interest of the United States to make purchases in limited quantities abroad, which material shall be admitted free of duty."

He says that the torpedo situation is such that one hundred of these weapons should be purchased abroad immediately while American manufacturers are completing their present contracts and the government factory is being put in running order. There is also urgent necessity for going abroad to secure armor-piercing projectiles and range finders, which American manufacturers are unable to produce.

Admiral Mason finds it necessary to replace all the present eight and twelve-inch guns by others of a later and stronger design to admit of the the use of smokeless instead of brown powder. Only two firms are attempting to furnish the navy with projectiles of large calibre, and he deliveries are far behind, and the status far from satisfactory. For that reason authority is asked to purchase such projectiles abroad.

Admiral Mason makes a strong plea for an appropriation to defray the cost of manufacturing and assembling at two points (one on the Atlantic and the other on the Pacific) a supply of guns, ammunition and such material as may be needed by the navy to rapidly fortify strategic points that may be seized in time of war as advanced bases of operation against an enemy, pointing to the lessons of the Spanish War and the successful operations of the Japanese as proof of the wisdom of establishing these depots.

Under the head of armor it is stated that the specifications have been so modified as to allow the armor makers much freedom regarding the materials and methods of manufacture, in order to stimulate research on their part and develop better armor. An item of $200,000 is included in the estimates for experimental work.

THE CANADIAN FUR STORE

Canadian Furs at Canadian Prices.

The high quality of Canadian Furs is well known to Americans. A custom's duty of 35 per cent prevents Americans who do not visit Canada from buying Furs there.

Our American house, 167 Tremont Street, Boston, will interest American buyers of Canadian furs. Here we receive our supply of raw skins from our own Canadian houses where they are collected direct from the trappers and admitted to the United States duty free in the undressed state.

All garments for our American business are manufactured by skilled American designers and finishers, and in selling direct to the wearer we eliminate intermediate profits.

Owing to its rigorous climate Canada produces the finest furs known to commerce. Silver Fox, Hudson Bay Sable, Mink, Otter, etc., are seen at their best. In dealing direct with us you secure the advantages that flow from a large and influential business following in our own stores in four Canadian cities, and a feeling of security and reliability that is always present when dealing with a house whose reputation has been merited by a constantly increasing patronage extending over a period of forty-two years, and whose products have been awarded five gold medals in different Canadian Expositions.

In comparing prices remember that quality is of first importance. Canadian Furs average 35 to 50 per cent higher grade than those of more temperate climates, because nature produces the quality; the furriers make only the garment, and the dyer's art can make a southern mink to imitate the Canadian article. To insure reliability and value, buy Canadian Furs from Canadian furriers.

Black Lynx Throws and Muffs from $22.50
Mink " " " " $28.50
Ladies' Fur Lined Coats $63.00
Men's " " " $75.00

Catalog mailed post free. When writing for prices please mention kind of fur garments you are interested in.

CORPORATION TAXES

Levy on Cities Unnecessary If State Retained Corporation Tax

No part of the inaugural address of Gov. Guild was of more importance than his views on taxation. The Daily Ledger believes that they were right to the point, especially relative to the corporation tax. Gov. Guild says:

"During the recess your Commission appointed for the purpose has made a thorough and most painstaking investigation of the methods of taxation in this and in other Commonwealths. I commend the result of their labors to your careful consideration.

"Every year the Commonwealth is called upon to relieve the cities and towns from this or that source of expense. The Commonwealth has recently relieved or is relieving cities and towns from the care of the insane, from the care of victims of tuberculosis, from the necessity of building and maintaining armories for the Massachusetts Volunteer Militia. Local taxation should be reduced, as these burdens are lifted.

"It is only a question of time when local expenses will be further reduced by the adoption of a State police force and a State Excise Commission. Sooner or later public opinion will demand especially that country towns must not vote for prohibition as a matter of public record and actually encourage gambling and the illicit sale of liquor, if nothing worse, in inns and road houses as a matter of private revenue.

"Sooner or later public opinion will demand that in the interests of efficiency, not in certain cities and towns, but in every city and town the police shall be divorced from local politics, and managed from a central authority in a uniform system, guaranteeing permanence in office, freedom from political influence and encouragement to a fearless enforcement of the law.

"The course of the General Court under the pressure of certain combined local political influences has been utterly illogical. It has steadily relieved cities and towns of one burden after another, and as steadily stripped the Commonwealth of one source of revenue after another, to the encouragement of extravagance in local administration by giving cities and towns a revenue that logically and legitimately belongs to the Commonwealth.

NOTORIOUSLY TRUE.

"This is in part true in regard to the revenue from liquor licenses. It is notoriously true as to the corporation tax. The corporation is a creature of the State; it is controlled by the State; expenses publicly incurred on its account are borne by the State. Universally, except in Massachusetts, the corporation tax—which is, after all, an excise tax—is given to the State. Here the greater part of it, with fine lack of logic, is returned to cities and towns, and in such an unscientific and inequitable manner that comunities least able to bear taxation receive little or no relief while communities best able to bear financial burdens are relieved largely of local taxation.

"Under the present inequitable system, the city of Boston pays in direct State tax $1,500,000, and receives back in distribution of revenue from the corporation tax $980,000. The town of Brookline pays $112,000 in direct taxes, and receives back in corporation tax distribution $202,000.

"The struggling city is mulcted half a milion a year, while the rich town actually collects for its own local expenditure out of the treasury of the Commonwealth ninety thousand a year by the operation of the present absurd and illogical system.

"Lynn pays to Massachusetts seventy-five thousand dollars in direct State tax, and collects in distribution of corporation tax but forty-two thousand dollars.

"Nahant, however, pays in direct State tax but eight thousand dollars, and collects from the Commonwealth twenty-five thousand dollars.

"The struggling little hill town of Charlemont, with bridges and highways to maintain for the general use of the public on through routes of travel, collects but thirty-six dolars on the distribution of corporation tax, but is forced to contribute five hundred dollars—fourteen times what it receives—in direct State tax.

"The rich and prosperous city of Springfield, on the contrary, contributes one hundred and three thousand dollars in direct State tax, and draws out of the State treasury in distribution of corporation tax over one hundred and twenty thousand dollars.

"The amount thus stripped from the State and inequitably distributed is just about equal to what we are now forced to raise by direct State tax.

"Governor after governor has incurred local unpopularity in favored towns and cities by calling atention to this gross injustice; but injustice it is, and for the third time I ask for its correction. Return the corporation tax to the State, and lift the direct State tax from the people."

Candidates For Commissioner

Joseph Callahan of Squantum, who has been mentioned as a possible Commissioner of Public Works for Quincy, says that he is not now nor never has been a candidate for the office. He fully realizes the responsibility of the office, and says he would be glad to seek it if it did not interfere with his other business.

A Chelsea official is most prominently named now for the office. While recommended by some, there are others who criticise him roundly and say Quincy does not want him. The Daily Ledger is making an investigation and may have something to say on Saturday.

Installation of Quincy Lodge, L. O. L.

The newly elected officers of Quincy lodge, 194, L. O. L., were installed at Wilson hall, Thursday evening in the presence of a large gathering of brothers and their ladies. The installing officer was Harry Follett of Hyde Park, Master of the Norfolk County district, who was accompanied by a large suite.

Following the installation, Andrew Stewart, who has been the master of the lodge for several years, was introduced as chairman of the entertainment committee. The program included vocal and instrumental music and addresses by the grand officers and members of Quincy lodge.

Refreshments of coffee, sandwiches, ice cream and cake were then served. After this the floor was cleared and there was dancing. It was one of the most enjoyable of the many good times held by Quincy lodge.

The officers installed are:
W. M.—Richard Rundle.
D. M.—W. B. Jones.
R. S.—W. E. Stoddard.
F. S.—H. A. Sproul.
Treasurer—George Jones.
Chaplain—William D. McKay.
D. of C.—Alexander Morrison.
First Con.—Martin McConnell.
Second Con.—William Littlewood.
I. T.—Alex White.
O. T.—John Gregory.

Committee on law—Olif Nord, Gustaf A. Lunberg, August P. Johnson, Robert Neal and Edward Geddis.

Finance Committee—George Ruxton, Thomas Ross and John Anderson.

Trustees for three years—Thomas Houston, James Freeburn and Olif Nord.

Delegate to State Grand Lodge—Richard Rundle.

Delegate to Supreme Grand Lodge—Andrew Stewart.

New Date For Eliot Meeting

The meeting to be addressed by President Eliot on the subject of Government by a Few Select Men was to be held in Quincy Music Hall on Wednesday evening, January 22. President Eliot has advised us that it will be necessary to change the date as he is compelled to be in Chicago on January 22. It has therefore been arranged to have this meeting on Thursday evening, January 30, in Quincy Music hall.

Tickets will be ready for distribution about the 20th of January, and may be obtained by sending a two-cent stamped self-addressed envelope stating the number of tickets desired to E. H. Angier, Old Colony avenue, Wollaston, Mass.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street

ON GOOD COMMITTEES

Appointments Made In the Legislature This Afternoon

Committee appointments were made in the Legislature today, and the Quincy Senator and Representatives have certainly been placed in responsible positions as will be seen below:

Senator Jenney is chairman of the Committee on Judiciary and No. 2 of Commitee on Education.

Representative E. C. Hultman of Quincy is chairman of Committee on Water Supplies and chairman of Committee on Harbors and Public Lands, and No. 4 of Commitee on Public Lighting.

Representative R. P. Coombs of Quincy is No. 8 on Committee on Insurance and a monitor.

Representative Russell B. Worster of Weymouth is chairman of Committee on Fisheries and Game and No. 2 of Committee on Counties.

New Officers Of Rebekahs

I. O. O. F. hall was almost inadequate Thursday evening to accommodate the large number of Rebekahs who assembled from this, and surrounding cities to witness the installation of the newly elected officers of George L. Gill Rebekah lodge, 146, by D. D. G. M. Annie E. Sawyer and suite of Boston as follows:

P. N. G.—Mrs. Adeline Young.
N. G.—Miss Elvira Ewell.
Secretary—Miss G. M. Thayer.
Financial Secretary—Miss S. Abbie Feltis.
Treasurer—Miss M. Lizzie Furnald.
Chaplain—Mrs. James S. Baker.
R. S. N. G.—George C. Ela.
L. S. N. G.—Mrs. George C. Ela.
R. S. V. G.—Mrs. A. W. Wilscher.
L. S. V. G.—Miss Mary Manhire.
Warden—Miss Florence Flowers.
Conductor—Miss Grace Turner.
Inside Guard—Mrs. F. W. Flowers.
Outside Guard—Charles Kezer.
Pianist—Mrs. Alice W. Goodridge.
Degree Master—F. W. Flowers.
Trustee for three years—Mrs. Melissa McCormick.
Finance Committee—A. F. McLeod, Mrs. Beatrice Porterfield and Mrs. Kate A. Prout.

The lodge is in a flourishing condition, numbering 168, with several candidates for the new officers to initiate. During the evening the D. D. G. Master, in behalf of the lodge, presented sister Adeline Young with a past grand's collar, and in return Sister Young, in behalf of the newly installed officers, in a few well chosen words presented Mrs. Sawyer, who has been the lodge deputy for five years, a cut glass dish. For a while Mrs. Sawyer was lost for words and quite overcome, but soon recovered, and thanked the lodge and the officers for their kindness, and the courtesy that had always been shown her and the members of her suite. She felt that she had made many friends during her term of office. At the close of the meeting, all wended their way to the banquet hall where a fine turkey supper was served.

A Big Decrease In Court Cases

The report of Probation Officer Francis A. Spear for the month of December, shows the total number of criminal cases before the district court at Quincy that month was 119, a decrease of 50 from the month of November. Compared with December 1906 the number in 1907 showed an increase of 10.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Reunion of Coddington Class

A reunion of the class of 1903 of the Coddington grammar school was held Thursday evening in Electa hall. Out of a class of 31 pupils, 23 were gathered and a grand good time was enjoyed. A few games were played and a little dancing was enjoyed, and an entertainment followed.

Archie Levangie opened up the entertainment with a solo, followed by a piano duet by Mrs. Paine and Ethel Humphrey. Then Miss Humphrey read a letter of greetings to the class of 1903, which was followed by solos by Harry Paine.

The part of the program which interested most was the letter from their beloved teacher, Mary E. Dearborn. In this letter she recalled the pleasant school days and gave a little advice for the future. It was regretted that Miss Dearborn could not be present but she is now in California.

The next number on the program was a solo by Harold Curtis. After readings by Mrs. Paine, dancing was enjoyed for the rest of the evening. During the evening, punch and fancy crackers were served. The kindness of Mrs. Paine who presided at the piano was much appreciated by the members.

The graduates of 1903 were: Nina M. Bates, Thomas Billingston, C. D. Brown, Raymond Brown, Roy C. Cobb, Alfred H. Corning, Rose N. Coughlan, Harold F. Curtis, Oscar H. P. Frye, Harry E. Glover, Ethelreda Harkins, Foster Hitchcock, Herbert M. Hodgkinson, Helena A. Hughes, James J. Hughes, Ethel R. Humphrey, Annie A. Kemp, Agnes F. Kenney, Thomas J. Larkin, Thomas A. Levangie, Elizabeth Mahoney, Helen Marcell, James H. McDermott, George S. McKenzie, Hazel E. Mowry, George F. O'Brien, Sarah E. Pawsey, Albert W. Prescott, Reginald K. Randall, Hannah M. C. Satterlund, Benjamin Shane, Frank Taylor and Russell Lincoln Tupper.

Grand Army Installation

The newly elected officers of Paul Revere Post, 88, G. A. R., were installed Thursday evening by Past Commander W. L. Gage of Braintree, assisted by Past Commander Monk as aid, as follows:

Commander—John D. Williams.
Senior Vice Commander—George L. Phillips.
Junior Vice Commander—Mark Hanson.
Surgeon—James W. Pierce.
Chaplain—Henry Chubbuck.
Officer of Day—Warren Dunbar.
Quartermaster—Andrew W. Gardner.
Officer of Guard—William M. Rich.
Adjutant—Franklin Curtis.
Sergeant Major—William H. Webb.
Quartermaster Sergeant—Charles H. F. Stoddard.

At the conclusion of the installation ceremonies, an oyster chowder was served, and was followed by brief remarks by the installing officer and members of Paul Revere Post.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

Just Jotted Down By Ledger Men

The 1908 weather is certainly a superior article.

Sprague's fresh mined New River steam coal is recommended by J. F. Sheppard & Sons as the best steam coal on the market.

In the billard tournament at the Granite City club on Thursday evening, John W. Walsh beat James A. Claflin, 120 to 107.

Col. Thomas N. Wood U. S. Marine Corps, at present commanding officer at Charlestown Navy yard, who addressed the Men's Club of St. Chrysostoms church, Wednesday evening, has had many interesting experiences and several of them were listened to with much interest. Especially his talk on the Island of Guam, where he was stationed after the Spanish war.

Early Morning Fire.

The alarm from Box 24 at 6.08 this morning was for a slight fire in the bath room of Stephen Gurney's house at 47 Cranch street. One of the children went into the bath room with a lamp and accidentally set fire to some clothing. While one of the family ran to pull the alarm, Mrs. Gurney rushed into the room, and although it was filled with stifling smoke she pulled the clothing down and smothered the fire with a rug. The loss was confined to the clothing and scorched paint.

Clan McGregor as Escort.

The funeral of William S. Murray was held Thursday afternoon from his late residence on Arthur street. The services were largely attended, Clan McGregor of which he had long been a member, attending in a body. Rev. Edwin N. Hardy, D. D., of the Bethany church, conducted the service. The burial was at Mt. Wollaston cemetery, where the remains were escorted by Clan McGregor.

Fra[illegible] There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Address: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

CALL FOR PRIMARIES

Ohio State Republican Committee Has Lively Session

CONTROLLED BY TAFT MEN

Outvoted Foraker Supporters Two to One on Propositions Requiring Rollcall--Australian Ballot to Be Used In the Primaries

Columbus, O., Jan. 3.—The Republicans of Ohio will be given an opportunity to express by direct vote their choice for the party's candidate for president at primaries to be held on Feb. 11, when delegates and alternates to the Republican state convention will be elected. The convention will be held on March 3 and 4, and it will select, in addition to four delegates-at-large to the Republican national convention, candidates for governor and other state officers.

The call for the primaries and convention was adopted last evening by the Republican state central committee after a protracted and lively session. The friends of Mr. Taft, candidate for the Republican nomination for president, were in control of the committee, casting 14 votes to 7 for the supporters of Senator Foraker, also an avowed candidate for the presidency. The vote stood 14 to 7 on every proposition which required a rollcall, except the selection of a temporary chairman for the state convention.

James R. Garfield, secretary of the interior, was the choice of the Taft supporters, receiving 13 votes to 8 cast for Harry M. Daugherty. Richard McCloud, a close personal friend of Daugherty but a Taft supporter, voted for him as against Garfield. Mr. Garfield was chosen chairman of the state convention.

The state committee decided that it had nothing to do with the selection of national delegates in the congressional districts and declined to make any suggestions in regard thereto.

The committee met early in the afternoon and after a short session appointed a sub-committee to draft a call for the primaries and convention. This committee called upon Governor Harris during the recess to consult his wishes in regard to the call. A committee representing the supporters of Foraker also called on the governor and asked him to permit his name to be presented for chairman of the state convention, but the governor declined.

Several amendments to the call were proposed by the friends of Foraker, but in each case they were voted down. The chief fight was made against the direct primary plan that the selection of delegates to county conventions be chosen by direct vote, the county conventions to choose the delegates to the state convention.

The call as adopted provides for a total of 815 delegates to the state convention. The Australian ballot is to be used in the primaries. If petition is made, the names of candidates for delegates may be printed under the name of the person who may be their choice for presidential candidate. The unit rule in the election of delegates will be observed in all except Cuyahoga and Hamilton counties, which may be divided into districts.

Death Conspiracy Foiled

St. Petersburg, Jan. 3.—The police have arrested nineteen persons accused of conspiring to murder Dowager Empress Maria Feodoravna upon her return from abroad three weeks ago. The conspirators were so certain of success that they inserted an announcement in the death column of The Novoe Vremya of Dec. 11 concerning "Marie Feodorovna Romanova," inviting friends to attend a requiem mass at a fictitious church.

Delay In Pettibone Trial

Boise, Ida., Jan. 3.—Judge Wood is not ready to furnish the attorneys with copies of his instructions to the jury in the case of George A. Pettibone, charged with complicity in the assassination of ex-Governor Steunenberg, and court has adjourned until Monday. The condition of Pettibone is improved.

Test of Closing Law

Mobile, Ala., Jan. 3.—The Alabama 9 o'clock closing law for cities of over 15,000 will be given a test hearing in the courts and carried to the state supreme court. The law went into effect at midnight Jan. 1, but only one-third of the saloon-keepers observed it. The first arrest was made yesterday.

But One Night Rider Arrested

Hopkinsville, Ky., Jan. 3.—A grand jury, empanelled to investigate the night-riders' raid on Hopkinsville, was vigorously charged by Judge Cook. The only arrest made thus far in connection with investigations of the raid is that of Herman R. Crenshaw, who was released on $2000 bail.

Indian Cadet at West Point

Ardmore, Okla., Jan. 3.—Lamar Jackson, a full-blood Choctaw Indian of Atoka, has been appointed to a cadetship in the United States military academy at West Point by Congressman Carter of this district.

Wreck Off Cape Lookout

Norfolk, Jan. 3.—News was received that an unknown schooner was sunk forty-two miles off Cape Lookout. Three masts are visible. The whereabouts of the crew are unknown.

LONG OFFICIALLY "DEAD"

Pennsylvanian a Man Turns Up to Claim an Inheritance

Lancaster, Pa., Jan. 3.—Although officially declared dead several years ago and for many years believed by his wife and friends here to have died, George M. Gable appeared in the local court to claim an inheritance of $12,000 from the estate of an uncle. Seventeen years ago Gable disappeared, leaving his wife and several small children. All efforts to locate him failed. Years passed, and his wife, believing him dead, remarried. When his uncle, Jacob Gable, died in 1904, George M. Gable, one of the heirs, as a matter of legal form, was declared dead by the court.

The executors, however, refused to pay over the inheritance to his widow and instituted a search, which finally resulted in locating the long missing man in Sacramento, Cal. Gable came east and yesterday in court was identified by the wife he had deserted seventeen years ago as the rightful heir. The woman's second husband has begun proceedings for a divorce.

Disqualified by Riding Test

Washington, Jan. 3.—Major Crabbs of the quartermaster's department has been placed on the retired list of the army on account of disabilities incurred in the line of duty. Several years ago Crabbs was thrown from his horse and fractured his leg. The accident made him a partial cripple and he was disqualified at the recent riding test at Fort Myer. He is the first officer to be retired as the result of President Roosevelt's horsemanship requirements.

The Latest In Medical Science

Chicago, Jan. 3.—Dr. J. C. Siebel of this city announced before the American Association for the Advancement of Science that he has discovered a method of generating energy within the human body. He asserted that electricity stored in the human body can be released and made to do work. This work, he said, is the prolongation of life through the additional vitality supplied to the human body working as its own electrical generator.

Three Men Stabbed by Japs

Vancouver, B. C., Jan. 3.—There is no excitement here over the stabbing on Wednesday of three members of the fire department by Japanese. It is considered that the affair was primarily an accident, incident to a new year's celebration. The Japanese had the mistaken idea that the firemen were attacking them, whereas one white man fell against a window and broke it.

Insanity Plea In Thaw Case

New York, Jan. 3.—There was a conference of counsel for Harry K. Thaw yesterday and it was definitely agreed that the only defense to be introduced would be insanity at the time that Stanford White was killed. It will be insisted, however, that Thaw is now sane. Those in the conference were M. W. Littleton, Daniel O'Reilly and A. R. Peabody.

Nationalists Unreconciled

Dublin, Jan. 3.—John E. Redmond, chairman of the Irish Parliamentary party, issued a statement in explanation of the proceedings at the conferences recently held for the purpose of bringing about the reconciliation of William O'Brien, Nationalist member of parliament for Cork, and the Irish party. A reconciliation has not yet been effected.

Barbarism In Mississippi

Brookhaven, Miss., Jan. 3.—Probably the first lynching of 1908 took place here yesterday, when a mob, in broad daylight, took a negro away from police officers and shot him. The negro had been arrested as a suspicious person, because he came to Brook Haven looking for medical treatment for a gunshot wound.

Powers' Fate In Jury's Hands

Georgetown, Ky., Jan. 3.—The fate of Caleb Powers, three times convicted of complicity in the assassination of William Goebel, is for the fourth time entrusted to a jury. The jury has had the testimony under consideration for one day and there is no indication either of a verdict or a disagreement.

All Drowned but Three

Mexico City, Jan. 3.—Roman Portas, second officer in command of steamer Ibero, the vessel which has not been heard from for several weeks, has arrived at Vera Cruz. He says the vessel sank in a storm on the night of Dec. 2 and all on board were lost except three.

A Ten-Year-Old Murderer

Fayetteville, N. C., Jan. 3.—Ollie Manuel, aged 10, stabbed to the heart and killed Lush Manuel, his cousin, aged 12, and at sight of the boy falling dead the grandmother, Monie Manuel, expired instantly. The slayer is so young that he was not arrested.

Suicide of a Banker

Belleville, Ills., Jan. 3.—Suffering from melancholia, Charles Becker, 67 years old, director of the National Bank of Belleville, committed suicide by shooting. Becker was Illinois state treasurer in 1888. His wealth is estimated at $500,000.

Strike Ties Up Coal Mines

Madisonville, Ky., Jan. 3.—Three coal mines in this county are completely tied up as a result of the miners' strike. Other companies are running with many men out. There has been no violence.

The Weather Forecast

Almanac, Saturday, Jan. 4.
Sun rises—7:14; sets—4:24.
Moon sets—5:26 p. m.
High water—11:30 a. m.; 12 m.
The outlook is for fair and moderate weather in New England.

AS SUCCESSFUL EAST AS IN THE WEST

Cooper's Theories Are Being Rapidly Accepted by Eastern People.

L. T. Cooper, whose theory that the human stomach is the cause of most ill health and who created a furore in Chicago, St. Louis and other western cities, is meeting with the same remarkable success with his medicine throughout the east. Cooper has convinced an immense number of people that his theory is sound and his medicine will do what he claims.

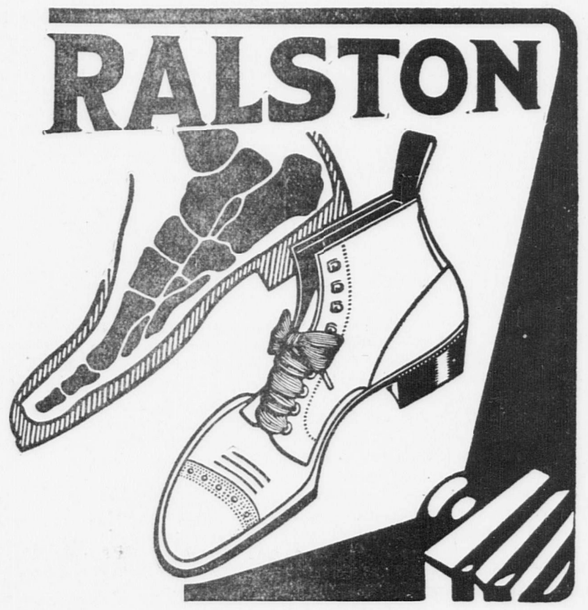

Perhaps the most interesting features of the discussion this young man is causing, are the statements made by responsible people who have taken his medicines and have become enthusiastic converts to his beliefs.

Among statements of this character, the following, by Mr. August Wittmer, 1049 Rockwell Court, Chicago, is characteristic of the widespread faith in Cooper, which has grown up in a comparatively short time. Mr. Wittmer says: "I wouldn't take $1,000 and be in the condition I was three weeks ago. I was practically an invalid for fourteen years and think I had about all of the diseases known. My stomach was weak, and at times I would have an enormous appetite, and then again none at all. Pie and cake made me sick, and I almost always had a sickening feeling in my stomach. I was nervous, and for weeks at a time could not sleep, and then again could sleep eighteen hours at a stretch. Sleep, however, seemed to do me no good, and I would awake tired and more exhausted than when I went to bed.

"I was constipated, had pains in my back, and flutterings and pains in my heart. I was unable to work with any regularity, and took no interest in anything. I tried all kinds of medicines and doctors, but none benefited me. I had no energy and no ambition, and had about concluded to give up when the Cooper medicine was recommended. Thanks to it, my health seems completely restored and I feel like a new man."

Cooper medicines have created the greatest sensation of anything of the kind ever before introduced.

We sell them, and will be glad to explain the nature of them to our callers.
—E. J. Murphy.

So Cleverly Have
the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

A Yawp of Joy.

This is the man who had a want, and knew
Just what he wanted—how to get it too:
He put a little WANT AD. in this paper;
Results were such he cuts this lively caper.

NURSING A SORE HEAD

Prince Helie de Sagen Slugged by Boni de Castellane

FIGHT ENDED IN GUTTER

Count Was Aided by His Brother, and Fists, Feet and Cane Were Applied to Prince After He Had Received "Christmas Present"

Paris, Jan. 3.—Count Boni de Castellane, from whom his wife, who was Anna Gould of New York, recently secured a divorce, and Prince Helie de Sagan, who on several occasions was reported to be engaged to Mme. Gould, had a personal encounter at the Church of St. Pierre de Chaillot while a service to the memory of Lady Stanley Errington, a relative of both men, who recently died in England, was in progress.

Beginning inside the church, where Boni claims the prince insulted both him and the sacred edifice, it was resumed at the doorway, where Boni, followed by his brother, Count Jean de Castellane, overtook the prince.

Count Boni spat in his cousin's face. Then came the clash of canes, followed by a rough and tumble fight on the pavement, which ended in the gutter, where the men finally were separated by a big butcher. Boni, at the moment of intervention, was holding down the well-nigh insensible prince, while Jean, according to eye-witnesses, was administering to him a severe kicking.

When the police arrived the butcher was holding the two principals in the fight, who were covered with mud. The prince was bleeding profusely from a wound in the right temple, where he had been struck by Boni's heavy stick. With the butcher's hand on his collar, Boni was haranguing a crowd which had gathered as to why he had spat in the prince's face. The police invited the men to go to the station house, and this, after some disputing, they agreed to do. All three of them, bespattered with mud, accompanied the police and, followed by several thousand persons, they marched off to the station, where they made "explanations."

Both Count Boni and the prince gave their own version of the quarrel, each claiming that the other was the aggressor, but the prince alone lodged a complaint, charging the brothers with assault.

A "process verbal" having been written out, according to the French law, the three men signed it, and then were released. The case now will go before the public prosecutor, who will decide what, if any, steps shall be taken. In view of the fact that Prince Helie has elected to pursue the matter in the court, the idea of a duel seems to be precluded. Besides, Boni declares it is doubtful whether he would receive the seconds of the prince, even if the latter could find anyone to act in that capacity.

Prince Helie is laid up in bed with his head swathed in bandages, while Boni spent a part of last evening in visiting the newspaper offices telling the story of the encounter. When seen by The Associated Press correspondent, he was in splendid humor. Throwing back the lapels of his fur coat, in order better to display one of his famous white silk waistcoats, he began with the recital of the history of his cousin, whom he painted in the blackest colors, declaring that Prince Helie had been ostracized by his own family, none of whom would permit him to enter their house.

Count Boni then proceeded to explain the episode and declared that it had nothing to do with Anna Gould, but was the result of an old grudge between him and the prince. He added that the prince had not been invited to the ceremony at the church and he therefore was surprised to find the prince sitting three feet in front of him. Boni said he took no notice of the prince during the service, which proceeded without incident, until the elevation of the host, when the prince rose.

"As he passed me," said Boni, "he jammed his hat on his head and looked insultingly at me, this within twenty feet of the altar. I immediately got up and followed him and when I reached the vestibule outside I said: 'I have not given you your Christmas present,' and spat full in his face. He raised his cane to strike me, but I got in the first blow, opening his temple. We then closed."

Count Boni dramatically acted the part as he told the story, and declared at the conclusion that he only had resented what he regarded as an insult to himself and the church. He was convinced that the prince on account of his past career would not dare to prosecute the complaint.

Prince Helie, when seen by The Associated Press correspondent in his bedroom, could only account for what he termed a brutal and deliberate attack by Boni and Jean de Castellane on the theory that Boni was a madman. He therefore did not intend to appeal to the code, but allowed the case to take its course in the criminal court. He declared that the attack was entirely unprovoked.

GREAT FIGHT COMING

Hub "Check Rein" Must Be Thrashed Out by Solons

THE MAYOR-ELECT IS SILENT

Will Have Little Chance to Make Record For Himself or City According to Majority of Boston Men--Proposition Causes Much Comment

Boston, Jan. 3.—Governor Guild's suggestion for the governing of Boston by the mayor and the finance commission, each acting as a check upon the other, has thrown into the legislature as pretty a fight as the worst trouble maker could foresee.

After the delivery of the inaugural it was the talk of both branches of the legislature, not only among the Boston men, but those from the metropolitan district.

The matter will be threshed out in the committee on metropolitan affairs, which handles most of the big Boston matters, and it promises to involve the entire question of governing Massachusetts cities by commission.

The governor himself prefaced his suggestion by saying that it was a departure from all precedents. And Mayor-elect Hibbard, who sat in one of the front seats and listened carefully to all that the governor said, never changed countenance.

Those who watched the face of the mayor-elect tried to read surprise therein, while others thought he was taking it as a matter of course. But whether taken by surprise or not the comment was universal that a remarkable thing had happened when a Republican governor of the state had, upon the election of a Republican mayor, urged changes which would restrict the mayor in the carrying out of his ante-election promises.

It was expected that at once Hibbard would throw some light upon the situation and say that the governor's recommendations had either been made after a conference or without any conference. But Hibbard maintained sphinx-like silence. "Please excuse me from making any comment," he said. "I prefer to wait until after my inauguration before I say anything at all."

One or two of the Boston men thought the recommendation a good one, but the majority were for the most part saying that giving the finance commission power to reorganize and to veto the mayor's appropriations would be in violation of the principle of home rule, and would moreover give the new mayor very little chance to make a record for himself in governing the city.

It was suggested, however, that the plan be so modified as to require the mayor and the finance commission to draw up a charter for the city to be submitted to the next legislature.

One of those who were unsparing in criticism of the recommendation was Senator Bell, who has served for a number of years in the Boston common council and in the board of aldermen, of which retiring body he is a member.

"It is only a form of the commission idea," said Bell, "and it is not acceptable to the citizens of Boston who, by electing Hibbard to the office of mayor, served notice on the legislature that they preferred to run their own city and have their mayor clean out city hall."

Women Killed by Explosion

Rochester, Jan. 3.—In an explosion that wrecked a building of the Rochester Fireworks company Sadie Ernst was instantly killed and Mrs. Lillian O'Connor was so badly injured that she died shortly afterward. May Calligan was seriously burned, but is expected to recover. The explosion occurred in the finishing room and the force of it blew out one side and caused the roof to fall in. The cause of the explosion is not known.

Schooner Sunk In Collision

Newport News, Va., Jan. 3.—Captain Smith of the schooner Elizabeth Palmer, from Boston, reports that off Barnegat, N. J., his vessel ran down the three-masted schooner Estelle Phinney, bound for Boston. Captain Phinney and crew were taken aboard the Palmer and brought here. The Phinney filled rapidly and sank. The Palmer was light and escaped serious damage.

Hughes Boom Gets a Boost

Albany, Jan. 3.—Plans for a state organization in the interest of the nomination of Governor Hughes for President of the United States by the Republican national convention were made at a conference of Republicans held in this city. The governor was informed of the action of the conference, but declined to make any comment.

Woman Kills an Editor

Hallettsville, Tex., Jan. 3.—As he was entering his office, O. R. Beaumier, editor of the Hallettsville Herald, was shot and killed by his wife. She was arrested and placed under $2000 bonds. Domestic troubles are said to be the cause of the killing.

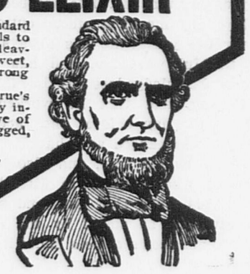

To Head Navigation Bureau

Washington, Jan. 3.—Secretary Metcalf announces that Captain Pillsbury will not assume the duties of the chief of the bureau of navigation until he has been confirmed by the senate. His nomination is expected to be sent to the senate Monday.

WORMS

Unsuspected worms are the cause of numerous little things that go wrong with children. When a child is sick you rarely think that its sickness is caused by worms, yet worms, either directly or indirectly, are the cause of three quarters of all the ills of childhood. Children, and often-times adults feel out of sorts, are irritable, feel listless and unrefreshed in the morning; suffer with indigestion, have a variable appetite, foul tongue, offensive breath; hard and full belly, with occasional gripings and pains about the navel; eyes heavy, and dull; itching of the nose; short, dry cough; grinding of the teeth; slow fever; and often in children, convulsions—in the majority of cases the cause of all the trouble is **worms** though you may not suspect their presence.

DR. TRUE'S ELIXIR

a pure vegetable compound, has been the standard household remedy since 1857; it never fails to expel not only worms but all waste matter, leaving the blood rich and pure, the stomach sweet, the bowels regular and the whole system strong and healthy.

The mother who gives her children Dr. True's Elixir regularly is wise, because it not only increases the appetite, acts as a preventative of coughs, cold, fever and worms but gives rugged, robust health.

Sold by all Druggists. Price 35c, 50c and $1.00.

THE RAILROAD SITUATION

Principal Feature of Inaugural Address of Governor Guild

Boston, Jan. 3.—The ceremonies attending the inauguration of Governor Guild for his third term were held at the state house, and except in the remarks of the governor in his inaugural address and the faces of those who looked down upon the scene the entire proceedings varied little from those of the last thirty years.

The governor was proclaimed chief magistrate by Secretary of the Commonwealth Olin with all the fervor which that official could muster, and the same was repeated when Eben S. Draper was proclaimed lieutenant governor.

The inaugural address of Guild was listened to by both branches of the legislature, several hundred business men who crowded the area and aisle in front of the speaker's desk and by a throng of women which completely filled the galleries. The feature of the inaugural address was the governor's remarks on the railroad situation and his suggestion that the two railroad systems in Massachusetts should be run under Massachusetts charters, each supplementing the other, with headquarters in Boston and managed solely for the development of New England. The governor expressed his belief that New England should recover control of its transportation facilities and that not merely New England legislatures, but New England railroads may strike at the shackles about New England commerce and stimulate New England industry.

Fined For Contempt of Court

New York, Jan. 3.—W. C. Greene, president of the Greene Consolidated Copper company, and his fellow directors and officers, have been directed by Judge Giegerich, in the supreme court, to pay a fine of $250 for contempt of court. The order was made in the suit of James A. Grant, who holds 130 shares of stock in the Cobra Grand Copper company. Greene was ordered to appear in court for examination, but he did not do so. A single fine of $250 was inflicted, for which each defendant shall be liable.

A Sunday Law Decision

New York, Jan. 3.—Magistrate Wahle holds that public lectures illustrated by moving pictures and stereopticon views may be given on Sunday without violating the city ordinances and penal code regulating Sunday amusements. The decision is in a test case brought by the police against a theatre, the point at issue being the use of moving picture machines, the lecture itself being admittedly legal.

Death of Dr. Senn

Chicago, Jan. 3.—Dr. Nicholas Senn, one of the most widely known physicians in the United States, died here. He was born in Buchs, Switzerland, in 1844, and came to the United States in 1853. He was surgeon general of the Illinois National Guard and was chief of operating staff in the field until September, 1898. He had been a professor in some colleges. He was the author of a large number of works.

Naval Regulation Remitted

Washington, Jan. 3.—The requirement in naval regulations of reporting "bore clear" before loading has been remitted in the case of guns not mounted in turrets. Its execution in these cases interfered with the rapidity of fire in the broadside guns, in which it is said there is no danger of accidents of the character which the order requiring the report of "bore clear" was destined to prevent.

Rockefeller's Great Benefactions

Chicago, Jan. 3.—John D. Rockefeller has added $2,191,000 to his gifts to the University of Chicago, making the total of his benefactions over $23,000,000. It is also reported that Rockefeller has offered to treble all contributions to the memorial library which the university is trying to erect in honor of W. R. Harper, its first president. The trustees have already received $135,000 for this purpose.

Receiver For Seaboard Air Line

Richmond, Jan. 3.—The Seaboard Air Line system was put into the hands of receivers here through the action of Judge Pritchard of the United States circuit court, who appointed as receivers R. L. Williams and S. D. Warfield. Both men are identified with banking houses in Baltimore. The bond of each was fixed at $50,000.

NEWS IN BRIEF

The assumption of the local governments in Portugal by commissions appointed by Premier Franco, which it was feared might lead to trouble, is officially declared to have passed off without incident.

The Chicago American Baseball club has traded Edward McFarland, a catcher, for Catcher Shaw of the Boston American league team.

The new Canadian mint was formally opened at Ottawa by Lord Grey. The mint turns out what is the first actual Canadian coinage.

Louis M. Givernaud, a member of the firm of Givernaud Bros., said to be the first to establish silk manufacturing in the United States, died at Los Angeles, Cal., of heart trouble, aged 73.

Henri d'Allemagne, consul general of France in Canada, has been recalled and is to be promoted. His successor is Joseph Deloynes, at present an attache of the foreign office.

Benedict M. Maher was nominated by Governor Cobb of Maine as judge of the Augusta municipal court to fill the vacancy caused by the death of Judge Andrews, who held the office for over a quarter of a century.

J. T. CONWAY, Supt.

ALMOST A DISASTER

Express Trains Missed Collision by Fraction of a Minute

Westboro, Mass., Jan. 3.—Five cars of the Chicago express on the Boston and Albany railroad which left Boston at 4:45 yesterday afternoon were derailed by the breaking of a wheel near this station. All the passengers escaped injury of a serious nature, but four dining car employes were hurt more or less severely.

It was only by the narrowest chance that the wreck escaped being a most disastrous one, as an east-bound express grazed past the derailed cars just as they were lurching over toward the east-bound track, which they afterward blocked completely. Had the derailment occurred a fraction of a minute earlier the east-bound train would doubtless have smashed into the wreck.

The dining car of the derailed express toppled so far over that the Boston-bound express grazed it in passing, tearing out nearly all the windows of the car. There were no passengers in this car. Many windows in the east-bound train were broken and three passengers were hurt.

Commissioner Illegally Removed

Boston, Jan. 3.—Judge De Courcey of the superior court has reversed the decision of Mayor McMahon of Fitchburg in removing Patrick J. Murray as license commissioner. In a raid in Fitchburg a jug was found tagged with the commissioner's name. Murray was charged with purchasing liquors during the no-license year, and the mayor, on this evidence, found him guilty of improper conduct as a license commissioner and ordered his removal.

Employes Escaped Explosion

North Attleboro, Mass., Jan. 3.—Five hundred employes in the jewelry factory of Riley & French had just left the building last night when a large blow pipe that runs around the structure exploded with tremendous force, breaking windows and splintering woodwork in all parts of the building. The explosion was of sufficient force to have killed or maimed hundreds of the workers had it happened a few moments earlier.

Owner of Burned Hotel Fails

Gloucester, Mass., Jan. 3.—George O. Stacy, the principal owner of the Colonial Arms hotel, which was burned Wednesday night, has made an assignment. No figures of the liabilities or assets are given. In addition to being interested in the Colonial Arms, Stacy owns the Hawthorne inn and the Moorland hotel at Bass Rock. The Colonial Arms was valued at about $300,000 and was insured for only $110,000.

Peeped Into Jury Room

Skowhegan, Me., Jan. 3.—After being caught looking through the keyhole of a door to the grand jury room and listening to the evidence against his brother, Herbert I. Mason, who was arrested at Canton for assault with intent to kill a neighbor, Orville Mason was arrested and fined $10 for contempt of court. The hearing of the charge against Herbert Mason was continued.

Insanity Plea For Mahan

Bennington, Vt., Jan. 3.—The case of the prosecution in the trial of Alfred Mahan, charged with the murder of his 4-year-old niece, will be concluded probably today. The defense will introduce witnesses in an effort to show that Mahan is insane. Fifteen persons have been summoned to give evidence bearing on his mental condition.

Amesbury Waives Hearing

Dedham, Mass., Jan. 3.—Dr. Walter R. Amesbury of Hyde Park waived examination, through counsel, when arraigned on the charge of killing his wife, Anna A. Amesbury. He was held without bail for the April grand jury by Judge Grover. The case is the sequel to the fatal shooting of Mrs. Amesbury at her home on Christmas day.

Killed Man In Self Defense

Boston, Jan. 3.—Gaetano La Compe was discharged, after a hearing before Judge Murray, on the charge of manslaughter in causing the death of Salvatore Cappuccio, whom he shot and killed on Prince street Christmas night. Cappuccio threatened La Compe with a razor in a quarrel over a girl and the latter shot in self-defense.

Weekly Paper "Frozen Out"

Adams, Mass., Jan. 3.—With yesterday's issue the Adams Freeman, a weekly publication and the only paper in this town, discontinued publication after twenty-three years of existence. The publishers stated that with the advent of the daily newspapers there was no field for the weekly.

Two Boys Drowned

Ayer, Mass., Jan. 3.—While skating on Sandy pond, William Baker, 16 years old, and Howard Reynolds, 14, broke through the ice and were drowned. Other boys who were nearby attempted to rescue them, and one, Chester Parent, came near losing his own life.

Instantly Killed by Derrick

Westerly, R. I., Jan. 3.—A derrick in the yards of the New England Granite works broke and the pole crashed down upon the head of Foreman William Smith, aged 50, killing him instantly. A monument was being hoisted when the accident happened.

No Hope For Greene and Gaynor

Savannah, Ga., Jan. 3.—District Attorney Erwin has notified counsel for Green and Gaynor, who are in jail in Macon, that the prisoners will be taken to the federal prison at Atlanta on Jan. 7. Every possible legal step to save the prisoners has been taken and their counsel say they now must accept their fate.

Rheumatism Cannot Be Cured Unless Uric-O Is Used

Sudden Deaths, Heart Failure and Paralysis are Caused by Poisonous Uric and Rheumatic Acids

The Rheumatic person is skeptical regarding the claims of almost any remedy advertised as a cure for Rheumatism and one can scarcely blame him for being so. All the plasters and liniments combined never actually cured a case of Rheumatism. They may relieve it in one quarter, but it is sure to break out somewhere else. The only true way to cure Rheumatism is to drive it from the system, for as long as the Uric and Rheumaic Acid remains in the blood, one is never entirely free from the trouble. This is where the value of Uric-O as a permanent cure for Rheumatism comes in. It seeks out the Rheumatic poison in the blood, muscles and kidneys, renders it inert and harmless and drives it out of the system. That is why Uric-O is such an admirable and effective cure for Rheumatism.

The chief reason that Uric-O is such a wonderful cure for Rheumatism is, that it is designed and prepared to cure Rheumatism and Rheumatism only. It is composed of perfect antidotes for the rheumatic acid poison in the system. That is the secret of its wonderful success. Rheumatism simply cannot exist in a person's system if Uric-O is used.

Uric-O is sold by druggists at 75 cent and $1.00 the bottle, but if you still feel skeptical about its efficacy you can test it free of charge by cutting out this advertisement and sending same, together with your name and address, also the name of your druggist, to The Smith Drug Company, 288 Smith Building, Syracuse, N. Y., and they will send you a sample bottle free. To persons who write and say they have never used Uric-O, and want to test it thoroughly, and will agree to take it systematically according to directions, they frequently give a regular 75-cent bottle free.

Uric-O is sold and personally recommended in Quincy by E. J. Murphy.

The Observations In the Daily Walk

It was just a year ago today that the enlarged High school was first used.

Mr. J. Albert Severance of Highland avenue is out again after an attack of the grip.

About 40 young people from North Weymouth, attended the Watch Service at Quincy Point.

A little son was born last night to Mr. and Mrs. F. K. Browne of Clive street.

The Altar Guild of St. Chrysostom's church will meet at the rectory Monday evening at 7.45.

Rev. A. M. Thompson was installed one year ago today as pastor of the United Presbyterian church.

The annual meeting of the Democratic City commitee will be held next Wednesday evening for organization.

Mrs. Charles Twiss and children, who have been visiting Mr. and Mrs. Louis Coles of Faxon road, have returned to their home in Tewksbury.

Tate 2

Kenneth Albee, Robert Pinkham, and William Nichols returned to Brown University this week. After enjoying the holiday season with their parents in Wollaston.

Several members of the Point Y. P. S. C. E. visited the homes of the "shut ins" on Tuesday evening, extending Happy New Year greetings, thro a service of song and sacred cheer.

The Ladies' Benevolent Society of Atlantic Memorial church will hold a charity sewing bee in the church vestry next Wednesday afternoon at 1.30. An interesting paper will be read and refreshments served.

On and after Monday, Jan. 6, the electric car scheduled to leave Quincy at 9.50 P. M. and Braintree at 10.05 P. M. for Holbrook will be discontinued. The car from Brockton at 10.45 P. M. will run to South Braintree only.

The Junior C. E. Society of Quincy Point held a party at the vestry Thursday afternoon. It was successfully managed by Helen Sherburne, assisted by Bertha Smith, Helen Lincoln, Mattie and Bessie Chisholm, and Isabelle Foster.

Sprague—Nickerson.

Hon. Eugene Hale Sprague of this city and Mrs. Helen J. Nickerson were quietly married at Orleans, Mass., on New Year's day, by the Rev. N. S. Dill. The bride has recently been superintendent of Wellesley College, and the groom was recently a senator and has served also in the House of Representatives and the Quincy City Council. Mrs. Sprague was formerly a resident of Orleans and the marriage took place at the residence of Mr. and Mrs. Joseph H. Cummings. Only the immediate families were present.

—A good thing for some New Yorkers that New Year's day is a sort of holiday in the town. They need the day off to recover from the night before and to get a good resolution or two Where it will stick for at least a day.

Birth of Chinese Baby

The birth of a Chinese baby in Boston on New Year's day was a notable event, but of particular interest to Quincy, as the mother was recently a student at the Quincy Mansion school at Wollaston.

The Boston Journal comments as follows:

If anyone ever had a chance to be conceited it certainly is———Wong, eldest and youngest son, and the stork's New Year's gift, to Yung Lung Wong. For———Wong is the possessor of three distinctions. He is undoubtedly the youngest Chinaman in all this big country. He is the first child to be born in the Hotel Westminister. And he is probably the only Chinese baby in the United States.

But in spite of all these things, report says he's not a bit stuck up. The only reason he refused to be interviewed on what he thought of America by a Journal reporter Thursday afternoon was that he speaks a foreign language, for which no interpreter could be found in all the city.

Neither is ——— Wong an imposing personage. And that's a difficult adjective to attain on six pounds and a half, which is the exact weight of Wong, junior. He has black hair, what there is of it, and great velvet almonds for eyes. Does he look like his pa or his ma? The old, old question. Well, just a little bit of both, if you please.

The blanks before Wong, up there in the first paragraph, don't mean anything unpleasant. They simply signify that the acknowledged important task of "naming the baby" becomes alarmingly momentous when the baby is the only thing of his kind in America, and for that reason, both his father and his mother, realizing that they are inadequate for the task, are going to apply to an older and wiser head for a solution of the problem. Mrs. Florence P. Pope of Atlantic, the mother's guardian, and life-long friend of Wong senior's father, is to have the honor of obviating the necessity for those aforesaid blanks.

Wong, junior, is to be brought up in America. Whether he will be an American or not depends on whether his father registers, and that Wong will probably do. He himself is planning to go back to China in a few years, but in all probability the little boy will be left in America to be educated.

"Yes, I'm glad it is a boy," said the proud parent to a Journal reporter at the Westminster yesterday. And considering the relative standing of the little boy baby and the little girl baby to the usual oriental papa, it is not surprising that Vung Lung Wong thus mildly expressed himself.

Mr. Wong, who was married just before coming to this country, is only 16 years old, and his wife is even younger. His father was a wealthy and influential merchant in China, a graduate of Yale, and though he lost much of his money he made arrangements for his son to go through his alma mater. He is now studying at Phillips Andover Academy, while his wife has been at Quincy Mansion School. Mrs. Wong is a member of the Chinese aristocracy, so high that only royalty has precedence over her.

The whole Wong family—that is, Vung Lung Wong, his wife and his sister, Julia Wong, and his brother-in-law—have been staying at the Westminister for the past week.

Newsy Budget From Shipyard

The new turbine steamship Creole of the Southern Pacific Company, which was to start last Saturday on a trial trip between New York and New Orleans did not get away from New York on schedule time on account of some minor labor difficulties. The Creole is the first large vessel equipped with turbine engines to be built in this country.

The first iceberg sighted this season was reported by the White Star liner Baltic, which arrived at New York last Saturday. The berg was over 200 feet long and extended above the water more than 50 feet.

The United States pay annually $200,000,000 to foreign ships for carrying our mails, freight and passengers. This supports the auxiliary navies of Europe and Asia, and is a vital drain upon our national resources.

J. G. Butler, Jr., of Youngstown, Ohio, in speaking last week on ship subsidy at the annual convention of the Merchant Marine League of the United States at the Hollenden hotel, Cleveland, Ohio, said in part:—"What we want is a comprehensive bill, something that will do the business. Every country that amounts to a damn has subsidized its merchant marine and we should do the same." Mr. Butler remarked os he left the platform, that the supreme court had held that "damn" was not a profane expression.

Altho the supreme court has held in rendering a decision, that, "damn," is not a profane expression, to use it in giving vent to one's feeling, as we sometimes here it at the shipyard and in other places, should not be encouraged.

BORN.

BESSE—In Wollaston, Dec. 23 a daughter to Mr. and Mrs. Leon F. Besse of Kemper street.
WILLIAMS—In Wollaston, Dec. 25, a son to Mr. and Mrs. Ellerton T. Williams of Prospect avenue.
WONG—In Boston, at Hotel Westminister, Jan. 1, a son to Mr. and Mrs. Vung Lung Wong of Wollaston.
BROWNE—In Atlantic, Jan. 3, a son to Mr. and Mrs. F. K. Browne of Clive street.

MARRIED.

HARRON—DAVIS—In Boston, Dec. 31, by the Rev. George W. Kings, Mr. Joseph A. Harron to Miss Elizabeth A. Davis both of Quincy.
JOHNSON—GEORGE—In Cambridge, Dec. 24, by Rev. Jesse Harrell, Mr. Frank E. Johnson of Cambridge, to Miss Fannie D. George of Quincy.

SPRAGUE—NICKERSON—In Orleans, Jan. 1, by Rev. N. S. Dill, Hon. Eugene Hale Sprague of Quincy to Mrs. Helen J. Nickerson, formerly of Orleans.

DIED.

STOCKER—In South Braintree, Dec. 28, Mrs. Clara C. Stocker of Pond street, aged 47 years, 1 month and 15 days.

Established 1870. Telephone.
JOHN HALL
FUNERAL DIRECTOR
CARRIAGE and AMBULANCE Service.
1435 Hancock Street, Quincy, Mass.

MILTON.

The Ladies' Guild of the Mission church held an enjoyable New Year's party at Ellsworth hall on Tuesday evening. One of the novelties of the evening was two Christmas trees. On one of these was hung favors for gentlemen and the other favors for the ladies. As soon as the dancers entered the hall one of the ushers escorted them to a tree. After selecting a favor it was the gentleman's duty to hunt around and find the lady who held the favor corresponding to his. In this way partners were selected for the German that opened the dancing. It was a very successful and enjoyable affair.

The fire department was called out twice Wednesday on still alarms for grass fires. Thursday at 11.32 it was called out by an alarm from Box 341 for a chimney fire on Horton street. There was no damage. In 1907 the department answered 100 alarms.

Thomas Forbes had the misfortune to fall this week and break his nose.

The Thursday Evening club held a smoke talk this week.

Who for town officers, has commenced to be the absorbing topic of discussion.

Larceny Alleged.

George Kasanof was arrested Thursday night at Winchester for the Quincy police, by whom he is wanted for the alleged larceny of $38 last Saturday from Charles Kaprinkolous at 78 Warren avenue. It is alleged that Kasanof took the money from Kaprinkolous' clothing. He was in court and the case continued until Saturday.

We have just unloaded the above Coal from the Barges Eagle Hill and Bernside.

C. PATCH & SON,

1422 Hancock Street, QUINCY.

Has Good Word For Employe

Editors of the Daily Ledger:

I notice in last night's Ledger an account of attempted suicide by John Tite, according to the statement of the police, that Mr. Tite had not been working for several days and had been drinking hard, and that he had obtained possession of a revolver and shot himself.

I wish to contradict the statement by saying that Mr. Tite has been employed by me as a statue cutter for over ten years; he has always been a faithful workman, and has never to my knowledge lost any time through drinking, and that he worked full time the day before the accident, which was caused as I have been informed by his wife, and also by the people who were there directly afterwards, by a shot gun, and not by a revolver, as stated by the police, and there seems to be a doubt if there was any shot in the gun, but simply charged with powder.

Fred Barnicoat.

Quincy, Jan. 3, 1907.

Grade Crossings.

Mayor Thompson has called a meeting of the committee on abolition of the grade crossing at Saville street for 3 o'clock, Saturday, and for Water street at 7.30 o'clock.

TODAY'S COURT.

Alex W. Stewart was fined $3 for violation of the Metropolitan Park rules.

George Kasanof was arraigned for larceny at Quincy. Case continued until Saturday.

Charles W. Wade was sent to the State farm for drunkenness at Weymouth.

Squantum Club Change Commodores

The annual meeting of the Squantum Yacht club was held Thursday night at the winter quarters at Wollaston. The meeting was attended by 75 members. The large attendance was due to the contest for Commodore. Ex-commodore Charles M. Bryant won, defeating Commodore Sawyer by six votes. The new officers are:

Commodore—Charles M. Bryant.
Vice Commodore—Robert B. Smith.
Rear Commodore—Elezer F. Drew.
Secretary and treasurer—Walter L. Winlock.
Measurer—William J. Croucher.
Trustee for three years—Fred J. Stewart.
Regatta Committee, — James McCarthy, Charles Tobin, Walter S. Fiander, Fred Maxwell, John Atkins and Louis Marceau.

The Fiander cup was awarded to the Eleanor, owned by Commodore George F. Sawyer, Jr.

Other cups were awarded to F. J. Stewart of the Zoe, L. H. Brown of the Elizabeth F., and W. B. Grant of the Rena.

The Alderman From Quincy

The Boston Journal has an editorial comment of local interest on 'Our Visting Aldermen," which is reproduced in full:

"According to all accounts there will be an unexampled contest for Democratic leadership in this year's Board of Aldermen between Daniel J. Donnelly, the alderman from Quincy, and Elery H. Clark, the alderman from Cohasset. They are of opposite types, but each is a man of advanced physical development. Neither has served in the Board of Aldermen, but Mr. Clark had experience in the old school board and Mr. Donnelly did time in the Common Council.

"Quincy has not been represented hitherto in the Boston Board of Aldermen, although she supplied a mayor for this city in 1896, when Josiah Quincy leaped from his ancestral tree late in April and hastened to Boston for the purpose of registering as a citizen and prospective candidate. We are assured that the alderman from Quincy will do his level best to emulate the example of his distinguished former leader.

"Mr. Clark, we are told, is not so well known in Cohasset as he might be, owing to the fact that he divides his time between Cohasset and Bay State road, giving preference, however, and at this time, to Cohasset. He comes well backed by the Good Government Association, and he ought to make a name for himself.

"Good luck to both of our visiting aldermen, one of whom registers in Ward 7 and the other in Ward 9."

Leap Year Party By West Quincy Girls

The first leap year party of the season was held by the Chrysanthemum club, Thursday evening at St. Mary's hall. The hall was very prettily decorated and never looked more attractive. The ladies were in entire charge of the affair the men having an opportunity to see how it seemed to have their hand solicited for a dance. They seemed to enjoy the experience except when they were wall flowers. Mary Barron was floor director, and Nellie Creedon assistant. The reception committee were Beatrice A. Joyce, Bessie Small and Mary Barron. During a brief intermission Alfred J. LaCroix served refreshments.

The Social Realm

Methinks, if we could see each heart as heaven views it,
So much of sorrow, care,
So many hurts are there,
Of joy so small a part—
Poor, broken human heart!
So pitiful 'twould seem our hands would no more bruise it.
—James Witcomb Riley.

* * *

A very jolly party of young people danced the old year out on Tuesday evening at the home of Mr. Theophilus King, Adams street. Being disappointed at not securing Colonial hall, it being engaged for that evening, the hospitality of the King home was extended and a happy evening resulted.

* * *

Mr. and Mrs. George H. Hitchcock and family who have been making their home in Marshfield, have taken apartments in Boston for the remainder of the winter.

* * *

Mr. and Mrs. John R. Graham leave Boston today for an extended tour of Europe which will extend into Egypt. Mr. Graham has been very successful in his street railway enterprises about Bangor, Maine, since he left Quincy a few year ago.

* * *

Mr. and Mrs. Arthur B. Holden, nee Whicher, of Orange, New Jersey, have been guests in Quincy during the holidays.

* * *

Mrs. J. Henry Emery of Adams street gave a party at her home on New Year's afternoon for her grandchildren; Kenneth, William, Dorothy and Marion Edwards of Greenleaf street. The affair was much enjoyed by the young people.

* * *

The stork brought the best Christmas present to the household of Mr. and Mrs. Ellerton T. Williams of Prospect avenue, a bright baby boy.

* * *

Mr. and Mrs. Vung Lung Wong, are receiving the congratulations of friends on the birth of a son New Year's eve at Hotel Westminster, Boston. Mr. and Mrs. Wong are Chinese residents of this country. Mr. Wong attending Phillips academy at Andover and Mrs. Wong making her home with Mrs. Edmund Thayer of Willow street, Wollaston, and taking special courses at the Quincy Mansion school.

* * *

Mrs. Harry Carpenter of Pembroke, N. H., is a guest of her school friend, Mrs. Frank F. Prescott of Bigelow street.

* * *

Mr. and Mrs. Joseph Carruthers of Hancock street are at home to their friends this evening from seven until eleven, in observance of the twenty-fifth anniversary of their marriage.

* * *

Mr. and Mrs. Charles Gutterson, nee Simonds, who were married at Ogdenburg, N. Y., on December twenty-seventh are to reside at 96 West Elm avenue, Wollaston Park.

* * *

The engagement is announced of Miss Minnie Lincoln Wrisley of 42 Edison street to Mr. George Henry Bent of Chciago Ill.

* * *

The Monday afternoon teas from four until five at the Unitarian building, Beacon street, Boston, will be resumed next week with Mrs. John C. Phillips and Mrs. Jacob C. Rogers as the pourers.

* * *

Mr. and Mrs. Robert Homans (Abigail Adams) are settled in their new home, 158 Mt. Vernon street, Boston.

* * *

Mrs. George M. Freeman came on from Philadelphia this week, and is the guest of her granddaughter, Mrs. A. Edwin Clattenburg at the rectory.

* * *

Representative and Mrs. E. C. Hultman are at the Hemmingway Chambers, Boston, for the winter months.

* * *

Mrs. Frank E. Kennard and infant daughter Musa of Fenno street are spending the holiday weeks with Mrs. Kennard's sister, Mrs. William J. Croucher of Beach street.

* * *

Mrs. Charles F. Harper, who is spending the Christmas holidays in Walpole was in town this week calling on old friends.

The announcement at Christmas of the engagement of Miss Grace Raymond Fowler of Phillips street and Dr. Ernest R. Brooks of Somerville has brought hearty congratulations from their many friends.

* * *

Mr. and Mrs. Harry Eliot Russell, nee Pitkin, of New York City have been passing the holidays in Quincy and Braintree.

* * *

Mr. and Mrs. John Cashman of Cross street announce the engagement of their daughter, Mary, to Dr. Daniel B. Reardon, Harvard '03, of School street.

* * *

Miss Eleanor Richards, daughter of Lysander S. Richards of Mansfield is to pass the winter in Bermuda.

* * *

The Mother's Association held a very interesting and instructive meeting, Wednesday afternoon, January first. Mrs. H. E. Crane had charge of the devotional exercises and spoke on "New Year's Thoughts." Mrs. Walter S. Pinkham of Wollaston gave a very fine paper on "Children's Dress," which showed careful consideration of the subject, and Mrs. Frank A. Page of Wollaston added much to the success of the meeting by singing three selection.

* * *

Mr. and Mrs. Herbert F. Nye of Methuen passed the holidays with Mrs. Nye's relatives at North Weymouth.

* * *

Mr. and Mrs. Harry Woodbury of South Weymouth announce the engagement of their daughter Lillian Mary and Mr. Everett M. Taylor of Seattle, Washington.

* * *

Mr. and Mrs. Leon F. Besse of Kemper street are being congratulated on the arrival of a Christmas package two days before the holiday, a little daughter.

* * *

Mrs. Henry Schulze of Bigelow street leaves on Monday for a visit to her parents in Cincinnati, Ohio. She will be accompanied by her little daughter and her aunt Miss Jackson.

* * *

Mr. and Mrs. Frank Nightingale returned Wednesday from their wedding trip.

* * *

The engagement is announced of Miss Josephine Kimball, daughter of Mr. and Mrs. George E. Kimball of Hingham and Mr. Arthur M. Stoddard of West Hingham.

* * *

Mrs. Herbert Lawton of Presidents hill has gone to Florida to pass the midwinter season.

* * *

Cards are out for the New Year reception of the Daughters of Massachusetts on Thursday afternoon, January ninth, from three until five o'clock at hotel Brunswick, Boston. State and city officials will be guests of honor. There is a large reception committee and pourers and servers at the frappe tables.

* * *

New Year's eve and New Year's day were observed quite extensively in a social way, there being several dancing, theatre and house parties.

* * *

Leap year parties thus early in the year are already much in vogue.

* * *

Hr. and Mrs. Charles W. Miller of Cherry avenue are receiving congratulations, a little daughter arriving at their home on Tuesday December thirty-first.

* * *

Mrs. Charles Stecher of Botolph street entertained the Atlantic Whist club Tuesday evening. The New Year was ushered in royally.

* * *

Several Quincy people attended the New Year's reception of the American Unitarian association at 25 Beacon street, Boston from four to six o'olock. There was quite a crush and sociability reigned. An orchestra furnished music and there was good speaking by Hon. John D. Long, Rev. E. A. Horton and others. Tables of frappe, chocolate and tea, flower laden, were presided over by daintly gowned young women and the hallways and rooms were banked with laurel and Christmas greens.

(Continued on Page 5.)

THE TRUTH DISCOVERED

Relative to Supt. Maggi Possible Appointee For Commissioner

The most important city office that Mayor Shea will be called upon to fill is that of Commissioner of Public Works. That the present incumbent of the office, Commissioner Burke, will not be retained, seems to be generally understood.

Many names have been mentioned in current rumors as to who will be appointed, but up to the present time the man who has the appointing power has not intimated who he has selected.

Locally, the name of ex-Commissioner John T. Cavanagh has been mentioned and it is known that strong pressure is being brought to bear upon Mr. Shea to give him the berth.

Mr. Cavanagh filled the office one year under Mayor Keith and no doubt would be willing again to assume the office should it be tendered to him.

Other names that have been mentioned are Mr. Bainbridge, a Wollaston man now located in Abington, and Alfred L. Maggi, the present street superintendent at Chelsea.

Mr. Maggi is but little known in Quincy, but within the past few days there have been many rumors about him, which if true should cause the citizens in general to rise up and protest. It was on account of these rumors that the Daily Ledger determined to investigate for itself and inform the public that it might act in advance of the appointments.

Several gentlemen conversant with Chelsea affairs, with whose government Mr. Maggi has been connected for the past twenty years, were interviewed, and in view of the rumors circulated about him in Quincy it is due to him that the conclusions reached by the Daily Ledger's investigation should be made public.

It was found that Mr. Maggi had entered the employ of the city of Chelsea, after graduating from the Institute of Technology, as a clerk in the City Engineer's office, under Mr. McClintock, now of the Metropolitan Park Commission. When the latter gentleman retired, Mr. Maggi was made City Engineer, and upon the consolidation of that office with that of Superintendent of Streets he was appointed to that position. That was twelve years ago, and he has held the office ever since, the last seven yars being under Mayor Willard's administration.

A man in office for so long a time would naturally make enemies, and so has Mr. Maggi, but they are largely among those who would either like the postiion themselves or have friends whom they would like to see get it.

From all that the Daily Ledger has learned Mr. Maggi is one of the ablest men in the State in that line of work. He is business from the top of his head to the bottom of his feet, and has no time to give to social affairs.

He is rather outspoken in his manner, and when he gives an opinion it comes straight from the shoulder, accompanied by his reasons. If some one's pet scheme is put up to him, he immediately points out the holes in the scheme so that the committee may act intelligently.

One of the gentlemen seen by the Daily Ledger was Clarence A. Warren, a member of the Chelsea board ol alderman, and chairman of the committee on accounts. In Chelsea all bills against the city must pass this committee before they are paid.

Mr. Warren, who was willing that his name should be used, said that he was opposed politically to the Willard administration, which has been in power for seven years. He had been an alderman for the past two years, and he had made it his special business to closely scrutinize every bill for evidence of graft or wrong doing. He was free to say that he had not discovered any. There had been some rumors about Mr. Maggi, as there always is about every official whose position someone else is seeking. Many of these rumors he had personally investigated and run down, only to find that there was not a partical of truth in them.

To show to what ends people will go to have their personal friends appointed, Mr. Warren said that every day he had been approached by a Quincy man and asked to say as bad a thing as he could against Maggi, that it might be used to land a Quincy man in the position. The man said if he could only find something wrong about Maggi he could land his man all right.

In conclusion, Mr. Warren said, while he was originally prejudiced against, Mr. Maggi, he had found him to be a very competent official, and he considered him to be one of the ablest men in the State in public works.

Mr. Warren is a lawyer of high standing, whose reputation is of the best. He is a man who would not tell that which he did not believe, and is willing to stand back of his statements.

Another man seen, from whom it was reported stories detrimental to Mr. Maggi, had ennated, said that he had been in the city government six years under the Maggi regime, and was free to say that during that time Mr. Maggi was a straight official as far as he knew, and a very capable man. Since that time he had heard some rumors, but he had no way of proving them true or false.

The Daily Ledger has no axe to grind, but has the good of the city at heart, and it was for this season that it investigated for itself the rumors about a man who might be appointed. The Ledger was fearful that the result of the investigation might be different. In justice to Mayor-elect Shea and his possible appointee to the office of Commissioner of Public Works the investigation is made public.

EXCEEDED ITS POWER

Foraker's Opinion of Ohio State Central Committee

THE CALL FOR PRIMARIES

Senator Declares That Conditions Imposed Are Illegal, Unnecessary and Burdensome--Dick Agrees With His Colleague Regarding Call

Cincinnati, Jan. 4.—A flat refusal to be bound by the conditions of the call made Thursday night at Columbus for the Republican state convention, which is to name a state ticket and select delegates-at-large to the national convention, is the conclusion reached by Senator Foraker and announced in a statement given to the press last night.

Primaries for the selection of delegates to the convention were provided for in the official call issued by the executive committee by a vote of 14 to 7. The method provided is sharply criticised by Foraker. The statement in part follows:

"I am not sure that I understand the call, although I have read it several times. If I do, it is another case of asking for bread and getting a stone. My idea in requesting primaries was to have the election of delegates brought home to the people, so that in each ward, for instance, we could select our immediate representatives. This call makes all that impossible.

"In addition it prescribes requirements not authorized by the statute and not within the power of the state central committee. Some of the requirements are in direct conflict with the statute. Some of them are very burdensome. One, in particular, is the requirement that before there can be a Taft ticket and a Foraker ticket there must be a petition signed by twenty times the number of the candidates for delegates and alternates. That would mean in this county about 4000 signers or petitioners.

"The unreasonableness of the requirement that there shall be 4000 petitioners to authorize a ticket is shown not only by the fact that the law makes no such requirement, but that in cases where the law authorized county and city officers to be nominated by petition, only 300 names are necessary to nominate any county officer and only fifty names are necessary to nominate any municipal officer.

"If, in the contemplation of the law, fifty signers are enough to authorize placing a man's name on the ticket for mayor of Cincinnati or Cleveland, certainly it is beyond anything contemplated by the law that 4000 signers should be necessary to nominate a lot of delegates and alternates merely to attend the state convention. Such a condition is unnecessary as well as burdensome. It should be enough for each party to elect his own ticket and then let the people vote their preference.

"The counties are not bound to follow the order of the state central committee, but whether they do so or not I am not advised. So far as I am personally concerned, I shall make no effort to comply with such uncalled for, illegal and arbitrary conditions."

Dick Sticks to Foraker

Akron, O., Jan. 4.—"I am for Foraker first, last and all the time," Senator Dick said last night, "and the report that I desire to climb into some one else's band-wagon is false."

Thus the junior senator from Ohio described his attitude toward Foraker, incident to the recent action of the Republican state central committee, which is conceded by the Foraker forces to have been decidedly in favor of SSecretary Taft in his candidacy for of Secretary Taft in his candidacy for the presidential nomination.

Senator Dick said he was not pleased with the action of the committee in declaring for early primaries and a March convention. "I think the time set for the primaries and the convention is entirely too early," said Dick. "All of the conditions of the call are arbitrary and hard to comply with. This is especially true of the feature which provides for the nomination of delegates by petition. Everyone should be given an opportunity to vote for delegates. No provision is made in the call for candidates for state offices. The delegates will have no opportunity to vote for any candidates except Foraker or Taft. The voters will have no way of expressing a desire in the matter."

Proof of Purchasing Power

New York, Jan. 4.—An evidence of the country's prosperity and remarkable purchasing power is to be found in the annual report of the appraiser of the port of New York. The value of merchandise imported in 1907 in excess of importations in 1906 was $67,000,000. It is estimated that the total appraisements for 1907 over 1906 probably would have been $100,000,000 had it not been for the financial disturbance.

Labor Leaders Sent to Jail

Helena, Mont., Jan. 4.—Jail sentences of three months each were imposed on five Butte union labor leaders by Federal Judge Hunt. They failed to purge themselves of contempt, in which they had involved themselves by disregarding an injunction forbidding interference with non-union workmen employed by the Rocky Mountain Bell Telephone company on its new building.

IN NEED OF $125,000

Appeal For Assistance For Families of Dead Miners

Pittsburg, Jan. 4.—The permanent relief committee organized to raise and distribute funds for widows and orphans in distress, owing to the Darr mine disaster at Jacob's Creek on Dec. 19, has begun to mail to Chambers of Commerce and charitable organizations throughout the United States 50,000 copies of an appeal for subscriptions Governor Stuart is chairman of the committee signing the appeal.

The appeal says that by the catastrophe the lives of not less than 230 men were lost and almost every home in the small mining town was bereft of the breadwinner. The total number of these dependents is not less than 542, divided about as follows: Wives, 130; young children, 300; aged parents and others, 112. The committee then says:

"If $300 be allowed to each widow and $100 to each child under 16 years of age, and there be relative allowances for aged dependents of the unmarried victims and other dependents, a fund of not less than $125,000 will be required.

"All checks should be made payable to the Darr Mine Relief committee, John B. Jackson, treasurer, and they and all cash contributions should be sent to him, in care of Fidelity Title and Trust company, Pittsburg, Pa."

No Defense For Pettibone

Boise, Ida., Jan. 4.—The jury in the case of George A. Pettibone, charged with conspiracy in the murder of ex-Governor Steunenberg, began its deliberations at 8:50 o'clock last night. The last day of the trial was occupied with the argument of James A. Hawley, for the prosecution, and the instructions of the court. The defense carried out its announced resolution not to argue the case. Hawley fairly defied the attorneys for Pettibone to speak in behalf of the defendant, but they sat dumb when he finished.

Thinks Police Are Negligent

New York, Jan. 4.—Asserting that the statute against Sunday liquor selling is being treated with shameful indifference, Rev. Dr. Parkhurst of the Society for the Prevention of Crime, in a letter to Mayor McClellan, asks the mayor if he proposes to continue the "present apathetic policy in the matter of Sunday violation of excise." Parkhurst charges that complaints made to the police have failed to bring satisfaction and that Police Commissioner Bingham has been inactive.

Agreed to Die Together

Chicago, Jan. 4.—Charles G. Brockett, a floor-walker in a State street department store, and Mrs. Ruby Pishzak, wife of a state bank examiner, were found unconscious from bullet wounds in Grant park. Notes found on Brockett's clothing showed that the shooting was in pursuance of an agreement. Brockett died in a hospital. Mrs. Pishzak is in a critical condition. It has not been determined which one fired the shots.

To Investigate Woman's Death

New York, Jan. 4.—Mrs. John Van Ness Roberts, well known in New York society, died last night in her home from the effects of a drug which had been prescribed for a weak heart. An investigation will be made to determine whether the poison was taken with suicidal intent or not. There have been reports that Mrs. Roberts had sustained financial losses. Her husband, it is said, died in Germany five years ago.

Surgeon to Command the Relief

Washington, Jan. 4.—Surgeon General Rixey of the navy is anxious to get the hospital ship Relief, now at Mare Island, Cal., into service as soon as possible. Her main work for the immediate future is to be at Magdalena bay, Lower California, where the battleship fleet will rendezvous on March 14. The official assignment of Surgeon Stokes to the command of the Relief is expected very shortly.

Newspaper Guilty of Libel

Montreal, Jan. 4.—L'Eventment, a French-Canadian daily newspaper published in Quebec City, which termed members and ministers of the provincial legislature fools and ignoramuses, has been found guilty of libel in thirty cases which were brought against it by members and ministers and was fined $50 and costs in the case of each minister and $25 and costs in the case of each member.

Resigned For Good of Service

Washington, Jan. 4.—Second Lieutenant John H. Thompson of the marine corps has been allowed to resign for the good of the service. Thompson was tried by court martial on charges of conduct unbecoming an officer and gentleman. He was found guilty and sentenced to be dismissed, but was given the alternative of resigning, which he accepted.

NEWS IN BRIEF

The Berlin Mills company of Portland, Me., has purchased the controlling interest in the Burgess Sulphite company's plant at Berlin Mills.

A new counterfeit $5 silver certificate of the series of 1889 and bearing the portrait of the Indian chief "Onepaha" has been discovered.

George H. Reynolds, formerly one of the leading mechanical engineers and authorities on gun construction, died at his home at Mansfield, Conn., aged 79.

The cruiser Chicago of Rear Admiral Swinburne's squadron will sail next week for Hampton Roads, after four years' service on the Pacific coast.

George La Flue, aged 18 years, skated into a hole in the ice on Nachawannuck pond at East Hampton, Mass., and was drowned.

Did You EVER THINK of That?

IT WILL HELP QUINCY!

IT WILL HELP YOU!

Don't You Like This Town?

You live here. Your business interests are here. Your home is here.

You are reading a Mail Order Catalogue. That indicates that you are not spending your money in this town. You are spending it with strangers in a big city. That city has no use for this town except to get your money.

This town has use for your money. If spent here, your money will help to build up the town. It will help to build up your own business.

In the long run more of your money will come back to you if you spend it at home than if you send it to Chicago or some other large city. You spend a dollar with Smith, up the street. Smith spends it with Brown, around the corner. Brown is just as likely to spend it with you as with anybody else. Did you ever think of that?

All of us have to spend money. There is an art in spending it where it will do the most good. If spent so that it will circulate around this town and community, it will help this town and community. You belong to this town and community. Therefore it will help you. Isn't that good logic?

Suppose you think it over next time you pick up the Mail Order Catalogue.

IN OUR STORES

Are not what you think they ought to be, you can make them the equal of Metropolitan stores if you give them your trade especially your CASH TRADE. It will furnish employment for more clerks; and proprietor and clerks will expend their money in QUINCY.

QUINCY MERCHANTS should MEET BOSTON PRICES with Prices AND ADVERTISING with Advertising.

Her Titian Rival.

By MARTHA COBB SANFORD.

Copyrighted, 1907, by Homer Sprague.

"Wanted, a talented and vivacious young woman fond of children and of art to accompany mother and son abroad. Must have red hair."

"Well, of all things!" exclaimed Zephine Holliday. "What a funny advertisement, and if it doesn't hit me off to a T."

She read it over again, as if to convince herself that it was really not an optical illusion. Then she settled down to think it over.

A large half packed trunk stood open before her, and about her on table, chairs and floor were piled all her worldly accessories, for Zephine was to start the next day for a distant western city, where she had accepted the position of teacher of everything from elementary arithmetic, which she despised, to the history of art, which she loved, but had no particular desire to try to make a lot of giggling young girls love with an equal ardor.

Still there seemed nothing else to do now that the college course was over, and there were no surplus funds in the family exchequer.

"I'll answer that ad. in person," Zephine announced to the trunk, whose expansive yawn indicated expressively its amazement. "A kindergarten of one somehow sounds more attractive than a boarding school full of scatter brained girls, especially when it has with it a trip to Europe thrown in."

When Zephine rang the Maxwell bell that afternoon at the address given in the advertisement, she looked captivating enough to adorn any European party, no matter how fastidious its constituents. Her smart little autumn hat and her trig tailor costume both toned in harmoniously with the gold bronze of her hair that blew about coquettishly in the stirring breeze.

After sending up her card Zephine, with a half conscious sigh of appreciation, sank down into the cushioned depths of a luxurious easy chair to await the presence of the mysterious mother. When the latter entered the drawing room Zephine gazed upon her with frank admiration. She was stately and beautiful and above all undeniably motherly.

"You came in answer to my advertisement in the morning paper?" she asked. Her sweet naturalness quite banished all Zephine's embarrassment.

"Yes. I—I thought I would like to know more about it," the girl answered cautiously.

"You are fond of art, Miss Holliday—do you paint?"

"I'm not an artist, if that is what you mean, but I am very fond of pictures and paint a little for my own amusement. Do you wish me to teach your son how to paint, Mrs. Maxwell? I'm afraid"—

"Oh, no, indeed; just help him out a bit now and then with a suggestion. He likes to have his own way about doing things, only he needs some one who is in sympathy with his little fads and fancies. You like children, do you not, Miss Holliday? Of course that is essential."

"I can't live without them," Zephine replied with glowing enthusiasm. (And how could she? If it were not for children her chances of earning a livelihood would be small indeed!)

"If you are vivacious, I do not need to ask," commented Mrs. Maxwell, glancing at Zephine with genuine approval. "I like to have Ralph have lively companionship. He's so stirring himself. He leads me altogether too merry a chase."

"But why is red hair essential?" Zephine finally plucked up sufficient courage to inquire, at the same time blushing bewitchingly.

Mrs. Maxwell laughed softly.

"Oh, that's just to satisfy one of Ralph's whims. He's so cranky since he got over his long illness, poor boy, that we do all we can to please him in every little way. And he simply dotes on red hair. Why, he always paints women with red hair, and last Christmas, when we were selecting a doll for a little girl friend of his, he insisted on her having red hair."

Zephine joined in the laugh and almost forgot her misgivings over the prospect of her handling this "cranky" and evidently spoiled son of an overfond mother, who frankly acknowledged that she couldn't handle him herself.

When the arrangements were finally concluded Zephine walked home in a daze. She brought herself back to reality long enough, however, to send a telegram to the distant boarding school, which she would never enlighten with her funds of knowledge after all.

"Well," she announced to the hospitable trunk, which still gaped in astonishment when she returned, "it's lucky my clothes are all in order. Think of it, we start for Europe, old trunk, day after tomorrow, you and I—and Ralph and Ralph's mother," she added in a subdued anticlimax. "I wish I'd seen the kid. I know he's incorrigible."

The day for sailing was ideally fair. Mrs. Maxwell met Zephine at the steamer and accompanied her to her stateroom, establishing herself comfortably there with much motherly kindness.

"After the farewells are over you and Ralph must get acquainted," she said, hastening back to the deck.

Zephine herself had a few goodbys to wave. Indeed, she was a central figure of attraction as she stood at the rail of the steamer waving her handkerchief gayly, all unconscious of her picturesqueness as the sun crept under the brim of her hat and made a bright glory of her hair.

"By George, isn't she a stunner!" Zephine could not help hear a young man near her exclaim.

She blushed with confusion and was relieved to see her patroness approaching.

"Let me introduce my son Ralph," Mrs. Maxwell said proudly, laying her hand on the arm of the young man who had just complimented Zephine so spontaneously. "I expect you two to get on famously together."

Ralph extended his hand with willing cordiality, but Zephine stood transfixed with astonishment. At last she looked at Mrs. Maxwell appealingly.

"I thought he was a little boy," she gasped helplessly.

The explanations that followed were chaotic at best. Mrs. Maxwell supposed, of course, that Zephine knew of her son, Ralph Maxwell, the artist, the popular portrait painter of children and modern madonnas. Why, had she not mentioned especially how he painted all women with red hair? That is why she had thought it would give him particular pleasure to have the third member of their party possess this distinctive mark of beauty.

And as for Ralph—why, he himself had been entirely ignorant of the whole plot until that very morning, when his mother had revealed it to him, telling him with boundless enthusiasm that she had asked Miss Holliday, a charming young woman, to accompany them on their trip so that he would have some one to share his art enthusiasm with and to join him in his tireless jaunts in search of picturesque children to pose for him.

While this rapid fire of elucidation was going on Zephine looked from one to the other in her effort to comprehend the situation. Finally she burst out laughing—a trifle hysterical perhaps—but still it was the vivacious Zephine coming to her rescue.

Mrs. Maxwell sighed and smiled all at once.

"Oh, I'm so glad we all understand each other now. And I know going to be the best of friends."

With this optimistic assertio turned to greet an old acquainta

"And so you thought I was a laughed Ralph, looking at Z with undisguised admiration. I am pretty much of a one. have to take me in hand ju same. I may not mind promptly times, but that will be becaus oblivious to everything save the of your hair."

"It's dyed. I did it to get the replied Zephine, as she turne left the young man staring b after her.

* * * * * *

On the last day out Zephine sa ed up comfortably in her st chair, pretending to read. Ralp not far off sketching her, as she very well knew.

"When we get settled in the studio I shall make a portrait of you, Miss Holliday—that is, if you are willing."

"Then I shall be both a dyed and painted lady," she laughed teasingly, "an irresistible combination."

Ralph made no reply, but gazed at her so steadily that at last Zephine was compelled to raise her eyes.

"I could love you in spite of either," was the unexpected declaration that he made in response to her questioning glance, "but fortunately I'm not put to the test. All the dyes in the world couldn't produce the matchless brightness and beauty of your hair, dear. Why did you try to deceive me, Zephine?"

"Were you deceived?"

"For a day or two, because you shocked me into it. You haven't told me why yet."

"Oh, because you annoyed me that very first day by making love to my hair. Everybody does. It's my rival, and I—I wanted you to make love to me."

"And didn't I do it the very next day?"

Zephine looked at him indulgently.

"Yes, and every day since. You're every bit the incorrigible boy I imagined you."

"Only this incorrigible boy is in love with his teacher," answered Ralph, stealing hold of her warm little hand beneath the steamer rug.

Night Watchmen's Woes.

A night watchman employed by a construction company called at the office one day last week and asked to be transferred to some other building.

"I want a job," he said, "in some neighborhood that ain't so all fired aristocratic. It's too high toned up there for me. If you haven't anything else for me to do I'll look for another job, that's all."

The manager saw that the man was in earnest, and he promised to move him into a less exclusive section of the city.

"All night watchmen," the manager explained, "have a prejudice against very fine neighborhoods. They have to keep too quiet there. Most watchmen in order to keep the time from dragging heavily have recourse to some particular pastime. One man in our employ insists upon having on hand a small stack of boards, which he piles up and tears down at intervals throughout the night. In a quiet neighborhood the residents are disturbed by the clatter of the boards and the man is soundly berated for his activity. Again, night watchmen like to talk. They stop every nocturnal stroller and talk as long as the victim will listen. Neighbors who cannot sleep well complain about that too. In fact, in the very aristocratic sections the only thing a watchman can do that doesn't get him into trouble is to sit still and count his fingers."—New York Sun.

UNVEILING MYSTERY

Hackensack Meadow Murder Victim Positively Identified

HUSBAND HELD BY POLICE

Bitter Quarrels Marked Married Life of Fifteen Years--Sister of Dead Woman Furnishes What Is Considered Valuable Information

New York, Jan. 4.—Following a searching examination, during which many incidents of his life were laid bare, Theodore S. Whitmore, the husband, was held by the New Jersey police as a suspect in the death of Lena Whitmore, who was beaten insensible, stripped of her clothing and drowned in a pond on the Hackensack meadows in Harrison, on the morning of Dec. 26.

Whitmore, who had been detained in New York, was taken to Harrison last night and, having definitely identified his wife's body, was rigorously questioned by the authorities. The nature of his testimony determined the police to keep him within the jurisdiction of the local courts.

With a touch of emotion that added to the puzzling features of one of the strangest crimes with which the police have had to deal, Whitmore told the police of his struggle to live down an unpleasant past and how a faithless wife held over his head a threat of exposure—to make known to new acquaintances here that he was serving a sentence in Dannemora prison when he was pardoned by Governor Black.

Bitter quarrels and as many reconciliations marked their married life of fifteen years. His wife, he said, became infatuated with a sailor known to him only as "Harry," but when she returned home at Christmas, after five days' absence, he greeted her with a "Merry Christmas," she failed to respond and they quarreled on the street. He thought that she had a bottle of acid and he attempted to take it from her. In the struggle they both fell. Later they made up and had dinner together. Then he went out on an errand and when he came back to the house she had left, never to return.

Whitmore said that he was married by a justice of the peace in Albany. He gave his age as 36 years. He said, according to the police, that several years ago he was sentenced at Troy to a sentence of two years and ten months in Dannemora state prison for having assaulted a companion during a drunken row on the Albany bridge. He said he had served about eight months when he was pardoned by Governor Black through the intercession of his wife and her family.

Twelve years ago, he said, he came here and worked in various capacities until he secured his position on the elevated road. He said that on the day his wife disappeared he had given her fifteen dollars. He knew absolutely nothing, he said, of how she came to be in New Jersey or of the manner of her death.

Mrs. Whitmore, with her husband, conducted a furnished room house at 235 Adams street, Brooklyn. The first identification of Mrs. Whitmore was made by the woman's sister, Mrs. Susan Schmitter of the Bronx, and was corroborated by Mrs. Schmitter's husband, Martin, by Frank Englert, a friend, and finally by the murdered woman's husband.

A summons was issued last night for Englert. The latter, who admitted an intimate acquaintance with Mrs. Whitmore, was able to go into so minute details in his identification that the authorities believe he will prove a valuable witness.

Mrs. Schmitter also furnished the police with what is believed to be most important information. She told them of a series of letters and telegrams received by herself and a sister in Schenectady purporting to come from Whitmore. Some of these, she said, must have been written after Mrs. Whitmore's death. A trunk belonging to Mrs. Whitmore had also been mysteriously sent to her home, Mrs. Schmitter sa

Mrs. Whitmore left her home on Christ s day with the intention, according to her husband, of visiting her sister, rs. Bessie Hughes, whose home is in henectady. At 2 o'clock the next n ning she was seen in the company a man on the Hackensack meado s. That afternoon her nude body w s found nearly submerged in a pool of ater near where she had been seen. he next day Mrs. Whitmore's trunk was delivered at her sister's home in the Bronx.

Whitmore is a Brooklyn elevated railroad motorman who ordinarily works nights. He did not go to work Christmas night. He explained last night that he was taken ill with the grip after his wife left their home and that he had not been able to work since. He frequently quarreled with his wife, he said, and he was not surprised when she failed to return home. They quarreled, he explained, because she had accepted attentions from two other men. Yesterday Whitmore placed an advertisement in a Brooklyn paper, offering his furnished room business for sale.

HIS GRAVE A FOOT SQUARE

No Sign of Mourning at Funeral of Professor Seymour

New Haven, Jan. 4.—The funeral of the late Professor Thomas D. Seymour, one of the most famous Greek scholars in the world, at his home in this city, was divested of every sign of mourning, the family in ordinary attire sitting with the friends. Two hymns, one of them a favorite of Seymour, were sung from printed sheets.

The ashes of Seymour, received from the crematory in a small, solid wooden casket, handsomely polished, were borne from the house to a carriage by Professors White and Goodwin of Harvard, acting as active bearers, and placed within the carriage upon a front seat.

At the grave, which was about twelve inches square, the casket, covered by a single, simple wreath, was placed at the edge by the bearers and lowered by the son and son-in-law of Seymour, after which the interment service followed.

In the services at the house Secretary Stokes and Professor Ladd of Yale officiated, and at the grave Rev. James Williamson. Professors from many colleges attended the services.

New Fishing Schooner Sunk

Newport, R. I., Jan. 4.—The fishing schooner Julia Davis sank with but three minutes' warning when in collision with a barge off Race Rock and her captain and crew barely escaped going down with their vessel. They were brought here by the tug Aries. The schooner was a new one, this being her second sail.

Accident Aboard Schooner

Vineyard Haven, Mass., Jan. 4.—Seaman Thomas Johnson, while working between decks, fell into the lower hold of schooner J. Holmes Birdsall soon after the vessel had left Boston on the passage to Brunswick, Ga., and was badly injured. The Birdsall stopped here and landed him at the marine hospital.

Sudden Death of Maine Banker

Skowhegan, Me., Jan. 4.—Edward P. Page, senator from Somerset county, and president of the First National bank and the Skowhegan savings bank, died suddenly last night from heart failure. He had attended to business as usual in the banks yesterday. He was 60 years old.

Customs Receipts at Boston

Boston, Jan. 4.—The receipts from customs dues at the port of Boston show a falling off during the past year from the figures of 1906. The total amount collected during the past calendar year was $26,239,139.63, as against a total of $27,459,849.95 in 1906.

Night-Riders as Incendiaries

Russellville, Ky., Jan. 4.—Following an attack on Russellville by night-riders, who want to force independent tobacco growers to refuse to sell tobacco to the American tobacco company until certain prices can be obtained, State Marshal Ayres is on the way to Russellville to investigate the attack, which resulted in the shooting of three men and the burning of two tobacco warehouses, a planing mill and three smaller buildings.

Grenfell's Reindeer Arrive

St. Johns, Jan. 4.—Steamer Anita, bringing 300 reindeer from Norway for the use of Dr. Grenfell, the physician-missionary explorer, has sought a harbor off the northern coast of Newfoundland, having been unable to reach her destination, St. Anthony, Labrador, where Grenfell maintains a hospital, owing to the prevalence of ice floes. The reindeer are in excellent condition.

May Lock Out 200,000

Manchester, Jan. 4.—The wage dispute between cotton spinners and millowners, on account of which the operatives in two Oldham mills struck several weeks ago, reached a crisis yesterday, when 96 percent of the masters declared themselves in favor of a lockout if the strikers do not yield by Jan. 18. Two hundred thousand workers will be involved.

Three Men Executed

Tunica, Miss., Jan. 4.—Two negroes were hanged here for murder. They were Will Washington and Faint Hopkins. Both killed other negroes.

Lake Charles, La., Jan. 4.—L. H. Coleman, white, was hanged here for the murder of Deputy Sheriff Shoemaker when the deputy attempted to arrest him on a minor charge.

Fire on Supply Ship

Rio de Janeiro, Jan. 4.—A fire broke out in the engine room of the American supply ship Arethusa in the harbor of Para. With the aid of several torpedo boats, which the Arethusa is accompanying to the Pacific ocean, the fire was finally brought under control without serious damage to the vessel.

French Flag In Algeria

Lalla Maghnia, Algeria, Jan. 4.—To commemorate their recent victory over the Benis Nassen tribesmen, the French troops yesterday raised the French flag on a summit of a nearby mountain. It stayed aloft for a few hours and was then hauled down. After this ceremony the troops retired.

Many Soldiers Leave Goldfield

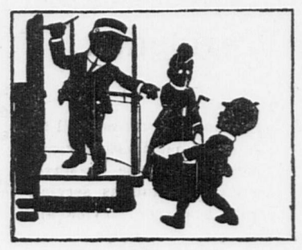

Goldfield, Nev., Jan. 4.—Seven companies of United States troops left Goldfield yesterday by special train for their California posts. The troops remaining in camp, 135 men, have been divided into two companies.

Transport Fast on Rocks

Tangier, Jan. 4.—The French transport Nive, which went ashore a few days ago near Casablanca, is fast on the rocks and doubtless will be a total loss.

A NOTRE DAME LADY'S APPEAL.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbagos, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box B, Notre Dame, Ind.

The Old year is going
The New is almost here.

GAS PLANT OPERATION.

Lucien H. Tyng Compares Public and Private Ownership.

Lucien H. Tyng contributed to the August issue of Moody's Magazine a strong article on "Private versus Public Operation of Gas Companies," from which we take the following:

"Making money out of a gas plant is not like picking gold eagles out of the street, and a franchise to run the gas business in a community is no gold mine. It may be developed into a source of great profit, but only in conjunction with capital and business ability, especially the latter, which if not employed in the particular gas business in question might be securing greater returns in some other field.

"There is no more logic in the belief that the surplus earnings of a successful gas company over a certain percentage on the investment should go to the municipality than that a wholesale grocer should refund to his customer all profits over 6 per cent, say, on the capitalization of his company. The success of the gas company comes from the use of proper judgment, energy and business methods in the use and risk of capital invested, just as in any other business.

"That often the gas business is apparently a natural monopoly in a given community does not disprove the foregoing reasoning. The gas companies that are making the most money today are not those that are taking advantage of their franchise rights to exact high rates. They are the ones who by their own effort in educating the people are so increasing the per capita consumption of gas as to make a lower rate a business possibility and by their intelligent attention to operating cost and investment of large amounts of new capital when needed are able to reduce the cost of making gas sufficiently to secure a greater total profit out of selling a large amount of gas at a low rate than was before received when rates were higher and business less.

"But it is only by the most aggressive and intelligent business methods that a gas company can hope to succeed under such conditions. The ability to handle the business in this way is something that a municipality cannot buy at a salary. The opportunities in other lines of business are too great to those with the capacity that enables them to develop the highest earning power out of a gas company at a low margin of profit for the product."

PUBLIC BUSINESS NEGLECTED

No Private Enterprises Could Have Been So Badly Managed Without Collapse.

It is a stern but not a pleasant duty to call occasional attention to the way events continue to stultify the claims of the municipal ownership advocates that the public does its own business as well as or better than the individual does his.

Take three enterprises of present moment. No private individual or corporation constrained by a profit making purpose and upholstered by the taxing power would make such crazy and corrupt contracts for a building as those which investigation shows the state of Pennsylvania made for the Harrisburg capitol. No private enterprise would have so little to show for six years of work on a simple engineering problem as the municipality has in the Manhattan bridge. No individual able to keep out of the bankruptcy courts and the insane asylum would have spent, as Father Knickerbocker has spent, $7,000,000 for a hall of records, taken seven years to build it and then found that it would not hold his records.

The huge debt of the metropolis, its narrow borrowing power, the condition of its streets, docks and parks and the confusion of its tax system, all are explained and illuminated by these contemporary incidents.—Editorial in New York Mail and Express.

There Was a Reason.

Some of the forms of graft practiced in certain Indiana cities which have gone into the municipal ownership business may be peculiar to those towns. In one of them, which owns and runs its waterworks system, as Rochester does, the city waterworks were insured for $32,000. A cement water tank carried $26,000 insurance, though it could not be fired if a thousand incendiaries went to work at it. It happened that in that town one of the influential officials was agent for a fire insurance company which had "risks" on the water tank and other properties.—Rochester (N. Y.) Democrat and Chronicle.

Familiar Story From Portsmouth, O.

Portsmouth, O., was among the first to install its own electric light plant, which it operated until a street railway system was installed. At that time a contract was made with the street railway company by the terms of which it took charge of the lighting plant and furnished light to the city for a specified sum. This contract continued in force until about three years ago, when the practically worn-out and out of date equipment was sold to the street railway company because the city was unwilling to expend the money necessary properly to re-equip the plant.

In Chehalis, Wash.

According to the mayor of Chehalis, Wash., "the city owns the plant, which was leased some time ago to a private party. That party now owns nearly all the machinery connected with the plant. The city at the time it operated the plant did not make a financial success for the reason that the city was at that time very small and in dishonest hands, so the story goes."

Congratulations to Quincy Patriot

The venerable Quincy Patriot comments as follows upon entering a new volume—No. 72:

With this number the Patriot enters its seventy-second volume and it tenders its numerous readers, patrons and friends the compliments of the season. For the liberal support and encouragement which it has received the past year we would extend our hearty thanks. It has been our aim to keep the Patriot free from all objectionable matter; from all personal attacks; from political slang and religious bigotry. At the same time we have endeavored to give the readers all the important news of the city; fifteen to twenty long columns have each week been filled with local matter, which is so highly prized by its readers.

In conclusion we would return our thanks to all our patrons, both of the newspaper and printing departments, for their liberal support, and wish them a happy and prosperous year; and all the good things of life—peace, prosperity and contentment.

Water Receipts On the Increase

Although during the past year, since the installation of water meters, the rates charged for two and three family houses supplied by one service have been reduced from $36 and $54 per year to a minimum of $18 per year for 60,000 gallons, the city receipts have increased. This does not mean that the consumer saves $18 or $36 per year, but it would be possible if he used only 60,000 gallons. In a two-family house 90,000 to 100,000 gallons may be used; and in a three-family house 130,000 to 140,000. The house pays, however, for what it uses. In a three-family house it may be as low as $18 or as high as $50, or $75, or $100, according to consumption. In a single house, fully plumbed, the owner pays at least $18 although he uses but $10 or $15 worth of water. If he uses over 60,000 gallons his bill may be $20 to $30.

The collections for water service in 1904, the year previous to Mayor Thompson taking office, were $96,-819.39.

The installation of meters has reduced in some cases the individual bills, but the city collections have increased, so that for the year 1907 they reached the sum of $112,546.37. Mayor Thompson says that the meters have not been installed long enough to determine what the rates of the future will be, but he believes that eventually it will mean a reduction in rates and that the department will soon become self supporting.

THE NEW CITY COUNCIL.

Six Former Councilmen and Eight Men Without Experience.

Only Six of the Twenty-Three Were Born in the City of Presidents.

The City Council of 1908 will include eight members who enter the council for the first time. There are also six who have served as Councilman in other years, and nine members of the City Council of 1907. In point of service ex-Mayor Bryant leads the van with eight years although it was not a continuous service. Next in order is Councilman Freeman with five years previous service and Councilman Whiton with three years previous service.

Of the other members Councilmen Beal, Ferguson, Gelotte, Hobbs, Hogan, and McGilvray enter the Council for their third term, and Councilmen Curtis, Falconer, Gilson, Moir, Teasdale and Walsh enter the Council for their second term.

The following summary will be of general interest:—

Name and District	Year	Birthplace	Age	Business
George W. Abele, Ward One	First	Boston	33	Lawyer
Arthur C. Beal, At Large	Third	Falmouth	37	Instructor
Charles L. Bean, Ward Five	First	Hartland, Me.	42	Carpenter
Thomas Bishop, Ward Three	First	England	41	Granite
James H. Broughton, Ward Five	First	Lawrence	44	Manufacturer
Charles M. Bryant, At Large	Ninth	Lowell	50	Merchant
James M. Cantfill, Ward Three	First	Abington	33	Granite
William A. Carey, Ward Two	First	Quincy	23	Engineer
Chas. E. Cherrington, Ward Six	First	Boston	39	Salesman
Jesse F. Curtis, At Large	Second	Quincy	54	Bookkeeper
Alex. Falconer, Ward Three	Second	Scotland	54	Granite
J. Leonard Ferguson, At Large	Third	Gloucester	34	Superintendent
Richard R. Freeman, Ward Five	Sixth	Wellfleet	47	Broker
Otto Gelotte, Ward One	Third	Sweden	36	Granite
Alfred H. Gilson, At Large	Second	Boston	53	Dentist
Ralph W. Hobbs, Ward Six	Third	Boston	37	Real Estate
Thomas F. Hogan, Ward Four	Third	Stonington	45	Granite
Charles J. McGilvray, Ward Four	Third	Quincy	24	Lawyer
John Moir, Ward Six	Second	Scotland	29	Clerk
James B. Oakes, Ward Two	First	Virginia	28	Electrician
Robert J. Teasdale, Ward Four	Second	Quincy	45	Salesman
Michael T. Walsh, Ward Two	Second	Quincy	27	Clerk
Joseph L. Whiton, Jr., Ward One	Fourth	Quincy	35	Salesman

COUNCILMAN-ELECT BRYANT.

CHARLES M. BRYANT.

Who returns to the Council of 1908 as Councilman at large is almost too well known to need any introduction to the public of Quincy, for he has been before the public many times during the past ten years. He served in the Councils of 1891, '92, '95, '96, '97 '99, '00, and '01. He was elected Mayor at the election of 1901 and served the city in the years 1902, '03, and '04. While he was in the City Council he served on important Committees and as President. He was born in Lowell, Nov. 29, 1857, and has lived in Quincy since the early eighties. He is treasurer of the A. Storrs & Bement Co.

ALFRED H. GILSON.

Mr. Gilson served in the Council of 1906 as a member from Ward One, but returns to the Council of 1908 as a Councilman at large. He was

born in Boston, April 17, 1855, and was educated in the public schools of Boston. He came to Quincy in 1873 and has since made his home in this city. His business is that of a dentist with an office in Boston. He is a member of several societies in which he holds office. Of late his services have been in demand as an expert operator of the stereopticon for prominent lecturers.

RICHARD R. FREEMAN.

Is one of the new memebrs from Ward Five but has seen considerable experience in previous Councils as well as in the State Legislature. He served in the City Councils of 1898, 1899, 1900, 1901 and 1902. In 1903 he was elected to represent the Fifth Norfolk district in the Legislature and was reelected to that body of the year 1904. He was born in Wellfleet, Nov. 19, 1860, and has resided in Quincy since 1885. His business is that of a ship broker.

GEORGE W. ABELE

The new member from Ward One, is a well known lawyer. He was born in Boston, February 22, 1875, and educated in the public schools of that city. He prepared for college in the Roxbury Latin school and was graduated from Harvard in the class of '97, and from the Harvard Law school in 1900.

Upon being admitted to the bar he became associated with the late William W. Jenness, and since the death of Lawyer Jenness he has continued the general practice of law with offices in Quincy and Boston, being associated with U. S. District Attorney Asa P. French.

He is a member of the Citizens' Association, Board of Trade, and of the Masonic fraternity; also of the Boston Bar association and American Bar association.

JOSEPH L. WHITON, JR.

After a lapse of three years, Mr. Whiton returns to the City Council. He was first elected to the City Council of 1902 from Ward Two, and was returned to the Councils of 1903 and 1904. During those years he served on several of the important committees. Later he moved to Ward One and he returns to the Council of 1908 from that ward.

He was born in Quincy, Feb. 28, 1873, and has always resided here. He

Just Jotted Down By Ledger Men

Rain or snow Sunday.

Cooler today; the mercury was at 20 at sunrise and 38 at noon.

Several of the young men in Atlantic are planning to run the first assembly of the season in Music hall on Newbury avenue, January 18.

The Young Peoples' Religious union of First church meets on Sunday evening at seven o'clock in the church parlor.

A Finn girl recently arrived in this country advertises for a place to do general housework. Although inexperienced she is willing and wants to learn.

The Scenic Temple, by which the Coliseum will hereafter be known, will be thrown open to the public Monday night. An unusual good bill has been arranged for the opening night, including high class vaudeville and moving pictures.

Alfred N. LaBrecque, the local correspondent of the Boston American. has the sympathy of a large circle of friends in the death of his son Alfred Phillips, of spinal meningitis, aged 4 months.

An anniversary mass for Mrs. Mary Deasy, who died a year ago, Jan. 3, 1906, was celebrated yesterday at St. John's church by her son, Rev. William T. Deasy of Randolph. Rev. John J. Coan and Rev. Julian E. Johnston were also on the altar.

Over 100 chairs have been placed in the Council chamber at City Hall for use on Monday during the inauguration ceremonies. These in addition to the settees will furnish a seating capacity of nearly 500 outside of the gallery, which will be reserved for ladies.

There will be a meeting for prayer under the auspices of the State Suffolk County and Boston W. C. T. U. in Lorimer hall, Tremont Temple, Boston, on Monday afternoon, January 6, from 2 to 5 o'clock. It is hoped many of the ladies of the W. C. T. U. in Quincy will attend without further notice.

The William A. Bradford Company, plumbers in city square, have just issued a very beautiful calendar for 1908. It is a reproduction of Henry P. Smith's painting of the old fashioned time-worn cottage at East Hampton, L. I., which was the boyhood home of John Howard Payne and the inspiration of his famous song, "Home, Sweet Home." It is an artistic gem in coloring and detail.

The third in the series of whist parties under the auspices of the John Hancock Associates was held last evening in Odd Fellow's hall, Wollaston. The usual large attendance was present and a very enjoyable evening was spent playing whist. There were twelve very pretty prizes awarded to the following players: Ladies,—Miss Bertha Toby, Mrs. Sturges, Mrs. Laskey, Mrs. Thomas, Mrs. Spooner and Miss Lawrence. Gentlemen,—Messrs. Clark, Bowles, Stevens, Shea, MacKay and Robinson.

Street Railway Retrenchment.

Changes to be made in the operation of some of its routes are announced by the management of the Old Colony Street Railway Company. It is stated that these changes are the outcome of the period of business depression, which has been felt in all lines of industry for some time past, and which has so decreased its receipts that steps looking toward a more economical operation of its routes has become imperative. While loath to make any curtailment in its service the company feels that it must do so.

The changes to be made will in general be along the line of cutting out certain trips which it has found have been showing such a large percentage of decrease that ordinary business judgment does not justify their continuance for the present. The general riding, it is stated, has fallen off very materially throughout the period covered by the so-called bad times, particularly on certain routes and certain trips on those routes.

RALSTON

So Cleverly Have the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,
1 Granite Street, Quincy.

Several Changes By New Timetable

A new time table goes into effect on the N. Y., N. H. y H. R. R., on Sunday.The principal changes affecting Quincy are as follows:

Train leaving Boston at 8.27 A. M., due at Quincy at 8.49 A. M. will be retained, but its destnation will be Plymouth via the South Shore, instead of Taunton as heretofore.

The 8.45 A. M. express train, due at Quincy at 9.02 is discontinued.

The 3.45 P. M. train, Boston for Cohasset, due at Quincy at 4.02 P. M. is discontinued, but the 3.43 P. M. train, Boston for Campello, will make stop at Quincy at 4 P. M. in its stead.

The inward Cohasset passenger, now leaving Quincy at 5.59 P. M. will be replaced by a Whitman passenger, leaving Quincy at 6.01 P. M. and running express to Boston.

The 7.13 P. M. inward passenger will be discontinued and its work done by the present 7.18 train.

The 8.08 P. M. inward passenger will leave Quincy at 8.05 P. M.

The Cohasset passenger leaving Braintree at 5.54 P. M. will run via Granite Branch leaving West Quincy at 6.00 P. M. stopping a tEast Milton and Atlantic and thence running express to Boston.

Annual Report Norfolk County

The year 1907 was a busy one in the office of the clerk of courts for Norfolk County. During the year 538 law and equity actions, 91 divorce libels, and 360 criminal cases were entered in the Superior Court, while six law and 34 equity cases were docketed in the Supreme Judicial Court.

The number of wills and other instruments filed and recorded in the office of the Register of Probate for Norfolk County for the year just closed was 1131, as against 1029 in 1906. The record by months was as follows: January, 112; February, 100; March, 106; April, 102; May, 121; June, 80; July, 92; August, 30; September, 99; October, 104; November, 89; and December, 87.—Dedham Transcript.

A Trio of Speed.

At the shoeing forge of Whelan & McNeills has recently been seen perhaps the greatest trio of speed ever before in any New England shop.

The great "Sonoma Girl," which many horsemen predict as the greatest trotter in the world. "Nut Boy," the greatest winner in 1906, and "Jentry's Star" which in all probability will put the damper on all records, the coming season. These horses have had their New Year's shoes ready for fast work out on the speedway. All are owned by the famous Crabtree farm at Squantum.

It Helps the City

INAUGURATION DAY PLANS

William T. Shea Will Take Oath Of Office as Mayor On Monday Next

The inauguration of the new City Government next Monday will not differ materially from other years. The fact, however, that a Democrat is to be inaugurated for the first time for several years will doubtless result in filling the hall to its uttermost capacity.

Promptly at the hour of 12 o'clock the inauguration party will enter the hall from the rear stairway. City Messenger Harry W. Tirrell will lead the way, and the party will include Mayor Thompson who surrenders the reins of government, Mayor-elect William T. Shea, City Clerk Harrison A. Keith, and Rev. Ambrose F. Roche who will offer prayer.

By this time the members of the City Council elect will have assembled inside the rail, and the city officials will occupy the seats set apart for them.

City Clerk Keith will preside until after the City Council organizes. After the prayer the oath of office will be administered to Mayor Shea. A roll call of the City Council will follow, and after members have been sworn in, Mayor Shea will be introduced and will deliver his inaugural address, which he promises will be short.

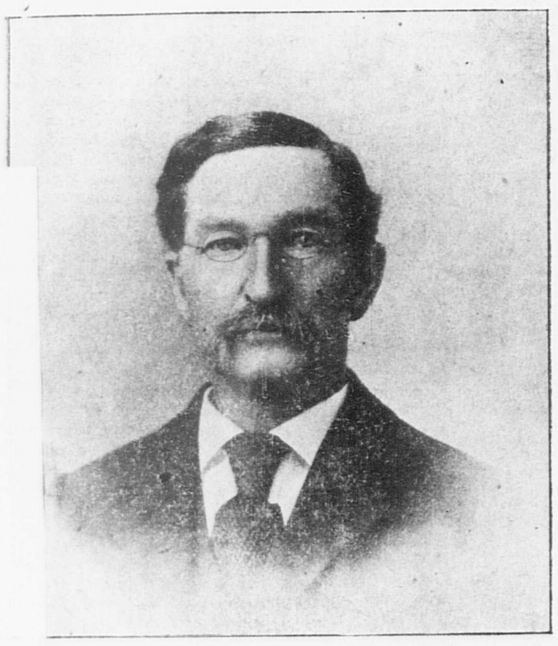

The City Council will then organize by the election of President, Clerk of the Council and Committees, City Messenger, and City Auditor. All of these officers will be elected by roll call. After the oath of office has been administered the drawing of seats will take place. It has been the custom in other years to permit the members of the previous year to retain their old seats.

Regular business will then be in order. The first thing will be communications and if Mayor Shea has any appointments to make they will come at this time. He will also send in a list of constables for confirmation.

There are several things the Council must do which are usually done at the first meeting. These are to adopt the rules of the previous Council, to introduce orders for the printing of the council calendar and rules, and to authorize the City Treasurer to borrow money in anticipation of taxes. All of these are usually referred to a special committee.

Then there are other offices to fill which are done by ballot. These include the election of two trustees of the City Hospital and member of the Board of Managers of the Woodward Fund.

As the regular meeting of the City Council comes that evening, the custom has been to suspend the rules and to adjourn for one week or to the second meeting of the month, which will be Jan. 20. An effort may be made to push along the proposed Coddington schoolhouse.

CITY CLERK KEITH.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

PROMOTION DAY.

Sunday, Jan. 5, will be "Promotion Day" at the Point Sunday school. Parents and friends of the pupils are invited to gather at the church at 12. After an opening exercise, certificates of promotion will be given to three classes from the primary department, forming an intermediate department, of which John Hendry is superintendent, assisted by Robert Hendry and Miss Evelyn J. Hayden as teachers, and Miss Chisholm as organist and secretary. A written examination of 20 questions was recently given to these classes; here are five of those questions.

1—Into what classes are the books of the Old Testament divided?

2—How were the first Bibles made?

3—What is the name of the first Bible in the English language.

4—What is the name of that version of the Bible in common use?

5—What is the name of the latest version of the Bible?

The following Sunday school pupils are to be promoted: William Melville, Frederick Roache, Robert Workman, Edward Chisholm Willard Joyce, Stephen Yule, Parmalee Studley, Robert Morgan, William Knapp, Arthur Brown, Doris Carter, Eva Forrest, Jennie Gibb, Marie Lorensten, Alice Robertson, Ina Schirrel, Pearl Trumbull, Florence Tobin, Margaret Wardell, Lillian Ford, Eleanor Levering, Margaret Helliksen, Ralph Burrell, Carl Hammond, Charles Hugo Momm, George Robinson, Everett Louther, Arthur Thayer, John Drake.

Grade Crossings.

With all this talk of grade crossings, it may be interesting to know, that two young men of the class of 1907, M. I. T., had as their joint thesis "The Abolishment of the Grade Crossing at Water street, South Quincy."

Their plans and drawings were pronounced excellent by the Engineering department and accepted by the Institute. These young men were Archibald P. Fuller, now a civil engineer on the Pennsylvania R. R. at Louisville, Ky., and Gardner Sabin Gould of Newton, a sanitary engineer on the Boston Board of Health.

—Inaugural address of Mayor Shea in full in the Daily Ledger of Monday.

Social Realm.

(Continued from Page 1.)

Mr. John Buchanan of Wollaston attended the wedding on Thursday of last week of his life long friend Mr. Edward C. Greenway, and Miss A. F. Smith, in the chapel of Emmanuel church, Boston, Later in the day Mr. and Mrs. Buchanan served a wedding supper at their home in Wollaston after which Mr. and Mrs. Greenway left for a tour of the west.

* * *

Prof. and Mrs. Otis B. Oakman of Braintree are receiving congratulations a daughter being born to them on Tuesday Dec. 31st.

* * *

The Pioneer Whist club met Wednesday evening with Mrs. W. B. Grant of Rawson road. Prizes were awarded to Mrs. Fred H. Loud, Mr. Charles Treadway, Mrs. Frank Flanders and Mr. A. E. Linnell.

* * *

Mrs. N. J. Crane and daughters of Quincy avenue spent Forefathers day and Christmas at Plymouth.

* * *

Mr. John Q. A. Field, one of our active granite business men, is seventy-three years old today. He will celebrate the event by visiting one of the theatres in Boston this evening.

* * *

Mr. and Mrs. William Gallagher of Braintree have returned from a visit to New Hampshire.

* * *

The engagement is announced of Miss Arlie M. Reed of 166 Commonwealth avenue, Concord Junction, Massachusetts to Mr. William Robbie of South Quincy.

* * *

Mrs. Oakes A. Bridgham entertains Adams Chapter Daughters of the Revolution, on Monday afternoon at her home 985 Washington street South Braintree.

* * *

Miss Georgiana C. Lane of Presidents hill who alway takes an active part in the Twelffh Night revels of the Boston, will this year impersonate Pierrott, the jesting character in pantomime who appear as a simple valet wearing white with rows of big buttons down the front of the jacket and face painted white. Pierrott will have in tow a big white elephant.

* * *

Mr. and Mrs. Paul W. Jackson announce the engagement of their daughter Edith Adelaide to Mr. Irving Newcomb Holbrook all of Braintree.

* * *

Miss Etta M. Prescott of Spear street who has been ill for a few weeks with la grippe is convalescent.

* * *

Mr. and Mrs. C. E. Edwards and daughter Dorothy of East Braintree left Friday for New York. From there they embarked on "The Creole" for New Orleans, Lousiana.

* * *

Mr. and Mrs. Stanley Bone nee Hellier who were married on Wednesday at Bangor, Maine, are to make their home at 105 Putman street. Mr. Bone is a naval architect at the Fore Rive Shipbuilding plant.

* * *

Mr. and Mrs. Elisha Bird of Beach street gave a rousing party New Year's eve and welcomed the New Year in with true New England hospitality. Refreshments were served.

* * *

Miss Louise Burleigh of Braintree gave a party to about twenty-five of her Thayer Academy friends on the last day of the year, 1907 from two until five o'clock. Refreshments were served.

* * *

A number of the friends of Miss Ruth Page helped her celebrate her sixteenth birthday at her home on Beach street, Wednesday evening. Among those present were Miss Hazel Jones, Miss Marion Smith, Miss Clara Mansfield, Harold Tuck, Carl Mansfield, Fred Sass and Malcolm Hinckley.

* * *

Miss Anna Gould is visiting relatives in Francestown, N. H.

* * *

Rev. and Mrs. Leon H. Austin visited friends in town on New Year's day, and in the evening the former pastor preached at the Point church.

* * *

The next meeting of the Philergians of Braintree will be held in to Tuesday, Jan. 7, at 2.30 P. M. The afternoon will be devoted to Vaudeville, the chairman being Mrs. Harry W. Gore, Jr. These who are familar with her work in amateur dramatics are anticipating a delightful program. Both fancy dancing and darkey clog dancing will be given. A one act comedy will also be presented, besides many other interesting special features.

BRAINTREE.

There will be a public meeting at the Town House on Monday, January 6th at 7.45 P. M. to consider the matter of the abolition of the grade crossing at School, Elm, River and Union streets. This will be an important meeting and every citizen should be interested.

Saturday morning, Jan. 11, at 10.30 o'clock at the Town house there will be a hearing on grade crossings before the commissioners. It is the general opinion of the citizens of Braintree that Union, River and Elm streets should go over or under the railroad tracks at the same place they do now. Don't allow our street to be crooked around.

The Woman's Guild of the South Congregation church will hold its next regular meeting next week Wednesday, January eighth, at two o'clock in the chapel. Afternoon tea will be served at four.

Mrs. E. A. Fisher of Hancock street entertained a number of the lodge, Knights and Ladies, at her home Wednesday evening. A very pleasant evening was passed.

A number of Sons of Veterans attended the public installation of the Daughters of Veterans held in East Weymouth on Thursday evening.

An unusual phenomenon was noticed by one of Braintree's bright young ladies, Monday evening. Although the stars were brightly shining, still there was quite a fall of rain at the same time.

It was with deep regret that the many friends of Mrs. Robert Stocker of Pond street heard of her death on Saturday night. A woman, loved by all who knew her, who will be greatly missed by her many friends. Funeral services were held Wednesday at Methuen, Mass. The sympathy of the entire community is extended to the bereaved husband, son and daughter.

Monday evening Miss Ethelin Powell entertained a sewing club at her home on Tremont street. Miss Powell favored her friends with selections on the guitar, Miss Clara Call gave a piano solo and Miss Moir a vocal solo. Light refreshments were served from the chafing dish, which made the evening pass most pleasantly.

In menory of the pleasant days and years of united work together in the Universalist parish Mrs. G. H. Arnold of Middle street entertained at dinner on New Year's day Mrs. D. E. Cain, Mrs. J. A. Brigham and C. G. Anderson of South Braintree.

Hon. George Fred Williams of Dedham will be present at the next meeting of the Men's club of All Souls church, Wednesday evening, Jan 8 and speak upon "Municipal Ownership." Guests tickets may be obtained from members.

The Old Colony Association of Universalist churches will meet at Plymouth, Wednesday, Jan. 8. Speakers: Rev. J. H. Holden and Rev. William Condon.

All who were fortunate in receiving the card of New Year's greeting with Rev. C. F. H. Crathern's photograph, will no doubt be present at the Sunday morning service at the South Congregational church, sure of hearing a fine sermon by the pastor. The subject will be "Standing in the Gap." The choir will render its finest selections.

Mrs. Alice B. Hayden Division I. & I. officer will install the officers of the S. of V. auxiliaries at Holyoke, Jan. 6, Brockton Jan. 7, and Quincy Jan. 8.

The sympathy of many friends is extended to Mrs. H. H. Snow, who is having a serious time with her feet. She is receiving treatment at the Carney hospital, which it is hoped may prove to be a cure for the troubles.

Rev. R. E. Shuh, a formef pastor of M. E. church was the guest of Mr. and Mrs. W. H. Heath of Central avenue the first of the week. He is now teaching biology and botany in a college in Washington.

Peter Donahue, Jr., who recently returned from Vermont, where he has been employed for the last six months, was surprised at his home on Pleasant street Monday evening by a few of his friends. A most delightful concert was given. The features of the evening was the singing of Robert Miller and Miss Bessie Levangie. Refreshments were served after the entertainment.

Charles H. Johnson, auctioneer, is to sell at auction on Tuesday afternoon the household furniture of the late Linda McLean of Elm street. Full particulars of sale will be found in advertisement.

At the Knights of Pythias whist party last Thursday evening prizes were awarded to Miss Harriet Drysdale, Miss Emma Greenough, John Walker and William Davenport.

William Allen of owditch street has been drawn to serve on the jury at Dedham. The civil term of eight or ten weeks begins Monday, Jan. 6.

Master Henry Storm of Commercial street youngest son of Selectman Storm entertained a party of young friends on January the first.

WEYMOUTH.

The children's Christmas tree and festival for the children of the Sabbath school connected with the church of the Sacred Heart was held on Tuesday afternoon. A magic lantern entertained the party of children, later Father Holland distributed the goodies from the tree.

A New Year's eve gift, in the form of a dear little daughter was welcomed into the home of Mr. and Mrs. E. Russell Bailey of Front street on Tuesday, Dec. 31. Congratulations.

Miss Emma Chickering of Broad street is confined to her home, a victim of the grip.

Mr. and Mrs. Fred Goodwin and son of Somerville, were guests of her father George Chickering, over Sunday.

Ellis Williams, son of Lyman C. Williams of Richmond street is ill at his home, having had an attack of appendicitis.

Leighton Voorhees of Washington, D. C., was at home for the holiday recess.

Rev. R. H. Cochrane had the pleasure of hearing Secretary Taft's address before the ministers on Monday noon. The education and development of the Philippines was the principal topic of the hour and the presentation of facts was most interesting and instructive. After the address an informal reception gave all present an opportunity to grasp the hand of the travelled statesman.

Charles H. Gutterson and his bride of a week visited relatives in town this week. Mr. and Mrs. Gutterson are soon to occupy their new home in Wollaston.

The Unity Circle of King's Daughters met at the residence of Miss Martha A. Loud of Commercial street on Tuesday afternoon.

Rev. R. H. Cochrane of the Union church entertained his Sabbath school class of twenty young men on Wednesday evening, January the first, at his home on Washington street. Jokes, puzzles and games filled the hours. Ices and cakes were hospitably served and enjoyed by all. The guests departed at a late hour wishing their pastor and teacher a happy new year.

Mrs. John Neal of Front street, who has been very ill, is slowly improving.

Again we hear the complaint of sneak thieves visiting clothes lines.

Edward H. Drown entertained a number of friends at his home on New Year's eve. A very pleasant evening was enjoyed with whist, games and dancing after which a collation was served.

The engagement of Miss Helen Pierce, a popular young lady of Washington Square to Mr. Carleton Drown of Washington street, Weymouth, is announced.

MR. BATES WINS.

The action of G. B. Bates vs. Benjamin Johnson, a mechanic's lien case, which has been dragging through the courts since the summer of 1904, has been decided in favor of the plaintiff. Mr. Bates put heaters and plumbing in two houses in Wollaston and liened the buildings for this pay. Mr. Johnson held a mortgage which he has since foreclosed and disputed the right of the lien to attach. From the decision of Judge Avery in the Quincy court where the case was first heard an appeal was taken to the Superior court and from there it went to the Supreme court.

Mr. Bates, who is an ardent advocate of labor unionism, probably feels that the courts haven't been working overtime on his case. The superior court has been showing a disposition of late to push the trials as speedily as possible. The judges hope to get the dockets by and by into such a condition that there will be only a short time between the entry of a case and its trial.

THAYER ACADEMY.

Fifteen members of the class of 1901 held their reunion Friday evening Dec. 27, at the Copley Square hotel, Boston. Dr. Herbert F. Langley of Randolph was elected President for next year.

The class of 1883 met on the last night of the year as usual, with Prof. Sewall as their guest. The reunion was held at the Hotel Buckminister, Boston. Eleven were present.

Dr. Gallagher attended the Head Masters' Association in New York, Dec. 26-27, and was elected secretary. He also addressed the alumnae of the Girls' Latin school in Boston on the evening of Dec. 30.

Donald W. McClelland of the class of 1906 won prizes of twenty dollars each (in gold) for examinations in Latin and Greek, and gained honorable mention in Mathematics at the University of Vermont.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

The New City Council

(Continued from Page 4.)

was educated in the public schools and at the Adams Academy. He is now engaged in the shoe trade.

JAMES B. OAKES

One of the new members of the Council of 1908 from Ward Two, was born in Virginia, March 2, 1880. He was educated in the public schools of his native place, later taking a course in the Danville Business college. He removed to Quincy in 1902, where he has since been employed as an electrician. Since coming to Quincy he has always stood ready to do all he could for the welfare of the city, and in the future he promises the citizens of his home ward to do all in his power for that section of the city, leaving them no cause to regret having selected him to represent them in the City Council.

WILLIAM A. CAREY

One of the new members from Ward Two is a Quincy born boy, and has always made this city his home. Feb. 9, 1885, was the date of his birth. He therefore will be 23 years of age next February and will enjoy the distinction of being the youngest member of the Council of 1908.

He received his education at the Washington school and the High school in the class of 1902. Leaving school he entered the clothing business which he followed until two years ago when he entered the engineer's department at the Fore River Shipbuilding Co. where he is at present employed.

He is a member of Quincy council, Knights of Columbus, and of the Iroquois club.

THOMAS BISHOP

One of the two new members from Ward Three was born in Cornwall, England, Feb. 11, 1867. After leaving school he learned the trade of stone cutting at which he was employed for some years. He came to Quincy in 1888, and continued working at his trade until 12 years ago when he formed a copartnership with his brother Joseph for the manufacture of granite. This partnership was dissolved five years ago, the subject of this sketch retaining the interest of the business.

He is one of a family of thirteen children, of which nine were boys. Seven of his brothers are engaged in the granite business in Quincy, and two years ago they built a large polishing mill known as the Lincoln Polishing Co. of which Thomas Bishop is the treasurer. He feels greatly honored at his election to the City Council and will endeavor to do his duty as he sees it.

JAMES M. CANFILL

Another new member from Ward Three was born in Abington, Oct. 1, 1874. He attended the public schools in his native town and moved to Quincy with his parents in 1886. He is at present occupied as a granite cutter. He is affiliated with Quincy Council, Knights of Columbus, Division 5, A. O. H., the Irish National Foresters, and the Ward Three Democratic club.

The office of Councilman is the first public office he has ever held and he enjoys the distinction of being the first Democrat elected to the City Council from this ward for a number of years.

THOMAS F. HOGAN

Who comes to the Council of 1908 from the West Quincy ward, has seen two previous years' service in that body, having served in the Councils of 1898 and 11899. He was born in Stonington, Conn., June 2, 1863 and came to Quincy in 1886, and has since resided here. He was for many years identified with the Fire department as a member of Hose 3, and as a premanent man attached to the Central station.

CHARLES L. BEAN

One of the two members from the Wollaston ward was born in Hartland, Me., May 7, 1866, and was educated in the public schools of that town. He came to Quincy in 1894, and has since resided here. His business is that of a carpenter. He was a charter member of Quincy lodge, N. E. O. P., and is a member of Quincy local, 762, United Brotherhood of Carpenters and Joiners of America.

JAMES H. BROUGHTON

Is one of the new members from the Wollaston ward. He was born in Lawrence in 1864, but about 1894 when seeking a home in the suburbs of Boston, he was attracted to Wollaston and became a property holder on Taylor street. He is interested in the manufacture of rubber cement. It is his first public office, but as he is a man of pronounced ideas he will probably be heard from often.

CHARLES E. CHERRINGTON

One of the new members of the Council of 1908 from Ward Six, is well and favorably known in that section of the city where he has resided for the past fifteen years. He has always taken an active interest in the welfare of the ward and city and can be depended upon to give a good account of himself in the Council.

He was born in Boston, Aug. 3. 1869, and received his education in the public schools of his native city. Leaving school he entered the blank book and stationery business which he thoroughly mastered, learning all branches of the business. For six years he represented the well known firm of Hooper, Lewis & Co. In 1906 he changed his business and entered the employ of one of the three largest Japanese importing houses in Boston. He is now engaged in that business, having charge of the credit department. The office of Councilman is his first public office.

JOHN MOIR

The other new member of the City Council from Ward Six, has had one year's experience in that body, having served in the Council of 1906. He was born in Aberdeen, Scotland, Nov. 2, 1878. He came to Quincy at the age of four years and has since made his home here.

He obtained his education in the Quincy schools and is a graduate of the Willard school. For the past fourteen years he has been in the office and is now confidential clerk to Lafayette G. Blair, a leading member of the Suffolk bar. He moved to Ward Six about eight years ago.

THOMAS P. FIHELY,

late of Quincy, in said County, deceased, and to all persons whose issue not now in being may become interested.

Whereas, Marin M. Fihely of Quincy, in the County of Norfolk, as tenant in possession of certain real estate, devised to herself and others in the will of Thomas P. Fihely, late of Quincy, in said County, has presented to said Court, her petition praying for the appointment of George W. Abele of Quincy, in the County of Norfolk, or some other suitable person, as trustee to sell and convey at private sale or public auction said real estate therein described for reasons therein set forth.

You are hereby cited to appear at a Probate Court, to be held at Quincy, in said County of Norfolk, on the eighth day of January, A. D. 1908, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is ordered to serve this citation by publishing the same once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court, and by mailing, postpaid, or delivering a copy of this citation to all known persons who or whose issue not now in being are or may become interested, seven days at least before said Court.

Witness, James H. Flint, Esquire, Judge of said Court, this eleventh day of December, in the year one thousand nine hundred and seven.

JOHN D. COBB, Register.

3t--20-28-4

THE Young Men's Christian Association OF QUINCY, MASS.

(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)

INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St Quincy, or the Treasurer, RICHARD D. CHASE, Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS

The Publishers of **Webster's International Dictionary** allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.

CHARLES C. NOTT, Chief Justice.
LAWRENCE WELDON,
JOHN DAVIS,
STANTON J. PEELLE,
CHARLES B. HOWRY,
Judges.

AT OFFICE OF DAILY LEDGER

"DISEASE COMING ON AGAIN"

Bryan Thinks That He Will Be a "Real Live President"

Nacogdoches, Tex., Jan. 4.—William J. Bryan has practically announced his candidacy for the presidency. He ended a speech here with this statement:

"We have now passed from the valley of the shadow of death, and in passing out we see the Republicans just entering into the valley and if they have as hard a time as we had we are likely to see some fun.

"Those of you who may never have had an opportunity to hear a real live President of the United States can at least say now that you heard one speak who, on two different occasions, cherished the delusion that he was going to be a real live president, and he feels the disease coming on again."

Forgery Charge Against Army Officer

Detroit, Jan. 4.—A warrant has been issued in the police court here, charging Lieutenant Hazzard of the Seventh infantry, U. S. A., stationed at Fort Wayne, with forging the name of Colonel Cornman to a check for $46.50. The warrant was issued on the complaint of Avery Wallace. Hazzard served with distinction in the Philippines and was with the party under General Funston which captured Aguinaldo when he was the head of the revolution in the islands.

The East Side Tenants' Strike

New York, Jan. 4.—Six hundred notices of dispossess proceedings were obtained from the municipal courts yesterday by the East Side landlords as a retaliatory move against the tenants who decline to pay their rents until their demands for a reduction have been allowed. Attorneys for the tenants propose to have the dispossess cases tried separately. It is thought that the landlords may be forced into submission by interminable court proceedings.

Hope For Missing Steamers

London, Jan. 4.—The non-arrival of steamship Hungarian, which sailed from Greenock, Scotland, Dec. 14, and is now a week overdue at Portland, Me., leads shipping agencies to believe that she has fallen in with steamer Mount Royal, with 400 persons aboard, which left Antwerp Dec. 7 and is now long overdue at St. John. Underwriters would not be surprised to hear that the Mount Royal is being towed by the Hungarian.

Sheriff Cannot Sell Liquor

Atlanta, Jan. 4.—A saloonkeeper in Brooks county failed to pay a debt, the holder of the mortgage on his stock foreclosed and the sheriff advertised the liquors for sale. This raised the question as to whether such a sale would be legal. Attorney General Hart rendered an opinion to the effect that such proceedings would violate the law, inasmuch as the prohibition act specifically prohibits the sale of whisky in the state.

Receivers In Full Charge

Jacksonville, Fla., Jan. 4.—Judge Pardee's order appointing receivers for the Sea Board Air Line railway has been filed in the United States court here. This order follows that of Judge Pritchard. The order filed here puts the receivers in full charge and enjoins all officers hitherto serving with the Sea Board Air Line from interfering with any of their acts.

Experts to Inspect Mines

Harrisburg, Jan. 4.—In view of the recent disasters in the bituminous region of Pennsylvania, the inspectors have been urged by Chief Roderick of the state department of mines to greater efforts to protect the miners. A special committee of five of the inspectors will inspect any mine in the region about the safety of which any doubt exists.

Finances Back to Normal

Kansas City, Jan. 4.—The Kansas City Clearing House association adopted a resolution calling in all clearing house certificates and checks by Jan. 18. The emergency currency disappeared from circulation more than a week ago, but a considerable amount is unredeemed.

Verdict Against Harden

Berlin, Jan. 4.—The notorious Harden-Von Moltke libel suit came to an end last evening when the accused editor of Die Zukunft was sentenced to four months' imprisonment and to pay the entire costs of both the present and the former trial.

Powers Verdict Not Reached

Georgetown, Ky., Jan. 4.—Caleb Powers' fate as a result of his fourth trial for accessory before the fact to the murder of William Goebel still rests with the jurors, who went to bed last night after having failed to reach a verdict.

Theatrical Train Derailed

Atlanta, Jan. 4.—A special train carrying the "Coming Thro' the Rye" theatrical company was derailed near Temple. The engineer was injured, but members of the theatrical company escaped injury.

Militia on Duty at Muncie

Muncie, Ind., Jan. 4.—Militia ordered to Muncie arrived this morning. Martial law will not be declared, but the soldiers will assist the police to maintain order during the street car men's strike.

The Weather Forecast

Almanac, Sunday, Jan. 5.
Sun rises—7:14; sets—4:25.
Moon rises—6:41 p. m.
High water—12 m.; 12:15 p. m.

Fair and warmer weather will be followed by rain or snow in New England.

HOME OF THE DOLL.

Methods of the Ingenious Thuringian Toymakers.

Dollmaking did not become conspicuous as an industry in the Thuringian mountains until the middle of the nineteenth century, when a citizen of Sonneberg brought from London a doll which was regarded as a great curiosity. It had come originally from China, and its head, legs and arms were movable. This furnished an inspiration to the ingenious Thuringian toymakers, who promptly improved upon it. Up to that time they had made dolls only of wood and leather, but soon they evolved the wax head—at first a crude article, the wax being applied with a brush, but later brought to high perfection, thanks, it is said, to an accidental discovery. A man engaged in making the heads dropped a thimble into his pot of fluid wax and on taking it out found it covered with a smooth and beautiful coat of the substance. He was not slow to seize the idea, the result being the adoption of the dipping process, the final touches of color being put on with a camel's hair pencil. Later on the movable eyes and closing lids, to feign sleep, were added, and the fleece of the Angora goat was substituted for human hair in the making of wigs, holding its color and curl much better, the doll as it is known today thus assuming its final and highly artistic form.

Dressing the dolls after they are made has become an industry in which numbers of women and girls are employed. For the small, inexpensive dolls little chemises, finished with a ruffle of lace around the neck and arms, are made by hundreds and require no skilled labor for their construction.—Rene Bache in Circle.

LAND AND WATER BOATS.

Queer Vessels That Are Used In Wild Timber Districts.

Deep in the wilds of the Canadian timber lands and in a number of the northern lumber districts of the United States wonderful boats climb hills, creep through swamps and woods, traverse small streams from one lake to another and even climb upon freight cars if long transportation is necessary.

Practically a steamboat and steam winch combined, the engine can be thrown in gear to drive the paddle wheels or twin screws, according to which of the two the boat is equipped with, or drive a cable drum which holds a mile of five-eighths inch steel cable used for warping and crossing portages.

At the end of a water journey the cable is carried to a tree some distance inland and at one side of the path designated for the boat to pass over. Passed through a pulley block, it is carried back to the boat and run through a pulley block at the bow. Then, returned inland again, it is fastened to a tree on the other side of the path and just opposite the first tree, thus making it possible for the boat to travel a straight course without dodging the anchor trees. The engine is geared to the cable drum, and the cumbersome but powerful craft commences its rock strewn journey.

No roadway is required, logs and skids being thrown a few feet apart across the pathway to keep the shoeing from grinding on the rocks. In this manner the boat can travel from one to two miles a day and take a grade of one foot in three when necessary.—Popular Mechanics.

First Come, First Served.

A minister who sets his face against bazaars once related an incident emphasizing his feelings on the matter.

"Once upon a time," he said, "a man was going along a dark street when a footpad suddenly appeared and, pointing his pistol, began to relieve his victim of his money.

"The thief, however, apparently suffered some pangs of remorse. 'It's pretty rough to be gone through like this, ain't it, sir?' he inquired.

"'Oh, that's all right, my man,' the 'held up' one answered cheerfully. 'I was on my way to a bazaar. You're first, and there's an end of it!'"—London Telegraph.

Modern Plays and Players.

We no longer demand that a man or woman play a part. We insist that the part fit the man or woman. This condition no doubt is largely the fault of managers, who instead of requiring impersonation pick performers for their likeness to the characters to be assumed. "Have you a father?" one can imagine them inquiring of a candidate. "Yes." "Then you won't do. This man's father died twenty years before the beginning of the play."—Argonaut.

Reformed.

"Did she marry her husband to reform him?"

"I guess so. She reformed him, all right."

"Why, he drinks like a fish."

"I know it, but he didn't use to before she married him."—Houston Post.

Impossible Combination.

"The time, the place and the girl! How seldom we find them together!"

"Bah! The combination that we seldom find together is the man, the shower and the umbrella."—Louisville Courier-Journal.

By Right of Birth.

Hunter—Are you an American citizen, Pat? Pat—Faith, an' I am that! I was born in Donegal, but 'twas on the Fourth iv July.—Harper's Weekly.

When a man wears long chin whiskers it may be because his wife insists upon buying his neckties.—Philadelphia Record.

MARRIAGE A FAILURE

Countess of Yarmouth Begins Proceedings For Annulment

IS A SISTER OF HARRY THAW

Domestic Affairs of the Couple Have Been Unhappy For Two Years--Public Hearing Deemed Inadvisable Because of Nature of Evidence

London, Jan. 4.—The failure of another alliance of the English nobility with an American woman of wealth became public when the Countess of Yarmouth, who was Alice Thaw of Pittsburg, a daughter of Mrs. William Thaw and sister of Harry Thaw, whose second trial for the murder of Stanford White will begin next Monday in New York city, applied to the divorce court for an annulment of her marriage to the Earl of Yarmouth.

The court has ordered that the proceedings be held in camera and the papers are being kept secret. The only inkling obtainable of the charges preferred is a statement to the effect that the nature of the medical evidence to be given makes a public hearing inadvisable.

The Countess of Yarmouth is staying at Park Hall, near Evesham, Worcestershire, a magnificent country seat she has leased, decorated and refurnished with lavish expenditure. She declines to comment on the case. The Earl of Yarmouth could not be found in his usual London haunts, and it is supposed he is on the continent, where he spends much of his time.

It has been well known for two years that the domestic affairs of the Yarmouths were most unhappy. The earl's companions and his manner of living were such that he could not give his wife the position in society she had a right to expect. She supplied immense sums to defray her husband's extravagances, and her friends say she has conducted herself with dignity throughout the troubles resulting from the unhappy marriage and her brother's difficulties.

The Hertford family, the head of which is the Earl of Yarmouth's father and to the head of which the earl is heir, he being the eldest son of the sixth Marquis of Hertford, is one of the oldest and proudest of the British nobility. The notoriety brought upon the family through its indirect connection with the Thaw murder case was galling, and this climax to the eldest son's marriage to Alice Thaw is a bitter one. The Marchioness of Hertford, who has stood by her daughter-in-law throughout her troubles and has exerted herself to reconcile the couple, is prostrated with grief.

The countess herself has suffered from the strain of the past year. Her friends say she has grown thin rapidly and has a worried look. They have advised her to remain in England until after the divorce proceedings, but the countess desires to return to the United States for her brother's second trial and is undecided which course she will pursue.

Last summer, on the advice of Mr. and Mrs. George Carnegie, her brother-in-law and sister, who were with her two months, the countess decided to seek the aid of the divorce courts. It was intended to defer this action until the second Thaw trial in New York, but the delay in bringing the case to trial led to a change of plans.

When the countess returned to England after the trial of her brother she received a most cold reception, not only from the earl, but from all the members of his family except the Marchioness of Hertford, his mother, and the couple have seen little of each other since then.

On what grounds the countess bases her claim for the nullification of her marriage is not stated in the papers thus far filed with the court, but there has been much talk of the earl's doings on the continent, where he spends the greater part of his time.

Suburbanites Up In Arms

Paris, Jan. 4.—Three thousand suburbanites residing along the line of the Western railroad, exasperated by continuous delays in transit, wrecked the offices at the Saint Lazare terminus of the railroad and for an hour held the police at bay. Finally they were dislodged by the fire department, which played streams of water upon them. The railroad officials say that unusually lengthy delays yesterday were due to the extreme cold, causing signal wires to break.

Continuation of Curtailment

New York, Jan. 4.—R. G. Dun & Co.'s Weekly Review of Trade says that business quieted down at the conclusion of holiday sales, as is customary. Much idle machinery resumed on Jan. 2, and more mills will reopen next week, but in many leading industries there will continue to be a reduction in output until the outlook is more definite. This curtailment is general in the iron and steel industry and in New England cotton mills.

Germany Having Cold Weather

Berlin, Jan. 4.—Zero weather throughout Germany since the beginning of the new year has resulted in much delay to traffic and many minor accidents. Three persons were frozen to death near Frankfort and from the country districts bordering on the Russian frontier many other deaths from the cold have been reported.

HIS PAPERWEIGHT.

Travels of a Bottle of Wine and Its Ultimate Fate.

A paperweight consisting of a piece of thick glass with a tokay wine label fastened on the back and showing through is a part of the desk furniture in the library of a man who goes to Europe nearly every year. "People look at the thing," he said, "and wonder what the wine label is doing there, and when I see the question coming I always tell the story.

"Some years ago I went to Raab, in Hungary, where I called on an old lady who in Vienna years before had shown much interest in and befriended a young American student at the university. The poor student had grown to be a rich physician, and he wanted me to call and present his compliments. When I was about to leave after a pleasant visit the woman handed me a bottle of wine which had come from her estate and asked me to take it to our mutual friend. I carted that bottle all over Europe, paid duty on it several times and finally landed it safe and sound here in the house. A few days after my return we invited the doctor for dinner, and the bottle was brought in with much ceremony. I made a little presentation speech and then in handing it to the doctor dropped it on the floor where you see that stain. That's the label under the glass." — New York Tribune.

HORSE AND DOG.

Contact With Civilization Lessens Their Cunning and Sagacity.

The dog is no doubt the most intelligent of our domestic animals, and I yield to none in my affection for him. I can almost eat and sleep with a fine dog winter and summer. But I try not to deceive myself about his intelligence. It seems to me that if the dog had the least spark of wit akin to our own—that is, power of reason—his long association with man would have fanned it into a flame, however small.

But after all these thousands of years of human companionship and love he has less wit in some respects than his wild brothers, the fox and the wolf. Having been spared the struggle to live that falls to their lot, his cunning and sagacity have deteriorated. The same is true of the horse, which has less intelligence than the wild stallion of the plains and for the same reason.

These animals do not grow wiser as they grow less wild. They do not civilize or develop. We train them into certain ways that make them serviceable to us; we humanize them without adding to their mental capacity. In other words, we cannot cross our intelligence upon theirs and make it fruitful in them. The germ will not take.—John Burroughs in Outing Magazine.

English House Names.

House owners are sometimes rather unfortunate in their selection of names for their abodes, and in suburbia house naming is occasionally rather ludicrous. Thus "The Maples" has never a maple near, "The Rosary" only exists in imagination, "Sunnyside" is the most depressing villa residence, and houses named after the English lakes no more suggest the lake district than Fleet street suggests the Bois de Boulogne.

The Anglo-Saxon word "hyrst," signifying a forest or wood, has become "hurst" in house naming, and "wood" and "holt" have the same meaning. All house names ending with these terminations are pretty and not unsafe to choose.

It is curious to note that in Hastings and St. Leonards quite a number of houses have typically Saxon names, perhaps to commemorate the great Saxon tragedy of which the name Hastings is reminiscent.

Pomp of English Mayors.

Chichester arms its chief magistrate with a gold mounted malacca cane of office, while the mayor of Guildford carries the stick presented to the borough by Queen Elizabeth. At York both the lord mayor and lady mayoress are equipped with the silver mounted oak staves which have marked their authority for centuries. Among the official retainers of the mayor of Ripon is the municipal horn blower, who every night at 9 o'clock winds three blasts upon this aged musical instrument before the mayor's residence and again at the marked cross.—London Standard.

Hardened.

"Listen to this, Maria," said Mr. Stubb as he unfolded his scientific paper. "This article states that in some of the old Roman prisons that have been unearthed they found the petrified remains of the prisoners."

"Gracious, John!" replied Mrs. Stubb, with a smile. "I suppose you would call them hardened criminals."

Truthful.

Mark Twain once missed the train which should have taken him to his work. He did not wire any excuse. His telegram to his employer took this form: "My train left at 7:20. I arrived at the station at 7:35 and could not catch it."

Lack Right Qualities.

Mrs. Hix—Mrs. June strikes me as being entirely too masculine for a woman. Mrs. Dix—Yes, indeed. Why, every time she has an ache or pain she makes as much fuss about it as a man would.—Smith's Weekly.

Retrenching.

"I tell you, they are retrenching."

"But they still have their auto."

"Which they run well within the speed limit. Bah!"—Louisville Courier-Journal.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher. and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

BURIED IN CEMENT.

The Story of an Arab Boy Who Renounced Mohammedanism.

According to history, there was born about the year 1520 an Arab boy named Geronimo. He was captured in infancy by the Spanish garrison at Oran, and when about eight years old he escaped from his captors and went back to his family, living as a Mohammedan until the age of twenty-five. He then voluntarily returned to Oran and resumed the Christian life which he had adopted previously when in the hands of the Spanish authorities. A few years later he went on a coasting raid with a party of Spaniards, but the raiders were themselves captured by a Moorish corsair and brought to Algiers. Here the attempt was made to convert him to Mohammedanism, but he persistently refused to embrace that faith, so that he was tried and condemned to die. His hands were tied behind his back, and he was cast alive, face downward, into a block of concrete then being prepared for the Fort des Vingt Quatre Heures, then building. Careful note was taken of the spot by Haido, a Spanish Benedictine missionary to Algiers, who prayed the time might come when the Lord would pave the way for his exhumation and Christian burial. In 1853 the French found it necessary to destroy the fort, and the data left by Haido were found to be correct, for the designated block of concrete on being cut open disclosed the bones of Geronimo and the cavity left by his body. The bones were removed Dec. 27, 1853, and given Christian burial, and they now rest in a massive stone sarcophagus in the cathedral. A plaster cast was made of the cavity and afterward photographed.—Cement Age.

AN UNCONQUERED PEAK.

Lizard Head on Mount Wilson Has Defied the Climbers.

The mountains and peaks of the San Juan in northwestern Colorado present a different appearance from any of the northern Rockies.

They are grander, more precipitous, with sharper pinnacles and more jagged in outline. In height Mounts Massive, Elbert and Blanca slightly outrank those of the San Juan, but nowhere else can be found whole groups of mountains rearing their heads to and above 14,000 feet.

Mount Wilson—14,250 feet—the dominant peak, is one of the most massive in the entire Rocky mountain range. Just east of this mountain is the remarkable trachyte obelisk called Lizard head. The vivid imagination of an early pioneer who had been "seeing things" is said to be responsible for the name.

The summit is 14,160 feet above the sea. From a ponderous base the pinnacle rises 290 feet, with a diameter at the foot of only about sixty feet, gradually tapering to less than half that at the top.

Lizard head has defied all attempts of mountain climbers to reach its summit. The foot of the pinnacle is easily accomplished, but thus far the steep sides of the 290 foot shaft have proved insurmountable. No doubt the time will come when the venturesome mountain climber will find a way, but many a failure is the record of the past.

Trains circle this mountain for miles on the way from Telluride to Rico.—New York Post.

Two Horse Tales.

An Albanian who had been in an eastern state while freshets were in full swing told the following about a horse which had been attached to a footbridge crossing a brook to keep the structure from going adrift. The flood finally swept horse and bridge down stream. Later the bridge was discovered lodged against the bank, with the horse sitting quietly on the former.

A bystander who had listened intently to this tale remarked quietly:

"I see suthin' similyar oncet."

"Indeed? What was it?" asked the story teller.

"Ye see," was the reply, "arter the hoss I see was took down stream nobuddy ever 'spected to see him alive ag'in. But he was a pow'ful sort o' brute, an' 'bout a hour afterward we see him a-comin' up stream a-pullin' the blame old bridge arter him!"—Albany Journal.

Mortar Tossers.

There is no hod carrying in Japan. The native builders have a method of transporting mortar which makes it seem more like play than work—to the onlooker. The mortar is mixed in a pile in the street. One man makes this up into balls of about six pounds weight, which he tosses to a man who stands on a ladder midway between the roof and the ground. This man deftly catches the ball and tosses it up to a man who stands on the roof.—San Francisco Chronicle.

Women and the Theater.

The first aim of the modern playwright is to please the women in the audience. The second thought is for the female characters in the play. If a play finds favor with the women it is bound to be a success. The men will go if only because she is there or to act as her escort.—Theater Magazine.

Had to Keep Ideals.

"Why don't you get married?"

"Oh, it would be absolutely fatal to my literary work."

"What do you write?"

"Love stories."—Cleveland Plain Dealer.

When a quarrel is the breakfast food look out for marital indigestion.—Manchester Union.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."

The Observations In the Daily Walk

The "Huscarls" and "Sunshiners" were busy on New Year's Day.

The many friends of Miss Annie McGuinness of Atlantic are glad to hear that she is fast recovering from a severe attack of rheumatism.

The first social dance of the Sunday school of First church is to be held at Faxon hall on Saturday evening Jan. 11th from eight until eleven.

A surprise party was tendered Miss Annie Clinton at her home on Quincy street last night. About half-past seven a large crowd gathered at Foy's corner, and about a quarter of an hour later left for Miss Clinton's house. She was just preparing to go out when her friends came in and they surprised her very much. She was presented with a gold signet ring. After refreshments were served, music and dancing were enjoyed.

The speakers at the midnight meeting at the Washington Street church were Rev. Mr. Atwood, who spoke on a "Midnight decision," and Rev. Mr. Merrill of North Weymouth, who spoke on "The honored life of a Christian."

Miss Grace E. Young and Miss Mary J. Farrell, two popular young ladies of Norfolk Downs are to give a private leap year party at Poland's hall an Friday evening, January 10. A number of young people from Boston are to be present. The matrons will be Mrs. F. G. Osgood, and Mrs. E. R. Thorpe. Aids,—Miss Myra I. Kent and Miss Edith M. Farrell.

A dancing party was held New Year's eve in Ellsworth hall, East Milton, matronized by Mrs. W. Dewees Roberts, Mrs. E. Robert McIntosh and Mrs. Edward L. Crowell. The committee were: Mrs. Carl Harlow Chipman, Mrs. Edward T. Q. Hodges, Mrs. George A. Arnold, Miss Bessie Hutchinson and Miss Isabelle Wigley.

THAYER LIBRARY.

Miss Caroline M. Wilkinson began her duties as librarian, on January 1st. She comes to her work in Braintree after a thorough training at Simmons college and with several months of valuable experience as a library organizer.

The trustees hope that the people of the town will co-operate with Miss Wilkinson, and give her all the aid possible in the task she has undertaken.

The additional shelf room secured by new steel stacks gives ample room for the intended classification of books and also for such book accessions as will be made for several years to come.

The changing of the method of charging books, the classification and the card catalogue, with many other improvements will be made as rapidly as time and money will permit. At best it will require a long time to effect these much desired changes and the public is urged to exercise patience. Meanwhile everyone is invited to visit the library and see what has already been done.

For many years the East Braintree books have been carried to and fro by Mr. John Long and his death removes a faithful servant whose efficiency was highly valued.

—Free Flapjacks at Johnson Bros., today.

SUNDAY SERVICES.

EPIPHANY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when odssib'e. Let all churches be represented—Eds.

Makaria Fraternity

SUNDAY: 12 TO 1—SHARP

Bethany Church, City Square

If YOU are a young man, and not associated with any other Quincy church, YOU are most cordially invited to come to our meeting.

A warm welcome—Hearty singing—A helpful hour together.

The City Buncoed.

It looks very much as though the city of Quincy was the heaviest sufferer from the alleged seal tail swindle perpetrated by the Maine Indians. The records show our city paid for 795 seal tails amounting $2,385, during the seasons 1906 07. The North Shore towns and cities, which are making such a loud holler, got off easy.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Newsy Budget From Shipyard

Transfer Tug No. 21, building for the New England Navigation Company, at the Fore River works, which was launched the eleventh of last month, is rapidly nearing completion. The engine has been installed and now the boiler is being covered with asbestos fibre. On the deck house top the water proof canvass covering is being laid. One feature of this craft, not often seen on tug boats, is a fire gun nozzle on top of the pilot house, connected below to a duplex fire pump, of approved type. The tug is 111 feet, 10 1-2 inches in length between perpendiculars, 26 feet molded beam, and 14 feet 6 inches, molded depth at lowest point of sheer, and is fitted with the most modern appliances.

The battleship North Carolina, built at Newport News will have its trial off Maine on Monday.

Two liens have been filed against the Parson type turbine liners Yale and Harvard, of the Metropolitan Steamship Company's fleet, by Chas. M. Englis, of Greenpoint, Long Island, N. Y., for $225,750 each. Englis is the builder of the steamships and the liens are to secure amounts alleged to be still due to him for the construction of the vessels. The steamers have been in commission only a few months.

A new type of ship is being constructed for the Japanese, for the transportation of small submarine vessels to the scene of battle. The submarines will be stored in a tunnel running thro the hold of the ship, from where they can emerge unseen by the enemy by means of locks.

Barge Macungie has discharged her cargo of coal and departed from the Fore River dock.

County Record Of 1907 Sales

During the year 1907 there were 13,774 real estate transactions recorded at the Norfolk registry, according to the annual report of John H. Burdakin, the register of deeds. This was 303 less than in 1906, a difference of one per day. During the first three months of the year the business fell off 428; then for five months there was a big gain over 1906, and Sept. 1 the year 1907 was ahead of 1906, but since that date it has fallen off, although December was only 12 behind December of 1906.

The record by months compared as follows:

	1907.	1906.
January	1,080	1,231
February	792	962
March	1,048	1,155
April	1,316	1,280
May	1,467	1,367
June	1,275	1,249
July	1,367	1,102
August	1,046	1,041
September	988	1,021
October	1,295	1,373
November	1,095	1,279
December	1,005	1,017
	13,774	14,077

The number of attachments recorded in 1907 was 576, against 484 in 1906, and 515 in 1905.

Probably one-tenth of all the real estate transactions of the county were in Quincy.

Responded For the Navy

James H. Webb, past commander of Paul Revere Post 88, G. A. R., attended the annual banquet of Post 22 of Milford this week and was one of the speakers.

Mr. Webb, who was formerly senior vice commander of the Milford post, was called upon by Lt. Gov. Draper to speak for the navy in the Civil war. After paying earnest tribute to that branch of the service he surprised the post by giving Commander Cook a gavel made from the timber of the original frigate Constitution. The episode created much enthusiasm among the post members.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.
Dec. 21, 1 m.

Per Diem Charges Upon Freight Cars

The difficulties which have arisen between the New England Railroads and the Trunk Lines with reference to the per diem charges upon freight cars have a significant bearing upon the advisibility of a united railroad management in the New England States. The present charge of 50 cents per day per car will impose a tremendous burden on the railroads of New England. It is well known that these charges have been advanced from time to time, first from 22 cents per day to 25 cents and then suddenly from 25 cents per day to 50 cents per day upon all freight cars not owned by New England roads while upon New England tracks.

Resistance to this move upon the part of the Trunk Lines was initiated by the New Haven Railroad in July last, but in this position it, for the time, received no support from either the Boston & Albany of the Boston & Maine Railroads. Not until Dec. 1, or five months later, did either the Boston & Albany or the Boston & Albany follow the lead of the New Haven. Inasmuch as ninety days must expire from the date of giving notice of withdrawal, the two last named roads are made subject to the terms of the agreement and must pay a per diem charge of 50 cents per car until March 1, 1908.

That a different result might already have been reached, had the railroads of New England been represented by a single head and had spoken with a single voice in response to such an excessive charge, might certainly have been expected. The New England Railroads are not in any proper sense Trunk Lines. They are, rather, distributing and collecting systems. Their interests are bound up in New England's interest, as against the interests of the country west of the Hudson River. They have no interests of their own beyond the Hudson River to which they must subordinate those interests which they serve here.

The possibilities which might result for the development of New England industries, the advantages to New England merchants, the effect upon through rates, from wielding the New England Railroad situation as a unit, tremendous opportunities for New England men to consider.

If the New Haven and the Boston & Maine systems were operated under a central authority and with a common purpose with no interests outside New England a marked distinction would be presented from that situation which has resulted from the lease of the Boston & Albany to the New York Central. The great bulk of the mileage and business of the New York Central is outside of New England, and its possibilities of profit in the handling of its business are vastly greater if handled west of the Hudson River than if sent east to Boston. Its energies and abilities to develop Massachusetts are constantly distracted by its opportunities for greater profit outside of Massachusetts and this must always continue to be so. With the New Haven and the Boston & Maine, however, the situation is quite different. Their entire systems are within New England; their entire opportunities and interests in the development of business are confined to New England; loyalty to the communities to be served is not divided by interests elsewhere. A great system made up of the New Haven and the Boston & Maine, under proper regulation and control, would be a power on any railroad question. New England now has the opportunity to make use of this powerful instrument for the benefit of its manufacturers and merchants.

Quincy Real Estate Sales.

The following transfers of real estate have been recently recorded at the office of the Register of Deeds:

George W. Drake to Susan Corthell.

—Inaugural address of Mayor Shea in full in the Daily Ledger of Monday.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

BOSTON AMUSEMENTS.

KEITH'S THEATRE.

On Wednesday, January 8th, occurs the 25th anniversary of the commencement of Mr. B. F. Keith's career as a manager of theatrical enterprises in the city of Boston, for on January 8th, 1883, he threw open the doors of the first amusement resort with which he was connected as a proprietor. It was a modest beginning, for it is what would be called nowadays a "store show," where Clark's Hotel now stands on Washington street. It seems to be particularly appropriate that one of the ways in which the anniversary will be celebrated, the arrangement of a special program of thoroughly representative features of the vaudeville of today, made possible only by the policies and ideas of Mr. Keith, is a way in which the public will be enabled to join, greatly to their own advantage, for they will have the opportunity of witnessing a truly remarkable performance. The headliners of the anniversary bill will be Clayton White and Marie Stuart, Walter C. Kelley, Bessie Wynn, the Romany Opera Company, the Heras Family, Bert Levy, Lasky's String Quintette, Caron and Herbert, and Cooper and Robinson—every act thoroughly representative of the highest type of the branch of vaudeville to which they belong.

CASTLE SQUARE THEATRE.

Romance and poetry, adventure and song mingle with one another in Gounod's opera 'Romeo and Juliet," which began its run at the Castle Square Theatre last Thursday evening. With its plot taken from Shakespeare's famous play, its story is a perfectly familiar one, the music given even greater intensity and passion to the wonderful tale of the hapless love of the valient Montague and the beauteous Capulet. Madame Noldi as Juliet is adding another success to the many that began with her Marguerite, and there has been nothing lacking to the perfection of Mr. Tallman and Hr. Davies as Romeo, to Signor Allberti as Mercutio, to Miss LeBaron as Stephano and to Mr. Boyle as Friar Laurence.

On Thursday evening will come the third of the Gilbert and Sullivan operas, "The Gondoliers." Ranking with "Pinafore" and "The Mikado" in humor and melody. "The Gondoliers" has Venice for its scene and Venetians for its characters, its comedy centering around the rival claimants for the throne of Barataria.

BOSTON THEATRE.

The production of "Cheer, Boys, Cheer," at the Boston Theatre has already proved to be the sensational success predicted for it by Manager Morison. It is a play that like "The Soudan," written by the same authors, has such a variety of scenes and incidents, so many sharply contrasting episodes, and so many well drawn characters that altogether it appeals irresistably to an imense public. The authors have been particularly successful in planning the realistic fight of the third act between the British and the tribes of Matabele land. No one incident of the whole play has appealed more to the sentimental side of the audiences than the pathetic letter which is dictated by one of the troopers to his old mother, the wording of the letter and the reading of the lines making this one of the most effective bits of dramatic work introduced in a play for many years. It is announced by Manager Morison that this production will be continued throughout the coming week.

COLONIAL THEATRE.

Klaw & Erlanger's great production of "The Round Up," which has held the stage at the Broadway Theatre in New York for many months, will open for a run at the Colonial Theatre in Boston next Monday evening, Jan. 6. This production is of such magnitude that it cannot be presented on any other stage in New England, and therefore the engagement at the Colonial Theatre will afford New England people their only opportunity to see this remarkable drama. It is so real in its characters, its Indians, cowboys, scouts and cavalrymen, its bucking horses and its thrilling battle spectacle, that one is translated to the locale of the scenes, and, for the time, becomes actually a participant in stirring events in the great Southwest. The sense of witnessing stage mimicry is entirely lost in the auditor of "The Round Up." This is the secret of the really marvelous success of this play.

THE ORPHEUM.

Another big bill of headliners has been provided for the Orpheum next week including such star attractions as Lily Lene, Karno's "Night in an English Music Hall," Adeline Dunlap in 'The Operator;" Will Dillon, author of "Every little bit added to what you got," and a host of others. Miss Lily Lena, owing to indisposition, was at a disadventage last week but has fully recovered her voice and will be heard in some of her great successes, —songs that are not being whistled all over New York, the only place she has appeared, prior to her Boston engagement. "The Operator" is one of the strongest one act plays ever written. It holds the interest from the start and has many exciting moments but the grand climax invariably brings tremendous applause.

TODAY'S COURT.

Oscar J. Vogler was fined $15 for assault at Quincy.

The continued case of George Kasanof for larceny at Quincy was heard. He was sentenced to one year in the house of correction Appealed.

—Inaugural address of Mayor Shea in full in the Daily Ledger of Monday.

Mayor Finds City Heavily Mortgaged

Favors Refunding The Debt to Prevent Increase in Tax Rate The Present Year

MAYOR WILLIAM T. SHEA,
Member of First City Council.

The Inaugural Address of Mayor William T. Shea was much shorter than those of his predecessors. It related almost entirely to finances. The maturing debt is so much larger than last year, and the borrowing capacity so small, that is Honor probably did not see his way clear to recommend any special improvements. The financial review is very complete. The address is given in full:

Gentlemen of the City Council:

The city government of Quincy for the year 1908, today enters upon the active discharge of its duties.

As the time afforded a Mayor-elect prior to his inauguration to study the workings of the different departments of the city government is necessarily limited, and as detailed reports of these departments will later be laid before you, I desire at this time to simply submit a statement of the financial condition of the city, together with some recommendations on matters I believe worthy of your careful consideration.

STATEMENT OF DEBT.

Municipal Debt, Jan. 1, 1907,	$480,350.00
Paid during the year,	73,760.00
	$406,490.00
Added during the year,	98,050.00
Debt Dec. 31, 1907,	$504,540.00

STREET IMPROVEMENT LOAN.

Debt an. 1, 1907,	$60,200.00

NEW PLANS

For Abolishing Saville Street And Water Street Grade Crossings

The committee appointed at the public meeting for a discussion on the abolition of the two grade crossings in Quincy, met Saturday at City Hall to decide what was best for the city in the matter that they might report at the public meeting to be held next Wednesday evening at City Hall.

The committee on the Saville street crossing met in the afternoon. Several plans were presented and discussed at length. The committee finally agreed upon a plan. This plan proposes to close the present Saville street at the railroad crossing making dead ends on each side. The tracks remaining at the same grade as at present.

It is then proposed to build an overhead bridge from near City Hall to Irving place. The building now occupied by Pennimans stable is to be moved away. The proposed bridge will start near the westerly end of City Hall and run in a south westerly direction crossing the railroad tracks near the southerly end of the present platform. The grade of the bridge will not be a steep one. This it is believed will be the least unsightly way in which it can be done.

The plan will also mean that Upland road will be connected with Irving place which will be extended to Granite street. A plan of the proposed solution will be on exhibition at the meeting Wednesday evening.

In the evening the committee on the Water street crossing met, and several plans were proposed. One of these was for Water street to pass under the railroad tracks at the present crossing. Another was for the loop line street as talked at the public meeting. This was that the street should cross under the tracks near the Crane elevator. The street would then pass through property of the McGilvray & Jones Granite Co., the Crane property near Miller's sheds, and part of the Merrymount Granite Co. property to Water street.

Another plan was to raise the tracks at the present crossing leaving Water street at the same grade as at present.

The scheme practically decided upon for Water street, was to leave Water street at the same grade as it is at present. This will mean the raising of the railroad tracks so that the street will be beneath them.

It may also mean the closing of School street. The scheme then proposes to extend Marsh street to the rear of the police station where it will intersect with a private way and connect with Fort street. Eventually it is proposed to extend the street under the railroad and thence to connect with Hancock street between the Kincaide building and Music Hall block.

There was an alternate scheme for Saville street which proposes that the street shall cross the tracks at this point by an overhead bridge.

FOY'S TEMPTING FOOD SPECIALS!

Foy's "specials "are tempting, because on special days special items are offered at especially low prices.

This week finds us in a position to offer even better bargains than usual. Take advantage of them before they're gone.

Lenox Soap, 4c. bar, 45c. doz
5 lb. pkg. Mother's Oats, 45c
Bensdorf's Cocoa, 1-2 lb. can, 30c
Kennedy's Royal Toast, 9c. lb

Your attention is called to the especially fine flavor of Quality Coffee, 30c. lb., and Golden Dome Teas, 40c. lb., as well as the perfection of our own Ivory White Flour, 95c. bag.

These are the best of their kind at unusually low prices.

Organization Of New City Goverment

Ralph W. Hobbs Elected President All Other Officers Are Re-elected

The twentieth year of the city government of Quincy was inaugurated at 12 o'clock noon today. The attendance was very large. In fact the largest for years. Extra seats had been placed on the main floor and these were all occupied and there were many who stood.

The gallery was reserved for ladies and there were a large number present. Aside from being the first Democratic Mayor to be inaugurated for several years there was an added interest as it had been rumored that the appointments would be announced.

There was much speculation as to this matter, and the audience remained until the council had completed its business.

The President's desk was adorned by handsome bouquets of flowers sent by admiring friends. These served to add color to the scene.

As the bell on the old First church struck the hour of 12 the inaugural party entered the Council chamber by the rear entrance. First came City Messenger Tirrell, followed by City Clerk Keith and Rev. A. F. Roche, the chaplain, and Mayor Thompson and Mayor-elect Shea.

PRESIDENT HOBBS.

The City Clerk occupied the President's chair with Mayor Shea on his left and Mayor Thompson on his right.

The exercises opened with a prayer. This was immediately followed by administering the oath of office to William T. Shea as Mayor by City Clerk Harrison A. Keith.

ALL PRESENT.

The City Clerk then called the roll of the new Council as follows:

George W. Abele.
Arthur C. Beal.
Charles L. Bean.
Thomas Bishop.
James H. Broughton.
Charles M. Bryant.
James M. Cantfill.
William A. Carey.
Chas. E. Cherrington.
Jesse F. Curtis.
Alex. Falconer.
J. Leonard Ferguson.
Richard R. Freeman.
Otto Gelotte.
Alfred H. Gibson.
Ralph W. Hobbs.
Thomas F. Hogan.
Charles J. McGilvray.
John Moir.
James B. Oakes.
Robert J. Teasdale.
Michael T. Walsh.
Joseph L. Whiton, Jr.

The oath of office was administered collectively by the City Clerk.

The City Clerk then introduced Mayor Shea who delivered his inaugural address. He was received with a round of applause and prolonged applause greeted him at its conclusion. He omitted reading several pages of figures which would not have been understood. Although suffering from a bad throat the Mayor was in good voice and his address was distinctly heard in all parts of the hall.

Immediately following the address the City Council organized.

VOTE FOR PRESIDENT.

The vote for President was almost unanimous, resulting as follows:

Number of votes,	23
Necessary for choice,	12
C. M. Bryant had	3
R. W. Hobbs had	20

And Mr. Hobbs was declared elected.

The votes for Councilman Bryant were cast by Councilmen Broughton, Hobbs and Whiton.

The other officials elected are:

Clerk of Council—George T. Magee.
City Auditor—Henry O. Fairbanks.
City Messenger—Harry W. Tirrell.
Clerk of Committees—George T. Magee.

Question as to Admission of Evelyn Thaw's Testimony

VITAL PRINCIPLE IS INVOLVED

Case Which Furnished Precedent For Her Testimony at First Trial of Husband Differs From Present Case as Much as Degrees of Murder

New York, Jan. 6.—It is reported that District Attorney Jerome may make the attempt to bar the testimony of Mrs. Evelyn N. Thaw in the second trial of Harry K. Thaw, which begun today before Judge Dowling of the superior court. At the first trial this testimony was allowed to go before the jury with the consent of the district attorney, who said the precedent set in the case of the state against Wood seemed to cover the matter.

Several prominent criminal lawyers have argued the point with Jerome since the close of the first hearing, and have urged him to oppose this line of testimony at the trial about to begin. These attorneys declare a vital principle of law is involved and that it should go to the highest courts for determination.

Mr. Jerome has given no definite answer to his fellow members of the bar and he may feel impelled to consent to another recital of Mrs. Thaw's story to prevent an appearance of inconsistency with his course a year ago. But the representations made to him as to the importance to the community at large of testing the legality of such testimony have been unusually strong and many of his closest friends would not be surprised if, when Mrs. Thaw is called as a witness, he should contend that her testimony was inadmissible.

Mrs. Thaw was allowed to testify at the first trial on the theory that it was her story, told to Thaw in Paris, two years before their marriage, that drove him to temporary insanity. The prosecution was not allowed to test the truth or falsity of the recital, the court's ruling being that, regardless of its truth or untruth, the issue was solely what effect upon the defendant's mind it had. Jerome offered witnesses who, he declared, would contradict certain of the wife's statements, but they were not allowed to testify. The prosecution's only recourse therefore lay on a severe cross-examination, but even this was allowed only by way of generally testing the credibility of the witnesses.

The lawyers who have approached Jerome on the subject are inclined to the opinion that there are vital differences between the Thaw case and that of Wood, which served as a precedent at the trial before Judge Fitzgerald. The Wood case was one in which Wood's wife told him that her father had been guilty of improper relations with her before her marriage and had but recently sought her again. Wood, in the heat of passion, straightway emptied the loads in a shotgun into his father-in-law, killing him instantly. The defense was one of insanity, brought on by the awful story of the man's wife.

But it is pointed out that in the Thaw case the shooting did not occur until three years after the recital which is alleged to have incited the deed. The lawyers say that the difference is just as vital as that which the law makes in various degrees of murder—a homicide committed in the heat of passion being widely distinguished from one cold-bloodedly and deliberately planned.

Mr. Jerome has consistently declined to discuss the Thaw case for publication. His course as regards the all-important testimony of young Mrs. Thaw will be watched, however, with the keenest interest. If her story is deemed admissible by Justice Dowling it is declared that the cross-examination to which she will be subjected will be far more severe even than the first one.

There is every reason to believe that the district attorney still is convinced that Thaw is medically insane—a paraniac whose malady is incurable. In view of this he was willing at the first trial that Thaw should be adjudged demented and sent to Matteawan asylum for the criminal insane, although he felt and urged before the jury that upon a strict interpretation of the letter of the law Thaw was at no time suffering from such a defect of reason as not to know the nature or quality of his act or that the act was wrong.

Thaw's attorneys will base their defense solely upon the theory that Thaw was legally insane at the time he shot Stanford White and that he has since recovered his mental balance. They say their client is ready and willing to stand any test that can be devised as to his present mental condition.

It is the general belief that the empanelling of a jury will prove a long and difficult task. But jury selections as well as jury verdicts are sometimes full of surprises. The first day of the trial should give a very definite idea to the length of time that will be required to fill the jury box.

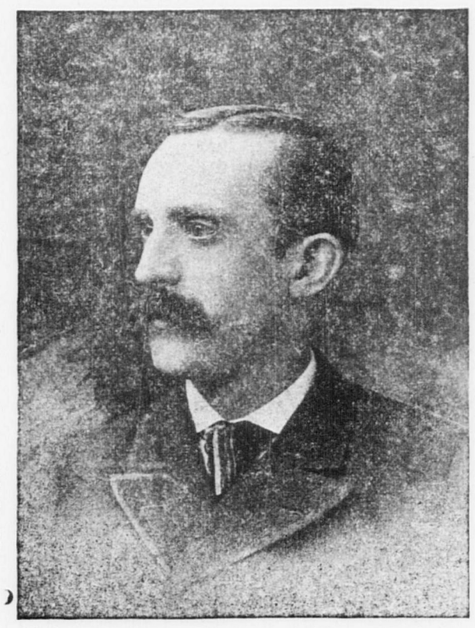

Prison For "Whitecaps"

Columbus, Ind., Jan. 6.—A jury returned a verdict of guilty against David Fox and Jacob Kirk, charged with "whitecapping" William L. Vanest of South Bethany. They will serve a term in prison of from two to four years.

ONLY WANTS ONE FRANC

Prince Helie Files Suit For Damages Against Count Boni

Paris, Jan. 6.—Apparently considering that Count Boni de Castellane is not at the present time worth 30 cents, Prince Helie de Sagan, who was attacked by the former on the street last week, has entered suit for damages of an even less amount.

Having consideration for the empty purse of the once wealthy husband of Anna Gould, now divorced, with noble generosity Prince de Sagan refrains from making even slight inroads on his now depleted fortune.

Therefore, in fulfillment of the intention he announced on Frday, he has filed suit on the ground of assault against Count Boni in the criminal court, asking but one franc, or 20 cents, damages.

Should Count Boni lose the case it might embarrass him to raise quickly even the small sum of 20 cents. The action will be taken up before the court on Jan. 21.

Disagreement of Powers Jury

Georgetown, Ky., Jan. 6.—Owing to the inability of a jury to agree on his guilt or innocence of complicity in the murder of William Goebel, Caleb Powers, secretary of state when Goebel was assassinated in 1900, will be compelled to stand a fifth trial for his life on July 6, 1908. In this last trial 10 of the 12 jurors voted for acquittal. The two oldest men on the jury held out for conviction. The first two trials resulted in life sentences and the third trial in a sentence of death. The sentences were annulled on appeals.

Locks a Hundred Feet Wide

Washington, Jan. 6.—By unanimous decision, the isthmian canal commission will recommend to the secretary of war that the locks on the canal be constructed at their present projected width, namely, 100 feet, holding that this will be ample for all commercial shipping for years to come. If, however, it is the judgment of the navy department and of the president that the proposed width be increased to 110 feet, this can be done at reasonable cost and, it is believed, without danger of structural weakness.

Acquittal of Pettibone

Boise, Ida., Jan. 6.—An end of the prosecution of the men charged with the murder of ex-Governor Steunenberg, except Harry Orchard and Jack Simpkins, occurred with the acquittal of George A. Pettibone and the discharge of Charles H. Moyer, president of the Western Federation of Miners. Both were accused of conspiring with William D. Haywood to murder Steunenberg. Haywood was acquitted last summer and Moyer will not be tried.

Triple Shooting by Jealous Man

Ludington, Mich., Jan. 6.—Crazed by jealousy, Leonard Brown of Grand Rapids came here, drove into the country to the farm of Robert Johnson, where his wife was staying, and shot the woman. She died in a few hours. Brown wounded Johnson twice and shot himself three times in the head. Both he and Johnson will recover from their wounds. Brown accused Johnson of breaking up his home.

Entombed Men In Perilous Plight

Ely, Nev., Jan. 6.—The six-inch water pipe through which air is fanned to the three miners who have been entombed for a month became bent yesterday by the pressure of rock and earth at the 600-foot level, and for a time no air could be sent to the men. Rescuers, by strenuous efforts, reached the break in a few hours and repaired the pipe. The men are still well, but their rescue is far off.

Death of "Little Egypt"

New York, Jan. 6.—Catherine Devine, known on the burlesque stage as "Little Egypt" and according to her friends one of the dancers at the Seeley dinner at Sherry's some years ago, which was raided by the police, was found dead in her apartments under somewhat mysterious circumstances yesterday. The body lay in bed and bore several bruises. The coroner is investigating.

Rent Riots In New York

New York, Jan. 6.—Incipient rent riots broke out on the East Side yesterday as a result of the tension between the landlords and the striking tenants and before the disorders were quelled by the police reserves many combatants were injured and five were arrested. The police used their clubs freely. The disorders were general throughout the affected district.

Alleged Murderer In Custody

New York, Jan. 6.—Aniello Graniloldi, who is charged with having murdered Frank Mazzei, a Brooklyn saloon-keeper, on Dec. 12 last, and was arrested at New Haven by New York detectives, was brought here yesterday.

Shipping Delayed by Fog

London, Jan. 6.—Fog is seriously impeding shipping on the British coast and it is especially dense in the regions of Glasgow and Liverpool. Many big steamships, both incoming and outgoing, have been held up.

Leopold Suffers From Gout

Brussels, Jan. 6.—The condition of King Leopold, who is suffering from the gout, is becoming worse. It is declared that the bone of one of his heels is slowly decaying, and the spread of the disease is feared.

PROHIBITION'S "DIXIE."

A Twentieth Century Rendition of "Marching Through Georgia."

Prohibition in Georgia has drawn from some unnamed prohibition versifier the following "Marching Through Georgia," which, it is suggested, may be sung to the tune of "Dixie," says the New York Post:

Bring the good old bugle, boys! We'll have a grand new song;
Sing it as we mean to sing it, eighty millions strong;
Sing it as we love to sing it while they march along—
Rumshops are marching from Georgia!

Hurrah, hurrah, they lead the jubilee!
Hurrah, hurrah, our land will soon be free!
Hear the Dixie chorus, from Atlanta to the sea,
While they are marching from Georgia!

Oklahoma answered when she heard the joyful sound;
Kansas took new courage, while old Maine felt sure her ground.
All the south awakens, and the north will soon come round,
Swelling the new march from Georgia.

Hurrah, hurrah, we'll vote the jubilee!
Hurrah, hurrah, Columbia shall be free!
Swell the Dixie chorus, from the mountains to the sea—
America is proud to follow Georgia.

Maryland Prohibitionists, not to be outdone, furnish this battle song, which, the party's press bureau assures the public, has just been "dashed off" by one of the workers:

We have a foe we mean to fight
In Maryland—my Maryland,
An enemy to God and right
In Maryland—my Maryland,
Arise, ye people; take your stand
And work together, hand in hand,
For God and home and native land
In Maryland—my Maryland.

Of Oklahoma we are proud.
She sets the pace for Maryland.
Then why should rumshops be allowed
In Maryland—my Maryland?
The southern states are doing well,
And Delaware now breaks the spell.
What we will do time will soon tell
In Maryland—my Maryland.

The legislature soon to meet
In Maryland—my Maryland,
The people's will must not defeat
In Maryland—my Maryland.
This mighty question must be solved;
There is a principle involved—
Saloons must go, we have resolved,
In Maryland—my Maryland.

Rumshops are destined soon to go
In Maryland—in Maryland.
Good, thinking people will it so
In Maryland—my Maryland.
Arise, ye people, in your might,
For God is on the side of right,
And he will help us win this fight
In Maryland—in Maryland.

TIES FROM FOREIGN CLIMES.

Railroad Looks Far Ahead For Its Future Supply.

"When an American railroad company looks so far ahead and so far away as to provide for its future supply of cross ties from forests in lands across the sea and at the ends of the earth," said a lumber operator to a representative of the Washington Star, "the seriousness of the railroad tie problem may be imagined. This is what the Atchison, Topeka and Santa Fe is doing.

"Some time ago this company sent E. O. Faulkner, the head of its tie and timber department, to investigate the statements that had been made about timber growing on the Hawaiian Islands known as ohia wood and which is being cut away rapidly to clear up land for sugar plantations.

"The wood was found by him to answer so well all the requirements of a good and lasting tie that he signed a contract with a Hawaiian lumber company for the cutting and delivery at San Francisco of 500,000 ohia wood ties a year for five years, besides 500 sets of switch ties for each year for the same period.

"Mr. Faulkner went also to Japan, where he made arrangements to procure several millions of ties to be delivered as called for. These will be made from an oak which grows abundantly in that country and which has all the qualities which made our white oak so valuable for railroad ties.

"Further providing for contingencies in the supply of ties, the Santa Fe has purchased several thousands of acres of forest land in Australia, the possibilities of which for furnishing ties are said to be virtually unlimited."

QUICKSAND ARCH ERECTION.

Remarkable Feat of Engineering Under New York Streets.

What is regarded by engineers as one of the most wonderful achievements ever undertaken in subterranean construction is nearing completion in the McAdoo tunnel beneath the junction of Sixth avenue and Ninth street, in New York, says the Kansas City Star. At that point four tunnels come together. Overhead are the Sixth avenue "L" and the Sixth avenue surface road and crosstown surface cars.

Under the direction of Charles M. Jacobs, chief engineer of the Hudson companies, a great arch of sand sixty eight feet wide has been built by compressed air at the point where the tunnels come together. The arch is of quicksand, and it is purposed to make this sixty-eight foot quicksand arch permanent with concrete, and when this has been done it will sustain the tremendous weight of the street overhead, with its great volume of "L" and surface car and vehicle traffic.

Trembling Necklace That's a Dazzler.

Rivalry in the display of diamonds at the grand opera in New York has led to the invention by a New York jeweler of a "trembling necklace," guaranteed to outshine any other arrangement of precious stones, says the New York American. The "trembling necklaces" are so named because the diamond settings are attached to tiny pieces of flexible silver wire so that the diamonds vibrate at the slightest movement of the wearer. The effect is dazzling.

Too Warm For Christian Scientists

The Braintree fire department was called out by an alarm from Box 34 at 11.15 Sunday morning for a fire in the Post Office block near the Braintree depot.

The First Church of Christ Scientist, was holding a meeting in the hall at the time and there was some little excitement. All got out in safety, however. They returned to the hall after the fire and resumed their services.

The fire started in the cellar from a defective pipe and was discovered by a Chinaman who occupied part of the building as a laundry. Owing to the dangerous locality a double alarm was sounded. The loss was about $500.

The building was occupied on the street floor by the Post office, A. W. Cass as a waiting room, a Chinese laundry, and G. W. Dearing the jeweler.

The hall is on the second floor and the upper floor is occupied by H. G. Hewes.

Sunday Fire On Revere Road

Fire alarm from box 122 at 9.51 Sunday morning was a brisk fire in the house at 51 Revere road, owned by Richard D. Chase, and occupied in part by Peter J. Starr.

Mrs. Starr lighted an oil stove in the pantry, and then accidentally threw the match into a basket of old waste paper. A blaze was immediately started.

Mrs. Starr ran to the box and rang in the alarm. In doing so her hand was badly cut by glass.

When the firemen arrived the rear of the house was full of smoke. Lines of hose were laid, but no water was used, the fire being extinguished by chemical streams. The damage will not exceed $100, mostly by smoke.

Their Only Son.

The funeral of Alfred Philip, son of Mr. and Mrs. Alfred N. La Brecque, who died Friday after a few days' illness by acute meningitis, brought on by the grip, was held Sunday afternoon. The services were conducted by Rev. Ellery C. Butler. There was a profusion of beautiful flowers, including a pillow from Quincy lodge of Elks. The burial was at Mt. Wollaston cemetery.

Special Services.

The special services connected with the Point church are to be continued evening at the home of Herbert Bonney No. 7 Glenwood Way; Tuesday evening, at the home of Colin Kennedy, 1 Beacon street; Wednesday evening, a union service at Pilgrim church, North Weymouth; Friday evening at the Point church, with Rev. George Benedict as speaker. The public are invited to attend.

Sunshine Band.

The annual meeting of the "Sunshine" band occured last week. The following honorary members were elected: Mrs. H. D. Adams, Mrs. C. W. Newcomb, Rev. and Mrs. A. R. Atwood. The following officers for the ensuing year were chosen: President, Florence Thayer; Vice President, Johanna Lorentzensew; Secretary, Ermine Caine; Treasurer, Ethel Joy; Teacher and director, Mrs. George Bailey.

JOB PRINTING
AT OFFICE OF DAILY LEDGER

THE NEW CITY COUNCIL.

The Ages Average Older Than Last Year.

The Daily Ledger makes a few interesting comparisons between the new Council and the old Councils below. Where the Council of 1904 had only 3 new members, the Council of 1905 had 11, the Council of 1906 had 13, and the new Council 8.

YEARS OF SERVICE.

	'08	'07	'06	'05	'04
First Year,	8	9	13	11	3
Second Year,	6	9	4	2	8
Third Year,	6	1	1	3	3
Fourth Year,	1	1	1	2	6
Fifth Year,	0	0	2	3	2
Sixth Year,	1	3	1	2	1
Seventh Year,	0	0	1	0	0
Ninth Year,	1	0	0	0	0

The members of the City Council of 1908 average older in years than any of the recent Councils. The aggregate number of years of the new Council is 888 against 865 last year.

Councilman-elect Carey will be the youngest member, being only 23 years, while Councilman Falconer is the oldest in years.

AGES OF COUNCILMEN.

	'08	'07	'06	'05	'04
Under 30 Years,	5	4	4	3	5
30 to 40 Years,	8	10	11	11	7
40 to 50 Years,	6	7	5	7	8
50 to 60 Years,	4	2	2	1	2
Over 60 Years,	0	0	1	1	1
Aggregate Years,	888	865	870	886	855

A largerr number than usual were born in Massachusett's a total of 16 out of the 23.

PLACES OF BIRTH.

	'08	'07	'06	'05	'04
Born in Quincy,	6	5	3	6	6
In other Massachusetts Towns,	10	6	11	8	7

Just Jotted Down By Ledger Men

Congratulations to Mayor Shea.

The public schools reopened today after a long vacation.

The "Priscillas" won the banner "Excelsior" for January.

William Ward of Washington street has accepted a position at Allston.

Mrs. J. D. Thomas is confined to her home on Standish avenue by sickness.

Excellent skating on Jackson's pond, the quarry and at Sailor's Home.

C. Webster Newcomb has opened an attractive store on East Howard street.

Mrs. C. H. Burgess of Whitney road has gone to Wells, Maine, for a two weeks' rest.

H. B. Sellar and family have moved from Edwards street, this city, to Somerville.

The youngest son of Mr. and Mrs. Cady Loud of Wibird street is quite ill with the grip.

Mr. and Mrs. Charles Gutterson have moved into their new residence on East Elm avenue.

R. T. Johnson has been confined to his home on Maple street the past week with tonsilitis.

Quincy chapter, Order of the Eastern Star, will have a public installation in Electa hall this evening.

Mrs. Horatio Towers of Billings street gave a baby party Saturday afternoon for her little son Junior.

Harry Brown, C. Yule, and Lulu Moody are planning an entertainment for members of the Point Intermediate C. E. Society for Jan. 17.

Carl, only son of Mr. and Mrs. W. F. Sidelinger of Washington street, is confined to his home by diphtheria.

Today, Jan. 6th, is the annual meeting of the Ladies' Aid Society of Quincy Point to elect officers for 1908.

Mrs. Everett Pope and son Lawrence of Billings street have returned from a two weeks' visit with relatives in Somerville.

The many friends of Mrs. Ellen M. Miller, of High School avenue will be sorry to learn that she is seriously ill with the grip.

James Davis was the soloist at the gospel service Sunday evening at the Point church. He sang "Jesus Saves" and "Come to the Saviour."

D. D. P. H. Brennan and suite of Boston will install the officers elect of Merry Mount lodge, K. of H., at G. A. R. hall on Friday evening.

The first term of Miss Helen Rhines' dancing school, which has been very successful, closed on Saturday last. The second term commences Saturday, Jan. 18.

Miss Mary O'Neil of Claremont, N. H., has been the guest of her parents of Washington street, the past week.

Mrs. Rose A. Reed of Liberty street is quite ill with rheumatic fever.

Mrs. Mary A. Dolan, D. H. C. R. and Cornelius M. Duggan, H. O. S., will visit St. Ambrose court, Order of Foresters at West Quincy, this evening.

Mrs. C. Alice Litchfield, who has been the guest of her daughter, Mrs. Edward Miller of Bigelow street, the past few weeks, recovering from a recent illness of pneumonia, returned to her home at Brooklin, Sunday.

Mr. and Mrs. H. W. Lombard (nee Batson) of Los Angeles, California, have the sympathy of their many friends in this city in the loss of their little son, whose death occurred at Christmas time.

The following persons were admitted into the Washington Street church Jan. 5: Mr. Goodhue of the Y. M. C. A., Florence Runnels, Frederick Sharp, Olaf Peter Debes, Hendrick F. Keith, and John H. N. Goodfellow. Also as probationers: Catherine Yule and Florence Thayer.

The answer to the appeal in the Ledger for police patrol along Holbrook's field was prompt and efficient. Since the officer keeps his eye on the boys and their rifles, no harm can be done. Before this, a poor cat, accidently shot, was left to die in a neighbor's yard and on the third day was discovered by the owner and put out of misery as quickly as possible.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

GOOD CLOTHES FOR MEN.

A man really ought to dress as well as he can within his means. Good clothes inspire temporary respect and give the man in them a chance to make good, where his possibly abler but unkempt rival would not get even an opportunity.

PRICES ARE LOWER THAN EARLIER IN THE SEASON.

THE STORE ACROSS THE STREET

THAT'S LIGHT BY DAY or NIGHT.

SEWER DEBT.

Debt. Jan. 1, 1907,	$526,400.00
Paid during the year,	18,300.00
	508,100.00
Added during the year,	40,000.00
Debt Jan. 1, 1908,	$548,100.00

PARK DEBT.

Debt Jan. 1, 1907,	$34,000.00
Paid during the year,	2,000.00
Debt. Jan. 1, 1908,	$32,000.00

RESUME.

Total Debt Jan. 1, 1907,	$1,785,350.00
Paid during the year,	136,860.00
	$1,648,490.00
Added during the year,	168,050.00
Total Jan. 1, 1908,	$1,816,540.00

MATURING DEBT.

	Year 1908.	Year 1907.
Municipal,	$105,670.00	$73,760.00
Street Improvements,	3,300.00	3,300.00
Water,	40,500.00	39,500.00
Sewer,	19,300.00	18,300.00
Parks,	2,000.00	2,000.00
	$170,770.00	$136,860.00

MUNICIPAL DEBT.

The Municipal Debt Jan. 1, 1908, is divided as follows:

Schools,	$268,286.00
Streets and bridges,	166,661.00
Public buildings,	18,739.00
Fire apparatus,	7,272.00
Other debts,	43,582.00
Total	$504,540.00

A COMPARISON.

Summary of total debt Jan. 1, 1908, as compared with total debt Jan. 1, 1907:

	Year 1908	Year 1907		
Municipal,	$504,540.00	$480,250.00	Inc.	24,290.00
Streets,	56,900.00	60,200.00	Dec.	3,300.00
Water,	675,000.00	684,500.00	Dec.	9,500.00
Sewer,	548,100.00	526,400.00	Inc.	21,700.00
Parks,	32,000.00	34,000.00	Dec.	2,000.00
	$1,816,540.00	1,785,350.00		

Increase in Total Debt for the year,	$31,190.00
Increase in Municipal Debt for the year,	24,290.00

LOANS ISSUED IN 1907.

Municipal,	98,050.00
Water,	30,000.00
Sewer,	40,000.00
Total,	$168,050.00

I have not included in the foregoing statement the following loans authorized before Jan. 1, 1908, but not issued:

Coddington School Loan,	70,000.00
Street Loans,	12,750.00
Total,	$82,750.00

LOANS OF 1907.

Fore river brodge,	$42,286.06
Hancock street bridge,	15,306.66
Sewer house connections,	6,000.00
Atlantic school house furnishings,	3,500.00
Draining pond off Grove street,	800.00
Moving Coddington buildings,	2,000.00
Gypsy moth,	3,500.00
Police signal Boxes,	600.00
High school addition	8,306.34
High school furnishings,	700.00
Alarm boxes,	135.00
Beach street land damage,	150.00
Police department wires,	175.00
Police department miscellaneous,	350.00
Board of Health,	800.00
Interest on bonds, loans of 1907,	3,022.50
Fire department,	800.00
Poor department,	2,000.00
Liberty street,	1,500.00
Farrington street,	2,000.00
Robertson street,	900.00
Cross street,	1,000.00
Sumner street,	3,000.00
Common street,	1,500.00
Total,	$99,333.56

LOANS UNDER SPECIAL ACTS.

Water Construction, water act,	$20,000.00	
Water Meters, water act,	10,000.00	
Sewer Construction,	40,000.00	
		70,000.00
Total,		$169,333.56

HOW DEBT MATURES.

The Municipal Debt falling due in the two years is compared below :

	1907	1908
January,	$2,300.00	$2,250.00
February,	———	5,000.00
March,	7,000.00	7,000.00
April,	4,900.00	6,100.00
May,	8,640.00	2,300.00
June,	1,300.00	1,500.00
July,	19,650.00	17,150.00
August,	8,070.00	13,120.00
September,	5,500.00	9,500.00
October,	5,500.00	5,500.00
November,	3,700.00	3,700.00
December,	10,500.00	32,550.00
Total,	$77,060.00	$105,670.00

HOW APPORTIONED.

Municipal debt coming due in 1908 is divided as follows :

Schools,	$35,433.75
Streets,	41,504.25
Sewer Connections,	5,000.00
Fire Apparatus,	1,408.00
Public Buildings,	5,751.00
Miscellaneous,	16,573.00
Total,	$105,670.00

CITY VALUATION.

The valuation of the three preceding years is as follows :

1905 Net Valuation,	$25,012,436.00
1906 Net Valuation,	26,168,210.00
1907 Net Valuation,	26,920,046.00
Total,	$78,100,692.00

LIMIT OF INDEBTEDNESS.

Our limit for general municipal indebtedness is two and one-half per cent. on the average net valuation of the city for the last three years.

Average net valuation for said years:	$26,033,564.00
Limit of borrowing capacity of city in 1908;	650,839.00
Municipal debt limit Jan. 1, 1908,	650,839.00
Municipal debt limit Jan. 1, 1907	504,540.00
Limit increase over year ago,	146,299.00
Authorized in 1907, but not issued,	82,750.00
Net borrowing capacity Jan. 1, 1908,	$63,549.00

LIMIT OF TAX LEVY.

The law allows us to assess $12 per $1,000, on the net valuation for the preceding year for the current expenses of the city for the present year.

Net valuation of city in 1907,	$26,920,046.00
Twelve dollars on a thousand, (Amount available for current expenses.)	323,040.00

You will notice from the foregoing statement that the city municipal debt outside of the debts authorized by special acts amounts to $504,540.00, and that $105,670.00, nearly one-fifth of the total debt, falls due this year.

The amount to be put into the tax levy for 1908 is $31.-910.00 above the amount paid in 1907, and with nearly $5,000 increase in the interest charges also to be levied in 1908 will make at least $36,910.00 more to be raised by taxation this year than in 1907. Based on the present valuation of the city and I do not see any reason to expect any material increase, this item of increase of debt and interest will certainly be the means of making a very substantial increase in the tax rate. Our tax rate at present is high and to further increase the same this year will levy a burden upon our citizens that they ought not to be called upon to bear. Such a tax rate in my opinion would not only be burdensome, but a serious drawback to the proper development of our city.

Would it not be wiser to take advantage of the act of the Legislature permitting us to refund a portion of our debt, and refund a portion coming due, and have the same extended, in order that the coming years may bear their share of the burden, especially when so much of the debt is for permanent improvements, such as school buildings and bridges ? I recommend that you give this subject your immediate and most careful consideration.

CITY CHARTER.

At the present time the air is full of discussions about City Charters, and different forms of municipal government.

Many of our citizens believe that our Charter should be amended, especially that portion thereof dealing with the office of Commissioner of Public Works, claiming that the Commissioner's duties are too many.

I believe it possible to obtain a more efficient and economical administration of our public works under one competent official than could be obtained if each division was under a separate official.

The position should be filled by an experienced man of proved executive ability who can properly plan and direct the work, leaving petty details to subordinates.

The experience of our large corporations, and many of the cities, show that the best results are obtained by having one responsible head.

I believe a competent general foreman should be employed in the Street Department, whose duty it should be to look after the maintenance , repair and care of our highways. Foremen with similar authority should be placed at the Sewer and Water departments. These foremen should realize that their continuance in the service of the city would depend upon the efficiency of their several departments.

I further believe that the Commissioner of Public Works should establish regular office hours, so that any of the citizens having occasion to confer with him would know when to find him in his office at City Hall.

SIDEWALKS.

Too little attention has been paid the past few years to the condition of our sidewalks.

Money and energy have been expended toward improving the highways for vehicles, many of which are owned and driven by residents of other cities and towns, while a majority of our citizens are pedestrians, who with their wives and children are forced to wade through mud and water or stumble over rough uneven surfaces to and from their work, stores or schools.

I believe that money expended for sidewalks tends to increase the comfort, health and prosperity of our citizens, and therefore would recommend that as early as possible you make a liberal appropriation for the construction of permanent sidewalks.

WATER RATES.

In the past two years, appropriations have been made for the purchase and installation of water meters and some progress has been made toward reducing the amount of water wasted, but no action has been taken toward adjusting the water rates to meet the new conditions.

Inasmuch as our Metropolitan Water assessment is based largely upon the amount of water delivered to us, it behoves us to prevent all waste and reduce our per capita consumption of water.

It is generally admitted that the use of meters will do this. Owing to the law passed by the Legislature of 1907, it is mandatory upon the city to proceed with the installation of water meters. Under this law the city must equip all new services and five per cent. annually of the old, with meters.

I shall, as soon as possible, take up the question of water rates and endeavor to devise rates that will be just and fair to all classes of consumers, bearing in mind that we must obtain sufficient revenue to meet the cost of maintenance, Metropolitan assessments, interest and maturing bonds.

SHADE TEES AND WIRES.

In my opinion, the public shade trees of our city have not been receiving the attention they require. These trees are being unnecessarily mutilated and destroyed by the methods employed in stringing wires of the public service corporations. I believe that as rapidly as practicable, all wires should be placed underground. I recommend that this subject receive your early and careful attention.

GRADE CROSSINGS.

During the past year, a commission has been appointed to consider and determine as to the best method of abolishing the grade crossings at Saville and Water streets. This is a matter of great importance to our city and should receive our most careful consideration.

SCHOOLS.

For some little time past, there seems to have been a decided conflict of opinion in regard to the powers of the School Committee on the question of new schoolhouses.

Committees and members of the Council have claimed that the School Committee should be willing to approve of more than one plan for a building, while the School Committee, it is understood, insist that their duty has been fulfilled when they approve of one. Many Coucilmen have felt that as it is their duty to appropriate the money, it is no more than right that they should have a choice of more than one way to expend it.

The opinion is prevalent that there is now, or will be in the future, a hostile feeling developed. This is an unfortunate condition of affairs. Both Council and the School Committee are looking out for the best interests of the city. The one desires to get the best building and equipment possible. The other is restricted by the present financial condition of the city. It is much to be desired that both parties shall give and take and that some method for more co-operation should be devised, as it is imperative that delays detrimental to the best interests of our schools should be avoided.

NO LICENSE.

Our city is to be congratulated upon the increase in the no-license vote cast at the last Municipal election.

I trust you will exercise great and discriminating care in the matter of granting licenses to express concerns to transport intoxicating liquors into Quincy.

I shall insist upon the laws relating to the sale and transportation of intoxicating liquor being rigorously and impartially enforced in all sections of the City.

OTHER DEPARTMENTS.

I refrain from making suggestions or recommendations concerning the other administrative departments until I have had further opportunity to familiarize myself with the conditions and needs of these departments.

CO-OPERATION OF BUSINESS MEN.

I intend, at an early date, to invite the business organizations of the city to select representatives, with whom I may confer from time to time during the year on important matters affecting the welfare of our city.

Gentlemen of the City Council :

As we have been elected to office to serve the city for the ensuing year, let us do so according to the best of our ability.

Let me suggest that we work in harmony; each striving only for that which he believes will be for the best interests of all.

Let us administer the affairs of the city with the same fidelity and economy that we would employ in the conduct of our own private business, laying aside all personal, political and sectional feelings.

It will be well, not only for us, but for all officials and employees of the city at all times to remember that this City Hall has been dedicatd by the people to the transaction of public business and that here the public must receive, not only honest and efficient services, but also fair and courteous treatment. Gentlemen, I shall take occasion from time to time to call your attention to such matters as in my opinon may require your consideration.

LEDGER

ACTION OF BROWNSON

President Declares It to Be Unseemly and Improper

DISLOYAL TO THE COUNTRY

Rebukes Those Who Point Out Defects In Construction of Ships With "Hysterical Exaggeration or Malicious Untruthfulness"

Washington, Jan. 6.—President Roosevelt's attitude on the question of the command of hospital ships in the navy, which resulted in the resignation of Rear Admiral Brownson and, incidentally, some caustic observations by him on that incident and the controversies among naval officers and their adherents as to details of naval construction and methods of training, were made known yesterday when Secretary Metcalf gave to the press two letters from the president addressed to him on the subjects.

In the first of these letters President Roosevelt, without mincing words, condemns in unmeasured terms the act of Admiral Brownson, declaring it to be unseemly and improper. The question as to which Brownson took issue with the navy department, the president declares, is one as to which there can be entirely legitimate differences of opinion, but, he adds: "There is no room for difference of opinion as to the gross impropriety of the admiral's conduct in resigning sooner than carry out the orders of his superior officers in such a matter.

"The officers of the navy," says the president, "must remember that it is not merely childish, but in the highest degree reprehensible to permit either personal pique, wounded vanity, or factional feeling on behalf of some particular bureau or organization, to render them disloyal to the interests of the navy and therefore to the country as a whole.

"The officers of the navy who are guilty of such conduct deserve grave rebuke. They cast discredit upon the service and their conduct is deeply mortifying to every American who believes in the navy and is anxious to uphold its interest and honor.

"I would willingly pass over the conduct of Admiral Brownson because of his fine service in the past if it were not that at a time when a new chief is chosen to succeed him it becomes imperative to stamp with disapproval the behavior which, if followed throughout the navy generally, would literally ruin the navy's efficiency.

Regarding the controversies in the navy the president admits there always are and always will be defects to correct, both in the construction of ships and in the organization of the department and in the actual drill of the fleet. It is well, he says, that these defects be pointed out, but it is also well that they should be pointed out without hysterical exaggeration or malicious untruthfulness. He scathingly rebukes those guilty of exploiting them in greatly exaggerated form in the fancied interest of an individual or clique of individuals or for the sake of supplying sensational material to newspapers.

Because of "so much misrepresentation and exaggeration," the president has asked Metcalf for a statement as to the exact facts concerning which there has been disputes, desiring particularly the opinion of Admiral Converse, formerly chief of the navigation bureau, who, because of his high professional attainments and standard of conduct and duty, the president considers peculiarly fitted to give judgment.

Admiral Brownson was shown the president's letter by a representative of The Associated Press and was asked if, in view of the fact that Mr. Roosevelt's side of the subject had been stated in these communications, he did not feel at liberty to say something in his own behalf.

"Not a word," was his prompt reply, and this attitude he maintained to all inquiries for his views. The admiral has consistently declined to say anything for publication about the whole matter.

Accompanied by a friend, Brownson left Washington yesterday afternoon for a trip to South Carolina, where he expects to indulge in duck shooting for the next week or ten days.

Stokes' Assignment

Washington, Jan. 6.—Acting under orders of the president, Secretary Metcalf has signed the orders assigning Surgeon Stokes to the command of the hospital ship Relief, which is being fitted out at the Mare Island (Cal.) navy yard, with a full hospital equipment for special duty with the battleship fleet. Other medical officers will be assigned to the vessel as assistants to Surgeon Stokes. Arrangements are to be made for shipping a merchant crew and master.

Trying Out New Cruiser

Rockland, Me., Jan. 6.—The armored cruiser North Carolina, built by the Newport News Shipbuilding and Dry Dock company, arrived here yesterday. The standardization trial begun today on the Rockland course.

Death In Wake of Hard Frost

London, Jan. 6.—A week's hard frost has permitted the indulgence of skating by thousands and has led to many deaths through accidents on the ice, as well as through exposure.

SAFEGUARDING MARRIAGES

Catholics Must Wed Within Parish of the Bride or Groo.

Pittsburg, Jan. 6.—A pastoral letter to be issued early in the approaching Lenten season by Bishop Canevin of the Pittsburg diocese of the Catholic church, as well as other bishops, will impose new regulations governing marriages upon all who profess the Catholic religion. The letter will give full force and effect to a recent rescript of Pope Pius IX.

Heretofore the policy of the church in America has been quite liberal. Under the new regulations marriages celebrated outside the parish of the residence of either the bride or the groom will be declared illicit, and such marriages will be possible only by false representations. A marriage of the kind might not be declared invalid, but it would be clandestine and illicit unless a special dispensation were procured and the celebrants would be deprived of the benefits of the church.

"The law will be practically prohibitory of elopements and of all ill-considered marriages," said a local official of the church. "It will place an additional obstacle in the way of the marriage of Catholics with non-Catholics, to which the church has always been opposed as almost invariably productive of unhappiness. The clergy of a parish are supposed to know their people and if persons desiring to wed within the church are compelled to do so under the eyes of their own religious guides there will be fewer errors and heart-burnings."

Stabbed Wife to Death

Easton, Pa., Jan. 6.—Frank Smith, son of City Controller Smith, had been separated from his wife for some time. Yesterday the husband forced an entrance to the house occupied by his wife and her sister. After seizing a carving knife, Smith stole to the room occupied by the two women and plunged the weapon into his wife's heart, killing her instantly. He left the house and; going to his father's residence, gashed his own throat and abdomen. Smith will recover. He charged his wife with infidelity.

Dynamite For Justice of Peace

Andover, N. Y., Jan. 6.—The home of E. R. Carpenter, a justice of the peace, was dynamited. Every window was shattered, the furniture in the parlor was splintered and the windows in houses nearby were broken. A heavy stone wall which divided the sleeping rooms from the portion of the house where the dynamite was placed saved the family. A great hole was blown in the floor. There is no clue to the perpetrator of the outrage.

Militia Protecting Street Cars

Muncie, Ind., Jan. 6.—With hundreds of militiamen here and martial law prevailing, street cars were run yesterday from early morning until dusk over all lines. Except for the throwing of a few stones on the outskirts of the city, the cars were unmolested, notwithstanding they were manned by imported strike-breakers. The strike of street car men that caused the recent rioting is still in force.

Girl's Mother Sought Revenge

Waco, Tex., Jan. 6.—During the trial of Joseph Williams, a negro, accused of criminal assault upon Ruth Johnson, a white girl, a constable saw the girl's mother taking deliberate aim at the negro with a pistol. She was swiftly disarmed and the prisoner was hurried to Hillsboro to elude a mob that was forming to lynch him.

Settled Old Grudge With Knives

Gainesville, Tex., Jan. 6.—Renewing an old disagreement when they met here, Ira Hart and Alva Skinner, farmers, walked to an enclosure and fought with knives as weapons for several moments before they were discovered by friends. When they were separated, Hart was found to have been fatally and Skinner seriously wounded.

Steamer Lost--Crew Safe

Brest, Jan. 6.—The boilers of the Argentine steamer Imperatrice exploded off Ushant and the steamer foundered. The crew were saved by a fishing smack.

NEWS IN BRIEF

John C. Cautley, a retired British army officer, aged 56, was struck by a trolley car at Buffalo and died in half an hour.

Lucian Cook, a prominent resident of North Attleboro, Mass., died after an attempt at suicide. Despondency at the serious illness of his wife is given as the cause of the act.

At the age of 107 years, Mrs. Rhuan Tharp died at Nashville. She had lived under every administration except that of Washington. She was born in Virginia.

The large factory of the E. Cummings Leather company at Woburn, Mass., was destroyed by fire, causing a loss of $80,000. The company was rushed with orders. The origin of the fire is unknown.

Rev. D. B. McManus, parish priest of the Sacred Heart church at Natick, Mass., died after a long illness from complications incident to the grip. He was born at Sharon, Mass., 50 years ago.

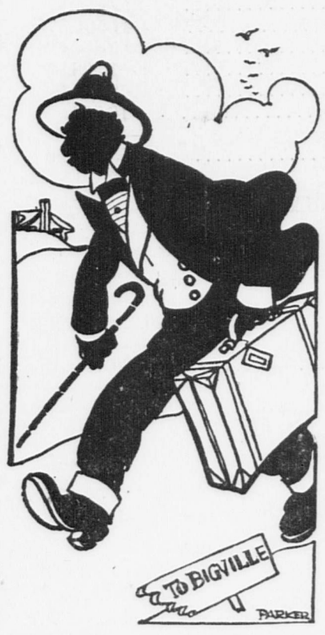

Five hundred boys of Pawtucket, R. I., were guests at a turkey dinner given by Lyman B. Goff, a wealthy mill-owner. All the boys are members of the Pawtucket Boys' club, for whom Goff some time ago erected a building at a cost of $100,000.

The mangled body of Lyman W. Barber, 60 years old, secretary of the Standard Car Truck company, was found on the tracks of the elevated railroad at Chicago. It is thought that Barber fell from a train.

YOU COULD See This CITY GROW

If Your Dollar
Circulated in Quincy.

Why Do Country Boys Flock to Big Cities?

Most small towns are short of young men. As a rule there are plenty of agreeable girls who would not object to matrimony; there are plenty of old people and enough babies to go around. But the boy—oh, where is he?

The boy, the young man, has gone to the city, where he imagines there are opportunities. To him the old home town is dull and stupid. He sees no future for himself there. Both for social and financial considerations he rushes off to the great city. Very frequently he finds that he is lonesomer there than at home—nearly always so; and even more frequently he finds that riches do not grow on ten story walls.

BUT STILL HE GOES TO THE CITY.

In going there the boy simply follows his daddy's dollars. For years his daddy and his mother and his big sister and his Aunt Mary Ann have been mailing their money to the big city for Mail Order bargains.

Result: Home merchants don't thrive, grass grows in the streets, no jobs are to be had, no opening for a new business, and the young man goes to the city because it is a place where people have traded at home and built up their own community and provided opportunities for outsiders as well as for themselves.

IF YOU WANT TO KEEP YOUR BOY AT HOME BUILD UP YOUR TOWN SO THAT HE CAN BUILD UP HIS CAREER AMONG HIS HOME FOLKS.

CITY OF PRESIDENTS

Birthplace Of Two Burial Place Of Two

Old historic Quincy settled in 1625 has much of interest to visitors. When Braintree was incorporated in 1640, the territory now known as Quincy, was a part. In 1792 Quincy became an independent town, and in 1888 was incorporated as a city.

Quincy was named in honor of Col. John Quincy, descendant in the third generation from Edmund, 2d, who settled in Quincy, in 1634; grandfather of Abigail (Smith) Adams, the wife and mother of a President of the United States.

The city includes Wollaston, Atlantic, Quincy Point, South Quincy, West Quincy, Montclair, Norfolk Downs, Wollaston Park, Squantum, Houghs Neck, Adams Shore, Germantown and Quincy Neck, comprising in all over 16 square miles, of which 2,530 acres are in public parks.

BIRTHPLACES OF PRESIDENTS

Birthplace of John Adams, the first Vice President and second President of the United States, Franklin street, Quincy Adams; house built in 1681 and restored in 1897 by Adams Chapter, Daughters of the Revolution. Open to public. Admission charged.

Birthplace of John Quincy Adams, the sixth President of the United States, junction of Franklin street, Presidents road and Independence avenue. Built 1716, restored 1896 by the Quincy Historical Society. Open to public afternoons from 2 to 5. Admission charged.

ABIGAIL ADAMS CAIRN.

Penns hill, erected June 17, 1896, by Adams Chapter, Daughters of the Revolution, to the memory of Abigail Adams, who with her son, John Quincy, from the spot watched the smoke of battle at Bunker Hill. Cairn composed of many historic stones, the corner stone being part of the old sleeper of first railroad in United States which ran from Quincy quarries to tide water, Neponsit river.

BURIAL PLACE OF PRESIDENTS.

First Congregational Church (Unitarian) at Quincy centre. In auditorium each side of high pulpit, are mural momuments, to the memory of John Adams, the second president, and John Quincy Adams, the sixth president of the United States, and their wives. The funeral of John Quincy Adams was held in this church. Beneath the entrance is the Adams tomb, reached by stairways from the vestibule. Near the tomb is the box in which was brought from Washington the body of John Quincy Adams, also the old town hearse. Admission may be secured on application to W. E. Dewhurst, sexton, 3 Maple Place. A fee is asked for attendance, etc.

HANCOCK CEMETERY.

Hancock cemetery across the street from First church contains many old stones. Among the old graves are those of Henry Adams founder of the Adams family who died Oct. 5, 1646; Rev. William Thompson, 1st pastor over the Braintree church who died Dec. 10, 1666; Rev. Henry Flint who died Oct. 11, 1668; Rev. John Hancock father of the Patriot who died May 7, 1744 and many other notable people.

JOHN HANCOCK BIRTHPLACE.

Adams street, junction of Dimmock and Hancock streets. A bronze tablet has been placed by the City of Quincy on Adams Academy to mark the place where the house stood in which the patriot John Hancock, the bold signer of the Declaration of Independence, was born.

PRESIDENTS ADAMS MANSION.

Adams street, corner Newport avenue Quincy. Residence of President John Adams and contains many family relics. Occupied by descendants. Not open to public.

PRESIDENTS LANE.

Now Goffe street, leading from Adams street, near Mansion. Opened by John Adams to drive his cows to pasture.

DOROTHY Q. HOUSE.

Hancock street, corner Butler road, Quincy, Old Quincy homestead in which Dorothy Q was born. Owned by the Massachusetts Society of Colonial Dames. Has quaint old paper on parlor put on for wedding of John Hancock and Dorothy Quincy; also secret chamber and other interesting feature. Open free to the public on Saturdays, from 11 A. M. until 4 P. M. Other days admission charged

MYLES STANDISH CAIRN.

Squantum heights, erected in 1895 by the Daughters of the Revolution, of Massachusetts, in memory of Captain Myles Standish and his men of Plymouth Colony, who landed here Sept. 30, 1621, guided by the Indian Tisquantum.

MYLES STANDISH SPRING.

On the beach to the left and back of Squantum Inn. Spring of fresh cold water, where Standish and his party breakfasted and thence started to explore the country around Boston Bay.

SQUAW ROCK.

Pile of rock, on which is a perfect head of a squaw, frequently mentioned in early Squantum history. Near by is also Sachem's Knoll.

LIVED AS MARRIED COUPLE

Boston an Murders a Woman and Fatally Wounds Himself

Boston, Jan. 6.—His mind inflamed with jealousy for the young woman with whom he lived as his wife, Vito Constanzo, aged 23, shot and killed Mamie Zarella, aged 25, at their home in East Boston, and then, turning the revolver on himself, put two bullets into his abdomen, from which wounds he is dying. A jealous quarrel is supposed to have caused the deed.

Mamie Zarella was formerly Mary Halpin and previous to her coming to Boston eighteen months ago worked in the mills in Lowell. She was born in a country town in New Hampshire. She was married to a man named Zarella, whose whereabouts are unknown.

Skaters Drowned

Bangor, Me., Jan. 6.—Edwin Wadleigh and Willis Pinkham, each aged 14, were drowned in the Penobscot river opposite this city. The boys were skating on the thin ice along the shore, when they went into a hole.

Madison, Me., Jan. 6.—Maurice Adams, aged 12, was drowned while skating on the Kennebec river.

Marlboro, Mass., Jan. 6.—In a skating accident here Paul Youngman, aged 20, was drowned, and two companions who tried to rescue him also fell into the water, but were pulled out uninjured except with a wetting.

Woman Murdered and Robbed

Greenville, R. I., Jan. 6.—An autopsy performed on the body of Miss Mary Eddy, who was murdered while returning home from work Friday night, the murderer robbing the woman's body of her week's wages, $16, revealed the fact that the woman was struck on the back of the head, causing a fracture of the skull and blood clots and hemorrhages, resulting in her death. Inspector Harran of Providence is investigating the murder, but it is understood little progress has been made.

Commissioner Fairbank Dead

Warren, Mass., Jan. 6.—Wilson H. Fairbank, formerly Massachusetts commissioner to the St. Louis and the Lewis and Clarke expositions, and more recently commissioner from this state to the Jamestown exposition, died of heart failure, following an attack of malarial fever. For many years Fairbank served as superintendent of construction for various telegraph companies, and he built thousands of miles of telegraph line throughout the country. He was born in Warren in 1836.

Icy Blast Strikes New England

Boston, Jan. 6.—Boston experienced its coldest day of the season yesterday, the mercury dropping to 16 degrees last evening. Accompanying the low temperature was an icy blast from the northwest, which swept over eastern Massachusetts at the rate of from 40 to 60 miles an hour. The gale made shipping hazardous and a number of craft had a hard time beating into the harbor.

Catholics In New Hampshire

Manchester, N. H., Jan. 6.—At the services at St. Joseph's cathedral yesterday Bishop Guertin announced from the pulpit the result of the findings in the Catholic census of New Hampshire. The number of Catholics in the state is 128,413, and of this number 37,022 reside in Manchester. The figures show that about one-third of the state population is Catholic.

Was Prominent In Politics

Boston, Jan. 6.—Edward J. Donovan, for seven years city clerk of the city of Boston, died at his home in Brighton of heart trouble. He was born in Boston in 1864, was elected to the legislature in 1887-1888 and became senator in 1889-90. He was the youngest man who ever held the office of senator in Massachusetts. Donovan was a Democrat.

Sunday Law Enforced

Rutland, Vt., Jan. 6.—Agitation resulted yesterday in the "bluest" Sunday that Rutland has known in many years. The police enforced a Sunday closing ordinance which has long been somewhat neglected. Tobacco, fruit and candy stores closed their doors, and only the creameries, drug stores and hotels were allowed to do business.

Wreckage Washed Ashore

Providence, Jan. 6.—The washing ashore of a large amount of wreckage, including four hatches, a wheelhouse and part of a name board which bore the letters "sim" on Block Island, gave the life-saving crew at Sandy point the only information they can gather that a wreck may have occurred somewhere between Long Island and Block Island.

Anxiety Over Fishing Schooner

Boston, Jan. 6.—Much anxiety is expressed by fishermen over the non-arrival of the Boston fishing schooner Fame, which sailed from Halifax Dec. 20, with a crew of amateur yachtsmen sent down from here to bring the vessel home. The vessel is one of the largest fishing schooners of the T wharf fleet.

Despondent Over Wife's Death

Danvers, Mass., Jan. 6.—With a picture of his deceased wife clasped in his hand, William H. Rennicks committed suicide by drinking carbolic acid. He was 42 years old and had a family of five children. Since the death of his wife he had showed marked symptoms of despondency.

Found Dead In Hallway

Holyoke, Mass., Jan. 6.—Michael Garland, aged 35, was found dead in a hallway of a Main street block. The medical examiner decided that the man had probably fallen through an open hatchway in the building and that his death was due to accident. Garland leaves a family.

REQUEST IS GRANTED

Whitmore to Have Possession of Murdered Wife's Body

WILL BE BURIED PRIVATELY

Police May Secure Important Evidence From an Anonymous Letter --Another Arrest In New York In Connection With Meadow Mystery

Harrison, N. J., Jan. 6.—Its identity having been established beyond dispute, the body of Mrs. Lena Whitmore is to be given private burial by relatives. It will be sent to Schenectady, N. Y., the home of the woman's youth. This arrangement was concluded by the husband yesterday after a solitary visitor, an undertaker, had been admitted to his cell.

Since Theodore S. Whitmore was detained relative to the murder of his wife he has been in close confinement, but yesterday he expressed a wish to have the body taken from the morgue, where, ever since it was found on the Passaic river flats, it has been stared at by thousands of the morbidly curious. Yesterday the morgue was closed and, though a crowd of idlers remained about the place, none was admitted nor will the face of the unfortunate woman be seen again except by those of her own blood. There may be opposition on the part of Mrs. Whitmore's family to the husband taking possession of the body, but unless a serious charge is presently made against him, it is said that his claim can hardly be denied.

Whitmore, who gave way to occasional bursts of weeping Saturday, had himself well in hand yesterday, and to his keepers appeared in a cheerful frame of mind. He would have been glad to have received callers other than the undertaker, but this was not permitted.

The scene of the murder drew a big crowd yesterday and, though the weather was biting cold and the wind whistled unpleasantly over the refuse-filled swamp, both men and women stood expectantly around the little pond which furnished the earliest evidence of the crime.

The anonymous letter received by the police some days ago, in which the writer said that he had accompanied the woman to the flats and there stunned her with blows on the head, may prove important evidence. The writer denied that he killed the woman, but suggested that she probably drowned herself because of chagrin when she recovered her senses and found that her clothing had been stripped from her. It now appears, according to the police, that the handwriting in this letter bears a striking resemblance to the writing in the letters received by Mrs. Whitmore's sisters which purported to come from Mrs. Whitmore, but must have been written after her death. All of the letters will be examined and compared by experts.

The inquest has been set for next Thursday evening.

Must Explain Chance Remark

New York, Jan. 6.—A chance remark made by him to a friend, but overheard and reported to the police, has led to the arrest of Caleb Evans, a time clerk employed by the Third Avenue Elevated railroad and an acquaintance of Theodore S. Whitmore. The alleged remark quoted Whitmore as having said in effect that he would steal home some morning before his tour as a motorman was ended and surprise his wife.

Evans, who is 38 years of age and has a family in Brooklyn, was astonished at his arrest, and though he declared that he could throw no light on the murder he was locked up for a hearing.

Joseph H. Hendrickson, the alleged friend of Mrs. Whitmore, was arraigned yesterday and in default of $1000 bail was remanded to jail.

No Word From Mount Royal

St. John, Jan. 6.—Although it is four weeks since steamer Mount Royal sailed from Antwerp for this port with 304 immigrants and a crew of more than 100, and nothing has been heard of her in that time, there are hopes that she is still afloat. The arrival of steamer Hungarian at Portland disposed of the theory advanced that she had fallen in with the Mount Royal.

Murderer Confesses

Newark, N. J., Jan. 6.—Antonio Bernardo has confessed to the police that he shot and killed George A. Fischer early New Year's morning. Fischer was killed in a window of his home when he gave an alarm to call the police to two burglars who were forcing an entrance into a grocery store nearby.

Won't Encourage Monopoly

St. Petersburg, Jan. 6.—The council of the empire upholds the refusal of the senate to sanction the proposed sale of large parcels of naphtha-bearing land in the Baku district to big producers, on the ground that it would encourage a great monopoly against the interests of the consumers.

A Call From the Mikado

Portland, Or., Jan. 6.—The Oregonian received a dispatch from Vancouver, B. C., stating that hundreds of Japanese ex-soldiers, now in Vancouver, have received orders from the mikado to return to Japan at once.

GREAT SCHOOL FOR MEXICO.

Southern Republic In 1910 Will Open Its First National University.

"In 1910 Mexico will open its first national university," said Professor Manuel Velasquez Andrade, an instructor in physical training in the normal school of Mexico City, who was recently interviewed at the Ebbitt House in Washington. Professor Andrade came to Washington to confer with the commissioner of education and to examine the public playgrounds of that city. He will visit several of the large colleges of the east for the purpose of studying the athletics practiced by the students of American colleges, with a view to adopting them in Mexico when the university is opened there, says the Washington Post.

"I have been in most of the countries of Europe, where I studied physical training and field athletics in connection with the principal universities of those countries," continued Professor Andrade, "and I am convinced that the United States is far ahead of all other countries in this respect. The young men who attend your colleges are better trained, more enthusiastic and better developed as a result of athletics than those of any place I visited in Europe, and this is due, I believe, to a more advanced system of physical training. We hope in Mexico to establish the same sports in connection with our university that are in vogue at American colleges.

"It is a mistake to believe that the Mexicans go in for brutal forms of sports, such as bull fighting. Your people have a wrong impression. Bull fights in Mexico are kept alive by the patronage of foreigners. At any exhibition of this sort you can find 60 per cent of the spectators composed of Americans, 25 per cent of Spaniards and the remaining 15 per cent, perhaps, of Mexicans. Bull fighting has been practiced so long in Mexico that it has become monotonous to the natives. But the first thing an American or other foreigner wants to see when he arrives in our country is a bull fight. In this way it has been made probably the most profitable form of amusement in the country, so profitable indeed that recently there was built in the City of Mexico what is perhaps the most expensive and finest bull fighting ring in the world. It cost in the neighborhood of $1,000,000 and has a seating capacity for 15,000 spectators. Mexicans could not afford to patronize this sport if they desired. Foreigners readily pay from $5 to $10 for a seat at a bull fight."

HARD LUCK FOOTBALL TALE.

Princeton Player Overlooked In Yale Game Loses $5,000.

As a result of oversight, it is said, on the part of Princeton football coaches, who intended but forgot to send young Henry Buckingham, a son of a Memphis banker, into the recent game against Yale at New Haven, a small fortune was lost by the husky boy who claims Memphis as his home and who was tackle on Princeton's varsity football team, says a Memphis special dispatch to the New York Times.

T. N. Buckingham, father of the boy, promised him $5,000 if he made his "P." Young Buckingham trained faithfully and took part in every game but the Yale game, which alone entitles the Princetonians to the coveted honor. It is said that Head Coach Roper intended sending Buckingham in during the last half in place of Left Tackle Siegling so the young man could earn the sum offered by the father, but the sudden switch in the score from 10 to 0 in Princeton's favor in the first half to 12 to 10 for Yale in the second half demoralized every one on the Princeton side lines, so that subs were forgotten and Buckingham was the loser. Young Buckingham while at home for the holidays laughed at his loss. He was injured in the Amherst game, prior to which he had played in every game of the team.

RABBITS FOR A CITY'S POOR.

Kansas Man Offers a Suggestion For a Carload a Week.

Have the railroad companies furnish a car and ask the persons living near the railroad to kill rabbits. Have the rabbits brought to the depots on a certain day and loaded into a special car.

This is the plan R. A. Rogers of Selden, Kan., suggests to the Salvation Army, says the Kansas City Star. He believes a carload of rabbits could be furnished each week for the poor of Kansas City.

Major Arthur Cass of the Salvation Army believes the plan to be a good one, and he will ask the railroad companies to agree to the plan for transporting the rabbits to Kansas City. If satisfactory arrangements can be made an appeal for rabbits will be sent out.

Flowers to See and to Eat.

Novelties in table decorations which attracted the attention of dinner giving spectators at a food and cooking exhibition recently given in England were sugared roses, says the New York Press. Bouquets of real violets, roses and other flowers were coated with sugar, transforming the blossoms into edibles. Many of the blossoms were arranged in attractive groupings of their colors.

Schoolgirl's Remarkable Record.

The school managers of the New Shoreham Council schools in England have had brought to their notice the fact that a scholar in the girls' department has neither been absent nor late on a single occasion in eight years, says the London Standard. The managers considered this a most remarkable record, and it was resolved to ask the education committee to grant the scholar a special award.

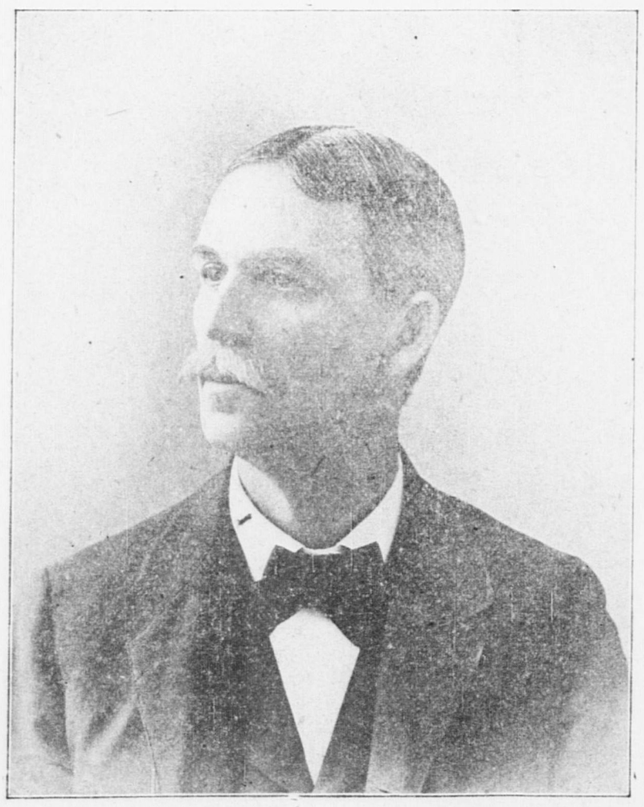

The Mayors of Quincy.

EX-MAYOR JOHN O. HALL,
Who was City Auditor Eleven Years.

EX-MAYOR CHARLES M. BRYANT,
Only Former Mayor elected Member of City Council.

EX-MAYOR JAMES THOMPSON,
Member of the First City Council,

A NOTRE DAME LADY'S APPEAL.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbagos, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address

The Observations In the Daily Walk

Robert McArthur of Scotland is visiting at the home of John Hendry, Farnum street.

A very pleasing bill is advertised for the opening of the new Scenic theatre tonight.

Miss Marion Johnson sang the offertory solo The "Hillcrest" at the Point church, Sunday morning.

The Quarterly Conference of the Wollaston M. E. church is to be held Wednesday evening, January 8th at 8.15 P. M.

A large plate glass window in Joyce Bros. store on Granite street was smashed on Sunday, by the high wind blowing an awning rod through it.

The officers elect of Amana Rebekah lodge of South Braintree will be installed on Thursday evening by D. D. G. M. Annie E. Sawyer and suite of Boston. Several members of G. L. Gill lodge will attend and witness the work.

The Christian Endeavor Society meeting of the Park and Downs Congregational church was conducted Sunday evening by Louis Coombs. His subject was, "What is true blessedness."

Among the interested spectators at the inaugural was Mrs. Margaret Shea, mother of the Mayor. Mrs. Shea, although 76 years of age, could not resist the temptation to see her son elevated to the honorable position of Mayor.

Edward E. Hayden for many years the local manager of the New York & Boston Dispatch Express Co. died Saturday at the Boston City Hospital aged 46 years. He left the employ of the express company several years ago and has since that time made his home in Boston. The body will be brought to Quincy for burial.

Squantum Club Win at Bowling

The Squantum Yacht club won in three straight from the Dorchester Yacht club in the interclub series on Jan. 3. The only close game was the first one,

Newsy Budget From Shipyard

Mr. Curwin, the representative of the Fore River Company at the steel mills in Pittsburg, Pa., has returned to the "smoky city" after spending a vacation in town,

Chief Engineer Purdy, of the Steamer South Shore was a visitor at the yard last week.

Mr. MacGregor of the Fore River football team has just received a copy of the Pawtucket, R. I., Evening News, containing the following article which appeared in the above paper just after the last foot ball game in Pawtucket between the Coats and the Fore Rivers:

"Mr. Editor:

"Being in Providence last Saturday and a lover of soccer football, I inquired if there was a game to be played in this vicinity and was informed that the Coats and Fore Rivers would play at Pawtucket and that both teams were expert exponents of the game, I may not know the latest rules governing the game, but I have played in year gone by against the famous Queens Park and Third Lanark of Glasgow—names that will no doubt recall to some of the lovers of the game hereabouts, who now watch from the side lines—many brilliant and hard fought battles.

Finding my way to the Lonsdale avenue grounds, the first thing that disappointed me was the condition of the field. Why it should be allowed to remain in its present condition when with a small expense for leveling it could be made an excellent field I do not understand.

"Considering the field, the game was fast enough to do credit to many of the crack English and Scotch teams, The gentleman who acted as referee, however, would have exhausted the patience of any crowd. He called enough fouls to have served for a dozen games and in this respect both teams suffered. But the worst feature of his work was his decisions against the Fore Rivers. He showed too much eagerness to call fouls against them whenever they appeared dangerous and when they did get as fair a goal as ever was made, disallowed it. The result was they practically gave up before the second half was over.

"A first-class referee is one who calls the fewest number of fouls and at the same time keeps the game well in hand. There should be no occasion for calling a foul every time a player loses his footing by coming into contact with an opposing player, a distinction should be made between a deliberate trip and a player falling over the feet of his opponent. There are enough interruptions to the game by the ball going out of play without adding to the number by calling unnecessary fouls.

"Before the game started I was told by a gentleman standing next me that the Fore Rivers played a clean, gentlemanly game of football. They certainly are possessed of great patience to have stood the actions of the referee, who acted as if he wanted to secure the approval of the crowd by seeing how many fouls he could call.

"From my observation there is no more impartial crowd than an American and so far as I could judge from the remarks in my vicinity the followers of the local team did not thank the referee for the apparent unfairness shown. As a stranger, I had no interest in hteiretas(aabho, no interest in either team and have written simply as a lover of fairness and in the interests of the game and if those in charge of the conduct of the league games expect the patronage the game deserves they should see to it, if possible, that the public is not treated to such an exhibition of refereeing.

"D. BUCHANAN."

All persons at the works are invited to contribute news items to be inserted in this column.

Silver Wedding Anniversary

Mr. and Mrs. Joseph Carruthers celebrated their twenty-fifth marriage anniversary Saturday evening by entertaining a large number of their friends at their home 1126 Hancock street. Guests were present from Newport News, Va.; Brooklyn, N. Y.; Tamworth, N. H.; and Quincy. Mr. and Mrs. Carruthers were assisted in receiving by their two daughters, Miss Margaret and Miss Mary A. Carruthers. The ushers were Samuel B. Crosby and Miss Annie Blacklock.

During the evening there were vocal solos by Mrs. Robert Grant and Mrs. James Bingham, piano solos by Mrs. Alpheus Kennedy and Miss Margaret Carruthers and cornet solos by Mr. Carruthers.

Tea and coffee was served by Mrs. Alice King and Miss Mary King, and punch by Mrs. Robert Sinclair. A caterer served the wedding supper.

Mr. and Mrs. Carruthers were the recipients of numerous gifts of silver including a silver set from Mr. Carruthers fellow employers in the hull drafting department at the Fore River shipyard.

The happy couple were married Jan. 4, 1883, at Cumberland Shire, England, Mrs. Carruthers being Miss Martha Forester. They came to America in 1887 and settled in Willmington Del., where Mr. Carruthers was employed as a hull draftsman for three years. They then removed to Newport News, Va., where he was employed in the same capacity in the Newport News Shipbuilding Co. for 13 years.

In May 1902 they came to Quincy, Mr. Carruthers having accepted a position with the Fore River Co. where he is at present employed.

They have two daughters, Miss Mary A. Carruthers being a teacher in the public schools of Portsmouth, N. H., and Miss Margaret Carruthers is a pupil at the New England Conservatory of Music and is an accomplished musician.

Mr. Carruthers is a member of the Odd Fellow fraternity and the Y. M. C. A. He is also the instructor in nava drafting at the Y. M. C. A.

Promotion Day.

Nearly 200 Sunday school pupils were present at the "Promotion Day" exercises, at the Washington Street Congregational church on Sunday. After the opening exercises of the departments, Supt. Sherburne gathered the school in the auditorium to witness the following program:

Song, Primary department, "Underneath the Snow."

Awarding of 31 promotion diplomas, Rev. A. R. Atwood.

Song, Primary Department, "Little Children."

Presentation of books to Carl Hammond, 100 per cent. and Doris Carter, 98 per cent. for the highest percent in the recent examinations on 1907 lessons, by Mr. John Hendry.

March, Helen Lincoln, organist.

Frank E. Burrell, Charles H. Johnson, James E. Maxim, Charles H. Penniman, Edward J. Lennon, James H. Cunningham, Albert G. Olney, John Hennigan, Francis M. Curtis.

Frank L. Bowen, Napoleon B. Furnald, Paul W. Kribs, Peter Josephine, James C. Porter, Amos L. Litchfield, Michael Reardon, James F. Allen, Michael T. Sullivan.

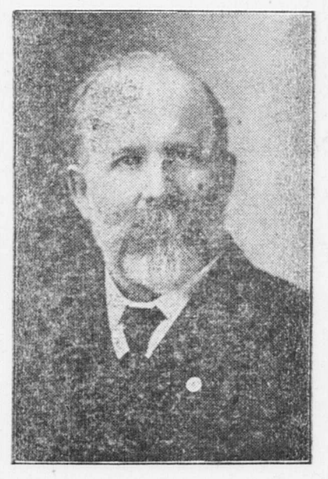

Under motions, orders, etc., the rules of the Council of 1907 were adopted as the rules of the Council of 1908.

Other orders offered were as follows:

For the clerk to have one hundred and fifty copies of the rules of the Council printed.

For the Clerk of the Council to have the calendar printed.

Authorizing the Mayor to execute deeds and leases of the Adams Temple and School Fund. Adopted.

COUNCILMAN GILSON.

Authorizing the City Treasurer to borrow $400,000 in anticipation of taxes.

For the Mayor to have his inaugural address printed.

For the Mayor to have the annual reports of city officers printed.

A communication was received from the Mayor announcing the appointment of Harrison A. Keith as City Clerk.

STANDING COMMITTEES.

President Hobbs sprung a surprise by announcing the following standing committees and then referring matters sent over from the last Council to their proper committees. The Committees:

Finance Accounts, Claims, Contracts and Salaries—Bryant, Curtis, Falconer, Gelotte, Ferguson, Beal and Walsh.

Streets, Ways, Sidewalks, Bridges, and Lights—Ferguson, Moir, Teasdale, Abele, Bishop, Carey and Bean.

Fire Department and Police—Beal, Curtis, Hogan, Cantfill and Broughton.

Sewers, Drains and Water Supply—Freeman, Gilson, Abele, Hogan, Cantfill, Cherrington and Oakes.

Public Buildings and Grounds—Gelotte, McGilvray, Bean, Bishop and Moir.

Ordinances, Licenses, Printing, Rules and Orders—Falconer, Cherrington and Walsh.

Legislative Matters, Elections and Returns—McGilvray, Freeman and Oakes.

Health, Poor, State and Military Aid—Teasdale, Whiton and Carey.

Upon motion of Councilman Bryant, rule 1 was suspended, and it was voted when the Council adjourn it be until next Monday evening.

Councilman Freeman offered an order for the appointment of a special committee of seven to consider the advisability of petitioning the General Court to amend the charter or for the adoption of a new charter. Adopted.

Adjourned at 12.54 until Jan. 13.

President Hobbs.

The new President of the City Council was born in Boston, Nov. 1, 1870, but has been a resident of that part of Quincy known as Atlantic for the past eleven years. He is in the real estate business, and a property owner in Quincy. His first service in the City Council was in 1906 when he was on the standing committees of Streets and Legislative Matters. He was returned to the Council of 1907 and that year was chairman of the Committee on Streets, one of the busiest as well as most important committees of the Council. He also served in 1907 on the Committee on Legislative Matters.

He has been a faithful attendant at committee and Council meetings, being absent but very few times and then only owing to illness. He is an aggressive and ready debator and well posted on parliamentary law and procedure.

He is a member of Wollaston Masonic lodge, the Squantum Yacht club, and has served for several years on the Ward Six Republican Committee, a part of the time as its secretary.

Former Expressman

Edward E. Hayden, a former resident of Quincy, passed away at the Boston City Hospital on Saturday, January 4, at 12 o'clock. He was for many years agent of the New York & Boston Dispatch Express Co. of this city. His age was 47 years, 8 days. The services were held at the home of his brother, Charles H. Hayden, 9 Hancock court, at 2.30 this afternoon and conducted by Rev. E. N. Hardy.

Election of Officers.

The following officers were elected by the Quincy Central Labor Union at the last meeting:—

President—Robert McVitie.
Vice President—W. D. Thomas.
Recording Secretary—James Watson.
Financial Secretary—Charles L. Wilkins.
Sergeant at Arms—James Bradey.
Guide—Thomas M. Dorley.

Resolutions of sympathy for the famly of late State President Edward Cohen and Bro. Dennis D. Driscoll were adopted and a generous donation to the Cohen-Driscoll fund was made.

Week of Prayer

Special services during week of prayer will be held in the Wollaston M. E. church, commencing Tuesday evening, January 7th, continuing for four evenings. On Wednesday evening the Presiding Elder of the District, Rev. John Galbraith, will preach and on Thursday evening the Epworth League will have charge of the service.

TODAY'S COURT.

Michael Carey was sent to the State farm for being a tramp at milton.

Webster L. Mann was arraigned for cruelty to a horse at Randolph. Case continued until Saturday.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.
Dec. 21, 1 m.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

LONGS FOR THE EAST

New Jersey Man Who Has Lived At Wollaston Writes Interestingly

It should make Quincy people feel elated to read the following interesting letter from Mr. J. P. Seely, recently of Wollaston. Evidently New York is not all that it is cracked up to be.

Editors of the Daily Ledger:

For more than a dozen years I lived in the great Commonwealth of Massachusetts, and I am a most earnest admirer of the State, its laws, institutions and people. Massachusetts is twenty years ahead of the rest of the country in almost everything that makes life worth living.

In 1899 I moved to Wollaston with my little family, and I know that the eight years spent there were beneficial to all of us. Though I have now returned to my native State, the heart-strings pull and tug towards the East and we all long for Quincy. There was nothing in all of my residence there that was in the least unpleasant. My last day there, after my family had gone, was slightly marred by the actions of a junk dealer who did some work for me, but that was only incidental.

My friends in Quincy, and especially in Wollaston, may be interested to known something of the condition here near New York, and at Montclair where we reside. Circumstances may bring some of them to this part of the country and they can form an idea of what they will find in this vicinity.

New Yorkers always blow a lot about the everlasting hustle and grind of the great metropolis. I will tell why they have to hustle and run. With the present transportation facilities, travel is so slow that the suburbanites have to figure on spending about three hours a day on the trains and ferries, even though they live but a short distance from New York.

"Down Boston way" a person can visit two or three of the suburbs quite easily in the course of an evening if necessary. Not so here. Men think nothing at all of getting home an hour late, and they have to hurry with their work and get an early start so that they can be sure of getting home the same night.

One evening recently a friend of mine reached Hoboken on the ferry boat just in time for his train. He sat in the car for 15 minutes and as the train did not start he decided to make use of his time, so he went back to the depot barber shop and had his hair cut. He spent 45 minutes in the shop and came out and just caught the same train for home.

A threadbare joke here is the story of the man who asked his friend where he had spent the evening. The answer was, "On the 5.30 train on the D., L. & W." (or the Erie, as the case may be.) These two roads are counted the worst offenders, the Pennsylvania and the Central of New Jersey having a good record for promptness in the running of their trains.

Montclair is one of the most beautiful towns I have ever seen. It is as though a fine residential town like Milton had been built at the foot and up one side of the Great Blue Hill. Rents are very high. A house in a desirable location that would bring $35 a month in Wollaston would quite easily rent for $50 or $55 in Montclair.

The schools are excellent and the people lose no time in telling you so. In the primary schools about twice as much work is required of the children as is necessary or desirable and they do not appear to accomplish as much as the Massachusetts schools do.

The High School is ably directed by a native of Winchester, Mass., Mr. Herbert W. Dutch, and it is a model educational institution. Not yet having entered high school, I do not know much about the studies. Notwithstanding the great amount of work required in the primary schools, the high school age is somewhat above that in Quincy. It is said that there are more freshmen around the age of 17 than 15, and there are seniors who have traveled so far along life's pathway that strangers get them mixed up with the teachers.

Montclair is fortunate in having many fine churches and also in the fact that a majority of the people of the town are of a high order of intelligence and culture. Of course there are some conditions that would not be acceptable in a town such as Quincy. We have a number of saloons. There are in the neighborhood of 2,000 Italians and 2,500 colored people in Montclair, many of these prosperous citizens.

Among the wealthy families, who support a number of private schools and a military academy, one finds in real life perhaps the originals of many of the satirical sociological sketches that appear in Life magazine, for be it known that the editor of that brilliant paper is one of our esteemed fellow citizens.

The people hereabouts in general are generous-hearted and good-natured. Newark is 5 miles down the line from Montclair, and it is here that the shopping is done. Newark is a large manufacturing city and as is the case in most places of the kind, we find a large number of boys of the "round-hat-Harrigan" type, and many "b'je" girls are in evidence. But it is a pretty good city for a place with about 1,400 saloons.

Many young persons, and old ones, too, seem not to have learned the fine points of good deportment and politeness, and young women and men can frequently be seen chewing a toothpick along the street or in public conveyances. They further break the contour of decorum by loudly talking "shop" and in other ways give evidence that they have at least missed the sort of training that children receive in and around Boston.

At all seasons of the year it is cussomary for a young couple while riding in a trolley car or steam railroad car to "hold hands," and not in frequently the young man will have his arm completely around the girl's waist. This is so much the custom that one is not surprised to see it except he be a stranger.

One thing more. The men about here as a rule never offer a seat in a trolley car to a woman unless it is an acquaintence or looks like a chance for a flirtation. Tired women and old men stand up for a five mile ride while there are 10 or 15 young men and boys, both colored and white, occupying seats. Of course there are plenty of exceptions to this custom, for there are gentlemen here in large numbers, who are always courteous.

We shall become accustomed to these new and always interesting conditions, but can never forget Quincy and our many friends there.

J. P. Seely.

Events at the Y. M. C. A. "Gym"

The past week has been filled full at the Y. M. C. A. "Something doing every minute." Bowling was especially active, in fact the best week this season. Best scores for the week were:

Monday—F. Baker, 103.
Tuesday—G. Erickson, 93.
Wednesday—M. Nicoll, 103.
Thursday—H. Trask, 108.
Friday—Trask, King and Budreau tie at 99.
Saturday—F. Baker, 96.

A bowling league of six teams is formed, each team to bowl each week for the next five weeks. Valuable prizes will be given to the best team; also for best score and best average.

The business men's class have the alleys reserved for Wednesday evening.

Our Juniors, advanced Juniors, Intermediates, and first team all played out of town basket ball games during the week. Four games at the Cunningham Gymnasium in East Milton. On Friday P. M. the Intermediates team played in Newton.

On Thursday evening this week the first team plays at Cambridge Y. M. C. A., and Saturday evening the first and second teams from Reading play in Quincy. The Reading teams are very fast, defeating both our teams in November.

The Junior boys have organized the "Candy League." Three teams under Capt. Brown, Capt. Farquharson and Capt. Jennings will play a series of nine games for the Junior championship and prizes.

A series of talks are being planned for the Gymnasium men, to be given on Thursday evenings before class. Subject Jan. 9, will be "Exercise."

Whist at Wollaston.

Eight pairs competed at the regular weekly tournament of the Wollaston Whist club Saturday evening.

An invitation meeting will be held next Saturday night all gentlemen who enjoy a good game of whist are extended an invitation to be present.

The following was the score:

V. S. Brokaw and A. C. Littlefield	plus 10
C. E. Barker and A. B. Hillman	plus 11-2
J. J. Henry and J. Thomas	plus 1
J. H. Broughton and E. E. Hoxie	minus 1
T. H. Foster and J. Hamilton	minus 11-2
H. C. Seymour and G. H. Stevens	minus 2
H. A. Stevens and R. T. Anthony	minus 3
A. E. McKay and H. C. Stevens	minus 5

Saville Street.

In view of the statement made at the public meeting that the Saville street crossing was but little used, the following figures will be of interest. On Friday, Jan. 3, between the hours of 7.15 A. M. and 6.15 P. M., 1183 foot passengers and 131 teams crossed the tracks at Saville street. On Saturday, Jan. 4, between the same hours 1327 foot passengers and 108 teams.

POST OFFICE

Consolidation Of Quincy With Boston Is Suggested

A dispatch in an evening paper from Washington states that an inspector has been sent on to make an investigation looking to the consolidation of the Quincy post office with the Boston office. The object of the plan was stated to be the reduction of expenses and the general improvement of the service.

It is said to be the policy of the government to consolidate offices when the same is practicable.

Quincy people will not relish the thought of having its office consolidated with Boston. It is hard to see how the present service could be much improved. In the business section there are frequent collections and deliveries and there is hardly a train from early morning until 8 o'clock at night that does not bring a mail sack.

With the new Post Office building, work upon which has already been commenced, Quincy will be even better served than now.

Mayor's Mother At Inauguration

A little incident not down on the inauguration program took place in the corridor of City Hall after the ceremonies.

As Mayor Shea came down stairs from the hall and started toward his office he was surrounded by a throng of people who pushed forward to press his hand. In this throng there was a little elderly lady who had been an interested spectator of the ceremonies. She was trying hard to reach the side of the new Mayor. As soon as Mayor Shea saw her he hurried forward. As he met her he placed his arms affectionally about her neck and kissed her. It was his mother, who, although 76 years of age, came to see her son inaugurated.

Leading her to his private office he introduced her to Mayor Thompson. After looking at him intently for a moment she said "I wonder if you are the James Thompson who as a little boy used to come to my house, when your father conducted a stone business, many years ago?"

"Yes, Mrs. Shea" replied Mayor Thompson. "I am the same James Thompson, who as a little boy, about as big then as your big boy here, used to play around your house. You see I am getting old now, and the time you speak of seems very long ago."

"Well, James Thompson, I hope God will bless you in the future for you were a good boy."

After being presented to many of the Mayor's friends, Mrs. Shea was sent home in a carriage. As she took her departure she turned to her son and said, "God bless you, my boy."

By this time the floral pieces had been brought down stairs, and they almost filled the office of the City Messenger. After giving directions to have part of them sent home, the Mayor had the balance taken to the City Hospital.

The flowers included great baskets and bunches of roses and pinks, and were sent by Mr. and Mrs. Shields, William F. Powers, the Knights of Columbus, the French Naturalization society and others.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

Installation of Eastern Star

The newly elected officers of Quincy lodge, Order Eastern Star, were publicly installed Monday evening at Electa hall in the presence of an audience that filled the hall to overflowing.

The officers were installed by Past Grand Matron, Katharine A. Hall assisted by Winslow B. Southworth as grand patron, Mary E. Eugley as grand marshal, and Clara L. Atwood as grand chaplain. The music during the ceremony was by Mrs. Emma Shufelt Moore.

Following the installation past officers' jewels were presented to Carolyn B. Mellen and Dexter Remick.

A pleasing program followed which included remarks by Mrs. Hall and Mr. Southworth of the installing suite, and solos by Mrs. Moore and Arthur Gould. Selections were also given by the Lord family, and refreshments were served.

The officers installed were:

W. Matron—Mrs. Cora A. Remick.
W. Patron—Mr. Dexter Remick.
A. Matron—Mrs. Clara R. Catarius.
Secretary—Mrs. Abby M. Kribs.
Treasurer—Mrs. Laura Holt.
Conductress—Mrs. Alice M. Ralph.
Asso. Conductress—Mrs. Eva B. Bain.
Chaplain—Mrs. Mary P. Tilly.
Marshal—Mrs. Adelaide McGrath.
Ada—Mrs. Alice Peterson.
Ruth—Miss Myra E. Foster.
Esther—Mrs. Mary M. Barnicoat.
Martha—Mrs. Sarah T. Roache.
Electa—Mrs. Edith E. R. Higgins.
Warden—Mrs. Ella W. Harris.
Sentinel—Mr. George H. Field.
Pianist—Miss Clara M. Blanchard.

Opening of The Scenic

The Scenic theatre, known as the home of vaudeville, in the old Coliseum opened its doors to the public Monday night. The people began to gather early, and half an hour before the time for the performance to begin there was a crowd clammering for admission. The crowd extended from the door down Irving place nearly to Saville street. Every seat was taken and standing room was at a premium.

The show was a good one, and as one man remarked, it was the fifty-cent article for ten cents. The program opened with two moving pictures that were remarkably clear and distinct. Other numbers on the program included Robert Lee Onri, the comedy juggler; Miss May Rosella, the dainty and beautiful monologue comedienne; Hamilton and Sullivan, the well known promoters of mirth and merriment, and Ada Corbett, in beautifully illustrated songs.

Between the numbers other moving pictures were thrown on the screen, lengthening the entertainment beyond the two hours. Everything was first class. Perfect order is maintained, and there is no objectionable feature of any kind or nature.

It is the plan of the management to have a change of program every Monday and Thursday evenings. If the entertainment of Monday night is a sample of what is intended the Scenic must be a success.

Golden Star.

Officers of Quincy commandery, Order of Golden Star, were installed at Faxon hall, Monday evening, by Deputy Grand Commander Gilbert F. Payne and staff of Holbrook as follows:

Commander—William Patterson.
Vice Commander—Effie L. Eastwood.
Treasurer and Collector—James F. Merrill.
Recorder—Henry Chubbuck.
Chaplain—N. A. Savage.
Herald—Mrs. Davidson.
Warden Outer Gate—George Shepherd.
Warden Inside Gate—Charles Rich.
Assistant Herald—Chester McQuinn.

Refreshments were served at close of the meeting.

England has 144 churches for every 100,000 people. In Russia there are only 55 churches for a similar number.

Just Jotted Down By Ledger Men

Bethany Circle will meet at Bethany chapel tomorrow afternoon at 2 o'clock.

There was another large party at Elmer W. Baker's Saturday night dance in Quincy Music hall.

The basket ball schedule at the new gymnasium at the High school will open this evening with Braintree High as opponents.

The fire on Revere road on Sunday was not in the apartment of P. J. Starr, but in the part of the house occupied by Mrs Buttman.

Master Joseph Halbert of 61 Upland road returned Sunday from Foxboro, where he had been visiting during the midwinter school vacation, at the home of his aunt, Mrs. F. Munroe Perry.

There was an unusually heavy demand for the Daily Ledger last night. The supply of several of the agents was exhausted before 6 o'clock, and it was necessary to print a large second edition. It was a ten-cent paper for two cents.

The Newton Graphic says: "Amos D. Albee, the well-known expert accountant is making his annual examination of the books of City Treasurer Newhall. Mr. Albee's home city, Quincy, has adopted the Newton system of book-keeping established here ten years ago by Mr. Albee."

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

FOY'S TEMPTING FOOD SPECIALS!

Foy's "specials" are tempting, because on special days special items are offered at especially low prices.

This week finds us in a position to offer even better bargains than usual. Take advantage of them before they're gone.

Lenox Soap, 4c. bar, 45c. doz
5 lb. pkg. Mother's Oats, 25c
Bensdorf's Cocoa, 1-2 lb. can, 30c
Kennedy's Royal Toast, 9c. lb

Your attention is called to the especially fine flavor of Quality Coffee, 30c. lb., and Golden Dome Teas, 40c. lb., as well as the perfection of our own Ivory White Flour, 95c. bag.

These are the best of their kind at unusually low prices.

THE MORAL ELEMENT

Must Be Decided Before Any Question Is Settled

AN ISSUE INVOLVING JUSTICE

Bryan Says Roosevelt's Popularity Is Due to Belief That He Means Well--Voters Desire That Corruption Shall Be Overthrown

Omaha, Jan. 7.—Four hundred guests were present at the annual gathering of the Jacksonian Club of Nebraska at its celebration last night of the occasion when "Old Hickory" and his host routed the British from New Orleans. William J. Bryan was the guest of honor and other Democratic leaders of more or less prominence in national and state politics had places at the speakers' table.

"The moral element in pending issues," was the subject of Bryan's address, which, in part, was as follows:

"No question is ever settled until the moral element in the question is discussed and decided; nothing but a moral issue—that is, an issue involving justice—stirs the heart. Andrew Jackson addressed himself to the moral nature and aroused a moral enthusiasm that outlived his period. The time is ripe for another appeal to conscience, and indications point to a greater study of public questions from an ethical standpoint. The corrupting influences which have flowed from mercenary politics have at last excited attention and there is a searching of men and of measures such as has not been known in recent times.

"The president's popularity is largely, if not entirely, due to the belief among the masses that he wants to do what is right and is trying to secure justice to those who have been unjustly dealt with. He has made many mistakes and great errors, but those mistakes have to a large extent been overlooked by those who believe that his heart is right and that he means well. This is only an indication of the public attitude. Another indication is to be found in the influence of the voters.

"Not since the war have party lines hung so loosely, and this is the natural result when the voters become earnest in their desire that wrong shall be overthrown and right vindicated.

"People differ as to the relative importance of the different issues, some placing trusts first, some regarding the tariff question as paramount and others believing the railroad question most important. But the fact is they all point to the same issue and that those who take the people's side on one of these questions are likely to take the people's side on either of the other two.

"The issue presented in each and all of these questions is whether the government shall be administered in the interests of a few favorites or in the interest of the whole people—whether all the people shall be taxed that a few may be enriched."

A feature of almost every speech of the evening was praise of President Roosevelt, who, it was asserted, had been carrying out many of the principles of the Democratic platform in 1896, despite the opposition of his own party.

The address of ex-Governor Thomas of Colorado was full of witticism. In discussing the demand for an elastic currency, he declared in favor of an issue by the government of $400,000,000 in greenbacks, to be loaned to the banks at 5 percent interest in times of financial stringency. This, coupled with Bryan's plan of government guarantee for bank deposits, he said, would prevent financial panics in the future.

From Taft to Foraker

Sandusky, O., Jan. 7.—Resolutions adopted by the Erie county Republican committee last March, declaring for Mr. Taft as Ohio's candidate for the Republican nomination for president, were rescinded last night after a stormy meeting. The committee deposed Carl R. Clark, local Taft leader, as chairman. It was stated that the previous Taft resolutions did not represent the sentiments of the people, now that Senator Foraker is in the presidential race.

To Test Prohibition Law

Augusta, Ga., Jan. 7.—Counsel has been employed to make a test case of the constitutionality of the state prohibition law. Thomas Norris was arrested last night, charged with selling bottled liquor. It is stated that Norris will plead guilty and the case will be appealed to the supreme court of the state on the ground that he was exercising a constitutional right.

Was a Confessed G after

San Francisco, Jan. 7.—Thomas F. Lonergan, one of the supervisors under the Schmitz administration who confessed to taking bribes relative to the trolley franchise and the gas and telephone franchises, died suddenly at his home in this city from heart disease. Until Lonergan was elected supervisor on the Union Labor ticket he drove a pie wagon for a local bakery.

Railroad Men Laid Off

Albany, Jan. 7.—The New York Central Railroad company has laid off 700 men in the West Albany shops. It is said to be part of a general plan to reduce the payroll 12½ percent. It is expected to affect the Boston and Albany division also.

MANY NARROW ESCAPES

Fire Drives Apartment House Tenants Out In Nightclothes

Lynn, Mass., Jan. 7.—Occupants of two three-story Italian apartment houses on Broad street were driven out by fire and smoke early today, many of them having narrow escapes from suffocation. It was only through the coolness of policemen and firemen who entered the apartments and guided the occupants out through the smoke-filled hallways that loss of life was averted.

When the fire was discovered a lot of inflammable material in the rear of a store on the ground floor of 321 Broad street was burning. The smoke filled the whole building quickly, so that when Patrolman King arrived he found the occupants in a panic. All of them had been aroused from sleep, but many, confused by fright, seemed powerless to leave the building. The patrolman carried out a dozen women and children and firemen assisted others to safety. Some of the occupants slid by lifelines from the windows of their rooms to the ground.

Similar scenes were witnessed in the adjoining apartment house which had become filled with smoke from the fire. Very few of the people stopped to put on clothing, so that for a time the street in front of the building was filled with thinly clad people, many of them screaming in their excitement. The property loss was small. It is believed the fire was of incendiary origin.

Hartje Will Continue to Fight

Pittsburg, Jan. 7.—Attorneys for Mrs. Mary S. Hartje regard yesterday's decision of the state supreme court refusing the petition of her husband, the millionaire paper manufacturer, to pass upon the finding of the superior court, which sustains the lower courts in refusing him a divorce, as practically ending the case. Hartje's attorneys are seeking new grounds to reach the state supreme court and also to reach the United States supreme court.

Mine Superintendent Murdered

Ironwood, Mich., Jan. 7.—William Thomas, superintendent of the Aurora mine of the United States Steel Corporation here, was shot and killed by John Bendette, an Italian miner, one of a number who were laid off at the mine last week. Bendette asked Thomas for re-employment and, being refused, fired three shots at Thomas. Bendette was caught after a long chase and was roughly handled before the officers arrived.

Striking Tenants Stand Firm

New York, Jan. 7.—More than 500 warrants for the eviction of tenants participating in the strike for lower rents were issued yesterday by Justice Sanders in the municipal court. The papers authorize the immediate eviction of the tenants against whom they were drawn. The tenants are maintaining a stout fight and announce that the landlords of fifty-one houses have already agreed to reduce rents.

A Test of E kins Law

Washington, Jan. 7.—On behalf of the Standard Oil company, Attorney McKenny of this city filed a petition in the supreme court of the United States for leave to intervene in the case of the Great Northern railroad, involving the question whether the first section of the Elkins law imposing fines for granting or accepting rebates was repealed by the Hepburn railroad rate law of the last congress.

Seven Men Drowned

Leavenworth, Kan., Jan. 7.—As the result of the overturning of a skiff containing nine men near Kikapoo, seven men were drowned in the Missouri river. The men were employed by the Kansas Natural Gas company in constructing a pipe line under the river and the accident happened when they were rowing to the Kansas side, preparatory to returning to their homes.

Annexation of Sixteen Suburbs

Birmingham, Ala., Jan. 7.—By a majority of 2602, the voters of the territory interested declared for a greater Birmingham. The law under which yesterday's election was held will become operative Oct. 1, 1909. The territory embraced in greater Birmingham comprises 41½ square miles and the estimated population is 125,000. Sixteen suburbs are annexed.

Heinze Wants to Escape Fine

Helena, Mont., Jan. 7.—Counsel for F. A. Heinze asked for a stay of sixty days in the collection of the $20,000 fine imposed upon Heinze by the federal court here for contempt, so that Heinze may appeal to President Roosevelt to remit the fine. He will also ask for a remission of fines of $1000 each imposed on two of his superintendents.

Testimony In Monongah Inquest

Fairmont, W. Va., Jan. 7.—The coroner's inquest into the Monongah mine horror, in which over 350 lives were lost, has opened. Peter Urban testified that three days before the disaster there was an explosion of gas in the mine which killed a horse, the carcass of which was removed at night and burned.

Year's Sentence For Selling Liquor

Atlanta, Jan. 7.—The first violator of the new prohibition law here was given a sentence of one year's imprisonment after a trial in the city court. Jesse Ponder, who was discovered selling whisky by the police, was the first offender.

LEGAL INSANITY PLEA

The Sole Defense of Harry Thaw In His Second Trial

THE SELECTION OF JURORS

Nine Already Chosen, but Seven May Go Out on Challenges--Public Interest on ths Wane--Evelyn Thaw Proves the Centre of Interest

New York, Jan. 7.—At the close of three court sessions, which marked the first day of the second trial of Harry K. Thaw for the alleged murder of Stanford White, nine tentative jurors had been selected out of fifty-seven talesmen examined by District Attorney Jerome for the prosecution and Martin W. Littleton for the defense.

All of the men in the jury box are subject to peremptory challenges, of which each side has thirty. In view of the difficulty experienced last year in discharging five jurors after they had taken the oath, it was agreed this time not to administer any oaths until each side is satisfied with the full panel.

Legal insanity at the time of the tragedy is to be the sole defense. This was made clear at the very outset of the proceedings, when Littleton formally served notice that the former plea of not guilty had been amended by the specification that the defendant was insane when the alleged homicide was committed.

The occupants of the jury box at the conclusion of last night's session were: Charles E. Gremmels, ship broker; John R. Hatchett, cigar dealer; George B. Morewood, importer; Floyd S. Sanford, bank manager; James E. Conway, hotel keeper; William E. Brewer, decorator; Arthur B. Naething, baker; Maurice Bouvier, exporter; George W. Carey, dry goods dealer.

Of the above men it was generally predicted that Gremmels would be challenged by the district attorney. He declared he had scruples against capital punishment, but could lay them aside if sworn as a juror. Morewood entertains certain opinions with regard to expert medical testmony and probably will go out on challenge from the defense. Sanford may also be excused, for he admitted having an opinion regarding the truth of certain important testimony at the first trial. Conway, who said he read he evidence presented a year ago without gaining any particular opinion from it, may be challenged by Jerome. Hatchett and Naething appear like fixtures. Bouvier, who has slight prejudices against defenses of insanity, will probably not be retained.

Three court sessions, including an evening sitting from 8 to 10 o'clock, are to be held daily until the jury is completed. How long this will take neither Jerome nor Littleton would hazard a guess. Jerome said also that it was impossible for him to reckon on the duration of the trial, because much would depend upon the course of events.

The trial opened with little or no ceremony and there was distinct evidence of a slackening in public interest. Admittance to the courtroom was rigorously restricted and all day long there were vacant benches in the part of the room given over to the spectators. The only women whose presence are allowed are the members of the defendant's family and newspaper writers. Artists who were barred after the first few days of the first trial were allowed to sketch to their heart's content.

Mrs. Evelyn Thaw was again the centre of interest, even to the exclusion of the defendant himself. She was followed by throngs of curious persons as she entered and left the courthouse for the morning and afternoon sessions. She did not attend the night sitting.

The long hours and the tediousness of the examination of the talesmen proved intensely fatiguing. Every possible convenience is to be provided for the jurors, who are to be locked up throughout the trial. They are to be quartered in one of the fashionable hotels on upper Broadway and luncheon is to be served at an expensive downtown restaurant.

The jury examinations did not develop such a strong vein of unalterable opinion as was anticipated, and many of the talesmen were excused on other grounds than bias based upon the reading of extensive reports of the previous trial.

Caldwell Close to Death

New York, Jan. 7.—Robert C. Caldwell, the witness in the Druce case, under indictment in England for perjury and arrested in New York on his arrival recently, was not able to appear when his case was called today. The condition of Caldwell has become so grave that he is expected live, but a few days.

Rumors Unsettle Nationalists

Dublin, Jan. 7.—There is an uneasy feeling in Nationalist circles over the rumors of the early retirement of Sir Henry Campbell-Bannerman from the premiership in favor of Herbert H. Asquith. The latter is considered unsympathetic in the cause of home rule.

Would Check Women Smokers

New York, Jan. 7.—An ordinance forbidding women to smoke in cafes, restaurants or other places of public entertainment was introduced at the first meeting of the new board of aldermen. It was referred to a committee and will have a public hearing.

HOW HE HAS MADE A SUCCESS

L. T. Cooper Tells Chicago Reporter Why He Accomplishes So Much.

No man in recent years has been more successful in restoring human health than L. T. Cooper. During his stay in Chicago, and while he was meeting thousands of people daily, he gave the following reason for the remarkable demand for his medicine to a reporter:

Mr. Cooper said: "My New Discovery is successful because it corrects the stomach. My theory is that few can be sick if the digestive apparatus is working properly. It naturally follows that few can be well with a poor digestion.

"I know from experience that most of the tired, half-sick people that are so common now-a-days have half-sick stomachs. Put the stomach in shape, and nature does the rest. The result is general good health. My medicine does this. That is why fifty thousand people here in Chicago are using it who never heard of me until a month ago."

Among the fifty thousand mentioned by Mr. Cooper who used his medicine in Chicago is Mrs. Hilda Pflueger, living at 1203 Ainslie Avenue. This is the statement she makes concerning her experience with the medicine:

"I have been sick for six years with stomach trouble. I was always hungry, but did not dare to eat much, as I had severe pains in my stomach, and also through my body. I could not sleep at night and was very restless. I was also very nervous, and would have severe headaches. I was constipated, and always felt bloated after eating.

"I had tried many remedies, but could secure no relief, until one day I noticed in the newspapers what wonderful results Cooper's medicines were accomplishing in Chicago. I decided to try them, and shortly after commencing the treatment I began to feel better. I did not have those severe pains in my stomach, and I could sleep at night; my appetite improved, and I can now eat well. I am feeling like a new woman.

"I am very thankful to Mr. Cooper for what his remedies have done for me. They have restored me to good health, and I would advise any one who suffers as I did to try them."

We sell the Cooper medicines. They are easily the most celebrated preparations ever introduced in this country, growing in popularity daily.
—E. J. Murphy.

HOW TO TELL IF YOU HAVE WORMS

THE REMEDY THAT QUICKLY EXPELS THEM

The common symptoms of worms in children and adults are:—Paleness of the face with occasional flushing; indigestion accompanied by unnatural appetite at times; foul breath and offensive breath; itching nose; grinding of the teeth during sleep; swelling of the upper lip; hard swelled bowels; pain or colic pains; also convulsions and many other unaccountable nervous symptoms which, if not checked in time, lead on to something more serious.

TOOK DR. TRUE'S ELIXIR AND GOT WELL

SOMERVILLE, ME.

DR. TRUE, DEAR SIR:—

For more than three months one of my children had been troubled with spells of vomiting and symptoms of fever nearly every week, together with canker-sores about the nose and mouth. I obtained about two weeks ago, two bottles of your Elixir, and before the first bottle was exhausted the sores were entirely healed, and no appearance of his vomiting or fever-spells has ever returned. I really believe that the lives of thousands of children suffering from worms or canker might be saved by a timely and judicious use of your Elixir." Yours truly,

J. L. HAMMETT.

This is only one of hundreds of such testimonials. This marvelous remedy has been made and sold by Dr. J. F. True & Co. for fifty-six years, and in all that time nothing but words of praise have been bestowed upon it. This is what Mr. Wing thinks of it.

AUBURN, ME.

DR. TRUE, DEAR SIR:—

"For the past seven years I have constantly kept a supply of your Elixir in my house, and it never failed to give prompt relief. It has been a great blessing to my children, and unsolicited I give you this tribute of gratitude, hoping the merits of your unrivaled family medicine may be widely known and appreciated."

Very respectfully yours,

CHAS. E. WING.

Even though worms may not be found present Dr. True's Elixir tones up the stomach and liver. Read what Dr. J. Haley, of Brunswick, thinks of it:

"It is a safe and effectual remedy. For worms it has no equal, and is an excellent remedy for canker of the mouth and throat."

Dr. True's Elixir is sold by druggists everywhere at 35c., 50c., and $1.00 per bottle. The booklet, "Children and Their Diseases," will be sent free by simply addressing Dr. J. F. True & Co., Auburn, Me. We have a special treatment for Tape-worm. Send for free book.

INAUGURAL KEYNOTE

Economy, No One Party, Says New Mayor of Boston

A MERGING OF DEPARTMENTS

New City Charter Demanded, Relief to Come From Legislature Meanwhile--Would Change Date of City Election--Other Recommendations

Boston, Jan. 7.—With renewed pleading for consistent practice of economy in the administering of the city's finances, and with renewed promise of conducting an absolutely non-partisan—not bi-partisan—administration, Mayor-elect Hibbard opened and closed his inaugural address. Business-like economy is to be the watchword for the next two years.

Mayor Hibbard states that he expects great assistance from the finance commission in the consideration of the great problems of the hour. He gives no hint, however, that he will be slavishly guided by that body. He urges a change in the date of the city election to April or May, to avoid confusion of state and municipal issues in campaigns.

The mayor cites the heaviest loans and fixed charges which the city must meet, and asks that new methods in financial management, which shall appeal to the whole people and become permanent, be established. The present departmental system, he says, is antiquated, wasteful and extravagant, and several departments are named for needful reorganization.

The street department, he says, should be unified, the lamp department placed under the superintendent of streets, the wire department under the superintendent of public buildings, the department of sealers of weights and measures under the police, the health board reduced to a single head, and treasury, auditing and collecting departments under a comptroller.

A new city charter is demanded, but should not be expected this year, or even the next. The mayor will seek, therefore, from the legislature such immediate temporary relief as will bridge over the period between the present time and the operation of a new and effective city charter. He would then make all department financial reports uniform and truly enlightening to the public.

The mayor says he will give due consideration to all legitimate demands properly presented by labor bodies. He refers to the municipal printing plant as a luxury and urges reorganization on a business basis. Economy in school construction without injury to school efficiency should be instituted. A special commission to formulate standard forms of contracts for all supplies and for execution of works should be established.

The mayor declares that he will oppose the establishment by the national government of an immigration station at Castle island, and he believes the city council should insist on quick completion of work on the Boylston street bridge.

The erection of a modern office building on the site of the old courthouse for the housing of departments now paying high rentals elsewhere, expenditure of less money on localized celebrations, and loyal attention to business by department heads form the closing recommendations, which are followed by statistics showing the city's present obligations and resources.

An Encouraging Prospect

Cleveland, Jan. 7.—It is estimated that fully 10,000 employes returned to work in Cleveland yesterday as the result of a general resumption of commercial activity. Added to this number, probably 30,000 to 40,000 more men were put to work in the northern part of Ohio. It is generally believed that practically every factory in this district will be running full by Feb. 1.

Two Jackies Reported Killed

San Diego, Cal., Jan. 7.—In an accident on the battleship Nebraska, now at this port, several men were injured. Only meagre information is as yet obtainable. The accident appears to have been caused by loss of control over a crane which swept through a group of sailors. One report is that two were killed and their bodies swept overboard.

May Admit Embezzlement

San Francisco, Jan. 7.—The Bulletin says that J. D. Brown, former vice president and general manager of the wrecked California Safe Deposit and Trust company, and W. J. Bartnett, formerly a director of the same institution, who are under indictment for embezzlement, will plead guilty and throw themselves on the mercy of the court.

Mosquito Rising Ended

Granada, Nicaragua, Jan. 7.—The rising of the Mosquito Indians against the government of President Zelaya, who was accused by them of being responsible for the death of their chief, has been ended. It was of little importance.

Kentuckians' Choice For Senator

Frankfort, Ky., Jan. 7.—The Republican members of the legislature, in joint caucus, last night nominated ex-Governor Bradley for United States senator.

DIXON'S CAREER ENDED

Hero of Many Ring Fights Knocked Out by John Barleycorn

New York, Jan. 7.—George Dixon, the negro pugilist, the winner of several hundred fistic encounters, died in the alcoholic ward of Bellevue hospital, a victim of a long fight with drink. Idolized in his prime by thousands as a ring hero, Dixon passed away practically penniless and friendless. He was 37 years old, and for many years held the title of featherweight champion. He was familiarly known to prize fight followers as "Little Chocolate."

Dixon's first fight was in 1886 in Halifax. From that time until Terry McGovern knocked him out in 1900 and broke his spirits, no man of his weight ever beat him. He won the featherweight title in 1891 by defeating the champion, Cal McCarthy. Dixon's attack and defense were superlative, and his peculiar ability to strike a blow from any position made him a formidable opponent. He won thousands of dollars in the prize ring which he spent with convivial companions.

A wasted, worn figure was brought to Bellevue hospital last Saturday and ticketed in the alcoholic ward as George Dixon. To the doctor he said that he had "fought his last fight with John Barleycorn and had been beaten." He told the physicians that he had no friends except John L. Sullivan. His condition grew rapidly worse and late yesterday he died.

Circuit Court Decision Overruled

Washington, Jan. 7.—The case of ex-Congressman Williamson of Oregon, charged with unlawfully cutting timber on the public lands in Oregon, in conspiracy with 100 others, was decided by the supreme court of the United States in favor of Williamson. The United States circuit court for Oregon imposed a fine of $500 and sentenced Williamson to prison for ten months, but the supreme court reversed that decision on the ground of irregularity in admitting affidavits.

Charges Against Bank Officers

Portland, Or., Jan. 7.—Indictments were returned by the grand jury against President Ross, Vice President Hill, Secretary Atchison and T. T. Burkhart of the Title Guarantee and Trust company, which closed its doors several weeks ago. The indictments charge the defendants with receiving deposits after the bank was insolvent, converting to their own use state funds, loaning public school money, and larceny by neglect to pay over school funds on demand.

Poor Demand For Costly Gems

New York, Jan. 7.—The affairs of four large diamond and jewelry firms, Joseph Frankels Sons, Joseph Frankels Sons Co., E. M. Gattle & Co., and Gattle, Ettinger & Hammel, have been placed in the hands of liquidating trustees. The gross liabilities of the four firms are said to be about $4,500,000, and the gross assets $6,250,000. The readjustment of the affairs of the firms was brought about by the unprecedented falling off in the sales of high-priced gems.

Employers' Liability Law Void

Washington, Jan. 7.—That the congressional act known as the "employers' liability law" is not in accordance with the Constitution of the United States because it transcends the regulation of interstate commerce, is the conclusion reached by the supreme court of the United States in deciding two damage cases. The court stood five to four against the law. Even among the five who voted not to sustain the statute, there were different shades of opinion.

Monster Lockout Threatened

Manchester, Jan. 7.—Unless the spinners modify their demands the cotton mills throughout the country will be closed and 150,000 employes will be locked out. Already firms owning 96 percent of the spindles have announced their willingness to close their mills. The firms will not be allowed to continue to work under a penalty payment system, as permitted on previous occasions, so that the lockout will be complete.

Missing Vessel Towed to Port

New York, Jan. 7.—After a tempestuous voyage from Halifax, during which all her canvas, except her foresail, was blown away and she was driven 250 miles off her course and across the Gulf stream by heavy seas, the Boston fishing schooner Fame was towed into port by the revenue cutter Mohawk.

NEWS IN BRIEF

A new baseball organization, to be known as the Pennsylvania and New Jersey league, has been formed at Philadelphia.

Edward L. Pickard, formerly mayor of Newton, Mass., died of pneumonia in Pasadena, Cal. Pickard recently went to California for the benefit of his health. He was born at Lewiston, Me., in 1834.

Prentice V. Hooper, a retired sea captain, who had been port warden of Providence for some years, is dead. He was born at Brooklyn, Me., in 1834.

King Victor Emanuel has appointed Nelson Gay of Boston, who is now living in Rome, a knight of the crown of Italy, conferring this honor upon him because of Gay's historic writings on the resurrection of Italy.

Robert B. Adams of Boston, a sailor, fell dead of heart disease just after he had stepped on board his vessel, the schooner Etta B., at Kittery, Me. Heart failure, due to acute indigestion, caused his death.

Senator Allison of Iowa is ill with grip at Washington.

BAD BLOOD

"Before I began using Cascarets, I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

Clarence R. Griffin, Sheridan, Ind.

J. T. CONWAY, Supt.

PROMINENT MEN INDICTED

Result of the Recent "Graft" Investigation at Boston

Boston, Jan. 7.—After two weeks spent in investigating purchases by the city of a lot of land on Codman street, prizes for athletic events and payments for flagstone, the grand jury reported indictments against two members of last year's city government, the superintendent of streets, and several business men. The indicted parties were as follows:

Alderman Berwin, Alderman Battis, Superintendent of Streets Doyle, Marks Berwin, O. E. Kain, Michael Mitchell, T. F. Maher, H. C. French and Oliver Gregg.

Although the indictments were secret, the names of the men who were involved were announced by the district attorney, and later in the day all but Marks Berwin appeared at police headquarters and gave bonds for their appearance in the superior court. The nature of the charges against the men was not made public.

The alderman's terms of Berwin and Battis expired yesterday, while Doyle handed his resignation as superintendent of streets to Mayor Hibbard an hour after the latter had been sworn in yesterday.

The three matters leading up to the indictments developed at recent hearings before the finance commission.

Mahan's Mind Not Developed

Bennington, Vt., Jan. 7.—Witnesses called by the defense yesterday in the trial of Alfred Mahan, charged with the murder of his 4-year-old niece, gave testimony designed to show the mental weakness of the respondent. A schoolteacher testified that Mahan was never able to get beyond the first reading grade and that he was able to write only his own name. A Mahan family physician declared that the respondent's mental development never went beyond that of a 5-year-old child. Mahan is 24 years of age.

State Prison Shops Scorched

Boston, Jan. 7.—Two fire alarms from a box at the state prison last evening, although more than two hours apart, were for the same fire in a three-story brick building occupied on the first floor by the prison blacksmith shop, machine shop and newspaper, "The Mentor." The fire extended to a part of the second floor, where the shoe shop was badly damaged. The origin of the fire is unknown. All the prisoners were in their cells and the building was unoccupied. The loss is about $5000.

Failed to Make Contract Speed

Rockland, Me., Jan. 7.—The new armored cruiser North Carolina, built by the Newport News Shipbuilding and Drydock company, on her screw standardization trial failed to make the necessary number of revolutions to maintain her contract speed of twenty-two knots on any of the fourteen runs over the measured mile course, according to unofficial information. No official report on the speed was permitted to be given out.

Goethals Gets Pointers at Boston

Boston, Jan. 7.—Lieutenant Colonel Goethals, chief engineer in charge of the construction work of the isthmian canal, inspected the Charles river dam in this city and visited a son at Harvard. The rolling lock gates of the Charles river dam interested Goethals because that kind of gate will be used in the Panama canal.

Despondent Man a Suicide

Orange, Mass., Jan. 7.—Mitchell Schouler, proprietor of a local furniture store, committed suicide by hanging His body was found suspended from a door in his store. He had been despondent of late over continued ill health. He leaves a widow and seven children.

Recipients of Executive Clemency

Boston, Jan. 7.—Thirty-nine persons have been released from confinement under authority of the law during the past year by Governor Guild, according to a report sent to the legislature by the governor. Of these, fifteen were from the state prison.

Waked Into Airhole

Rockland, Mass., Jan. 7.—Horace Boynton, 11 years old, was drowned in Jacobs' pond last night. The boy was making a short cut across the pond on his way home from school and walked into an airhole.

Must Wait For Judgeships

Washington, Jan. 7.—The senate committee on judiciary met yesterday, but failed to recommend for confirmation the nominations of three federal judges which were referred to the committee at the opening of the congressional session in December. These are O. R. Hundley, to be district judge in Alabama; W. B. Sheppard, to be district judge in Florida, and Silas H. Reid, to be district judge in Alaska.

Railway Failed to Pay

Jacksonville, Fla., Jan. 7.—Henry M. Endicott, Jr., of Boston, bought at public auction, for $70,000, the property of the North Jacksonville Street Railway and Town Improvement company. The sale was made to satisfy the judgment in foreclosure of a mortgage. This road was built by negro capital and was the only line in the southern states owned and operated by negroes.

Labor Leader Gets Walking Papers

Muncie, Ind., Jan. 7.—Matters took an unexpected turn when the military authorities now in control of affairs here gave notice to A. L. Behner, first vice president of the Amalgamated Association of Street and Electric Railway Employes, the organization on strike here, that he must leave Muncie.

GOOD AFTERNOON.

Mayor Shea is certainly "up against it," to use an ugly phrase to describe the financial situation of the city. The maturing municipal debt of 1908 is $31,910.00 more than in 1907, and the borrowing capacity of the city is but $63,549.00. It is not surprising at first thought that his honor wants to go to the Legislature for relief. During the last days of the administration of 1907 the year 1908 was really "soaked." A one-year loan of $9,900 was passed, and another one-year loan of $7,150, also a loan of $12,750 of which a tenth matures in 1908. Thus, last week, the maturing debt of 1908 was increased over $18,000.00 and about $1,000.00 added to the interest account of 1908.

In the financial condition of the city some of the street orders should not have been included. It is well, however, if loans are made that the burden shall be felt right away rather than a few years hence. It is only in this way that the debt may be checked. It is time that Quincy reduced its debt each year, instead of increasing it, yet the debt is jumping by leaps and bounds. Although $73,760.00 of the municipal debt was paid off in 1907, the municipal debt was increased $24,290.00. Although the total maturing debt of 1907 was $136,860.00, the total debt of the city increased $31,190.00 in 1907.

Not only the debt is becoming alarming, but the interest account of 1908 will be about $100,000.00, equivalent to the assessment of about $4 per $1,000 on the taxable property of the city.

It will not be possible to obtain from the Legislature permission to refund the debt and it should not be attempted. Neither can the city shirk its obligation to pay the $105,670.00 of municipal debt this year. It is not easy to retrench but it is possible. With a little retrenchment, and a big increase in water receipts it will be possible to keep the tax as low as in 1907. At the same time the new municipal debt should be kept below $75,000.00 so as to reduce the debt and interest of 1909. Quincy must also anticipate a large debt for abolition of grade crossings.

Any proposition to abolish the Saville street crossing which proposes to infringe upon the little green plot near City Hall should be discouraged. To erect a bridge just south of the Quincy depot would make it necessary to take considerable of Depot street, and also to make a fill near City Hall which which would not only be unsightly but would rob the offices in City Hall of what little light they now have. Depot street is not as wide now as it should be, and City Hall is not a building which Quincy should be ashamed of and attempt to hide.

The proposition at South Quincy is about as bad. To close School street would be as serious as to close Water street. It should be possible to run School street and Water streets under the tracks at their present locations if the tracks are raised from the Quincy station to Braintree, and at the same time provide for a new street in extension of Cottage avenue to Fort Square or Marsh street, and for the raising of the bridge over Granite street.

The Observations In the Daily Walk

Club notes tomorrow.

C. Patch & Son sell the red ash range coal.

Charles H. Penniman is confined to his home by an injury to his leg.

Probate court for Norfolk county will be held in Quincy tomorrow.

Mr. and Mrs. Charles W. Miller of Cherry avenue have named their little daughter, Mabel Atkins Miller.

Herman G. Olson, the builder, has issued pretty calendars with large figures, suitable for business houses.

Mayor Shea arrived at City Hall a little after 9 o'clock this morning and got down to business. He received a few callers.

The adjourned citizens' meeting on the abolition of the grade crossings will be held in the Council chamber at City Hall tomorrow evening.

L. A. Chapin the newsdealer has supplied the offices at City Hall with handsome calendars. He says they are too costly for promiscuous distribution.

The annual meeting of the School Committee will be held tonight. The only business to be transacted is the election of a chairman, secretary and superintendent.

William T. Jones, formerly of Quincy, died in Wilkesbarre, Penn., on Saturday. The body is en route to Quincy and the burial will probably take place Wednesday.

Ex-Mayor Russell A. Sears was among the interested spectators at the inaugural Monday. Nearly all of the present department heads occupied the seats assigned to them inside the rail.

Although the first order for tickets for the annual ball of the Quincy Police Relief Association was placed at 1000 the supply was exhausted and it was necessary to place a second order. The date is Jan. 24.

Commissioner Burke was unable to attend the inauguration ceremonies, being confined to his bed with a strained ligament of the knee. His knee is in a cast and it will be several days before he is able to be out.

The week of prayer will be observed at Bethany church this week by services on Tuesday, Wednesday, Thursday and Friday evenings. The subject tonight will be "The mission and message of Bethany church."

Beginning on Sunday afternoon at 2.30 Rev. Dr. Perkins pastor of the Universalist church will inaugurate a series of practical sermons. His first subject is "What is Christian living?"

It should be recorded that there was a pleasant Monday this week.

Mrs. Edmund A. Walsh of Worcester, formerly Mary J. Shea, mourns the death of her husband who died on Dec. 31, aged 47 years. Mrs. Walsh was a graduate of the Quincy High school in the class of 1877 and was one of the F. F. F's. She is left with three sons and a daughter. Her father formerly resided on Temple street and was an expressman.

Grade Crossings At Braintree

The Braintree lower Town Hall was filled with citizens Monday night at a hearing given by the Selectmen on grade crossings. Four plans of the N. Y., N. H. & H. R. R. were submitted for bridges over Elm, River and Union streets, but they were very objectionable to the citizens of Braintree. The approaches to the proposed bridges were much too steep. It was the general opinion among the speakers and citizens that the tracks should be depressed through North Braintree five to ten feet.

It was voted to instruct the Selectmen to appoint fifteen citizens, five from each section of the town, to act with the selectmen on grade crossings, said committee to hold public meetings.

Team Recovered.

Oscar J. Forger, a sewing machine agent, reported to the police on Monday that his team had been stolen and that he suspected if they could find Frank Farrell they would find the team.

Forger said that he met Farrell at North Weymouth, and offered to give him a ride to Quincy. On the way over one stop was made, Farrell being left in charge of the team. When Forger came out the team was gone.

Farrell drove to Quincy and twice nearly caused accidents by driving in front of electric cars. The team was finally tried to a tree by a street car conductor, and a little later Chief Burrell and Officer Larkin recovered the team and Farrell who was badly intoxicated was gathered in.

Suggestion of Various Mayors

Economy, civic improvement and the establishment of a new factor in municipal Government in the shape of advisory boards, are among the things which stand out conspicuously in the recommendations made by newly-elected mayors of Massachusetts cities outside of Boston who were inaugurated on Monday. In thirty of the thirty-three cities of the Commonwealth the 1908 officials assume their duties.—Boston Transcript.

The municipal printing plant is one of the luxuries of the city of Boston. I have not had time to make an examination of the conditions as they actually exist there, but the adverse comments which have reached me have been many. I am not a believer in municipal ownership. I doubt if at this time we have reached a position where we are steady enough in our governmental system in municipalities to carry such efforts forward. But a large amount of money has been sunk in this plant, and the city cannot afford to through the establishment into the market. For that reason, and despite my own personal beliefs, I am disposed to give the theory the best possible test. My present plans are to reorganize the printing plant on a business basis, readjusting the matter of income and expenses, leaving the management in competent hands. My own prejudices are to be absolutely divorced and my greatest satisfaction will be to have them completely dissipated. It remains, therefore, for the citizens of Boston, engaged in this craft to assist me to the best of their ability in the work.—Mayor Hibbard.

In the granting of sixth-class licenses and of licenses for the transportation of liquors, I urge your most careful attention in order that this business may be so restricted as to conform in the greatest degree to the public sentiment so strongly expressed at the polls. It is hoped that the cornerstone of the Soldiers' monument may be laid on Memorial Day.—Mayor Grimmons of Somerville.

The latter half of his address of Mayor Logan of Worcester was devoted almost wholly to a discussion of the trolley freight franchise. He thought that electric railroads of Worcester should be given privilege to carry freight under certain limitations and conditions. He said there is urgent need of more convenient freight transportation for the growing industries of the city and the trolley lines are the avenues through which such service might be most easily and practically effected. As the principal streets are already rather crowded during the daytime with passenger traffic only, he considered it advisable that if trolley companies be allowed to carry freight they should be required to do most of such transportation by night rather than during the day.

Mayor Farnham of Lowell recommended a charter commission to consider the advisability of changing the city charter relative to the power of the Mayor and the suspension or removal of subordinate offices, etc.

Economy should be the watchward was what Mayor O'Brien of Northampton argued.

Mayor McMahon of Fitchburg urged a change in the city charter along conservative lines, and suggesting a committee for that purpose.

Mayor MacInnis of Pittsfield dwelt chiefly upon the recent difficulties in placing municipal loans. He advocated the founding of a floating debt of $125,000.

Mayor Stafford of North Adams did not make a single recommendation.

Mayor Parsons of Marlboro recommended new fire and police stations and a court room building.

Mayor Beauchamp of Chicopee devoted much of his inaugural to financial questions.

Mayor Moore of Melrose favored the city petitioning the legislature for an extension of the Fells-Lynn boulevard, making a direct metropolitan boulevard from the Fells reservation to Nahant and the North shore. He also advocated a more satisfactory street lighting contract and the installation of 3,000 more waer meters.

A Resignation At Chelsea

A dispatch in the morning papers from Chelsea, says that Alfred J. Maggi, the superintendent of streets, tendered his resignation to Mayor Willard before the inauguration, and that it was accepted.

B. F. Keiths 25th Anniversary

During the week of January 6th will be observed in theatres in a dozen leading cities the twenty-fifth anniversary of Mr. B. F. Keith's starting in the show business and the birth of vaudeville as it is now presented in America. For Mr. Keith is not only the originator of the continuous performance, but the father of the vaudeville, that has become the most popular form of amusement in America. Twenty-five years ago, with limited capital, he opened a small store on Washington street, Boston, with a midget as his only attraction. Today no less than seventeen theatres in this country and abroad bear the Keith name; he is close touch with his varied interests, particularly his theatres in Boston and Philadelphia, pronounced by the late Sir Henry Irving to be the most beautiful theatres in the entire world.

Mr. Keith is a native of New Hampshire, but at the age of seven began life for himself on a farm in western Massachusetts, where he first showed that independence and self reliance which ever since distinguished him. He was 18 years of age, however, before he became interested in the show business, and he made many ventures with shows of his own, and particularly with others, before he began to see the possibilities of vaudeville and quietly began the process of evolution—or more properly, perhaps, revolution—which has made it what made up of the greatest performers and artists gathered from the four corners of the earth and taking from strongest attractions.

reputed the richest amusement manager in the entire world, and head of the United Booking Offices of America, which furnishes the attractions for every vaudeville theatre of any importance—more than 150 in all—from the Atlantic to the Pacific coast. This means the placing, each week, of thousands of acts, many of them comprising large companies of American and European artists, and the entertainment of over 2,000,000 people weekly; and yet five years after Mr. Keith started in business there were not more than three vaudeville houses in the United States; ten years ago there were not more than a dozen; now there is a vaudeville house in almost every city of over 20,000 population, all furnished with attractions by Mr. Keith and his associates.

After twenty-five years of activity, such as few men have had, Mr. Keith is endeavoring to relinquish the reins of management to others, Mr. E. F. Albee, who has been general manager of his enterprises since the beginning, and Mr. A. Paul Keith, assistant general manager, taking over the great bulk of the work, although Mr. Keith himself is still in

The beginning was made Jan. 8, the legitimate stage many of its 1883, in a building on Washington street, Boston, covered by the present site of the Adams House, or more strictly speaking in a room in that building not more than 35 feet long and 15 feet high, tapering to a width of about 6 feet in the rear.

In Boston, Mr. Keith is known and admired, today not only as a great amusement manager, but as one of the most public spirited citizens, who besides his beautiful theatre, has in Tremont street, another monument to his energy and high ideals of beauty in civic life as well as in his theatres. Tremont street, between Boylston street and Scollay square, is the great boulevard and promenade in Boston, and that it is such, free from electric cars and their poles and wires, is due to the great battle put up by citizens of Boston, headed by Mr. Keith, against the transportation companies. At a dinner given in honor of Mr. Keith by the merchants and leading men in other walks of life in Boston, his work in this great fight was recognized in such a manner as it is today, a form of entertainment has fallen to few men.

New Departments At High School

But little has been done as yet toward fitting up the gymnasium and the domestic science and manual training rooms at the High school It was but a few days ago that the order making the necessary appropriation became a law, and sufficient time has not elapsed to get the rooms in condition.

A basket ball outfit has been installed in the gymnasium however, and this is in use. Arrangements have been made for the construction of the lockers and the equipping of the gymnasium.

Considerable work, however, is necessary before the manual training and domestic science rooms will be ready and it is expected that these courses will not be commenced until the early part of April. An instructor for the gymnasium and the domestic science and manual training departments will not be engaged until the rooms are ready for work.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Crow Dinner For County Officer

Shortly after the inauguration on Monday four congenial spirits gathered about the festive board in a private dining room at Carlson's restaurant for dinner. In the party was a county officer, a lawyer and two ink-slingers. To the county official it was a crow dinner, but he did not mind a little thing like that, and enjoyed it fully as much as did the other trio. It was a full course dinner and was nicely cooked and served. After cigars had been lighted there were reminiscences. It might be well to say that the dinner was not due to an election bet. There is one other dinner to come off in the near future, and then it will be the lawyer who will eat the crow. The arrangements have been placed in the hands of one of the ink-slingers who promises that the menu will be a good one.

The Fore River Ahead in Race

All persons at the works are invited to contribute news items to be inserted in this column.

According to the last summary of naval construction issued by Rear Admiral Capps, chief of the bureau of construction and repair of the Navy department, the Fore River Shipbuilding Company is progressing more rapidly in the construction of the Battleship North Dakota, than the Newport News Shipbuliding Company is on her sister ship the Delaware. The contracts for both ships were signed the same day, August 6, 1907.

On November 1, 1907, the percenage of completion of the North Dakota was 4.23, while on the Delaware it was only 2.33, showing a gain of 1.90 per cent in favor of the North Dakota.

On December 1, 1907, the North Dakota was 7.84 per cent. complete as against 5.08 per cent. on the Delaware, thus showing the gain for the month of the North Dakota over the Delaware to be .86 per cent. and establishing a lead up to December 1, 1907, of 2.76 per cent. in favor of the Fore River Shipbuilding Company.

Nine years ago today, January 7, 1899, Aguinaldo issued a proclamation against occupation in the Philipines.

Captain E. F. Green of the United States army transport service, who is to pilot the United States battleship fleet through the straits of Magellan is on his way to Rio de Janeiro to join the fleet. Captain Green is fifty-six years of age, and has made in all seventeen trips through the Straits. He has been a sailor since he was fourteen years old, when he joined the Confederate navy. Captain Green will assume charge as pilot of the fleet at Punta Arenas about Feb. 1. There will be assigned to him by Admiral Evans one of the fleetest of the torpedo crafts, with which he will lead the way through the Straits, The actual passage will require about forty-eight hours.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Edward Richards was fined $5 for drunkenness at Weymouth.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Annual Ball Brith Abraham

The first ball of Pride of Quincy lodge, Independent Order Brith Abraham, was held Tuesday evening at Music hall. Although the weather was inclement there was a large attendance.

Thomson's orchestra gave a concert from 8 to 9 o'clock, and also furnished the music for dancing.

Louis Berman was chairman of the committee of arrangements. The other officers of the ball were: Floor director, Jacob Grossman; assistant, Isaac Cutler; chief of aids, I. Susman; aids, Hilay Berger, Joseph Cutler, Samuel Castleman, Louis Stone, Ruben Grossman, George Asnes, Hyman Edelstein; chief marshal, James Brown.

The officers of the society are:
President—Louis Berman.
Vice President—Ruben Grossman.
Past President—Hilay Berger.
Treasurer—Harry Grabowsky.
Financial Secretary—James Brown.
Recording Secretary—Jacob Grossman.
Conductor—Hyman Edelstien.
Inside Guard—Hyman Katz.
Trustees—W. Lubarsky, I. Goldner and M. Pween.

Progressive Buttons For Sunday School

Samuel Kay, the superintendent of the Wollaston Methodist Sunday school, has inaugurated a new plan for increasing and making regular the attendance at the sessions of the school. Each scholar who has not been absent for two months is given a neat Sunday School button to wear. If they have not been absent for the next two months, they return the first button and get another one of a different pattern and more costly. There are different styles of buttons and pins, each representing two months attendance. The pin for a clear record for the year is a beautiful gold class pin, which is well worth the effort to be regular in attendance. If a scholar attends another school during the vacation season he will be credited with attendance at the Wollaston school. Already the members of the school are taking an interest in the plan to secure one or more of the class buttons and pins.

Bible Presented By Rural Lodge

Although the weather was extremely unpleasant, a large delegation of Rural lodge paid a fraternal visit to Delta lodge of Masons at Braintree on Tuesday evening. The delegation was received with Masonic honors, after which W. M. Hartley L. White presented Delta lodge with a handsome Bible, square and compasses in behalf of Rural lodge. The handsone gifts was received with many words of thanks, after which there was an exemplification of the third degree.

Law Library Association.

Hon. Thomas E. Grover, the district attorney, was on Monday reelected president of the Norfolk County Law Library Association. The other officers are: Clerk Edwin E. Jenney of Hyde Park: treasurer and librarian, Louis E. Cook of Weymouth; excutive committee the president, James E. Potter of Hyde Park, and Elbridge J. Whitaker of Wrentham. There are 8349 volumes in the library, including reports of all States but Oklahoma. In the treasury is a balance of $4500.

Bank Officers.

The annual meeting of the Mt. Wollaston National bank was held Tuesday and these directors elected: Charles A. Howland, Horace B. Spear, Herbert F. Doble, George H. Field, Henry M. Faxon, George W. Morton, Frank S. Patch and C. A. Howland, Jr. At a subsequent meeting of the directors Charles A. Howland was reelected president.

Public Bequests.

The will of Florinda Grover of Weymouth, which was admitted to probate at Quincy this morning, leaves $300 to the Old South Congregational Society of Weymouth. The residue of the estate after making several minor bequests is left to the American Home Missionary Society.

New Schoolhouse For Houghs Neck

The question of a four-room school building at Houghs Neck will probably be brought before the City Council at an early date. At the present time there are eighty children who attend the Coddington school who are transported daily. This number in the fall will be larger. The nunber does not include the pupils who attend the High school. It is estimated that a wooden building that would be large enough to accommodate the children of Houghs Neck could be erected at an expense of less than $10,000.

Public Installation.

The installation of Quincy court, M. C. O. F., will be publicly installed Sunday afternoon, Jan. 12, at Hibernian hall, Franklin street, by Deputy Timothy F. Lineban, assisted by the degree staff of St. Thomas court of Brockton. The officers elect are:

C. R.—Patrick K. Ward.
V. C. R.—David R. Frazier.
T.—Mrs. Lucy G. Howard.
F. S.—Helen M. Sweeney.
S.—Nellie Collins.
J. C.—Mary Thompson.
S. C.—Michael Dorley.
I. S.—J. H. Dorley.
O. S.—Edward Burns.
Trustees—Hugh P. Tracey, John Heffernan and Robert E. Foy.

Wedding Anniversary.

Mr. and Mrs. J. P. McCade of Squantum street were pleasantly surprised Tuesday night on the 16th anniversary of their marriage. Guests were present from Boston, Dorchester, Milford, Brockton, Atlantic and Quincy. Mrs. J. W. Donovan, in behalf of the guests, presented Mr. and Mrs. McCade with a beautiful parlor lamp. The evening was pleasantly spent, the entertainment including violin, piano and vocal solos.

Through Cars May Come Off

It is reported that the Old Colony street railway is considering the advisability of discontinuing the through car service to the Dudley street terminal, Boston, and of ending all lines at Neponset.

Under the present arrangement there has been frequent and just cause for complaint of the through car service which the railway company say it is powerless to prevent without a great expense that is not warranted. The poor service is largely due to the cars being held up on the Boston end of the line. The cars for Quincy are due to arrive at Neponset every fifteen minutes but at certain times during the day they are invariably late.

This lateness is not because of any fault on the Quincy end but to the increased travel on the Boston end. The only way that the service on the local end can be maintained is by using extra cars as a set back. That is to have an extra car leave Neponset at the time that the regular car from Boston should leave. This entails considerable expense.

In addition to this the railway claims that under the present system it has to furnish the Boston Elevated with four cars per hour for which it receives no revenue, although it must keep these cars in repair. These cars the Elevated has the use of and of course saves itself considerable expense for which the Old Colony road must pay.

Quincy Man Is Chairman

Hon. James F. Merrill of Quincy was on Tuesday elected chairman of the Norfolk County Commissioners. Mr. Merrill is now the senior member of the board, having entered his third year. Evan F. Richardson of Millis entered the board last year, and Silas A. Stone of Sharon became a member this year.

Mr. Merrill was formerly a member of the General Court from Quincy, and also a Senator from the First Norfolk district. He was born in Brownfield, Maine, Jan. 16, 1849. He passed his early years in Norway, graduating from Norway Academy. He came to Boston, securing a position with a large grocery firm where he remained six years. He then established a grocery business in Lewiston, Maine. He came to Quincy in 1878, and opened a grocery here. He has since made Quincy his home. He has long been identified with the Republican party, and a hard worker for the election of its candidates.

NOTICE.

DISSOLUTION OF PARTNERSHIP.

THE Co-partnership heretofore formed and existing between the subscribers hereto under the firm name of MARSHALL & GELOTTE for the purposes of carrying on a granite business in the City of Quincy, Massachusetts, is this day dissolved by mutual consent. All claims and demands against the firm will be adjusted by C. Otto E. Gelotte, and all accounts or claims of any nature due the firm are hereafter due and payable to said C. Otto E. Gelotte.

Dated at Quincy, Massachusetts, this eighth day of January, A. D. 1908.

WILLIAM MARSHALL,
C. OTTO E. GELOTTE.

Mr. Gelotte will continue the business on the premises, and the firm will be known as O. Gelotte & Co.
Quincy, Jan. 8, 1908. 3t-8-15-22

Twenty Ton Block Quarried

One of the largest and handsomest blocks of granite quarried in Quincy for a long time was taken from the quarry of J. S. Swingle this week. The block measured 8 feet, 5 inches, by 4 feet, 5 inches, by 5 feet, 1 inch, and weighed in the rough about 20 tons. The stock is of the extra dark variety, and there is not the sign of a knot in it, a rare thing for so large a block. It will be loaded on a car and sent to South Quincy where it will form part of a large memorial being cut for western parties.

Newsy Budget From Shipyard

The Marine Review in its issue of January 2, 1908, in which it attempts to set forth the amount of merchant work going on in the sea coast yards, has the following to say regarding the Fore River Shipbuilding Co. "No merchant work is in progress at this yard. Four light vessels for the United States government lighthouse board are being built."

It is sincerely hoped and is no doubt a fact and true, that the Marine Review has shown a greater amount of fairness in its summary of merchant work toward other ship building concerns along the coast than has been shown in this particular instance toward the Fore River Company. It is not known from what source the aforesaid magazine derived its information, but it will suffice to say in connection thereto that the data furnished was wholly unreliable.

At the present time the following merchant work is in progress at the yard: Steam collier Melrose, one of the largest and the most up-to-date colliers of United States register; Steamship Altamaha, which will be one of the most notable additions to the fleet of freight and cargo carrying steamers along the Atlantic seaboard; and Transfer tug number 21, which with her specially designed powerful engine, fire fighting apparatus and modern wrecking pumps make her, as well as each of the other vessels, the latest creation of their respective classes known in American shipbuilding.

Altho not coming in the classification of merchant work, the following vessels are in process of construction at present in addition to the above: Scout cruisers Birmingham and Salem; Light vessels known locally as hulls 147, 148, 149 and 150; United States Battleship North Dakota; and the company has contracts for seven submarine torpedo boats, which are just about to begin.

Elliot C. Gardner, formerly captain of the seven masted schooner Thomas W. Lawson, was married in Portland, Maine, on Tuesday to Miss Elizabeth Greene, daughter of Hon. Wyer Greene.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

HEINZE IS INDICTED

Grand Jury Has Thirty Counts Against Copper Magnate

A VOLUNTARY SURRENDER

Furnishes $50,000 Bail to Answer to Charge of Over-Certifying Checks to Amount of Over $400,000--Echo of Copper Campaign

New York, Jan. 8.—Indicted by the federal grand jury for the over-certification of fifteen checks, representing in the aggregate over $400,000 and drawn by the firm of Otto Heinze & Co. on the Mercantile National bank, F. A. Heinze, the copper magnate and former president of the bank, surrendered to United States Commissioner Shields and later was released in $50,000 bail. He will plead to the indictment in the United States circuit court.

Edward Lauterbach, counsel for Heinze, says that his client did not willfully over-certify the checks, as he had drawn a check to the credit of Otto Heinze & Co. to the amount of $500,000, which the bookkeeper of the bank possibly failed to enter on the books until a day after the certification of the checks in question.

The indictment of Heinze by the federal grand jury, which has been investigating the Mercantile and other banks identified with the Heinze and Charles W. Morse interests, is the aftermath of the collapse of the Heinze pool in United Copper which brought about the suspenson of Gross & Kleeberg, stock brokers, and subsequently resulted in the resignations of F. A. Heinze from the presidency and the retirement of the directors of the Mercantile National bank after an examination of the institution had been made by the clearing house committee. Heinze declared at the time that he had been betrayed by his friends in the United Copper pool.

Heinze had been informed quietly that indictments charging over-certification had been found by the federal grand jury Dec. 2 and that his appearance would be required Jan. 7, and without awaiting the service of a bench warrant, in company with his counsel, he appeared before Commissioner Shields. The proceedings were short. Heinze pleaded not guilty and bail was furnished immediately by a surety company.

Heinze then told the newspaper men that he did not care to make any statement and hurried away with his counsel.

The indictment, which contains thirty counts, specifically charges that Heinze, while president of the Mercantile National bank, over-certified fifteen checks. That is, that he guaranteed by the bank signature that the sums indicated in the checks were held by the institution to the credit of the drawer. To over-certify bank paper is under the federal statute an offense punishable by imprisonment of not less than five years and not more than ten years.

One count is devoted to each of the checks involved. It is alleged that Heinze knew that Otto Heinze & Co. did not have to its credit the sums named in the various checks. The sixteenth count in the indictment charges that Heinze intentionally applied the funds of the bank, without the knowledge of the directorate, to the payments of the fifteen checks drawn by Otto Heinze & Co., and knowing that the company did not have on deposit with the bank a sum equal to the amount named in the certified checks. For such an offense the federal statute provides a penalty of not less than five years' imprisonment or a fine of not more than $5000, or both.

The troubles of F. A. Heinze began with the bull campaign started by Otto Heinze & Co. and associates in the stock of the United Copper company, which Heinze had organized and developed after his long fight with the Amalgamated Copper interests in Montana. The stock was selling about 60 when a mysterious selling was detected. Considering it to be an effort to raid the stock by short selling, Otto Heinze & Co. gave unlimited buying orders to various brokers, believing that when the time came the bear operators would be unable to cover their contracts, except at such prices as the Heinzes dictated.

Heavy selling of United Copper continued, and to purchase the stock offered Otto Heinze & Co. were forced to draw checks for large amounts to various brokers. When the source of the selling was ascertained the Heinzes declared they had been betrayed by friends who sold their holdings of United Copper on the high market. The United Copper stock slumped and Gross & Kleeberg, stock brokers, suspended, claiming that Otto Heinze & Co. failed to take up the stock of the United company which had been bought for them.

A crisis was provoked in the affairs of the Mercantile National bank and the clearing house committee made an examination, following which Heinze withdrew from the institution, but, with his friends, still maintained a stock control, which he had purchased several months before from Edwin Gould. There have been reports recently in the financial district that the Gould interests will again assume control of the Mercantile.

BEING WATCHED BY POLICE

High School Boys Suspected of Having a Hand In Murder

Providence, Jan. 8.—Two high school boys of good family were arrested last night on the charge of being connected with the murder of Miss Mary Eddy, a mill operative, at Greenville on Friday night, but after an examination they were released. The police refused to give out the names of the boys, but are keeping them under watch.

According to the police, the two boys admit that on the day of the murder, and at about the time it is supposed the crime was committed, they were near the scene for the purpose, according to their own confession, it is alleged, of robbing their aunt, an aged and wealthy resident of Greenville.

Miss Eddy, a middle-aged mill operative, was killed by a blow on the head and robbed of $16, her week's wages, at dusk Friday night in a lonely part of Greenville. Since then the police have worked on scanty clues until yesterday, when the scene of the investigation suddenly shifted to this city with the arrest of the two boys. For two or three hours the lads were subjected to a thorough cross-examination. They admitted, it is claimed, they were in Greenville on the day of the murder and not far from the spot where Miss Eddy's body was found. It is asserted that the lads confessed to being there for the purpose of robbery. Further than this information the police refused to go.

Tobacco Warehouses Burned

Paris, Ky., Jan. 8.—Night riders made their appearance in force in the Burley district late last night. In Bethel they burned the big independent tobacco warehouse of A. P. Robinson and the general store of Peters Bros. At Sherburne the independent warehouse of Daugherty Bros. was destroyed. In order to prevent aid being summoned the raiders cut all telephone and telegraph wires.

Goetha's Seeks Pointers

Clinton, Mass., Jan. 8.—Lieutenant Colonel Goethals, chief engineer and chairman of the Panama canal commission, inspected the local work of the Metropolitan water works system, seeking information that would enable the Panama commission to guard against weaknesses in the Gatun dam on the isthmus. The details of the construction were explained to Goethals by experts.

Downfall of Ex-Gold King

San Francisco, Jan. 8.—James Treadwell, once the "gold king" of Alaska, whose name has been heralded in money markets the world over, is in the San Francisco county jail. He was indicted on embezzlement charges. Once a power in the world of finance, Treadwell, unable after a vain search to procure a $75,000 bond, gave himself up.

Murder Charge Against Whitmore

Newark, N. J., Jan. 8.—Theodore S. Whitmore, who was arrested after he had identified the body of the victim of the Lamp Black swamp near Harrison as that of his wife, was arraigned before Justice Branegan and held without bail on a formal charge of murder. William Bartlett, a waiter, of Brooklyn, was held in $5000 as a witness.

Heavy Rainstorm and Gale

Boston, Jan. 8.—A heavy rainstorm, accompanied by high winds, swept over the city the middle of the afternoon and continued until midnight. Nearly three-quarters of an inch of rain fell. Telegraphic communication was badly hampered and the electric light service in various parts of the city was interfered with.

"Roosevelt Perhaps Mistaken"

Rome, Jan. 8.—The Tribuna, in an article on the cruise of the American battleship fleet to the Pacific, expresses the opinion that President Roosevelt perhaps was mistaken in ordering it, "in view of the excitement it has aroused in the United States, both on the part of the people and the press."

Princess Many Times In Love

London, Jan. 8.—Princess Beatrice of Saxe-Coburg-Gotha, a niece of King Edward, is to marry Prince Alfonso of Bourbon-Orleans. Princess Beatrice is the youngest daughter of the late Duke of Saxe-Coburg-Gotha. She is 23 years old and unusually attractive. The princess has had many love affairs.

Long Overdue Steamer Safe

Queenstown, Jan. 8.—The long overdue steamer Mount Royal steamed slowly into Queenstown and the news of her safety was received with joy in shipping circles. The Mount Royal had trouble with her boilers, and this was the reason she had to put back. Passengers and crew are all well.

Caldwell Hearing Postponed

New York, Jan. 8.—Robert Caldwell, who is accused by the British government of having committed perjury in his testimony in the Druce case in London, was too ill to appear in the extradition proceedings brought against him and the hearing was postponed until Friday.

Takahira to Succeed Aoki

Tokio, Jan. 8.—While the selection of Baron Takahira, Japanese ambassador to Italy, to succeed Viscount Aoki at Washington, has not been officially announced, it is admitted at the foreign office that the appointment has been decided upon.

The Weather Forecast

Almanac, Thursday, Jan. 9.
Sun rises—7:13; sets—4:29.
Moon rises—11:31 p. m.
High water—3:30 a. m.; 4 p. m.
It will be fair and colder in New England.

AS A PARTY MEASURE

Republicans May Push Finance Bill Through Senate

ITS PROVISIONS MADE PUBLIC

Provides For Increase of Bank Circulation--Amount on "Other" Bonds Not to Exceed $250,000,000--May Limit the Currency Issue

Washington, Jan. 8.—Senator Aldrich yesterday introduced in the senate the currency bill which for some time has been under consideration by Republican members of the senate committee on finance. At his request the bill was read at length in the senate and very careful attention was awarded the reading.

"I have asked that the bill be read," said Aldrich, after the reading had been completed, "in order that the senate may at once be informed of its provisions. I have been authorized by the committee on finance to say that the committee will receive and give careful consideration to bills sent to it, having the same purposes in view that are sought in the bill that has been read. And I have to request senators who have such bills to present them at as early a day as possible."

It is understood that all Republican members of the committee are in favor of the measure except Senator Hansbrough, who believes that a central bank will best solve the currency difficulties.

Republican leaders in the senate, as a whole, are extremely hopeful of the early passage of the Aldrich bill. They declare that, while they are anxious that it should not be a partisan measure, yet, if Democratic opposition should be developed to the Republican plan, the majority will proceed to put the bill through the senate as a party measure. Aldrich has been in conference with so many of the senate leaders that his bill has not come to them as a surprise.

It is expected there will be Democratic criticism of the Aldrich bill and Republicans declare that they are ready to accept any reasonable amendment from that source that may result in making the bill as nearly non-partisan as possible.

The bill will not be considered by the committee on finance until next Tuesday, Aldrich purposely allowing a week to elapse between the introduction of the bill and its consideration by the committee in order to give ample time for its consideration. Aldrich said that it was his purpose, when the bill was reported, to make a statement in explanation of the measure and of his belief as to what it should accomplish.

The bill provides for an additional issue of bank circulation which shall at no time exceed $250,000,000, upon bonds other than those issued by the government, including state and municipal bonds, in approved cases. The comptroller of the currency is given discretion in the issuance of the proposed currency and is authorized to decide as to the time and the amount to be awarded to any banking institution. It is provided that the increased circulation shall in no case exceed 75 percent of the value of the bonds deposited.

Wants Russians In America

Washington, Jan. 8.—Representative Waldo (N. Y.) offered a resolution asking the house committee on foreign affairs to inquire into the "expediency of requesting the President of the United States to intercede with the government of Russia for the liberation of the members of the Russian duma now in prison or under duress within that country, with a tender to them of the United States as an asylum and providing, if necessary, for their immediate removal here."

Cotton Farmers' Determination

Memphis, Jan. 8.—The annual convention of the Farmers' Educational and Co-operative union met here with about 300 delegates present. President Barrett of the union, before calling the convention to order, said: "One of the most important things we hope to accomplish is to get 15 cents for cotton, and we are going to get it if we have to hold it from the market for years."

Connecticut's New Corporations

Hartford, Jan. 8.—Although the volume of capital stock represented by the new corporations organized in Connecticut last year was only about half the amount for 1906, the figures greatly exceeded the record for most previous years. The total amount was $51,512,000, as compared with $102,265,400 for the previous year and $35,270,000 for 1905.

Defeat For "Black Demon"

Boston, Jan. 8.—Joe Walcott was easily defeated by Jimmy Gardner of Lowell at the first bout of the new Armory Athletic association last night in twelve rounds. Both men weighed in at 142 pounds. Gardner showed early in the fight that he was too clever for Walcott and had him beaten in the first six rounds.

Receivership Rumors Denied

St. Paul, Jan. 8.—Rumors that a receiver had been or was about to be asked for the Chicago Great Western railroad were met with denials by officials of the road here. R. C. Wright, secretary of the company, said he did not think such a step could be taken now, even if it was desired.

ONLY THREE JURORS

Difficulty In Filling Panel In the Trial of Harry Thaw

THE BOX WAS ONCE FILLED

Storm of Peremptory Challenges Resulted In Dismissal of Nine Men--Four Tentative Jurors Who May or May Not Be Chosen to Serve

New York, Jan. 8.—Three jurors sworn to serve on the trial panel for Harry K. Thaw represent the net results of the two days and six sessions of the trial before Justice Dowling in the criminal branch of the supreme court. In addition, however, there are four tentative jurors who still are subject to peremptory challenge by either side. The task of filling the five vacant chairs was resumed this morning.

In all, ninety-five proposed jurors were called and questioned yesterday as against fifty-seven on Monday. At the close of the afternoon session yesterday, the jury box was completely filled and hopes ran high that at least a majority of those tentatively chosen would prove acceptable to both sides. With the beginning of the evening session, however, all such hopes were dissipated.

When the suddenly descended storm of peremptory challenges cleared away there were but three survivors and it was agreed that they should be sworn as the nucleus of the trial panel. They are Charles E. Gremmels, ship broker, who is foreman; Arthur R. Naething, baker and caterer, and George W. Cary, dry goods dealer.

Following the administration of the oath to these three men counsel announced that the jury box would again be filled before any more peremptory challenges are exercised.

The four provisional jurors are: George C. Rupprecht, salesman; Moses Greenbaum, insurance agent; John R. Magin, retired broker, and Thomas F. Cranston, a printer.

Briefly summarizing this eventful day of shifts, its chronology would appear somewhat like this:

At 10:30 a. m. there were nine prospective jurymen occupying seats allotted to them as a result of the brisk work accomplished during the first day of the trial.

At noon two of the original number had been dropped by mutual consent, but by 5:30 p. m. the two who had been excused had not only been replaced, but three more tentative members of the jury had been selected, completing the twelve.

Up to this time the district attorney had utilized only one of the thirty peremptory challenges allowed him under the law, and Harry Thaw's counsel had expended none.

A recess was ordered with the understanding that each side should exercise the right of peremptory challenge upon the twelve jurymen when court reconvened at 8 p. m. It is the privilege of the prosecution to challenge first, and Mr. Jerome, who had been in busy conference with members of his staff during the recess, promptly exercised that privilege by challenging four jurymen.

Mr. Littleton in behalf of the defendant also annihilated four by the process of peremptory challenge. By mutual consent of opposing counsel one other juror was excused.

When the dead had been removed from the field, this left as the sole survivors in the jury box the foreman, Gremmels, and jurors No. 7 and 9, Naething and Cary. The two men moved up next to the foreman into the vacant seats of Nos. 2 and 3. These three survivors were then called upon to rise and be sworn. Then the weary task was again resumed of filling the vacant places.

It was agreed that the same procedure should be followed in the effort to obtain the remaining nine men necessary to complete the jury. Of the thirty peremptory challenges permitted to each Jerome has utilized five and Littleton only four.

Between 8 and 10:30 p. m. twenty-five more talesmen were added to the three survivors in the jury box, the new members being Rupprecht, Greenbaum and Maginn.

In his desire to replace the heavy losses of the day as far as possible, Judge Dowling decided to continue the night session until the second panel of 100 talesmen had been exhausted. So rapidly were the talesmen dispatched during the night session that at 10:50 p. m. the 91st talesman of the day and the 149th since the trial began was summoned.

He was Cranston, who after a brief examination acquitted himself with such credit that he was permitted to take a lease until further notice upon the seventh seat in the jury box.

This draft had exhausted all the available men upon the second special panel of 200 talesmen and it was necessary for the court to adjourn.

Excursionists In a Wreck

Atlanta, Jan. 8.—The second section of the Collver special was wrecked between Dallas and Hiram, Ga., while crossing a trestle over the Copper Mine creek. Five of the seven cars were derailed and fell into the creek, and as a result a score or more passengers were injured. The only persons seriously hurt were three train hands. The Collver special is an annual excursion run from Cleveland to Florida points and Cuba.

ATTACKED ROOSEVELT

New York Congressman Thinks President Lacks Good Sense

Washington, Jan. 8.—The usual resolution referring the president's annual message to the several committees furnished the occasion in the house of representatives for a number of addresses. These covered a variety of subjects, but those that attracted especial attention were by Representatives Sheppard (Tex.) and Willett (N. Y.) The former not only made a plea for the restoration of the legend "In God We Trust" on American coins, but discussed the cruise of the American battleship fleet and referred to a possible conflict with Japan.

Mr. Willett placed all the blame for the recent financial panic on President Roosevelt, whom he denounced in severe terms. He charged the president with having turned on the gas and not the light. The president, he said, had gone forth day after day to the American people and the people of the world and declared to them that the men who hold the reins of our great industrial institutions are dishonest; are not worthy of our confidence and trust. "We want cheer," he said, "we do not want our chief executive going up and down this country condemning and striking with the big stick everything that sticks its head up."

What was wanted, he said, was a man to perform his duties with dignity and with power and with the influence of all sane men behind him. "It has been said our president is sincere," he continued. "He may be so, but we want good sense in the president along with his sincerity." He declared that President Roosevelt was not a sensible man.

Interview Repudiated by Aoki

San Francisco, Jan. 8.—Viscount Aoki, Japanese ambassador to America, who has been recalled from Washington by his government, sailed for home yesterday. He expressed his appreciation of the cordial welcome and greeting given him in San Francisco and again flatly repudiated an interview contained in a local paper, in which he was quoted as saying that his government would itself restrict emigration and that the passage of an exclusion law would be regarded as offensive to the dignity of Japan.

Bennington Monument Unveiled

San Diego, Cal., Jan. 8.—The memorial monument to the Bennington dead was unveiled with appropriate ceremonies at the national cemetery on top of Point Loma. The plain shaft stands within the plot where are buried the most of those who lost their lives in the explosion on the gunboat Bennington and is composed of seventy-four slabs of granite roughly dressed and towering sixty feet above the concrete base, capped by a pyramid of polished granite.

Belated Orders For Stokes

Washington, Jan. 8.—Surgeon Stokes of the medical department has received orders directing him to assume command of the hospital ship Relief. These orders were signed by Secretary Metcalf several days ago, but for some unexplained reason they did not reach Stokes until yesterday. Stokes left Washington today for San Francisco, where he will assume command of the Relief as soon as the ship is ready for sea.

Bank Wants to Keep Money

Boston, Jan. 8.—The First National bank of Boston has filed a petition in the circuit court asking that it be allowed to keep in its possession the sum of $58,561, placed to the credit of the Arnold Print works, now in the hands of a receiver, and that it be allowed to prove claims of $250,000, claimed to be due it from the company. The receivers brought suit to recover the money.

A Vesuvius Phenomenon

Naples, Jan. 8.—Following a number of heavy detonations, a portion of the cone of Mount Vesuvius sank within the crater, causing great internal ebullitions. An enormous column of smoke rose from the crater and spread out for miles. Professor Matteucci, director of the observatory, says that the sinking of the cone is merely a geological phenomenon.

Blown Ashore In Gale

Provincetown, Mass., Jan. 8.—The fishing schooner Duenna of Boston, owned by Dexter Malone, went ashore last night near Race point, being blown in by a high gale. The crew of seventeen men were taken off by lifesaving crews. The vessel's position is particularly hazardous in the event of a northwest wind.

Cuban Students Threaten Strike

Havana, Jan. 8.—A delegation of students from the university visited Governor Magoon and informed him of their determination to strike, absenting themselves from all classes until he should revoke his decree transferring the examination for licenses in pharmacy from the university to a commission.

NEWS IN BRIEF

The condition of Admiral Ludlow, U. S. N., who has been ill with the grip at Eastport, L. I., is regarded as grave. He had a relapse after a slight improvement.

A daughter was born to the Duchess of Manchester, who was formerly Miss Helen Zimmerman of Cincinnati, at Kylemore castle, near Dublin.

At a meeting of the York (Me.) Bar association the name of George F. Haley was presented as a candidate for judge of the Maine supreme court.

The University of Pennsylvania and the University of Michigan have renewed their two-year football agreement.

When You Feel "All Run Down"

The demands of modern business and social life—strenuous thinking, worry, irregular meals, late hours—overtax strength and impair health.

When you feel that you are losing your grip on things, the strain is beginning to tell and you have need for

BEECHAM'S PILLS

to restore health and strength to the overworked body and brain.

The stomach relishes its food, the mind regains its poise, liver and bowels act properly, the sleep is refreshing after a few doses of this half-century old remedy.

WORLD'S GREATEST FLEET

Summing Up of Year's Work of Boston's Fishing Vessels

Boston, Jan. 8.—The annual report of the Boston Fish bureau has been issued by Secretary Dimick, testifying in both the amount of fish caught and the prices obtained that the year has been very successful.

The pack of sardines was 1,400,000 cases, compared with 975,000 cases in 1906. The fresh mackerel catch was 56,169 barrels, against 35,240 in 1906. The receipts direct from the fleet for the other fares totalled 82,104,480 pounds.

The best stock was the schooner Elizabeth Sillsbee, Captain McKinnon, valued at $42,710. The schooner Fannie Belle Atwood, Captain Malone, was a close second with $42,000.

The Boston fleet engaged in the catching of ground fish is claimed to be the largest, costliest, swiftest and best equipped fleet of sailing vessels in the world. The fleet in 1907 consisted of 476 vessels, of which 307 were sailing vessels, one a steam trawler and 168 boats of various kinds.

Smoking herring being scarce along the Maine shore, vessels were sent to Massachusetts to secure cargoes, such a venture never having been known before. Good cargoes resulted. An interesting feature of the lobster trade was the sending of a vessel to Cashes bank, the boat returning with 2005 lobsters of large size.

Baptist Church Property Seized

East Brookfield, Mass., Jan. 8.—The First Baptist church building and land upon which it rests were seized by Deputy Sheriff Tarbell, acting on a warrant issued by the court. The property was turned over to Secretary Bond of the Massachusetts Baptist Missionary society. The seizure is the final act in the litigation which has been in progress for five years as the result of a dispute between two factions in the society and is a victory for the seceders.

Fire Destroys Famous Hotel

Lee, Mass., Jan. 8.—The Grenock inn, one of the best-known hotels in the Berkshire region, was burned to the ground by a fire that is believed to have been caused by a defective chimney. The loss is estimated at from $75,000 to $100,000. There were thirty-five guests in the house, but all made their escape safely, although many of them did not have time to dress and nearly all of them were unable to save any of their personal effects.

Leaves Children $100,000 Each

Biddeford, Me., Jan. 8.—The will of George Parsons, a summer resident of Kennebunkport, whose fortune was estimated at $5,000,000, was allowed in the probate court here. The widow is to receive $100,000 and the residence in New York, while each of the seven children will receive $100,000. Congregational churches at Kennebunk, Kennebunkport and Alfred are bequeathed $5000 each in trust.

Saving Money For Taxpayers

Boston, Jan. 8.—Mayor Hibbard this morning issued an order to all heads of departments, calling on them to reduce to the level of Oct. 1 all wages and salaries that have been increased since then. By this means it is Hibbard's purpose to wipe out the increase of several thousands of dollars granted by former Mayor Fitzgerald after his defeat for re-election and before his successor took office.

Street Car as Hearse

Somerville, Mass., Jan. 8.—An unknown woman about 60 years old died suddenly in a Highland avenue car last evening. The car was emptied of its passengers and for nearly two hours it was used to carry the body first to a doctor's, then to the medical examiner's and finally to an undertaking establishment. Heart disease was the cause of death.

Broken Neck Failed to Kill

Providence, Jan. 8.—Although a fall down two flights of stairs broke his neck, Jacob Aubuwski, a Polish Jew, has a good chance to live. The physicians expressed amazement that the man should be alive when picked up, and their astonishment increased when he showed signs of marked improvement upon his neck being placed in a special case.

Fatal Shotgun Accident

Freeport, Me., Jan. 8.—Dana Cushing, 28 years old, was instantly killed by the accidental discharge of a shotgun. The top of his head was blown off. Cushing had just returned from his father's barn, where he had been milking, and on going into a shed is supposed to have picked up the gun, which was discharged.

Hot Water For Burglar

Burlington, Vt., Jan. 8.—A plucky maid employed at the house of Judge Mower threw a kettle of boiling water upon a burglar who had looted the house yesterday afternoon. She ran after him and her cries attracted others, who joined in the pursuit, but the thief escaped.

Suicide From Sound Steamer

Hartford, Jan. 8.—Dr. A. J. Wheeler, who conducted a sanitarium in Cornwall-on-the Hudson, N. Y., and was prominent in social circles in that city, committed suicide by jumping into the sound from the steamer Hartford on its trip from New York to this city.

Sick Juror Stops Trial

Bennington, Vt., Jan. 8.—Yesterday's sessions of the trial of Alfred Mahan, charged with the murder of his 4-year-old niece, Ethel Mahan, were omitted on account of the illness of one of the jurors, Mark Sutton, 77 years old, who is threatened with the grip.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St incy, or the Treasurer, RICHARD D. CHASE ncy Bank Building, Quincy, will be very glad confer with any one or answer any inquiries

THOMAS GAMMON, Div. Supt.
J. T. CONWAY, Supt.

HOME PAGE NOTES.

The Latest Beauty Food.

According to the dictum of English diet specialists, a free use of currants in daily food is one of the most effective means of producing a clear, rosy complexion. Currants seem also to satisfy the craving both for strong acids and sweets, which are responsible for many muddy or coarse complexions. Besides possessing the incidental advantage of a beauty food, currants are known to be the most nutritious of all fruits, as they consist almost wholly of grape sugar in the form that is entirely assimilated during digestion. As a consequence of a wide dissemination of these facts through physicians and specialists, the use of currant bread in England has become almost as common as that of ordinary wheat bread.

Another "All Sufficient Food."

Currant bread made in the proportions of about three parts of currants to seven parts of dough has been found upon analysis to contain every ingredient necessary to complete human nourishment. To the food values of the flour the currants add their 73 per cent of sugar in its most valuable form, known as "invert sugar," a composite of dextrose and levulose, which is potential in producing and maintaining energy and vitality. Sir Francis Laking, King Edward's famous physician, recently pointed out in an article in the Scientific American, that currants also assist digestion, allay nervous excitement and provide against nervous exhaustion.

Best Food For Athletes.

Some one has been looking up the training diet of ancient Greek athletes, whose powers of endurance have never been equaled. It is discovered that the chief items in the athletes' diet were bread, cheese, thin wine and liberal quantities of the seedless currants, which to this day grow nowhere in the world outside of Greece. Investigation along the same line has led to the discovery that Nelson's sailors lived on pork, supplemented by a mixture of flour and dried currants, which not only contain a larger proportion of nourishment than any other dried fruit, but are also more easily digested.

New Mince Meat Recipe.

Here is a new recipe for mince meat, which comes from one of London's most famous chefs: Four pounds of apples pared, cored and minced, one and a half pounds of raisins stoned and minced, four pounds of dried currants, two pounds of beef suet finely shredded, one pound of sugar, one-quarter ounce mixed spice, one-quarter ounce of salt, the minced rinds of four lemons and the juice of two, one-third pint of sweet wine and one-half pint of brandy.

Food Value of Dried Fruit.

Sir Francis Henry Laking, King Edward's famous physician, has an article in the Scientific American on "The Food Value of Dried Fruits," in which he says:

"From recent analyses of samples of dried currants the fact has been verified that the fruit contains no less than 73 per cent of sugar in its most valuable form. This great saccharic proportion is already in the shape of grape sugar, and thus is potential to take up its work of producing and maintaining energy and vitality. It is what is known as 'invert' sugar, a composite of dextrose and levulose. It assists digestion, it allays nervous excitement and provides nourishment in case of nervous exhaustion.

"In the dietary of the peasant classes of Greece, a people remarkable for their hardihood and health, the currant appears at almost every meal, while in Germany and Holland currant bread is a common article of food. Indeed, among the many shapes in which the currant may be brought to the table a bread made of, say, thirty parts of currants to seventy parts of dough is one of the best.

"For children and those who must of necessity adopt a diet currants will prove a digestive aid and act as a gentle and natural laxative. Therefore any accusation against the delicious, economical and valuable little fruit must fall to the ground as absurd."

Facts About Currants.

Greece has an absolute natural monopoly of currant production, which averages about 160,000 tons a year. The seedless grapes, which when dried are known as currants, grow nowhere else in the world.

It takes about four pounds of fresh grapes to make a pound of dried currants. No artificial processes are used in curing. The best qualities are dried in the shade, all others in the sun.

The United States consumes 35,000,000 pounds of dried currants a year, less than half a pound a head. Great Britain's consumption is three pounds per capita and Holland's six pounds.

Dietists who have made a study of the food value of currants say that 97 per cent of their weight is soluble in water and that currants contain 75 per cent of nutritive value, or more than twice as much nourishment as lean beef.

To safeguard the industry upon which the welfare of the whole nation depends, owing to the fact that currants form 65 per cent of Greece's total production, heavy penalties are imposed upon growers who pick their crop before it is ripe or pack it before it is thoroughly dried and cleaned.

The Observations In the Daily Walk

Whist tomorrow night at Electa hall.

Public meeting at City Hall tonight on abolishing grade crossings at Saville and Water streets.

The office of the City Auditor at City Hall has been connected by telephone.

Officer Kelliher, who has been sick for some weeks, was taken to the City Hospital on Tuesday.

James H. Elcock, a prominent West Quincy citizen, is said to be slated for Principal Assessor.

The quarterly conference of the Norfolk Epworth League will be held at the West Quincy M. E. church tonight.

The Unity club of Wollaston will discuss current event in science at its meeting Friday evening in the Unitarian vestry.

The ladies' night of Quincy council, Knights of Columbus, to have been held Tuesday evening was postponed until next week.

Mr. and Mrs. Henry Kolseth of Walker street have returned from Manchester where they have been spending a week with relatives.

The Cochato club of Braintree is to hold its eighth annual ball on Friday evening under the direction of Mr. George E. Williams. There will be dancing from half past eight until one o'clock with special cars to Boston by way of Quincy.

Dennis O'Neil is using every effort to make a large skating pond in Jackson's field. Mr. O'Neil is extremely timely in these matters and by unrequested efforts for the town's benefit he has become very popular and very necessary in Atlantic.

Miss Ida Louise Poore, with Miss Lucy Chase at the piano gave a song recital at her home 73 South Central avenue to a delighted audience Tuesday evening. Miss Poore is a pupil of Stephen Townsend of Boston. She has a rich contralto voice of wide range, and rendered her selections with great expression. Miss Chase is an ideal accompanist and much credit is due her fine rendering.

Mayor Attends Installation

The installation of officers of St. Ambrose Court, M. C. O. F., took place in Hibernian hall, which was decorated for the occasion with flags and Christmas greens, on Monday evening, Jan. 6. D. H. C. R. Mary Dolan of Boston with staff conducted the ceremonies. H. O. S. Cornelius Duggan represented the high court. Mayor William T. Shea was present and addressed the court first as a forester, then as Mayor ,and received great applause. Speeches were made by Rev. William Duffy, Dr. Ash and Dr. Reardon and Mr. Duggan.

In honor of the Mayor, Mr. Duggan sang "Quincy Bells," the audience joining in the chorus.

The officers of St. Francis Court were invited guests. A buffet lunch was served by M. J. Martin, a Boston caterer.

The following officers were installed:

C. R.—Mrs. Mary D. Mahoney.
V. C. R.—Miss J. L. Callahan.
A. S.—Mrs. Annie G. Watson.
F. S.—Miss Mary Pickering.
Treas.—Mrs. Alice T. Ash.
S. C.—Miss Elizabeth McNeil.
J. C.—Mrs. Margaret Elcock.
J. S.—Mrs. Mary Scully.
O. S.—Mrs. Georgia O'Brien.

Officers Installed.

Daughters of John Adams, L. L. O. L., held their annual installation of officers on Tuesday evening. The new officers are:

W. M.—Annie A. McKenzie.
D. M.—Minnie McInnis.
Chap.—Margaret K McKenzie.
Rec. Sec.—Jessie McLeod.
Fin. Sec.—Jennie Ellis.
Treasurer—Annie Ross.
First Con.—Beatrice Budd.
Second Con.—Flora J. McLeod.
I. G.—Katie McPhee.
O. G.—Ida McKinnon.
Trustees—Jennie B. McLeod, Barbara Ross and Cassie Stewart.
Advisory Board—Andrew Stewart John B. Clark and Alexander Morison.

On account of the storm the installing staff were unable to be present. The officers were installed by Past Worthy Mistress, Annie C. Lamont, and Past Mistress Jane Murdock. After installation, coffee, sandwiches and cake were served. The hall was cleared for games and dancing till a late hour.

The Kitnalta whist club spent a pleasant evening with Miss Ethel Vogler on Monday. Miss Katherine Pike will entertain the club on Jan. 20, at the home of Mrs. Elijah Hall of Newbury avenue.

The Ladies' Benevolent society will hold a charity sewing bee in the Memorial church vestry at Atlantic, this afternoon from 1.30 to 5. Refreshments will be served. It is hoped that there will be a large attendance.

If some of the gunning enthusiasts who hold forth at the Hummock would take into consideration the fact that everyone isn't a gunner, they might leave a few light bulbs along the causway. Because the electric lights interfer with their game, these sportsmen make targets of them and as the bulbs are expensive, the city, after continued replacing, has refused to make good. Now there are no lights along the causway to Squantum which is at best a dark and dangerous place.

DIED.

CARTER—In Atlantic, Jan. 7, Flora E. Carter of 42 Webster street, aged 34 years.

Established 1870. Telephone.

1435 Hancock Street, Quincy, Mass.

AMONG THE CLUBS.

The woman's club year is half over; how much permanent good has been accomplished is a question hard to answer, for the influence for good from the women's clubs will reach into the coming years long after the club women of 1907 are gone.

Mrs. Laurance H. Sturtevant as hostess and Mrs. Alfred Thompson in charge of the afternoon's program, gave the Junior Friday club a very pleasant meeting on Monday afternoon. Several members were absent on account of illness and it is hoped by another meeting all will be able to attend. Refreshments were served and social chat brought the afternoon to a close.

The New England Associate Alliance is to meet on Thursday Jan. 16th in All Souls church, corner of Warren street and Elm Hill avenue, Roxbury with morning and afternoon sessions.

Members of the Day Nursery association are planning a Valentine party to be given in Music hall which will surely delight the hearts of all the children. There will be an entertainment and dancing in the afternoon for children under sixteen and an evening dancing party for those over sixteen. It surely promises a very happy time for all besides raising a snug little sum for Day Nursery work.

Mrs. Herbert J. Gurney has the program in charge for the next meeting of the Friday club.

First church Alliance is to hold the first meeting since the holidays on Monday afternoon in the chapel at three o'clock when Sunday school work will be discussed with Mrs. Clara B. Beatley and Mr. Charles H. Johnson as the speakers.

The regular monthly meeting of Junior Auxiliary to Y. M. C. A. will be held in Association hall, Saturday at 3.30 P. M. This is a very important meeting and it is earnestly hoped that every member will make a special effort to be present.

The next meeting of Whatsoever Circle King's Daughters, will he held Monday, Jan. 13, at 7.45 with Mrs. Herman Weiting, Safford street.

Action was taken at the annual meeting of the Massachusetts state society, United States Daughters of 1812, at the Hotel Lenox, on Tuesday, says the Herald, which may result in the purchase by Massachusetts patriotic societies of the flag of the frigate Chesapeake, which was captured by the British frigate Shannon in a battle off Boston Harbor in 1813. A flag purporting to be that of the Cheasapeake is advertised to be sold at public auction in London on Jan. 29. The following committee was appointed to take action in the matter: Gen. Charles K. Darling, president of the Sons of the American Revolution, chairman; E. P. Thompson of Worcester, president of the Sons of the Revolution; Mrs. C. H. Masury, state regent of the Daughters of the American Revolution; Mrs. Nelson V. Titus, president of the Daughters of 1812; Mrs. Frank C. Granger, state regent of the Daughters of the Revolution.

QUINCY WOMEN'S CLUB.

The Quincy Women's club resumes meetings next week after a recess since Dec. 10th. The meeting is called for half past two for business and at three o'clock the Education committee will have charge of the program. They have secured as the speaker Mrs. Isabelle Davis, so well and favorably known to most of the members of the club.

Her subject will be "Voice and Gesture" and she says it is much more interesting than perhaps the title would indicate. There will also be a good musical program and afternoon tea will be served at the close of the meeting.

For the musicale on Jan. 28th the club will be pleased to welcome Mrs. Chandler W. Smith who served the club so faithfully as first vice president for two years and whose resignation as president was so much regretted last fall. Miss Winnetta Lamson, a fine soprano soloist and several other artists of note will contribute toward making the program for the musicale a most attractive one.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

MISS C. S. HUBBARD,
1363 Hancock Street, City Square, Quincy.

The Civic committee has added goodly sums to its treasury recently; $75 by Mrs. Lawton's concert the proceeds of which will go toward beautifying the club house grounds, and $105 from the annual assembly the proceeds to be used at some future time for beautifying Quincy centre. The Atlantic committee is to have an entertainment soon to raise money to improve the surroundings around the Atlantic station.

Other committees are very actively at work. The Education will have the usual festival for children the last of April to raise funds for carrying on its summer work.

The Visiting Nurse continues in her good work of ministering to the sick.

The Philanthropy committee holds meetings and discusses various phases of the work and are interested in several charities.

For club members the club program for the remainder of the year presents a varied and pleasing program, every meeting having a speaker of note or some especially attractive feature which no member should miss.

For next year the program committee has in mind decided changes, giving each committee only one afternoon to provide for and the committee filling in the other meeting each month with especially attractive programs of a varied nature.

Mrs. George W. Morton, who has been ill and unable to attend to her duties as president of the club, is recovering, and hopes soon to be with the club. She has the welfare of the club constantly in mind and is giving the various works of the club considerable thought.

DAY NURSERY ASSOCIATION.

The regular monthly meeting of the Quincy Day Nursery association was held at the Quincy Women's clubhouse on Tuesday, January 7th. The president was in the chair, and there was a good attendance.

The matron reported, number of children at Nursery in December 159, donations as follows: 62 quarts of milk, Mrs. King; one half bushel apples, Mrs. H. M. Faxon, curtain and rug, Mrs. Miller; rolls, cake, ham, salad, pie, Bethany Ladies circle; food, books, pictures, toys, fruit, Mrs. Sheppard's class, Bethany church; large box of meat, vegetables, candy, Bethany church; bag of vegetables and apples, Miss Townsend's class Bethany church; paper nails and fasteners, Mr. Sibley; Christmas wreaths, apples Mrs. Ross; toys Junior Auxiliary Christ church; mince pie, Mrs. Addison; Christmas tree, gifts, and refreshments, Mrs. King, Mrs. Blanchard, Mrs. H. M. Faxon, Mrs. Sibley and Mrs. Addison.

A most delightful Christmas tree and party was held at the Nursery on Saturday afternoon December 28th. The Association will hold a Rummage sale as soon as a store, in which to hold it can be found. In February there will be a Valentine party, afternoon and evening, in Music hall.

DAUGHTERS OF THE REVOLUTION

Adams Chapter Daughters of the Revolution met on Monday afternoon with Mrs. Oakes A. Bridgham of South Braintree with Mrs. Bridgham, Miss Nellie Potter and Mrs. E. Granville Pratt as the hostesses.

A short business meeting was held after which a pleasing program was given. Mrs. Herbert J. Gurney of Wollaston said her subject was "Gossip of Connecticut Towns," which proved to be delightful gossip and in every way favorable to the towns mentioned. Mrs. Gurney had spent several weeks at Windham and Scotland and told of the old houses full of old furniture, pewter, samplers, and gave several stories of the olden days as told her by the old residents. She also passed several post cards descriptive of her talk. Mrs. Gurney has a charming personality and always has something interesting to tell and was thoroughly enjoyed on this occasion.

Mrs. Isabelle Davis of Quincy gave a reading in her usual charming way, which makes her always in such demand as a reader. She is very busy this season filling engagements at clubs and directing amateur dramatics so that it was a pleasure to have her as a guest for the afternoon. After "America" was sung a vote of thanks was extended Mrs. Gurney and Mrs. Davis.

A gift basket had been arranged into which each chapter member dropped a gift on her arrival and during the social hour a bit of the holiday spirit was enjoyed as each one drew out a package and proceeded to see what it was. After the excitement of investigation and seeing what every one else had receivd, a dainty lunch of salads, ices and coffee was served by the hostesses. All voted it one of the best meetings of the season.

The February meeting will be held with Miss Annie L. Prescott, 41 Spear street, Quincy, with Miss Prescott, Mrs. Frank F. Prescott and Mrs. Francis Guild Mayo as the hostesses. A paper on "The Village Arch of 1798" will be read by Miss Mary H. Hinckley of Brook road, Milton, who has written several very interesting historical papers, one of the most notable being "Neponset River Ferries and Old Plymouth Road."

As the annual meeting comes in March members are reminded that the annual dues are now due and have to be paid before casting the ballot at the election.

NEIGHBORING CLUBS.

Gentlemen's nights are quite in order now among the women's club, every week recording some festivity in observance of this pleasant annual affair.

On Monday afternoon the New England Women's club held its informal New Year's reception to Mrs. Julia Ward Howe, each member being entitled to bring a guest, a privilege many availed themselves of, resulting in a large gathering.

Tuesday was home talent afternoon with The Philergians of Braintree and a most enjoyable vaudeville program was given consisting of two one-act comedies, monologues, and fancy dancing. The club has already given a delightful play this season. The club thoroughly enjoys its home talent afternoons.

Watertown Woman's club "guest night" observed on New Year's night was an event long to be remembered. A Shakesperian recital was given by Prof. Marshall Darrach of the "Comedy of Errors." Mr. Darrach also assisted in receiving during the reception.

The Wellesley Hill club observed New Year's day by a Kipling afternoon. There were readings from his works interspersed with Kipling songs, making up a very pleasing program. The club observes gentlemen's night on the fifteenth.

Hon. John D. Long addressed the Melrose Women's club last week on "Our American Navy" giving a review of the part sustained by our navy, in the four wars of our country with a description of the modern nevy, steel ships and the training of the sailor.

Mr. James P. Munroe lectured this week before the Watertown club on the subject "The Eternal Feminine" treating the subject not sarcastically as might be thought by the subject but in the higher, broader sense.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

CITY HOSPITAL.

THE Annual Meeting of the Corporators of the City Hospital of Quincy, will be held at Colonial Hall, on MONDAY EVENING, January 20th, at 8 o'clock, for the election of trustees for the ensuing year, and the transaction of any other business that may come before them.

WARREN W. ADAMS, Clerk.

First Game A Victory

Tuesday afternoon in the new school gymnasium the High school basket ball team won the opening game by a 30 to 4 score over Braintree High. In spite of the short time in which the local team has been practicing a very interesting game was played. Gourlie and Warden excelled for the winners and Morgan for the Braintrees.

Following is the line-up and score:

QUINCY	BRAINTREE
Howe, r.f.	l.b. Morgan (Long)
Gourlie, l f.	r.b., Welsh
Duncan, c.	c., Welch
Marden, r.b.,	l.f., Howland
Marsh, l.b.	r.f. Belyea

Score Quincy, 30; Braintree, 4. Goals from floor—Gourlie 8, Duncan 6, Howe 1, Howland 1. Goal from fouls—Howland, Belyea. Free tries missed—Gourlie, Howie, Duncan. Fouls called—On Howe, Duncan, Long (2) Welch. Referee, Pierce. Umpire, Wilson. Scorer, Lacey. Timer. Cleveland. Attendence, 300.

The next game will be played with Rockland High on Friday afternoon at 3.30.

Quincy Post Office.

GRADE CROSSINGS

Adjourned Meeting Unable to Agree On Any Plans For Abolition

Another meeting of the citizens relative to the abolition of grade crossings was held in the Council chamber at City Hall on Wednesday evening. It was largely attended, and there was considerable discussion in which a variety of views were expressed. The meeting did not reach an agreement on either crossing, and an adjournment was taken until Thursday evening, Jan. 16.

A more comprehensive idea of the plans proposed however was had, as they were thrown upon a large screen by a stereopticon. Ex-Mayor Thompson presided and in opening the meeting stated that the two committees had, after much discussion, agreed.

Clarence Burgin, clerk of the Saville street committee, then made the report for that committee. He said that the opinion of the committee was for an overhead bridge or underground crossing for teams and pedestrians. That another station should be built on the west side of the tracks. That Upland road should be connected with Irving place and extended to Granite street.

On the matter of an overhead bridge at Saville street the vote was three in favor and six against.

On an overhead bridge south of the station, the vote was six in favor and one against.

It was voted to recommend the advisability of a new street from Irving place to Goffe street connecting near the junction of Goffe and Saville streets.

The hall was then darkened and the plans shown on the screen. The first was the railroad plan to close Saville street.

The second was for an overhead bridge at Saville street starting from near Fountain square and rising by an 8 per cent grade. This would necessitate the removal of the corner store now ocupied by Henry P. Kittredge.

The third plan which was the committees' plan, was for an overhead bridge starting from near City Hall and running in a south westerly direction at a 10 per cent grade. This necessitated the removal of the building now occupied by Penniman's stable. It also showed the proposed new street to Goffe street from Irving place and the extension of the latter street to Granite street. Under this plan the Granite street bridge would be raised two feet.

G. B. Bates objected. He believed that the tracks should be depressed starting from a point 500 feet north of Presidents bridge, being lowered ten feet at the Saville street crossing. This would bring the tracks on a level with the sidewalks under the Granite street bridge. He would then have a new street from Irving place that would pass through Sheppard's coal yard to Granite street.

Henry L. Kincaide asked how this would work out with raising the tracks at Water street.

City Engineer Flood replied that Water street would have to be lowered.

J. W. Pratt said Water street is not what it should be. The street should go where the line of travel is.

The Saville street matter was then laid on the table.

For the Water street crossing Henry McGrath made the report of the committee. All of the committee present he said, were agreed that the present grade of Water street should be retained. The committee recommended elevating the tracks to give a headway of 12 1-2 feet. This would do away with the present School street. A new street was then proposed starting from near the corner of Phipps and School street, running through the McDonnell property to the meadow in the rear of the Police station. Here it would connect with a new street leading to Fort street, and Marsh street could be extended to it.

The railroad plan was first thrown upon the screen. This provided for an overhead bridge south of the Quincy Adams station.

The next plan shown was the committees' plan as outlined above.

J. W. Pratt questioned if it would not be unsightly.

Henry McGrath did not see why it should be. Lowering Water street to any amount would be objectionable. If lowered one foot it would only be necessary to raise the tracks 12 1-2 feet.

In reply to a question as to the difference in grade between the Quincy and Quincy Adams station, City Engineer Flood said Quincy was 3 feet higher.

E. H. Angier believed a comprehensive plan could be divised to depress the tracks all the way to Braintree.

The Tupper plan was then shown. This was called the Field plan as the latter gentleman had suggested some of its features. This plan called for a new way from Water street near the Vogel sheds running in a south easterly direction. Passing under the tracks near Crane's elevator. It also showed a continuation of the street to Franklin street, a new street leading to Water street on the east side of the tracks and a new street connecting with Liberty street. Under this plan the property of the Merry Mount Granite Co., John L. Miller, Alexander Clark, McGilvray & Jones and F. H. Crane & Sons would in a measure be wiped out.

John Q. A. Field favored this plan. Crane and the others would be provided for. The heavy teaming will be on level ground, and on a level with the new freight yard. Any plan that cuts off the new freight yard is not right. He did not want to hurt McGilvray & Jones, Crane or Miller. It was the best scheme for people who do business at South Quincy.

F. L. Jones—It seemed as if all these firms would be wiped out. If a bri[illegible] it can be [illegible] sorry if Mr. F[illegible] ting up that pla[illegible] see the railroad raise[illegible]

Peter T. Fallon had a [illegible] He would start on Water street wit[illegible] a street that would pass through the McGrath property, across Pleasant street and continue on the west side of the tracks until it intersected Marsh street.

Henry L. Kincaide said the committee considered all these questions. The City Engineer's scheme was the best and the Tupper plan second. By depressing the street at the crossing it will never be noticed. School street would not then have to be abandoned. He hoped there would be no move until all are satisfied.

Paul R. Blackmur—The Commissioners are to determine the method of separation, but not a general large public improvement. We want to agree on the best plan for the city, and must consider the rights of the travelling public. Look out for the people who own property. The Commission will take these things into consideration. They will not take any round about way. A plan that closes Water street will be a mistake. We want to see that there are frequent ways for people to cross the tracks. The people at South Quincy are entitled to have existing ways maintained. He believed the plan of the City Engineer the best one.

J. W. Pratt—We do not ask Commission to lay out streets but eliminate them. He thought the Field plan the best.

P. J. Fitzgerald could not see how business would be benefited by depressing Water street. It was impossible to drain the street now. If we have got to raise the tracks it is just as well to raise them 18 feet. A business of $225,000 a year comes in on the spur tracks.

Henry McGrath— The Granite Manufacturers Association was almost unanimous for the committee plan.

Andrew Milne—We have had several meetings at South Quincy and we will agree to this plan if the switches can be maintained. He considered that the Field plan would cost too much money and do away with too much property.

James F. Burke said it seemed wrong to adopt a plan that would do away with taxable property. He stood for the committees' report and urged the citizens to be united before the commission.

John Q. A. Field said he had helped to lay out nineteen crossings. The commissioners like different plans. I have a right to present a plan I think good for my business. He hoped all would agree. If you can elevate the tracks and take care of the switches he would agree.

E. H. Angier thought the meeting in no position to endorse any plan and moved the report be laid on the table. Voted.

Upon motion of P. T. Fitzgerald it

Our [illegible]

The Mayors' club of Massachusets met at the Parker House, Boston, on Wednesday and were addressed by President Eliot of Harvard University on "Municipal government and government by commission." Edward Glines of Somerville was elected president and Charles H. Porter treasurer.

The Herald interviewed several of the members on the government by commission with these opinions:

Ex-Mayor Russell A. Sears of Quincy—I cannot say that I favor the Des Moines plan except in a large metropolitan city like Boston. My own city was the first to adopt a unique form of government which is found with that system, it is not the theory, but only the administration of it which can be criticised.

Ex-Mayor John Hall, Quincy—I should say no, because my experience teaches me that commissions, except in very large communities, like a state, are not the best means of getting most satisfactory results. There is conflict between the various commissioners, and differences of opinion in the average board.

Ex-Mayor Charles H. Porter, Quincy—I do not know enough about the Des Moines plan to answer satisfactorily. I have heard that the Galveston plan has been a great success. I don't think the smaller cities as a whole have reached a point where a commission is desired, though I think some of the smaller cities do need a commission very much. In Quincy we have an entirely different charter from any other in the state. A mayor in Quincy has unlimited power of removal. He makes an appointment, and that's all there is to it.

Quincy, Jan. 8, 1908. 11t

Brooms Flying On the Melrose

The steam collier Melrose, built by the Fore River Shipbuilding Company for the New England Coal and Coke company of Boston, had her speed trial on Wednesday. She returned to the works late in the afternoon with brooms flying. She had exceeded her contract speed by one and two-tenths knots.

The Melrose is a sister ship to the Everett and Malden, and is the last of the trio to be completed. In her trial she beat the record of her sister ships. The best record was held by the Everett. The Melrose will be turned over to her owners on Saturday.

Charles B. Ward, formerly a leading man in the shipwright department under Mr. Godfrey, and sometimes called the, "Armor King," has engaged in the coal business in Philadelphia.

The many friends of Archie Clements formerly of the S department, who fell recently while at work at the Navy yard at Boston and sustained a broken knee cap, will no doubt be pleased to hear that he is improving.

About a dozen of the rivet machine workers at the shipyard are out, because their demand for more pay was not granted.

Rear Admiral Capps, chief of the bureau of construction and repair of the Navy department, in his report for the fiscal year ended June 30, submits estimates for the maintenance of his bureau for the year 1909. These include an item of $20,000 for repairs and improvement of plans at the Boston navy yard. For clerical services at the Boston yard an estimate of $69,302.80 is submitted; also $3,434.50 for salaries of three additional clerks at Boston.

Regarding the Portsmouth navy yard, the report says the condition of its approaches are such as to preclude for the present the possibility [illegible] point, which [illegible] to the navy [illegible] Capps expresses the hope that the Portsmouth yard will be available at an early date for docking battleships.

The report says the work on the sea-going Patapsco, which is being constructed at the Portsmouth yard, has been delayed owing to the necessity of shifting workmen to repairs on other vessels from time to time. This will result in increasing the cost of constructing the Patapsco, but Admiral Capps says the government is really economizing, because it will have a force of trained mechanics available in case of emergency.

For the Portsmouth yard, Admiral Capps submits the following estimates: Repairs and improvement, $15,000; civil establishment, three clerks, $3,434.50; salaries of employes, $28,871.12.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Leaves Widow And Ten Children

The funeral of John Hollinshead was held Wednesday from his late home, 218 Washington street, Braintree. The services were conducted by Rev. W. E. Gardner, rector of Christ church, Quincy. The deceased was in his 59th year and had been a section foreman on the N. Y., N. H. & H. R. R., for 36 years. He was survived by a wife, eight daughters and two sons. Burial was at Mt. Wollaston cemetery.

Many elaborate floral pieces were received from the following:—

Pillow of sweet peas and calla lilies marked "Husband."

Standing wreath marked "Father" from children.

Wreath marked "Brother" from Thomas Hollinshead and family.

Wreath of leaves and jack roses from railroad men and friends at Quincy Adams.

Large wreath from railroad men and friends at Braintree.

Better Channel Wollaston Beach

The following resolve has been introduced in the Legislature on the petition of William M. Chase, commodore of the Wollaston Yacht club, for enlarging the channel at Wollaston beach is as follows:

Resolved, That the board of harbor and land commissioners is hereby authorized and directed to deepen and enlarge the channel dredged at Wollaston beach under the provisions of chapter 366 of the acts of 1903, so that it shall be not less than 60 feet wide on the bottom and six feet deep at mean low water. For this purpose the board may expend a sum not exceeding $10,000.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

BACK TO THE GOULDS

Mercantile National Bank Passes From Control of Heinze

COULD NOT MEET PAYMENTS

Copper Magnate Arraigned on Charge of Over-Certifying Checks and Pleads Not Guilty--Under Bail of $50,000 Pending a Hearing

New York, Jan. 9.—Unable to meet payments due on his stock in the institution, F. Augustus Heinze yesterday lost control of the Mercantile National bank, the conduct of which, as its president, earlier in the day had brought about his arraignment in the United States circuit court on charges of over-certification.

Just one year ago Heinze bought a controlling interest from the Goulds with whom he pledged his holdings as security for his promise to pay for the same in full within one year. This loan of $1,200,000 was due yesterday to Edwin Gould and William N. Cromwell. Up to the last moment Heinze fought to meet his obligations.

Heinze, now under bail following an indictment by the federal grand jury on a charge of over-certifying checks of his brother's brokerage firm, involving $150,000, was arraigned before Judge Chatfield yesterday. A plea of not guilty was entered, with permission to alter or withdraw it or to make any desired motions later. Then an adjournment was ordered until Jan. 20, when the final plea will be made. The bail of $50,000 was continued.

It is reported that other men equally as prominent as Heinze in Wall street operations are to be called before the federal authorities to plead to similar indictments. Who they are or when their arrests may be expected could not be learned. It is known that the grand jury is not yet through with its inquiry into certain banking conditions exposed by the recent financial trouble.

When, following the collapse of the United Copper pool and the subsequent clearing house investigation of Mercantile, Heinze as president, and the board of directors resigned, the copper magnate declared he still would hold his stock. The bank, however, had been adversely affected by the trouble, and it was generally believed a way would be found again to bring it under the Gould influence. This opportunity came yesterday. A new directorate, practically installing the

Says Many Bankers Deserve Jail

New York, Jan. 9.—Attorney General Jackson, in a speech last night in Brooklyn, said: "I have never met, in a like period, so many men who ought to be in jail as in my recent investigation of the affairs of banks that got into difficulties in the recent panic. The lawless methods of these private bankers through deliberate violations of the trust reposed in them, the reckless use of other men's money for the promotion of their own speculations, constitute a chapter in the history of high finance which throws a great light upon the question as to who is responsible for the financial panic of 1907."

Terrible Result of Fire

Canton, Jan. 9.—A Chinese recently returned to Canton from California with a cinematograph machine. At a wedding feast at the Choi Chan restaurant he gave an exhibition of moving pictures. Several hundred Chinese crowded into the place, packing it tightly. The film took fire. There was a panic, during which the building collapsed and burned, and 300 lives were lost.

Millions For Havemeyer Family

New York, Jan. 9.—It is learned that members of his family are the only beneficiaries under the will of the late Henry O. Havemeyer, head of the American Sugar Refining company, who died last month. Havemeyer's estate, which is variously estimated at from $15,000,000 to $25,000,000, is left largely in trust to his widow and his three children.

"Mental Healers" Jailed

Kalamazoo, Mich., Jan. 9.—Mrs. David Neeley, mother of Walter Neeley, 2½ years old, who died at Plainwell from pleuro-pneumonia after having been treated by members of a sect of mental healers instead of by physicians, has been placed under arrest.

GRAFTERS CLEANED OUT

New Administration Takes Charge of San Francisco Affairs

San Francisco, Jan. 9.—The last remnants of the Schmitz labor administration, under which graft flourished for six years, have been cleaned out of the city government. No vestige of Schmitz or Ruef Auditor remains in the municipal administration which began yesterday, for even the two officers elected on the McCarthy ticket, the treasurer and county clerk, have abandoned the Schmitz standard that flew from the county jail.

Every other officer in the city, including a complete board of supervisors, is occupied by men elected on the Democratic and the Good Government tickets. The appointive offices are likewise filled by officers of Mayor Taylor's choice, or men selected by the commissions he named.

Superior Judge Dunne yesterday issued an order turning over Abraham Ruef, confessed bribe taker, who had been held under private guard, to Sheriff Dolan. Ruef was transferred from his private prison in Fillmore street to the jail at Ingleside, where he joined former Mayor Schmitz and Louis Glass, manager of the Pacific States Telephone company.

Didn't Get the $10,000

Baltimore, Jan. 9.—Thomas Sessums who says he is an enlisted United States army musician, was arrested at the residence of John E. Hurst, a wholesale dry goods merchant, where, it is alleged, he had gone to get $10,000, which amount it is charged, he had recently demanded by letter that Hurst have ready for him when he called for it last night. Hurst managed to entertain his caller until the police arrived on a hasty summons and arrested Sessums.

Deposed From the Ministry

Salt Lake City, Jan. 9.—Dean James B. Eddie, convicted of immorality by an ecclesiastical court, was formally deposed from the ministry of the Protestant Episcopal church. The sentence was imposed publicly by Bishop Spalding. At the reading of the sentence disapproval was manifested by a portion of the congregation whose faith in their former pastor is unshaken. The chief witnesses against Eddie were choir boys at St. Mark's church.

Energetic Policy in Morocco

Madrid, Jan. 9.—M. Pichon, the French foreign minister, who is now here, has been in conference with the government with the idea of securing the co-operation of Spain in the carrying out of the more energetic policy in Morocco upon which France has decided. It is understood here that Germany is now ready to give France and Spain a free hand in Morocco, provided the "open door" there is not disturbed.

Government to Sue Railroads

Washington, Jan. 9.—Attorney General Bonaparte has directed the various United States attorneys to institute suits against a large number of railroad companies to recover penalties incurred by them for alleged violations of the safety appliance laws. The facts under which these prosecutions are based were reported to the interstate commerce commission by its inspectors of safety appliances.

To Sever Marital Bonds

London, Jan. 9.—Rufus D. Isaacs and William T. Barnard have been retained as counsel by the Countess of Yarmouth, who was Miss Alice Thaw of Pittsburg, in the suit which she has brought for an annulment of her marriage to the Earl of Yarmouth. The earl's counsel will be R. N. Crane and probably Edward H. Carson.

An Expert in Insurance

Wellesley, Mass., Jan. 9.—Frederick L. Cutting, for ten years insurance commissioner of Massachusetts and one of the leading insurance experts in the country, died of paralysis at his home here last night. He was born in Boston in 1842. He served three years in the Massachusetts volunteer infantry during the Civil war.

Penalty For Train Wreckers

Washington, Jan. 9.—Representative Moore (Pa.) introduced a bill providing for the punishment of train-wrecking by imposing a penalty of imprisonment for ten years and a fine of $10,000. Where death results from such wrecks the bill would have the offense dealt with as murder in the first degree.

Greene and Gaynor Begin Sentence

Atlanta, Jan. 9.—Benjamin D. Greene and John F. Gaynor arrived at the federal prison in this city last evening and were put through the examinations given to all prisoners. Their work in the prison has not been decided upon.

Our Battleships Off Brazil

Pernambuco, Brazil, Jan. 9.—The American battleship fleet, under command of Rear Admiral Evans, was sighted passing this port on its way to Rio Janeiro.

Almanac, Friday, Jan. 10.
Sun, rises—7:30 a. m.; sets—4:30 p. m.
Moon sets—12:04 p. m.
High water—4:30 a. m.; 5 p. m.
Showers and cold followed by fair weather in New England.

Too Risky

Ask your doctor if he does not think it would be wise for you to keep a bottle of Ayer's Cherry Pectoral in the house. "A cough, cold, or throat trouble, though slight at first, is difficult to manage and dangerous if neglected. I should not like to say how many people I have known to die of consumption, who might have been cured if they had only taken Ayer's Cherry Pectoral in time. It is a wonderful medicine, and I would not be without it." — Mrs. Ellen Hall, Ashland, Ohio.

To doctor yourself would be too risky. If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him what you have done.

J. C. Ayer Co., Lowell, Mass.

The Slow Progress Of Jury Building In the Thaw Trial Continues

SIX MEN FINALLY ACCEPTED

Defense Springs Surprise by Issuing Subpoenas For Expert Witnesses Who Testified For Prosecution at the First Trial--May Block Jerome

New York, Jan. 9.—The work of securing a jury to try Harry K. Thaw a second time for the killing of Stanford White was half completed when court adjourned shortly before 6 o'clock last night. The original venire of 300 special veniremen who had been exhausted ... ordinary night ... two hundred additional talesmen have been ordered to report today.

The oath of service was administered yesterday to three men making six in all who have been finally accepted. Three provisional jurors also were in the box at the close of the day's session, but they are still subject to peremptory challenges. Another storm of those arbitrary removals struck the panel when all twelve seats had been filled at 4 o'clock and six chairs were left vacant when it subsided. The defense now has exercised eleven of its thirty challenges and the prosecution eight.

The sworn jurors, in their respective positions, are: Charles E. Gremmels, ship broker, foreman; Arthur R. Naething, baker; George W. ..., dry goods; George ..., John H. Holbert, ... vid E. Arrowsmith, manager. The provisional jurors are William McAdie, salesman; George M. Metzze, drugs; James S. Davidson, clerk.

The plan of maintaining both permanent and temporary jurors in the trial panel until twelve men finally are selected for service is unique in the New York ... and imposes double duty ... who are directed ... and the provisionals separate.

In the selection of the jury, Martin W. Littleton, Thaw's senior counsel, is so conducting his examination of talesmen as to indelibly impress upon them the fact that if the defense introduces evidence tending to show that Thaw was insane at the time of the Madison Square roof garden tragedy, the burden of proof falls upon the shoulders of the district attorney and he must ... beyond a reasonable doubt that ... was legally sane. This principle of law was not so clearly enunciated at the former hearing.

Thaw's attorneys yesterday furnished the first big surprise of the second trial by admitting that several of the expert witnesses who served on the staff of the district attorney at the first trial and who declared when Jerome made application for a lunacy commission that in their opinion Thaw was so insane ... not to know the nature of the ... against him and was ... incapable of intelligently advising with his counsel, are now under subpoena by the defense.

They made affidavit that in their opinion Thaw, at the time of the inquiry, was suffering from an incurable form of insanity. These same doctors, however, had previously testified on the witness stand, in response to Jerome's famous hypothetical question, that they believed Thaw knew what he was about when he shot and killed Stanford White.

This move, it is said, is intended by the defense as a block to the prosecution ... these same doctors ... is taken home ... Thaw ... shall not be convicted, even with the danger of a stay in the asylum for the criminal insane at Matteawan as the alternative.

The alleged ... of the prosecutor at the first trial were Drs. Mabon, MacDonald and Flint. They were present at the former hearing from the very first day and their ... was ... commented.

The defense in the present trial is insanity at the time White was killed. In making out this case it will require delicate handling to show Thaw so mentally deranged ... that ... not know the nature or quality of his act, and at the same time show that he is now mentally sound.

If they are placed on the stand Littleton may interrogate and draw from these men the opinion that Thaw was ... at the time of the ... killing. ... testimony as to the defendant's mental condition to the immediate period of the tragedy.

If successful, ... the defense would ... on Thaw's mental condition in the summer of 1906. This, in turn, would force District Attorney Jerome to again apply for a lunacy commission, and Thaw's attorneys are confident of his ability successfully to fight out his claim of present sanity before such a ...

Frozen Herring

A DIVISION OF PARTY

Only Reason For Democratic Defeat In National Affairs

VIEWS OF MORGAN O'BRIEN

Following of Jeffersonian Principles Would Insure Success—Grover Cleveland on Situation Now Confronting People of Our Land

New York, Jan. 9.—Speaking on the topic "Why Is the Democratic Party Divided?" Morgan J. O'Brien, former justice of the appellate division of the supreme court, who was the guest of the National Democratic club last night, declared that if the causes have divided the party were known it would be found that they have been due to our failure to stand firmly for Democratic principles, to a preference shown by some for popular drifting sentiment, as contrasted with sound doctrine, and to a preference for men rather than for principles and traditions."

Mr. O'Brien's remarks were highly complimentary to Hon. Grover Cleveland and by reference to former President Grover Cleveland and by reference to Alton B. Parker as "an ideal candidate," said:

"The aims and principles of the party have been so frequently stated in platforms and public addresses, and so well summarized in Jefferson's first inaugural address, that it is unnecessary to repeat them at length, but in passing it is proper to note that whenever the party has stood unanimously for these principles we have never met with a defeat, and it has only been when the party has been divided, because of departure from them, that success would result from following some shifting opportunist idea of the hour and improved practice of record, that we have met with overwhelming and deserved defeat. To ascertain the cause of this, we need but look carefully into the campaigns that have been waged and contrast the men and the measures that were successful with the conditions that existed at the time of defeat."

A letter received from Grover Cleveland expressed regret at being obliged to decline an invitation to be present at the dinner and said:

"It is but natural that those who have followed all their lives the Democratic standard should longingly desire their party's success, but this success cannot be gained by either shooting our party names or attempting fusion democratic experiments.

"I am profoundly impressed by the conviction that the situation now confronting the people of our land demands their attention more to their relief from conditions that alarm and startle them than to the empty satisfaction of partisan supremacy.

"Our country needs consecration, reparation from nervous prostration, reinstatement of constitutional observance, buoyant but none the less safe and prudent Americanism, scrupulous care of every person and every interest entitled to care, and a 'square deal' that means exact and honest equality before the law and under constitutional guaranty.

"These things are still among the possessions of true Democracy, and Democratic patriotism, sincerity and wisdom demand that our party, in this time of need, should unfeignedly confess them to our countrymen.

"I regret that I must be absent from a Jackson day dinner where the atmosphere must so thoroughly Democratic, is intensified by my close friendship and admiration for the guest whom your club will especially honor on that occasion. It would be an unusual and memorable gratification if I could add my tribute of praise to one who, by nature, by conviction, by clean party service and by clear understanding of party doctrine, has so well earned Democratic confidence and devotion as Morgan J. O'Brien."

Thinks Japan Will Tackle America

Paris, Jan. 9.—La Presse publishes a long interview with Jacques Bloch, the historian, who declares his belief that a conflict between Japan and the United States is certain, for the reason that Japan seeks war. He advises American fleet to be on the watch for a sudden Japanese descent and says it is time Great Britain and France to act before it is too late.

Victory For Prohibitionists

Decatur, Ala., Jan. 9.—The petition for mandamus to compel the probate judge of Morgan county to issue a saloon license was dissolved in the circuit court by Judge Speake. This was a test of the constitutionality of the local option law, under which was held the recent election which voted liquor out of Decatur after Jan. 1, 1909.

Bryan Is Endorsed

Tacoma, Wash., Jan. 9.—The Democratic state central committee chose Spokane as the place for holding the state convention to select delegates to the national convention. The committee adopted a resolution favoring William J. Bryan.

Given the Third Degree

Murder Suspect Released After a Ten-Hour Examination

Greenville, S. C., Jan. 9.—After undergoing a long examination by two detectives, Earl Jacques, a 19-year-old [illegible] was taken into custody yesterday in connection with the investigation of the murder of Miss Mary Eddy, was released.

The youth was with the detectives in a private room from 1:20 yesterday afternoon until 11:30 last night. During all this time he was under a constant fire of questions as to his movements on the night of the murder and robbery of Miss Eddy. At the end of the examination the detectives announced simply that they had released the youth and they declined to enter into any discussion of the developments from its examination.

Jacques works in the Greenville woolen mills where Miss Eddy was also employed. His home is not far from the spot where Miss Eddy was assaulted and robbed of her pay envelope, containing $75.15, last Friday night.

To the officers who examined Jacques asserted his innocence of the assault on Miss Eddy strenuously.

The town council has offered a reward of $500 for the apprehension of the murderer, and a similar reward has been offered by the management of the Greenville Woolen mills. It is understood that Governor Higgins will also offer a reward of $500 in behalf of the state.

Soldiers to Check Night Riders

Frankfort, Ky., Jan. 9.—Governor Wilson ordered ten militiamen to go to Lebanon to guard the American tobacco warehouse and also ordered 100 soldiers to report to the mayor of town to protect tobacco property.

Gatling gun was ordered to Lebanon after a conference with Lexington officers. It looks as though the white tobacco region, which heretofore has been law abiding, is on the eve of a series of night riding events equal to the outrages in the dark tobacco region in Western Kentucky.

Mean Work of Vandals

Denver, Jan. 9.—The howling of a dog attracted neighbors to the home of Ruth B. Levitt, daughter of William J. Bryan. A rear door was found unlocked, and the interior was a mass of wreckage. Every drawer in the house had been emptied on the floor, which was strewn with torn draperies, broken dishes and the fragments of every electric bulb in the house. Candles or matches had been lighted in every room of the house, and overturned furniture. Mr. and Mrs. Levitt are in Europe. There is no clue to the vandals who did the work.

Quadruple Murder Suspect

Florence, Col., Jan. 9.—Anton Favorite, a truck farmer, is under arrest on suspicion of killing Mrs. Frank Dominick and Joseph Smith, Mexicans, and Ercola Buncth. Portions of human bodies were found near Arkansas river, and it is believed that four persons have been killed, their bodies cut up and thrown into the river. Robbery and revenge are given as the motives for the murders.

Bombers in the Lurch

Chicago, Jan. 9.—When a mandate of the supreme court of Illinois ordered that a penitentiary sentence, imposed five years before and never enforced, against John A. Cooke, formerly clerk of the circuit court, be upheld, the state attorney's office, the fact developed that Cooke's whereabouts is a mystery. Cooke was found guilty of having conspired to obtain, by fraud, public funds, bonds aggregate $75,000.

Railroad in Receivers' Hands

St. Paul, Jan. 9.—Judge Sanborn of the United States circuit court has appointed A. B. Stickney, Charles H. F. Smith receivers for the Chicago Great Western railroad. A. B. Stickney is now the president of the road. The receivership follows the inability of the company to meet obligations due in 1908 and the failure to secure extension of the obligations.

Bishop Worthington Falls Dead

Mentone, France, Jan. 9.—Rt. Rev. George Worthington of Nebraska, who recently was appointed to take charge of the Episcopal churches on the continent in succession to Bishop Henry Potter of New York, was out walking when he was suddenly taken ill. He asked a stranger to help him into a trolley car, but he no sooner had entered the car than he fell dead.

Wreck Victims in Hospital

Atlanta, Jan. 9.—Of the nearly 100 persons who suffered injuries in a wreck at Spencer, on the Southern railway, about a score are still confined to hospitals, but it is believed all will eventually recover. Many of those who sustained only slight injuries yesterday continued their journey to Florida and Cuban points, while others decided to return home.

Nova Scotia Hit by Gale

Halifax, Jan. 9.—[illegible] accompanied by heavy rain, swept the coast, causing heavy loss to shipping along the shore and serious damage to wires in all directions and doing much damage on land.

NEWS IN BRIEF

Louis Zieman, a Boston builder, filed a voluntary petition in bankruptcy. His liabilities are stated at $94,750.

The Oklahoma Republican state committee endorsed Secretary Taft for president.

Clarence Frost was caught in the shafting of a sawmill at Elliott and received fatal injuries.

LAND AND SKY CRAFT

H. B. Schiller Hopes to Soar In Aero Auto Boat.

WATER IS USED AS BALLAST.

Both Balloon and Aeroplane Principles Included in Philadelphia Inventor's Ship—Power Driven Propeller Is to Make It Travel—Will Enter Craft in Government Competition.

Harry B. Schiller of Philadelphia is an inventor of [illegible] and of one in particular [illegible] an aero auto boat. Such, indeed, is this "boat" around which Mr. Schiller has been asked by the government to enter a competition for aerial craft to be held at Washington on Jan. 26. The most practicable of the plans submitted in this competition will be carried out at government expense, and several airships will be built for a series of trials to be held at Fort Meade, Virginia.

In describing his aero auto car Mr. Schiller referred to a representative of the Philadelphia Public Ledger:

"I have been, with many other aeronauts, [illegible] to succeed in a passenger airship could be built lighter than air. I therefore decided to depend on the balloon to carry me through the air. At the same time I cannot see how an aeroplane will ever be serviceable for passenger carrier. I have therefore combined the two principles of the aeroplane and the balloon, in my ship. Beneath a V shaped deck of aeroplane two balloons are fastened. They are cigar shaped and are connected so that, when one loses gas from the other can flow into it, keeping the balloon of the same shape. The balloons are attached to the deck of aeroplane by aluminum rigging. Halfway down the side of each balloon another deck or aeroplane extends.

"The balloons are only large enough to counteract gravity, so that the ship can be raised from the ground by [illegible]. In case the balloons should lose gas their gas the aeroplanes would be able to support the ship with the aid of the propeller.

"The propeller is, of course, at the rear of the ship and extends from a cabin underneath the balloon. Upon it I depend for the motive power of the ship. With the aid of a rudder which is to move up and down as well as sideways I hope to steer the craft in any direction, either up or down or starboard or port. The rudder is placed directly above the propeller.

"The cabin just referred to is a box lying directly below the balloons. It is large enough to hold an engine room and leave space for several men, entirely air tight. This will enable ascents into higher regions of the air, where the cold and rarity of the atmosphere would be too much for the occupants of an open basket. Four wheels are attached to the bottom of the boat [illegible] automobile. These wheels are also to ease the force of the descent.

"I have invented several little things which add to the serviceability of the aero auto boat. Inside each balloon I have placed a motor driven [illegible] air. As the gas in the balloon expands the air is driven out of these little air bags and the gas takes up the room occupied by the air. This prevents the loss of gas, which always is necessitated in ordinary balloons when a high altitude is reached. My ballast is water and is contained in four aluminium tubes which support the cabin of the ship. These tubes are connected so that the level of the water remains the same in each.

"The dimensions of the balloon I am using are as follows: Height of balloon, 20 feet; height of cabin, 10 feet; total height of aero auto car, 30 feet; total length, 90 feet. The rudder will be about one-third the total length of the ship.

[illegible]

Mr. Schiller is a globe trotter, having been around the world three times. He was born in 1865 in Allentown and moved to Germany with his parents at the age of five. When seventeen years old he returned to the United States [illegible] the Spanish-American war in the quartermaster department of the army. While on board the ship Port Victor, now [illegible] McClellan, which was carrying [illegible] to the front, he saw [illegible] infernal machine which had been placed on board and threw it into the water in time to save the [illegible] soldiers. He has been engaged in the study of balloons for twenty years and has patented an aerial torpedo which is an adaptation of his aero auto boat.

Water Runs in Catch Water Tappers.

Why householders who tapped pipes carrying hot water through houses from the plant of the Atlantic City Hot Water Heating company caused losses of thousands of gallons of water to the company during the [illegible] months, said New York police [illegible] rounding up [illegible] thieves, a [illegible] put into the concern [illegible] harmless coloring matter into the water circuit, and several of the foxy tapers are reported to have been [illegible] morning.

THREE OF FOCALS DROPPED

Mayor Hibbard Finds Men Occupying Useless Positions

Boston, Jan. 9.—Mayor Hibbard swung the axe yesterday. The victims were Deputy Health Commissioners Kinnaly and Brown and M. E. Leen, claim agent of the water department. In each case the mayor's reason for the discharge was that the position was unnecessary.

Kinnaly and Brown drew salaries of $2500 a year and both were appointed by Mayor Fitzgerald. Kinnaly was appointed through the influence of Judge Logan and Brown was appointed because of his influence with the negro voters. In each case a special department was made for the new assistant commissioners.

Mayor Hibbard will issue an order within the next week to Collector Scollard asking him to discharge at least twenty-three of the clerks in his department, thus saving to the city annually about $21,000.

It has been charged that under the Fitzgerald administration the collecting department was overloaded with political appointees and the finance commission has made a thorough investigation of the subject.

Decrease In Immigration

Boston, Jan. 9.—The steamship interests at the ports of Boston have been aroused by the heavy decrease in immigration and the prospects of practically empty steerages for the coming month. Thousands of operatives in the mill cities of New England have returned to England and Italy recently, and it is believed that stories told by them have led prospective immigrants to believe hard times are coming in the United States, which has resulted in the decrease.

Boston Woman Murdered

Boston, Jan. 9.—Miss Mary McCarthy lies dead at her home, 27 Shirley street, from the effects of a bullet wound. Michael F. Norton, a lodger at her house, is under arrest, charged with the murder. The woman, whose body was found lying in a pool of blood in the vestibule of the front hallway of her home, and the man, who is charged with having killed her, had engaged in several petty arguments of late, according to the testimony of neighbors.

Heavy Verdict For Loss of Arm

Boston, Jan. 9.—A verdict of $24,000 was awarded to Alfred W. Berry against the New York Central & Hudson River Railroad company, in the superior court, for the loss of his arm while coupling cars. The accident occurred by the backing down of an engine against a Fitchburg railroad train, on which Berry was employed as baggage master. The case is to go to the supreme court to determine the liability of the New York Central road.

Arrested on Whitmore Case

Boston, Jan. 9.—Frederick W. Elliott, aged 22, a Boston and Albany brakeman whose home is in Auburndale, wanted as an accessory after the fact to the murder of Mrs. Helena Whitmore, whose nude body was found in the Lamprey swamp at Harrison, N. J., appeared at police headquarters last evening and gave himself up to the authorities. It is expected that Elliott will consent to go to New Jersey without papers.

Cousins Escapes Punishment

Boston, Jan. 9.—Frank Cousins, formerly in charge of one of the departments of the Boston postoffice, who pleaded guilty some time ago to the embezzlement of $4725 from the postoffice funds and whose subsequently made complete restitution, had his case placed on file in the district court yesterday. It was stated that Cousins had been in poor physical condition for some time.

Retires at Four Score and Ten

Spencer, Mass., Jan. 9.—After forty years of continuous service as a lineman for the Spencer Wire company, Henry H. West celebrated the attainment of his ninetieth birthday by quitting work. West retires in comfortable circumstances, as he has laid away $50,000 during his life. The company will recognize his faithful service by continuing his pay as long as he lives.

Showed Signs of Insanity

Bennington, Vt., Jan. 9.—The trial of Alfred Mahan on the charge of the murder of his niece, Ethel Mahan, which was delayed by the illness of Juror Sutton, was continued yesterday. Several witnesses testified to alleged marks of insanity shown by the defendant at various times. The case is expected to go to the jury by Saturday.

Jury A quits Iatros

Boston, Jan. 9.—After having been out nearly eleven hours, a jury in the United States district court brought in a verdict of not guilty in the case of Michael Iatros, former Greek vice consul at Lowell, on the charge of conspiracy with John C. Sumbrannis to bring aliens into the country in contravention of the immigration laws.

Chief of Police Deposed

Chelsea, Mass., Jan. 9.—Condemning the conditions in the police department of Chelsea as unsatisfactory, Mayor Beck removed from office Chief of Police Hudson and appointed Captain Grover acting chief. The removal follows the attack on the police conditions of the city made by Beck on the stump and in the papers.

Searching For Missing Barge

Providence, Jan. 9.—Three tugs left here last night in search of the large Treverton, which broke away from tugs Lykens during Tuesday night's gale. The Treverton is a four-masted steel barge and has a crew of six men. It is supposed that she is adrift under sail.

Real Estate

FOR SALE.

Desirable Property, bringing in a good income, and occupied by the best of tenants, ten minutes' walk from center, on car line.

Also, a Double Tenement on Broadway; a money maker; only $500 down.

The Observations In the Daily Walk

Mrs. Charles Downes of Blake street is entertaining Miss Harriet Webb of Toronto.

Alfred L. Maggi, the gentleman mentioned for Commissioner of Public Works, was in town on Tuesday.

The annual meeting of the Democratic City Committee, to have been held Wednesday evening, was postponed until a future date.

Maurice E. Flynn, a well known member of Roger Walcott court, F. of A., of West Quincy, died at his home on Adams street, Braintree, on Wednesday.

"Troubles in the President's official family" will be the subject of Robert L. O'Brien, who will address the Wollaston Unitarian club next Tuesday evening. Mr. O'Brien is editor of the Boston Transcript and was formerly private secretary of President Cleveland.

Gen. Sargent Dead.

A Boston paper reports the death of Gen. Horace Binney Sargent, a native of Quincy in 1821, at Santa Barbara, California, on Wednesday. He was commander of the 1st Massachusetts cavalry in the Civil war, and was with Gen. Banks in the Red River campaign, and other engagements. He was one of the oldest living graduates of Harvard college. His daughter Elizabeth married Rear Admiral Bowman H. McCalla and it was at their home where he died.

Granite City Whist.

There was a large attendance Wednesday evening at the weekly whist tournament of the Granite City club. James H. Penniman and Eugene W. O'Connor secured the best scores. The entertainment committee are planning for an Italian lunch which will be served next Wednesday evening. There will be spargetti and tomato sauce, Tonny fish, Italian cheese, etc. Henry P. Furnald will serve the lunch which is a sufficient guarantee that it will be all right.

Civic Responsibilities.

Rev. E. C. Butler gave a talk on "Civic Responsibilities" before the Hale Club (an organization of young men) at Beverly last week.

The Times says: "Mr. Butler spoke of the significance of the formation of the John Hale society and urged the young men to study earnestly and faithfully the principles of political enonomy. To fit themselves to become useful and influential citizens, then they would be able to cope with the problems which confront the municipalities of today, then would they be able to stand against the wiles of the politician and then would they indeed become honored and influential citizens of the community. He thought that the formation of this society was a most excellent thing and urged the young men to stick to it and attend the meetings, and not spend their evenings in places which would not be conducive to their better civic and moral life. In closing he urged the young men to remain true to the church and to the ideal set before them in the life of Jesus of Nazareth."

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

Successful Season Carol Singers

The English carol singers' club, composed almost entirely of natives of Cornwall, England, have just closed one of the most successful seasons which the organization has had, and the good old custom of singing Christmas carols during Yule-tide will have worthy exponents in Quincy and vicinity as long as the present organization holds together.

Nicholas Williams, the leader of the club, deserves great credit for the marked degree of excellence which the singers have attained under his direction.

Every concert which the organization gave was first class, notably those at the First Presbyterian church the one on lawn in front of Bethany Congregational church, for benefit of the City Hospital, and that given at meeting of St. Andrews Men's club, in vestry of Christ church.

The singers and instrumentalists give all their concerts free of cost; their action in this respect being commendable, especially when the quality of the music rendered is taken into consideration. In doing this the club shows the genuine Christmas spirit; namely, in giving the best that is in them towards making the greatest day on the Christian calendar, the day it should be, one of "Peace on earth and goodwill towards men."

Following are the names, and localities in Cornwall, where the members of the club hail from.

INSTRUMENTS.

Nicholas Williams, treble flute, Sorvorgan.
Thomas Newcombe, treble baritone, Penryn.
Henry J. Rendle, tenor flute, Port Navis.
Arthur W. Newcombe, alto cornet, Penryn.
William Richards, euphonium, Wendron.

TREBLES.

William Martin, Penryn.
Arthur Spiller, Penryn.
Arthur Tremayne, Constantine.
Charles Parsons, Penryn.
John Rashleigh, Constantine.
Thomas Warmington, Penryn.
John Charles, Constantine.
Harold Williams, Sorvorgan.
Thomas Francis, Mabe.

TENORS.

William Warmington, Penryn.
Fred Warmington, Penryn.
George Rowe, Constantine.

ALTOS.

Arthur Williams, Sorvorgan.
Philip Martin and Joseph Spargo, both of this city.
W. H. Pascoe, Budock Water.

BASSES.

Thomas Veal, Constantine.
James Pascoe, Sorvorgan.
James Pascoe, Sorvorgan.
Richard Reed, Wendron.
John Williams, Sorvorgan.
Norman Spiller, Penryn.

Post Office Consolidation

Editor of the Quincy Ledger:

Referring to the article in Tuesday evening's Ledger in regard to the proposed consolidation of the Quincy post office with that of Boston, you appear to lose sight of those parts of the city which are not adjacent to Quincy Square and are not supplied with the delivery service which is accorded the business houses of that section.

In one residential section of Quincy, with which I am familiar, there were five years ago three mail deliveries per day. This was later decreased to two deliveries per day, and for the past six months there has been probably one-half of the time when there has been but one delivery per day, the second delivery being irgular, and complete only when the carrier had a lighter load than usual.

Before condemning the proposed consolidation you might investigate the effect which consolidation has had on the cities lying to the north of Boston, which are probably equal in importance to Quincy, but which had their post offices consolidated with that of Boston.

X. Y. Z.

K of H Officers.

Wollaston lodge, K. of H., have elected the following officers for 1908.

Dictator—Joseph W. Lovett.
Assistant Dictator—A. M. Burkman.
Vice Dictator—G. Sutermeister.
C.—A. M. Jamison.
R.—C. Thatcher Baker.
F. R.—William J. Battison.
Tr.—E. J. Cummings.
Ge.—George Weston.
Trustees—Charles W. Johnson, A. A. Lincoln Jr. and George D. Woodbury.

Installation at Eagles Nest

John Adams Aerie installed their officers for the year at the Eagles' Nest on Hancock street Wednesday evening. Past President Lowe and staff of Hingham Aerie were installing officers. The meeting opened with President O'Brien in the chair, when shortly their was a summons from the outer door, and then entered Past President Lowe and staff in full regalia. He then proceeded with the ceremony of installing, and the following officers were assigned to their respective seats for the year.

President—Michael E. Welch.
Past President—Joseph Q. O'Brien.
Vice President—Joseph Cahill.
Chaplain—John Cahill.
Secretary—John J. McCluskey.
Treasurer—John McCormack.
Inside Guard—William Allen.
Outside Guard—Adam Slavin.
Trustees — Edward Myart, David Evans and Edward Shaw.

During the installation, President O'Brien on retiring from the chair was presented with a handsome meerschaum pipe from the members of the Aerie. He was much surprised but responded with a few remarks.

President Welsh upon taking the chair was presented with a large bouquet of American Beauty roses.

Amorg the visiting members were officers and members from Aerie 1477 of Hingham, Aerie 617 of Brockton, Aerie 841 of Rockland and Aerie 45 of Boston.

After the installation there was a banquet, served by a Boston caterer which everybody enjoyed.

League Bowling Of the Red Men

The Quincy Red Men rolled the second match in their schedule at the Downs alleys this week. The games were close and exciting Chief Langill took two scalp from Chief Bugbee's team but led on totals by only five pins.

The Creole Reported Ashore

A dispatch from New Orleans under date of January 8, says the Southern Pacific passenger steamer Creole, bound for New York, went aground tonight in the gulf of Mexico, just outside the mouth of the Mississippi river. She is on a soft bank and is in practically no danger.

Tugs have been called to pull her off. Rear Admiral Coughlan is one of her passengers.

The Creole was built at the Fore River works in Quincy, and equipped with the Curtis turbine engines. It is her second trip North.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.

AN OFFICIAL JOURNAL

Hobson Wants Government to Print National Newspaper.

TO BE STRICTLY NONPARTISAN

Hero of the Merrimac Plans a Journal to Be Issued Periodically and to Summarize Government Work—Different Editions For Each Section—No Editorial Comment.

Representative Richmond Pearson Hobson of Alabama, the hero of the Merrimac, has prepared a bill for the periodical issue of an official journal which shall contain brief notices of the work of the various departments and bureaus of the government, of the supreme court and of congress, says a Washington special dispatch to the New York World. Mr. Hobson said the other day:

"The official journal is intended to make a connecting link between the government and the people. The project grew out of my work with the agricultural department. I found that a vast amount of most valuable material did not reach the people. My first movement was to take this material to the people of my district, the Sixth Alabama, by a campaign in which representatives of the agricultural department made short talks. The result was like an awakening. Property values advanced appreciably, especially timber lands, and an era of improved agriculture has begun in that district.

"I found that all the departments of the government were issuing publications giving the results of their work, between 150 and 200 all told, yet the vast bulk of the people were not being reached. I believe that the proposed journal will create renewed interest and confidence among the masses in governmental affairs. It will be strictly nonpartisan and without editorial comment. It cannot help but aid the press of the country, not only in furnishing a ready index, but also in creating a taste and demand for reading matter and for additional information upon important subjects.

"It is intended that the issues going to industrial sections shall be somewhat different from the editions going to agricultural sections and that the editions for the cotton states shall be somewhat different from those going to the grain states, so that each section of the country may get most information upon the subject in which it is chiefly concerned.

"The control of the journal is to be vested in a joint committee independent of any influence. It is intended that during the sessions of congress the journal shall be double the size of the issues between sessions. The former will have sixteen pages, the latter eight. Although all details are left to the joint committee, it is expected that the journal will be issued weekly, but it may be semiweekly or even appear at shorter intervals if found necessary.

"The present estimates contemplate allowing each congressman and senator to furnish the names of 15,000 recipients of the journal. There will be additional copies, and all told about 1,500,000 families will receive the journal free. The postoffice department will handle the copies in blocks, through the carriers, thus saving the expense of addressing, the postmasters and rural carriers keeping lists of the recipients."

The sum of $75,000 is appropriated by the bill for equipment and $275,000 for the expense of issuing the publication.

It is Mr. Hobson's idea to have a staff of trained newspaper men to handle the news which is sent in by the various departments. Just how the bill will be received cannot be hazarded, but Mr. Hobson has made inquiry and finds that most of the department officials are in favor of it.

CRUSADE AGAINST TRAMPS.

Posters to Scare Hoboes Away Carry a Terrible Warning.

The Los Angeles (Cal.) police have inaugurated a crusade against the tramps who are infesting Los Angeles that will make all previous efforts seem insignificant, says the New York Herald. Thousands of posters are to be put up along the railway lines between Los Angeles and the desert warning all hoboes that the police are waiting for them and that they will be put to work as soon as they arrive there.

The posters are worded as follows:

"Hoboes, keep moving. Rent is high and food is scarce. Taxpayers will not support you. Long sentences in the chain gang given here. Sixty to ninety days our specialty."

The idea originated with Marshal Anderson of Yuma, Ariz., who found the scheme worked successfully.

Novel Experiment With a Rat.

In Seattle's fight against the spread of the bubonic plague by rats an interesting experiment was made recently, says the New York Tribune. A rodent was dyed blue and turned loose to find out just how long it could retain its liberty and how far it could travel without falling into one of the myriad of public and private traps set for the plague distributers. The particular rat selected for the test was caught a week after being turned out a mile from the point where it was liberated. In one week lately 2,025 rats were received by the health department, of which 1,529 were paid for at the rate of 10 cents each. The total number of rats brought in since the plague campaign started is 15,831.

LESSONS LEARNED BY CITIES.

Mismanagement and Financial Troubles Constantly Coming to Light.

New Hampton, Ia., is learning the meaning of depreciation. It recently found it necessary to discard the electric equipment that had been in use but four years and put in an entirely new equipment. For several months it has been trying to sell the old equipment, which cost $15,000, but has not yet found a purchaser. Its scrap value is of course very small.

Fitzgerald, Ga., has apparently learned in part at least the lessons that "trust" and "bust" are practically synonymous and that in the long run it doesn't pay to sell below cost. At least that is the natural deduction from the following item in the Journal of that city:

"Beginning with this month, consumers will only have until the 10th of the month to make their settlement with the city. Water and light will both be cut off on the 11th of each month from this on. Then in the future meters for both water and light will either be sold or rented to consumer. The city will no longer furnish them free of charge. The meters will either be sold at their actual cost or will be rented to the consumer at 25 cents each month. A charge from now on for light connection of $2 will be made, and this fee must accompany the application for a connection."

Falls City, Neb., is learning that it is easier to vote bonds than to sell them, for the mayor writes that no purchaser has yet been found for the 5 per cent bonds voted on July 16 to improve the light and water plant. This is a lesson that other and larger cities are learning to their sorrow, though it should not be a matter of surprise where "improvements" involve the practical wiping out of the present equipment, which has not been paid for.

Hamilton, Ont., is one of many cities that are learning that manufacturers are curiously prone to serve their good customers first. It is disappointed because of the delay in the delivery of the new equipment for its electric light plant. All manufacturers know and allow for the fact that city warrants are apt to cash themselves slowly and that acceptance of supplies or machinery often depends upon crossing the right palm with gold. A manufacturer's agent told the writer two stories to illustrate this.

In one case after trying for two years to collect a bill he was finally paid in city warrants. Even then he could cash them only by selling them to the local political boss at a discount that more than absorbed the profits.

In this other case his firm installed some expensive machinery in a city plant. No sooner had the firm's workmen left than the report came that the machine was not working properly. An expert was sent on to adjust it. After this had been repeated several times a man approached the expert with the remark: "You've a good machinist, but a poor politician. You'll never get an acceptance until you've paid the superintendent $100 and the chief engineer $50." And he was right.

LARGE LEAK IN SPIRIT LAKE.

Light and Heat Plant Shows Material Loss on Eight Months' Operation.

About fifty citizens attended a meeting recently held in Spirit Lake, Ia., to listen to official statements relative to the financial condition of the light and heating plant, with a view to getting the sentiment of the taxpayers on the suggestion to sell the plant. The advisability of issuing bonds to improve the water system was also considered.

Clerk Osborne made a report of the receipts and disbursements at the power house for the past eight months. A material loss in operating the plant was shown, which it is evident cannot be avoided under municipal ownership and present operating conditions.

A motion that the council be required to submit at a special election a proposition to sell the light and heating plant, provided that no bid less than the present indebtedness of the plant be considered, carried by a four-fifths vote.

The editor of the Beacon states that the plant "has always been operated at a heavy loss."

A Doctor's Opinion.

In an address which the president of the Central States Waterworks association declared to be one of the ablest ever delivered before that body Dr. S. L. Jepson of Wheeling, W. Va., said:

"Politics and water are 'chemically incompatible' and together cannot produce the best water. Municipal ownership of waterworks is apt to run into politics, and this means a down grade in men and methods, with consequent impure administration and impure water as well."

Dr. Jepson is entitled to an opinion on the subject, for his city is cursed with a political waterworks.

Rejected.

Some months ago the city council of Faribault, Minn., appointed a committee to investigate the local lighting plant with a view to purchasing it. Finding that it was just about self sustaining and that municipal ownership offered no prospect of any saving to the city or private consumers, the committee made an adverse report, which was unanimously adopted.

Politicians are often men who, not being able to manage their own affairs, are not deterred thereby from taking charge of those of the government. Likewise there be people who, not being able to successfully manage their own affairs, volunteer to take charge of the delicate affairs of others.—Elbert Hubbard in Philistine.

EXPENSIVE BOOKS.

Prices That Prevailed Before the Invention of Printing.

In the present day it seems very strange to read about the prices of books before the invention of printing.

King Alfred gave a very large estate for a book on cosmography. In the year 1174 Walter, prior of St. Swithin's at Winchester, purchased of the monks of Dorchester, in Oxfordshire, "Bede's Homilies" and "St. Austin's Psalter" for twelve measures of barley and a pall on which was embroidered in silver the history of St. Birinus converting a Saxon king.

About the year 1400 a copy of John of Meun's "Roman de la Rose" was sold before the palace gate at Paris for 40 crowns, or about $175.

The Countess of Anjou paid for a copy of the "Homilies of Halmon," bishop of Halberstedt, 200 sheep, five quarters of wheat and the same quantity of rye and millet.

In 1471, when Louis XI. of France borrowed the works of Rhasis, the Arabian physician, from the faculty of medicine at Paris he not only deposited by way of pledge a considerable quantity of plate, but he was obliged to procure a nobleman to join with him as surety in a deed binding himself under a great forfeiture to restore the books.

A STEP BACKWARD

Should Not Talk Of Taking Cars Off But Rather For More Cars

Editors of Quincy Daily Leger:

In your issue of Wednesday the writer learns under head lines—"Through Cars may come off"—that it is the probable intention of the Old Colony Street Railway Co., to discontinue running through cars to the Dudley Street terminal.

This means a change of cars at Neponset in any and all kinds of weather, night and day. The uncertainty especially in coming out of Boston of making connection with cars for Quincy, resulting in annoying delays rendering the service entirely unsatisfactory and discouraging the general travelling public from patronizing it, except as it were under protest.

To have missed a Wollaston car by one or two minutes—with the consequent wait of about half an hour hanging around Neponset bridge, certainly offers a poor inducement to any one to use this means of transportation and is almost prohibitive.

For some time past it has been perfectly apparent that this company has not only totally failed to properly and in a business-like manner to cater for patronage and the development of through service and have instead wilfully, ignorantly or from weakness seemingly done what they could to make the line unpopular and a "scape goat" for all of its other short comings.

PROMISE MADE.

At the time of the opening up of this service the company stated to representatives of the city that it would put on a sufficient number of new modern up-to-date cars, of a superior type, to do the work, and it looked as though they meant business, and Quincy was to be put on a par with other cities surrounding Boston as regards its street car accommodations.

As a matter of justice to the road, (if their statement is to be taken as to the facts) it may be said that when an attempt was made to operate these beautiful cars in Boston it was found because of their size, curves along the line and at Dudley Street Terminal they were not adapted for the use for which they were intended.

At this point the matter of new cars and suitable equipment was dropped by the company and nothing has since been heard in reference to it. I think, however, you will find them today running into the subway from points north of Boston for which service they "significantly" appear in every way adapted.

At a recent hearing, on a petition for a double track location on Hancock street, given by the City Council a representative of the Company disposed of the whole matter of new cars intended for Dudley Street service with the statement quoted above, attempting to make the impression that the road had performed its full duty in this matter, and nothing further could be done.

When questioned by the writer, in reference to some sixteen other new cars which were then in storage at the car barns in Brockton, he admitted that these cars were suitable and adapted for Dudley Street service and when further questioned as to why four of them had not been given to Quincy he had

NO ANSWER TO MAKE.

They are now presumably being run to Middleboro, New Bedford, Cape Cod, or some other such "Metropolitan District," and we have dirty cars, cars with flat wheels, cars with one motor, cars with two motors, and cars with almost no motor at all—of various lines and colors. This has been the average condition of the equipment during the time that the Dudley Street line has been in operation, and yet some times they don't make time and the whole trouble is in Boston so they claim; and the operating of this line has disarranged their whole system in Quincy beyond remedy except by abandoning it.

They state that they are obliged to furnish four cars an hour to the Boston Elevated Railway, but they omit to state that the Boston Elevated furnishes tracks, power, terminal facilities in Boston where passengers can be transferred to any part of their system and men to run the cars, all tributary to their business of the Old Colony in Quincy

This looks like a business proposition which with decent management, if not now, might be developed with profit for the roads and a substantial benefit to property owners and residents of Quincy. Everybody knows that good streets, churches, schools and railway accommodations build up communities, and it is equally true that hustling business men and corporations where there is

GOOD BUSINESS

to be had get it by going after it in the right way.

This company enjoying a monopoly of street car business in our city, having been granted every reasonable privilege by our city government, should stop whining about Dudley street and give reasonably good service throughout the city.

It would seem that an intelligent arrangement of details as to times of day and conditions which call for some variation of a regular operating scheme this might be accomplished in the hands of experienced railway men.

The people should not be expected to give up willingly anything which they can reasonably demand, but hold on to what they have that is worth having and get more of what it is their right to have.

Abutting as does Quincy upon the great city of Boston, and its surrounding cities; within site of the State House, with cars running to Dudley street terminal and into the subway at the north end of Boston from most every city and town for miles around; is there any good reason why the "City of Presidents" should be bottled up, and forced to depend entirely now and for the future upon the steam railroad to get into Boston. Should there not be some healthy competing line or does the steam road now own or control the Old Colony? These are matters for the people and our legislators to ponder over.

Mr. Sullivan the president of the Old Colony street railway has repeatedly informed the writer that the Dudley street line "does not pay" The way it has been managed seems a perfectly rational statement. With his full five cent fare—it is up to him to develope the business so it will pay, and in the meantime he can apply against the deficiency a little of the roads extra earnings in other directions, or give over the whole business to a management that will make this particular line pay and at the same time take care of the other business in Quincy.

HOUGHS NECK LINE.

A few years ago the street railway company decided not to run any cars to Houghs Neck after a given date in October, until some time in the following spring, saying that "it did not pay" although admitting that they had done something of a land office business during the summer months. Owners of property and persons residing in that locality the year round were in effect told that in the interum they could have the free and unlimited use of the highway to walk or run to Quincy, or to get there in any old way by which they were able. The company had shut up shop so far as they were concerned, and proposed to run cars just when they saw fit.

Through the energetic efforts of ex-Mayor Bryant, who was then, as now, a member of the City Council, and "some others" the injustice of such action was forcibly brought to the attention of the company, with the result that it reconsidered Cars were put back and I believe have continued to run ever since

If the wise legislators at the State House have not already deprived cities and towns of the last vestage of local voice in matters of local concern, it may be possible for us to exert some influence upon public corporations in our city, not by a pig-headed antagonizing policy, but by a reasonable presentation of our just rights with due consideration of theirs also.

This is a progressive age, the country is growing; there are many streets in Quincy where the grass formerly grew, but it is different now. We don't want to talk about taking cars off, but let us rather hope to see others added.

Yours very truly,
WALTER F. NICHOLS.
Wollaston, Jan. 8, 1908

TRANSFER OF MORTGAGE.

WANTED—$3 000 on first mortgage on Quincy property valued at $5,000. Present mortgagee desires to raise the money for other purposes. Will deal only with individuals having money; no brokers; confidential. Address "M 41," Daily Ledger office. Jan. 8-6t

Reports of Wollaston Congregational Church

It was a happy company that sat down to the annual supper of the Wollaston Congregational church on Wednesday evening. After the supper came the annual meeting.

Reports showed that the present membership of the church was 203. The expenditures of the year were $4,019.85. The benevolences $1,494.58. The year closes with a balance of $35 in the treasury, making the total amount of money raised $5,514.19.

The reports from the various organizations were all in the view of progress. The church has been enriched by the incoming of many new families, and since the 1st of January, 1907, 29 new members have been added. The appropriations for the new year contemplate both the maintainence of all the old lines of activity also some new and necessary improvements.

The following officers and committees were elected:

Deacon—John B. Cornish.
Clerk—Charles F. West.
Treasurer—John B. Cornish.
Superintendent of Sabbath School—George H. Murray.
Moderator—Charles P. Hutchins.
Executive Committee— Charles A. Campbell and Walter A. Poore.
Prudential Committee— Wendell H. Hull, W. M. Wight, George W. Stone also the clerk and the treasurer.
Collector of Weekly Offerings—Alfred W. Thompson.
Music Committee—Dr. A. P. Thompson, Herbert C. Poore and Rev. Edward A. Chase.

Surprise Party.

Miss Esther Asklund was taken by surprise Thursday evening, at her home on Granite street by about twenty of her schoolmates and friends. The evening was gayly spent by playing the usual games many forfeits being imposed. During the evening the party was invited to the dining room where a table full of good things awaited them. Miss Esther was presented with a beautiful gold bracelet with her monogram engraved thereon.

C. E. Officers

The Christian Endeavor Society of the Quincy Point church has elected these officers: president—Helen Lincoln; vice president—William French; corresponding secretary—Helen Sherburne: recording secretary—Bertha Smith; treasurer; Carlton McNeil; chairman of social committee—Elizabeth Auld; chairman of lookout committee—Anna Carter; organist—Bessie Chisholm.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

Womans Guild of St. Chrysostoms

The Woman's Guild of St. Chrysostoms church held its annual meeting Wednesday afternoon in the parish rooms, with a full attendance.

The following officers were re-elected: President—Mrs. Daniel C. Miller; 1st Vice President—Miss Annie Clean; 2d Vice President—Mrs. Howard D. Fowler; secretary and treasurer—Mrs. David L. Jewell.

The secretary read a good report of the Auxiliary meeting held in St. Pauls church, Boston, in December. Mrs. Jewell also reviewed the work of the past year, saying in part: Our united work the past twelve months has been a repetition of that for several years, an effort to cancel the mortgage debt resting upon our rectory and success has crowned our labor. It was accomplished by means of the open table, an experience in May, "a penny a day," the Salvation Army plan during the summer recess, and a highly successful Parish supper in November. We can all flatter ourselves it was a good united pull all together. Our missionary work has had a constant attendance at each auxiliary and the anniversary and a factful reporting of the same. During Lent we worked for the "Mother's Rest" at Revere, and at Christmas sent our annual box to St. Cyprian's Mission at Lincolnton, N. C. Seventy-five gifts and clothing. Our present occupation is home missions and we are refurnishing our kitchen department. Sadly we have to announce that we were called upon to part with a valued member removed by death, Mrs. Henry T. P. Bates., called up higher in October. We shall long miss her bright presence, always willing to lend us her talent which she possessed in a marked degree. She has left us an enduring and endearing memory.

Lead Stolen.

John L. Fratus, the Atlantic plumber, was surprised this morning to learn that his shop had been entered during the night and a quantity of lead stolen. The first news of the break came when Officer Clark of Neponset arrested two men and found the lead in their possession. The officer caught the men helping themselves from a baker's wagon. On examining a bag they carried it was found to contain pieces of lead. Upon being questioned it is alleged that they admitted going into Fratus shop and taking it. The men gave their names as Joseph J. Cahill of Jamaica Plain, and George Lemireux of Glover avenue, Atlantic. They were arraigned in court.

Captain Kendall Reelected

At the thirty-first annual meeting of the Boston Bicycle Club this week. W. G. Kendall was unanimously re-elected captain for his twenty-second consecutive term. Although this is the oldest cycling organization in America, and the second oldest in the world it is still, as ever, the most active and has, on its occasional runs, a larger attendance than any other club. It has an active membership of 131, some of the grey beards living in California, Oregon, Canada and even as far off India, and on one of its annual three-day trips in September last there were forty-three participants, a turn out that no club would have apologized for even in the palmy days of cycling.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Just Jotted Down By Ledger Men

A session of the juvenile court was held Thursday morning.

Quincy lodge of Elks has a large class for initiation at its meeting next month.

Mayor Shea is still besieged with applications for positions. There are hardly enough jobs to go around.

A joint meeting of the City Council committee on Public Buildings and the School Committee will be held this evening.

Frank Bishop has charge of the meeting of the Unity club this evening in the vestry of the Wollaston Unitarian church. There will be music by the Wollaston Glee club and students of the Institute of Technology will speak on "Current Events in Science" and "Things that are making living easier and cheaper."

A REVERSE FOR ITALY

Station In East Africa Destroyed In Pitched Battle

ITS DEFENDERS ALL KILLED

Italian Government May Be Concealing Facts to Prepare Public For Graver News--Strife May Have Been Instigated by King Menelik

Rome, Jan. 10.—News has been received here of serious trouble in Italian Somaliland, on the east coast of Africa, which has resulted in pitched battles between the Italian forces there and the Abyssinians. A dispatch received here reports a raid by 2000 Abyssinians near Lugh, the furthermost Italian station in the interior.

It is learned on good authority that Lugh was besieged by the Abyssinians and destroyed after a desperate and unequal fight and that its defenders were killed. It is believed here that the Italian government is concealing a severe reverse to prepare the public for graver news.

The importance of the present situation lies in the establishment of whether or not the King of Abyssinia ordered the attack upon the Italian possessions.

Lugh was garrisoned by only about 125 natives under the command of Captain Bongiovanni and the attacking party laid siege to the town. The Italian government has ordered the squadron now in the Red sea to proceed to the coast of Somaliland to protect the towns along the coast, for the entire territory is garrisoned by not more than 2000 natives, under the command of Italian officers.

At the same time the government has telegraphed to the Italian legation at Addis Ababia, the capital of Abyssinia, instructing the Italian minister to protest to King Menelik against the violation of the status quo. Italy holds Lugh by an agreement concluded with the sultan of that territory in 1885. This, however, was never ratified by King Menelik, who considered Lugh a portion of his territory. Lugh is nearly thirty days' march from the coast.

The dominion of Italy in Africa extends over an area of about 90,000 square miles, with a coast line of 670 miles. The population, which is nomadic, is estimated at 450,000. The country is largely in the hands of native chiefs and is undeveloped as yet.

By various decrees between 1890 and 1901, the Italian possessions were constituted as the colony of Eritrea. During the early part of this period Italy succeeded in annexing a very extensive territory, but in 1896 an Italian army met with a crushing defeat and after the treaty of Addis Ababia the whole of the country to the south of the Mareb, the Belesa and Muna rivers was restored to Abyssinia. By treaties in 1900 between Italy and Abyssinia, and in 1902 between Great Britain, Italy and Abyssinia, the frontiers of Eriterea were considerably modified.

In 1906 there were enumerated 275,000 natives and 3949 Europeans, inclusive of the military forces, 2333 of whom were Italians.

Testimony In Snell Will Case

Clinton, Ills., Jan. 10.—Testimony has begun in the suit instituted by Richard Snell, son of Colonel Thomas Snell, the late millionaire railroad builder, to break the will which cuts young Snell off with an annuity of but $50. Counsel for the plaintiff stated that Colonel Snell had expended no less than $300,000 upon women during the last ten years of his life. He died over a year ago at 90 years of age.

Leaving Mines For the Army

Columbus, O., Jan. 10.—Among the numerous recruits who are enlisting at the barracks are miners from all parts of the mining districts, according to records at the post. Captain Young, who has just returned to the barracks from West Virginia, where he has been doing special recruiting officer service, says that the miners are flocking into the service.

In Penitentiary For Safety

Florence, Col., Jan. 10.—Learning that mobs had been organized in the surrounding coal camps for the purpose of storming the Florence jail and lynching Anton Bavari, believed by the authorities to have murdered a woman and three men, Chief of Police Furniss spirited the prisoner to Canon City, where he was placed in the state penitentiary.

Won't Serve on Thaw Jury

Columbus, O., Jan. 10.—Bond F. Neff, a guest at the Neil house, has been served with a subpoena to appear forthwith and sit as a juror in the trial of Harry K. Thaw. Neff came to Columbus last Tuesday to assist in the building of some water works lines. The subpoena was first left at his residence in New York city. He will ignore it.

Fears For Author's Safety

San Francisco, Jan. 10.—Friends of Jack London, the author, are beginning to feel alarmed over his failure to arrive at the Marquesas islands, which he was expected to reach early in December. London left Hilo, Hawaii, Oct. 7 last in his little boat, the Snark, for Marquesas, and is about a month overdue.

DECISION FAVORS SCHMITZ

Court of Appeals Sets Aside the Judgment of Extortion

San Francisco, Jan. 10.—The district court of appeals handed down a decision setting aside the judgment in the case of ex-Mayor Schmitz, convicted of extortion in the French restaurant cases. Abraham Ruef also benefits by the ruling of the upper court, for, according to it, he pleaded guilty to an act that was not an offense against the laws of the state.

The appellate judges hold that compelling the French restaurants to pay "fees" to Ruef was not a crime, even though Ruef divided the "fees" with the mayor. The decision wipes out the French restaurant cases, and pending charges of extortion against Schmitz and Ruef must be dismissed.

By this reversal it is presumed that the prosecution has lost its hold upon Ruef, and it is freely predicted that he will now refuse all overtures for immunity, wholly or in part, to testify in the bribery graft cases and fight every indictment. There are still pending against Ruef 126 indictments charging bribery, and forty indictments remain against Schmitz.

Doctor Marries Mother-In-Law

New York, Jan. 10.—Dr. Horace N. Marwin of Dover, Del., father of the boy who wandered away from a farmhouse near Dover last spring and died from exposure, causing the report that he had been kidnapped, was married last night in this city to Mrs. Flora M. Swift, his mother-in-law, of Brookline, Mass. The ceremony was performed by Rev. Dr. Houghton at the "Little Church Around the Corner." Marvin is 62 and his wife 60 years of age.

Gillette Fighting For Life

Albany, Jan. 10.—A new trial for Chester Gillette, on the ground of nearly a dozen errors of law in the trial which resulted in his conviction and sentence of death for the alleged murder of his sweetheart, Grace Brown, on July 11, 1906, was asked of the court of appeals by A. M. Mills, Gillette's counsel. The appeal is opposed by George W. Ward, who was district attorney of Herkimer at the time of the alleged murder and of the trial.

Governed by Treaty of 1815

New York, Jan. 10.—Several importers of British whiskeys protested against the tariff of $2.35 a gallon, when French liquors were admitted for $1.75. The board of general appraisers, however, held that Great Britain was barred by the treaty of 1815, which ended the war of 1812, from the "most favored" nation list and sustained the collectors' charge.

Says He Was "Experimenting"

Springfield, Ills., Jan. 10.—In the United States district court here, Rev. James A. Kaye, pastor of the Cumberland Presbyterian church at Lincoln, was placed on trial, charged with counterfeiting. Kaye admits making coins, but says he was simply experimenting to ascertain whether he could make medals for the children of his Sunday school.

Charged With Counterfeiting

New York, Jan. 10.—Three women, said to be a mother and her daughters, and a man were taken into custody in this city, charged with counterfeiting. The women are Josie, Asovila and Rosina Specille. The man is Sabina Lonigra. A quantity of alleged spurious coins of small denomination was found in the house where the arrests were made.

Negroes Shot to Death

Hawkinsville, Ga., Jan. 10.—A murderous assault was made on Mr. and Mrs. Carlin Livingston at their home at Goldsboro by two negro farmhands on the place. Neither is expected to live. The deed was committed, it is supposed, for the purpose of robbery. The negroes were captured and shot to death.

Straus Appoints Probers

Washington, Jan. 10.—Secretary Straus has appointed a committee to investigate questions of administration, efficiency of personnel, economy of operation and the account and business systems in vogue in each bureau of the department of commerce and labor, as well as the subordinate offices outside of Washington.

Murderous Band Arrested

Lausane, Switzerland, Jan. 10.—Eleven alleged Russian terrorists, including a young woman, were taken into custody here after a desperate encounter with the police. They are charged with threatening to assassinate a wealthy local Russian unless he contributed $1000 to the revolutionary cause.

Not Interested In Military Affairs

Washington, Jan. 10.—Senator La Follette (Wis.) obtained the consent of the senate to retire from membership on the committee on military affairs. He gave no reason for his course, but it is known that he has not been entirely satisfied with the committee assignments he has received.

Run Closes Kentucky Bank

Cairo, Ills., Jan. 10.—The Farmers' bank of Wickliffe, Ky., failed to open its doors yesterday as a result of a run on the bank. It had a capital of $175,000. It is stated that all depositors will be paid in full.

The Weather Forecast

Almanac, Saturday, Jan. 11.
Sun rises—7:13; sets—4:31.
Moon sets—12:37 a. m.
High water—5:30 a. m.; 6 p. m.

There will be snow in the interior of New England, with rain or snow on the coast.

Your Sick Child

can't tell you what it has or how it feels—it only shows it is sick and miserable. If it is restless and peevish, doesn't sleep well, has pains in the stomach and bowels or has an erratic appetite the trouble undoubtedly is stomach or pin worms. Give the little one a few doses of that famous old life saver

DR. TRUE'S ELIXIR

IN USE 55 YEARS.

If worms are present they will be expelled. If no worms exist this wonderful medicine acts gently, yet positively, in toning up the whole system to rugged health.

PORTLAND, ME.

DR. J. F. TRUE & CO.
I shall in the future know just what to recommend to others who are not feeling well; stomach out of order, headache, poor appetite, or a bad cold. Your Elixir is just what has helped me out of this combination of bad feelings. I had used it in my family for years and knew of its great worth, as I had given it to my small children for destroying worms; for such it is second to none. I want to thank you for it, as it has cured me of all those bad feelings and destroyed the cold I had. Yours truly, Mrs. E. A. Skolfield.

Sold by all dealers—25c., 50c., and $1.00. Write for free Booklet "Children and their Diseases."

END OF GREAT SUIT

Decision For Government In the Case Against Carter

WILL GET BACK $400,000

Had Seized Securities Valued at That Amount In Case of Army Engineer Charged With Perpetrating $700,000 Fraud In Government Work

Chicago, Jan. 10.—Judge Kohlsaat, in the United States circuit court, rendered a decision yesterday afternoon in favor of the government in the suit against Captain Oberlin M. Carter, former United States army engineer, charged with having defrauded the federal government to the extent of $700,000 by conspiracy with Contractors Greene and Gaynor.

The court ruled that Carter was not entitled to the $400,000 in unregistered railroad bonds and other securities traced by the government to safety deposit vaults and banks in various parts of the country. Under the decision the government will retain the securities and the famous case, which resulted in the conviction of Carter, Greene and Gaynor and the imposing of penitentiary sentences, is brought to a close.

Funds of Carter, which the government contends were proceeds of Carter's collusion with Greene and Gaynor, are tied up by suits pending in the federal courts of New York, New Jersey, West Virginia, Georgia and Illinois. By agreement, all of these suits were consolidated and tried before Judge Kohlsaat in the United States circuit court in Chicago about a year ago. Carter claimed that the funds in question were given him by his father-in-law, the late Robert F. Wescott of New York.

The case grew out of the construction of certain river and harbor improvements on the coast of Georgia. The government's attorneys contended that the army officer and the contractors defrauded the government in the sum of $2,225,000, and that one-third of this amount, or about $750,000, went to Carter.

Marion Erwin, special assistant to the United States attorney general, was assigned to the prosecution of the cases, and after several years' work $400,000 invested by Carter in various states was traced and seized.

The hearing before Judge Kohlsaat lasted several weeks and scores of witnesses were examined. Kohlsaat says in his opinion:

"It must be borne in mind that the transactions in this suit covered a period from December, 1901, to 1892, during which years a number of contracts were let and that, even though Carter was not in actual conspiracy with the contractors, yet if he knew of the vast profits and the prices allowed them on the earlier work, it was his duty to investigate thoroughly the situation and see to it that the government thereafter paid no more than was fair and just. Even negligence under such circumstances would have amounted to fraud.

"If, therefore, Carter was cognizant of the fact that the contractors were reaping abnormal profit from the 1892 work and that Westcott was interested in that profit and was turning it over to him under any kind of a cover as his share of said profit, he was false to his trust and should be held liable to make good to the government all the fruits of his fraudulent act.

"Without passing directly upon the question as to whether Carter had actual knowledge of and connived at this raid upon the government, the facts brought out are such that he must, as a conclusion of law, be held chargeable with knowledge of what was being done in the premises. This fact alone makes it clear that the government is entitled to a decree awarding to it each and every of said pieces of property held by the receiver which shall be found to have been purchased directly or indirectly with moneys received by Westcott or anyone else or in any way arising from funds made up as profits realized by the contractors under the contracts in the suit."

Westcott, mentioned in the opinion, was Carter's father-in-law, charged by the government with having made investments of funds sent to him by Carter, which funds, it was alleged, were part of the funds diverted by Carter and the contractors, Greene and Gaynor.

Negro Lynched by Negroes

Charlotte, N. C., Jan. 10.—A negro purporting to be the advance agent of "a big show" deceived negro residents of Selma into attending what turned out to be a one-man performance by the negro himself. With their heads covered with guano sacks, a mob entered the negro's boarding house shortly after midnight and took him forcibly to the woods. His body was found at daylight on the railroad tracks. His identity has not been established.

Cannot Get Tobacco Insured

Louisville, Jan. 10.—Tobacco from all parts of the state is being hurried to Louisville for storage in warehouses, where it may be insured to escape the cancellation of policies or the refusal of new risks in accordance with the policy which has been adopted by most of the fire insurance companies doing business in the state, owing to apprehension of further raids by "night-riders."

NORFOLK, ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

JOHN F. CROCKETT,

late of Laconia, New Hampshire, having estate in said County, deceased, intestate.

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Frederick A. Holmes of Franklin, New Hampshire, or to some other suitable person.

You are hereby cited to appear at a Probate Court to be held at Dedham, in said County of Norfolk, on the fifteenth day of January, A. D., 1908, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week for three successive weeks in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, JAMES H. FLINT, Esquire, Judge of said Court, this twenty-sixth day of December, in the year one thousand nine hundred and seven.

JOHN D. COBB, Register.

BATTLE CONTINUES

Bay State Democrats Appear to Be Hopelessly Divided

TWO CALLS FOR COMMITTEES

Prospect of Two State Conventions to Elect Delegates to Nationa Convention--Latter Body Will Have to Settle the Squabble

Boston, Jan. 10.—That the split in the ranks of the Democratic party in Massachusetts, so strenuously manifested at the memorable state convention at Springfield last October, is still wide open, was shown yesterday at a meeting in this city of twenty-seven out of the fifty-six members of the state committee and by the avowal of many of the other members of the committee who refused to attend the meeting to heed the call for what they considered the regular meeting of the committee today.

The call for yesterday's meeting was issued by William S. McNary, second vice chairman of last year's state committee. The call for today's meeting is by John P. Feeney, chairman of the state committee. It is expected that there will be two state conventions this spring and that the claims of the two sets of delegates to the Denver convention will have to be adjudicated by the Democratic national committee.

The call yesterday was sent to the thirty-eight members of the committee who were chosen at the district caucuses last September and also to the sixteen members-at-large chosen at the Whitney convention in Springfield, which was subsequently decided by the ballot law commission of the state to have been the regular Democratic state convention. The call for today's meeting has been sent to the district members and also to the members-at-large chosen by the Bartlett convention at Springfield.

The twenty-seven members of the committee gathered at the Quincy house, but three members later withdrew on account of what they claimed "unfair treatment by the chairman." At the conclusion of the meeting, which lasted about two hours, McNary announced that the Democratic state committee of Massachusetts had organized for the year by the election of officers, the adoption of a set of rules, and by taking preliminary steps toward calling the spring convention.

McNary said that the committee organized by the election of T. J. Collins of Boston as temporary chairman. The call for the meeting was then read and permanent organization effected, James W. Synan of Pittsfield being chosen chairman of the state committee. A committee of five was appointed to prepare rules for the committee for the coming year, but in the meantime the rules of the state committee of 1906 were adopted.

A list of members of the state committee as called by the secretary was then read and it was agreed that this should be a true list of the members of the committee. McNary refused to give out the list, except to say that two vacancies among the district members were filled. A communication, McNary said, was received from Thomas Taggart, chairman of the Democratic national committee, notifying the state committee of the national convention at Denver. The officers of yesterday's meetings were authorized to call caucuses to elect delegates to the spring convention, at which delegates will be elected to the national convention.

Arrangements for the caucuses and the state convention will be laid before the committee, McNary said, at a subsequent meeting, which will be called by Synan before the end of the present month. The meeting then adjourned.

Cigarmakers' Strike Threatened

Havana, Jan. 10.—A renewal of the cigarmakers' strike in Havana is believed to be impending, owing to the recent discharge of many workmen on account of the small amount of orders for cigars now coming from the United States. Manufacturers are declining to accede to the demands of the workmen for a proportionate distribution of work during the dull season.

Eviction of Rent Strikers

New York, Jan. 10.—Eighty evictions of East Side rent strikers took place yesterday. It is believed that the strike is now near an end, and claims of victory are being made by each side. The evictions occurred principally in houses where tenants who were obtaining moderate rents made the same demands as those who were less fortunate.

Havemeyer Family Gets All

New York, Jan. 10.—Attorneys for the estate of the late Henry O. Havemeyer filed with the probate clerk a memorandum stating that Havemeyer's will contains no public bequests. The entire estate is given in trust for the benefit of his children. Havemeyer's residence in this city and $50,000 a year is given to his widow during his life.

Navy Yard Employes Idle

Pensacola, Fla., Jan. 10.—Fifty skilled workmen lost their positions last night when there was another reduction in the forces at the Pensacola navy yard, the second within the past ten days. Nearly one hundred men who drew large salaries have been discharged.

SEVEN JURORS SELECTED

One Man Who N ver Heard of the Thaw Case Is Excused

New York, Jan. 10.—One new sworn juror was added to the trial panel in the Thaw case yesterday, making seven in all selected from the 400 talesmen summoned since the beginning of the second hearing on Monday. Another panel of 100 will report this morning. Justice Dowling has announced that he will hold court tomorow, if necessary, to complete the jury. At the luncheon recess the box was filled with six permanent and six temporary jurors, but peremptory challenges cleared it of all the latter. Just before adjournment at 6 o'clock, when Thursday's venire had been exhausted, five temporary jurors had again been selected to fill the vacancies. But once more arbitrary challenges were used and all but one of the men on probation were allowed to go.

The sole survivor of the day, who took his place as trial juror No. 7, was William F. Doolittle, chief clerk in the auditing department of the New York Central railway. The rate of progress was not gratifying either to the prosecution or the defense and better things are hoped for today.

Patrick McCue, a hat manufacturer, furnished the only spice to yesterday's proceedings by declaring that he never heard of the case. Consequently he had no disqualifying opinion and was placed on the temporary side of the trial panel only to be excused peremptorily later on.

A Difference of Opinion

Washington, Jan. 10.—President Roosevelt listened yesterday to arguments for and against the use of benzoate of soda as a preservative of ketchup and other like products. Secretary Wilson has promulgated an order prohibiting the use of this preservative after Feb. 1. Experts representing the manufacturers of ketchup urged that benzoate of soda was not deleterious to health and Dr. Wiley, chief chemist of the department, maintained that it was. The president instructed Wilson to investigate the question thoroughly and to report to him before Feb. 1.

Launch of the Hughes Boom

New York, Jan. 10.—The candidacy of Governor Hughes for the Republican presidential nomination was launched at a "Hughes Dollar Dinner" given by the enrolled Republicans of the Twenty-Ninth assembly district last night. The governor was not present, but sent a telegram in which he expressed the wish that all would contribute towards making the Republican party a constantly effective instrument for the correction of abuses and for conserving the rights and opportunities of all by impartial and straightforward administration.

At Least Four Lives Lost

Norfolk, Jan. 10.—A schooner which went to pieces off Diamond shoals has been positively identified as the Leonora, from Round Pond, Me., laden with fish scrap and bound for Charleston. The rescued cook regained consciousness and confirmed the identification. Four bodies were washed ashore yesterday. One of the crew is still to be accounted for. Not even a spar of the wreck remains to show where the vessel struck, her destruction being complete.

Columbia May Get $100,000 Gift

New York, Jan. 10.—An unnamed admirer of the late Henry Bergh, founder of the Society for the Prevention of Cruelty to Animals, has offered $100,000 to Columbia university as a memorial to Bergh on the condition that the gift shall be used to establish a chair "for the study of humane principles and their application in the broadest sense." The university is considering the gift.

Saved a Life and Lost His Own

New York, Jan. 10.—Frank J. McBrien, a wealthy retired business man, was killed in saving the life of Mrs. Mary Scheele, who had fallen in the path of a Long Island express train. Mrs. Scheele attempted to cross the tracks after the gates had been lowered, and stumbled and fell upon the tracks. McBrien dragged the woman to safety, but in doing so was struck by the locomotive.

President Receives Diplomats

Washington, Jan. 10.—The first state reception of the season was held at the White House last night, the function being in honor of the diplomatic corps. It was one of the most notable society events ever given at the White House. All the members of the diplomatic corps wore court or military uniforms.

Effort to Block Lockout

Manchester, Jan. 10.—Conferences are in progress here looking to the settlement of the dispute in the cotton trade, which led the millowners to declare that they would lock out their workmen, numbering 150,000 employes, unless their demands for increased wages were greatly modified.

Plotting in Russian Fortress

Warsaw, Jan. 10.—The discovery of a revolutionary plot among the officers in command of the artillery at the fortress has led to the imprisonment of seven officers. The police are now carrying out domiciliary searches of the quarters of the officers throughout the garrison.

NEWS IN BRIEF

Samuel Cole, aged 7, was drowned at Whitinsville, Mass. He stopped to slide on the ice and he slid into the water.

While skating on a small pond at Lakewood, Conn., Edgar Blanchard, 16 years old, broke through the ice and was drowned.

NEW THEORY SUCCESSFUL IN INDIANAPOLIS

L. T Cooper Makes Many Converts During Stay in That City.

The new theory (backed up by his preparation) advanced by L. T. Cooper with regard to the cause of most ill health of the present generation is being sown broadcast by this young man.

Cooper believes that the human stomach has become degenerate in civilized races and claims that good health is impossible unless the stomach is re-vitalized. This he claims to do with his preparation.

An article from the Indianapolis Star during Cooper's stay in that city has this to say of Cooper and his preparation: "Residents of this city are being astounded by L. T. Cooper and his new preparation.

"Reports that preceded Mr. Cooper's visit here told of his success in other localities, but the immense success of his medicine and the general belief in his theory was wholly unprecedented.

"So great is the rush of the public to this young man that people stand in line waiting their turn for hours in an effort to see him. The most interesting feature of this is statements made by reliable citizens as to the actual accomplishments of Cooper's medicine. Among recent statements of this character the following is a fair example:

"Mr. B. F. Campbell, of 3224 West Washington Street, had this to say of his experience with Cooper: 'I have been a victim of stomach trouble for the past five years—sick and suffering pain all the time. Everything I ate distressed me. I have been under the treatment of many physicians, and have taken all kinds of medicine, none of which afforded me relief. I was greatly discouraged, and was about ready to give up, when Mr. Cooper came to this city to introduce his preparations.

"'I was skeptical, of course, after spending so much money and taking such a large quantity of medicine, but, like the drowning man, I was ready to grab at a straw, so I secured some of Mr. Cooper's New Discovery medicine and began taking it. It seemed to help right from the first dose. I have been taking it for several weeks, and can now eat heartily and enjoy my meals for the first time in five years—eat anything, without pain or distress of any kind. I feel like a new being—life is worth living now.'"

Let us explain Mr. Cooper's remarkable medicine to you if your general health is not all that it should be.

—E. J. Murphy.

J. T. CONWAY, Supt.

WAY FOUND TO MAKE LINENS IN AMERICA.

Introduction of an Industry That Opens a New Market For Farmers and Will Add Millions to Textile Production.

Another revolution, textile experts say, is due to occur in the fabric making industry of the United States. Heretofore, owing to the high cost of labor in America, it has been impossible to manufacture our linens at home. American farmers raise millions of tons of flax, but only for the seed. The straw from which linen is made is burned.

Now a Massachusetts inventor has perfected a method of transforming flax straw into linen fiber that is commercially practicable under the labor conditions prevailing in the United States. From sixteen to thirty weeks are required by old world methods to accomplish what the process now controlled by the Oxford linen mills performs in twelve hours.

The initial process of linen making abroad is to weight down the flax straw in water until the woody "shive" is rotted away from the fiber. The "scutching" and combing of the straw that follow are done by hand. All of this work can now be done in twelve hours by machines which loosen the fiber from the straw and prepare it for the chemical baths that remove the gums and oils and bleach the fibet ready for spinning. At a recent demonstration for the benefit of representatives of the press and others especially interested these chemical processes were actually accomplished in a space of thirty-five minutes.

The best of the European methods secures about 170 pounds of fiber from a thousand pounds of straw and sacrifices the seed crop. By the Mudge process 250 pounds of fiber are obtained from the same amount of straw after the seed has been saved. The new process also preserves the shive for paper making and the tow, which has many profitable uses, including the manufacture of surgical bandages, machinery waste, etc.

Now Burn Millions of Tons of Flax.

A late bulletin of the department of agriculture says that "millions of tons of straw are burned every year, most of which in quality and length for the production of fiber far excels the average straw from which the Russian peasant makes the fiber which chiefly supplies the linen fabrics of the world. Not only is a new market now opened up for the farmer, but for the first time linens can be turned out on a commercially profitable basis, and in Massachusetts and Vermont mills are already being equipped to produce linens made in America."

Eventually the $22,000,000 a year that we now send abroad for linen will be kept at home, and linens need not any longer be a luxury. The Oxford processes provide a means for utilizing a raw material which costs less than one-third as much as cotton, but which in the finished product sells for many times as much.

Even without the present tariff on linens they could not be manufactured by old world methods in successful competition with the new process, and the establishment of the industry here begins with a prospect of adding enormously to the total of cotton fabric production, now valued at half a billion dollars a year.

LINEN FOR EVERYBODY SOON.

New Process Will Make It Almost as Cheap as Cotton.

Good news for the American woman is contained in the announcement that the coming of linens at prices little higher than the cost of fine cottons is at hand.

Because the process of transforming flax straw into linen is so laborious and takes so much time by old world methods the work cannot be done in the United States at the higher cost of labor prevailing here. Before the flax stalk becomes a handkerchief or a tablecloth it has been weighted down in water to disintegrate the fiber from its woody envelope. Then it is stacked in piles to dry and rot. Then follow the combing of the fiber by hand and the bleaching, which involves some twenty odd separate operations. Altogether, the peasant labor of Belgium, Russia and other European countries take from sixteen to thirty weeks to do this work. No wonder linen is expensive.

To a Massachusetts inventor is due the credit for perfecting a combined mechanical and chemical process that produces linen fiber ready for spinning in twelve hours. Think what this means in lowering the cost of shirt waists, napery, bed linen and everything that everybody would rather have made of linen if the cost were not prohibitive.

Flax straw costs less than a third as much as cotton, so there never has been any reason why linen should not be cheap if a way could be found to get the fiber from the straw by the use of machinery that would save time and labor and chemicals that would remove the flax gums and make the fiber ready for spinning. Confidence that this has been done is shown in the erection of mills in Massachusetts and Vermont that will operate under the new Oxford linen making process. Textile experts can see no further obstacle to the establishment of the industry here on a foundation that promises linens at prices within everybody's reach. Of course the profits of the mill owners will be enormous, but the American woman will not complain if linen prices are reduced, say, 33 per cent, which is well within the realm of possibility.

AGED COUPLE PERISHED

Fire Which Destroyed a Home Is to Be Investigated

Auburn, N. H., Jan. 10.—Mr. and Mrs. Albert N. Moulton, aged respectively 74 and 72 years, were burned to death in a fire which destroyed their home. Although the blaze started apparently from a defective chimney flue, County Attorney Bachelder has ordered an investigation.

Mr. and Mrs. Moulton lived with their grandson, Roy Moulton, 18 years old, in a large farmhouse. Nathan W. Tilton, who lives opposite the Moulton farm, heard Roy Moulton screaming and saw that the Moulton house was on fire early yesterday morning. Roy was apparently only half conscious, clinging to one of the posts of the piazza and shouting for aid. Tilton secured a ladder and climbed to the top of the piazza, endeavoring to reach the room where Mr. and Mrs. Moulton slept, but he was driven back and rendered temporarily unconscious by a hot air explosion. Later, recovering consciousness, he found himself on the roof of the piazza and made another attempt to rescue the aged couple, but was unsuccessful. Other neighbors came to the scene, but were unable to prevent the building from burning to the ground.

Roy Moulton said that he was awakened by the crackling of flames and found the house full of smoke. Unable to arouse his grandparents, he made his escape to the piazza in a semi-conscious condition. Frank Calef, aged 75, a brother of Mrs. Moulton, who occupied a room on the ground floor, also made his escape.

Reminder of Sea Disaster

Nantucket, Mass., Jan. 10.—The loss of schooner Richard S. Leaming in Nantucket sound on Dec. 18, 1904, with all on board, was recalled yesterday by the identification of a headless body as that of Captain Harry P. Smith, commander of the Leaming. The body was found on the Cliff bathing beach. It was in a fair state of preservation, evidently having been buried in the sand for a long time. A large package of ship's papers in a pocket was the means of identification.

Attempt at Abduction Alleged

Stamford, Conn., Jan. 10.—William F. O'Meara, a teacher in a Brooklyn school, was arrested here on the charge of attempting to abduct his 2-year-old son. O'Meara and his wife separated last September, Mrs. O'Meara coming here to live with his parents and her husband remaining in Brooklyn. O'Meara came to Stamford and, finding the boy near the home of his wife's parents, was about to board a train with him for New York when he was arrested.

Mahan Trial Again Delayed

Bennington, Vt., Jan. 10.—The trial of Alfred Mahan on the charge of the murder of his niece, Ethel Mahan, was again delayed by the sickness of a juror yesterday and no session was held. The juror who is ill is Charles H. Williams, who was taken down with the grip. This is the second time during the trial that the illness of a juror has delayed the trial.

Jewelers' Bank to Reopen

North Attleboro, Mass., Jan. 10.—The board of directors of the Jewelers' National bank held a conference with Receiver Bancroft and with Lewis Reeves, accountant, regarding the reopening of the bank. It was later announced that matters appeared most satisfactory, and that the bank might be expected to reopen later on a basis agreeable to all.

Derailed Car Delayed Traffic

Boston, Jan. 10.—All trolley car traffic in the subway was blocked for an hour and a half last night by a car becoming disabled. The gear case of the car broke and threw it from the rails, smashing several windows. The conductor was cut by flying glass, but the passengers were not hurt.

Counterfeiters "Working" Portland

Portland, Me., Jan. 10.—Quite a number of counterfeit $5 bills have been put in circulation in this city. The counterfeit is not a good one and is easily detected from the genuine. There are also counterfeit half dollars in circulation. These coins are made mostly of zinc, it is said.

Two Men Killed by Train

Boston, Jan. 10.—John Griffin and Thomas King, laborers employed by the Boston and Albany railroad, were struck by a train near the Massachusetts avenue bridge and instantly killed. Griffin was 28 years of age and King was 45. Both were married.

Fishing Sloop Destroyed

Provincetown, Mass., Jan. 10.—A gasolene tank on the auxiliary fishing sloop Mame exploded while the vessel was lying at her wharf and the craft was burned beyond repair. She was towed away from the wharf and scuttled. No one was injured.

Went Through Ice While Fishing

Clinton, Mass., Jan. 10.—While fishing through the ice on Mossey pond, Walter O'Malley, aged 51, broke through an air hole and was drowned. O'Malley leaves a widow and seven children.

Alleged Band of Swindlers

New York, Jan. 10.—An allegation that business houses in several cities have lost goods valued at more than $100,000 through a band of swindlers who operated by false bankruptcy proceedings was made by Assistant District Attorney Kindleberger, who appeared in police court here against Abraham Goldsmith, charged with being concerned in a conspiracy to fraudulently obtain silk shirtwaists valued at $226 from a manufacturer of this city. Bail was fixed at $1000.

Real Estate

FOR SALE.

Desirable Property, bringing in a good income, and occupied by the best of tenants, ten minutes' walk from center, on car line.

Also, a Double Tenement on Broadway; a money maker; only $500 down.

Some nice lots off Broadway, small payment down.

A choice Washington Street lot at 12 cents per foot.

Still other lots in the Fore River district, at Norfolk Downs, and at Quincy Adams, very cheap and on easy terms.

A fine residential property at Quincy Adams, 10 rooms, with Stable; fine place for a doctor or a down town business man.

Or a 10 room House without stable, near Quincy Adams station, strictly modern and will be sold low.

Various other properties in Quincy and vicinity.

Let me know your wants and I will show you properties that will please you.

NEW ADVERTISEMENTS TODAY.

City Ordinances
Edward Howard Griggs—Lectures
To Let—Tenements
R. E. Foy & Co.—Specials

GOOD AFTERNOON.

The Daily Ledger invites correspondence on the many important subjects now pending in our city—abolition of grade crossing, street car service to Boston, consolidation with Boston post office, needs of new schoolhouse at Houghs Neck, revision of City Charter, city finances, etc. Letters for publication will have more weight if signed by the name of the writer.

The Observations In the Daily Walk

Tickets for the second annual police ball are selling like hot cakes.

Mr. Merrill of Washington street is recovering from appendicitis.

Rev. George Benedict speaks at the Point church tonight at 7.30.

Mrs. T. W. Lincoln, entertained the Home Missionary Society, on Thursday.

There is some good skating on the pond in the rear of the car barn on Hancock street.

The amendments to the Building and Salary ordinances, passed late last year, are advertised today.

Meetings have been held nearly every night at South Quincy to discuss the grade crossing problem.

The Ladies Aid of Quincy Point are making attractive plans for an entertainment in the vestry, Jan. 15.

Rev. Mr. Atwood announces for the topic of the Sunday evening meeting, "Conviction and Conversion."

The social events for tonight are a leap year party at Norfolk Downs and a poverty party at West Quincy.

Clara Bushnell entertained a party of friends Wednesday afternoon, the occasion celebrating her fifteenth birthday.

A new set of moving pictures and illustrated songs was the change in the program at the Scenic theatre last Thursday night.

Rev. A. M. Thompson of South Quincy preaches by exchange, at the Washington Street Congregational church Sunday morning.

The special services at Quincy Point have been continued through this week. This evening a former pastor, Rev. George Benedict, is to speak at the vestry.

The general impression seems to be that Mayor Shea will not announce his appointments next Monday night, although such a thing is among the possibilities.

The ice men are beginning to get a little anxious. Up to the present time not a pound of ice has been harvested in Quincy and reports from the ice centres of New England are about as discouraging.

A calendar exhibit is a new feature for Quincy and on first thought might not appeal to many people, but one only need spend a moment at the Y. M. C. A. building to see how much of a feature this novelty can be made, and how really artistic the affect of a properly arranged collection can become.

Mr. Charles H. Johnson gives his stereopticon lecture "Historic Quincy" at Quincy Point next Wednesday evening. This will be appreciated by all, especially by the new citizens of Ward Two as they will have an opportunity to learn of Quincy past and present, from one who knows what he is talking about and knows how to talk about it in an exceedingly interesting way.

Another cold Sunday is predicted.

Twenty degree temperature at sunrise.

A new cross walk has been built on Franklin street near the intersection of Payne street.

The annual meeting of the Merry Mount Granite Company will be held next week.

Reports from the hospital in Boston do not hold out much encourgement for the recovery of Officer Kelliher.

Albert S. Apsey, receiver, has filed a petition in the land court for land on East Squantum street assessed for $72,575.

The Y. P. S. C. E. of Memorial church are to give a stereoptican lecture the last sf January in behalf of the church.

The railroad has a large gang of men at work on the new freight yard at Quincy Adams. It will probably be spring before it is ready for use, however.

Many diligent workers turned out Wednesday afternoon and plied the needle at the charitable sewing-bee held in Memorial church at 1.30. The result was highly satisfactory.

The funeral services of Mrs. Herbert Carter of Webster street were held at her late home on Thursday afternoon at two o'clock. Love and sympathy were expressed by a profusion of beautiful flowers.

An inquest was held at the district court this morning on the death of Daniel Delaney of West Quincy, who died as a result of injuries received by being run down by an automobile at Milton, Christmas night.

Boys and girls of the Loyal Temperance Legion should not forget to go to the new hall in Johnson's building Saturday afternoon at one o'clock to welcome their new leader Mrs. Isabelle Davis and receive badges.

Tonight finishes a most interesting week of revival meetings at the Atlantic M. E. church. The pastor has been assisted by Rev. Mr. Critchlow of Boston University, and the gospel singing has been enhanced by special soloists.

The Dorcas society held a whist party Thursday evening in Electa hall. Souvenir were awarded the following: Mrs. J. Smith, Martha E. Holton, Mrs. J. G. Thomas, J. F. Hogan, William J. Dorley and Calvin Fletcher. There will be another party Jan. 23.

Monster Searchlights On Birmingham

The searchlights on the U. S. scout cruiser Birmingham, built at the Fore River, are the biggest ever installed on United States warships. There are two, both of 60 inches. These were given a two-hours' test Thursday evening from 5 to 7 by the electrical department at the shipyard, in charge of Chief Electrician Clinton, and did very satisfactory work. They not only illuminated objects in all parts of Quincy, but in the Weymouths, Braintree, Milton, Canton, Boston and surrounding towns.

Capt. George W. Dow of the ill fated schooner Thomas W. Lawson is still confined to a hospital in England. Injuries to his hands prevent his writing.

The Pacific fleet will arrive at Rio Janeiro today or tomorrow and the city is en fete to welcome the American battleships.

Keel blocks for the forwardmost keel plate and stem of the Battleship North Dakota are being put into position at the Fore River shipyard.

A large force of men are working nights at the present time in the machine shop.

John Winslow of the mould loft has tendered his resignation to the company, to take effect the middle of this month. At that time Mr. Winslow will return to Cornell University to complete his course in naval architecture.

In a list of recent court decisions the New York Shipping Illustrated gives the following: "Collision—Steam and Sailing Vessels Crossing.—A collision at sea on a foggy night between a schooner and a steamer on crossing courses was brought about primarily by fault of steamer in maintaining an excessive speed in the fog and not keeping an efficient lookout in consequence of which she was close upon the schooner before she saw her or heard her fog signals. Just prior to the collision the mate of the schooner took the light from the binnacle and placed it on top of the house where it was mistaken by the steamer for the stern light of an overtaken vessel, in consequence of which the steamer ported when she should have starboarded, and thus made collision certain. Held, that such act of the mate did not render the schooner liable as for a contributory fault, because it was done in extremis, when the steamer was bearing down directly upon the schooner, at high speed, apparently without seeing her. The Furnessia. Circuit Court of Appeals, Second Circuit. 154 Federal 348."

MILTON.

A food sale will be held at the Congregational church vestry Saturday afternoon.

Rev. Stanley Searing of Boston spoke on "Sign Language" at the smoke talk of the Thursday Evening club this week.

Thomas Forbes who had his nose broken by being thrown from his team last week is getting along nicely.

The seventeeth annual ball of the Firemens Relief Association will be held Jan. 22.

Chief of Police Maurice Pierce attended the police ball at Hyde Park on Wednesday night.

The fire department were kept busy on Sunday, In the afternoon Hose 4 was called out twice on still alarms for chimney fires. At 4.30 an an alarm from box 68 was sounded for a fire in a house on Buntin place owned by Joseph Blake and occupied by William Eaton. The fire was caused by an oil stove and damaged the house $150.

Chief Engineer Choate reports the total number of bell alarms in 1907 to have been 65 and 68 still alarms. The total fire loss of the year was $8,000 and was largely covered by insurance.

The hockey team of the Milton High defeated the Roxbury Latin team on Thursday 2 to 1.

The attempt to work up interest in the project to build a tunnel across the English channel has failed again. This scheme is brought up every few years, and the prospects of its success were greater on the last occasion than year before.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PROVISION FOR EX-PRESIDENTS.

Grover Cleveland Thinks the Nation Ought to Pension Them.

WHAT THE COUNTRY EXPECTS

Public Forces, He Says, Mode of Life Not In Keeping With Financial Standing of Retiring Presidents—Asserts They Should Be Enabled to Maintain Dignity In Private Life.

Grover Cleveland, ex-president of the United States, in an article recently published in the Youth's Companion makes a plea for pensioning ex-presidents.

The title of the article is "Our Duties to Our Ex-Presidents," and Mr. Cleveland sets forth that, while he wants no aid from the nation, we should do something to provide for the men who have occupied the executive chair to prevent their becoming poverty stricken.

The article, the magazine declares, is "a document likely to become historical, for, while the subject has had much attention and discussion, the few persons most vitally concerned in the matter have never heretofore given expression to any special views upon it."

The following are extracts:

"It is most gratifying to note how the private lives of our ex-presidents are made grateful and bright by the generous attachment and spontaneous kindness manifested toward them by their fellow countrymen. The American people are the best people in the world, and the honor and respect with which they follow to his retirement one who has served them in the highest office within their gift illustrate the innate nobility of the American character.

"The truth is that our people, so far from treating their ex-presidents simply as relics of past honors, seem disposed not only to bestow upon them honor and respect, but to continue them in service so far as to interfere seriously with their untrammeled attention to private citizenship and their unrestrained resumption of the occupation of everyday life.

"There is a sort of vague but none the less imperative feeling abroad in the land that one who has occupied the great office of president holds in trust for his fellow citizens a certain dignity which in his conduct and manner of life he is bound to protect against loss or deterioration.

"Obedience to this obligation, which can hardly be avoided, limits the ex-president in his chance of an occupation of means of livelihood and prescribes for him only such work as in popular judgment is not undignified, and it also forces a scale of living on his part frequently less in keeping with his financial ability than with popular conceptions of ex-presidential propriety.

"Our national pride should be rudely touched when we read concerning Thomas Jefferson after his retirement from the presidency: 'By degrees Jefferson became a poor man and, indeed, worse than poor, since he was involved in pecuniary embarrassments. Before matters had reached this stage he had sold his library to congress for $23,950.'

"Although he expressed himself as desiring nothing from the public treasury, he accepted pecuniary aid furnished by private subscription, with the pathetic statement:

"'I have spent three times as much money and given my whole life to my countrymen, and now they nobly come forward in the only way they can and save an old servant from being turned like a dog out of doors.'

"John Quincy Adams a short time before he retired from the presidency and in contemplation of that event wrote as follows:

"'The income of my whole private estate is less than $6,000 a year, and I am paying at least $2,000 of that for interest on my debt. Finally upon going out of office in one year from this time, destitute of all means of acquiring property, it will only be by the sacrifice of that which I now possess that I shall be able to support my family.'

"Whatever omission there may be of fair and considerate conduct on the part of our people in their relations with their ex-presidents ought to be made good by a definite and generous provision for all cases alike, based upon motives of justice and fairness and adequate to the situation.

"The condition is by no means met by the meager and spasmodic relief occasionally furnished under the guise of a military pension or some other pretext, nor would it be best met by making compensation, already accrued or accruing, dependent upon the discharge of senatorial or other official duty.

"If, in concluding this discussion, a personal word is necessary or permissible in view of the fact that I am the only man now living who could at this time profit by the ideas I have advocated, I hope my sincerity will not be questioned when I say that I have dealt with the subject without the least thought of personal interest or desire for personal advantage.

"I am not in need of aid from the public treasury. I hope and believe that I have provided for myself and those dependent upon me a comfortable maintenance, within the limits of accustomed prudence and economy, and those to whom I owe the highest earthly duty will not want when I am gone.

"These conditions have permitted me to treat with the utmost freedom a topic which involves no personal considerations and has only to do in my mind with conditions that may arise in the future, but are not attached to the ex-president of today, and I assure you that I am actuated only by an ever present desire that the fairness and sense of justice characteristic of Americanism shall neither fail nor be obscured."

Senator William B. Allison of Iowa, chairman of the committee on appropriations, favors action by congress looking to the care and support of ex-presidents of the United States, says a Washington dispatch to the New York Tribune. In an interview the other night he referred to the recent utterances of former President Grover Cleveland on the subject and agreed with him that some provision should be made in this direction. The matter deserved consideration at the hands of congress, he said, and undoubtedly would receive it. In the case of Thomas Jefferson, who died poor, Mr. Allison said, the government would have done well to pay his debts. At present Mrs. Garfield is receiving an allowance from the government, and he said that to make provision for ex-presidents would cause no considerable drain on the treasury, as rarely have there been two of them alive at the same time.

ASSET CURRENCY.

How Farmer Connor's "Truck Paper" Relieves an Oklahoma Stringency.

At a place called Canadian, not far from Muskogee, Okla., there is an Irishman named J. P. Connor, says the Wichita Beacon. He is a member of the tribe, having married an Indian woman. He has lived there at least thirty years, and everybody at or near Canadian knows him. He has nine children, each of whom has 360 acres of land. The family has about 3,000 acres of ground, and as Mr. Connor is a fine farmer and has brought up his family to be farmers there is enough property in sight to inspire confidence if the Connor name were not itself a financial Gibraltar.

Not long ago in a spirit of Irish humor Mr. Connor had a few checks printed, to which he signed his name, and one son joined in the note. It was for $5. When he offered it he found that it was good, and the people took it readily.

Then he went into the business of issuing checks, but in a most novel form. He made the check payable to bearer, but not good if indorsed. The signature was not J. P. Connor, but J. P. Connor's farm. The idea was that the farm backed the note and not the man; hence the clause that an indorsement would vitiate it by putting a mere man's name on an equality with the farm.

Another peculiarity of the check is that it is payable in cotton, wheat, oats, potatoes, hay, eggs, poultry and, in short, anything produced on the farm. It is also payable in cashiers' checks or anything that passes for money except the currency itself.

Now these notes are doing the work of currency in Canadian and another town near there, and every merchant in both towns accepts them as freely as if they were greenbacks and even more readily than bank checks from places farther away.

The Wichita Beacon saw one of these notes the other day indorsed by Senator Russell, so as to vitiate it, and the statements made in this article are vouched for by the state senator from the Muskogee district.

MEMORIAL TO BEECHER.

Windows Depicting Puritan Scenes Unveiled at Plymouth Church.

Eight of the series of Beecher memorial windows to be placed in Plymouth church, Brooklyn, were unveiled at the services on a recent Sunday morning, says the New York Times. The Rev. Dr. Newell Dwight Hillis, pastor, spoke of the windows unveiled and told of the eleven more which are to adorn the church. The eight already in place, which are above the side galleries, depict, with those to follow, typical scenes in the influence of Puritanism on the people and institutions of the country. The subjects are:

"John Hampden and John Pym Appealing For the Bill of Rights Before Charles I."

"John Milton Pleading For the Liberty of the Press."

"Oliver Cromwell Announcing to George Fox Liberty of Worship and the Beginnings of Religious Toleration and Charity."

"The Prayer of John Robinson on the Deck of the Speedwell at Delfthaven."

"The Signing of the Compact of the Mayflower."

"The Landing of the Pilgrims."

"John Eliot Preaching to the Indians."

"The Founding of Harvard College."

The remaining windows of the series, it is expected, will be unveiled early in 1908.

Owl's Head For Hat.

The scope and fancies of milliners are illimitable, says a Paris special cable dispatch to the New York Herald. Immense aigrets, bunches of feathers and groups of swallows and humming birds have recently been employed as decoration for headgear. There is now a new rival. This is an owl's head, which adds to the charm of novelty its reputation as a mascot. Certainly this suits many pretty faces.

Up to Date Bible History.

An old Dutch Bible found in the Humansdorp district of Cape Colony has a frontispiece, says the London Globe, depicting Cain shooting Abel with a blunderbuss.

Gold for Deputy Johnson

North Abington Odd Fellows think very hightly of their District Deputy A. S. Johnson of Wollaston. The lodge presented him a gold charm and a purse of $20 in gold after the installation of its officers Thursday night.

TODAY'S COURT.

Harvey F. Arnold was arraigned for operating an automobile at Milton without a number. Case placed on file on payment of costs amounting to $2.50.

John J. Cahill and George Lemireux were arraigned for the larceny of lead from John L. Fratus at Quincy. They were put under $200 bonds until April 1.

John Driscoll was fined $5 for drunkenness at Weymouth.

Albert Peterson and Anton Peterson were arraigned for disturbing the peace at Quincy. Cases continued until Saturday.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

CITY ORDINANCE.

CITY OF QUINCY.

No. 274. In Council, Oct. 7, 1907.

ORDERED: That the Ordinance establishing Fire Districts, etc., be amended so as to read as follows:

Section 6. By adding after the words "fire or otherwise" the words "nor add to any such building."

Section 6. Also add after the words "within the limits of District No. 1" the following: "No dwelling-house shall be hereafter built within the limits of District No. 2, without foundation walls" so that Section 6 shall read as follows:

Section 6. No wooden or frame building, except dwelling-houses and private stables, shall be hereafter built within the limits of District No. 1. No dwelling-house shall be hereafter built within the limits of District No. 2, without foundation walls. No person shall move, or cause to be moved any wooden building from without said limits into the same. No person shall move or cause to be moved any wooden building from one place to another within said limits, nor shall any person repair or rebuild any building within said limits, which has been partially destroyed by fire or otherwise, nor add to any such building, without the written permit of the Inspector of Buildings.

Passed to be ordained Dec. 23, 1907.

Attest: GEORGE T. MAGEE, Clerk of Council.

Approved Jan. 2, 1908.

JAMES THOMPSON, Mayor.

A true copy. Attest:

HARRISON A. KEITH, City Clerk.

Jan. 10 2t

Mortgagee's Sale.

BY virtue of a power of sale contained in a certain mortgage deed, given by Emma B. Tilton to Paul G. Harting, dated March 27th, 1907, and recorded with Norfolk Deeds, Book 1050, Page 306, and duly assigned by the said Harting, to the Employees Trust Incorporated, a Massachusetts corporation, said assignment being duly recorded, for breach of the conditions thereof, and for the purpose of foreclosing the same will be sold at public auction upon the premises hereinafter described, on the third day of February 1908, at eleven o'clock in the forenoon, all and singular, the premises described in said mortgage deed, namely:—

A certain parcel of land with the buildings thereon, situated in that part of Quincy called Quincy Point, and being lot one (1) on a plan of land belonging to Walter E. Burke by Perry Lawton, C. E., dated September 1902, and recorded with Norfolk deeds, bounded and described as follows:—Beginning on South Street, at the corner of the granted premises and land late of Albert C. Nash; thence running northerly along said South street) 66 10-100 feet; thence turning and running easterly along land of one Read, 104 45-100 feet, thence turning and running southerly along lot two (2) on said plan, 63 95-100 feet to land late of Albert C. Nash; thence turning and running westerly along land of the late Albert C. Nash, 111 69-100 feet to the point of beginning, containing seven thousand and seven square feet of land, more or less.

Said premises will be sold subject to a first mortgage of record, and subject to all unpaid taxes and assessments if any. Two hundred dollars will be required to be paid in cash by the purchaser at the time and place of sale.

EMPLOYEES TRUST INCORPORATED.
Assignee, and Present Holder of said Mortgage, Tremont Building, Boston.
10-17-24

Royal Arcanum.

Manet council of Quincy held an installation of officers and initiated four candidates for membership on Monday evening at their hall in Doble's block, South Quincy. Nine brothers of the Weymouth council were present together with delegates from several neighboring councils. After the business of installation and the reception of new members, a supper was enjoyed, followed by a smoke talk. Regent Monk of Rumford council of Waltham made an address, also the Grand Regent of Massaachusetts. The Weymouth council will hold their installation of officers for the coming year next Monday evening.

The second party of the Three-Leaf Clover Club last evening at Colonial hall was an enjoyable event for about twenty-five couples, who danced from 8 to 11.30 to Kutz music. Mrs. Walter Burke and Mrs. George Follett were matrons.

* * *

Mr. and Mrs. C. B. Edwards of Braintree are on the way home from New Orleans, having had a fine voyage to the gulf states in The Creole." They are returning by rail and by last advice had reached Mobile, Alabama.

Mr. and Mrs. Charles A. Feltis, formerly of Quincy and well and favorably known in this city, have recently removed from Marshfield Hills to Sagamore, on the Cape. Mr. Feltis makes a favorable business change. Their removal from Marshfield Hills is much regretted by the community, which though small, is an extremely social one.

* * *

Mrs. George H. Wilson attended the New Year's reception and tea at the Hotel Brunswick on Thursday given by the Daughters of Massachusetts.

* * *

Mrs. Wade H. Shorter, nee Phillips, of Buffallo, N. Y., with her son and daughter is visiting her father, Mr. Hiram W. Phillips at the Point. Her many friends are giving her a warm welcome.

* * *

Mrs. Ross K. Whiton is to sing a group of songs at the First Church Alliance meeting on Monday afternoon.

* * *

Mr. and Mrs. Percy H. Holman of South street, Quincy Point, are having a most delightful visit in Pittsburg, Pa., and will probably remain the rest of the month. They are the guests of Mr. John Haynes of that city.

* * *

Mr. and Mrs. Walter Roberts and Mrs. Fred Lewis, the latter's mother, have returned to make their home in Wollaston and are at 39 Grand View avenue.

* * *

Miss Christine Fowler of Phillips street has been entertaining her friend, Miss Hazel Broad of Sussex, New Brunswick.

(Continued on Page 8.)

GRANITE INDUSTRY

The Year 1907 About Equal To The Record Breaker of 1906

One of Quincy's staple industries is the quarrying and cutting of granite, and at the first of a new year a general review of this industry will not be out of place. As a little comparison of how the business has increased it will be interesting to know that in 1890 there were in Quincy 108 firms manufacturing granite and 31 quarry owners. Of this original number there are now 27 manufacturers in business and four quarry owners. During the year 1907 there were 120 firms manufacturing granite and 11 quarry owners.

There were during the year an average of 1,151 granite cutters employed in the various yards, about 116 carpenters, and 132 polishers, thus showing the number of men outside the bosses, teamsters, and lumpers.

The number of cutters employed each month has varied but little as will be shown by the following table giving the number of cutters employed each month. These figures are given in comparison with the years 1906 and 1903.

Month,	1907.	1906,	1903.
January,	1,152	1,036	750
February,	1,012	1,025	750
March,	1,090	1,040	800
April,	1,160	1,132	850
May,	1,185	1,194	950
June,	1,196	1,183	950
July,	1,178	1,174	950
August,	1,215	1,216	900
September,	1,217	1,237	900
October,	1,185	1,256	800
November,	1,157	1,250	700
December,	1,065	1,219	600
Av. per month,	1,151	1,164	611

There are some other interesting figures relative to the amount of granite shipped each month during the year. By the figures published each month in the Daily Ledger the total shipments of the year are found to have been 143,079,449 pounds against 163,826,999 pounds for the year 1906.

Of the 1907 shipments 57,963,911 pounds was forwarded from Quincy Adams, and 85,115,538 pounds from est Quincy. The 1906 shipments from these points were: Quincy Adams, 63,840,164 pounds, West Quincy, 99,986,835 pounds, or a total of 163,826,999 pounds for the year.

It would appear from these figures that the business for the year, while as a whole considered good did not come up to the volume of the previous year, but there may have been more rough stock shipped in 1906. An average shipment of over 1,300 tons per week shows that something is doing in the granite industry of Quincy.

GERMAN LESSONS

Given by a German lady, educated in the high school for girls in Hamburg and who has been many years governess in fine German family.

Price per lesson, 50 cents.

MRS. HANSEN, 336 Washington Street.
Quincy, Jan. 7 3t--7-9-11

OPEN EVENINGS.

JURY IS COMPLETED

Thaw and His Wife Satisfied With the Men Chosen

ALL MIDDLE-AGED OR OVER

Commission to Take Testimony of Defendant's Mother, Who Is Sick--Opening Statement of Prosecution Will Comsume but a Few Minutes

New York, Jan. 11.—The second jury to try Harry K. Thaw for killing Stanford White was completed late yesterday afternoon and on Monday morning the prosecution will present its direct case against the defendant. Five jurors were accepted and sworn during the morning and afternoon sessions. As a whole, the jury is made up of business men of middle age or over.

When the panel had finally been completed, after many vexatious delays, and after the exercise of twenty-three peremptory challenges by the defense and twenty by the people, Thaw announced that he was entirely satisfied. In fact he seemed well pleased with the twelve men chosen.

Young Mrs. Thaw, who has watched the selection of the jurors with the keenest interest, also declared that she was well satisfied. "They are much nicer than the men selected last year," she said as court adjourned, and Thaw echoed his wife's sentiments.

The prisoner and his wife had an earnest five minutes' talk after the last juror had been sworn and while the attorneys were considering the appointment of a commission which will be sent to Pittsburg to take the testimony of Mrs. William Thaw, the defendant's mother, who is still too ill to come on to New York.

The jury as finally completed stands as follows: 1, Charles E. Gremmels, ship broker, foreman; 2, Arthur R. Naething, employing baker; 3, George W. Cary, dry goods; 4, George C. Rupprecht, salesman; 5, John H. Holbert, mineral waters; 6, David E. Arrowsmith, manager; 7, William F. Doolittle, auditor's clerk; 8, William H. McHugh, clerk; 9, Frank J. Howell, manufacturer; 10, William Burck, assistant secretary Young Men's Christian Association; 11, Francis Dovale, real estate; 12, James A. Hooper, meats and provisions.

The new jurors selected yesterday were McHugh, Howell, Burck, Dovale and Hooper. The last two seats in the jury box seemed particularly hard to fill and a number of talesmen were passed temporarily into these places, only to be excused in a few minutes by challenges by both defense and prosecution.

Justice Dowling announced at the beginning of yesterday's sessions that, beginning with Monday, the court hours would be from 10 a. m. to 1 p. m., and from 2 p. m. to 6 p. m. Afterwards, at the request of the attorneys, he fixed the hour of adjournment at 5 o'clock instead of 6.

Assistant District Attorney Garvan will make the opening statement of the prosecution, as he did at the first trial. He will not consume more than ten minutes, and it is said that the state will not take up more than two hours with its direct witnesses. The defense will open Monday afternoon and Martin W. Littleton, Thaw's chief counsel, will make the opening statement.

Hobson's Proposition

Washington, Jan. 11.—Preliminary to the campaign for an enlarged and improved navy, which he purposes to wage in the house, Representative Hobson offered a resolution providing for the appointment by the president of a commission of seven members "whose duty it shall be to investigate and report to the president and to congress upon the best means of preserving the general welfare by the use and extension of arbitration and by the maintenance of armed forces."

Promise of Better Business

New York, Jan. 11.—R. G. Dun & Co.'s Weekly Review of Trade says that sentiment has improved in response to the brighter outlook, commercial loans being made with more freedom than at any recent date. As much projected business was only held back by inability to raise funds, the easier money market encourages expectation that postponed contracts will now be placed.

Receivers For Coal Company

Columbus, O., Jan. 11.—Charles Cohenour and Charles F. Evans have been appointed receivers for the New England Coal company, which holds 10,000 acres of coal lands in Perry and Morgan counties, with two operating mines on the Sunday Creek railroad, a branch of the Baltimore and Ohio.

Perished From Cold

Malone, N. Y., Jan. 11.—A man believed to be E. J. Brand of Potsdam, N. Y., was frozen to death while trying to reach this town afoot from some of the stations east last night. The night was bitter cold and the mercury dropped to 10 degrees below zero before daylight.

Transvaal's Great Gold Yield

London, Jan. 11.—The Transvaal yield of gold for the month of December makes a new record. The output was 583,526 ounces, which is 28,499 ounces over the previous highest yield for a month.

TAFT ON FIRST BALLOT

Roosevelt Believes Convention Will Make Nomination Unanimous

Washington, Jan. 11.—President Roosevelt is confident that William H. Taft will be nominated for president next June on the first ballot, and that the convention will then lose no time in making the nomination unanimous. The president's conclusion, which he made known to a number of callers, is based on information that has come to him from all parts of the country, many of his informants being friends and some even agents of opposing candidates.

According to the information in the possession of the president, Taft will get more than 600 votes on the first ballot. The majority of these will come from the west and south, both those sections being practically solid for the Ohio candidate. Reports from New England indicate to the president that Taft will have at least half of the delegates from that section.

Recently a number of "third termers" have been to the White House to ask the president what his view of the presidential situation is. To them he has talked frankly, and given them the information on which he bases his conclusion that Secretary Taft is practically assured in his opinion of being nominated on the first ballot.

Florida Negroes Booming Taft

Jacksonville, Fla., Jan. 11.—An organized movement among the Republican negroes of this state in favor of J. B. Foraker for president has come to light. It is the purpose of those interested in the movement to capture the state Republican convention which will be held on Feb. 6, despite the earnest efforts of the officers who are working for W. F. Taft. The fight between the two factions of the party is being vigorously waged in every county in the state.

Cannon as Bryan's Opponent

Danville, Ills., Jan. 11.—William J. Bryan, who spoke here at a dinner tendered him by the Bryan Democracy, declared it his belief that Joseph G. Cannon of this city will be the Republican candidate for president, and that he will oppose Cannon.

Theatrical Managers Hard Hit

Kansas City, Jan. 11.—Indictments to the number of 169 against persons, most of whom are engaged in theatrical work, charged with violating the state law of 1835, which forbids unnecessary labor on Sunday, were returned by a grand jury yesterday. Theatrical managers were indicted as many times as they had actors and employes working at their theatres last Sunday, on the theory that the employer violates the law for forcing his employes to work as much as does the employe by working on Sunday. For each indictment the managers must supply a bond of $200.

Our Tobacco Won't Grow Abroad

New York, Jan. 11.—Long continued experiments, with a view of raising high grade tobacco in other parts of the world than where the leaf has long been grown, have been a complete failure, according to Vice President Harris of the American Tobacco company. Attempts have been made to grow tobacco from American seed in Australia, China, India and other countries. In Australia not more than 13 percent of the tobacco grown could be used and in the other countries it was even less of a success.

Blame For Larchmont Disaster

Washington, Jan. 11.—Secretary Straus transmitted to congress yesterday the report of Steamboat Inspectors Withey and Stewart relative to the disaster to steamer Larchmont, which collided with the schooner Harry Knowlton off Block Island, Feb. 11, 1907, in which many lives were lost. Responsibility for the disaster is placed upon Pilot John L. Anson, now dead, and absolves from blame Captain McVey and the rest of the crew.

The Trouble In Somaliland

Rome, Jan. 11.—No further news has been received of the reported serious troubles in Italian Somaliland. The situation in Italian Somaliland assumes international importance, owing to the signing in London Dec. 13, 1906, by Italy, Great Britain and France of an accord on Abyssinia, the three powers pledging themselves to co-operate for their respective interests. King Menelik never liked this agreement.

End of Five Months' Strike

Havana, Jan. 11.—The strike of masons, which has been going on for five months, was terminated yesterday by the employers and the labor union agreeing to appoint a committee to confer with Governor Magoon and arrange the questions in dispute concerning wages and hours of labor.

NEWS IN BRIEF

Laborers in the Providence railroad yards dug up a human skull, which is believed to have some connection with the disappearance of some sailor who was probably murdered.

The total enrollment of students at Harvard university this year 5763, according to advance sheets of the university catalog. This total is a decrease of twenty-six from last year.

The twenty-fifth annual meeting of the New England Insurance Exchange at Boston was attended by leading insurance men from all over the east, over 200 being in attendance. There were speeches on topics of particular interest to the insurance men.

While racing with a companion on thin ice at Fitchburg, Mass., Otto Muller, aged 19, was drowned, and his companion, Max Noremberger, aged 20, was rescued barely in time.

Quincy, Nov. 21 tf

CHRISTIAN PSYCHOLOGY.

Bishop Fallows Explains His New Method of Healing.

DOCTORS AID THE MOVEMENT.

Reformed Episcopalian Tells How Religious Psychology Differs From Christian Science—Prayers For Mind, but Medicine Insisted on For Body.

"Christian psychology," the new method of healing propounded by two Boston Episcopal clergymen, has been introduced at Chicago by Bishop Samuel Fallows of the Reformed Episcopal church with such success that the bishop is swamped with letters asking for further information. It is a combination of faith cure and medicine—of prayer and such drugs as may be needed. Bishop Fallows, who is instructing a large class in Chicago, has written for the New York World the following explanation of it:

Christian psychology is religious therapeutics and applied Christianity. It is differentiated from Christian Science in several particulars, while it includes the law under which every cure claimed to have been wrought by Christian Science is effected.

It clearly recognizes the reality of the mind and the body and the inseparable relation between them. It affirms most emphatically the value of anatomy, physiology, bacteriology, histology and the like in the progress of the race, as well as that psychology in the treatment of disease has come from the increasing light which physiology throws upon the human frame.

It maintains that there is a fundamental distinction between functional and organic diseases. The former include the various forms of mental and nervous disorders which are directly amenable to psychical and religious influences. The organic include those in which important changes have taken place in the bodily structure. Among these maladies may be named cancer, malignant tumors, tuberculosis, diphtheria, scarlet fever, smallpox and the like. These troubles may require surgical aid and the application of material remedies.

But Christian psychology gives all the ameliorating, strengthening and uplifting aid that can possibly be afforded to the mind or soul in such cases. No psychical action can take the place of food to build up the physical system. But its influence is profound in aiding all the forces of digestion. Christian psychology does not limit the power of God in healing diseases when it holds, as in the case of food, material remedies must be employed for material ills. It is the way he has chosen to accomplish his ends.

Christian psychology differs from Christian Science in asserting the absolute necessity for the work of the physician. It is mainly through the medical fraternity that the former plagues which scourged humanity and destroyed millions of lives have been stamped out. They have saved millions of lives and increased their comforts and efficiency by teaching the laws of sanitation and hygiene and have assuaged human and animal suffering by the discovery of anaesthetics.

In former ages the priests of the Greek church and the Latin church united in themselves the functions of the physician. The differentiation of work in later years has separated them. The alarming prevalence of nervous diseases in our age has brought them here closer together. They are beginning to co-operate heartily with one another as it is seen how great a part the clergyman ought to perform in specifically administering to minds diseased.

The lectures I have given for twelve years to hundreds of graduate physicians on mental physiology and psycho-thereapeutics have brought me into intimate and delightful relationship with my brethren of the medical fraternity and have led me to put my own teachings in practice in the church.

Christian psychology differs from Christian Science in not being a new religious cult. It simply aims to form societies for health and happiness in the various churches and communities that may desire them. It most strenuously teaches that there is not the slightest need to deplete or distrust existing church organizations or the family in order to get everything that can be obtained in psychical healing.

It holds that the pastor of a church, a man so frequently of college and university training, one who is conversant with the deepest things of the soul, is the man best qualified to apply the great principles of healing to the members of his flock and to work hand in hand with the physician in so doing. It further differs from Christian Science in so far as it is a church movement; that it offers to the poor and the needy its proffers of help in this direction, as in others, without the taint of commercialism.

Christian psychology comprehends all that is distinctively known as faith healing, divine healing, mental healing or any other form of psycho-therapeutics. It recognizes the great fact that there is a diversity of operations, but the same spirit. It believes in the power of personal prayer and intercessory prayer. It plants itself on the Bible as containing all the ethical, psychical and spiritual forces for man's welfare.

The movement which is conveniently expressed by the term Christian psychology was begun sixteen months ago in Emmanuel church, Boston, by its well known rectors, the Rev. Dr. Elwood Worcester and the Rev. Dr. Samuel McComb. Dr. Worcester was for many years professor of psychology in Lehigh university and frequently consulted with Dr. Weir Mitchell, who was a member of his church in Philadelphia. Dr. McComb is a graduate of Oxford university and has been a close student of philosophy in German universities.

During this period hundreds of cases have been relieved. From a very small beginning the work has grown to such proportions that they have sent out an appeal to other clergymen in different parts of the country to carry on the movement and meet the requests for help which they themselves could not consider.

In several of the eastern towns and cities ministers of different denominations have begun the same work. Some of the ablest neurologists of Boston and New England are aiding in this movement. The work which has been begun here in Chicago will be conducted along the same sensible scientific and Scriptural lines. Already some of the leading neurologists and physicians of Chicago and the west are co-operating in this movement. As in Emmanuel church, Boston, no case of illness will be accepted for treatment without a doctor's diagnosis.

Several striking cases already have come to Bishop Fallows' attention, says the Chicago Post. Several weeks ago he was on a train with a prominent military man. The latter was suffering acutely with indigestion and had not eaten anything for several days.

"He was in bad shape," said the bishop the other morning in telling about it; "said he couldn't eat, couldn't sleep and couldn't get a bit of mental quiet. I talked with him briefly, and after awhile he went out into the dining car and got a bowl of milk and crackers. I saw him the other day, and he was as well and hearty as he could be and thanked me profusely."

A south side woman in Chicago wrote and arranged an interview for a relative who has been suffering from continued mental depression. Another who has asked assistance is a young student who overapplied himself and has a suicidal mania.

TROUSSEAU FROM A STAMP.

Rare One on a Grandfather's Love Letter Provided the Money, $3,000.

A little touch of sentiment was injected into the ordinarily prosaic stamp sale at the Freeman building, in Philadelphia, the other day, when an old Philadelphia "provisional" stamp of the early fifties was sold for $3,000, providing money for the future trousseau of a little twelve-year-old girl of Alexandria, Va. The stamp was taken from one of the love letters written by her grandfather to her grandmother.

The Fawcetts of Alexandria are one of the oldest families in Virginia and were well to do before the war. They have become so poor of late years that Mrs. Janette Fawcett, seventy-six years old, has been in despair of keeping her promise of providing the wedding outfit of her little granddaughter Janette, says the New York Times.

Just before Christmas, in going through some things in an old trunk, she came across a bundle of letters. On one of the envelopes was the old "provisional" stamp. She realized that it was valuable, and it was taken to Philadelphia by a friend and placed in Mr. Parrish's hands. He put it up at the recent sale, and, to the surprise of every one, a collector from Cleveland paid $3,000 for it.

Very few of the "provisional" stamps were issued, and this particular stamp is different from any others that have come to light. It was issued by the postmaster of Alexandria in 1847 and is printed in black ink on light blue paper. All the other stamps of the kind that are known to be extant are printed in black on buff paper. The stamp is circular in shape and the size of a half dollar. In the center is the word "paid," with a "5" underneath. This is encircled with the words "Post Office, Alexandria," and around the whole is a circle of stars.

Shipping Acorns.

Eugene Hawkins, living near Huntingdon, Tenn., has been for some time shipping acorns to the northern states, receiving sometimes as high as $4 a bushel for them. The acorns are used for planting purposes, with a view to replenishing the forests of that section of the country, where efforts are being made to restore the timber by planting small trees, says the Memphis News-Scimitar. As nearly all the oak timber in the Huntingdon section of the state has been consumed, acorns are becoming very scarce, and it would no doubt pay the farmers of the south to follow the example of the northern people.

Minnesota Wolf Bounties.

The counties of Minnesota received a substantial gift the other day when State Auditor Iverson distributed warrants to the amount of $10,565, it covering bounties paid for wolves since last June, says the St. Paul Dispatch. In all during the six months 1,839 wolves were slaughtered in Minnesota, those doing the killing receiving from $3 to $7.50 for each wolf. The latter was for full grown animals. The biggest check went to Kittson county. It called for $1,357.50 and represented 247 wolves killed.

A New Use For Seaweed.

Agar-agar, derived from Chinese seaweed, may possibly replace gelatin as a basis for photographic processes, says the Chicago Inter Ocean. Lecturing before the Royal Photographic society, W. F. Cooper said that it would in time mark a revolution in photographic emulsion making.

DEMOCRATIC TANGLE

May Have to Be Settled In Massachusetts Courts

FACTIONS STILL FAR APART

District Members of State Committee Strongly Opposed to Members-at-Large Chosen at Bartlett Convention--Fruitless Effort to Organize

Boston, Jan. 11.—Another effort was made yesterday to organize the Democratic state committee of Massachusetts, and, although very little was accomplished, fourteen district members of the committee who had charge of the meeting formed a temporary organization and voted to ask the other twenty-six members to attend an adjourned meeting next Wednesday afternoon for the purpose of forming a permanent organization.

The situation, however, is still complicated through the action of the officers of a meeting held by other members of the committee Thursday in filing their proceedings with the secretary of state. If the members of Thursday's meeting as well as eight men who withdrew from the state headquarters yesterday, before the business began, still refuse to participate, it is probable that the state courts will be asked to adjudicate the question as to which faction controls the party machinery.

The feature of yesterday's meeting was the strenuous opposition on the part of fourteen members, all elected from districts, to the presence of or participation in the meeting of members-at-large chosen at the so-called Bartlett convention at Springfield last October. There were thirteen of these men in the room when the meeting began, and although several of them made speeches, it was stated after the meeting that they did not vote on any question. It was also stated after the meeting by its officers, Edward H. O'Brien of Worcester and James E. Donoghue of Lawrence, that those members-at-large who were present at the meeting yesterday would not be allowed to attend the meeting next week.

At the meeting at the state headquarters yesterday there were present at 2 o'clock, the time set for proceedings to begin, in the call issued by John P. Feeney, chairman of last year's committee, twenty-two district members and thirteen members-at-large chosen at the Bartlett convention. Before the meeting was called to order by Feeney, the district members assembled in the hall outside the committee room and announced that they did not consider the members-at-large as having any standing in the proceedings of the regular committee, because of a decision against the election of such members-at-large rendered last fall by Secretary of State Olin.

Several of the party leaders prominent in the support of Bartlett's candidacy last fall and all committeemen-at-large agreed not to interfere with the proceedings of the district committeemen if they would come into the committee room and organize. Fourteen of the district committee then returned to the room, while eight withdrew to the Quincy house for the purpose of organization. Of the fourteen members who returned to the room three were from districts which are claimed by some to be vacant. The thirteen members-at-large, however, were permitted to remain in the room.

There was considerable discussion after the meeting between the members, and George F. Williams claimed that the members-at-large chosen at the Bartlett convention would be permitted to be present at the meeting next week, although it was understood that they would not participate in its proceedings. This was in direct contradiction to the statement of the officers of the meeting.

The Democratic state committee is composed of a member from each of the forty senatorial districts, and it has been customary during the past quarter of a century to elect eighteen members-at-large at the state convention. The bylaws of the committee provide that the annual meeting shall be called by the chairman of the committee of the previous year, or in his failure by a call from twenty-one of the new members. The organization this year is complicated by the two conventions at Springfield, when two sets of committeemen-at-large were chosen.

It is expected that the courts will straighten the affairs of the committee before the spring convention for the choice of delegates-at-large to the national convention.

Steamship Companies' Complaint

Washington, Jan. 11.—The national immigration commission will hear protests from various steamship companies concerning the new law enlarging the air space in immigrant steamship quarters. Several of the companies maintain that it will be impossible for them to comply with the terms of the law without reconstructing several of their vessels.

Great Fire In Illinois Town

Albion, Ills., Jan. 11.—Fire broke out in the business section of Albion and destroyed the Edwards company bank building, the new National bank building, the telephone exchange, two clothing stores, a shoe store and a drug store. The loss is estimated at $200,000. It is suspected the fire was started by an incendiary.

FOUR FIREMEN KILLED

Loss of Six Million Dollars by Burning of New York Skyscraper

New York, Jan. 11.—Four firemen went to their deaths when they responded to a fire that ruined the Parker building, a 12-story business structure occupying the block between East Eighteenth and Nineteenth streets on Fourth avenue last night.

Fought by half the firemen of Manhattan and apparatus that blocked the streets for blocks, the flames were never controlled, and only with difficulty confined to the building in which they originated. Floor after floor gave way and dropped to the basement, and beneath these and crumbling walls no less than thirty firemen were caught and either killed outright or seriously injured.

When the fire had burned itself out and the firemen's roll was called three men of Engine company 72 and one from fire patrol 3 failed to respond.

The fire was one of the most spectacular, as well as disastrous in recent years. From start to finish its course was marked by heartrending scenes, sensational escapes and flashes of heroism.

Fire Commissioner Lantry and Assistant Fire Chief Binns think that the fire loss may reach more than $6,000,000, though the general estimate is a million dollars less. A. M. Karaghension, dealer in antique rugs, probably sustained the largest individual loss. His loss is placed at $1,000,000. The Ditmar Woolen company are said to have lost nearly as much. The Judge Publishing company also suffered heavily, as did the branch office of Collier's Weekly.

Higher Pay For Telegraphers

Toronto, Jan. 11.—The board of arbitration appointed to arrange the dispute between the Grand Trunk Railway company and its telegraph operators announced its findings last night. Telegraphers employed at the lower grades of salary will receive an increase of 10 percent, which will entail an increase of $27,000. For distribution among men receiving the higher grades of remuneration the Grand Trunk will grant $10,000 annually. In addition, an allowance will be made for overtime and Sunday work.

Tired of Dodging Police

Washington, Jan. 11.—Willard H. Myers, who in May, 1904, absconded with $11,000 in negotiable securities belonging to the National Safe Deposit Saving and Trust company of this city, while acting as bookkeeper, walked into police headquarters last night and surrendered. He turned over stock valued at $2000, part of the amount he fled with. The remaining $9000 was spent, he said, evading the police, who had never abandoned the pursuit.

Jews' Tribute to Goldfadden

New York, Jan. 11.—The East Side Ghetto paid a striking tribute to the memory of its poet and playwright, Abraham Goldfadden. A tremendous outpouring of the residents of that crowded section to witness the funeral of the writer testified to their admiration for the man. The funeral was held in the People's theatre, where some of Goldfadden's plays have been given. It was estimated that 35,000 persons were in the crowd.

Efforts to Defeat Prohibition

New York, Jan. 11.—Charges that the Anti-Saloon league is supported by multi-millionaires, who use the organization for political purposes, were made at a meeting of New York wholesale liquor dealers by T. W. Gilmore, editor of a liquor trade magazine. Gilmore also said that to defeat the rising tide of prohibition, the saloon business must be purged of its evil aspects.

Panama Canal May Cost $200,000,000

Washington, Jan. 11.—Because conditions have changed since 1905, when the majority of the board of consulting engineers of the Panama canal submitted its report, it is now admitted in responsible quarters that the estimate made by that report for building the canal was far too low, and that the cost may approximate $200,000,000. This includes various incidental items.

Below Contract Requirements

Norfolk, Jan. 11.—Cruiser North Carolina, which has returned to the Newport News shipyard, failed to make the required 22 knots an hour under the contract. The best record was an average of 21.98 knots for four hours of forced draft running. General Manager Post of the shipyard declares that picked coal was not used and that proper steam was never obtained.

Many Reindeer Drowned

St. Johns, Jan. 11.—The herd of reindeed imported from Norway by Dr. Grenfell, the missionary, were landed at Cremille Harbor, Labrador, under difficulties. When steamer deckhands started to drive the deer to land it was found that the ice was very thin and several animals broke through and perished. The bulk of the herd was driven ashore safely.

Heading For the "Pork Barrel"

Washington, Jan. 11.—"The Sixtieth congress has been in actual session only a few days and more than 600 bills already have been introduced for the expenditure of $80,000,000 in proposed public buildings," is the statement made by Chairman Patholdt of the house committee on public buildings and grounds.

The Weather Forecast

Almanac, Sunday, Jan. 12.
Sun rises—7:12; sets—4:32.
Moon sets—1:42 a. m.
High water—6:30 a. m.; 7 p. m.

Colder weather, with snow, is indicated for New England.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher. **and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children- Experience against Experiment.**

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE **CASTORIA** ALWAYS
Bears the Signature of
Chas. H. Fletcher.

The Kind You Have Always Bought

Reversing a Decision.

By EDITH MELNO.

Copyrighted, 1907, by C. H. Sutcliffe.

Thomas Henderson Howie stepped grandly from the elevator, rather resentful of the elevator boy's patronizing pat on the head. Men who came downtown on business should not be patted on the head even if their mothers do possess foolish ideas that curls are cute. Men on business bent always act importantly and should be treated with deference.

The pat had the effect of stiffening Thomas Henderson Howie's small backbone to an unusual degree of ramrod stiffness, and it was a very pompous six-year-old who entered Dorrington's office.

Tim Dorrington looked up from a pile of papers with a genial smile.

"Welcome to our city, Mr. Thomas Henderson Howie," he cried. "And what good fortune brings you to the office? Surely you are not about to be sued for breach of promise? I am afraid of that little Houston girl, or perhaps it is the embezzlement of preserves again!"

"It's a letter," explained Tommy stiffly, as he delivered the square white envelope into Tim's trembling hands. "I will be going now," he added as he turned away. Tim raised his hand.

"Wait a moment, please," he asked. "There may be an answer."

Tommy climbed into the biggest chair and settled himself with quaint, old fashioned gravity, while Dorrington opened and read the note. Twice the man read it, though the first time the words had seared themselves into his brain.

It was a cold, almost curt note in which Jessie Howie acknowledged the honor he had done her in offering to make her his wife, an honor she declined, regretting that there had been anything in their friendship to lead him to believe that the friendship might grow to greater intimacy.

Dorrington smiled bitterly as he read the last few lines. Surely he had had every reason to hope for a favorable answer to his letter. Jessie had been tenderness itself. With a sigh he thrust the letter into his pocket and turned to his small visitor.

"I regret, Thomas Henderson Howie," he said in the playful banter that had been suggested by the child's quaint dignity—"I regret that my pleasurable anticipations of a wild dissipation in soda water and candy in celebration of an important event have been dashed to earth. But man turns to drink both to express his joys and drown his sorrows. Therefore I pray you to descend with me to the drug store on the ground floor and assist me in the latter ceremony. They have hot chocolate with whipped cream."

"No, thank you," said Tommy politely. "I don't want any soda."

"Perhaps you prefer the stronger tipple of beef tea?" suggested Dorrington. "It is a cup that cheers without inebriety and can be rendered quite palatable if you use enough celery salt to disguise the flavor of the beef extract. Shall we go?"

"I don't want to go with you," said Tommy stolidly. "I don't like you any more. You make Jessie cry."

"That," said Tom, "is what they call an inversion of facts. Your sister has made me cry."

"I'm glad of it," said Tommy cruelly. "You made her cry lots."

"You are sure?" asked Dorrington quickly. "She was crying over my letter?"

"Lots," declared Tommy with a sweeping gesture that suggested a very flood of tears. "I went to her room to get her to sew the tail on my dog again. She was crying awfully, and she was kissing your letter and saying things."

Dorrington moved closer to the boy. "You don't remember what she said, do you?" he pleaded gently. "See if you can't think, Tommy, boy. Try hard, laddie."

Thomas Henderson Howie knitted his brows thoughtfully and assisted the mental process by solemnly wriggling his right foot.

"It was something about a mean sacrifice," he said at last. "Sacrifices," he added informatively, "is where the Indians kill people and burn 'em up."

"The operation is bloodless and the fires are internal nowadays," said Dorrington softly. "What else did she say?"

"She said 'How can I do it?' and then she cried some more," continued Tommy. "Then there was something about for father's sake, and mother came in and said something about duty and then something about Mr. Bowen, and Jessie cried lots more, and then she wrote the letter, and she gave me a penny for myself and kissed me."

For a moment Dorrington sat stunned. He had invested heavily in suburban real estate, and much of his capital was tied up in land, but Dorrington had not guessed that Mr. Howie's need was so great that he had been compelled to go to Bowen.

For nearly a year Cyrus Bowen had sought to make Jessie the fourth Mrs. Bowen. Mrs. Howie had favored his suit, for the matron was ambitious for her daughter, but it must have been dire need that caused blunt Henry Howie to add his influence. Dorrington turned to Tommy.

Thomas Henderson Howie," he said quietly, "I pledge you the word of one man to another that I did not make Jessie cry. Will you mind the office a moment?"

He swung the youngster into the big chair before the roll top desk, supplied him with a pencil and pad and slipped from the room. It was less than a block to the office building in which Henry Howie had his suit, and shortly Dorrington entered the private office of the operator.

"You will pardon my abruptness," began Tom, "but I have just had a letter from Jessie refusing an offer of marriage. From what Tommy says I imagine that her refusal is influenced by the fact that you need Bowen's assistance, and she is the bonus for the loan. Am I right?"

For a moment Henry Howie's hands clinched and unclinched themselves nervously. The blunt statement of facts roused him to anger, but the white, tense face of the man before him restrained him from pitching Tim out of the office as he longed to do. He liked Tim, and it hurt him to give pain to the young fellow.

"You are not entirely correct in your premises," he said at length. "I believe that Jessie does contemplate marriage with Mr. Bowen. Bowen has promised to come to my aid in an extremity. That Deepdale tract has been a heavy burden to me. Bowen will take it at what I paid and pay cash. This will enable me to save other investments. Naturally Jessie is grateful to the friend who has come to my rescue and looks with favor upon his suit. I tell you this that you may understand. Of course it will go no further."

"I thank you for your confidence, which will be respected. But I want to ask what you are getting for your Deepdale holdings."

Howie looked at the younger man in surprise. "I presume that you have a reason for asking," he said. "The sum is $10,000. That is $200 more than I gave for the land."

"Bowen is generous in the extreme," said Dorrington, with a sneer. "No doubt you are aware that the Central and Suburban plans a cutoff to the main line that strikes the property? That will be better than the trolley which was not built. I am junior counsel for the road, and I know that Bowen has known this for two weeks."

For a moment Howie shrank back, stunned at the treachery of his fancied benefactor. Bowen would make a handsome profit from his supposed charitable action.

"I suppose this is the reason you seek Jessie's hand," sneered the elder man, stung to a retort as an outlet to his feelings.

"Not at all," said Dorrington calmly. "My reason for speaking now is that they purchased my old homestead for a model town. They are to build their shops there. I had not thought of your holdings. Do you want a loan?"

Twenty minutes later Dorrington burst into his own office.

"Tommy—boy," he cried, "for your great services let us get soused on soda and then buy out a candy store and take it up to Jessie. You've enabled me to beat Bowen at his own game and wipe Jessie's tears away. 'Soused' is a vulgar word, Tommy, boy, but it's expressive of my feelings, and to your uncanny powers of observation I owe the fact that I've reversed the decision."

Does War Develop Nations?

From the horrors of war have come many benefits unexpected at the time. China will yet come to bless the day that she was beaten by Japan. The blood and agony of the civil war made America a nation. Italian urity had its foundation in the humiliation of Novara. France made her way to her rightful place among the nations from the miseries of Sedan and the commune. Wellington used to consider that the greatness of modern British arms owed its birth to Charles I, and the efficacy of naval administration to James II. For good or ill, it is from the stricken fields of the Crimea that Russia's present greatness dates. She stood alone against the world. Her exchequer was empty, her paper money no longer accepted. The great empire, built up by such labor and pain, was within measurable distance of dissolution. Sevastopol fell. Finland and Poland were on the verge of breaking away. All looked at its blackest. The conditions imposed in the peace treaty were humiliating in the extreme, but one by one Russia slid out of them. The tremendous development which has taken place in Russia dates solely from that dark hour when all seemed so nearly lost. To say that right over might has triumphed would be another matter.—London St. James' Magazine.

He Won His Bet.

Thomas Nelson Page, while riding down a country road, met an old negro leading a horse and laughing as only a negro can.

"Sam," said Mr. Page, "what's the joke?"

"Oh! Mawnin' marster. I jes' won a bet offen his hyear fool hoss."

"Why, Sam," said Mr. Page, "how did you do that?"

"Well, you see, boss, I was a-leadin' dis hyear hoss back yonder an' I seen a piece of paper ahead of us, an' I said, 'Blacky, I bet you a quarter you gwine ter be afraid of it.' But Blacky shook his haid—he wouldn't. Then I said, 'Blacky, I bet you a quarter you will—will you take my bet?' An' he nodded his haid. Well, sah, when we git up dar de wind flutter dat paper about, an', Lord bless my soul, you oughter seen dat hoss. He shy clean outen de field. Ha, ha, ha! An' dat's what tickles me—dat I'm a quarter ahead."

"Why, Sam, you are crazy. You can't collect the quarter from a horse."

"Yassah, dat I can! My marster he'll give me a dollar tonight to git oats an' hay fer dat hoss, but I'll git him 75 cents' wuth an' keep my quarter. Ha, ha!"

GOOD AFTERNOON.

From a financial standpoint it certainly would be a bad investment for the city to build a schoolhouse at Houghs Neck, and there may be doubts from an educational standpoint, and also from a local standpoint. Last year the School Committee expended but $1,243.80 for transportation of pupils to and from school, and only about $600.00 was for Houghs Neck children. No extra rooms or teachers were required for these children at the Coddington.

About $600.00 would be required for janitor services should a new schoolhouse be erected at Houghs Neck. Certainly the janitor, the coal and fuel would require more than is now paid for transportation of all Houghs Neck pupils. To this must be added the salary of two, three or four teachers, also the interest on $15,000 or more, the cost of the schoolhouse and land, also the maturing bonds each year, and other expenses.

To divide 80 pupils among eight grades would make some very small classes.

Then about the location. To accommodate all the children east of the Adams farm (including Adams Shore, Germantown, Post Island, Rock Island, Manet avenue, Houghs Neck and Great Hill) it might be necessary to locate the new schoolhouse near "the Willows." Then most of the children would have to ride as now, but at their own expense and they might not be able to go home to dinner. Therefore, they would not be as well accommodated as now, when the city pays the transportation to a well graded school.

Mayor Shea told us in his inaugural address that the borrowing capacity of the city was but $63,549.00, so that the city is not in a financial condition to give Houghs Neck a schoolhouse. About $10,000 more may be required for the new Coddington schoolhouse; $10,000 for sidewalks, and more for emergencies which would soon exhaust the borrowing capacity. There are more imperative needs for school accommodations than at Houghs Neck.

That any committee of representative citizens should be willing to close School street to maintain the present grade of Water street as a solution of the grade crossing problem is a surprise. It would shut off considerable property west of the railroad from reasonable fire protection, and would retard the police patrol wagon in responding to calls east of the railroad, and depreciate property generally.

It would not be necessary to close School street if the railroad tracks were raised to the present level of School street, for then School street could go under the railroad at its present location. The grade on the east side of the tracks could begin at Phipps street 500 feet distant, and an easy grade and better drainage would be secured than at present. The cut on the west side of the railroad could begin at Fort Square which is as low as the present bed of the railroad which would become the street level.

If the railroad tracks are raised from Quincy toward Braintree, it will be possible to secure considerable more headway under the Granite street bridge and to put both School street and Water street under the tracks. None of the granite yards south of Water street would lose their freight facilities, because the switch from the main line is from the south near the ice houses. It would probably be necessary to locate the new freight yard for handling granite south of Water street, but the new depots might be north of Water street toward School street.

If a bridge is built at Saville street either above or below the tracks, the commissioners will not see the necessity of ordering the extension of Irving place to Granite street. That would become an improvement at the expense of the city. When passengers from Boston alight on the west of the four tracks they will not be allowed to cross the tracks, but must use a bridge or subway to reach the east side. A great many many would find it a convenience to take carriages on the west side, or to walk to Granite street on a well-built street and sidewalk. An entrance to the depot and Upland road from Granite street seems more of a necessity than the crossing at Saville street, and two feet is not enough to raise the tracks at Granite street. It is taken for granted that with the improvements there will be subways at the Quincy depot and Saville street for those who walk.

Another reason for elevating the tracks through Quincy is to accommodate the Metropolitan parkway which it is planned shall go beneath the tracks a short distance north of Presidents bridge.

State Committee Active.

The Republican State Committee is urging an early organization of the town and city committees. Each chairman has received a letter from the Boston headquarters calling attention to the law governing the organization of the local political committees. Col. Doty, the chairman of the State Committee, points out that as this is Presidential year, with State and Congressional conventions to be held in the spring for the election of delegates and alternates to the National convention, prompt organization of town and city committees is imperative.

Section 90 of Chapter 560, Acts and Resolves of 1907, requires that each town and city committee shall annually, between the first day of January and the first day of March, meet and organize by the choice of a chairman, a secretary, a treasurer and such other officers as it may decide to elect. Each secretary of the cide to elect. Each secretary of a committee is required to file with the secretary of the State Committee a list of the officers and members of the committee within ten days after its organization.

Friends to Aid.

A humane effort is to be made today to save the life of Officer Kelliher who is seriously ill at a Boston hospital. It had been determined that the only way hopes of saving his life was by an operation, but the condition of his blood was such as to make it dangerous.

Th physicians decided that the only way was by infusing the blood of a healthy person into his veins during the operation. Word to that effect was sent to Quincy and Officer Goodhue and William J. Corcoran of West Quincy, a relative, immediately proffered their services. Both went to the hospital last night. Mr. Corcoran claimed that as he was a relative his blood should be taken and it was decided that he should be used.

Hearings Begun At Braintree

The hearing before the commissioners appointed by the supreme court, to determine the manner in which the grade crossings of the N. Y., N. H. & H. R. R. in Braintree shall be abolished, was held this morning at the Town Hall, Braintree.

The commissioners are ex-Governor John L. Bates, Winfield S. Slocum and Arthur H. Wellman.

The hearing was of considerable local interest from the fact that the same commission is to determine the matter of abolishing the grade crossings at Saville and Water streets in Quincy next Saturday.

The hearing at Braintree lasted about an hour and then adjourned for a view of the premises after which the hearing was adjourned until Feb. 29, at 10.30 A. M.

Col. Benton represented the railroad hearing and C. C. Mellen, Esq., represented the town. Mr. Wheeler of the engineering department of the railroad was also present.

The plans were explained by the representative of the railroad.

Mr. Mellen for the town said they were not satisfactory. Several other citizens present also spoke on the matter saying that the plans were unsatisfactory. Other schemes were suggested.

Several Quincy gentlemen were interested spectators at the hearing, including Henry M. Faxon, Perry Lawton and Frederick E. Tupper.

Commenting on the subject before the hearing the Observer said:

The town of Braintree has at least four very unsafe grade crossings over the tracks of the N. Y., N. H. & H. R. R. and for a dozen years or more the citizens have felt that the crossings would soon be abolished. Now the time is ripe and this morning as we go to press, 10.30 o'clock, a public hearing is being held in the Braintree town house by the commissioners.

At the informal hearing before the Selectmen last Monday evening, in the lower town hall, there was a large gathering of citizens. Hon. B. Herbert Woodsum, chairman of the board of selectmen called the meeting to order and brought forth four plans of the N. Y., N. H. & H. R. R. for abolishing the grade crossings; Elm, River and Union streets. He was assisted with the plans by Mr. C. C. Mellen who gave the plans full explanation.

The plans submitted were not to be considered complete or final but were considered very unsatisfactory by the citizens at that hearing. The New Haven's plans were to do away with the School street crossing; put bridges, 22 feet high over the tracks at Elm street and River street; and abolish the present Union street crossing by building a new street from Washington street, near Dr. Charles A. Pitkins, passing under the tracks of the New Haven Road north of the Union street crossing and thence with a reverse curve enter Union street.

Messrs. E. E. Abercrombie, John Kelley, G. H. Arnold, Dr. T. H. Dearing and others discussed the plans and offered suggestions. The general option seemed to be the depression of the railroad tracks at the above named crossings. By depressing the tracks overhead bridges could be built at School, Elm, River and Union streets without steep approaches.

Mr. Arnold suggested an original plan which is worthy of consideration. He would have the main line tracks placed on the east side of the Braintree depot, instead of the west as at present, and have them depressed, to go under River street near the residence of Selectman Gage and continue south up the river.

This plan would save considerable expense and make overhead bridging an easy matter. Ten per cent. of the total cost must be paid by the town of Braintree, thirty per cent. by the state and sixty per cent. by the N. Y., N. H. & H. R. R.

It was voted to have the Selectmen appoint a committee of fifteen citizens, five from each precinct, to act with the Selectmen in abolishing the grade crossing mentioned, and this committee to hold public meeting when necessary. Also voted to have the same committee serve when the Pearl street crossing at South Braintree is to be considered.

Church Officers.

The annual supper and business meeting of the Park and Downs Congregational church was held Wednesday night. After the supper the reports were read and officers elected for the coming year, as follows:

Clerk—G. A. Smith.
Treasurer—Mr. Barstow.
Deacons—Mr. Dingwell, Mr. Northrop, and Mr. MacDonald.
Prudential Committee—Mr. Banks, Mr. Northrop and Mr. Dingwell.
Standing Committee—Mr. Forsyth, Mr. Northrop and Mr. Dingwell.

Just Jotted Down By Ledger Men

Only Daily in Norfolk County.

A Valentine dance is to be held at

Miss Anna Gould returned Monday from Francestown, N. H.

During the gale Tuesday night the chimney blew off the house of Frank Flanders, Beach street.

Mrs. Harry L. Linnell and son Robert of Rawson road are the guests of Mrs. Southwick at the Eastgate, Boston.

Miss Eleanor Wild of Canton has been visiting relatives and friends in Quincy.

Miss Elsie Foritier is seriously ill at St. Margaret's hospital, Louisburg Square, Boston.

Friends are sorry to hear that Mrs. Harrison Loud of Beach street is ill with another severe attack of quinsy sore throat.

The Norfolk Superior civil court has excused Joseph Lizotte from serving as a juror at the term of court.

The Pine Tree club is planning for a more elaborate party than usual this year, to be held at Faxon ahll on Wednesday evening, Jan. 22.

Mrs. David Joy of Bennington street passed away yesterday in her 84th year. Funeral services will be held Monday afternoon.

First Church Sunday school holds a social dance this evening at Faxon hall from eight until eleven o'clock with music by Cuff's orchestra.

The Christian Endeavor Society of the Park and Downs Congregational church held a social Thursday evening in the vestry of the church. Games were played and refreshments served.

The annual meeting of the shareholders of the National Granite Bank will be held next Tuesday afternoon at half past three at the banking rooms.

On Feb. 13, a real treat is in store for those who like to see clever work in the gym. The gymnastic team from the Springfield Training school will give an exhibition in Quincy Y. M. C. A. gym.

The annual business meeting of the Old Colony Grocers and Provision Dealers association will be held at the Unitеb States hotel, Boston on Wednesday, Jan. 22. Dudley Prescott of Boston ventriloquist and impersonator, and Binney's orchestra of Braintree will furnish entertainment

The members of Paul Revere Post, 88 G. A. R., are planning for a systematic canvass for funds to be used in the erection of a soldiers' monument that shall be in keeping with a city like Quincy, noted for the valor of its citizen soldiers, its statesmen, and its granite.

Poverty Party.

A poverty party under the auspices of the West End club at St. Mary's hall, West Quincy, was held last evening. The participants were supsupposed to wear costumes that would indicate poverty, and some of them impersonated the characters to the letter. There was a very large attendance and when the march was inaugurated the party resembled a crowd of tramps and created much laughter. It was a jolly party and a grand good time resulted.

Start a New Story.

Let the aim of your life be a little different henceforth. Be a property owner instead of a property renter. Don't be cooped up in a small place when you can just as well have plenty of room to expand.

When we enlighten you about prices and terms of payment of houses and house lots in all parts of Quincy, you will be sorry you did not know this before.

I have one House with 10 rooms, Set Range, Hot and Cold water, Bath Room Complete, Set Tubs and Furnace, at Wollaston Beach, near Boulevard and Sea Shore, 5,000 feet of land, only 2 minutes' walk to Electric Cars. A Bargain.

Doctors

Ayer's Cherry Pectoral is a doctor's medicine. Doctors prescribe it, endorse it. Use it or not, as your doctor says.

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this cough medicine.

J. C. Ayer Co., Lowell, Mass.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,

1 Granite Street, Quincy.

City Council To Meet Monday

An adjourned meeting of the City Council will be held Monday evening. The meeting is being held largely to hurry along the order to borrow money in anticipation of taxes that the City Treasurer may have funds for current expenses.

It is also possible that something may be done on the Coddington school order sent over from last year.

The greatest public interest in the meeting is over the appointments. The Mayor has not said that he would announce his official family at this meeting or that he would not. He is as anxious as anyone to get the matter settled and out of the way, for until he does the army of office seekers will give him no peace. Unless settled soon it may be necessary to call out the militia to guard City Hall.

Large Profit On High School

Every once in a while the High school addition comes to the front again. Here is the latest, according to the Boston Transcript:

"Edith B. and Charles J. Lord have filed a bill in equity in the Superior Court against Rufus E. Lord of Waltham, a contractor, who it is alleged agreed to hire Charles J. as foreman on the work on the Quincy High School building. It is claimed that in addition to paying Charles J. Lord a salary, he was to turn over a third of the profits on the contract to Edith. The contract amounted to $120,000, and the plaintiffs claim that there was a large profit, and that under the agreement they are entitled to a considerable share of this. The defendant has failed to carry out the agreement, they allege, and they ask for an accounting and for the establishment of their claims."

Quincy Real Estate Sales.

The following transfers of real estate have been recently recorded at the office of the Register of Deeds:

Joseph W. Robertson to Catherine Neagle $310.
Catherine E. Farwell to Wilson N. Ford $100.

Carnival of Bargains At W. G. Shaw's

Owing to a backward season which has left the W. G. Shaw furniture store long on goods and short on cash, Mr. Shaw in order to at once realize an amount of cash will start on next Wednesday for ten days only, a "gigantic price cutting sale." This sale will cover every article and every item of the big $60,000 stock and assuredly will be the greatest sacrifice sale of furniture and household goods ever held in New England.

This "forced sale" promises to be the greatest chance ever given to householders to secure big bargains, and as a bargain sale it will be one to break all records. The goods are all marked way down—some to cost—and many below the cost of manufacture. Those who buy cannot go wrong, and will save money on everything they buy during this sale.

It is a chance of a lifetime for those who are interested in furnishing a home or completing the furnishing of their home with economy. The stock includes everything for house furnishing, so you are sure to find here the very goods you want and at just the price you want to pay. Early buying is advised for selection and the best of the big bargains. Remember the day, date and place. Sale opens next Wednesday, January 15, for 10 days only at W. G. Shaw's furniture store, City Square, opposite fountain, Quincy.

New Draft of Public Opinion Bill

Representative Hultman of this city introduced in the Legislature yesterday a new Public Opinion bill endorsed by the Massachusetts Public Opinion League. It omits all reference to an expression of opinion by all the voters of the State, limiting action to the voters in representative and senatorial districts. The terms of the bill are in almost literal compliance with Article XIX. of the State Constitution in its Bill of Rights.

The bill is conservatively drawn and requires the petition of 200 voters in representative districts and of 1,200 in senatorial districts.

The proposed law has been drafted to meet the objections advanced against the bill of last winter and corresponds as closely as possible with the traditional practice of our forefathers in their frequent instructions to their representatives. It reads:

An act to render effective the Constitutional right of the people, as guaranteed in the Bill of Rights, Article XIX., to "give instructions to their representatives."

Section 1. On an application signed by 1,200 voters in any senatorial district, or by 200 voters in any representative district, asking for the submission to the voters of that senatorial or representative district of any question of instructions to the senator or representatives from that district, and stating the substance thereof, the Secretary of the Commonwealth shall determine if such question is one of public policy, and if he shall so determine, shall draft it in such simple, unequivocal, and adequate form as he shall deem best suited for presentation upon the ballot. Upon the fulfilment of the requirements of this act, the Secretary shall place such question on the official ballot to be used in that senatorial or representative district at the next state election.

Section 2. Signers of applications shall append to their signatures their residence, with street and number, if any, and shall be certified as registered voters by the proper registrars of voters. All provisions of law relating to nomination papers shall, as far as they may be pertinent, apply to such applications.

Section 3. Applications shall be filed with the Secretary of the Commonwealth not less than sixty days before the election at which the questions are to be submitted. Not more than two questions under this act shall be placed upon the ballot at one election, and they shall be submitted in the order in which the applications are filed. No question negatived, and no question substantially the same, shall be submitted again in less than three years.

Section 4. No vote under the provisions of this act shall be regarded as an instruction under Article XIX. of the Bill of Rights of the Constitution of the Commonwealth unless it receives a majority of all the ballots cast at that election.

Representative Hultman was a leading advocate of a Public Opinion bill last year, speaking most effectively in support of it.

UNIVERSALIST LADIES' AID.

The Ladies' Aid connected with the Universalist church met with Mrs. E. Hobart of Pearl street, Wednesday afternoon and elected officers for the coming year. The treasurer's report for the past year was very encouraging and new members were voted in. A number of new ideas were advanced and taken up for the benefit of the church. As there was so much business it was voted to hold meetings every Wednesday afternoon. The ladies will meet Jan. 15 with Mrs. Morrison of 192 Washington street.

Death of Former Resident.

Word has been received of the death at Rockland, Me., of Thomas Bisson Severence, at the age of 73 years. Mr. Severence well known to the older residents of West Quincy where he lived for many years. He was a blacksmith by trade and was employed by the O. T. Rogers, Co., and other Granite firms. He left Quincy about 23 years ago.

Newsy Budget From Shipyard

On and after today all teaming which heretofore entered and left the shipyard via the Howard avenue gate, will pass in and out thro the new gate off East Howard street, near the employment office, and presided over by Chief Gatekeeper Hayden. Altho the Howard avenue gate will hereafter be closed to teaming, it will be opened mornings between 6.30 and 7: at noons, between 12 and 12.30; and at night, from 4.30 to 5; for the convenience of all shipyard employees who either take their meals or live at the Vermont House, near the side gate on Howard avenue.

Stanley C. Foote, representing the "Long Arm," System Company of Cleveland, O., manufacturers of electrically operated bulkhead doors, and formerly a leading man in the electrical department under J. J. Crain, is at the shipyard for a few days on business in connection with the equipping of battleship North Dakota with power operated bulkhead doors of the "Long Arm" type. Ships are made unsinkable be the use of these doors. Their main features are:—The central emergency station, located on the bridge of a battleship, connected with each door by electric conductor, actuated by a hand wheel. The liberty action, whereby the door can be opened from either side during emergency period the door closing automatically afterwards. The doors, each provided with an electric motor, and a limit switch which prevents injury to the apparatus from overloading. The "Long Arm" system is now in service or in course of installation on about fifty vessels of the United States navy.

In the near future Mr. Foote expects to journey to Europe to develope a market for his electrically operated doors. Almost all the doors of a similar nature in foreign navies are operated by either steam or compressed air. During his stay in Quincy he is a guest at the home of Captain J. E. White, 51 Edison street.

The cruiser Des Moines has received orders from Washington to proceed to Hampton roads and take on ammunition. It is believed that she will be sent out for target practice, but the exact purpose of her removal is not revealed. The Des Moines is at the Charlestown Navy Yard, where she has been for some time fitting out. The orders read that she will remain there until she is in every respect ready for sea.

The Lawrence and Macdonough arrived at Pernambuco, Brazil, with the flotilla of torpedo boat destroyers on Friday.

WALKOVER FOR QUINCY HIGH.

The second game of the High school basket ball team was also a victory. The Rockland High was out-classed and were able to squeeze out but one point, while the Quincys rolled up 65. The summary:

QUINCY		ROCKLAND
Gourlie, l.f.		r.g. Kierstard
Howe, r.f.		l.g. Young
Duncan, c.		c. Darling
Walker, l.g.		r.f. DeSautels
Marsh, r.g.		l.f. Dunn

Score—Quincy 65 Rockland 1. Goals from floor—Gourlie 16, Duncan 8, Howe 6, Marsh 2. Goals on free tries—Howe, DeSautels. Referee—McDonald. Umpire—Pierce. Timer—Tupper. Time—20-minute halves. Attendance—250.

COULDN'T BE BLUFFED.

The Judge Raised, but the Culprit Promptly Called.

A correspondent sends in the following account of an incident which occurred in his presence in a Kentucky courtroom:

Under the laws of Kentucky the penalty for gaming is a fine of from $20 to $50. Judge W. W. Jones was holding a term of circuit court, and when the case of the commonwealth of Kentucky against Daniel Cross was called he asked Daniel if he had a lawyer to defend him. Daniel said he had not, and Judge Jones asked him what he wanted to do about his case, which was a charge of gaming.

"I don't know, hardly, judge," said Daniel. "I thought I would just pay it off."

"Were you actually playing?" said the judge.

"I guess we were." Daniel replied.

"About how much were you playing for, Daniel?" the judge asked.

"Oh, nothing much," said Daniel, "just a nickel or dime on the corner."

"Well, Daniel," said the judge, "I will see your dime and raise you $20."

Daniel looked rather crestfallen for a moment; but, catching the force of the judge's remark, he quickly looked up at the judge and said, "Well, judge, I am satisfied that you have got me beat, so I'll not raise you, but I guess I will have to call you."—Law Notes.

Bridge North Of Saville Street

Editors of the Ledger:

There is one plan for abolishing the Saville street crossing which I have not heard mentioned but which I think is worthy of consideration.

An overhead bridge could be started from Saville street at the entrance to the old freight depot by Richard's grain store, run parallel with the tracks in a northerly direction, with an eight to ten per cent grade, until the proper elevation is reached, then turn at a right angle and enter Upland road in the rear of the Bates block. If the tracks were depressed two to four feet, there would be little if any grade from the Upland road end.

Regarding the depression of the tracks, it is possible to do this and still raise the bridge at Granite street, and raise the tracks at Water street.

The above plan would necessitate the removal of only two buildings, viz: the grain store and one house on Upland road.

There might be some objection to a right-angled turn, but if the bridge is made sufficiently wide, this would not be a serious handicap. The teaming is not heavy at this point so a plan could be adopted which would not be advisable otherwise.

However, if thought best a modification of the above plan could be used. Instead of starting at the point stated above, the bridge could begin nearer Hancock street and approach the tracks at an angle thus making the bend a curve or a wide angle. The approaches to any bridge across the tracks should be faced with granite in which case they would not be unsightly.

It seems to be generally agreed that Upland road should be extended to Granite street. If this is done it looks to me inadvisable to cross the tracks to the south of the present crossing as a bridge would be of little value if so located. Any plan adopted should place the new crossing as near the present one as possible on the northerly side.

Yours very truly,
Carle R. Hayward.

January 10, 1908.

Schoolhouse For Houghs Neck

Editors Quincy Ledger:

From personal observation, and from reading the articles urging the need of a school house at Houghs Neck, it seems to me the height of folly to even consider the matter for several years yet. The city should go slow and investigate carefully and thoroughly before voting an appropriation even if for political reasons it may seem good policy.

For several mornings I have counted the children as they got off the Houghs Neck cars, and the average has been under rather than over fifty pupils. To verify the number ask the conductor how many tickets he collects, or go to the Coddington school and get the number in each room.

Now is it good sense to build a school at Houghs Neck, costing from $15,000 to $20,000 and spend over $3,000 a year for running expenses, for fifty pupils or even one hundred and fifty?

As it is now the children get on the car almost from their doorsteps, have a comfortable ride in a warm car, and are landed at the schoolhouse. There is a two-hours' nooning and some of the children go home to dinner, as it takes no longer for them to go home than it does for those who have to walk to their various homes in the school district.

With the expense of a new Coddington building, and the pressing need of new buildings in other thickly settled districts it would seem as though Houghs Neck should wait.

The new Coddington with the best of teachers and every facility should give the youth of Houghs Neck better results than a school in their own village would do, for a best there would have to be several grades in a room under one teacher. The children along Manet beach would have a long walk to school, when as now they ride.

Heavy taxpayers of Ward One object to any outlay where it is not absolutely needed, and do not wish their money spent on a school house at Houghs Neck when the business centre of the city is suffering for sidewalks, cross walks, school accommodations and various needed improvements which other progressive cities have. Ward One Taxpayer.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

BRAINTREE.

Weston Stone scored 257 points at the roll off at the Kenwood bowling alleys Tuesday night and received the first prize.

Warren Page of Crescent avenue, who has been ill for several weeks, with grip, has recovered his health and resumed his occupation as conductor on the N. Y., N. H. & H. R R.

It is reported that L. Thurlow Torroy is comtemplating a protracted stay in Callifornia for the benefit of his health. His many friends wish him success.

Mr. and Mrs. W. L. Schofield of Newton, Penn., who were married last fall, have been enjoying a wedding trip and ten days' visit to Prof. and Mrs. J. M. Townsend. Mrs. Schofield is Mr. Townsend's niece.

Miss Rosamond Dean Hunt of Braintree, soprano soloist, will sing at the meeting of Bunker Hill chapter, D. A. R., on Thursday, and at the Metaphysical club, Huntington chambers, Boston, on Friday.

Miss Ruth Reed celebrated her seventeenth birthday, Wednesday, by entertaining some of her young friends, at her home on President road.

Andrew Mischler of the Braintree fire department was appointed captain at a meeting held on Monday evening. A better man for that position would have been hard to find, for Mr. Mischler works in the town, is always present at the fires, is very active and understands the handling of men.

On January 19th, Mrs. Helen Allen Hunt, alto soloist, is to sing at Symphony hall, Boston, in the concert to be given by the People's Choral Union who will render the oratorio of "The Redemption" by Charles Gounod.

Master Clinton Scollard of Hobart street went to Quincy on Monday to witness the inauguration of his uncle, William T. Shea, as Mayor of the city of Quincy.

The Union Literary Circle will meet on Tuesday evening at the residence of Mr. C. T. Crane on Quincy avenue.

The annual parish meeting of the Union Religious Society of Weymouth and Braintree will be held in the meeting house on Wednesday evening, January 15, at 7.30 o'clock.

NEW ZEALAND'S RAILWAYS.

Keen Financial Analysis by Professor Le Rossignol of Denver.

A recent issue of Moody's Magazine contains a thorough analysis of "New Zealand Railway Finance" by Professor J. E. Le Rossignol of the University of Denver. The writer points out that the New Zealand government, which owns the railways, "borrows money at 3.75 per cent and latterly at 4 per cent for the maintenance of railways which earn less than 1.50 per cent upon the capital cost, and this yearly deficit of over 2.25 per cent must ultimately fall upon the taxpayers."

Commenting on a tabular exhibit of the finances, Professor Le Rossignol says:

"From these figures it is clear that the capital cost of the roads had increased out of all proportion to the increase in mileage, that the working expenses have increased much faster than the gross earnings and that the net loss in ten years has amounted to the enormous sum of £4,380,147, or more than $21,000,000, and this in a time of great prosperity, which cannot be expected to last forever."

After showing that fares average about the same as in this country the service is described as follows:

"There are no night trains, and the service on most of the lines is rather infrequent. The best service in New Zealand is that between Christchurch and Dunedin, where there are two express trains daily, traveling at a speed of twenty-five miles an hour. On most of the other lines express trains travel from fifteen to twenty-one miles an hour and ordinary trains from ten to fourteen miles an hour."

The author goes into considerable detail in regard to freight rates, which he considers to average about five times those of the United States. The most serious charge against the management is that it lends itself to political uses:

"Politics has had altogether too much to do with the construction of roads, the appointment and promotion of officials, the frequency of service, the fixing of rates and the departmental administration in general. Railways have frequently been built for the sake of securing votes rather than traffic and business has been so often subordinated to politics that it is no wonder that the net returns are political rather than financial in their character."

TODAY'S COURT.

John S. Chapman was arraigned for cruelt to animals at Houghs Neck. Case continued until Jan. 16.

Weston L. Mann was arraigned for cruelty to a horse at Randolph. Case continued until Feb. 1.

The cases of Joseph J. Cahill and George Lemireux for larceny of lead from John L. Fratus at Quincy, was heard and they were fined $15 each. Lemireux paid his fine. Cahill will work his fine out at Dedham jail.

WEYMOUTH.

Mrs. G. W. Tinkham of Front street entertained a number of friends with a ladies lunch on Wednesday. After the dainty menu had been thoroughly appreciated, bridge whist was enjoyed. Mrs. C. F. Whittle was presented with a pretty souvenir.

The alarm from Box 34 at 2 o'clock Wednesday morning was for a fire in the rear of the house occupied by William Sanborn, corner Broad and Franklin streets.

Edward H. Frary is confined to the house with the grip.

Mr. and Mrs. G. H. Baker of "The Ledges' have issued cards for a reception to be held on Saturday, January 18th at their residence on Commercial street to meet Mr. Maynard of Winchester and his bride Miss Adele Humphrey. Miss Humphrey, the daughter of Mr. Frank Humphrey of St. Louis, is a cousin of Mrs. Baker and the wedding reception will follow the marriage at the East Weymouth Congregational church.

GUIDANCE TO CHRISTIAN LIVING.

A series of practical sermons by Rev. W. S. Perkins, D. D., pastor of the Universalist church, will be delivered Sunday afternoons at 2.30, beginning Jan. 12, and continuing in the following order:

1. What is Christian Living?
2. Bad Habits.
3. Loose Thinking.
4. Idle Talk.
5. Wayward Desires.
6. Lack of Self Control.
7. What to do with our Failures.
8. How to gain Self Confidence.
9. How to Enlarge our Lives.
10. Our Ability to do all we ought to do.

The public are cordially invited to attend these services.

Evangelistic Meetings.

The special evangelistic meetings being held each evening at the M. E. church, Hall place, West Quincy, conducted by the pastor, are constantly growing in interest. Good sized audiences attended all the services on Sunday and the entire day was a profitable one.

The Children's rally at 3 P. M. proved to be a grand success, a very large number of children being present.

On Sunday, Jan. 12, the program for the day will be about the same as last Sunday. At 10 A. M. the people will meet for special prayer; at 10.30 the pastor will speak and special selections will be rendered by the choir. The Sunday school will meet at 12. Another children's meeting will occur at 3 with illustrated talk. The Epworth League will have its evening prayer at 6.15, and at 7 a Praise and Gospel service will be held.

All will find a most cordial welcome. Announcement as to the continuation of the special meetings will be held Sunday.

Chocolates Win.

Basket ball at the Y. M. C. A. continues to be the chief sport. Just now the boys are eagerly discussing the merits of the teams in the Candy league. Last night the Chocolates defeated the Caramels 6 to 0. Today the victors play the Fudge team and Capt. Jennings is sure his team can "Put it all over" the Chocolates.

The two senior teams will have worthy opponents tonight in the teams from the Reading Y. M. C. A.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

ATLANTIC CANDIDATES.

It seems to be generally conceeded that Cornelius Duggan, the bard of Atlantic, will receive the appointment as Overseer of the Poor. There is also a rumor that Daniel J. Nyhan, one of the present district engineers, is slated for Chief Engineer of the Fire department.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

SAVING CITY'S MONEY

New Mayor of Boston Makes Wide-Sweeping Reductions

$100,000 CUT IN ONE WEEK

Policy of Retrenchment Will Affect Many Departments--Superintendent of Sewers Is Peremptorily Discharged For Breach of Confidence

Boston, Jan. 11.—Within the week the mayor has abolished the position of wire commissioner at $5000 a year. He has saved $5000 by abolishing the position of the two deputy health commissioners, $1800 by abolishing the position of claim agent of the water department and $15,000 a year at least by the reduction of salaries which have been raised since Oct. 1.

The reduction of force in the city collector's office, which it is expected will be announced today, will save the city at least $40,000 a year. The discharge of Superintendent Leahy and the abolition of the position of superintendent of sewers means that a policy of retrenchment will be started in this department, which it is estimated will save $30,000 a year.

Mayor Hibbard peremptorily discharged John H. Leahy, superintendent of the sewer department, last night. He charged that he was guilty of a breach of confidence. City hall politicians are in gloom, for they understand that scores of city employes are slated for dismissal in the sewer, city printing and collector's departments. Mayor Hibbard issued the following statement:

"I directed Mr. White, my secretary, to secure through Mr. Leahy the record of a certain clerk in the sewer department for my information. Within a few hours and before even the record had come to hand, certain persons were in my office endeavoring to secure the retention of the man in question.

"Such a breach of confidence I will not tolerate. In my endeavors to reach the exact situation in regard to city employes and departments, I must expect absolute loyalty from every employe while on the city payroll.

"I shall not make any appointment to fill this vacancy. This is a branch of the service which I hope to see reconsolidated with the former divisions of the street department, and I hope that the deputy superintendencies of these divisions will be placed within the classified service and made civil service positions."

The discharge of Leahy is believed to mean that there will be a general retrenchment in the sewer division and that scores are scheduled to go, not laborers, but men who are rated as clerks and engineers and drawing large salaries. The mayor has investigated the department personally and believes that many of its employes can be dispensed with. The laboring man at $2 a day is to be protected where he is on the payrolls legitimately.

Within a week or so there will be a general reorganization of the printing plant. The expenses of the plant will be reduced, and an attempt made to run it on a business basis.

Policeman Knocked Into River

New York, Jan. 11.—While endeavoring to prevent a man, who gave his name as Edward Walker of Chicago, aged 24, from leaping from the Brooklyn bridge late last night, Patrolman Robert Fitzgerald was knocked from the overhead iron work by the pole of a passing trolley car into the East river, 150 feet below. His body was not recovered. Another policeman arrested the would-be suicide as he was about to jump over the railing. Walker was charged with attempted suicide.

Guilty of Defrauding Bank

Chicago, Jan. 11.—Chauncey L. Graham and William S. Tilden of the Steel Ball company were found guilty of fraudulently obtaining money from the Milwaukee Avenue state bank by using fictitious notes. It was for wrecking this bank that Paul O. Stensland is now serving a penitentiary sentence. The prosecutors charged that the total amount of which the institution was defrauded was $179,000. The company manufactured ball bearings for bicycles.

Naval Question Threshed Out

Washington, Jan. 11.—An effort was made at the annual convention of the Navy league, which met here, to place that organization on record as opposing the policy of placing staff officers of the navy in command of vessels carrying line officers and enlisted men. After a long discussion the question was finally referred to the board of directors for action.

Congressmen Get Busy

Washington, Jan. 11.—The house of representatives assumed its old-time activity yesterday and for over five hours it transacted business of a public nature. Material progress was made with the bill to codify, revise and amend the criminal laws of the United States, which was taken up after some routine bills had been disposed of.

Schmitz May Get Out on Bail

San Francisco, Jan. 11.—It is stated by attorneys for ex-Mayor Schmitz that application for Schmitz' release on bail will be made at once as the result of the appellate court's decision holding Schmitz' conviction illegal.

THE WHITMORE MURDER

Mrs. Dickinson, Wanted as Accessory, Arrested by Boston Police

Boston, Jan. 11.—Mrs. Georgianna Dickinson, aged 27, wanted by the police of Harrison, N. J., as accessory to the murder of Mrs. Helena Whitmore, whose dead body was found in Lampblack swamp in Harrison on Dec. 26, was arrested in Cambridge last night by Chief Inspector Watts and Inspector Shields of the Boston police and is now locked up in the Tombs in this city. She will be taken to New York today.

Chief Inspector Watts received information yesterday that the woman was in Cambridge and last evening he visited a house on Essex street, where he believed her to be. He found two women in a front room of the house. Investigating further, he discovered another woman in a darkened room at the rear. From a fur coat the woman wore and a scar on the lip, said to have been caused by a blow given by Theodore S. Whitmore, husband of the dead woman, Watts identified the woman as Mrs. Dickinson.

Asked if she was not Mrs. Dickinson, the woman at once replied: "It's all up with me; I won't deny it. My name is Georgianna Dickinson, although I am also known by the name of Charlotte McDonald."

Last evening Mrs. Dickinson sent a telegram to her husband, Harry Dickinson, in New York, informing him of her arrest and asking him if he would meet her in New York when she arrived today. Mrs. Dickinson declared that she was willing to go back to New York or New Jersey without papers.

Alleged Forgery and Larceny

Boston, Jan. 11.—William J. Mackey of Baltimore, son-in-law of President Gambill of the Roxbury Distilling company, who was arrested in New York on the charge of the larceny of $12,500, the property of I. E. Demelman, the New England representative of a New York distillery, was brought here from New York last night. Demelman states that Mackey came to him as confidential agent of the Roxbury Distilling company and, on what purported to be receipts for bonded whisky, received for himself a loan of $12,500. Demelman claims that the receipts were forgeries.

Alienist Declares Steele Insane

Boston, Jan. 11.—Dr. George F. Jelly, alienist and chairman of the state board of insanity, reports that, as a result of his examination, he finds John A. Steele, who shot and killed Edward Cohen, president of the Massachusetts branch of the American Federation of Labor, and seriously wounded Dennis D. Driscoll, the secretary of the same body, at the state house on Dec. 5, insane. Steele shot the men while he was out of an asylum on probation.

Arrested For Child's Death

Newton, Mass., Jan. 11.—Charged with causing the death of her child, which was found in the waters of Muddy pond, Stoughton, Lucy B. Jones, a colored woman, aged 25, was arrested at a Hillside avenue residence. The body of a child, said to belong to the Jones woman, was found in the pond with a piece of an apron string tied tightly around its throat. The accused woman was taken to Stoughton.

Valuable Mail Missing

Providence, Jan. 11.—A mail pouch containing valuable mail disappeared from the Bristol postoffice last night. After searching several hours, employes of the American Express company failed to locate the sack. It is believed the sack was taken from one of the mail wagons and that the culprit may have rifled the contents. The police are searching for a clue.

No Clue to Eddy Murderer

Providence, Jan. 11.—With the return to this city of the police detectives who have been investigating the murder at Greenville of Miss Mary Eddy, a mill operative, work looking toward a solution of the mystery has virtually ended. Two or three different persons have been under suspicion, but all were unable to satisfy the officials of their innocence.

Out of Work and Despondent

Worcester, Mass., Jan. 11.—George E. Harlow, aged 47, was found dead at the home of his sister, having committed suicide by asphyxiation, through despondency from lack of work. He attached a rubber tube to a gaspipe and lay on a bed with the other end of the pipe in his mouth. He was a woodworker.

Trial Still Held Up

Bennington, Vt., Jan. 11.—The trial of Alfred Mahan, charged with the murder of his 4-year-old niece, was not resumed in the superior court yesterday, the illness of two jurors making it necessary to postpone proceedings. Jurors Williams and Sutton both have an attack of the grip.

Double Tragedy In Cemetery

Ravenna, O., Jan. 11.—Edwin Collier took his 8-year-old blind son to his wife's grave in Ravenna cemetery, shot him dead and then shot himself. He will die. Collier has been dazed since the death of his wife, six months ago. He continually talked about her and brooded over the blind boy's condition, which he had spent much money to relieve.

Colliers Go Out of Commission

Washington, Jan. 11.—Orders were issued at the navy department placing out of commission the colliers Marcellus and the Leonidas on Feb. 1. Through this order it is expected to make available part of the money necessary to fit out the hospital ship Relief.

Biliousness

"I have used your valuable Cascarets and find them perfect. Couldn't do without them. I have used them for some time for indigestion and biliousness and am now completely cured. Recommend them to everyone. Once tried, you will never be without them in the family."

MASKED MAN'S EFFORT.

Englishman to Walk Around the World For Wager of $100,000.

In the face of a northeast wind a man started the other morning from Trafalgar square, in London, on a tour around the world. The adventurer undertook the task for a wager of $100,000, the details of which he gave to the New York Herald's correspondent.

"This wager," he said, "was laid by a friend of mine, a well known American millionaire, as the outcome of an argument that took place at a club in Pall Mall. He declared that no Englishman could walk around the world masked and pushing a perambulator. After hearing the conditions I at once made up my mind to accept the wager myself. Upon telling him of the decision I had come to he at once made arrangements with another well known American gentleman to accompany me. He is only doing it for sport."

The man was the object of much curiosity and was followed through the London streets by a large crowd. One of the conditions of the wager is that he is not to reveal his identity throughout the whole journey; therefore he has concealed his visage in a black mask.

When asked how he was going to subsist he replied:

"I am starting penniless, and I shall sell photographs while on the journey. I am allowed to expend any sum not exceeding £1 ($5) for photographs and pamphlets for sale at the start. That is how I shall subsist."

A very difficult task is before the walker. In order to win the wager he has to touch every county in England, to visit Scotland, Ireland and Wales and to call at twenty countries. He is to buy a postage stamp at every town passed through on his journey. Among the other conditions of this most remarkable wager are that he is to find a wife on the road, to forward an account of the miles walked and the towns visited and to obtain a signed document from the mayor or some other responsible person in every town. He may "go as you please."

"Goodby," the wayfarer called out merrily as he disappeared. "See you in ten years."

PEANUT FARMS IN JERSEY.

Possibility of Near Future as Result of Experiments In Montclair.

Nobel P. Randall, physical director at the Montclair (N. J.) Y. M. C. A., has announced the results of an experiment in agriculture which will be of interest to gardeners, both amateur and professional, and which indicates that the soil of northern New Jersey is adapted to the culture of a hitherto neglected product, says a Montclair dispatch to the New York Herald. Last June Mr. Randall planted a test patch with peanuts, and the results have been such that he expects even more profitable returns.

The peanut kernels were planted in sandy soil, and Mr. Randall gave to them the same care that is usually bestowed on a corn crop. When the vines began to spread, all cultivation was stopped, and the harvest, while not of marketable abundance, has revealed the fact that the particular Montclair soil which Mr. Randall selected is almost equal to that of Virginia in producing fine goobers. Last year Mr. Randall planted only the red husk varieties, and the yield is much larger than after similar experiments in 1906, when he planted the yellow skinned variety.

Mr. Randall expects to devote a larger acreage to peanuts next summer, and an effort will also be made to induce farmers and truck gardeners in the northern section of New Jersey to devote a portion of their tracts to test patches, so that more definite results can be obtained. The profits in peanuts are large, and the cultivation and harvest require less work than a similar acreage of potatoes.

No Gossip In This Kansas Town.

"The little town of Merriam, in my state," said David C. Banks of Topeka, Kan., to a Baltimore American representative, "has entered on an experiment that students of sociology all over the land will do well to watch. The city council of Merriam has passed an ordinance making it a finable offense for any person of adult years to retail gossip or tittle tattle that could be considered as reflecting injuriously on any inhabitant of the village. So far as I have been able to learn, nobody has been arrested as yet for talking about his neighbor, but it is said that already the denizens of Merriam are cultivating a conservatism in their speech hitherto unknown."

The Vice President's Namesake.

Charles W. Fairbanks of Indiana, vice president of the United States, recently met Charles W. Fairbanks of New Hampshire, who has just been nominated to be United States pension agent at Concord, says a Washington correspondent of the New York Times. They could not scrape up any relationship, but both enjoyed the meeting very much. The vice president was much interested in his namesake's family tree and asked him many questions concerning it. There is little resemblance between the two men, the pension agent being short and the vice president—well, to be polite one would say tall, but to be frank one is compelled to say long.

A Brazilian Celebration.

Brazil, according to the Engineer, is preparing for the celebration of the hundredth anniversary of the opening of the ports of that country to international commerce by a national exhibition of industrial, pastoral and art products to be held at Rio de Janeiro from June 15 to Sept. 7.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Real Estate

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St Quincy, or the Treasurer, RICHARD D. CHASE Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

"ONE ACRE CLUBS."

Oklahoma Man's Plan For Educating Farmers Practically.

CAREFUL RECORD TO BE KEPT

Each Member of a Neighborhood Organization to Experiment With a Different Crop on Small Tract of Land—How Others Would Benefit.

Campbell Russell, member of the Oklahoma state senate, one of the best known farmers and breeders of live stock in the state, has originated a plan for the practical education of farmers. His plan is the organization of "Acre clubs" in every county in the state, says a Muskogee (Okla.) correspondent of the Kansas City Star.

Mr. Russell proposes that ten or fifteen farmers of a community organize such a club and that each member plant one acre to a certain farm product. A careful record of the acre is to be kept. The farmer is to use all reasonable judgment and work to make that acre produce the best possible crop that year. He is to keep an exact account of the expense, labor, growth and development of the crop, together with observations of conditions relative to climate and rainfall that he believes affect the yield.

When the harvest is done, the farmer is to call in all of his club members and read to them the record of his "acre" and tell them just what his success has been and in what way errors have been made, if any, and how they may be corrected. Each member does this in turn, and when they have made the rounds each member of the club has gained all the information that the experience of the entire membership of the club can give.

Mr. Russell says there are two important points to be gained by this. The first is the difference between what an acre of ground will produce when it is properly and intelligently cultivated and when it is cultivated in a slipshod manner, as a vast majority of the land in Oklahoma now is, and, second, it will show just what crops contain the greatest profit in this climate under careful cultivation.

Mr. Russell's advice is that the members of a club vary their experiments as widely as possible—that is, each farmer plant his "acre" in something that no other member is experimenting with. He also advises that a farmer can profitably organize such a club if he has for members only himself and his son.

The difference between a properly and improperly cultivated acre is one of the lessons that Oklahoma farmers need to learn. The adaptability of the soil and climate to such a wide range of products could never be proved more quickly in a practical manner.

JAPANESE AS JOCKEYS.

Six Training on Hungarian Race Track For Their New Venture.

One of the first visible evidences of the reality of Count Okuma's advice to the Japanese nation to extend its economic activities beyond the orient and into Europe is the appearance of six Japanese youths on an Austro-Hungarian race track as jockeys, says a special cable dispatch from Berlin, Germany, to the New York Times.

Baron von Szemero, the well known Hungarian sportsman, has engaged them for his stable and will put them through a course of instruction during this winter with a view to their riding his horses on various European tracks next summer. He believes that their light weight and natural skill equip them ideally for jockeyship.

The experiment will be watched with great interest by German stable owners with the view of importing Japanese riders themselves.

Novel Scheme For Raising Money.

The Woman's Aid society of the Methodist Episcopal church in Moran, Ind., planned a unique scheme for raising money for church building purposes, says a Moran correspondent of the Indianapolis News. Committees were appointed, and they solicited 100 earns of corn from individual farmers. Altogether 800 ears of corn were contributed, and after it had all been gathered it was sold on call, William Kirby serving as auctioneer in offering it to the highest bidder at so much a bushel. The 9,800 ears made 122 bushels, and the corn netted $68.70. The sale was held in Moran, and the bidding was spirited. A number of persons gave 50 cents each rather than take the corn, so that the total receipts were $75.

Pulp From Bamboo Grass.

The Agricultural college, Tokyo, recently announced that it had discovered a method of making pulp from bamboo grass, sasa, for which the highest results are claimed. The bamboo grass is very common in Japan and has been put to little use, says the Scientific American. It is proposed to teach the method to the Japanese farmers, and as it is hoped that pulp will be produced cheaply by it both the farmer and the consumer should benefit. The matter is still under investigation, and no details are obtainable.

More Zones of Quiet.

Chicago has recently established hospital quiet zones similar to those in New York, and there are other signs, says the Medical Record, that a wave of protest against unrestrained noise is sweeping over the country, and even in Europe the authorities of many of the larger cities are instituting anti-noise measures.

The Scrap Book

Stockton's Chickens.

When Frank Stockton started out with his Rudder Grange experiences he undertook to keep chickens. One old motherly Plymouth Rock brought out a brood late in the fall, and Stockton gave her a good deal of attention. He named each of the chicks after some literary friend, among the rest Mary Mapes Dodge. Mrs. Dodge was visiting the farm some time later, and, happening to think of her namesake, she said, "By the way, Frank, how does little Mary Mapes Dodge get along?"

"The funny thing about little Mary Mapes Dodge," said he, "is she turns out to be Thomas Bailey Aldrich."

THOUGH ALL WERE FABLES.

Though all great deeds were proved but fables fine;
Though earth's old story could be told anew;
Though the sweet fashions loved of them that sue
Were empty as the ruined Delphian shrine;
Though God did never man in words benign
With sense of his great fatherhood endue;
Though life immortal were a dream untrue,
And he that promised it were not divine;
Though soul, though spirit, were not and all hope
Reaching beyond the bourn melted away;
Though virtue had no goal and good no scope,
But both were doomed to end with this our clay;
Though all these were not, to the ungraced heir
Would this remain—to live as though they were.

—Jean Ingelow.

An Honest Opinion.

Mrs. Ruggles of South Pittsburg visited the Carnegie institute and had been much interested in the statuary on exhibition there.

On giving an account of the trip to a neighbor she said, "I have seen that fellow what they call Adonis, and I've seen Ruggles, and of the two give me Ruggles."—Lippincott's.

Natural Enough.

A stuttering man was once arraigned before a magistrate.

"What is your name?" asked the magistrate.

"S-s-s-s-sis-s-s-s," began the prisoner.

"What's that?"

"S-s-s-s-sis-s-s-s," hissed the stutterer.

"His name's Sisson," interrupted the policeman who had made the arrest. "He stutters."

"So it seems. What's he charged with?"

"I don't know, your honor," said the policeman. "It seems to be soda water."

Simple and Logical.

A teacher observed what he thought a lack of patriotic enthusiasm in one of the boys under his instruction.

"Now, Tommy," said he, "tell us what you would think if you saw the stars and stripes waving over the field of battle."

"I should think that the wind was blowing."—Ladies' Home Journal.

Her Redeeming Feature.

An only son had just told the family that he was engaged and to whom.

Ma—What, that girl? Why, she squints.

Sister—She has absolutely no style.

Auntie—Red headed, isn't she?

Grandma—I'm afraid she's fidgety.

Uncle—She hasn't any money.

First Cousin—She doesn't look strong.

Second Cousin—She's stuck up.

Third Cousin—She's an extravagant thing.

The Son (thoughtfully)—Well, she's got one redeeming feature, anyhow.

Chorus—What's that?

The Son—She hasn't a relative on earth.

Pa—Grab her, my boy; grab her!

About Eleven Head.

An evangelist journeying through darkest South Carolina stopped at a cabin swarming with children and asked of the young negress who responded to his knock how many children she had.

"Well, I've buried some, of co'se, but livin' I reckon I got 'bout 'leven head."

Any Other Name Would Do as Well.

A dignified gentleman was trying to read in a crowded railroad train. Among the passengers was a lady with a sprightly little blue eyed girl with golden hair and an inquisitive tongue. She asked the dignified gentleman numerous questions, played with his watch chain and endeavored to determine by means of the buttons on his waistcoat whether he was rich man, poor man, beggar man or thief.

The mother fairly beamed upon him. He was becoming nervous and, turning to the lady, said:

"Madam, what do you call this sweet little child?"

"Ethel," replied the mother, with a smile.

"Please call her, then."—Everybody's.

You Can't Paint the Lily.

A girl was asked to explain why men never kiss each other, while women do. She replied, "Men have something better to kiss; women haven't."

The Good Ones Were Gone.

In 1863, after the fall of Vicksburg, a man came to Lincoln seeking an office. He had known Lincoln very well in the early fifties, but had drifted south. He wanted an office and a good one, and he was very importunate.

At last Mr. Lincoln said to him: "John, when I was a young man about the time I first went to Springfield to live, I was invited to a dance, and I was very proud of the invitation. I remember that I bought a new hat and a very good one, for it cost me more than any other hat I had ever bought, and I was very proud to wear it to the dance. Well, I enjoyed myself so much at this hop that I stayed very late, about the last one to leave, as I remember, and as I was ready to go I said to the colored man who had charge of the coats and hats, 'Now, John, I wish you would bring me my hat.' He brought me a hat that had been worn for a long time and was very rusty and shabby, and I said to him: 'This isn't my hat. I wore a good one.' And then he replied, 'Mr. Lincoln, the good ones were all gone two hours ago.' So, John, the good offices are all gone."

Slightly Mixed.

Two correspondents wrote to a country editor to know respectively the best way of assisting twins through the teething period and how to rid an orchard of grasshoppers. The editor answered both questions faithfully, but unfortunately got the initials mixed, so that the fond father of the teething twins was thunderstruck by the following advice:

"If you are unfortunate enough to be plagued by these unwelcome little pests, the quickest means of settling them is to cover them with straw and set the straw on fire."

The man who was bothered with grasshoppers was equally amazed to read:

"The best treatment is to give them each a warm bath twice a day and rub their gums with boneset."

The Bishop's Job.

A bishop was staying with a friend in a country house. On Sunday morning as he passed through the library he found a small boy curled up in a big chair deeply interested in a book.

"Are you going to church, Tom?" he asked.

"No, sir," he replied.

"Why, I am."

"You've got to go. It's your job."—Ladies' Home Journal.

Neck and Neck.

The lawyer for the plaintiff had finished his argument, and counsel for the defense stepped forward to speak, when the new judge interrupted him. His eyes were filled with wonder and admiration for the plea of the plaintiff.

"Defendant need not speak," he said. "Plaintiff wins."

"But, your honor," said the attorney, "at least let me present my case."

"Well, go on, then."

The lawyer went ahead. When he had finished the judge gaped in even greater astonishment.

"Don't it beat all!" he exclaimed. "Now defendant wins."

No Common Nigger.

As a well known evangelist was paying pastoral visits some years ago in the state of Tennessee a lady said to him:

"I'm very glad you've come. I was reading in the Bible the other day about Moses marrying a nigger, and I wish you would explain the matter."

"It doesn't read that way in my Bible," he replied. "It reads that Moses married an Ethioplan woman."

"Well, doesn't that mean a nigger?"

"I will tell you how it was. There was a terrible war waged by the Ethiopians against the Egyptians, and two great armies sent from Egypt against them had been destroyed. The Ethiopians were governed by a magnificent queen, something like Semiramis, who led out her own armies and knew how to gain a victory. But when Moses was sent with a third Egyptian army against her he asked help of God and managed so wisely that the queen agreed to surrender all her forces to him and become tributary to Egypt provided he would marry her."

"Well," said the old lady, "I'm glad to hear it wasn't any common nigger."

New Testament Wisdom.

Little Mabel's grandfather had been reading the New Testament to her, and the parables seemed to arrest her attention. Her mother, going into the kitchen about dinner time, overheard Mabel talking in a peremptory manner to the servants. When asked what she had been saying, she replied:

"Oh, nothing. I was only telling those wicked and slothful servants to hurry up dinner."—Lippincott's.

Longworth and Longfellow.

Shortly before his marriage to Alice Roosevelt Congressman Longworth was presented at a large reception to Samuel Longfellow, a brother of the poet. Longworth was just then in a somewhat rattled condition because of the notoriety showered upon him by a gratuitous press.

He did not know what to say, and so he said only:

"Our names are almost similar, aren't they?"

Mr. Longfellow smiled kindly.

"Yes," he quickly quoted; "'worth makes the man and the lack of it the fellow.'"

Gallantry In Church.

One Sunday during high mass at 12 in the chapel of the little village of Glengariff three ladies of the Protestant faith were obliged to take shelter from one of those heavy summer showers which so frequently occur in the south of Ireland. The officiating priest, knowing who they were and wishing to appear respectful to them, stooped down to his attendant or clerk, who was on his knees, and whispered to him, "Three chairs for the Protestant ladies." The clerk mistook the words, stood up and shouted out to the congregation, "Three cheers for the Protestant ladies!" which the congregation immediately took up and gave three hearty cheers, while the clergyman stood dumfounded.

Good Food Specials!

Once each week, we make it our practice to offer you the best in the store at lowest possible prices.

This week's offerings include:

Florida Oranges, large size, 19c. doc
Squire's Hams, 12c. lb
Common Crackers, 4 lbs. 25z

The Observations In the Daily Walk

Mrs. H. D. Fowler of Phillips street is ill with the grip.

The monthly meeting of the Granite City club will be held tonight.

Commissioner Burke was able to be at his office yesterday afternoon, although his leg is a little stiff yet.

First church is to have a supper on Wednesday evening in the chapel for members and friends of the parish.

The Galahad Brotherhood of Christ church will hold a social and entertainment at the parish house next Thursday evening.

Mayor Shea is being deluged with invitation to balls, installations, and banquets, and he is doing his best to accept all of them but it is quite a tax.

Next regular meeting of Corps 103 will be on Tuesday afternoon at 2.30 o'clock. There will be a public installation of newly elected offices in the evening at 7.45.

The Christian Endeavor society meeting of the Park and Downs Congregational church will be conducted Sunday evening by Eugene Smith. His subject will be "The true centre of life."

The monthly debate of the Men's club of Christ church will be held next Wednesday evening. The subject which will be a humorous one, will be announced at the meeting.

At the Alliance meeting on Monday afternoon in the parlor of the First church the speakers will be Mrs. Clara B. Beatley and Mr. Charles H. Johnson with "The Sunday School" as the subject.

Alexander Lorandeau of Gilbert street had the misfortune on Wednesday to have a stone fall on him at the yard of Andrew Deane & Co., while boxing stone. One of his legs was crushed.

A. H. Gould of Wollaston is the architect for a large apartment hotel to be erected on the shores of Sunset lake, South Braintree. There will be suites of from two to four rooms and the large front piazza will be arranged for enclosure with glass.

The annual missionary service of the Sunday schools of Wollaston, Hingham Weymouth and Braintree Episcopal churches will be held at Christ church, Jan. 19. Rev. Everett P. Smith, educational secretary of the board of missions, will make the address.

Benj. F. Bass, a native of Quincy, and for many years manager of the gas works on Brackett street, but for the last twenty years or more an inmate at the Soldiers' Home at Chelsea, called this week on old friends and schoolmates in this city. He appeared in good health and spirit, although over three score years and ten.

During the high wind of Tuesday night the draft door of the boiler at the granite works of William Deacon & Co. was blown open. There was soon a hot fire and the building would have been destroyed had it not been fire proof. As it was the damage was slight, and there was no fire under the boiler in the morning.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

SUNDAY SERVICES.

FIRST SUNDAY AFTER EPIPHANY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when odss.b'e. Let all churches be represented—Eds.

FIRST CONGREGATIONAL CHURCH, (UNITARIAN) City Square—Rev. E. C. Butler, pastor. Residence Russell Park. Morning service at 10.30. Preaching by the pastor. Sunday school at 11.50 A. M. C. H. Johnson superintendent. Collection for Unitarian Suuday school Association.

Makaria Fraternity

SUNDAY: 12 TO 1—SHARP

Bethany Church, City Square

If YOU are a young man, and not associated with any other Quincy church, YOU are most cordially invited to come to our meeting.

A warm welcome—Hearty singing—A helpful hour together.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

LET WOMEN WOO.

View of Scientist Who Says More Leap Years Would Mean Fewer Divorces.

"If every year were leap year and women could be brought to avail themselves of the time honored privilege of proposing to the men of their choice instead of waiting for men to propose to them, we should be far along the road toward a regenerate society."

Dr. Denslow Lewis, president of the Medico Legal Society of America, chairman of the hygienic section of the American Medical association, author and sociologist, made the above statement for publication, says a Chicago dispatch to the New York American.

"There is no doubt that the selection of a husband should really rest with the woman," said Dr. Lewis. "In the animal world it is invariably the female that chooses her mate.

"Only in the human race is the right of selection arbitrarily given to the male. Taking the divorce records of this country for the last twelve months as a guide, we can hardly believe that he has made a brilliant success of it.

"Left to herself and with no hampering conventions to interfere, woman would be a most discriminating chooser. With all sorts of men to select from, she would be in no sort of hurry to mate with the first little man that popped the question.

"Women love physical perfection. With her right to select unquestioned, the American woman would pick out a man of her own physical ideal, woo him with all the varied arts and fascinations at her disposal and nine times out of ten get him.

"Physically the race would be greatly benefited. There are many thousands of women in this country who have married men just because they were asked and who now live the lives of housekeeping drudges, bound to the so called home only by the stern dictates of duty.

"Sometimes Mr. Right comes along years after, when the loveless marriage has produced complications in the way of children. Then the housekeeper drudge is suddenly transformed into a woman with a heart to love and suffer once more. If she be a very strong woman, she continues in the narrow path of duty to the end. If she be weak and the man in the case unscrupulous, there is another case for the divorce court to wrestle with and for sociologists to ponder over."

SLEEPING CARS DE LUXE.

New Type on an Express Fitted With Rooms Tastefully Finished.

On the Shore line of the New York and Hartford railroad a new style of sleeping car has been adopted for the midnight express, says the New York Times.

Instead of the berths being separated from the rest of the car by curtains, each passenger will be able to obtain a compartment which approaches in size the average size single room in a hotel and fitted with toilet conveniences. There will be ten of these in each compartment, with two berths in each room. The rooms will open out on a corridor running the length of the car and may be taken in suits. Doors open from one compartment to another, so that members of the same party will not be separated.

In the new cars rare woods have been used. In one apartment the finishing is in tiger wood, which resembles the markings of a tiger. In another a wood from the Philippines is used, of which the experts at Washington have not yet determined the origin and species. Jigue wood, Spanish mahogany and coubaril are other of the unusual finishings which have been employed to make these cars luxurious and comfortable.

Rare Freak of Plant Nature.

G. Manful, a Gettysburg (S. D.) gardener, has in his possession a rare freak in plant nature. It is a cabbage stump from which the original head had been cut away. From the stump a seed shoot had sprung up to a height of fifteen inches, and around this had grown in the form of a cone twenty-six little heads of cabbage, each perfect in itself, says a Gettysburg special dispatch to the Cincinnati Commercial Tribune. The little cabbages vary in size from that of a baseball at the bottom to half that size at the top.

All the Comforts of Sea.

[A tailor's shop is to be established aboard an Atlantic liner.]

Oh, evermore I'll stay at sea upon an endless trip;
I wouldn't land again and leave the comforts of a ship.
The land is full of criminals, and brawlings never cease;
Aboard my crimeless liner there's no one breaks the peace.
No autos honk and rattle, no L cars murder sleep;
The only sound that lulls us is the murmur of the deep.
When tired of breathing ozone I seek a quiet nook.
And the un-Carnegied library supplies me with a book.
The picture gallery is great, the theater is fine.
Museum is a corker, conservatory divine;
There's something educational about the well stocked zoo,
The aquarium, university and science building too.
And sport is not forgotten; there's a pretty baseball ground.
A golf course and a race track that's just a mile around;
There's polo and there's football and a famous skating rink
And a country club that's handy for a dinner or a drink.
The business section's growing; the office buildings soar
Above the Stock Exchange and banks where the tides of traffic roar.
There's dry goods stores and jewelers and architects and tailors
And butchers, bakers, lawyers, most everything but sailors.
There's everything they've got on land upon my favorite ship,
So that's why I have left the shore upon an endless trip.

—C. B. Quincy in New York American.

Social Realm.

(Continued from Page 1.)

The eighth annual ball of the Cochato club was held Friday evening, Jan. 10, under the direction of Mr. G. E. Williams an active member of the house committee. Music was rendered by Mullally's orchestra. Supper was served by caterers at intermission. There was a large attendance and the evening was very much enjoyed.

* * *

Mr. and Mrs. Fred Mercer of Marlborough street are receiving congratulations upon the birth of a son, born January 1.

* * *

Mrs. Wilford F. Woodsum of Braintree entertained the members of the Matrons' whist club at her home, Monday evening. The souvenirs were secured by Mrs. H. W Owens, Mrs. Perley Proctor and Miss Mabel Tirrell.

* * *

Mrs. Alvin F. Sortwell and Mrs. Henry M. Williams are to pour at the tea at the Unitarian building, Beacon street, Boston, on Monday afternoon from four until five.

* * *

The A. B. C. met Friday, Jan. 3, with Mrs. Stafford S. Bridgham, South Braintree. Highest scores were made by Miss Helen Hathaway and Mrs. George T. Burnham. The next meeting will be on Jan. 17, with Mrs. George C. Fuller, Middle street.

* * *

Mrs. Sara White Lee of Brookline, widow of William Lee, the Boston publisher, was married Thursday noon at her home, 1408 Beacon street, to Mr. George Mortimer of Brookline. The bride was attended by Miss Mary E. White, her sister, and best man was Mr. John Mortimer, brother of the groom. Bishop Daniel A. Goodsell, assisted by Rev. Dr. Bugbee of St. Mark's preformed the ceremony. Mr. and Mrs. Mortimer left for Canada, where they will be guests of some of Mr. Mortimer's relatives. On their return they will live at 108 Beacon street, Boston. The bride is well known in club and patriotic circles where she has been an active worker. She has often been in Quincy as the guest of Adams Chapter D. R., founding the chapter at the home of Miss Annie L. Prescott, she at that time being regent of the State Society of the Daughters of the Revolution.

* * *

The Child Nurture club will meet with Mrs. Percy L. Davidson, 4 Marion street, Wollaston, on Monday, January 13, at 2.30 o'clock. Mrs. Robert E. Park will have charge of the meeting and the subject discussed will be "Social Instincts."

* * *

Mr. and Mrs. John R. Graham and daughter Miss Beatrice Graham of Bangor, Maine, formerly of Quincy, sailed last Saturday for Europe where they will tour the continent and also visit Egypt and Mediterranean ports.

* * *

Mrs. Alden A. Thorndike of Braintree, entertained friends on Thursday afternoon at a musicale at her town house house on Commonwealth avenue, Boston

* * *

A Valentine dance is to be held at Quincy Music hall on Friday evening, Feb. 14th, for the benefit of the Day Nursery, with Mrs. Arthur Sibley in charge. Also the Saturday afternoon previous a dance will be given for children for the same object, which promises a good time as there will be valentines and an entertainment as well as dancing.

* * *

Another American heiress is to become the bride of a titled foreigner, Mrs. Cornelius Vanderbilt of New York having issued invitations for the marriage of her daughter, Gladys Moore, and Count Laszlo Szechenyi, at 12 noon on Monday, Jan. 27th.

* * *

Many Quincy people will remember Miss Annie Holt, daughter of the late Albert Holt and related to several of our old families and will be interested in the following item from the Brooklyn Times: Master Edgar F. M. Deam, who has been singing for the past year at Grace Church, Jamaica, has just been admitted to the very select boy choir of Grace Church, Manhattan, an unusual promotion for a lad of nine. Master Deam is a talented young singer, who is expected by his Jamaica friends to win uncommon solo honors. He is the son of Mr. and Mrs. F. N. Deam and his father is tenor soloist at the Garden City Cathedral."

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists.

BOSTON AMUSEMENTS.

KEITH'S THEATRE.

Following the notable "Anniversary Week" bill at Keith's this week will come one in every way worthy to be its successor, with a number of novelties in its make-up. Carrie DeMar has not been seen in Boston in several seasons, but she will be remembered as a member of that favorite team of entertainers, Joe Hart and Carrie DeMar. She is now doing one of the cleverest single specialties ever presented by any comedinne in vaudeville, one that has made a tremendous hit wherever she has played. She has a number of exclusive songs, "The Kind of Girls Men Like," "Sweetheart Jo," and "Lonesome Fluffy Ruffles" among them. Art studies as presented by Joan Marcel have always been a welcome number on the Keith program. Those he is showing this seasou are the best he has ever exhibited, and are made up of an almost entirely new list of subjects. His basreliefs are particularly effective.

BOSTON THEATRE.

At the Boston Theatre next week the stock company will make an offering of William Gillette's "Sherlock Holmes" which is still a novelty to a very large portion of the local amusement public. There is much more of William Gillette in this play than there is of Sir A. Conan Doyle, though its plot is cast in the mold of the famous narratives which their title author made famous the world over, and its hero ambodies the characteristics and attributes of the orginal. It narrated and illustrates "an hitherto unpublished episode in the career of the great detective" and affords a melodrama of the most thrilling sort; not of the bold kind which flourished in the palmy days of the olden time but one, the like of which is seldom seen at the better class of theatre. It is a triumph of stage-craft, and entitles Mr. Gillette to be considered one of the first author-actors of America.

THE ORPHEUM.

The Orpheum is presenting a succession of big vaudeville bills and next week promises to surpass all others judging by the number of big acts and headliners. One of the most important features will be LaBelle Blanche, a dainty little American comedian whose imitations of popular, legitmate and vaudeville actors and actresses created a perfect furore in New York and made her one of the biggest attractions now on the stage. Then there will be Mayne Gehrue, who has always been a favorite in Boston and makes her debut at the Orpheum in a breezy sketch of western life in which she is seen as a girl of the prairies and has ample opportunity to introduce her fetching songs and dances.

CASTLE SQUARE THEATRE.

Mirth has reigned at the Castle Square since Thursday evening and it will continue to reign through the first half of the next week. "The Gondoliers," greeted with the appreciation with which all the gilbert and Sullivan comic operas are invariably welcomed, is revealing again the laughable ingenuity of W. S. Gilbert and the musical genius of Sir Arthur Sullivan. Its plot is rich in humor and once more Mr. Gilbert has utilized the scheme of mixed identity that has served him so well in Pinafore and other operas. His heroes are two gondoliers, who are twin brothers, and one of them is the rightful heir to the throne of Barataria. The problem is to find the rightful heir, and he is of course not discovered until the very end of the opera. Scenic splendor gives added pleasure to the performance, and the leading roles are being well taken care of by Clara Lane, J. K. Murray, James Gilbert, Francis J. Boyle, Miss Le Baron and Miss Hall.

PARK THEATRE.

The girls in "The Dairymaids" at the Park theatre can sing, they can speechify, they can group and dissemble, they can pose and, my, how they can dance! Those maidens, Flossie Hope and Bessie DeVoie, are elfs that any fairyland would seek to win away from our mortal sphere. Such rapturous terpsichore has not been witnessed in Boston for many a day, perhaps never at all. The prima donna of the performance, Mabel Hollins, may not be a Patti, but she enthuses her hearers with equal success and sets all heads anodding and feet a pattering in unison with the rhythm of her solos. The vocal music throughout the play is legion itself, numerically. No end to the selections, and each number enough to float any lyric production into lasting popularity and prosperity. The way Charles Frohman has crowded these joyous melodies into a single performance nigh takes ones breath away, and it is this tiptop music in the play that has caught the town to pieces. The interpolated fun of Huntley Wright, Edgar Atchison Ely and Eugene O'Rourke gives a breeze to the whole. And there's the added stateliness of Ruby Ray and Emily Francis to lend a suspicion of dignity and propriety to the roguish romping of the others. Such whistling and audible humming as the audience disperse it is another act to the play over which even the suburban people linger to listen, to the peril of missing their trains! 'The Dairymaids" for mine.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

At the Scenic.

The manager of The Scenic promises a rare treat to the local theatre going public for the week of Jan. 13 and says the show will even surpass that given this week, if such is possible. The following exceptionally strong vaudeville bill is advertised, and every act is a feature: Bates and Ernest, German comedians; DeLisle, Boy wonder juggler; Two Joyces, comedy sketch, singers and dancers; Harry Munro, tramp acrobat; and Frank Dorman the popular singer, in beautifully illustrated songs. In addition to the above there will be a complete change of the moving pictures, and the very latest and most entertaining subjects will be shown.

CLASSIFIED ADVERTISEMENTS.

Advertisements in this column inserted at the following rates:

NORFOLK, ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

MICHAEL P GOOD.

late of Quincy, in said County, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, by John J. Good of Quincy, who prays that letters of admistration with the will annexed may be issued to him, without giving a surety on his bond, the executrix named in said will being a minor.

You are hereby cited to appear at a Probate Court to be held at Brookline, in said County of Norfolk, on the twenty-second day of January, A. D. 1908, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate seven days at least before said Court.

Witness, JAMES H. FLINT, Esquire, Judge of said Court, this tenth day of January, in the year one thousand nine hundred and eight.

TREASURER'S STATEMENT

Expenditures Of City in 1907 $93,385.82 Larger Than in 1906

The Dec. 31, or annual statement of City Treasurer Fay issued today shows that total expenditures of the city of Quincy during 1907 amounted to $1,345,819.50, an increase of $93,385.82 over 1906, and $261,370.41 over five years ago.

In 1885 the Ledger finds the expenditures of Quincy under a town form of government were but $181,447.09, and in 1889, the first year under the city government, they were $359,249.12.

They did not reach half a million dollars until 1891, and with the exception of 1893 when the water works were purchased the city expenditures were less than a million up to 1900. Since 1904 the increase has been very marked.

Here is a summary of the yearly expenditures compiled by the Daily Ledger from the annual reports of the City Treasurers:

Year.		Amount.
1885	(Town)	$181,447.09
1886	(Town)	220,659.58
1887	(Town)	295,366.19
1888	(Town)	299,943.63
1889	(City)	359,249.12
1890		491,243.15
1891		518,913.55
1892		573,446.34
1893		*1,329,484.24
1894		774,118.94
1895		759,848.66
1896		931,683.55
1897		934,980.31
1898		995,820.36
1899		994,847.37
1900		1,068,074.42
1901		1,101,625.59
1902		1,084,449.09
1903		1,140,837.78
1904		1,118,730.95
1905		1,219,168.18
1906		1,253,433.68
1907		1,345,819.50

*Included $567,688.52 for purchase of plant of Quincy Water Company.

An item which is assuming large proportions in the annual expenditures is that of interest, the sum of $83,053.31 being required against $75,127.93 the year before. The interest requirements of 1907 were: $19,799.94 for city debt, $20,134.50 for sewer debt, $26,201.50 for water debt, $1,360.00 for the park debt, $14,874.87 on temporary loans, $682.50 on notes in anticipation of bond sale, and $2,242.61 on account of 1906.

About $20,000.00 more were required for interest than in 1900. Under the town form of government up to 1889 less than $4,000.00 was annually required. The first city government created a big debt to build the Willard schoolhouse, and the interest account has grown rapidly since then as will be seen by the summary below compiled by the Daily Ledger:

Year.		Interest Paid.
1885	(Town)	$2,498.11
1886	(Town)	2,465.22
1887	(Town)	3,952.00
1888	(Town)	3,157.72
1889	(City)	3,173.05
1890		10,190.08
1895		48,904.70
1900		63,452.78
1901		64,895.49
1902		67,382.00
1903		72,940.72
1904		73,122.60
1905		72,749.63
1906		75,127.93
1907		83,053.31

The town of Quincy was practically out of debt, the Town Treasurer showing a surplus nearly every year. Since 1889 the city debt has accummulated rapidly. This together with the large temporary loans in anticipation of taxes is responsible for the large interest account above.

The increase in the debt of the City is complied by the Daily Ledger below:

Jan.	Debt.
1885	(Surplus)
1886	(Surplus)
1887	$483.72
1888	(Surplus)
1889	(Surplus)
1890	$33,227.95
1891	163,065.74
1892	262,386.89
1893	322,442.00
1894	*1,043,730.00
1895	1,065,091.00
1896	1,037,895.61
1897	**1,134,335.61
1898	**1,234,515.61
1899	1,350,505.86
1900	1,472,706.59
1901	1,518,605.61
1902	1,566,635.64
1903	1,650,840.35
1904	1,741,628.00
1905	1,667,072.00
1906	1,740,330.00
1907	1,785,350.00
1908	1,816,540.00

*Included issue of water bonds.

**Included issue of sewer bonds.

Other large expenditures of the city in 1907 were: $100,498.70 for school teachers, $92,290.57, for Metropolitan expenses, $34,962.84 for State tax, $42,286.06 for Fore river bridge $26,177.73 for water construction, $24,881.34 for sewer construction, $22,884.71 for street lighting, $21,042.59 for general repair of streets, $22,449.25 for pay of policemen, $23,037.51 for pay of firemen, $22,430.24 for pay of city officers, $36,309.35 for High school enlargement, $59,324.21 for new Atlantic schoolhouse, $136,860.00 for maturing debt, and $327,000.00 in payment of temporary loans.

The receipts for 1907 included $94,479.53 in cash from 1906, $501,398.83 in taxes of which $335,403.10 was on levy of 1907, $112,546.37 from water rates, $393,000.00 from temporary loans, $172,000.00 from new bonded debt, $13,410.08 from corporation tax, $18,023.97 from sewer assessments, $4,403.56 from street railway excise tax, $7,538.89 from interest on taxes, $3,055.00 from interest on deposits, and smaller sums, leaving a balance on hand of $58,109.69.

Deputy Sheriff Farrell Dead

Deputy Sheriff Thomas Farrell of Randolph died at his home Sunday afternoon from a tumor on the brain. He was 59 years of age and had been a deputy sheriff of Norfolk county for the last eighteen years, and had been a constable of Randolph for 33 consecutive years. He was well known at the Quincy and Dedham courts.

He was a member of Division 3, A. O. H., and of the Knights of Columbus. He was for many years identified with the shoe manufactory of Farrell & Sheridan. He leaves a widow, two daughters and a son.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Officer Kelliher Dies at Hospital

Officer Patrick J. Kelliher who underwent a surgical operation at the Boothby hospital, Saturday, passed away Sunday morning at 4 o'clock. Officer Kelliher was taken sick nearly two months ago. His malady seemed to baffle medical skill, and he was taken to the Boothby hospital a week ago. Then he was taken to the Massachusetts General hospital, where he was examined under the X-ray. This was in a measure unsatisfactory, and an operation was decided upon. It was thought that his blood was in such a poor condition that the transfusion of blood from a healthy person would assist him. His brother-in-law, William Corcoran, and Officer Goodhue volunteered their services,but Mr. Corcoran insisted that he should be the one selected. At the last, however, it was decided it would not be best to sacrifice anyone's blood and the operation was performed without it.

Just what the operation developed is not known, but the physicians said after the operation that he could not live.

Officer Kelliher was born in Millstreet, Cork, Ireland, April 8, 1868. He attended the National school in his native place and came to America about 1884.

He learned the stone cutters' trade, which he followed for many years. He was for a time detailed as special officer at St. Mary's hall. He took the civil service examination in 1903, and April 14, 1904, he was appointed to the permanent police force.

He was assigned to the Wollaston beat, which he covered until about a year ago, when he was transferred to the night beat in City Square. This change was in the nature of a promotion. He proved to be a faithful officer, and was looked upon as one of the best men on the force.

Sometime ago he got into a tussle with a gang of toughs that came from Boston on a late train. During the mixup he received a severe kick in the abdomen. It is believed that this kick was primarily the cause of his last illness.

Officer Kelliher was looked upon as a faithful officer. His habits were of the best. He was highly respected by his fellow officers, and his death has cast a gloom over the whole department. He leaves a family.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

Just Jotted Down By Ledger Men

A new program at the Scenic theatre tonight.

Just the kind of weather to bring on the grip.

The rain Sunday has given the skating a knock out blow.

The City Council Committee on Finance and Ordinances meet tonight before the City Council meeting.

Several business men were admitted to membership at the meeting of the Granite City club Saturday night.

The members of the Quincy telephone exchange club are to hold a dancing party at Hibernian hall, South Quincy, Jan. 28.

Another public meeting of the citizens on the abolition of grade crossings at Saville and Water streets will be held Thursday evening.

The ladies night of Quincy council, Knights of Columbus, postpone from last week, will be held Tuesday evening at Colonial hall.

A Sunday paper contained a group of pictures of the family of Mr. and Mrs. H. D. Fowler of 114 Phillips street, Wollaston, who had been awarded a prize of $10 by the paper for the best Thanksgiving party. The picture showed Mr. and Mrs. Fowler and their thirteen children.

Erastus Osgood, teacher of the mandolin, banjo and guitar, is now permanently located at the Y. M. C. A. building in Quincy. Mr. Osgood has recently organized a banjo club in Wollaston composed of 10 performers; he is also musical director of the Y. M. C. A. Mandolin and Guitar club. His large class of pupils occupy all his evenings, but he has a few leisure hours in the afternoon. Lessons given at people's residence if desired.

HAS A DELICATE TASK

Thaw's Counsel Will Endeavor to Build Case of "Legal Insanity"

New York, Jan. 13.—The second trial of Harry K. Thaw, for the killing of Stanford White, will begin in earnest today, when the state will present its case to the jury. With a straight plea of insanity entered from the very beginning, the issue this year will be one of responsibility or irresponsibility, with the words "guilt" or "innocence" of the accused seldom heard.

Assistant District Attorney Garvin will outline the state's case in a ten-minute speech. He will briefly sketch the incidents leading up to the shooting on Madison Square roof garden, and will characterize the killing as a coolly-planned and wilful murder. Thaw's actions preceding and following the crime will be held up as those of a sane man.

Martin W. Littleton will make the opening address for Thaw and it is said there will be no hint of justification in his outline of defense, but a recital from first to last of events which, it will be claimed, point irresistibly to the fact that Thaw was insane at the time of his fatal meeting with White. To build up a case of legal insanity at the time of the act and leave an egress to a claim of present soundness of mind will be a delicate task, and Littleton's handling of it will be watched with great interest.

Sailors Barely Escaped Drowning

Newburyport, Mass., Jan. 13.—Aroused from his sleep by the sound of rushing water, David Gifford, steward, jumped from his berth aboard barge Henry Clay, lying at a wharf here, and landed waist deep in water. Calling to his two companions, the three hastily rushed to the deck and jumped to a nearby barge just as their own vessel went to the bottom. The barge was loaded with 980 tons of coal and chanced to be anchored over a ledge of rocks and when the tide receded she struck the ledge.

Steamship War Near Climax

London, Jan. 13.—The rate war among the Atlantic steamship companies, together with the new agreement between the two German companies, the North German Lloyd and the Hamburg American, is creating the greatest interest in British shipping circles. The struggle for supremacy in fixing the rates and working conditions of the enormous Atlantic passenger traffic is now reaching the climax and promises to be one of the most severe in the history of British shipping.

Serious Situation For France

Paris, Jan. 13.—The French government is greatly embarrassed at the unexpected turn of events in Morocco by the proclaiming of Mulai Hafid sultan at Fez and other places. In a twinkling the entire situation has become changed and the whole country is threatened with civil war. There is no doubt as to the fanatical appeal of the supporters of Mulai Hafid being directed chiefly against France, and a holy war might arouse France's Mohammedan subjects across the Algerian frontier.

Fire Loss of Half a Million

New York, Jan. 13.—A block of five-story tenement buildings on First avenue, and which had been remodelled for factory purposes and were occupied by a half dozen enterprises, was burned today, entailing a total loss of about $500,000. The fire was prevented from spreading to adjacent tenements only by the most diligent work for a period of three hours.

Aged Couple Die Together

Providence, Jan. 13.—After having passed the greater part of their lives quietly and uneventfully in an old farmhouse here, Jonathan King and his wife, Abbie, died last night together. The wife passed away at 8:40 o'clock and a few minutes later the husband died. In both cases death was due to old age. King was 84 years old and his wife 88.

Serious Explosion In Hotel

Joplin, Mo., Jan. 13.—An explosion of natural gas in the basement of the big Olvia apartment hotel here killed Marvin Reynolds, night clerk, seriously injured several other persons and caused $8000 damage to property. A suite occupied by John E. Stevens, a mineowner, and his wife, was completely wrecked. Mrs. Stevens will die.

Young Desperado In Custody

St. Petersburg, Jan. 13.—The police are rejoicing over their success in arresting an 18-year-old youth named Parshenkoff, a desperate terrorist and many-times murderer. Parshenkoff made a desperate stand, wounding several of his pursuers, and was not overpowered until he had been felled by a heavy blow on the head.

Raisuli Holds on to MacLean

Paris, Jan. 13.—A special dispatch to The Matin from Tangier says that Raisuli, the bandit, has joined Mulai Hafid and that he still persists in his refusal to give up Caid Sir Harry MacLean, except by order of the new leader.

Big Strike May Soon End

Havana, Jan. 13.—It is estimated that 3000 workmen of independent cigar factories are now on strike. The indications are that terms for a settlement of the strike will be agreed upon soon.

The Weather Forecast

Almanac, Tuesday, Jan. 14.
Sun rises—7:12; sets—4:35.
Moon sets—3:47 a. m.
High water—8:15 a. m.; 9 p. m.

Colder weather will extend over the New England states and snow or rain, changing to snow, is indicated, followed by fair and seasonably cold weather.

COVERED 3300 MILES

Long Single Passage Well Tests Our Battleships' Capacity

HAVE REACHED RIO JANEIRO

Government and Civic Authorities Extend Warm Welcome to Americans--Had Pleasant Voyage, With Visit From Father Neptune

Rio Janeiro, Jan. 13.—The American fleet of sixteen battleships entered the port of Rio Janeiro yesterday afternoon, after a passage from Port of Spain, Trinidad, more than 3000 miles, unmarred by serious accident, replete with interesting incidents and ending with a royal welcome from the thousands who had gathered to greet the visitors. The fleet has now covered about 4600 miles, about a third of the distance of the voyage to San Francisco.

Word that the fleet had passed Cape Frio, forty-five miles out, was received at 8:30 o'clock, and immediately scores of tugs and other small craft, crowded with spectators, set out to meet the visitors and accompanied them to the anchorage. The Connecticut, Rear Admiral Evans' flagship, was in the lead, with the Brazilian cruisers on either side. Passing the fortresses, the Connecticut fired a salute of twenty-one guns, which was responded to by the Brazilian warships, the German cruiser Bremen and the shore guns. The yards and fighting-tops were manned and cheers were given for the splendid passage of the American ships.

As soon as the anchorage was made Brazilian naval and civic authorities went on board the Connecticut and extended a hearty welcome to Rear Admiral Evans, his officers and men. Hundreds of launches, tugs and small boats circled about the battleships until long after the sun had gone down. About 20,000 persons were aboard these boats and more than 50,000 others were gathered on shore to celebrate the coming of the fleet. Last night the city was beautifully illuminated in honor of the visitors.

All the way down from Port of Spain the voyage was an enjoyable one. The northeast trades were encountered as far as Cape Saint Roque, with a long sea swell. To some extent the passage of the fleet was hampered by the strong currents and the swell, poor coal, and minor derangements of the auxiliary machinery of several of the ships. Until Jan. 10 a uniform speed of 10 knots was maintained. The speed was then increased to 11 knots and finally to 12. All through the voyage they encountered pleasant weather and at no time was the heat excessive, even while crossing the equator.

The first land sighted from the time of leaving Port of Spain was off Pernambuco on Dec. 8, at a distance of twenty miles. The next land to be sighted was Cape Frio yesterday morning. From abreast of Pernambuco there were gentle variable breezes with a smooth sea and a long swell from the southward. With a favorable current the battleships successfully completed the longest single passage they have yet made, 3300 miles, in which their capacity was well tested.

At midnight on the 5th the fleet crossed the equator and Father Neptune visited the ships. On the flagship Connecticut, Neptune, surrounded by his various assistants, addressed a warm welcome to the admiral in command. Never before had so many recruits crossed the line at one time, numbering fully 90 percent of the crews. This great number of green hands gave Father Neptune and his followers an unusual opportunity to put them through the initiation with spirit. Neptune's flag hung at the yardarms during the ceremonies. All the newspaper correspondents on the vessels paid the footing with the older officers and a number of midshipmen who took the initiation. There was the usual lathering and shaving by the barbers and the ducking in the tanks.

Outside of Rio Janeiro a Brazilian fleet consisting of three cruisers, accompanied by the American tender Yankton, met the American battleships off Cape Frio, and after an exchange of greetings steamed with them along the coast and into the roadstead. A hearty welcome was extended to the officers and men by the minister of marine in the name of the Brazilian government and navy. Bands played and whistles blew, with the waving of many flags, as the American ships steamed through and dropped their anchors.

The newspapers here published special editions describing the splendid welcome extended to the Americans. Several of the papers will issue daily editions in English during the stay of the fleet, and have made arrangements to secure extensive special dispatches from the United States, so that the men may have the news of their own country.

Traffic Tied Up by Ruins

New York, Jan. 13.—The empty, tottering walls of the burned-out Parker building, rising 150 feet above Fourth avenue, into which they threaten to topple at any moment, have driven all traffic from that section of the busy thoroughfare and tied up the subway service between Fourteenth street and Forty-second street. It was feared that the jar of trains in the subway might still further affect the weakened walls.

ASSAULT AND BATTERY

Charge Against Grocer Suspected of Causing a Man's Death

Milford, Mass., Jan. 13.—James C. Curley was arrested yesterday at his home here upon a warrant charging him with assault and battery, thereby causing the death of William H. Galvin. He was later released on $10,000 bonds, which were furnished by James F. Stratton and Thomas J. Curley, a brother.

Galvin was found in an unconscious condition last Thursday night on Water street, near the grocery store conducted by the Curley Bros. He was taken home in a wagon, but his wife, believing him to be sleeping, did not call a doctor until the next day. Dr. Sullivan was then summoned, but found Galvin in a dying condition, and he died Friday evening. An autopsy was held Saturday night by Medical Examiner Clarke, who announced that death was due to a fractured skull. The matter was reported to District Attorney Taft, and by his direction a warrant for Curley's arrest was sworn out.

Thomas Curley states that Galvin came into the store Thursday night under the influence of liquor and that his brother, James, put him out, but the latter claims that he did not use undue force. Several witnesses will be summoned into court who claim to know important facts in connection with the man's death.

Galvin was 50 years old, and was formerly employed in the highway department, but of late had had no steady employment.

Generous Grant to Tufts Students

Medford, Mass., Jan. 13.—The city of Medford has provided the engineering students of Tufts college with an excellent location for a hydraulic laboratory and engineering outpost, the college being granted the use of the land and water at Wright's pond, which has a capacity of 100,000,000 gallons even in dry times. One of the conditions of the grant is that the students shall hold themselves ready at any time to make any sort of water tests the city may desire and the grant is reversible in case the city should need the water supply.

Short Fall Caused Death

Melrose, Mass., Jan. 13.—After many weeks spent in climbing to the top of the highest trees along the Fells-Lynn boulevard in the work of exterminating the gypsy moth, John Sparks, aged 50, fell fifteen feet from a low tree and was killed. Sparks lost his balance while reaching for a gypsy moth nest and tumbled to the ground.

For District Members Only

Boston, Jan. 13.—The officers of the Democratic state committee have sent out a call to the forty district members-elect of the state committee to attend an adjourned meeting to be held on Wednesday next. The call states that only district members will be present at the meeting, members-at-large being excluded.

Shipping Handicapped by Fog

Boston, Jan. 13.—A driving rainstorm, with a southeasterly gale which blew at forty miles an hour off the coast, turning into a dense fog which was the thickest of the season in Boston harbor, tied up the shipping in Boston harbor yesterday. Even the ferryboats found difficulty in keeping their schedules.

Death Viewed With Suspicion

Athol, Mass., Jan. 13.—Fully dressed in his street clothes and lying across the bed, George Dempsey, 36 years old, was found dead in his room at the Lake house. Officials are making an investigation of the case. Dempsey was employed in a local pocketbook factory and was a man of temperate habits.

Working Hours Reduced

Lawrence, Mass., Jan. 13.—The Everett mills, which have been working full time during the recent business depression, went on short time today, the operatives working only forty-five hours a week. The mills employ 1040 hands and manufacture ginghams, cheviots and denims.

Many Deaths In One Spot

Boston, Jan. 13.—Robert H. Keppel, 12 years old, was struck by a train at Savin Hill station and died without recovering consciousness. Keppel's death is the sixth that has resulted by boys being struck by trains at the Savin Hill station in the past eight months.

Backing Striking Newsboys

Boston, Jan. 13.—The Boston Central Labor union, at a special meeting called for the purpose, yesterday unanimously endorsed the strike of the Boston Newsboys' union against a local paper which early last week raised the wholesale price of its issue to the newsboys.

Fines For Expectorators

Boston, Jan. 13.—The police of Boston have been called to unusual activity in enforcing the law regarding spitting on sidewalks, with the result that seventy-one men have been arrested during the past three days and fines have been paid amounting to $290.

Sheriff's Sale.

Commonwealth of Massachusetts.

NORFOLK, SS. Quincy, December 11, 1907.

PURSUANT to a warrant for Sale issued from the Superior Court within and for the County of Norfolk, dated the second day of December A. D. 1907 and to me directed, I have this day seized the real estate hereinafter described belonging to Benjamin Johnson of Quincy, said County, and will sell at public auction on SATURDAY the 25th day of January A. D. 1908 at 9 o'clock A. M., at my residence No. 163 Franklin Street in Quincy said County, the following described premises, to wit: certain parcels of land situated on Chester, Wayland and Berlin streets in Quincy in our said County of Norfolk, being lots marked "B" and "C" on a plan by H. T. Whitman, surveyor, recorded with Norfolk Deeds, book 880, page 554.

Lot B is bounded: Northerly on Chester street; Easterly on lot C and land now or formerly of Nelson; Southerly by lot C; Westerly by lands of H. M. Faxon and Taylor heirs.

Commonwealth of Massachusetts.

NORFOLK 88. PROBATE COURT.

To the heirs-at-law, next-of-kin and all other persons interested in the estate of

ABBY CHAPMAN,

late of Quincy in said County, deceased:

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, by Amy R. Emery of said Quincy, who prays that letters testamentary may be issued to her, the executrix therein named, without giving a surety on her official bond.

You are hereby cited to appear at a Probate Court to be held at Brookline, in said County of Norfolk, on the twenty-second day of January, A. D. 1908, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court, and by mailing postpaid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, JAMES H. FLINT, Esquire, Judge of said Court, this sixth day of January, in the year one thousand nine hundred and eight.

JOHN D. COBB, Register.
3t-7-13-20

Commonwealth of Massachusetts.

NORFOLK SS. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

MARY WODICK,

sometimes known as Mary Wadick or Mary Waddick,

late of Quincy, in said County, deceased, intestate:

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Mary E. Kapples of Quincy, without giving a surety on her bond.

You are hereby cited to appear at a Probate Court to be held at Brookline, in said County of Norfolk, on the twenty-second day of January, A. D. 1908, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, James H. Flint, Esquire, Judge of said Court, this fourth day of January, A. D. 1908.

JOHN D. COBB, Register.

WAS NOT JUSTIFIED

Unnecessary Call For Federal Troops at Goldfeld

REPORT OF INVESTIGATORS

Mineowners Laid Plan to Put Reduced Wage Program Into Effect Under Protection of Government --President to Withdraw Troops

Washington, Jan. 13.—President Roosevelt has determined to withdraw the federal troops from Goldfield, Nev., shortly after the legislature begins its special session tomorrow. This intention was made known at the White House when the report of the special investigating commission was made public, together with a letter from the president to Governor Sparks, dated Jan. 4. The president says he shall be governed by the recommendations in the report unless the governor can show that the statements of the report are not in accordance with the facts. The report says:

"The conditions did not support the general allegations in the governor's request for troops, nor were his specific statements established to any such extent as to justify his use of these statements for the purpose of getting federal troops."

In his letter to Governor Sparks, after reviewing the steps so far taken in the Goldfield mining trouble, the president says in part:

"I have just received the report of these three gentlemen (Murray, Smith and Neill) which sets forth in the most emphatic language their belief, after a careful investigation on the ground, that there was no warrant whatever for calling on the president for troops and that the troops should not be kept indefinitely in Goldfield.

"The report further states that there was no insurrection against the power of the state at the time the troops were called for; that nobody supposed there was such an insurrection and that none of the conditions described in sections 5297-8 of the Revised Statutes as warranting interference by the federal government existed, and that the effort was, and is, plainly an effort by the state of Nevada to secure the performance by the United States of the ordinary police duties which should be performed by Nevada herself."

Reviewing the conditions leading up to the present strike and since the strike began, Nov. 27 last, the report draws this conclusion:

"The action of the mine operators warrants the belief that they had determined upon a reduction in wages and the refusal of employment to members of the Western Federation of Miners, but that they feared to take this course of action unless they had the protection of federal troops, and that they accordingly laid a plan to secure such troops and then put their program into effect. When the troops arrived, the mine operators issued a statement in which they indicated a reduction in miners' wages from $5 to $4 a day, also their intention not to employ miners who belonged to the union."

The report adds: "While this cut in wages and refusal to employ members of the Western Federation of Miners was not announced until after the arrival of the troops, every indication confirms the belief that such action was in contemplation before the arrival of the troops, was part of the general plan of the mine operators to establish their independence of the union and that the coming of the troops was expected and urged by them to make such plan feasible."

Conditions at Goldfield, the report asserts, do not justify calling for the troops. The great bulk of the testimony of the operators tended to show, according to the report, not the existence of past or present disorder, but the possibility of further disturbance should the troops be withdrawn. This view was held by the many men of almost all classes, but was based on the changed conditions since the troops had arrived, namely, the declaration of the operators reducing wages and refusing to employ union men.

As to the refusal of the operators to employ union men, the report sets forth a statute of the state prohibiting such discrimination. The commission expresses itself as satisfied that out of the entire membership in the Miners' union there are not over a few hundred men of dangerous type, while the great majority, probably three-fourths of the membership of the union, were conceded to be men of law-abiding tendencies.

Railroad Decreases Working Force

Boston, Jan. 13.—A considerable reduction in the working force of the freight department of the Boston and Albany railroad was made yesterday, which, combined with the reductions of the past week, makes a total decrease in the working force of over 700 men. The weather and decrease in freight business are given as the causes of the reduction.

Mount Royal Leaves Queenstown

Queenstown, Jan. 13.—The Canadian Pacific liner Mount Royal, which put into port in a disabled condition on Jan. 7, left for Liverpool yesterday in tow of steamer Manitoba. Steamer Montrose, to which the Mount Royal's passengers had been transferred, sailed for St. John on Saturday.

EPIDEMIC OF SUICIDE

Bay State Residents Make Way With Themselves In Various Ways

Boston, Jan. 13.—An unusual number of cases of suicide were reported in Massachusetts last night, following a day marked by stormy and depressing weather conditions. In Lynn Charles E. Payson, a shoemaker, 48 years old, died from gas inhalation at his home. He had turned on the gas and placed a rubber tube connecting with the jet in his mouth. Despondency is given as the cause.

William F. Hayden of Whitman, 80 years old, was found in a bathtub with his throat cut. He had been a sufferer from melancholia. Hayden was an authority on recent Masonic works and was past master of a Masonic lodge in Brookfield, where he formerly lived.

Joseph H. Cruikshanks of Holyoke, aged 48, committed suicide by shooting in a fit of despondency over ill-health. His body was found in Bigelow street in that city with a bullet hole in the forehead.

Richard F. Lewis killed himself with a revolver bullet at Fall River. He was janitor of a school building. His wife surprised him in the basement of their home, standing with a revolver in one hand and a mirror in the other to assist his aim. Before she could prevent him he fired the fatal shot.

Mrs. Emma B. Parker, a widow, aged 24, employed as a domestic, shot and killed herself in a street at Westboro, following an interview with a young man to whom she was engaged to be married.

The finding of the body of Nestor Moki in the yard of a house at Fitchburg is being investigated. Moki was 19 years old. A scalp wound was discovered at the back of his head, but it could not be determined whether this was caused by a fall or a blow from a club.

Great Socialist Demonstration

Berlin, Jan. 13.—The determination of the Socialists to secure direct universal suffrage gave rise yesterday to a monster popular demonstration, accompanied by disorders in the streets of the Prussian capital, in which 40,000 organized Socialists participated, while 30,000 sympathizers actively joined in the manifestations. Collisions between processions of manifestants and the police resulted in the injury of a considerable number of demonstrators, but so far as is known no fatality occurred. The movement extends throughout Prussia, where the Socialists are exceptionally numerous. Reports received from other cities, however, do not indicate that the demonstrations there were accompanied by violence.

Heavy Snowfall In West

Chicago, Jan. 13.—Chicago and its environs were cut off for several hours yesterday from wire communications from other points by a snow and wind storm, which began before dawn and raged without a break all day. Snow continues to fall.

Milwaukee, Jan. 13.—A fierce blizzard swooped down on Milwaukee early yesterday and continues without abatement. Telegraph and telephone wires are down in all directions. There was a fall of 16 inches of snow up to 7 o'clock last night.

Russian Law Disregarded

St. Petersburg, Jan. 13.—Although more than a month has elapsed since the arrest of Nicholas Tschaikovsky, representative of the Russian revolutionists, on Nov. 23, no report of his imprisonment has yet been made to the ministry of justice, as required by law. It is merely said that Tschaikovsky is held by virtue of a special order issued by Premier Stolypin. The ministry of interior is conducting an investigation concerning Tschaikovsky's activity in Russia since the October manifesto.

Death Sentence For Thieves

St. Petersburg, Jan. 13.—A court martial has sentenced five persons to death and two to the mines for the robbery of the estate belonging to a monastery. The robbers secured only a lot of rubbish worth a couple of hundred roubles. Six death sentences for theft at Kieff have been confirmed and at Warsaw two thieves were hanged yesterday. At Odessa, Vilna and Moscow two death sentences each were confirmed, and at Riga and Echernagoff one each, all for theft.

Canada Loses Noted Citizen

St. John, Jan. 13.—John V. McInerny, K. C., a leading St. John barrister and widely known as one of the most eloquent public speakers in eastern Canada, died yesterday of Bright's disease. He was 50 years old and a graduate of Harvard and Boston university law schools. He was twice a member of the Canadian parliament.

Boycott Is Petering Out

Shanghai, Jan. 13.—The movement to boycott British goods, which arose over the Chinkiang railway loan dispute, points to a collapse, owing to the measures taken by the Chinese government. Two arrests have been made of prominent Chinese implicated in the movement, and others are pending.

NEWS IN BRIEF

William T. Holland, druggist, of Brookline, Mass., has filed a voluntary petition in bankruptcy, stating his liabilities as $21,254. No assets are given.

Mrs. George Landry, aged 48, was burned to death at Westbrook, Me. While lighting a fire in the kitchen stove her clothing caught fire.

The wife of the American consul general at Rome, Hector de Castro, who was Miss Grace Aldrich of New York, died from an operation following the birth of her child. The child died soon after it was born.

LURED TO HIS DEATH

Unsuspicious Victim Beaten to Death In a Field

BODY IS BADLY MUTILATED

Police Think That Woman Was Ringleader In Crime Prompted by Jealousy or Revenge--Three Men and a Woman Arrested on Suspicion

Peabody, Mass., Jan. 13.—Following the discovery of the mutilated body of Ludwyck Kubals, a Russian Pole, the police took into custody three brothers, John, Joseph and Karl Gerry, all Poles, and Laura Lemandoovski, who is described as a German Pole. Although none of the four who were detained could speak English with any degree of fluency, the police said the information they had been able to gain through an interpreter justified them in holding the quartet on suspicion.

The body of Kubals was discovered in an open field at the rear of the Blaney farm by two small boys who were on the way across the field to a skating pond. The medical examiner found that the man had been killed by blows on the head, and that afterward his body had been mutilated atrociously. There were many gashes about the abdomen. The body was frozen.

Kubals was last seen alive on Thursday evening. The theory of the police is that jealousy or a desire for revenge prompted the crime. It is believed that on account of Kubals' relations with a woman he was lured to the lonely field on Thursday night and struck down. There were no signs of a struggle about the spot where the body lay. Nearby was a heavy hemlock club, 21 inches in length and two inches in diameter, one end of which was covered with blood and bits of hair.

It is supposed that Kubals, going unsuspectingly with a woman into the field, was suddenly struck from behind with this weapon and killed, or at least rendered unconscious, without having an opportunity to offer any resistance.

That the murderous hatred of his assailants was not satisfied with the blow which killed him was disclosed by the autopsy. This showed three compound fractures of the skull, any one of which might have caused death, while there were evidences also that many other blows were showered on his head and body. The trunk was disfigured with knife gashes. One of the fractures of the skull was at the bridge of the nose, another was over the right eye and a third at the back of the head.

The man has been robbed of his gold watch and his money. The police, however, do not regard the robbery as furnishing the motive for the crime, and they are working upon the theory that a woman was connected with the case.

After many of the Polish residents had been interviewed through interpreters the police took the Gerry brothers and Laura Lemandoovski into custody on suspicion. They all lived at 26 Mason street, where Karl Gerry and his wife, who is Laura's sister, run a boarding house. Kubals lived at 12 Sherman street, Danvers. He was employed at the Danvers bleachery. From some of the people who live at the Sherman street house the police learned that John Gerry called there last Thursday night to see Kubals.

State Officers Neal and Wells, assisted by the local officers, examined about a hundred Poles in this town yesterday. In the search the officers found a man who said he saw Kubals and a girl walking up the lane in the field where the body was discovered on Thursday night. A little later, the witness says, he saw five men follow the couple.

The officers also learned that on Thursday night, at about 9:30, Kubals returned to his boarding house for his watch and money, which amounted to about $136. Of this sum $36 belonged to a fellow boarder who had given it to Kubals to take care of. As Kubals went out he said to his friend: "If I don't come back in the morning you can find me in the police station in the morning."

John, Joseph and Karl Gerry and Laura Lemandoovski have engaged counsel. The police are not entirely satisfied as to the cause of the murder. They do not believe that robbery alone could cause the atrocious mutilation of the victim's body. There is a strong suspicion, it is said, that Kubals was lured to the field where he met his death by a woman and that he was then set upon by a party of men and killed.

Brighter Financial Situation

New York, Jan. 13.—The rapid clearing up of the banking situation and the release of large supplies of credits to the money markets were the important features of last week's events in the financial world. The statement on Saturday showing a $6,000,000 surplus has spread throughout the money markets of the world and has sent supplies back into the loan market with something like a rush.

Japanese Politicians Uneasy

Tokio, Jan. 13.—Incoming cablegrams, indicating an overwhelming sentiment in America in favor of an exclusion bill, are causing much uneasiness among leaders of all shades of politics. Uneasiness has been intensified by the delay of a reply from Washington to the Japanese note of Dec. 31.

The Observations In the Daily Walk

Mild weather.

Annual parish meeting tonight of St. Chrysostoms church.

The meeting of Bethany Brotherhood will be omitted tonight.

The annual ministrel show of the Iroquois club will be held at Music hall Friday evening.

Time for the introduction of new business in the Legislature expires Saturday at 5 P. M.

Abbie E. Hayden, well known at Quincy Point, passed away this morning in her 58th year.

The annual meeting of the Bethany church corporation will be held Wednesday evening, to be preceded by a supper.

Richard M. Sanborn, of Sanborn & Damon, was at his store today for the first time since his serious illness of pneumonia.

Friends of Mrs. James Newcomb of Hancock street regret to learn that she has been confined to the bed for several days.

Only two individuals pay a larger tax in Boston than Lotta M. Crabtree who has a summer home at Squantum. Her assessed valuation is $955,000, and her bill $15,184.

Henry B. Brown of Putman street attended the January meeting on Saturday of the Tufts College club, being the oldest graduate present. He was in the class of 1859.

Some one suggests a road through the Nancy Brackett estate on Hancock street over the railroad to Upland road with connections to the Quincy depot.

The Quincy Y. M. C. A. basket ball teams lost both their games on Saturday evening to Reading Y. M. C. A. teams. The first team was defeated 38 to 24, and the second team 30 to 18.

Officers Milford, Goodhue, Riley, Curtin, Olsen and Holloran have been selected as bearers at the funeral of Officer Kelliher. The first three were selected by Officer Kelliher before he passed away.

This morning it was reported that the polishing shop of the Quincy Column Turning Co., on Water street had been entered. Inspector McKay who investigated could not find that anything had been taken. It was probably the work of boys.

The members of the Quincy Police Relief Association and their friends are looking forward to the second annual ball of the Association, to be held at Music hall, Friday evening, Jan. 24. It promises to be as great a success as that of last year. Wilson's orchestra will furnish the music.

A committee has been chosen to take charge of the repair work which is soon to be done on Memorial church building, that it may be used until a new one can be built. The committee are Rev. Henry A. Coolidge, Mr. and Mrs. Harry Read, Mrs. Elwell and Mr. Charles Hadlock.

The annual banquet of the Cape Cod Commercial Travellers' Association was held at the Quincy House, Boston, Saturday, President George F. Sawyer of Quincy, presiding. There were several speakers and also vaudeville artists, and chorus singing. E. F. Carter is the new president.

Noon Temperature.

Something new in the noon temperature summary is inaugurated by the Daily Ledger. Side by side with the noon temperature of today is given the highest noon temperature on Jan. 13 for ten years, also the lowest noon temperature. Another column gives the noon temperature last Monday. The complete summary is for one week and one can look ahead and see what may be expected.

—Everyone come and listen to the popular sheet music concert at Laroix's, cor. Hancock and School streets.

Braintree Boy Is Drowned

Master Harold M. Brown, son of Mr. and Mrs. Seth F. Brown of 170 Arnold street, Braintree, was accidentally drowned in the Monatiquot river, Saturday afternoon at 4.30, while skating. He left home about two o'clock to exchange a library book at South Braintree and accompanied by Wallace Williams, a neighbor, went down River street to the Monatiquot river.

The west side of the river overflows the meadow and affords good skating nearly every winter. Last Saturday the ice was firm and glassy, attracting quite a number of skaters.

Harold and Wallace skated to Union street, walked to the library and back to the ice, where they spent a few minutes with the crowd. Then as it was getting late they started down the meadow for home.

Coming to a place where the river channel was frozen over, in the rear of the Penniman school, where several boys had crossed during the day, Harold determined to take a short cut home. He had nearly passed over the channel when the treacherous ice gave way and let him in. His frantic cries for help brought several to the rescue but not in time to save him. He fought hard to get out, breaking a large place in the ice, and would have been saved if his strength had not failed him.

The river at that place is about eight feet deep, and the current quite swift. The sad news spread rapidly and soon a large number of men were to the rescue.

About eight o'clock James R. Qualey secured the body and it was removed to his home.

Harold was born in Braintree in December, 1895, and his loss is mourned by parents one sister, Mildred and neighbors generally. He was in the seventh grade at the Penniman school, being exceedingly popular with his playmates and teachers.

The funeral will be held Tuesday afternoon at two o'clock from the home on Arnold street.

Mr. Brown is well known in Quincy having sold kerosene and gasoline in the city and neighboring towns for a number of years.

Prompt Arrest.

The store of John Evans on Copeland street was entered by boys early Sunday evening. They rifled the money drawer and secured some change. They also carried away several pairs of skates. The break was discovered early, and Inspector McKay, after an investigation, arrested three boys for the break. He also recovered three pairs of the skates stolen.

DIED.

HAYDEN—In Quincy, Jan. 13, Abbie E. Hayden, of 541 South street, aged 57 years, 1 month and 19 days.
MANLEY—In Wollaston, Jan 12, Mr. Henry Manley of 16 Winthrop avenue, aged 82 years, 8 months and 24 days.
SMITH—In Quincy Point, Jan. 12, Miss Julia A. Smith, of 86 Howard street, aged 66 years.
ROBBINS—In Wollaston, Jan. 12, Mr. John Robbins of 30 Beach street, aged 91 years.
ROWELL—In Atlantic, Jan. 13, Mr. Benjamin P. Rowell of 32 Walnut street, aged 40 years, 10 months and 26 days.
KELLIHER—In Boston, Jan. 12, Mr. Patrick J. Kelliher of 176 Willard street, Quincy, aged 39 years, 9 months and 4 days.
FARRELL—In Randolph, Jan. 12, Mr. Thomas Farrell, aged 59 years.
BROWN—In Braintree, Jan 11, Harold M., son of Mr. and Mrs. Seth F. Brown of Arnold street.

The Election of Council Officers

An adjourned meeting of the City Council will be held tonight, and it is possible that Mayor Shea may relieve the tension and announce his official family.

There is a manager of the Woodward Fund and property to be elected, who shall not be a member of the City Council, and two trustees of the City Hospital, who are members of the Council. Ex-Councilman Sawyer is a candidate for the former office but no one has been mentioned for the latter positions.

It is also probable that the committees to whom the other orders introduced were referred may report.

It is reported that Councilman Gilson is to raise the point that the Clerk of Council, City Auditor, City Messenger and Clerk of Committees were not legally elected at the organization of the City Council last week. He claimed that when the President announced the result of the ballot for these officers he did not declare them elected.

Street Railway Fatality at Braintree

One woman was killed and another injured in a street railway accident at Braintree near the Randolph line Sunday night. The two women were Mrs. Ellen Leahy and Mrs. Annie Fitzgerald, both of 14 Everett street, Dorchester. They were walking near the rails when the car came around the corner. The same thought that the other was too near the rails evidently entered the minds of the two women and each jumped forward to rescue the other. They came together in the middle of the track and the car bore down upon them. Mrs. Leahy was killed and Mrs. Fitzgerald was seriously injured.

The motorman saw the women leap in front of his car and although he reversed the power and applied the brakes he could not prevent the accident.

Medical aid was summoned from Braintree and Randolph.

To Organize Debating Club

Wednesday evening the intermediate department of the Y. M. C. A. organized a social and debating club. This club will consist mostly of High school fellows. It will continue for three months only. Short, lively up-to-date debates will be the feature. Various social events will end each evening's program. Commencing this week it will meet on alternate Wednesday evenings at 8 o'clock.

Organization this week with Mr. W. H. H. Pierce in the chair. Followed by some interesting experiences and suggestions from a member of the Harvard College debating society. Short impromptu debate:

Resolved— That debate is a stronger factor in perfecting one's English than the writing of composition. Refreshments and a social time.

All Four Teams Are a Tie

Each of the teams in the Red Men's bowling league have now won three games and lost three games, and it promises to be a very pretty contest.

There is also great rivalry for the best individual average as will be seen by the standing below: Shay, 81; Leech, 86; Langill, 86; Hobart, 85; Herrick, 84; Waterhouse, 84; Bugbee, 82; Whall, 80; Cox, 80; Manimon, 78; O'Connell, 78; Thomas, 78; Wardwell, 77; McLeod, 77; and LaVelle, 75.

Expensive Ride.

A well-known resident of Houghs Neck was brought into court this morning for creating a disturbance on a street car. It is alleged that he boarded a car at Houghs Neck on New Year's day and began to use abusive language. The efforts of the conductor to stop him were fruitless. There was a young lady on the car at the time. Some of the passengers remonstrated with him but all to no effect. In court he entered a plea of nolo was accepted and he was fined $15 and costs amounting to $22.55.

Drowning at Randolph.

Charles O'Keefe of Randolph broke through the ice on "Peat Meadow" Saturday and was drowned. The little fellow was sliding on the ice at the time. He clung to the ice for ten minutes while efforts were made to save him, but he became exhausted by the cold and sank.

The Wollaston Car Service

Editor of the Quincy Daily Ledger:

I have read with interest Mr. Walter F. Nichols' letter relative to street car conditions which appeared in last evening's Ledger.

If Mr. Nichols is a regular patron of the Dudley street line and makes ten or twelve trips each week over this line he has sufficient reason for desiring that the same be not discontinued. If, however, as I assume to be the case, he is an irregular patron of this line, his letter appears to be an effort to bolster up a condition for which I understand he was in a measure responsible, and, as one who is using the Old Colony cars regularly, in another direction, I wish to invite attention to certain conditions which were not improved when the Dudley street cars were placed in opration.

There are a considerable number of people who settled in Wollaston prior to the introduction of the Dudley street cars who are employed in connection with the shipbuilding works at Quincy Point to whom the car line from Neponset bridge to Weymouth Landing appealed as a convenient means of transportation between the two points in question. These people were thoroughly satisfied with the service existing at that time except as regarded the quality of the cars and the unnecessary delays en route. Many of the latter have been eliminated although no particular improvement in cars has been noticed.

When the Dudley street line was started, these people lost their convenient car arrangement and were obliged to use one which involved a wait of from ten to fifteen minutes at Quincy Square when going toward Weymouth Landing, and of twenty-five minutes at the same place when going in the other direction. Beside this inconvenience, the irregularity of the cars from Dudley street through Wollaston made the use of the New Haven trains from Wollaston to Quincy a frequent occurrence.

It is within the writer's knowledge that several families have left Wollaston and removed to the vicinity of the shipbuilding works, solely because of the unsatisfactory car service, and others have located in places nearer the works than Wollaston for the same reason.

It has been frequently observed by the writer, that the Quincy cars when at Dudley street have been crowded with passengers to such an extent that other people desiring to go through to Quincy, particularly old and inactive people, have been unable to get on board, thus having to wait a half hour or more at Dudley street, while if the passengers who did succeed in getting on board, one-half to three quarters have not ridden beyond Neponset bridge and many other passengers who had gone to Neponset bridge on other cars would take the Quincy car for the remainder of their journey.

Thus, it appears that the Dudley street service is unsatisfactory for the above named conditions. It is no greater hardship to wait for a car at Neponset bridge, and there is no wait at this point on inbound cars, than it is at Quincy Square where the waiting room facilities are admittedly inadequate, or at Dudley street where the cars are crowded with active patrons to the exclusion or inconvenience of those less able to move quickly, and, taken as a whole, it is believed that the sum of the individual waits at Quincy Square, going and coming, will exceed those at Neponset bridge. The writer hopes that the Dudley street lines will be discontinued and also that some of the worn out short cars which the railway company now operates may be discontinued with it ,and that the service which existed prior to the introduction of the through cars be resumed with decent cars to ride in.

FRED L. EASTMAN.
Wollaston, Jan. 11, 1908.

World Almanac.

The World Almanac and Encyclopedia for 1908, the 25th anniversary number of that well-known reference book, has just been issued. This year it is much larger, more complete and comprehensive than ever before, comprising 1,000 pages and giving about 15,000 facts and figures which may be depended upon as being absolutely accurate and right up to the last minute of 1907. It is a veritable library of universal knowledge between two covers. The World Almanac is in use in the public schools of Greater New York, has been adopted by most all the Normal schools and hundreds of public, high and grammar schools throughout the country. It is certainly a book that should be in every library and in every home.

Only Daily in Norfolk County.

Quincy Warships At Rio Janeiro

The battleships Vermont, Rhode Island and New Jersey, built at Quincy, arrived at Rio Janeiro with the American fleet on Sunday afternoon. A royal welcome awaited the fleet which has now covered about 4,600 miles of its trip to the Pacific.

A Boston paper prints a dispatch from Pernambuco which reports that Edward Gray, a sailor on the torpedo boat Lawrence, while climbing a ladder on the side of the vessel, fell into the sea and was drowned.

Edward L. P. Rowe, the chief engineer of the ill-fated schooner Thomas W. Lawson, arrived in New York on Sunday on the steamship St. Paul. Capt. G. W. Dow, the only other survivor, is reported by Rowe in a serious condition at a farmhouse near the scene of the wreck at Scilly Islands.

A bill was introduced into Congress Saturday appropriating $100,000 for a lightship with a fog signal to be placed off Point Judith, R. I.

Some of the shell plates have arrived in the yard for the seven new submarine boats.

Captain Frank E. Mackle of the S department has joined the ranks of the benedicts.

The president of the Board of Inspection and Survey reports from Newport News, Va., to the Navy Department that the trial of the armored cruiser North Carolina has been completed and she has failed to make her contract speed. On her four-hour speed trial she made an approximate speed of 21.918 knots and developed a horse-power of 26.038. Her contract speed was 22 knots, but her time of 21.918 is uncorrected and when allowance is made for the strength of the tide, etc., it may be slightly changed. On the twenty-four-hour endurance test she made an approximate speed of 20.802. The North Carolina was built by the Newport News Shipbuilding & Dry Dock Company. She is of 14,500 tons displacement and is a sister ship to the Montana, which is building at the same yards.

At the Pensacola, Fla., navy yard there has been another lay off, the second within the past two weeks. Fifty skilled workmen lost their positions a few days ago in the reduction of the working force. Nearly one hundred men who drew large salaries have been discharged.

A successful demonstration of the ability of the new Bliss-Leavitt turbine torpedoes, adopted by the navy to perform in water registering only two or three degrees above the freezing point, was given in Narragansett Bay recently by Commander Gleaves and the other officers at the Newport Station. Two torpedoes were fired from the torpedo boat Norris while she was running at nineteen knots. The first shot was at 3,500 yards, and the missile went an average of twenty-six knots without showing any effect from the cold water. The second shot at 2000 yards made thirty-five knots, and was as successful as the first.

LISTEN TO THIS.

Begining Wednesday for 10 days only the W. G. Shaw furniture store, City Square, will open a gigantic sacrifice sale covering the entire stock of furniture, carpets, rugs and household goods. They want to impress upon the public the fact that this sale will be the greatest bonifide bargain sale of furniture and household goods ever placed before the people anywhere or at any time.

This great price slashing and value sacrificing sale is not a miracle. Extraordinary happenings now-a-days are assigned to natural causes. The natural cause of this forced sale is due to the stringency of the times. A very backward season left them heavily overstocked, and short on cash, which compels a sacrifice of goods in order to raise cash to meet obligations.

The goods must be sold now and they have placed the most exceedingly low prices on them in order to induce you to assist by buying now as much of the stock as you can use. This positively will be the greatest public benefit sale ever inaugurated. Don't fail to attend. You cannot afford to miss it. Remember; sale opens this Wednesday at 9. A. M. sharp. Be on hand.—W. G. Shaw. Furniture Store, City Square, opposite Fountain, Quincy.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Tampered With Switch Signals

The crews of the Weymouth Landing line of street cars have been bothered considerable of late by some person interfering with the block signals. The trouble was located with the block on Quincy avenue near Scammell's shop.

A car arriving there would find itself blocked by a light, and the cars coming from the opposite direction were also blocked. Each time this happened there was a delay of from five or ten minutes causing connections to be missed.

The railway company sent starter Egan and a conductor to watch the box and find out who was responsible for the trouble. Their watch was rewarded, for they soon saw a man approach the signal box and throw both handles. The man was Edward Kittredge. A warrant was sworn out against him and he was brought into court. When asked why he had thrown the signals he said some boys told him to and he thought that he was helping the conductors.

The court imposed a fine of $25 and suspended sentence until April 4.

Invitation Whist At Wollaston

Ten pairs contested for the top score at the Wollaston whist club on Saturday evening at their invitation tournament, and a good time was voted by all. There will be another one this week Saturday at Odd Fellows hall, and light refreshments will be served. All gentlemen players are invited to be present. the score of Saturday evening was:

C. E. Barker and R. F. Foster	plus 84-5
G. R. Thompson and E. E. Hoxie	plus 43-5
J. A. Hamilton and G. H. Stevens	plus 34-5
A. B. Hillman and R. T. Anthony	plus 24-5
J. H. Broughton and F. F. Prescott	plus 14-5
J. T. Fuller and H. C. Seymour	plus 3-5
T. H. Foster and H. H. Schulze	minus 2-5
V. S. Brokaw and H. A. Stevens	minus 33-5
H. C. Stevens and A. R. McKay	minus 43-5
J. Y. Hamilton and H. S. McKay	minus 34-5

Leap Year Party.

The private leap year party given at Poland's hall on Friday evening of last week by Miss Grace E. Young and Miss Mary J. Farrell, assisted by Mrs. Fred G. Osgood, Mrs. E. R. Throp, Miss Myra I. Kent and Miss Edith M. Farrell, was a grand success, far beyond the hopes of the committee they having had such a short period to prepare for it. There were over 100 present.

Welch's orchestra furnished fine music.

Floral decorations were numerous and were furnished by MacMulkin of Hancock street. Other decorations were the handy work of the Misses Young and Farrell.

At intermission D. J. Seward McCurdy, the well known tenor of Quincy, accompanied by Miss Holleran, rendered several solos, and it is unnecessary to state that they were more than well received.

Before and during intermission punch was served in conjunction with a light buffet lunch by the ladies in charge. The guests were from Quincy, Milton, Somerville, and Dorchester.

Quincy Post Office.

Letters remain unclaimed for the week ending Monday, Jan. 13:

Baxter, Mrs. James Cusick, Miss Mary Deby Mrs Violett Harris, Miss Dorothy Holmes, Miss Meeri Jammessan, Miss May Kelley, Miss Florence McDonald, Miss Flora McKenzie, Mary E. O'Brien, Mrs. Ida Olson, Mrs. Mary A. Purdy, Miss Katherine Randall, Miss Priscilla Robinson, Mrs. Eliza J. Sands, Miss Annie M. Smith, Mrs. F. G. Trylone.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell until you try on a pair that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

CITY COUNCIL

Getting Down To Business Several Reports And New Orders

An adjourned meeting of the City Council was held Monday evening. Every member was present and there was a large attendance of citizens, many of whom went away disappointed because the appointments were not forwarded by Mayor Shea.

COMMUNICATIONS.

A communication was received from the Mayor inclosing bill from the City of Brockton, for relief rendered Louisa R. C. French, amounting to $48. To Committee on Finance.

A communication was received from the Mayor with inclosure from the Commissioner of Public Works asking for an appropriation for house connections with the public sewer. To Committee on Sewers and Drains.

A communication was received from the Citizens' Association extending an invitation to the Mayor and City Council to attend the lecture by Prof. Eliot. Placed on file.

NEW SCHOOLHOUSES.

A communication was received from the School Committee asking for a four-room school building at Houghs Neck and for increased accommodations in the Lincoln districts. To Committee on Public Buildings.

NEW CONSTABLES.

A communication was received from the Mayor appointing the following constables who were confirmed: Charles A. Erickson, Harry E. Putnam, Stephen Hannon, John T. Hunt, Christopher J. H. Totman, Richard A. Collins, Jeremiah J. Connelly, Alexander Shirley, George A. McKay, Harry W. Pray, Francis Abele, Jr., Oscar E. Djerf, Alfred J. LaCroix, Andrew Stewart and Charles G. Batson.

A communication was received from the Mayor appointing the following as constables at the Fore River Shipyard who were confirmed: Henry McLaughlin, A. A. Hayden, A. Osborn, T. J. McCormick, Garrett Burns, James Pease, Samuel Roberts, A. Olson, Edward Drysdale, John Gilmore, George L. Bragan, Frank Olson, P. H. Bradley, Charles H. Tower and Herbert Merrill.

A communication was received from the Mayor appointing the following special constables, who were confirmed: Stephen Riley to act only on the estate of Brooks Adams, Esq., and Thomas A. Mullaney, to act only on the premises McDonnell & Sons.

A communication was received appointing Samuel Cashman a weigher of coal. Approved.

LICENSES WANTED.

Several applications for minor licenses were received including the following permits to transport liquor: Boston & Houghs Neck Steamboat Co., S. F. Barker, Fergerson & Di Panfolio. Referred to Committee on Licenses.

Petitions were received from the New England Telephone Co. for attachments on Adams, Taylor, School and Phipps streets. Referred to Committee on Streets.

TEMPORARY LOANS.

The Finance Committee reported a substitute order for the order authorizing the City Treasurer to borrow $400,000 in anticipation of taxes. The substitute made the amount $500,000. Rules suspended and order passed, Councilman Curtis voting no.

Councilman Whiton inquired why the amount was increased $100,000, and Chairman Bryant of the Finance Committee said it was to permit the City Treasurer to make a short time loan this month when interest was high and renew it in a few months, both loans being considered new loans.

ORDERS ADVANCED.

The Committee on Ordinances reported on the following orders:

Ought to pass, on order for clerk to have calendars printed. Rules suspended and order passed.

Ought to pass on the order for the clerk to have the rules of the City Council printed. To Finance Committee.

Ought to pass on the order authorizing the Mayor to have the annual reports printed. To Finance Committee.

An amendment to the order authorizing the Mayor to have the inaugural address printed. The amendment provided that the expense should be charged to the miscellaneous city account, and as so amended the order ought to pass. To Finance Committee.

NEW CODDINGTON.

The Committee on Public Buildings reported an order appropriating $10,000 additional for the Coddington school building. Read and referred to the Finance Committee.

CITY STABLES.

Councilman Broughton offered an order requesting the Commissioner of Public Works to furnish the City Council at the next meeting with a schedule showing the average number of horses kept at the City Stables during the year 1907 with the cost of maintenance. Adopted.

STREET ORDER.

Councilman Moir offered an order for $500 for repairs of Webster street. Referred to Committee on Streets.

MORE LIGHT.

Councilman Walsh offered an order for an arc light on the corner of Elm street and High School avenue. Referred to Committee on Streets.

Councilman Moir offered an order for an incandescent light on the corner of Hancock street and Hayward street. To Executive department.

HOSPITAL TRUSTEES.

An election of two trustees of the City Hospital was then held by ballot.

Councilmen McGilvray and Gilson received 12 votes each; Councilman Ferguson 7; Councilmen Broughton, Falconer and Bryant 2 each, and Councilmen Beal, Whiton, Walk Teasdale, Gelotte, Moir and Mr. Sawyer one each.

Councilman McGilvray and Gilson were declared elected.

Adjourned at 8.15 until Jan. 20.

ANOTHER SENSATIONAL SALE.

Henry L. Kincaide & Co. have inaugurated one of the most sensational furniture and home furnishing sales ever held in this city. Mr. Kincaide never does things by halves, and when he says that this is to be the biggest sale ever inaugurated there is reason to believe something exceptional is doing. One need but read the cut prices on furniture offered by this progressive house to be convinced that now is the time to buy house furnishings.

Quincy Woman in Temperance Work

Mrs. Evelena Adams Dalton, formerly Evelina Adams of Quincy, is doing fearless temperance work in Maine, her home being now in Portland. The Evening Express of Jan. 6 reports the Temperance Sunday meeting as follows:

Mrs. Evelena Adams Dalton, who has recently come to Portland to make her home, made her first appearance in temperance work with Francis Murphy 14 years ago. She addressed a good audience at Williams Hall yesterday afternoon. Her subject was Can Drunkards Be Saved? She proved that drunkards may be saved, by quoting John III, 16, but her real text was the statement of John Bright, "As sure as rivers run to the sea, so sure will moderate drinking lead to drunkenness." She said:

"Thousands have proven this text true to their everlasting remorse, and sorrow, in regard to their earthly affairs, and when too late, to the loss of a personal Saviour, who died for them. How my heart aches, how our sympathies should be aroused for those girls and women who know Him not, and who have not found the Christ cure for an ungovernable appetite, which together with loss of home and friends and pitiful poverty which drives them on the street, under the very drippings of your saneturies, and within a stone's throw of your homes, where your daughters are so lovingly protected.

"No homes of holy happiness enfold these girls and women; they are on the street. Yes, just now they wander on the street if not roomless they are homeless and looking for drink, drink to drawn their memories of sweet home and fond mother, drink to give them nerve to "go the pace." And finding, it, do you ask? Yes, nearly always, and without money, but not without price—the price of a soul. How is it found, do you ask? I will tell you. Nearly every man who drinks himself, when the opportunity presents itself, will not only give it, but urge weak woman to take it. Old men, young men, club men, college men, sons of Christian parents; from United States senators down to coal heavers, drink knows no cast.

"Think you if many or any of the young girls who have left their country homes seeking honest work in a big city, brought with them a knowledge of the taste of wine, beer or liquor? All of their mothers may not have known the meaning of chaperone, but they knew the meaning of purity. These young girls left their country home as modest as the violets that grow in their fathers' meadows, as sweet as a "honeysuckle which winds its wavy bower o'er the thatch," under which fathers and mothers sit in the twilight after their day's toil and talk of their brave girls who have gone to a strange city for their portion of labor. Perhaps to pay off the mortgage for the dear old farm.

Men and women, have any of you known such sisters, such daughters, or perhaps such mothers? Do you realize that some daughters and sisters are hourly being offered drink in all the cities where the saloon is licensed An effort is now being made to bring these saloons with their license to bring ruin to the homes, into Maine, which for so long has outlawed them. Tell me, ye fathers, husbands and brothers, would you dare to vote for license in your own fair City of Portland? Tell me, you men who love your wine cup, would you dare to mock God, and vote for license? No man is God's child who votes for license."

AN AWFUL STAMPEDE

Nearly a Hundred Lives Lost In Theatre Disaster

THREE SCORE BADLY HURT

Panic Started by Explosion of Tank In Moving Picture Show--Lamps Used to Light Building Also Exploded, Throwing Blazing Oil Over People and Destroying Playhouse

Boyertown, Pa., Jan. 14.—A catastrophe last night, horrifying in its details and sickening in its results, swept nearly one hundred souls of this borough into enternity in almost the twinkling of an eye and injured nearly three score, many of them fatally.

While the Scottish Reformator was being produced in Rhoades' Opera house by Mrs. Munroe of Washington, a tank used in a moving picture scene exploded. Immediately there was a wild rush for the exits of the building. Men endeavored to still the panic, but their voices could not be heard above the shrieks and screams of the terrified women and children who composed the greater part of the audience.

The blood-curdling cries for help of those who were penned within the walls of the blazing structure could be heard above the roaring, seething flames. It seemed as though nearly the entire audience made a mad rush for the exits the moment the explosion occurred.

In their attempt to quiet the great crowd, those persons who were on the stage accidentally upset the coal-oil lamps used at the footlights. The burning oil scattered in all directions and the lamps which were used to light the opera house exploded, throwing the blazing oil over the terror-stricken people who were fighting frantically to gain the exits. In the mad rush a section of the floor gave way, precipitating scores of persons to the basement.

As the floor collapsed the shrieks of the helpless persons who were carried down were heard for blocks. It was scarcely five minutes from the time of the explosion of the tank until the entire heart of the structure seemed a roaring furnace. There was a mad scramble for the stairs leading from the balcony and scores of women and children were knocked down and trampled upon.

To add to the terrible disaster, the fire apparatus became disabled, and the structure was left entirely to the mercy of the seething flames. It is almost certain not a vestige of the bodies of the unfortunates who were overcome by smoke and perished ever will be found. Assistance was asked from Pottstown, but before the fire apparatus from that city reached this place the entire centre of the structure was a roaring furnace.

Had the women and children heeded the warning of the cooler heads in the audience the horrible loss of life might have been avoided, but there was the usual panic and stampede which invariably follow at such a catastrophe. The flames spread rapidly and communicated to the other parts of the theatre. Men, women and children rushed for the many exits, and the weaker sex and the children were trampled and maimed in the mad rush to gain the street.

Assistance was at once asked of both Reading and Pottstown and special trains carrying nurses and doctors were rushed to the scene of the disaster. Every home within a radius of half a dozen blocks of the opera house was made a temporary hospital.

Boyertown is a borough with a population of about 2500 and is located about midway between Pottstown and Reading.

The night was one of anguish. The shrieks of mothers who rushed to the scene as soon as they learned of the fire was pitiful. As the night wore on the crowds surrounding the building grew to such proportions that it was almost impossible for the police force, which had been augmented by a score of men from Pottstown and Reading, to keep the people back. One woman who said she had lost her entire family in the theatre was with difficulty restrained from throwing herself into the roaring flames.

A few minutes after midnight the rear wall collapsed. The flames broke out anew and those who had vainly hoped to be able to find the remains of some of their loved ones turned in despair from the scene of the catastrophe.

The fire was under control shortly before 1 o'clock this morning, but it will be absolutely impossible to attempt to search the ruins before this afternoon. It is extremely doubtful if the remains of the victims can be distinguished from the debris, for many persons in the audience were covered with burning oil as the lamps exploded.

Treaty Relating to Citizenship

Washington, Jan. 14.—The senate, in executive session, ratified a treaty between the United States and South American and Central American countries, whereby citizens of one country becoming naturalized in another country lose their citizenship in that country after returning to their native country and remaining for a period of two years. The treaty is designed to prevent the necessity of one country extending its protection over the citizens of another who were once naturalized there, but who have returned home.

DANVILLE.

DR. TRUE, DEAR SIR:—One of my boys had been troubled for about six years with cramp in the stomach, and suspecting that it might be brought on by worms, we gave him different medicines, but without effect. Last January he had a more severe attack than usual, and hearing of the almost miraculous effects of your Elixir, we gave him about a teaspoonful, and in about eight hours it brought from him a living creature about eighteen inches in length. He has had no return of them since, and is now very hearty. G. W. VICKERY.

Thousands of people have worms and don't know it, yet the symptoms are easily recognized. Even though worms might not be present this extraordinary remedy will effect wonderful changes in the run-down system. It is a great stomach and liver tonic and regulator.

Worms in adults and children can be readily detected from the following symptoms: Indigestion; a variable appetite; offensive breath and foul tongue; eyes heavy and dull; itching of the nose; short, dry cough; grinding of the teeth; starting during sleep; slow fever and often, in children, convulsions and bed-wetting; looseness; hard, swelled bowels. No matter how pronounced or how light the symptoms,

DR. TRUE'S ELIXIR

will restore the patient to normal health again.

TURNER, ME.

DR. J. F. TRUE, DEAR SIR:—Having used your Elixir in my family for many years, after having satisfied myself of its superior merits, I recommended it to my neighbors, who now very generally use it. I consider it the very best medicine now in use, especially for children.

Very truly yours, JOB PRINCE.

NEW GLOUCESTER, MASS.

DR. TRUE, DEAR SIR:—The Elixir I purchased of you cured my boy, who had been troubled with worms ever since he was a child. He had tried many other medicines, and I had employed physicians until I found it of no use. I despaired of his being restored to health till I heard of your Elixir, which, I am happy to say, effected a speedy cure.

Very truly yours, W. G. COOMBS.

Dr. True's Elixir is sold by druggists everywhere at 35c, 50c and $1.00 per bottle. A booklet entitled "*Children and Their Diseases*" will be sent free by simply addressing **Dr. J. F. True & Co., Auburn, Me.** We have a special treatment for tape-worm. Send for free book.

FAMED BRITISH PAPER

Career of London Times, Known as "the Thunderer."

ITS CRITICISMS MUCH FEARED

For a Century It Affected Great Britain's Policies—Its Enterprise Astonished the World—Example of Its Success In Procuring a News Beat.

The passing of the London Times, as much a family as a national institution, from the control of Arthur F. Walter to that of Cyril Arthur Pearson, representing what Englishmen seriously believe to be the "American type" of newspaper publication, marks an era in journalism, says the New York Times.

During a large part of its 125 years of publication the Times has consistently stood for British conservatism and, backing by dogmatic utterances its serious view of everything, including itself, fairly earned its title of "the Thunderer."

With the first rumor of its sale it was generally believed that the purchaser was Lord Northcliffe, for it had been understood that for a long time he had been anxious for the ownership of the Times. Report has it that he offered $5,000,000 for the property in 1897 and that his offer was scornfully refused by the Walter family.

The Times was founded in 1785 by John Walter, a bookseller and publisher at Charing Cross, but it was first known as the Daily Universal Register. The title in 1788 became the Times and Daily Universal Register, and in a short time the double title became the Times. When John Walter, the founder, died in 1812, the Times was firmly established as the leading newspaper of the day. The next owner was John A. Walter. He improved the paper greatly and introduced steam printing presses in 1814.

For years and years the Times continued to grow in importance and increase in prosperity. Its enterprise astonished the world. Its influence was potent wherever it chose to exercise it, its criticisms tremendously feared.

An instance of its power was given during the Crimean war, when Dr. William Howard Russell, who had been sent to the front, so sharply criticised the mismanagement of the British campaign and was so stoutly backed up by his paper that a great sensation was caused throughout the country. In those days, when the paper was under the editorship of Colonel Delane, it was said that the Times could make peace or war at will.

An example of the Times' success in procuring news ahead of all its competitors was exhibited in its publication of the Berlin treaty in 1877. Henri Georges Stephen de Blowitz was the Paris correspondent of the Times and was sent to Berlin specially to report the Berlin congress, in which Bismarck, Disraeli, Lord Salisbury and M. Thiers took part. On his arrival at the Berlin capital M. Blowitz put up at the Hotel Kaiserhof, on the Unter den Linden, and struck up a friendship with the secretary of M. Thiers.

He made arrangements with him that the secretary should drop a note into his hat every day on leaving the congress, stating what had been done. This was cleverly managed by Blowitz taking the secretary's hat, who in return took Blowitz's. By this means and the help of a diplomat, whose name he would never divulge, the astute correspondent obtained the text of the whole sixty-four articles and then only wanted the preamble to make his copy of the treaty correct.

He went to M. Thiers and said that he had all the treaty except the preamble and asked the minister to favor him with a copy of it. M. Thiers refused to do this, but said that he would recite it for him, which he did in a slow, distinct voice, and Blowitz rushed home with it in his head and wrote the preamble without mistake. As he could not send the treaty by telegram from Germany, De Blowitz hired a special train to go to Brussels, where he filed his long dispatch to London. It was published in the Times on the morning that the treaty was signed in Berlin.

There was no interruption to the Times' successful career until the time of the Parnell letters. It was after the defeat of Gladstone's home rule bill in 1886 that the Times published a series of articles under the heading of "Parnellism and Crime," which contained letters in facsimile purporting to have been written by Charles Parnell and seemingly proving his complicity in the crimes.

On the night of their publication they were denounced by Parnell as forgeries in the house of commons and eventually proved to have been the work of Richard Pigott, an Irish journalist, who fled to Spain, where he committed suicide. In the action brought against John Walter, proprietor of the Times, Mr. Parnell was vindicated and obtained $25,000 damages.

In the last few years the Times has had to compete with two cent and one cent papers of excellent character. To retrieve its fortunes it took up with outside ventures, in a sort of partnership with a keen American, Mr. Hooper by name. One of its enterprises had to do with the sale of the Encyclopaedia Britannica. It recently resorted to a book club scheme devised by Mr. Hooper. At first it seemed that it might add largely to its subscription list through this operation, but before long it became involved in a bitter war between the book club and the London publishers, who felt that the sale of books at low prices by the book club injured their business.

HARMON IN THE FIELD

Work Begun In Ohio to Secure Judge's Presidential Nomination

Cincinnati, Jan. 14.—That former United States Attorney General Judson Harmon will be a candidate for the Democratic nomination for President of the United States was confirmed in a statement made by John W. Hill of this city. Hill said:

"All I will say at this time is that we are working in the interests of Judge Harmon for president and have organized a committee of seventeen, of which I am chairman, to see what we can do. Our first work will be to secure the Democratic delegation from this (Hamilton) county, and then we will try and secure the endorsement of the entire party in the state.

"After that we will seek to unite Judge Harmon's friends in Pennsylvania and New York, in which states he has a legion of friends. The necessity just now is for organization, and we will push this work energetically."

Resolutions For Taft

Sandusky, O., Jan. 14.—After the visit here of Representative Mouser of the Thirteenth congressional district, the Erie county Republican central committee members who remained away from the meeting a week ago with several who supported the resolution rescinding the endorsement of Mr. Taft, met and reinstalled Carl B. Clark, deposed, as chairman. New resolutions, embodying an out and out declaration for Taft for president, were adopted.

A Democratic Taft Boomer

Columbus, O., Jan. 14.—"The Republicans of Alabama have but one candidate for president, and that is William H. Taft," said Henry B. Gray, Democratic lieutenant governor of Alabama, who passed through Columbus. He said further: "The south is for Bryan for the Democratic nominee and I believe he will be the choice of the convention. If he is, the Republicans have but one man who can beat him and that is Taft."

Buckeye Congressmen With Taft

Washington, Jan. 14.—Twelve of the sixteen Republican members of the Ohio delegation in the house were present at a dinner in honor of Secretary Taft here last night. Speeches were made by the twelve members present and by the chief guest, Secretary Taft, all of the speakers declaring themselves in favor of Taft for president.

To Push Hughes' Candidacy

Albany, Jan. 14.—Former Senator Brackett of Saratoga has accepted the presidency of the New York state branch of the Hughes National League, now perfecting an organization to promote the movement for the nomination of Charles E. Hughes as candidate for President of the United States.

Cause of Strife In Morocco

Tangier, Jan. 14.—A full account of recent events at Fez reveals a new element in the situation, it being stated that the revolt was the result of the machinations of the powerful sheikh, El-Kittani, who long had been secretly stirring up the inhabitants against Abd-el-Aziz with the object of having himself chosen sultan. The action of the people, however, in proclaiming Mulai Hafid, has forced him to forego his ambition, at least for the present.

Seeks $250,000 Heart Balm

Philadelphia, Jan. 14.—Richard Goebel, a young Austrian, who eloped with Marion, daughter of D. W. Dougherty, in Europe last March, has instituted suit against Dougherty and his wife in this city, asking $250,000 for the alienation of the affections of Mrs. Goebel. Goebel avers that on June 6, in Dresden, he was deprived of the right to see his wife and has since been unable to communicate with her.

Czar Makes Change In Cabinet

St. Petersburg, Jan. 14.—The New Year's ukase of the emperor dismisses from office M. Von Kauffman, the minister of education, and appoints as his successor M. Schwartz, inspector of the Warsaw school district. The change foreshadows a return to a more rigorous regime in the universities and the revocation of autonomy, won from General Trepoff in 1905.

Claimed to Be an Actress

New York, Jan. 14.—A woman who had given her name as Mrs. Madge York and said that she was an actress, was accidentally asphyxiated by gas in a boarding house here. Letters and personal effects found indicated that the woman's name was not York, but Mrs. Thomas Cunningham, and that she was the wife of a Pittsburg iron merchant.

Record Auction of Tobacco

Lexington, Ky., Jan. 14.—Six hundred thousand pounds of White Burley tobacco were sold on the floor of the loose leaf warehouses here yesterday. This breaks all records. Wagons have been coming in from all over the tobacco district since Saturday night. The warehouses here are strongly guarded against surprise by "night riders."

Angry Tailor's Double Crime

New York, Jan. 14.—Angered because his wife was leaving him as an outcome of a family quarrel, Max Baum, a tailor, shot and seriously wounded Mrs. Baum and then committed suicide by shooting in the head at his home here. Mrs. Baum will probably live.

The Weather Forecast

Almanac, Wednesday, Jan. 15.
Sun rises—7:12; sets—4:36.
Moon sets—4:46 a. m.
High water—9:15 a. m.; 9:45 p. m.
Fair and seasonably cold weather is indicated for New England.

WASTED PRECAUTIONS.

A Spell of Worry and Anxiety That Went For Naught.

Ferguson was wending his uncertain way homeward, sorely troubled in his mind over the curtain lecture he knew was in store for him and casting about for some means of evading it. Suddenly a bright idea was evolved from his befuddled brain. He would slip into the house and get quietly into bed without awakening his wife.

Accordingly he stole gently upstairs, carefully undressed outside the door and crept into bed, with his face toward the outside.

He mentally congratulated himself upon his success thus far and went to sleep.

When he awoke in the morning he dared not look at his wife, and after lying still for a few minutes and not hearing any noise from her he concluded she was still asleep.

He then determined to arise very quietly, carry his clothes outside the door, dress there and go downtown to business without waiting for breakfast. He was successful in this, and, meeting the servant girl downstairs, he said:

"Eliza, you can tell your mistress I expect to be very busy today and therefore I didn't stay to have breakfast with her this morning."

"Laws, sir!" said Eliza. "Missis went away yesterday morning to her mother's and said she wouldn't be back till this evening."—London Telegraph.

ENGLISH JUSTICE.

Hard on Petty Thieves and Light on Wife Beaters.

It is only about a century since the death penalty was inflicted in England for theft not exceeding the value of a sheep. Now some of the London journals are making a merciless exposure of magistrates throughout the kingdom who keep up the tradition by sentencing petty thieves to jail while inflicting only trifling fines upon wife beaters and even more brutal offenders.

In one police court one defendant was fined 10s. 6d. for knocking his wife down in the street because she refused to give him money for drink, and another was sentenced to sixty days' imprisonment for damaging growing potatoes and stealing two footballs.

For cruelty to a horse, beating his wife, who was ill, with fist and hammer and leaving her with nothing to eat one man was fined 10 shillings, while another, charged with stealing a pair of socks valued at sixpence, got fourteen days' hard labor. It would not be difficult to make up a list of similar cases from American police courts, yet the tendency in America is rather toward a higher estimate of the value of human life.—Van Norden Magazine.

Australian Curiosities.

There are some curious things in central Australia. Lake Amadeus in the dry season is merely a sheet of salt. Ayers rock, about five miles round, rises abruptly from the desert. Formerly vast rivers flowed here, and the diprotodon, a wombat-like creature worthy of its name and four times as large as a kangaroo, flourished on the plains. Now there are hardly any animals to be seen. The fish live in water holes of the hills until the floods wash them down to the valleys. At the end of the wet season the water frogs fill themselves with water, roll themselves in the mud and lie low till the next rains, which may not come for two years. Meanwhile the provident frog, like the "mousie" of Robert Burns, may have the misfortune to furnish a drink to a thirsty black. The natives also get water from the roots of trees. They are in the "totem" stage and revere certain plants or animals which protect them. Men of one group can only marry women from another single group.

The Need of Common Sense.

I had a really scientific man to see me the other day, and in the course of our investigation of a point we had in common it was necessary to wash out a bottle. The bottle was empty. It was a round, wabbly vessel, and he had to hold it under the water a long time so that it might get full enough of water to hold it down. I asked him why he did not fill it with water first, and he laughed and said he did not think of it. And that bears out my contention that it is not because a man is as "clever as paint" that he therefore grasps "the common sense of common things."—G. H. R. Dabbs in Fry's Magazine.

Why Currants Are Nutritious.

The reason why currants are so remarkably nutritious is that they consist to a very large degree of saccharin in its most easily digestible form—that of grape sugar. The piquant flavor of the currant, which adds so much to its pleasantness as a food, is derived from the valuable percentage of tartaric acid which the berry contains. Potash is also present in the form of cream of tartar and is undoubtedly of dietetic value.—Ladies' Pictorial.

No Excitement.

"Here," said the dramatist, "we have a husband who loves his wife and a wife who loves her husband."

"Well?"

"How am I to construct a drama from such material?"—Louisville Courier-Journal.

His Inference.

"Evidently a Turkish bath is a scheme to keep one perpetually dirty."

"I judge from what you say that you've never taken one."

"No, but I've seen a Turk."—Exchange.

Eatables Of the Best!

Foy's is a store for lovers of the best in good food—a store where your daily wants may be well and wisely supplied.

It may be a really good cut of Steak that you want, or some fine Ham, Sausage, Sausage Meat, or other tempting food supplies.

You may need some choice Fruit or Vegetables, Canned Goods or Baker's Supplies—but whatever you need, your wants will be cheaply supplied here.

With best Quality Coffee, at 30c. lb., and finest Ivory White Flour, at **95c.** bag, and other good things at comparatively low prices, you can't do better than trade here.

Troubles of Married Life

Since a little incident in the honeymoon of ex-Senator Sprague has got into print, the Daily Ledger will be pardoned if it reprints the following from Practical Politics:

"Once upon a time Quincy had a senator on Beacon Hill whose shirts front and its illuminations far outshone the dome. The other day he ventured on the sea of matrimony for the second time. His name is Sprague. In the excitement attending the matrimonial function he left his house without taking the key with him. He returned to his home and when he rearched the front door he searched pocket after pocket without finding the keys. The doors would not respond to anything save the axe, and the ex-senator was not ready to go as far as that. After negotiating with all the doors that he thought would let go, Sprague succeeded in getting in through a window and welcoming "his newly wed" at the door. While the senator was busy, one of the neighbors started the cry of "burglars," and it spread all around the town, so that several of the neighbors who had telephone all tried to connect with the police de partment at the same time. Finally a squad of the bravest, with revolvers, clubs and patrol wagon came along, and inquired into the big noise. After ringing the bells of the Sprague mansion the statesman came to the door and demanded to know what all the tumult was about. When told that the police were looking for burglars, the statesman turned pale and indignant, and said that no burglary has been committed, unless it was that he had won a woman's heart."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it falls to cure. Send for circulars and testimonials.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

Newsy Budget From Shipyard

The new steel steamer Melrose, intended as a collier to bring cargoes of coal from Southern ports to Boston and vicinity, left the yard Sunday morning for Newport News to coal, afterwards proceeding to Sabine Pass, Texas, to load sulphur for New York. She is in command of Captain Arthur McGray, well known in Boston since the time he had charge of the Yarmouth steamers. Her charter to the Union Sulphur Company of New York covers a year, and after that it is likely that she will be placed in the coal trade with her sister ships, the Everett and Malden, now in service.

Captain McGray was lately serving as chief officers on the Everett, and Captain Abbott, who commanded the British collier Mystic, in the Dominion Coal Company's service, was originally slated to command the Melrose.

The Melrose finished her trial runs last week, the result being most satisfactory to her builders and owners alike. The result of the speed trial of the Melrose was watched with more than ordinary interest by the employes in the steam engineering department at the works, inasmuch as her engines were to be tested out under the direction of Engineer Charles Lincoln in the absence of Engineer Paige. When the Melrose returned to the yard with brooms flying to designate that she had made a clean sweep of the good records made by the Everett and the Malden, Engineer Lincoln received many congratulations for his achievement.

Preliminary to the campaign for an enlarged and improved navy which he purposes to wage in the House, Representative Richmond Pearson Hobson has offered a resolution providing for the appointment by the President of a commission "Whose duty it shall be to investigate and report to the President and to Congress upon the best means of preserving the generel welfare by the use and extension of arbitration and by the maintenance of armed forces."

The commission is to consist of seven members, one from the army, one from the navy, one from the Senate, one from the House, one recognized authority on international law and two at discretion, the salary of each, exclusive of the members of Congress, to be $7500 a year. The resolution appropriates $25,000 to defray the commission's traveling and other expenses.

Relative to the resolution Captain Hobson dictated the following statement: "The recent interparliamentary and Hague conferences declared in favor of serious national investigation of the question of armaments. The best way, in my opinion, is to appoint a nonpartisan commission, composed of representatives from the various departments of life most directly affected, and charged with the duty of investigating thoroughtly and scientifically this complicated subject. The developments of the second Hague conference and the ever-increasing complications of our foreign relations make the scientific investigation of these question imperative at this time."

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Police Officers As Escort

The funeral of Officer Patrick J. Kelliher was held this morning from St. Mary's church and was very largely attended.

The remains were escorted from his late residence on Willard street to the church by the permanent, reserve and special police. Chief Burrell and Lieut. McKay headed the police, and the men were in charge of Sergeant Barry.

Following these were St. Francis court of Foresters, with whom Mayor Shea marched, and Division 22, A. O. H.

The bearers were Officers Milford, Goodhue and Riley selected by Officer Kelliher before he died, and Officer Olson, Holleran and Curtin.

At the church a solemn high mass was celebrated, with Rev. A. F. Roche as celebrant, Rev. John P. Cuff as deacon, and Rev. William Duffy as sub-deacon.

During the mass the Gregorian mass was song by the choir, with Miss Emma E. Ecker as organist. At the offertory Martin Kelley of Roxbury sang "Pie Jesu," and after the mass Miss Alice C. Foley sang "Angles Ever Bright and Fair."

The burial was at St. Mary's cemetery.

There was a profusion of beautiful flowers, which included a large shield representing gates ajar, from the Police department.

A pillow from Division 22, A. O. H.

A cross and pillow from St. Francis court of Foresters.

A wreath from the Milton Laundry employes.

A pillow from his wife.

A standing cross from his brother and sister.

A floral heart from Arthur Croti.

A pillow marked "from Will."

Death of Atlantic Lady.

Mrs. Eliab Ramsdell of Oak street passed away this morning after many years of suffering with asthma. Mrs. Ramsdell was 71 years old and has been a resident of Atlantic a good part of her life. She was loved and reverenced by all who knew her and a most devoted mother. As a member of the Memorial Congregational church she was an ardent worker and her death is a public loss. She passed away very quietly as she had often expressed a wish to go. Sympathy is expressed for her family. Mr. and Mrs. Ramsdell lived to celebrate their golden wedding anniversary.

Quincy Man Organizer.

Charles W. Hanscom of this city was on Sunday elected special organizer of the New England district of the Electrical Workers' Unions, which met in council at Wells Memorial building Boston.

Mr. Hanscom was also elected one of the committee to confer with the Stage Employes locals in regard to the local operation of its agreement.

At the request of the Quincy and other locals a communication was telegraphed to the International league at Washington, which is in session. This urged that a special effort be made in behalf of the electrical workers at the Navy yard at Boston.

The headquarters of Mr. Hanscom will be at Quincy. His first visit will be to Portsmouth, and then at the Boston Navy yard and Quincy.

In 1830 the world contained but 210 miles of railway; now there are over 350,000 miles of line.

Local 96, Knights of Columbus, are actively engaged in preparation for a "Mock Trial" to be held Feb. 27 in Music hall, Quincy, under the stage direction of Mr. Daniel E. Bowen, late leading comedian of the Boston Operatic Society.

The Bethany Church Brotherhood are making elaborate preparation for the supper to be given on Wednesday evening at 6.30, in connection with the annual church meeting. They are preparing an excellent supper at a nominal price of 25 cents, and all worshippers, as well as members of Bethany church are cordially invited to this supper. For the convenience of those who wish to attend tickets may be secured in advance at Miss Hubbard's store.

Y. M. C. A. Bowling Tournament Opened

Bowling at Y. M. C. A. has increased steadily for several weeks. The best scores last week were made by the following men. Monday, Albert Prescott, 118; Tuesday, B. Smith, 116; Thursday, Albert Prescott. 95; Friday, A. Kemp, 110.

Monday night the bowling tournament started with six teams entered. There will be three games each week for ten weeks. Prizes are given for the winning team, the highest score and the best average. The six captains chosen for the teams are as follows: No. 1, Capt. H. Andrews. No. 2, J. Giles. No. 3, J. Gordon. No. 4, O. Sanberg. No. 5, M Nichols. No. 6, P. Frobein.

The opening night was between No. 1, and No. 6, teams and resulted in a victory for Capt. Andrews in three straight. On totals he was 122 ahead.

NO. 1 TEAM.

Andrews,	78	68	94	240
Parker,	64	85	79	228
Newcomb,	87	67	87	241
Thomas,	87	88	89	264

	322	350	350	1022

A Packed House.

Scenic Temple opened its second week last night to a record house. Long before the conclusion of the overture, standing room only could be had. The performance started with Harry Monroe, Tramp Acrobat, who was not only humorous but did some very clever acrobatic feats. There were four other acts equally good.

The moving pictures are excellent to the last degree, everybody being pleased with them. There will be a change in the pictures and illustrated songs on Thursday.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

Sick Hair
If your doctor approves, then use Ayer's Hair Vigor. He knows the best treatment for your hair. Trust him.
If sick hair only ached as sick teeth do, there would be very few bald people in the world. Why be kind to your teeth and mean to your hair? Ayer's Hair Vigor keeps well hair well. Cures sick hair. Feeds weak hair. A hair-food, a hair-medicine, a hair-tonic. J. C. Ayer Co., Lowell, Mass.

Children's Furniture, High Chairs, Rockers, Cribs, Cradles, all at less than prices.

Drop Side Couches Complete with mattress and bolsters $3.98, $4.98, $5.75.

The Above are but a scattering few of our slaughter prices. Every piece of furniture in our store will be sold at a cut of from 20 to 60 per cent. Many things at less than the cost of materials used, to say nothing of labor. Cost has not been considered in this sale for we anticipate the greatest year's business we have ever done. The little panic and scare of the past few months is now a thing of the past. This great country was never more prosperous. The greatest crops in history have been recently harvested. Plenty of money is in existence and that which has been reposing under the mattress and in the stocking of the skeered folks is rapidly finding its way back into legitimate channels. The wheels of industry have started everywhere—the few unemployed are getting back to work and a steady gain in business is being made each day. The worst is over and the greatest prosperity the country has ever known is close at hand. The trusts are now sitting up and taking notice. Great railroad corporations are climbing down from their high perch, and the rights of labor are being recognized. What's happened is all for the best and we say advisedly to every house keeper present or future, get busy, anticipate your needs of the future, buy the things you need or may need for the money, saved during this sale is money earned, and such an opportunity as this may never come again.

Special Credit Arrangements for all who wish.

BREEN'S STATEMENT

Priest Refuses to Become a "Colorless Nonentity"

THE OPPOSITION TO HANNA

Appointment of Coadjutor Bishop of Rochester Was Strenuously Opposed by Those Now Furthering His Candidacy For San Francisco

Rochester, Jan. 14.—Dr. Andrew E. Breen of St. Bernard's seminary, whose charges of "modernism" against Rev. Dr. Edward J. Hanna of the same institution have delayed and may prevent the latter's appointment as coadjutor bishop of San Francisco, issued a statement last night in which he not only defended his attitude toward Hanna's candidacy, but sharply criticised those who disapproved of his position.

Dr. Breen's statement was inspired by an interview with Bishop McQuaid, which appeared in yesterday's papers. In the interview the bishop said that it had been definitely decided that the report unfavorable to the orthodoxy of Hanna originated with Breen. Every member of the St. Bernard seminary faculty, the bishop said, had been given opportunity to sign a statement solemnly vowing that he had no part in making the charges. All, he said, had affixed their signatures to the declaration except Breen, "showing conclusively," the bishop concluded, "that Dr. Breen was the one who sent out the report."

Rev. Dr. Breen has been a member of the St. Bernard faculty for several years and, besides ranking high among his colleagues, is one of the best known of the seminary's professors and of the bishop's younger priests.

In last night's statement Breen said: "To understand the state of the question, the public must know that when there was a question of appointing a coadjutor of this diocese a plan was devised and strenuously carried out to prevent the present candidate for San Francisco from being even named on the list. The dignitary who now is the most active in advancing the reverend candidate's cause was very cautious to prevent a possibility of his being named for Rochester.

"The cause of the present change of policy is very evident. The selection of an archbishop from St. Bernard's seminary advances the credit of the seminary, and it seems that this is the sole reason for the reverend candidate's very active support from those who issued today's statement. It would be more in accordance with the spirit of the church to prefer the good of the universal church to the advantage of any particular diocese or institution."

For himself, Breen says that he never wrote to the propaganda or to any cardinal concerning Hanna's orthodoxy. He had been convinced, however, that the candidate expressed loose views on some essential tenets and he (Breen) expressed his convictions to a friend in Rome, writing in the same vein to Archbishop Riordan.

All was in good faith and if Rome should vindicate Hanna, against whom he had no personal feeling whatever, he would be well satisfied. He merely holds that the situation is one to be reviewed and passed upon by the proper authorities. His position might have been learned by the bishop at any time had the latter addressed him upon the subject. He cannot, however, proclaim himself a "colorless nonentity" by signing such a statement as the bishop prepared, even were he in the fullest sympathy with Hanna's candidacy.

A Labor of Love

Trenton, Jan. 14.—Mrs. Grover Cleveland has been appointed by Governor Stokes a member of the board of managers of the State Village of Epileptics at Skillman. Mrs. Cleveland has been greatly interested in the work of the village, which is not far distant from the Cleveland homestead at Princeton. Mrs. Cleveland will be the second woman appointed on the board, whose members serve without remuneration.

Stock Brokers Fail

New York, Jan. 14.—The suspension of the firm of Robert Maclay & Co. of 71 Broadway was announced on the Stock Exchange. The firm consists of Robert Maclay and Alfred B. Maslay, who are sons of the late Robert Maclay, president of the Knickerbocker Trust company before Charles T. Barney was elected to the head of that institution, and Harold H. Weekes. The obligations amount to $1,500,000.

New Railroad For China

Pekin, Jan. 14.—The Tientsin-Chin-Kiang railroad loan agreement was signed yesterday by the German bank, the British-China corporation, and the Chinese foreign board. The amount of the loan is $5,000,000, issue price 93, with interest at 5 percent. The negotiations have been going on for not less than five years.

Searching For Kidnapped Son

Moncton, N. B., Jan. 14.—After having vainly searched two cities for trace of her 4-year-old son, Holder, kidnapped on Dec. 21 last at Mattapan, Mass., Ida M. Oberg has returned to Moncton. Mrs. Oberg says she believes that her husband is in Philadelphia.

TOOK FRENCH LEAVE

Four Boys Walk Out of Maine Reform School Without Detection

Portland, Me., Jan. 14.—Four boys made their escape from the state school for boys in South Portland last night and have not been recaptured. The boys, whose ages are about 17 years, are Joseph Tetrault of Biddeford, Charles Haney of Bangor, and Clarence Conant and Elton Cook of Farmington.

All four were trusted inmates, and while returning from supper walked out of the building without being detected. The police were able to follow the boys' tracks for about three miles, when they lost them. The fugitives wore the institution uniform at the time.

Will Not Permit Boxing

Chelsea, Mass., Jan. 14.—As a result of the determination of Mayor Beck to stop boxing contests in this city, a large squad of police went to the rooms of the Winnisimmet Athletic club last night and arrested eight men charged with violating the anti-prize fight laws. The principal bout was to have been between Matty Baldwin and Kid Goodman. The club officials claim that the laws have not been violated and say they will contest the arrests in the courts.

Fought Against Extradition

Boston, Jan. 14.—After one of the hardest fights against extradition in the court history of the south, Ernest D. Blackwell, aged 45, was brought here last night from Florida by Boston police officers. Blackwell is charged with the larceny of promissory notes from Ernest D. Merrill of this city in 1896. Blackwell claims to be a resident of Jacksonville, Fla. He was engaged for some time in the brokerage business in this city.

Testimony Against Mahan

Bennington, Vt., Jan. 14.—In the trial of Alfred Mahan, for the alleged murder of his 4-year-old niece, the defense rested its case yesterday noon and the prosecution began the introduction of the rebuttal testimony. Witnesses called for the state testified that they considered Mahan a youth of ordinary intelligence, and that they never observed any sign of insanity.

Curley Is Held Blameless

Milford, Mass., Jan. 14.—James E. Curley, proprietor of a grocery store in this town, was discharged by Judge Fales in the district court after a hearing on the charge of assault and battery which caused the death of William H. Galvin. Curley was arrested at the request of the district attorney, but the government was not represented by counsel at the hearing.

Mayor Would Reduce Salary

Boston, Jan. 14.—Mayor Hibbard has sent a communication to the board of aldermen suggesting that the salary of the city collector be reduced from $7500 to $5000. The position is filled by G. A. Scollard, and the salary was raised from $5000 to $7500 two years ago.

To Demand Lower Rents

Boston, Jan. 14.—An enthusiastic campaign for lower rents was started by a mass meeting of 1500 tenants in the West End last night. It was unanimously voted to demand of the landlords a reduction of 15 percent in rents on the next rent day.

Alleged Raising of Check

Boston, Jan. 14.—Louis R. Daniel, aged 28, a resident of the South End, was arrested last night, charged with raising a check on the National Bank of Falmouth from $300 to $2300. The check was signed by F. Papetch.

Cooke Has Temporary Freedom

Chicago, Jan. 14.—John A. Cooke, former clerk of the circuit court, who was sentenced to the penitentiary for embezzlement, was again released on bail last night after having spent a day in the custody of the sheriff, to whom he surrendered yesterday morning. Papers for Cooke's commitment to the penitentiary were being prepared when Judge McEwen of the circuit court ordered that Cooke be admitted to bail pending a decision on a writ of habeas corpus. Bonds of $50,000 were furnished.

Cortelyou to Give Information

Washington, Jan. 14.—The recent issue of bonds by the secretary of the treasury to relieve the financial stringency was the subject of an animated debate in the senate. The discussion was precipitated by an inquiry by Senator Culberson. It resulted in an agreement to postpone further controversy until a statement has been received from Secretary Cortelyou.

Owes $9,000,000 to Depositors

San Francisco, Jan. 14.—A receiver for the insolvent California Safe Deposit and Trust company, which failed last November, owing about $9,000,000, and of which institution two of the officials and one director are in the county jail, charged with embezzlement, will soon be appointed by Judge Coffey of the superior court.

Message on Equador Exposition

Washington, Jan. 14.—In a message to congress, President Roosevelt urged appropriate action looking to the representation by this government at the exposition at Quito, Ecuador, Aug. 10, 1909, in celebration of the 100th anniversary of the independence of Ecuador.

Laborers Caught In Ruins

New York, Jan. 14.—A laborer was killed and three others seriously injured by the collapse of a wall in the ruins of a street car barn which was destroyed by fire last July. Italians were employed in clearing up the ruins when the wall fell.

"At Prayers" and a Seat.

The scramble for seats in the house of commons is regulated by certain rules. A member present at prayers has a right to the place he then occupies until the rising of the house. Each evening stands absolutely independent and by itself, and therefore the title to a seat secured by attendance at prayer lapses at the termination of the sitting. On the table in a little box is a supply of small white cards with the words "At prayers" in large old English letters. Obtaining one of these cards and writing his name on it under the words "At prayers," the member slips it into a receptacle in the bench at the back of the seat and thus secures the place for the night against all comers. He may immediately leave the house and remain away as long as he pleases. The place may be occupied by another member in the meantime, but whenever the master of the seat, the gentleman whose autograph is written on the card in the little brass slit, returns to the chamber the temporary occupant of the seat must give place to him.

He Tamed the Princess.

William the Conqueror when he was only the Duke of Normandy had fallen in love with the Princess Mathilde of Flanders. She was proud and haughty and had refused the noble lovers who were anxious to win her hand. The wily Norman studied her character carefully and when he had mapped out his plan of campaign rode into the town one day when she, at the head of a party, was going from church. He sprang from his horse by her side, boxed her ears soundly, pulled her off her steed, rolled her vigorously in the mud, told her that he loved her and rode away. The astonished princess was infuriated and swore all kinds of vengeance. After her rage cooled down, however, she said to her father that upon reflection she had come to the conclusion that the only man who could treat Mathilde of Flanders in that manner should be her husband. They were married, and the union turned out to be one of the happiest marriages in the history of royalty.

The Prophetic Gift.

That there are persons today who possess the somewhat uncanny gift of being able to predict future events is probably true. The wife of the late Sir Richard Burton, the famous traveler and linguist, not to mention other instances of her weird gift, announced the very first time she saw Burton, at the time a perfect stranger whom she had met quite casually, that he would be her husband. At the present moment, too, there is said to be a man who has manifested such an extraordinary faculty of predicting things that are about to take place that a number of medical men have purchased the reversion of his brain in order that they may examine that organ after death to see if it shows any special development to account for his wonderful gift.—Grand Magazine.

A Cane In Defense.

"If you want to keep off holdup men," said an old detective to the observer, "carry a cane. A holdup man is more afraid of a cane than he is of a revolver. He's deathly afraid that the man carrying it will jab it in his face or eyes or get the end of it in his mouth. On this account they're just as much afraid of a small light stick as they are of a heavy one. There are so many different ways of using a cane that a man doesn't know just which way to guard against it. And any man can use it. Nine men out of ten who carry revolvers couldn't hit the side of a barn with them, and the 'holdups' know it, but it doesn't take any skill or practice to learn to slambang away with a walking stick."—Columbus Dispatch.

The Statue of Liberty.

"I wonder if local mariners appreciate the optical illusion which the statue of Liberty presents to a man arriving in this port for the first time," said the skipper of an East Indian tramp, who a few days before had entered New York harbor upon his first voyage here. "I saw the statue before I got to the Narrows, and it seemed as if it were just about where quarantine is. Later the thing seemed about abeam of the Kill von Kull. It kept getting farther and farther away, until I finally wondered whether I should ever bring it abeam. I suppose its great height accounts for this."—New York Post.

Priest's Orders.

An actor named Priest was playing at one of the principal theaters in London. Some one remarked at the Garrick club that there were a great many men in the pit every evening.

"Probably clerks who have taken Priest's orders," said Mr. Poole, one of the best punsters as well as one of the cleverest comic satirists of the day.—London Telegraph.

Giving Quickly.

"See me next week about it."

"But he who gives quickly gives twice."

"That's just the point. I don't care to be held up later for a second subscription."—Pittsburg Post.

His Opportunity.

He—I'm going to bring Jolt home with me to dinner tonight. She—Oh, mercy, dear, don't! It's the cook's day out, and I'll have to cook dinner. He—Never mind; I owe Jolt one anyway.—Exchange.

Good Features.

Mrs. Bacon—Why, that piano has several keys that make no sound at all! Mr. Bacon—Yes, and there are some other good features about it.—Yonkers Statesman.

He Knew of but One.

Many years ago De Scott Evans, the artist, took a trip to Jamaica, and upon his return to New York he exhibited a number of pictures that he had painted during his outing.

One day a man who had been looking through the studio stopped before a certain picture and asked:

"What does this represent?"

"That," said Mr. Evans, "is a scene in Jamaica."

"Jamaica?" echoed the visitor. "That's strange. I don't remember ever seeing anything like that in Jamaica."

"You have been there, then, have you?" the artist inquired.

"Oh, yes! I live there."

"Well, you surely must be acquainted with this place then. It is a street scene in the principal town of the island."

The man from Jamaica looked at Mr. Evans for a moment as if he thought the latter must be daft. Then he emphatically declared:

"I live in Jamaica, and there isn't a street in the town that bears the remotest resemblance to that picture."

The mention of Jamaica as a town cleared away the mist.

"I see," said Mr. Evans, "you live in Jamaica, N. Y., don't you?"

"Yes," replied the suburbanite. "Is there another Jamaica anywhere?"

They Lacked Team Work.

There was small respect in Captain Maybury's mind for the brains of the artists whom he and his wife harbored and fed during the summer. "They are a well meaning lot of folks as ever lived," he said confidentially to a neighbor, "but when it comes to common sense every last living one of 'em needs a guardeen."

"Act kind o' crazy, I reckon," said the neighbor.

"Well, 'tain't so much that," admitted Captain Maybury, "as 'tis that they lack gumption and sprawl. Two of 'em were talking to me about the 'sunset light' last night. 'We work fast as we can, but we can't ketch it,' they told me. 'It fades so fast, and before you know it the glow is dead.'

"I've got some used to their queer talk, but that did seem plumb foolish. 'If two of you can't ketch it,' I says, 'why in tunket don't the whole eight of you set to work together, same as if you had a fence to paint?' But if you'll believe me, I could tell by their looks they'd never thought of such a thing before. They're simple, that's what they are."—Youth's Companion.

The Old Time Almanac.

"It is astonishing what faith the old school farmer used to put in his almanac," said a farmer of the new school, a graduate of an agricultural college.

"My father was an old school farmer, and in June he would consult his almanac to see if we were going to have a clear Christmas. What though the almanac usually went back on him? Sometimes its predictions were true, and one accurate prophecy counterbalanced in my father's mind fifty miscures.

"Once I crossed the ocean with the old man. We sat at the captain's table, and the first night out my father, laying down his spoon, said anxiously:

"'Captain, hev ye got an almanac on board?'

"'No,' the captain answered.

"The old man frowned and shook his head.

"'Then, by gosh,' he said, 'we'll jest hev to take the weather as she comes.'"—Los Angeles Times.

Dickens and His Beard.

Frith painted Charles Dickens' portrait when the novelist began to grow a beard and told this anecdote of the occasion:

"Well, one day when Dickens was sitting the servant came up to tell me Sir Edwin Landseer was below. Dickens said, 'Let's have him up; he hasn't seen my beard and mustache yet.' Charles Landseer and Edwin had been abroad for some time together in Italy, and they hadn't all met for months. Edwin came up and took no notice of the beard, and at last Dickens said: 'Well, Lanny, what about all this? D'you like it? Think it's an improvement?' 'Oh, a great improvement,' Landseer said quite gravely. 'It hides so much of your face.' Dickens wasn't the least offended. He'd let 'Lanny' say anything."

All Were Prime Ministers.

An eminent surgeon was once sent for by Cardinal Du Bois, prime minister of France, to perform a very serious operation upon him. The cardinal said to him, "You must not expect to treat me in the same rough manner as you treat your poor, miserable wretches at your Hotel Dieu."

"My lord," replied the surgeon, with great dignity, "every one of those miserable wretches, as your eminence is pleased to call them, is a prime minister in my eyes."—Success Magazine.

Down In the Depths.

The mermaid was rummaging the sunken ship.

"I want to see if I can find one of those hand mirrors the comic papers always picture us as using," she said.

For vanity, alas, is not confined to that comparatively insignificant portion of the earth's surface known as dry land.—Chicago Tribune.

The Crowding Sex.

Young and beautiful, the wife of a certain millionaire is alleged to find her only amusement in stealing. Even among millionaires we see the tendency of women to push men out of their jobs.—London Opinion.

There is a strength of quiet endurance as significant of courage as the most daring feats of prowess.—Tuckerman.

THE ACT OF A MADMAN

Thaw's Counsel Says Killing of White Was Not Murder

CLIENT INSANE FROM BIRTH

Tried to Kill Himself When He First Heard Evelyn Nesbit's Story--Many Who Knew Accused Man In Childhood Will Testify In His Behalf

New York, Jan. 14.—The Thaw trial moved with a rush yesterday. After the state had presented its direct case and Assistant District Attorney Garvan had characterized the killing of Stanford White as "a premeditated, deliberate and cowardly murder," Martin W. Littleton, for the defense, made the opening plea for the prisoner. His promise of new evidence was sensational and held the attention of all in the courtroom.

Evidence of hereditary insanity and of strange, unusual acts by Thaw, not even hinted at during the first trial, were told of by Littleton, who said that physicians and nurses who attended the defendant were hurrying here from Europe; that teachers of the defendant in childhood would come to give their impressions of "the wide-eyed, distant boy." In conclusion, Littleton challenged the district attorney to produce a single reputable physician who would say that Thaw was not insane at the time he killed White.

Mr. Littleton's speech fairly bristled with surprises. He startled the courtroom by declaring that after Evelyn Nesbit had told him her story in Paris in 1903 Thaw "drenched himself with a poison" and would have died but for the heroic work of three physicians who labored over him all of one night.

Mr. Jerome had a surprise in store, too, and when Littleton started upon the relations of Stanford White with the girl whom Thaw married he was on his feet with an objection. Justice Dowling sustained him and the name of the architect was not linked again with that of the defendant's wife. Littleton touched but lightly upon the young woman's story, as she told it to Thaw, but careful as he was on this point, he again drew an objection from the prosecuting officer, who said:

"Mr. Littleton now is straying into a field of stuff which, in my opinion, will be excluded. Again Justice Dowling sustained the objection. It was reported at the beginning of the trial that Jerome would fight this year to exclude the testimony of young Mrs. Thaw.

Thaw's ancestry, marked by decided taints of insanity on both the father's and mother's side, according to his chief counsel, was described by him with great care, and the defendant himself was pictured as irrational, erratic and insane as a boy, who, oscillating between "starship and madness, between brilliance and darkness," fought unavailingly against the fever of insanity which coursed in his blood at birth.

"I make no claims for this defendant above those of the average man as to morals, vices or virtues," declared Littleton. "But I say his life history is enough to free him from the charge that he was responsible for his act. Add to his history the heart-breaking episode of his love for the young woman who became his wife and of her recital to him of a story which made all the world that reads stand still and wonder, and I shall have no hesitancy in asking you if you have not a reasonable doubt as to whether he was sane the night of this deplorable tragedy. And upon that doubt I shall ask you for a verdict of not guilty."

Mr. Littleton told of a trip abroad by Thaw in 1899, during which, the lawyer said, he was ill and insane at Rome, Monte Carlo and London, being under the care of physicians and nurses at each place, and he declared that he would produce these physicians and nurses as far as possible as witnesses. Teachers who kept diaries about the strange child who sat in their classes would also come, he said, to tell the jury about the early life and tendencies of the defendant. Describing the death of White, Littleton said:

"Thaw's madness, born and bred in him, had been set on fire by the stories he had heard. He had gone to the district attorney with them and to Mr. Comstock. They ran in his head until, staggering among the chairs of Madison Square Garden—yet not drunk—his eyes burning like two great coals of fire, unable intelligently to answer questions put to him, maniacal in the last degree, lost—lost as he was in Rome, in Monte Carlo and in London—the blind confusion of insanity overcame him and he fired. The result was not a murder, but the act of a madman, who afterwards, wild-eyed and irrational, cried out in his cell that he heard the voices of little children calling and proclaimed that he had but acted as an agent of Providence."

The outline of the defense is generally considered as reflecting a determination on the part of Thaw's attorneys to prove him insane in 1906 regardless of all consequences.

Failure of Italian Banker

New York, Jan. 14.—Emmanuel J. Ferrara, an Italian banker who conducts a private banking house, has filed a voluntary petition in bankruptcy. The petition showed debts of $59,622. Ferrara's bank had nearly 1000 Italian depositors.

RIO WILL "DO THE HONORS"

Evans May Not Participate Because of Rheumatic Attack

Rio Janeiro, Jan. 14.—Swinging lazily at their anchors, the American battleships seem as though they were enjoying a well-earned rest after their run of 3000 miles and more from Trinidad. A right warm welcome awaited the fleet from the very moment the signal flags went up announcing its approach, and from the first landing of the "liberty" men, until anchor is weighed again, Rio has much in store for those who wish to view its beauties and enjoy its bounty.

The fact that Rear Admiral Evans, the commander of the fleet, is ill is cause for the deepest regret. The Brazilian officials deplore this the more because they wished especially to make this visit the occasion for marked attentions to the Americans. Evans is suffering from rheumatism and it is feared he will not be able to be present at the fetes, and without his presence these must lose something of their character.

The Journal of Commerce, which is printing an edition in English, publishes dispatches from New York to the effect that the people of the United States are curiously anxious as to the nature of the reception the fleet will meet at Rio Janeiro, in view of the differences arising between the respective delegates of the two countries at the recent peace conference at The Hague.

"The American people may set their minds at rest," says the paper, "for never was a heartier or more spontaneous welcome extended to any representatives of a nation than that which Brazilians extended to their brothers of the north."

New Keystone State Commission

Harrisburg, Jan. 14.—Governor Stuart has appointed the state railroad commission, created by an act passed by the last legislature, which became operative one week ago. All of the commissioners are Republicans. The commission is composed of three members at a salary of $8000 a year each and is authorized to appoint an attorney at a salary of $4000 a year and a secretary at $4000 and a marshal at $2500. It is also authorized to appoint other experts and employes. The commission has the authority to inquire into all things bearing upon the relation of the companies to the people.

Gotham's Heaviest Taxpayers

New York, Jan. 14.—Mrs. Russell Sage is the largest individual taxpayer in the city, according to the tax books just opened. Mrs. Sage's assessment on personal property and real estate stands at $7,258,000. The Vanderbilt family's personal assessment is $3,810,000. With the real estate assessment of Cornelius and William K. Vanderbilt the family total will be $19,810,000, making them the heaviest contributors to municipal finances.

Great Camp May Be Destroyed

Mexico City, Jan. 14.—According to a telegram received in this city, the great gold mining camp El Oro, one of the largest in the republic, is being destroyed by fire. When the dispatch was filed the principal hotel and the more important business buildings of the camp had been reduced to ashes and the entire town was threatened. Since this dispatch no word has been received from the camp, as communication is interrupted.

Means Lockout of 150,000 Men

Manchester, Jan. 14.—All efforts at intervention to bring about a settlement of the dispute between the cotton millowners and their employes, which threatens to result in the locking out of 150,000 men, has come to naught. The operatives last night voted to break off all further negotiations with the master spinners, and a lockout now appears inevitable.

Stoessel Court-Martial Resumed

St. Petersburg, Jan. 14.—The court martial of Lieutenant General Stoessel was resumed here yesterday and the court began the taking of testimony regarding the actual capitulation of Port Arthur. The general is charged with having surrendered this fortress to the Japanese before its resources were exhausted.

Seaport In China Wiped Out

Lisbon, Jan. 14.—The Secolo prints a report that a tornado has devastated Macao, the seaport and dependency of the Portuguese in China. Macao is on a peninsular of the Island of Macao on the west side of the entrance to the Canton river, about seventy miles from Canton. Its population number about 60,000.

NEWS IN BRIEF

Twenty persons were arrested at Odessa in connection with a plot to blow up the residences of General Kaulbars, former governor general of Odessa, and General Boufal, the present governor general of Odessa, together with the offices of the gendarmerie.

Commissioner of Patents Moore reports that for the calendar year 1907 36,620 patents were issued, the percentage of increase being greater than in any year since 1836.

Phillias Bisson, a woodsman, died at a hospital at Bangor, Me., from injuries caused by a tree falling upon him in the Penobscot logging region. He was 35 years old.

Dennis Murphy, Jr., aged 9, was drowned in a pond in the rear of the home of his parents at Amesbury, Mass.

Two buildings of the C. P. Rathburn leather plant at Canton, Mass., were burned to the ground, causing a loss estimated at about $25,000. The factory was heavily stocked, in preparation for a busy season. The cause of the fire is not known.

FACTS ABOUT NEW THEORY SECURED BY INTERVIEWS

People Tell the Reason for Their Faith in Cooper's Belief.

An article from the Nashville, Tenn., Banner, published during L. T. Cooper's visit to that city, throws some light on the remarkable success of the young man's theories and medicines in various cities visited by him during the past year. The article is as follows:

"In view of the enormous sale of Cooper's preparations now going on in this city and the intense interest which Mr. Cooper has stirred up since his arrival, a representative of the Banner spent Thursday afternoon at the young man's headquarters, watching the swarm of humanity come and go.

"During the afternoon the reporter interviewed many of the callers and obtained statements from all who cared to give them as to their experience with Cooper and his preparations.

"The following are selected from those statements as being typical of the general expression of the people seen:

"Mr. B. B. Lasater, living at 1224 North Fourth avenue, when interviewed, said: 'I have been troubled with my stomach for the past two years, and have had rheumatism for more than five years. Sometimes I could not walk, and there were times when I could not even move in bed. Hard knots would form on my muscles, which caused me intense pain. Gas formed on my stomach after eating, which gave me much pain and distress, and often I was restless and tossed all night, losing much sleep and rest.

"'Hearing of Mr. Cooper and the great work his medicine was accomplishing for others, I decided to try it. I have taken it about two weeks, and find myself in a greatly improved condition. My stomach is in good shape, and does not trouble me at all. My rheumatism has nearly disappeared, and I expect to resume work shortly, for the first time in twelve months. Mr. Cooper certainly has a wonderful medicine, and I am grateful for what it has done for me.'

"Another caller was Mrs. T. J. Smith, of 505 Hudson street. She said: 'I have been a sufferer from bladder and kidney trouble for twenty-five years. In that time I have tried many prescriptions and various kinds of medicine, but received little or no benefit from them. I seldom had a sound night's sleep, my rest being broken at intervals throughout the night. I had pains in my back and burning sensations.

"'I heard so much of Mr. Cooper that I came to the conclusion he might be able to afford me some relief. I have now been taking the medicine about a week, and feel better in every way. The pain has disappeared, and I have no distress whatever. I have come here today to express my appreciation to Mr. Cooper for his wonderful medicine and what it has done in my case. I will take pleasure in recommending it to others.'

"In spite of assertions by various physicians that Cooper is a fad who will soon die out, the young man seems to be gaining even greater headway as his visit draws to a close."

The agency for Cooper's celebrated medicines has been given to us. We are making a fine record with them. —E. J. Murphy.

"To the newspaper shop, sir, to put in an AD.
No matter what's wanted, I've found out, my man,
A WANT AD. will bring it if anything can!"

CATGUT STRINGS.

The Way They Are Made From the Intestines of Sheep.

Catgut strings, it is well known, are made of the intestines of sheep. The intestines of the full grown animal are from forty to fifty feet long.

The raw material from the stockyards is first thoroughly cleansed of fat and fleshy fiber by dull knives arranged on a drum turned by a crank. The white tough membrane that is left is then handed over to the splitter, who dexterously splits the material into even strands by bringing it against the blade of a safety razor set upright in the table before him. The strands are then spun together and placed on the drying frames.

An American E violin string requires six strands, the European four. The strands, at one end fastened to an upright post, are twisted together while still damp and pliable by means of a spinning wheel. Taken from the drying frames, the strings are cut in lengths, coiled and boxed in oiled paper for shipment. To polish the strings very fine emery paper laid on a grooved aluminium block is used. While the strings are still on the drying frame the covered block is passed over the strings, polishing as many at one time as there are grooves in the block. It can be seen that from the manner in which the strands are twisted the effect of polishing is to weaken the string.

In the essential features the process of making the fine gut strings for surgical uses or the heavy strings three-eighths of an inch thick sometimes employed for machinery belting does not differ from the method employed in the case of the musical strings except that the latter are handled with more care.—Chicago Record-Herald.

DARING PHOTOGRAPHY.

Perilous Feats of the Men Who Manipulate the Cameras.

A man who can stand or sit on the flange of a steel beam not so wide as the sole of your shoe and 600 feet above a roaring granite paved city street, there coolly to take successful pictures of the top of the city far below him, must be possessed of three qualifications and each of the first water. He must have judgment, patience and courage, these three, and, one may add without slighting the other two, the greatest of these is courage. So writes H. G. Hunting in the Technical World Magazine.

The eager eye of the camera goes everywhere nowadays, and the man who makes picture getting his business adopts no peaceful, unexciting pursuit. If he is under contract to a great newspaper or magazine he may be called upon to secure a picture of anything, from a flashlight in the black depths of a metropolitan sewer to a portrait of the fairest white slave in a Turkish harem. He may be asked to "get" a female grizzly nursing her whelps in her mountain lair to illustrate some naturalist's work at one end of the year, and before the other end has come he may snap a shutter on the lip of some smoking volcano's crater.

When you see a striking or a startling picture of man or beast in some extraordinary place or pose, do you ever stop to think where the photographer was who made the negative or how he got there?

Pepper In Olden Times.

During the middle ages in Europe pepper was the most esteemed and important of all the spices. Genoa, Venice and other commercial cities of central Europe were indebted to their traffic in pepper for a large part of their wealth. Its importance as a means of promoting commercial activity and civilization during the middle ages can hardly be overrated. Tribute was levied in pepper, and donations were made in this spice, which was frequently also used as a medium of exchange in place of money. When the imperial city of Rome was besieged by Alaric, the king of the Goths, in 408 A. D., the ransom demanded included 5,000 pounds of gold, 30,000 pounds of silver and 3,000 pounds of pepper, illustrating the importance of this spice at that time.

For Poetical Reasons.

"Perchance," called the amiable widow, "come here!"

The little lapdog trotted meekly up.

"Surely that is a strange name for a dog!" exclaimed the gentleman visitor. "What made you name him Perchance?"

"I am so fond of poetry!" explained the lady lucidly.

"Madam, forgive me, but I fail to see the applicability."

"Why, silly man," exclaimed the merry widow, "I named it after Byron's dog! Don't you remember where he says, 'Perchance my dog will howl?'"

What He Knew.

Master—If your friend were to borrow 12 shillings from you, agreeing to pay 1 shilling a month, how much would he owe at the end of the year?

Pupil—Twelve shillings.

"You don't know the elements of arithmetic."

"But I know my friend."—London Scraps.

The Bonds.

"I want to get rid of some bonds."

"Out of my line," replied the lawyer.

"But these are matrimonial bonds," rejoined the caller, putting a different face on the matter. — Philadelphia Ledger.

When we are happy we seek those we love. In sorrow we turn to those who love us.—Cecil Raleigh.

CITY OF PRESIDENTS

Birthplace Of Two Burial Place Of Two

Old historic Quincy settled in 1625 has much of interest to visitors. When Braintree was incorporated in 1640, the territory now known as Quincy, was a part. In 1792 Quincy became an independent town, and in 1888 was incorporated as a city.

Quincy was named in honor of Col. John Quincy, descendant in the third generation from Edmund, 2d, who settled in Quincy, in 1634; grandfather of Abigail (Smith) Adams, the wife and mother of a President of the United States.

The city includes Wollaston, Atlantic, Quincy Point, South Quincy, West Quincy, Montclair, Norfolk Downs, Wollaston Park, Squantum, Houghs Neck, Adams Shore, Germantown and Quincy Neck, comprising in all over 16 square miles, of which 2,530 acres are in public parks.

BIRTHPLACES OF PRESIDENTS

Birthplace of John Adams, the first Vice President and second President of the United States, Franklin street, Quincy Adams; house built in 1681 and restored in 1897 by Adams Chapter, Daughters of the Revolution. Open to public. Admission charged.

Birthplace of John Quincy Adams, the sixth President of the United States, junction of Franklin street, Presidents road and Independence avenue. Built 1716, restored 1896 by the Quincy Historical Society. Open to public afternoons from 2 to 5. Admission charged.

ABIGAIL ADAMS CAIRN.

Penns hill, erected June 17, 1896, by Adams Chapter, Daughters of the Revolution, to the memory of Abigail Adams, who with her son, John Quincy, from the spot watched the smoke of battle at Bunker Hill. Cairn composed of many historic stones, the corner stone being part of the old sleeper of first railroad in United States which ran from Quincy quarries to tide water, Neponsit river.

BURIAL PLACE OF PRESIDENTS.

First Congregational Church (Unitarian) at Quincy centre. In auditorium each side of high pulpit, are mural monuments, to the memory of John Adams, the second president, and John Quincy Adams, the sixth president of the United States, and their wives. The funeral of John Quincy Adams was held in this church. Beneath the entrance is the Adams tomb, reached by stairways from the vestibule. Near the tomb is the box in which was brought from Washington the body of John Quincy Adams, also the old town hearse. Admission may be secured on application to W. E. Dewhurst, sexton, 3 Maple Place. A fee is asked for attendance, etc.

HANCOCK CEMETERY.

Hancock cemetery across the street from First church contains many old stones. Among the old graves are those of Henry Adams founder of the Adams family who died Oct. 5, 1646; Rev. William Thompson, 1st pastor over the Braintree church who died Dec. 10, 1666; Rev. Henry Flint who died Oct. 11, 1668; Rev. John Hancock father of the Patriot who died May 7, 1744 and many other notable people.

JOHN HANCOCK BIRTHPLACE.

Adams street, junction of Dimmock and Hancock streets. A bronze tablet has been placed by the City of Quincy on Adams Academy to mark the place where the house stood in which the patriot John Hancock, the bold signer of the Declaration of Independence, was born.

PRESIDENTS ADAMS MANSION.

Adams street, corner Newport avenue Quincy. Residence of President John Adams and contains many family relics. Occupied by descendants. Not open to public.

PRESIDENTS LANE.

Now Goffe street, leading from Adams street, near Mansion. Opened by John Adams to drive his cows to pasture.

DOROTHY Q. HOUSE.

Hancock street, corner Butler road, Quincy, Old Quincy homestead in which Dorothy Q was born. Owned by the Massachusetts Society of Colonial Dames. Has quaint old paper on parlor put on for wedding of John Hancock and Dorothy Quincy; also secret chamber and other interesting feature. Open free to the public on Saturdays, from 11 A. M. until 4 P. M. Other days admission charged

MYLES STANDISH CAIRN.

Squantum heights, erected in 1895 by the Daughters of the Revolution, of Massachusetts, in memory of Captain Myles Standish and his men of Plymouth Colony, who landed here Sept. 30, 1621, guided by the Indian Tisquantum.

MYLES STANDISH SPRING.

On the beach to the left and back of Squantum Inn. Spring of fresh cold water, where Standish and his party breakfasted and thence started to explore the country around Boston Bay.

SQUAW ROCK.

Pile of rock, on which is a perfect head of a squaw, frequently mentioned in early Squantum history. Near by is also Sachem's Knoll.

A large line of Oak Heating Stoves at your own price

RANGES THAT BAKE.

The Model Stewart.

The latest type of an up-to-date six hole range. The Model Stewart has plenty of nickel ornamentation, and full set of nickeled bands, nickel oven panel and shelf and nickled pot shelves etc., and, therefore, has the appearance of a much more costly range. The range is very low in price, and just suitable for such households where the larger and more expensive ranges are not needed. Reg. $38.50 value for only $29.50

The Superb Stewart.

"Pride of the Kitchen

The superb Stewart is what is termed a two-flue range; consequently great economy in fuel and a quick oven is the result. The flues surround five sides of oven, and as the range has a full square oven it will surely prove of priceless value.

Fire-box—The range has a large, well proportioned fire-box fitted with either Duplex, Dock-ash or triangular bar grates and cast end linings, making it a most durable and economical fire-box. The grates can easily be removed through ashpit opening without disturbing the balance of fire box fixtures. The shaker end of grate is enclosed (The end paneled door of fire box closing over it) a strong $47.50 Range, No. 8 size during this sale $39.50

ALL RECORDS BROKEN IN A CROWDED FIELD

In Twilight of Life Civil War Veteran Takes on Renewed Vigor.

MR. JAMES F. LORD.

The enormous sales of the Cooper preparation in the city of Boston, and throughout the entire state of Massachusetts have broken all records in the proprietary medicine field. According to E. J. Murphy, 1415 Hancock street, who is agent in Quincy for the Cooper medicines the popularity of these remedies has not diminished since Mr. Cooper's Boston visit, but rather has steadily increased, many of those benefited having made statements in regard to their experience with the medicine, among the more recent of whom is Mr. James F. Lord, a civil war veteran and well-known resident of East Milton, Mass. Mr. Lord says:

"For some time past I have had trouble with my stomach. I had little or no appetite and felt tired all the time. My bowels were sluggish, my back ached, and I spent many restless sleepless nights. After taking various kinds of medicine without benefit, I decided to try Cooper's New Discovery preparation, about which I had read and heard so much. I procured a treatment from J. J. Hammers agent for the remedies in East Milton. It helped me right away—gave no strength, improved my appetite, and put my bowles in good condition.

"In all I have taken three bottles of this medicine and feel like a different man—the old tired feeling is gone, the back ache has disappeared, my appetite is splendid and my sleep sound and restful. I am getting along in years, but have never known of a medicine that could accomplish so much in so short a time as does this Cooper's New Discovery. It is certainly deserving of success, and I wish to add my tribute to its merits."

WASHINGTON NEWS SERVICE

Boston Editor At Wollaston Tells of Work of Newspaper Men

Mayor Shea received at Wollaston on Tuesday evening one of the most enthusiastic greetings since his election. He was a guest of the Wollaston Unitarian club at their January meeting, and addressed the club. The advertised speaker, however was Robert Lincoln O'Brien, the editor of the Boston Transcript, who was exceedingly interesting.

The meeting was attended by about 100 men, all of whom pronounced the hot roast beef supper at 6.30 as one of the best yet. It was prepared by Vice President F. W. Plummer, and willing assistants, and included beef, mashed potato, macaroni, celery, and something new in the pie line.

President F. E. Parlin presided. In introducing Mayor Shea he said there was one man in the city whose position he did not envy just now, but he seemed comfortable and not worrying much.

Mayor Shea was heartily applauded. He said he was not prepared to speak, but he was glad to come into the Wollaston ward and meet such a body of representative men and hoped to become better acquainted.

His Honor reiterated his intention to live up to his ante-election "creed" to give the city a non-partisan business-like administration. It would be his ambition to give the city the best administration he could. The conditions, however, were hard, the financial situation being bad. He had already found that it was not easy to fill the offices. That some whom he considered ideal men could not be induced to accept. If I fail to give the city a good administration it will not be because of lack of ambition. If at any time the people of Wollaston have any suggestions to offer they will always be welcome. It will be my desire to give the city a capable and honest administration, giving my best energies to the work.

In introducing Mr. O'Brien president Parlin said readers of the Transcript enjoyed for many years the Washington correspondence of "Lincoln," and would now be pleased to hear from Robert Lincoln O'Brien, formerly private secretary of President Cleveland.

Mr. O'Brien requested that he should not be reported, but referred mainly to Boston newspaper men. For thirteen years he was a Washington correspondent and he told of the method of work in preparing dispatches and letters to the press of the country, the principal sources of news, and showed a wide acquaintance among Congressmen and men of affairs at Washington.

Particularly interesting was the White House news. In the restoration of the White House and the erection of an office building, one room was reserved for the newspaper men, and a number camped there every day. President Roosevelt did everything possible to help. For example he caused to be prepared lists of callers each day which are accessible to the newspaper men; also the guests of the White House, those with whom he will dine, etc. The President often sends for the newspaper men and outlines polices and plans. Newspaper men make it a point to interview callers at the White House, and often anticipate their business. Mr. O'Brien told of the daily work of President Roosevelt. He is flying to and fro receiving callers in different rooms.

The most important place of reporting at Washington, however, was the Capitol. He gave three reasons why the press gallery of the House was usually deserted. First, because the Associated Press had a man on the floor covering the running report; second, because the centre of interest is in the Senate; third, because there has been a change in the standard of news. Readers formerly wanted running debates, but not so now. Style changes in news as well as in everything else. Instead of stenographic reports of Congress the readers want the doings of committees, plans of leaders, etc.

Next to the Capitol and the White House the executive departments prepare business of the day for the press; the postoffice department, the treasury department, the patent office, the pension office, and others. Mr. O'Brien told several anecdotes of officials well known in public life. He said correspondents look on their work seriously and realize the importance of giving reliable reports.

Upon motion of Walter E. Simmons a vote of thanks was extended to Mr. O'Brien, and also to Mayor Shea, and it was taken by rising.

Ladies' Night Knights of Columbus

One of the most successful social affairs of the many held by Quincy council, Knights of Columbus, was the ladies' night of Tuesday evening at Tuesday evening at Colonial hall, and at their rooms in the Savings Bank building.

There was a large attendance of members and their ladies, several brides being among those present. Miss Minnie Cashman and Dr. Daniel B. Reardon whose engagement was announced last week also came in for many congratulations.

Tables for whist were arranged in the club rooms for those perferring this diversion to dancing and a number of tables were in play. Suitable prizes for the best scores were provided. These were awarded to Miss Minnie Cashman, Miss Annie J. Cunningham, Bernard Cullen and Dr. Daniel B. Reardon.

Joyce orchestra furnished music for the dancing which was held in Colonial hall. This part of the program was in charge of George Berry, John Dolan, Edward J. Murphy and Thomas J. Shortle.

At 10.30 Caterer La Croix served ice cream, cake and coffee.

Special cars were in waiting at midnight for the different parts of the city.

Appreciated By A Fellow Pastor

Editor of Daily Ledger:

An interesting and instructive series of sermons is being preached by Dr. Perkins, the pastor of the Universalist church. This series has for its general topic "The Christian Life." The services come at a most opportune hour; 2.30 P. M. Thus people who have attended other churches in the morning, have ample time to dine and rest, before this attractive afternoon service. Then there are those who slumber late Sunday morning; for such, this 2.30 service ought to be maintained, and to such, this 2.30 service ought especially to appeal.

Dr. Perkins is one of the best informed and most learned preachers of our city. He is too christian to be merely dogmatic; too enthusiastic for the triumph of truth to be narrowed by denominationalism. His eloquence reminds one of the preaching of Henry Ward Beecher, like Beecher, Dr. Perkins has a real message for people of today. I heard that message from him last Sunday and believe this series of sermons is worthy of generous patronage.

A Fellow Pastor.

Went Down Under Work.

The Rev. Charles J. Keevil of the First Baptist church, Trenton, N. J., passed away Sunday morning, January 5, at one o'clock, after a short illness of typhoid fever. Dr. Keevil was at one time the pastor of the Methodist church at West Quincy, and has many friends in Quincy, who will be sorry to learn of his death. While in Quincy Dr. Keevil made his home with Mr. Charles Hayden. The funeral services were held at the First Baptist church Trenton, N. J., Wednesday morning, after which the body was taken to Brooklyn and interred in the family plot at Mt. Olivet cemetery.

Special Police.

Mayor Shea has appointed the following as special officers: Edward J. Sandberg, David L. Gordon, Samuel D. DeForrest, Calvin T. Dyer, Henry F. Corbett, Thomas A. Malone, Henry J. Matthews, Alphonse G. Williams, John J. Duane, Henry Hathorn and John F. Donovan.

—All the latest popular sheet music, sung and played at La Croix's, cor. Hancock and School sts., every Saturday evening.

All claims and demands against the firm will be adjusted by C. Otto E Gelotte, and all accounts or claims of any nature due the firm are hereafter due and payable to said C. Otto E. Gelotte.
Dated at Quincy, Massachusetts, this eighth day of January, A. D. 1908.
WILLIAM MARSHALL,
C. OTTO E. GELOTTE.
Mr. Gelotte will continue the business on the premises, and the firm will be known as O. Gelotte & Co.
Quincy, Jan 8, 1908. 3t-8-15-22

Odd Fellows Installation

D. D. G. M. Edward Prouty and suite of Rockland installed the following officers of Mt. Wollaston lodge, Tuesday evening.

N. G.—Charles Barron.
V. G.—Thomas J. Smith.
R. S.—Aubrey R. Keith.
F. S.—Arthur W Stetson.
Treasurer—E. Frank Mitchell.
Warden—James S. Baker.
Con.—George Fisher.
Chap.—Richard Bishop.
I. G.—Albert Richards.
O. G.—James Moorehead, Jr.
R. S. N. G.—Charles S. Jones.
L. S. N. G.—D. Edward McDonald.
R. S. V. G.—Herbert J. Procter.
L. S. V. G.—John Robertson.
R. S. S.—Abel Gomez.
L. S. S.—Thomas E. Furnald.
P. G.—Charles Keser.

After the installation ceremonies D. D. G. M. Prouty presented in behalf of Mt. Wollaston lodge a past grand's collar to P. G. James Moorehead, Jr. A collation was served in the dining hall and there was speaking and a social hour.

Newsy Budget From Shipyard

The wireless telegraph system of the revenue cutter Gresham, the preliminary work of which was done recently while she was undergoing repairs at the Fore River shipyard, is now complete. The Greshams territory extends from Vineyard Haven to Eastport, Me., and with her wireless system which has a radius of 500 miles no doubt her services to shipping will be considerably enhanced.

The steam trawler Spray arrived in Boston early in the week with a good catch of haddock and cod, for which good prices were obtained.

Ninety-five years ago today Jan. 15, 1815, U. S. Frigate President was captured by the British Frigate Endymion.

Rabid Dog.

There was a rabid collie dog in Quincy within a few days. He is known to have bitten a horse standing in the square and three different people. If anyone should know of other damage done by this large sharp nosed dog with long yellow hair, between last Friday and Monday, it would be well to notify the police or Dr. Abele, that further trouble may be prevented. Owners whose dogs were allowed to roam about Quincy square during that time would do well to keep their dogs chained up, as hydrophobia may develop after a week's time.

New Pastor.

Several Quincy and former Quincy pastors took part in the installation of Rev. Frederick Guy Merrill as pastor of the Pilgrim church of North Weymouth on Monday. Rev. George E. Benedict formerly of the Washington Street Congregational church read the scripture lesson, Rev. Edward Norton the installing prayer, and Rev. Edwin N. Hardy, D. D., gave the charge to the pastor. Mrs. E. C. Page was also a soloist.

One of the best entertainments in the Cochato club couse will be on Wednesday evening Jan. 22 when Prof. Charles E. Fay of Tufts college will give his lecture on "Mountaineering in the New Switzerland, Canadian Alps." Some one hundred views of this beautiful country will be shown.

—Everyone come and listen to the popular sheet music concert at La Croix's, cor. Hancock and School streets.

Installation of W. R. C Officers

The officers of Paul Revere Woman's Relief corps were publicly installed Tuesday evening, at Grand Army hall by Mrs. Dorcas Lyman, Past Department President of Massachusetts, assisted by Mrs. Adelaide McGrath of this city. Guests were present from Boston, Brighton, Milton and Braintree. Many of the comrades of Paul Revere Post 88, G. A. R., also accepted an invitation.

After the installation Mrs. Lyman, in behalf of the corps, presented Mrs. Isabelle Holmes, the retiring president, with a dozen solid silver spoons, and an opal pin with gold setting.

Mrs. Lyman was presented with a solid silver desert spoon, and Mrs. McGrath with a bouquet of pinks. Refreshments were served and there were interesting remarks by the visitors and others.

The officers installed:

President—Mrs. Edith B. Wolfe.
Senior Vice President—Mrs. Agnes Fletcher.
Junior Vice President—Mrs. Cora Carman.
Secretary—Mrs. Isabelle A. Souther.
Treasurer—Mrs. Laura E. Holt.
Chaplain—Mrs. Jennie E. Holton.
Conductor—Mrs. Sarah C. Williams.
Assistant Conductor—Miss Loretto Grignon.
Guard—Mrs. Mary P. Tilley.
Assistant Guard— Mrs. Marion Baker.
Patriotic Instructor—Mrs. Eliza A. Penniman.
Color Bearers—Mrs. Emma Marnock, Mrs. Annie L. Waterhouse, Mrs. Belle Morton, Miss Belle Birnie.

Twentieth Wedding Anniversary

A few intimate Masonic friends assisted Mr. and Mrs. John Morgan in celebrating their 20th wedding anniversary in a jolly manner at their home on Standish avenue, Wollaston, Monday evening. A delicious and bountiful supper was served by the hostess at 8 o'clock. The decorations were bouquets of roses and carnations, with asparagus vine. A beautiful silver candelabra was given to Mr. and Mrs. Morgan, Mr. Thomas making the presentation speech in behalf of the party. Mr. Cole sang several songs accompany himself on the piano. Those present were Mr. and Mrs. George L. Cole, Mr. and Mrs. Enoch S. Thomas, Mr. and Mrs. Albert W. Fay, Mr. and Mrs. John W. Boyce, Mr. and Mrs. John H. Whitehead, Miss Carrie Moore, Mrs. Mary Zoller, Mr. Fred Zoller and Mr. George Perkins.

New Clan Officers.

The officers of Clan McGregor, O. S. C., were installed Monday night by Senior Past Chief, Royal Secretary Peter Kerr, assisted by Past Chief Thomas Johnston as Royal Henchman. The new officers are:

Chief--George M. Maver.
Tanist—James M. Birnie.
Chaplain—Robert C. Allen.
Secretary—Alfred O. Diack.
Financial Secretary—John Russell.
Treasurer—Alex. W. Russell.
Senior Henchman—John B. Hutchinson.
Junior Henchman—Robert P. Stewart.
Seneschal—Angus Kerr.
Warden—Duncan Grassick.
Sentinel—Robert Craig.

Just Jotted Down By Ledger Men

The School Masters' club holds a meeting tonight.

Charles Whitacre of Safford street has enlisted in the navy and is now at Newport, R. I.

Citizens' meeting on the abolition of grade crossings tomorrow evening at City Hall.

The lowest noon temperature in January last year came on the 24th, ten above zero.

William M. Marden was appointed a county policeman by the County Commissioners on Tuesday.

Louis Coles of Faxon road has resumed work after being confined to the house for several days with the grip.

The new City Council is making an honor record for attendance, — every member being present at every meeting.

Mr. and Mrs. Everett B. Goodrich and son Walter are at Hudson for a fortnight, visiting Mr. Goodrich's parents.

Quite a difference in the temperature today from what it was Monday. This morning at sunrise it was but 15 above zero.

Robert T. Johnson of Johnson Bros., is taking a needed rest from business. This week he is at North Conway, N. H., and planning to be at Hampton Village next week.

One of the first acts of Mayor Shea was to order the interior telephone system at City Hall put in order This system has not been in working order of several years.

The Ladies Aid Society of Quincy Point, met Monday and planned for the supper and stereopticon lecture of Wednesday evening. The vice president Mrs. Thomas, presided.

Ex-councilman Eugene R. Stone has become an automobilist. His car is a Cadilac, and he anticipates taking considerable comfort with it when the weather becomes fine.

Thomas Benton Severance, formerly of East Milton, who has lately returned from a prolonged stay in the west, passed away Jan. 8, at the home of his niece, Mrs. Roscoe Staples in Rockland, Maine, of asthma and heart trouble.

Mayor Shea does not like the office provided for him at City Hall. In the first place there is no means of ventilation and then there is but one entrance to it from the main hall. There should be two entrances so that office seekers could be let in at one entrance and run out at the other.

SEES NEW TROUBLES

But Little Hope of Early Social Peace In Russia

AN ADDRESS BY MILYOUKOV

Tells Americans That Revolutionary Movement Cannot End Until Main Problems Are Settled--Calls Upon Us to Give Our Human Sympathy

New York, Jan. 15.—Having traveled more than 5000 miles to present, in a single address, the cause of popular government in Russia, Professor Paul Milyoukov concluded his remarks at Carnegie hall last night with the declaration that all that he sought on this side of the ocean was human sympathy. Judging by the applause which greeted these words the mission of the distinguished legislator was fulfilled, so far, at least, as the Civic Forum was concerned.

Professor Milyoukov is a member of the third duma for St. Petersburg and leader of the Constitutional Democrats of Russia, and at the solicitation of the Civic Forum came from his home to address it upon the topic "Constitutional Government for Russia."

Professor Milyoukov arrived on the Roumania Monday and intended to sail on his return to St. Petersburg today. He has delayed his departure one day in order that he may accept the invitation of Congressman Parsons of New York to a dinner given in his honor in Washington tonight.

At the meeting last night there was a representative audience numbering probably 4000 persons. Right. Rev. Henry C. Potter, bishop of New York, presided and introduced Milyoukov. Among those on the platform were many men of national note.

Sketching the progress of representative government as embodied in the successive dumas, Milyoukov reached the conclusion that a sort of political equilibrium had been attained. He questioned, however, whether the equilibrium could be considered stable, and found as the consoling feature of the situation that the imminent danger that the national representation was to be abolished entirely was now avoided. For the future he saw new troubles, with little hope of early social peace. He said:

"If the revolution in Russia has lost something of its external dramatic character, it is not because the movement has been obliterated, but because it now strikes much deeper root in the lower social strata. The real and the terrible dramatic sense of the events which may still unroll before your eyes does not confine itself to the rise and fall of certain heroes or great personages whose fate you may follow with interest. And it is not exhausted by some appalling statistics of people shot or hanged, houses burned, servants of the czar blown up or assassinated, conspiracies discovered and the like.

"The interest of the struggle lies much deeper. The social composition of the future Russia is now at stake. And this explains why the masses, silent and mute as they appear, put all their hearts, all their hope, into the issue of the present movement, and why the movement cannot end until, in one way or another, its main problems are settled.

"And what are the forces that try to hold it in check? The alliance of the two decaying political powers for their own self-defense cannot obstruct the royal, historical road the nation is following. The childish explanation of the movement, as initiated and fostered by a foreign or anti-Russian intrigue, cannot do away with its deeper causes.

"And the foolish idea that the peasants of our communes can be changed at once into private proprietors can only cause new ferment in our villages, honeycombed with poverty and famine as they are. In short, wherever we turn or look, we only meet with new trouble to come, nowhere with any hope of conciliation and social peace.

"That, I am afraid, is not the message you expected from me. I would be much happier myself if I could answer your wish for information with words of good hope and with the glad tidings that quiet and security have returned to Russia. But I am here to tell you the truth.

"What do I want from you in exchange? I am working here for your human sympathy; sympathy with all the enormous pain and suffering of the poor and downtrodden in my country; sympathy with every noble exertion which seeks to put an end to all this pain and suffering.

"I do not know of anything so apt to elevate one's sentiment and one's intelligence to higher spheres of existence as that feeling which keeps one in touch with her worlds of humanity. That is why I was happy to cross the ocean in order to address you this evening, an occasion which I shall never forget."

Senate Discusses Bond Issue

Washington, Jan. 15.—The recent bond issue by the treasury department was a subject for discussion in the senate, being brought forward by a resolution calling on the secretary for additional information concerning the reasons that induced him to award bonds to national banks instead of to individuals who, he declared, offered a higher price than was bid by banks. The resolution went over under the rules.

"LEGAL INSANITY"

Jury Hears of Unsoundness of Mind In Thaw Family

New York, Jan. 15.—The attorneys for Harry K. Thaw, at his trial yesterday, began relentlessly to build up the case of legal insanity which they have interposed in his behalf as a defense for the killing of Stanford White. The two principal witnesses of the day were Professor Koehler of Winona, Minn., who acted as instructor to Thaw in the Wooster (O.) university in 1886, and Mrs. Amin Gozelle of San Mateo, Cal., who attended Thaw, as a trained nurse, at Monte Carlo in 1897. They both told of Thaw's eccentricities and declared that his manner always was irrational.

Dr. Deemar of Kittaning, Pa., one of the Thaw family physicians, also was heard, as were the attending physicians of three institutions for the insane where members of Thaw's family, on paternal and maternal sides, had been confined.

District Attorney Jerome, by unexpectedly invoking the sacred privileges of physician and patient, blocked much of the testimony as to unsoundness of mind in the Thaw family, but the calling of the witnesses and the questions they were allowed by the court to answer left the desired impression upon the jury. Mr. Jerome explained that the law compelled him to object to such testimony without an express waiver from the patients. Even the nurse who attended Thaw was not allowed to testify until Thaw personally had made a waiver of the confidential privileges in open court.

Will Fight White Plague

Albany, Jan. 15.—Secretary Felks of the State Charities Aid association opened permanent headuarters in this city for the promotion of a campaign against tuberculosis in the fifty-seven counties outside Greater New York. It is computed that it will take at least five years to perfect local organization throughout the state and the total cost will reach $1,000,000. The movement has been made possible by the subscription of a single benefactor, whose name is withheld as one of the conditions of the gift.

Black Hand Threatens Police

Reading, Pa., Jan. 15.—Mayor Gerber of this city received a "Black Hand" letter in which not only his life but the lives of the entire police force of Reading are threatened. The note conveys the information that the "Black Hand" agents will pursue their destructive tactics if any harm comes to the two Italians under arrest, charged with the murder of State Trooper Kelleher.

Nothing Personal Against Hanna

Rome, Jan. 15.—Cardinal Gotti, prefect of the congregation of the propaganda, in a report to the pope of the meeting held Monday, declared that the failure to select Rev. Edward J. Hanna for the office of coadjutor archbishop of San Francisco did not assume anything of a personal nature against the candidate, even in the eyes of those who opposed his election.

Capers Holds Commissionership

Washington, Jan. 15.—In view of the announcement by Pearl Wight of New Orleans that business interests would prevent his acceptance of the commissionership of internal revenue, in succession to John W. Yerkes, John G. Capers, who was appointed to be commissioner to serve until Wight had reached a decision, will continue permanently in the office.

Failed to Pass Test

Washington, Jan. 15.—On account of disabilities incurred in the line of duty, Major Francis J. Ives, surgeon, will be placed on the retired list of the army, to take effect April 22 next, and he has been granted leave of absence until that date. He was one of the officers who failed to take the test ride.

No Evidence From Vickars

Dublin, Jan. 15.—The vice regal commission which is investigating the disappearance from Dublin castle of the regalia of the order of St. Patrick has renewed its attempts to draw Sir Arthur E. Vicars, the custodian of the missing jewels, into giving evidence, but he declines to do so.

Italian Stabber Convicted

Poughkeepsie, N. Y., Jan. 15.—Vincenzo Bacoari, an Italian, who has been on trial for murder for stabbing to death a young man named Ross King in this city last November, was last night found guilty of manslaughter in the first degree. He will be sentenced next Thursday.

NEWS IN BRIEF

During an executive session of the senate, held for the purpose of confirming presidential appointments, the nominations of four Ohio postmasters were defeated at the instance of Senators Foraker and Dick. The nominations were reported unfavorably by the postoffice committee.

An action attacking the reorganization of the Chicago and Alton railway was filed in the United States court at Chicago by W. S. Miller of Chicago, a minority stockholder in the old Alton road.

The senate passed a bill appropriating $3,000,000 for a site opposite the grounds of the White House for a building for the departments of state, justice and commerce and labor.

James R. Randall of Augusta, Ga., a war poet, is dead, after an illness of a few days. He was born in Baltimore in 1843. Among other products of his pen was "Maryland, My Maryland."

Thomas S. Pine, 68, a veteran of the Thirteenth Maine regiment, committed suicide at Portland, Me., by cutting his throat. He was discouraged because of feeble health.

IS A PROTECTIONIST

But Guild Sees the Need of Revision of the Tariff

MANY INDUSTRIES HAMPERED

Sole Leather, Bituminous Coal and Beef Should Be Admitted Free of Duty--Tariff Should Not Be Treated as a Political Question

New York, Jan. 15.—Governor Guild of Massachusetts held the attention of the National Shoe and Leather convention in session at the Hotel Astor. The keynote of his address was sweeping revision of the tariff, with the abolition of the duty on many imports.

Coming as the Republican executive of a Republican state these sentiments have excited the utmost interest and comment. Incidentally Guild announced that he is not a candidate for any other public office. In the course of his address the governor said:

"A demand will be made after the next national election for a special session of congress for the revision of the tariff in the interests of common sense, rather than of special interests.

"I am a protectionist. I believe that policy more than any other one thing has built up the industrial domination of the United States. I believe that policy should be continued, but the time has come when illogical and needless duties should cease to hamper alike our industries and our people.

"Wool is a proper subject for protection. Sheep are carefully bred to produce a certain kind of wool, and the sheep that produce the finest wool give the poorest mutton.

"No one ever heard of a farmer raising cattle for their hides or breeding cattle to produce a certain kind of hides. The duty on hides helps the big meat packers, I understand, to some extent, but it certainly is of no value to the cattle-raiser.

"The American manufacturers of upper leather import their raw material free of duty. Common justice demands that the American manufacturers of sole leather should be able to import their material of an exactly similar character free of duty.

"It is not so very long ago that our home market was more than sufficient to provide for the product of the shoe industry. Now the product of the industry has far overflowed the possibility of the home market. In the fiscal year ending June, 1907, we exported nearly six million pairs of shoes, valued at nearly $11,000,000. It is a serious and significant fact that this amount has remained stationary with scarcely any increase since 1904.

"The hard and fast lines of the present tariff leave no weapon with which we may fight a tariff war. We have no maximum and minimum schedules. We have no concessions that we may make on the products of a country that is willing in her tariff to make concessions on ours."

Governor Guild advocated free admission of bituminous coal and beef, and a reduction of the duty on wool. He thought that a revision would not cause a general upheaval of business. In conclusion he said:

"That I may not be misunderstood let me say that I am not a candidate for any further public office. I am simply a business man, who happens at this time to be the governor of a New England commonwealth. The tariff should not be treated as a political question, but as a business question. It should not be treated as a local question, but as a national question.

"The test to which every proposed duty should be subjected is not 'Is such a duty demanded?' but 'Is such a duty needed?' A duty should not be applied as a bounty to some small locality on account of its political influence, but only as a benefit to the country as a whole and for the good of all its people."

Fears For Missing Steamer

Bellingham, Wash., Jan. 15.—The gasolene passenger steamer Island Flyer left Bellingham Monday for Anacortes, twenty-five miles up the sound, with twelve passengers aboard. She has not been heard from since and it is feared she has gone down with all on board. Ordinarily she makes the run in two and a half hours.

Jackies Got Into Trouble

Washington, Jan. 15.—Admiral Evans reported to the navy department that a slight disturbance occurred Monday night on shore at Rio de Janeiro, involving a number of shore liberty men. Four petty officers were slightly injured. The commander-in-chief reports that the men have been received with great cordiality.

Receiver For Wrecked Bank

San Francisco, Jan. 15.—Judge Coffey of the superior court made an order appointing Edward J. Le Breton receiver for the California Safe Deposit and Trust company and fixing his bond at $1,000,000. Le Breton, who is a capitalist, was the choice of the stockholders of the wrecked bank for the position of receiver.

Outbreak of Yellow Jack

Havana, Jan. 15.—Health officials, having discovered a suspected case of yellow fever in the business section of Santiago, have ordered the disinfection of all the houses and stores in the district.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)
The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.
Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.
The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL
(Legal Title: City Hospital of Quincy)
INCORPORATED 1889
The Trustees of the City Hospital of Quincy can aptly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.
Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.
The Secretary, A. TIMOTHY REED, Adams Street, or the Treasurer, RICHARD D. CHASE, Savings Bank Building, Quincy, will be very glad confer with any one or to answer any inquiries.

DEATHS NUMBER 167

Details of Holocaust In Little Pennsylvania Borough

CURIOSITY OF A PERFORMER

Caused Accident Which Speedily Developed a Panic In Theatre--Fire Enveloped Crowd Which Vainly Strove to Escape Through Narrow Doorway--Mourning Is Universal

Boyertown, Pa., Jan. 15.—The official roll of victims taken from the ruins of the Rhoades Opera house, where Monday night's holacaust occurred, numbers 167. Whether any more bodies are buried beneath the ruins cannot be positively stated, but it is the belief of those who had charge of the gruesome work that all of the dead have been removed, and that the total list of victims will not go above 170. The ratio of women and girls to men and boys is about nine to one.

The inhabitants of the little borough in the Berks county hills are steeped in grief. The calamity, terrible when it is realized that the place has a population of but 2500, has paralyzed the town and the people are going about dazed. It is safe to say that everybody in the place either lost one or more relatives, or was intimately acquainted with those who died in the fire. In several cases whole families were wiped out.

It was almost daylight before the flames were extinguished and rescuers were able to enter the ruins to remove the dead. The bodies are so badly burned, however, that there is little to describe them by, and it is safe to say that not half the victims will ever be identified.

The Rhoades Opera house was located on the second floor of a three-story brick building. The first floor was occupied by a national bank and several stores, and the third floor was used for lodge rooms. The entertainment hall was about 50 feet wide and 75 feet long. It had no gallery. There was a stairway at the front of the building and a narrow exit in the rear of the stage. Fire escapes were built on both sides and on the front of the building.

So far as can be learned there were about 425 persons packed in the room, most of whom were adults. The number of children present was comparatively small. There were about sixty-seven persons, all local talent, on the stage, who were giving a performance of the Scottish Reformation. The entertainment was nearly over, the audience waiting for the curtain to go up on the last part, when something went wrong with the calcium light apparatus that was perched on a small platform near the front entrance of the building and at the back of the audience.

The light was in charge of H. W. Fischer and he says a rubber tube slipped from one of the tanks. At any rate, there was a loud hissing sound, which caused many in the audience to turn their heads in curiosity to see what it was.

There was absolutely no panic up to this time, and nothing probably would have happened if one or more of the performers behind the curtain had not been curious to learn what was causing the noise. Hearing the hissing sound and the slight commotion in the audience, one of the performers raised the curtain from the floor. In front of the curtain and serving as footlights was a tin tank perhaps eight feet long, three inches wide and three inches high. It contained coaloil and about ten lights. In raising the curtain the performer accidentally turned this tank over and it fell to the floor within a few inches of those persons in the front row.

Rev. Adam A. Weber, pastor of St. John's Lutheran church, for the benefit of whose Sunday school the entertainment was being given, tried to pick up the tank, with the assistance of others, but before they could do so the oil flowed out and caught fire.

Then came the inevitable cry of "fire" and what followed would be impossible, accurately, to tell. Every eye-witness says that the audience rose en masse and the one impulse was to reach the front door. All attempted it, but few got out. The seats in the centre of the hall were of the usual folding variety, screwed to the floor, while those along the sides of the hall were loose chairs. In the scramble to get out many persons fell over the chairs and were never able to regain their feet.

Those who did reach the front entrance found it jammed with people who were fighting and shrieking to get out. One of the double doors had been bolted shut, the better to enable the ticket-taker to take up tickets. Not more than two persons could pass this door at one time and after the first half dozen got through the narrow passage it became clogged with the struggling mass of humanity. Men, women, boys, girls and chairs were tangled up in a solid mass that no one from the outside was able to disentangle.

In the meantime some one discovered that there were escapes on each side of the building, and dozens made their exit by those avenues of escape and gave the alarm. The fire bell was rung and the whole town was aroused and went to the rescue.

The explosion of the calcium tank, and the flames from the front of the stage, which had by this time reached the struggling people, made further rescue impossible. The entire interior of the building was one seething furnace. Firemen threw a feeble stream of water into the burning building, but it had no effect on the flames. The cries of the unfortunate victims, many with their clothing already ablaze, and the moans of the dying were heart-rending.

Fathers and brothers, frenzied by the thought that loved ones were in the fiery place, were compelled to retreat. Nothing could be done to get their people out, and they were forced to stand by and watch the awful sacrifice of life. Everything possible that could be done to get the people out before the flames reached them was resorted to, but it was too late.

While the flames were being checked some of the firemen made frequent trips to nearby saloons, with the result that toward morning some of the men became unruly. There were frequent fights, and at one time it looked as if the Pottstown and Boyertown companies would become involved in a free fight. It was only through the good work of the state police, who had been summoned from Reading to assist the town in its affliction, that a more serious affray did not occur. The condition became so serious that Burgess Kohler at 5 o'clock in the morning issued an order to all saloon-keepers within the borough to close their places.

When the flames were extinguished and the rescuers entered the building a horrible sight met their gaze. Bodies were piled in one solid mass six feet high on the second floor. So solidly were they wedged that pickaxes and crowbars had to be used gently to separate the victims.

Dr. J. K. Evans, who supervised the removal of the bodies on behalf of the coroner, said that there were nine females to one male victim. He did not believe that 10 percent of the victims would ever be identified. In nearly every case the upper portions of the bodies were burned away and in a great many instances the lower parts of the bodies were not touched by the fire.

The Kentucky Senatorship

Frankfort, Ky., Jan. 15.—Despite the result of yesterday's balloting for United States senator, Governor Beckham's friends claim to be confident as ever and claim that he will be elected. The forces opposing Beckham are jubilant and say that five or six more Democrats will desert Beckham. The Republicans practically concede that no Republican can win, but that an anti-Beckham Democrat will ultimately be elected. To an outsider it has the appearance of a prolonged deadlock.

Of Old Puritanical Stock

Buffalo, Jan. 15.—William L. Alden died here last night. He was United States consul general at Rome during President Cleveland's first administration and was knighted by the late King Humbert for distinguished services during Italy's struggle for independence. He was the author of many books and was a contributor to American and European magazines. He was born in Williamstown, Mass., in 1837 and was a lineal descendant of John and Priscilla Alden.

"Act of Friendship" Toward China

Washington, Jan. 15.—The senate committee on foreign relations accepted the recommendation of the president that he be given authority to reduce the amount of $24,440,778, fixed by the bond given by China at the close of the Boxer trouble of 1900, to $11,655,492, the amount necessary to meet actual losses, thus, "as an act of friendship," remitting the remainder. The committee ordered a favorable report on the resolution authorizing such action.

But Two Were Drowned

Paris, Jan. 15.—Great excitement was caused by the breaking of the ice on the lake in the Bois de Boulogne, some thirty young people being precipitated into the water. It was feared that many of them were drowned, but after the lake had been dragged it was found that only two had been drowned.

Further Retirement of Morse

New York, Jan. 15.—Many changes in the board of managers of New York financial institutions were made at the annual elections of officers of national banks yesterday. One of the results was the further retirement of Charles W. Morse from the place of power he once held in New York banking circles.

Alleged Russian Bank Thief

New York, Jan. 15.—Traced to Montreal, after his escape from Ellis Island, Harry Schauwe, said to be a Russian fugitive from justice, was brought back to the immigrant station last night. Schauwe is said to have hypothecated two checks from a banking house in Moscow for $7500.

Nevada Legislature Convenes

Carson, Nev., Jan. 15.—The special session of the Nevada legislature met yesterday. The only important action taken was the passage of a resolution referring all bills that may be introduced relative to state rangers, constabulary or military, to a special joint committee.

Woman Was Not Murdered

Moncton, N. B., Jan. 15.—Christopher Norsman, charged with the murder of his wife at Steeves Mountain, was last night discharged by Judge Hanington, who expressed his belief that the woman's death was a lamentable accident, she having fallen into a well at her home.

The Weather Forecast

Almanac, Thursday, Jan. 16.
Sun rises—7:11; sets—4:37.
Moon sets—5:42 p. m.
High water—10 a. m.; 10:45 p. m.
Rain or snow in New England will be followed by fair and colder weather.

LOST IN SPECULATIONS

Sargeant Hypothecated Funds of the Jewelers' National Bank

North Attleboro, Mass., Jan. 15.—The fact that Frederick E. Sargeant, the late cashier of the Jewelers' National bank of North Attleboro, the institution which is now in the hands of a receiver, had been hypothecating the funds of the bank, became definitely known yesterday, when the surety company which furnished his bonds paid over to the receiver of the bank the sum of $20,000, the full amount of the bond.

The examination of the bank's affairs has also brought out the fact that Sargeant had received deposits from a number of persons, but had diverted the money to his own uses and had made no entry of the deposits upon the books of the bank. An investigation of the cashier's personal affairs has also showed that he had accounts with several Boston brokerage houses, and, it is believed, considering the trend of the stock market for some months previous to his death, that he lost heavily in speculations.

Fired From Baptist Parsonage

East Brookfield, Mass., Jan. 15.—Rev. J. C. Duncanson, leader of one of the Baptist factions here which has been holding services in the First Baptist meeting house, was yesterday ejected from the parsonage by Deputy Sheriff Tarbell, following a decision of the Massachusetts supreme court in favor of the Massachusetts Baptist Missionary society against Duncanson and his followers. This action settles a dispute which has divided the Baptist brethren of this town for five years.

Say Mahan Was Not Insane

Bennington, Vt., Jan. 15.—Expert testimony was introduced by the government yesterday in the case of Alfred Mahan, charged with the murder of his 4-year-old niece, Ethel Mahan. In rebuttal to the testimony introduced by the defense that the accused was insane, the state introduced witnesses who gave testimony to the effect that, while Mahan was dull, he was not insane.

Priest Held Up In His Home

Haverhill, Mass., Jan. 15.—Two unknown men called at the home of Rev. H. Bocher, an aged retired priest, last evening, and after inquiring the way to a country road, held up the priest at the point of a revolver and robbed him of what money he had on his person and a watch. Orvilla Bougess, who lives as companion to Bocher, notified the police, but the thieves escaped.

Shorter Workday Wanted

New Bedford, Mass., Jan. 15.—At a meeting of the Weavers' union last night, the matter of a shorter workday for the textile operatives was referred to the executive committee and a discussion of the curtailment going on in the local mills was used as an argument why the hours should be reduced. The carders voted to go on record in favor of a shorter workday.

Failure of Stock Exchange Firm

Boston, Jan. 15.—The stock brokerage firm of Dane, Smith & Co. announced its suspension on the Stock Exchange. The firm is composed of Chester L. Dane and Dexter M. Smith. The former is the board member of the firm. It is said that the house has been bearish on the market for several months.

Factory and Stable Burned

Boston, Jan. 15.—The W. A. Murtfeldt roofing and asphalt flooring factory and stable in South Boston was destroyed by fire last night, twelve horses, several wagons and a quantity of hay being burned, causing a loss of $30,000. The fire was thought to have been caused by crossed electric light wires.

Alleged Slayer of Child Wife

Pittsburg, Jan. 15.—George B. Hartzell, 22 years old, is in jail in Wilmerding, a suburb, charged with the murder of his wife, aged 16, who at the time was reported to have killed herself. The arrest was made upon the complaint of Mrs. William Casey, mother of the dead girl, who says that Hartzell yesterday confessed that he had fired the fatal shot during a fit of passion.

Cubans Soon to Be In Control

Washington, Jan. 15.—President Roosevelt has directed that the installation of the president and congress of Cuba, to be elected next December, and the turning over of the island to them, take place not later than Feb. 1, 1909. "If it can be turned over earlier," says the president, "I shall be glad, but under no circumstances and for no reason will the date be later than Feb. 1, 1909."

Complaint of Students

Havana, Jan. 15.—A committee of students from the university have left here for Washington to make an appeal to President Roosevelt against Governor Magoon's decree relative to the examinations and registration of pharmacists who have not graduated from the university.

Nothing Said About Hughes

New York, Jan. 15.—At last night's meeting of the Kings county Republican committee no mention was made of the candidacy of Governor Hughes for the Republican presidential nomination. It was thought that resolutions of endorsement might be offered.

Was Not a Great Fire

Mexico City, Jan. 15.—The fire that destroyed some buildings in the town of El Oro did not attain the proportions reported. The loss is estimated at $50,000. The story that the town had been destroyed is denied.

When You Need a Laxative

Do not resort to violent purgatives which simply produce an effect without removing the cause of the trouble. Cathartics do not cure constipation. Their use eventually weakens the bowels and interferes with digestion. The safe remedy for constipation, whether occasional or chronic is

Beecham's Pills

A short course of these famous pills establishes healthy and regular movements. The occasions for their use then become less frequent, and diminishing doses will produce the desired effect. The benefits from these pills are immediate and lasting. They improve the digestion, strengthen the organs, remove bilious conditions and are world-renowned as

The Best Bowel Medicine

Sold Everywhere in Boxes, 10c and 25c.

Eatables Of the Best!

Foy's is a store for lovers of the best in good food—a store where your daily wants may be well and wisely supplied.

The Observations In the Daily Walk

Knights of Malta whist party tonight.

Annual meeting this evening of Bethany church corporation.

The second annual ball of Quincy lodge of Elks is announced for Monday, March 2.

Friends are sorry to hear of the illness to Miss Susan Ross of Phillips street.

Miss Harriet Stowell of Lynn is the guest of Mrs. J. T. Ayres of Phillips street.

The East Norfolk C. F. Union met Monday evening at the Wollaston Congregational church.

The Tri-Phi club met Tuesday evening at the home of Miss Susan Page of Beach street.

Mrs. G. W. Willoby of Franklin spent Saturday with Mrs. C. W. Page of Beach street.

Miss Simons of Ogdensburg, N. Y., is the guest of Mrs. Charles Gutterson of West Elm avenue.

Two young ladies broke through the ice on Butlers pond Tuesday night. They were rescued by John McClay.

The City Hospital corporation will holds its annual meeting next Monday evening at Colonial ball.

One of the Houghs Neck farmers plowed his garden on Monday. There is practically no frost in the ground.

The ladies of First church are to serve a supper this evening in the chapel to members and attendants at the church.

Dr. E. N. Hardy and Rev. A. R. Atwood assisted in the installation services of the new minister at Pilgrim church, Weymouth, on Monday.

Deacon Charles Sherburne and Mr. Goodhue were the representatives from Quincy Point to attend the installation of Rev. F. G. Merrill, at North Weymouth on Monday.

The nominating committee of the Wollaston Yacht club for the annual meeting are: A. T. Barstow, W. J. Coombs, J. A. Fenno, C. W. Dill and J. A. Whiting.

Mayor Shea will be the guest tonight of the St. Alphusus Athletic club of Roxbury. Gov. Guild, Mayor Hibbard and the mayor of Cambridge are also invited.

A handsome water colored picture, representing a scene on Neponset river, occupies a prominent position in the Mayor's office at City Hall. It was a gifts of Rev. John B. Holland of Weymouth.

There is no truth in the story that some of the policemen have bought phonographs with dance music, and that they are practicing fancy steps for their grand ball Jan. 24. It is cruel thing to say of them.

The composing room of the Daily Ledger was severely taxed yesterday when it was called upon to put into type two full-page advertisements in small type, in addition to the usual amount of news and "ads."

The annual meeting of the corporators of the City Hospital of Quincy will be held next Monday evening at eight o'clock at Colonial ball, for the election of trustees and transaction of business. It is hoped all members of the corporation will be present.

Twelve young men in Atlantic have formed a whist club which excludes from its meetings any member of the feminine gender. The club meets on Friday evenings and reports excellent enjoyment of the game. Small prizes are awarded the winner and light refreshments are served.

A specially appetizing lunch will be served at the Granite City club at the conclusion of the whist tournament this evening. Henry P. Furnald will serve the lunch. The menu will include spaghetti and tomato, tunny fish in oil, Italian cheese, American cheese, rolls, crackers and coffee.

There was a good attendance at the meeting of the Alliance in First church chapel on Monday afternoon. Mrs. Clara B. Beatly of Boston spoke most interestingly on, The Sunday School, as did also Mr. Charles H. Johnson superintendent of First Church Sunday school. There was music and a social hour with refreshments.

AMONG THE CLUBS.

An all day session of the New England Associate Alliance is to be held on Thursday at All Souls' church, corner Warren street and Elm Hill avenue, Roxbury.

Mrs. Alfred P. Thompson of Brook street, Wollaston, is to entertain the Junior Friday club at her home on Monday afternoon, Jan. 20th. Mrs. William H. Whitney is arranging the program, the subject for which will be "Florence and Siena—transition period."

Mr. Delcevare King was the speaker at a recent meeting of the Natich Woman's club and told interestingly of the work done in Quincy for the cause of temperance.

The next meeting of the Wollaston Alliance on Jan. 22d will be a sewing meeting.

By invitation of the Fortnightly club of Winchester the Massachusetts State Federation will be their guests on Saturday Feb. 8th. Prof. Charles Zueblin of Chicago university will speak at the morning session on the "Arts and Crafts Movement" followed by a discussion opened by the arts and craft committee of the Federation.

QUINCY WOMEN'S CLUB.

After what has been a long vacation to most of the club members a large and enjoyable meeting was held Tuesday afternoon at the club house. Mrs. Morton and Mrs. Gurney being ill Mrs. Dexter E. Wadsworth, second vice president was in the chair and conducted the business meeting expeditiously and graciously. Club members appreciate the ability of their presiding officers.

After the business session Mrs. Charles R. Safford, of the Education committee was introduced as chairman of the afternoon's program and presented Mr. Thomas Nelson Shufelt, who sang two groups of songs as follows: Twine Roses, Beam from yonder Star, Under the Rose and Noel. Mr. Shufelt received a hearty greeting, club members remembering his fine singing at the musicale last year. He has a rich baritone voice which he uses most pleasingly. Each selection was applauded.

The speaker of the afternoon was Mrs. Isabelle Davis who was cordially greeted as she stepped upon the platform. Her subject "Voice and Gesture" proved very interesting. She told first of the voice; how to use it, the various tones used in speaking and in recitation, giving illustrations. Gestures were also illustrated and she gave a short sketch of the life of Delsarte and of the benefit of the right kind of exercise. If one used proper care and did a few simple exercises each day there would be no shortening waist line or double chin. With the chin carried well up; bending over with limbs straight and touching the floor with the finger tips several times and when sitting down to sit well back in the chair would do much toward giving one a well developed, supple figure. This caused a ripple of amusement and a creaking of chairs showed that many were trying at least one rule laid down by the speaker.

Mrs. Davis in closing gave a recitation which, brought into action the various tones and gestures. The applause was so appreciative that she was obliged to respond.

Tea and chocolate were served during the social hour, Mrs. Wadsworth and Mrs. Henry Wright pouring the chocolate and Mrs. W. H. Doble the tea, with Mrs. E. W. Sheppard and the hospitabity committee assisting in serving.

The club will have an opportunity to greet their former president, Mrs. Chandler W. Smith, at the musicale on January twenty-eighth. She will give piano selections and there will be violin solos by Mrs. Grace M. Brandon, of Malden, and groups of songs by Miss Winnetta Lamson of Jamaica Plain. Mrs. Jennie Hocking Hunt will be the accompanist.

NEIGHBORING.

At the business of the Mass. State Society, Daughters of the Revolution, to be held at hotel Vendome, Boston, Jan. 16th, the prize essay on "Beaumarchais and the American Revolution" written by Blanche Evans Hazard of Radcliffe college will be read and there will be music.

The Bridgewater club under the auspices of its art and literature committee is to have a series of four literary talks by Miss Ellen Thompson of Brookline.

On Jan. 20th at half past three Mr. Joseph Lee is to address the New England Women's club, taking for his subject, "The effect of Immigration on our National Character." A club tea will follow at six o'clock.

The Winthrop club recently gave the farce "A Gentle Jury" at a recent meeting of the club. It was arranged by the social committee.

Edward Howard Griggs will open his annual series of lectures at Tremont Temple, Boston, on Saturday morning Jan. 25 at eleven o'clock. The subject for the course will be," Great Autobiographies, types and problems of Manhood and Womanhood."

The Boston Record says: "John D. Long has proven the season's social lion in Melrose where he recently lectured on the mobilization of the great fleet, before the Women's club. The ex-governor pointed out the difficulties of moving the fleet and paid an especial tribute to the men who made the dangerous trip around the horn on smaller crafts."

Miss Ellen Thompson of Brookline is to give a series of four talks under the auspices of the literature committee of the Brighthelmstone club beginning this week.

TODAY'S COURT.

Thomas F. Smith was fined $10 for drunkenness at Weymouth.

Thomas H. Moran was sent to the State farm for drunkenness at Weymouth.

F. Lester Jones was fined $10 drunkenness at Randolph.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Quincy is to have a new industry something the women will appreciate, and that is a Woman's Exchange which open today in the P. O. block on Granite street, under the management of Mrs. Miller, who has so successfully conducted, an employment office and dry goods store in City Square. Her new quarters are much larger and more attractive.

Clever Actors.

All the acts at the Scenic are popular this week, and there are large audiences every night.

The Joyce comedy singers, dancers and specialty artists, had the house with them from the opening of their act in their dancing competition.

Juggling DeLisle, the boy wonder, substantiated his name in his act. All watched with rapt attention, his really clever juggling feats.

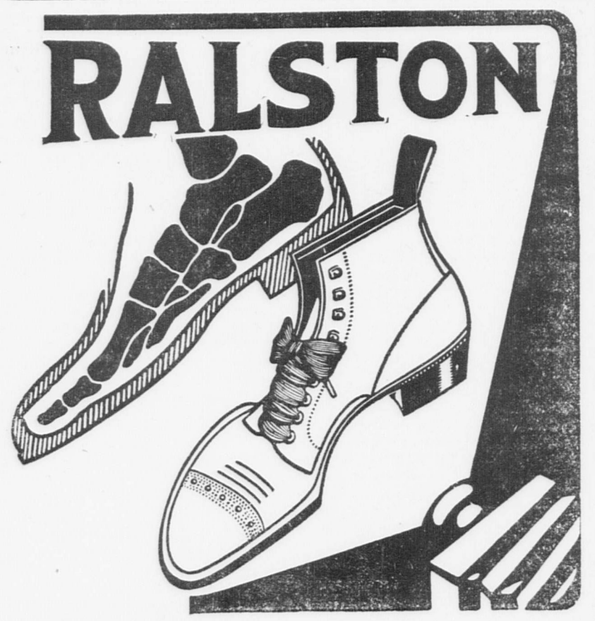

Frank Dorman, a Quincy boy with a pleasing voice, entertained the large audience with several of the most recent illustrated songs. Frank received an ovation at the hands of his many friends for his share of the performance.

Bates and Ernest, German comedians, and one of the funniest and most clever teams on the stage today, kept the audience in a continual "scream" with their funny "dislocations" of the English language. They also introduced several laughable "stunts" in the course of their performance.

Bank Officers

The annual meeting of the National Granite bank was held Tuesday, and these directors elected: — Theophilus King, Rupert F. Claflin, Joseph H. Vogel, James Thompson. Clarence Burgin, Delcevare King, Russell A. Sears, Henry L. Kincaide, Henry G. Smith and Thomas F. Mannix. At a subsequent meeting of the directors Theophilus King was elected president.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell until you try on a pair that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,

Silver Service For the Mayor

The newly elected officers of St. Francis court of Foresters were installed Tuesday evening at Hibernian hall, on Copeland street, by Dennis J. Murphy of Brockton, past high chief ranger.

Mayor Shea who is a member of the court arrived at the hall late in evening, and was promptly presented with a handsome silver service. The presentation speech was made by James H. Elcock, who alluded to the Mayor's long membership and to his efforts to place the court where it stands today.

The Mayor thanked the members for their gift assuring them of his loyalty to the order.

Other brief addresses were made by Arthur Murphy, who had been installed for his third term as chief ranger; Cornelius Duggan of the high standing committee, the installing officer, and others.

Refreshments were served at the conclusion of the meeting. The silver service bore the following inscription: "Presented by St. Francis Court, M. C. O. F., to William T. Shea, Mayor, 1908."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

PROPOSALS—Sale of U. S. Vessels *Pinta* and *Canonicus*—Sealed Proposals will be received at the Navy Department until noon on the 19th day of February, 1908, at which time and place they will be opened, for the purchase of the U. S. vessels *Pinta* and *Canonicus*, appraised values, $1,400 and $6,000, respectively. They will be sold for cash to the person or persons or to the corporation or corporations offering the highest price therefor. A separate proposal for each vessel bid upon must be submitted in a sealed envelope addressed to the Secretary of the Navy, Washington, D. C., endorsed "Proposals for the purchase of the U. S. S.—" (naming the vessel for which offer is made), and each proposal must be accompanied by a satisfactory certified check for not less than 10 per cent of the amount of the offer. On application to the Navy Department, forms of bids and bonds, together with the terms and conditions of sale, also a printed list giving general information concerning these vessels, will be furnished. The vessels can be examined at any time after this date by applying to the Commandants of the navy yards, Mare Island, Cal., and Norfolk, Va., respectively, where they now lie. They must be removed from the limits of said yards within such reasonable time as may be fixed by the Department. The Department reserves the right to withdraw either or both of the above-named vessels from sale and to reject any or all bids. TRUMAN H. NEWBERRY
Assistant Secretary of the Navy, January 11, 1908. Jan. 15-4t-15, 22, 29, 3

NORFOLK, ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

MICHAEL P GOOD,

late of Quincy, in said County, deceased.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, by John J. Good of Quincy, who prays that letters of administration with the will annexed may be issued to him, without giving a surety on his bond, the executrix named in said will being a minor.

You are hereby cited to appear at a Probate Court to be held at Brookline, in said County of Norfolk, on the twenty-second day of January, A. D. 1908, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court, and by mailing, postpaid, or delivering a copy of this citation to all known persons interested in the estate seven days at least before said Court.

Witness, JAMES H. FLINT, Esquire, Judge of said Court, this tenth day of January, in the year one thousand nine hundred and eight.

Waltz German Was a Feature

A private dancing party was held in Brasee's hall, Wollaston, Tuesday evening, under the direction of Mrs. Jennie McCarty. The hall was daintily decorated for the occasion and with the many pretty costumes worn by the young ladies, made altogether a very pretty party. Dancing was enjoyed until midnight. One of the special features of the evening was the "Waltz German" when masks as favors were distributed, and throughout the dance serpentine paper was thrown from the front of the hall. Refreshments were served during intermission and Miss Susie Halloran of Atlantic sang two pleasing solos which were well rendered.

She was accompanied on the piano by her sister Miss Lousise Halloran Cuff's orchestra furnished music for the occasion. It was one of the most successful parties held in Wollaston for some time.

—The Boston Elevated has discontinued its car line from the Neponset depot to Franklin street via Dorchester avenue, running all Neponset cars to the Neponset bridge car house.

BUSY AS BEES.

BUYING---BUYING---BUYING.

A Host of EAGER BUYERS TAKE POSSESSION.

The opening Rush of the Forced Sale at the Big Furniture Store of W. G. SHAW, City Square, opposite Fountain, yesterday, was without question the greatest ever accorded any Sale in The County. No such crowds ever witnessed at any Sale. They came from miles around. One continuous stream from opening till the closing of store.

THE LIBERALITY WITH WHICH EVERY DEPARTMENT WAS PATRONIZED demonstrated that the prices on the goods were so far below any ever offered that

The People Simply Could Not Resist. That Was the End We Sought.

For that we have inaugurated the greatest sale ever known. For that prices have been torn to pieces Some to cost prices and many below cost to manufacture. It is not a question with us of what the goods are worth, but how low must we cut the price to sell the goods at once, right now, during this great sale.

The Cash Must be Realized and have made the most astounding cuts in prices to get it.

Every Item, Every Article in This Store is an Immense Bargain

And Only 9 Days in Which to Buy at Prices Now Being Quoted.

All we can give you here is a suggestion of how profits and a part of W. G. Shaw's investment is being sacrificed as an inducement to you to buy now all you can use of the stock Don't delay. Come today or to-morrow. Come early The crowds are big and we urge early buying for best selections.

A Stock of Unsurpassed Elegance and Completeness at Prices That Records This Sale as the Most Gigantic Sacrifice Sale Ever Inaugurated.

STORE OPEN EVERY EVENING DURING THIS SALE.

Don't Fail to Attend This Gigantic Bargain Sale

AS NO SUCH CHANCE TO BUY AT SUCH IMMENSE SAVING MAY COME AGAIN.

BE SURE YOU ARE AT THE RIGHT PLACE.
LOOK for the LARGE RED SIGNS and NAME on the BUILDING.

PROSPEROUS CHURCH

Over $10,000 Raised in 1907 By Bethany Congregational

The annual meeting of the Bethany church corporation was held Wednesday evening and was largely attended. Harmony prevailed and the reports were encouraging. They showed $10,600 had been raised during the year by the church and the various organization connected with the church.

At 6.30 a hot roast beef supper was served under the auspices of Bethany Brotherhood, President J. E. Myers being ably assisted by V. E. Miller, Mrs. A. H. Gilson and others. It was a supper that particularly appealed to the men.

The church meeting opened at 7.45 with Frank W. Crane as moderator and E. D. Gourd as clerk. The clerk reported 457 members a gain of 23 during 1907. Of these 156 are men and 291 women. The total number admitted was 37 and the loss 14.

Rev. Dr. Hardy, the pastor, reported for the Church committee, speaking of the celebration of the 75th anniversary of the church, the good citizenship meeting, the gain of membership, repairs, etc. He had a special tribute for each of the members who died during the year. The deaconesses had been very faithful in service, making at least 800 calls on aged, shut-ins, and sick. The finances were very interesting. Besides the regular church expenses, about $745 was raised for denominational work, and $2,000 by organizations like the Kings' Daughters for general benevolences, a grand total of $10,600. The spiritual interest was on the increase and the prospects bright.

Dr. C. T. Sherman reported for the Prudential committee, Mrs. George Badger for the Music committee, and E. E. Craig for the Bible school.

The Bible school has 603 in the attending department, and 194 in the non-attending, a total of 797. The total attendance in 1907 was 15,279, and the average 294.

A vote of thanks was extended to Miss Lucy M. Jillson, the retiring librarian.

The report of C. W. Miller the treasurer was itemized. It showed receipts of $6,017.35 for church expenses. The expenditures included $902.81 for repairs. There was a deficit of $318.73, but also uncollected pledges.

W. H. Fay audited the accounts and found them correct. H. Everett Crane reported for the Finance Committee. There were also reports from the Ladies' Circle, the Women's Missionary Society, the Mothers' Association, the Kings Daughters, the Brotherhood, the Young People's Society, the Makaria Fraternity, the Philatheas, the Daughters of the Covenant, the Dorcas Society and the Junior C. E. Society.

A vote of thanks was extended to W. G. Shaw for many years service on the Finance committee, and Rev. Dr. Hardy, Deacon R. D. Chase and Miss Amelia L. Bumpus were appointed a committee to frame resolutions both on Mr. Shaw and Miss Jillson.

The following budget was adopted:

Pastor,	$2200
Bible School superintendent,	900
Janitor,	500
Insurance,	225
Water rate,	25
Fuel,	300
Lighting,	200
Music,	750
Bible school,	225
Calendar,	50
Repairs,	250
Deficit,	368
Total	$5993

The ballot resulted as follows:

Moderator—Frank W. Crane.

Deacons for three years—James E. Myers and George Forsythe.

Deaconesses for one year — Miss Amelia L. Bumpus, Mrs. Annie N. Hayden, Mrs. Jane D. Murdock, Mrs. Fairvilla A. Branch, Mrs. Margaret A. Laing and Mrs. Mary A. Sidelinger.

Clerk—Ernest D. Gourd.

Treasurer—Charles W. Miller.

Prudential Committee — Frank K. Damon.

Auditor—William H. Fay.

Finance Committee — H. Everett Crane, John F. Hunt, Abbott L. Melcher, Charles Sampson and Harry S. Bates.

Music Committee — Mrs. Mabel S. Badger, Harry S. Bates, Edwin I. Beal, Frank W. Crane and Carle R. Hayward.

Bible School Superintendent — Eber E. Craig.

Billiards, Whist And Italian Lunch

The rooms of the Granite City club presented a lively scene Wednesday evening. Besides the weekly whist tournament in which nine tables participated there were several billiard games in progress, every table being in use.

The whist tournament was started a few minutes after 8 o'clock, and for two hours the contest for points was keen. While this was in progress Henry P. Furnald was busy preparing a lunch that was a novelty. It was known as an Italian lunch. First came a Tunny fish and oil salad by way of an appetizer. Then followed spaghetti with tomato sauce steaming hot, rolls, and butter. Hot coffee was next in order, the closing number being gogenzola cheese and crackers.

Another good time is being planned for next week and Henry Furnald promises that the lunch will be all right.

The prizes for the two best whist scores were captured by Charles C. Hearn and Horace E. Spear.

Republican Committee.

Col. George H. Doty, chairman of the Republican State Committee, has announced his committees for the ensuing year. These consist of an executive, a finance, and a committee on rallies.

Col. Doty and A. P. Langtry of Springfield, respectively chairman and secretary, are ex-officiis members of the executive committee. Mr. H. Clifford Gallagher of Milton, the treasurer, is ex-officio, a member of the finance committee.

The headquarters of the State Committee are in the Kimball building at 18 Tremont street, which is connected by telephone.

Installation of Maple Lodge

Electa hall was almost inadequate for the large crowd that assembled from Boston, Brockton, Charlestown, Cambridge and Lynn to witness the installation of the officers of Maple lodge, K. and L. of H., and to test the lodges hospitality. D. D. G. P. Bertha Putman and board of grand officers were the special guests of the evening.

The work of installation was performed by D. D. Lottie L. Eldredge and suite of Brockton, and went off smoothly, the work being finely rendered. The deputy was congratulated by the D. D. G. P. and other grand officers. The pianist, Mrs. Effie L. Rhines, added much to the ceremonies, rendering fine selections as the following were escorted to their chairs for the ensuing year:

Protector—Mrs. Rose A. Reed.
Vice Protector—A. H. Taber.
Past Protector—Mrs. Laura E. Holt.
Chaplain—Mrs. A. Cora Curtis.
Secretary—E. B. Langley.
Financial Secretary—Miss M. Lizzie Furnald.
Treasurer—Mrs. Alberta Hewson.
Guide—Mrs. Adelaide McGrath.
Guardian—Samuel Richards.
Sentinel—Henry L. Porter, Jr.
Pianist—Mrs. Effie L. Rhines.
Trustees—Quincy Tirrell, A. H. Taber and Mrs. Agnes Fletcher.

After the business of the lodge all went to the banquet hall where a fine turkey supper with all the fixings was served. This being over they returned to the lodge room where a social hour was more than enjoyed.

Two Meetings on Grade Crossings

There should be a large attendance tonight at the grade crossing meeting at City Hall, the hearing before the commission appointed by the Superior court will be held Saturday morning, and it is very important that the citizens should become united. While the meeting Saturday will do little more than take a view of the two crossings, and fix a date for adjournment, the citizens should be prepared to present a definite plan. With several plans and as many minds Quincy is very apt to have something forced upon them that nobody will be pleased with.

The elevation of the railroad tracks through Quincy would provide for the Metropolitan parkway near Butler's brook; for the raising of the bridge over Granite; would allow School street to go under the tracks, would allow Water street to go under the tracks, and also allow a new street south of Water street to go under the tracks. This plan would close Saville street to teams but the extension of Upland road to Granite street would accommodate more people than Saville street now does.

A large number of new views are to be shown by the stereopticon at the grade crossing meeting of the citizens in the Council Cchamber, City Hall, tonight. These include a profile showing the grade of the railroad tracks between the Presidents bridge and a point near the Braintree line.

Also a new plan by Frederick E. Tupper, showing Water street passing over the tracks at Quincy Adams. Also a profile of the same.

Five views show how the grade crossings were abolished at Brockton, and six show how the grade crossings were abolished at Attleboro.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

The increase of the rice crop in this country has been the means of booming a great portion of Texas land, so that it is now worth ten times what it was valued at ten years ago.

In a discussion in the House of Parliament relative to the danger of cordite, Mr. Halcane said that he had a walking stick made of this explosive, which he had often carried into the cloakroom of Parliament.

Delay in Alarm Causes Fire Loss

The alarm from Box 152 at 3.30 this morning called the department to a stubborn fire in a house on Calumet street, Norfolk Downs, occupied by Joseph Robinson. As the fire apparatus sped toward the location of the box, the sky was brightly illuminated, telling them that a good fire was in progress. When they arrived on the scene the roof and cupalo was burning briskly, and it was necessary to drown the fire out.

The family discovered the fire some time before the alarm was given, but not having resided in Quincy long they did not know where the fire alarm box was located. They therefore commenced to move furniture into the street. In the meantime the fire was gaining headway. Then someone thought of the telephone and the central fire station was communicated with. The sounding of the box immediately followed.

It appears that during the evening a fire had been built in an open fireplace. Unknown to the occupants the chimney thimble in one of the upper rooms was off, and the sparks probably entered this room. Gradually the little spark got in its work until quite a fire was in progress. It did not make much show for awhile for lack of air. The fire, however, worked its way upward until it had eaten a hole through the roof. This gave the flames air and a brisk blaze was soon in progress.

The roof and upper part of the house was badly damaged, and the loss will be considerable. Mr. Robinson until recently has been employed at the Boston Gear Works.

Chief Litchfield estimates the loss at $3,000. It was nearly three hours after the alarm before the recall was sounded.

But for the family cat it is possible that the fire would not have been discovered as early as it was. The cat was in one of the rooms and was evidently becoming suffocated by smoke. Its frantic crying and jumping onto the bed of one of the children, it aroused the family who were not long in learing that the house was on fire.

Mr. Robinson had but recently purchased the house and moved in with his family.

Daniel J. Nyhan of Atlantic, one of the assistant engineers was seriously injured in responding to the alarm. He jumped onto the rear of Combination 2 at the corner of Hancock and Squantum street, and stood on the step. On Billings road the wagon struck a sewer trench and Engineer Nyhan was thrown forward onto the wagon. It is thought that a rib was broken and possibly other injuries.

The house is reported to have been insured for $5,000.

Busy Night At the Y. M. C. A.

All departments were busy at the Y. M. C. A. building Wednesday night.

At 6.30 a supper was served by the Bible class men, after which they went to their four Bible classes.

At 8 o'clock a dozen High school members formed a debating club to meet alternate Wednesdays. Mr. W. H. H. Pierce was in the chair. An admirable address on "Debating" was given by Mr. Nussbaum of Harvard college. A constitution and by-laws were adopted, and a debate arranged for Jan. 29.

In the bowling alleys Capt. Nichols team defeated Capt. Giles team in a closely contested match.

While this was going on cheers could be heard from the gymnasium where the Employed Boys were fighting to win their game of basket-ball from the South Boston team. The home team won by a score of 20-10.

The Association is a club for young men particularly, and its members will always find a place to spend a pleasant and profitable evening.

Just Jotted Down By Ledger Men

The first month of the new year is half gone.

Another change in the weather. It was several degrees warmer this morning than Wednesday.

Another meeting of South Quincy people was held Wednesday night to discuss grade crossing plans.

A citizens meeting tonight on the abolition plans for grade crossings, and on Saturday at 10 A. M. the Commissioners, hearing.

The Methodist Club of Wollaston will meet this evening at 8 o'clock. Officers will be installed, and Rev. V. A. Cooper will speak on "Reminiscences of a busy life."

The Christian Endeavor society of the Park and Downs Congregational church will hold its next meeting Sunday evening. Miss Inez Jefferson will speak on "How God speaks to man."

On Tuesday, while boys were skating on Butler's pond, a neighbor, C. W. Guy, was planting Dutch bulbs in his garden. This reminds one of reports from Alaska where strawberries grow but a few feet from the icy glaciers. Freaky weather certainly.

FOR THE FIRST TIME

Alleged Eccentricities of Harry Thaw Are Revealed In Court

ODD ACTION AT WHIST CLUB

Defendant Had Three Cigarets Locked In Safe a Few Hours Before Shooting White--Other Testimony to Show That Mind Was Disturbed

New York, Jan. 16.—Adhering strictly to their promise to interpose no other defense than that of insanity in behalf of their client, the attorneys representing Harry K. Thaw at his trial yesterday continued the examination of witnesses who swore that young Thaw at various times in his life appeared to them as irrational and mentally unsound.

Practically all of the testimony was entirely new to the case and had to do with acts down to the day of the tragedy itself. Then came the declaration of ten of the men who sat on the coroner's jury during the inquiry into Stanford White's death, all of whom declared that the defendant the day following the shooting acted irrationally. His manner and appearance were such as to cause the inquest jury to discuss his state of mind after their formal verdict had been rendered.

In the day's testimony there was more delving into the history of the Thaw family, Alfred Lee Thaw of Richmond, a third cousin of the defendant, taking the stand and telling of the taint of insanity which had caused his father and brother to die in state asylums.

Some of Thaw's alleged eccentricities, revealed for the first time, were related by Christopher Baggan, steward of the New York Whist club; by Miss Matilda Stein, a telephone operator, and by August Weber, a former butler in the Thaw household.

Thaw spent a portion of the afternoon after June 25, 1906, at the whist club and at that time—a few hours before the tragedy—was pictured by the steward as being highly nervous and as frequently exclaiming: "This is awful." He asked the steward to have a valuable package put into the safe. After the shooting, the package was opened and found to contain three cigarets wrapped in tin foil. District Attorney Jerome, in cross-examination of the club steward, brought out the fact that Thaw played bridge there with many prominent men. The witness declared he was not supposed to know what Thaw, Gates, Schwab and the others played for, but he was sure nothing but mineral water ever was served at the tables.

The telephone operator told of Thaw putting in seventy-five calls one morning at the Grand hotel and then forgetting all about them. The butler told many details of Thaw's life at home in 1903 and was still under examination when adjournment was taken.

The separate incidents of alleged irrational conduct on the part of the defendant was being put in evidence by Mr. Littleton as the foundation of the expert testimony that is to come. He also hopes to accumulate such a mass of testimony as to Thaw's erratic conduct as to make it impossible for the district attorney to fulfill the task the law places upon him of proving Thaw sane "beyond every reasonable doubt."

Criminal lawyers of prominence who are following the case outlined by the defense and who are taking into consideration the fact that a specific plea of insanity has been entered this year, declare that acquittal under the circumstances can come only with the added clause "on account of the insanity of the defendant at the time the act was committed."

This, it is declared, would compel the presiding judge to commit Thaw to Matteawan asylum, from whence a fight to prove his present sanity and thus gain freedom would have to be conducted through habeas corpus proceedings.

May Mean Labor Struggle

Detroit, Jan. 16.—At their annual meeting here the Lumber Carriers' Association of the Great Lakes decided that it would be impossible to operate their boats during the coming season at the same expense and under the same conditions as prevailed during 1907 and appointed a labor committee to devise means to improve the conditions. This action is generally taken to presage a struggle in the spring with various labor unions.

Suicide of Prominent Legislator

Fredericton, N. B., Jan. 16.—George W. Allen, member of the provincial parliament, committed suicide by shooting at his home here. He had been despondent on account of ill-health. He was 49 years of age and was a son of the late John C. Allen, chief justice of the supreme court of New Brunswick. He was deputy speaker of the legislature and was prominent as a lawyer and orator.

Not Exempt From Taxation

Atlanta, Jan. 16.—Judge Newman, in the federal court here, refused to grant an injunction asked for by the Western Union Telegraph company, seeking to restrain the state from collecting franchise taxes from the company. The company claimed that by reason of an act of congress, giving it the right to run its lines wherever it desired, it was not liable to such a tax.

SARGEANT'S PECULATIONS

Used More Than $100,000 Belonging to Jewelers' National Bank

Taunton, Mass., Jan. 16.—Judge Frederick E. Byran of the district court of Attleboro was appointed in the probate court here as administrator of the estate of the late Frederick E. Sargeant, who was cashier of the Jewelers' National bank of North Attleboro.

In stating his willingness to have Byran appointed, Receiver Bancroft, who is now in charge of the bank's affairs, said that Sargeant had diverted to his own use the bank's money to an amount a good deal in excess of $100,000. He said that the late cashier's estate is badly tangled and that much time will be required to straighten out his affairs, as they had many ramifications. Sargeant, according to Bancroft, was interested in land companies, manufacturing companies, and had accounts in four or five brokerage concerns.

It was learned last night that the widow of the cashier received yesterday from a New York life insurance company a check for $25,000, in payment of a policy taken out by Sargeant a few months before his death.

Populists Tag After Democrats

Lincoln, Neb., Jan. 16.—What is regarded as a direct bid for fusion was made last evening by the Populist state central committee, which selected Omaha, March 5, as the place and date for the state convention. Democrats earlier in the day had named the same place and date for their convention. The Populists declared it was the sense of the committee that delegates to the national convention at St. Louis support William J. Bryan as Populist nominee for president.

Narrow Escape of Wrecked Crew

St. Johns, Jan. 16.—The wreck of steamer Tolesby, Galveston for Havre, which struck near Cape Race, has begun to go to pieces and much of her cargo of cotton is adrift. During a thick snowstorm the steamer struck a ledge, at the foot of a cliff 500 feet high. The crew took to the rigging. After several hours the wreck was discovered by persons living nearby and by lowering lines from the top of the cliff to the steamer's masts they succeeded in rescuing all the men.

"Patriot" Wanted In Russia

New York, Jan. 16.—Jan J. Pouren, wanted in Russia because of alleged implication in a series of robberies, arsons and murders in the province of Riga, was arraigned here before Commissioner Shields. After one witness had been examined the hearing was adjourned for two weeks. Pouren was represented by attorneys for a number of Russian societies, who maintained that the prisoner is merely a patriot under the ban of the czar.

Courtesies to Americans

Rio Janeiro, Jan. 16.—President Penna entertained the admirals and some of the higher officers of the American fleet at a breakfast yesterday at Petropolis. Later there was a garden party at the American embassy in the same suburb. Though Rear Admiral Evans could not be present at these functions, the fleet was well represented.

Appropriation Not Needed

Washington, Jan. 16.—Secretary Metcalf has withdrawn the request made to congress for a deficiency appropriation of $22,350 for equipping the hospital ship Relief, soon to be put into commission. Two colliers have recently been withdrawn from commission and the money thus saved will be diverted towards fitting out the Relief.

Arrest of Bank Officers

Franklinville, N. Y., Jan. 16.—E. D. Scott, cashier, and Roy W. Van Hoesen, bookeeper of the People's National bank of Franklinville, were arrested, charged with making false statements of a bank's condition to the comptroller. Each gave bail in the sum of $4000 for appearance before the United States grand jury.

Five Young Skaters Drowned

Connellsville, Pa., Jan. 16.—Of six persons who formed a skating party at the Jimtown reservoir last night five were drowned. They are: John Luxner, 19 years old; George Cochran, 21; Frank Cochran, Jr., a brother, 17; Will Fulmer, 23, and Elizabeth Fulmer, 17 years old, a sister of Will.

Favorable Time For War--For Japan

Rome, Jan. 16.—The Corriere D'Italia, an organ of the Vatican, in an article on the Japanese-American situaction, says that war between these two countries would be fatal and is inevitable. It expresses the opinion that the present moment is the most favorable for Japan.

Message to Porto Ricans

San Juan, P. R., Jan. 16.—The legislature opened yesterday. Governor Post's message recommended the establishment of additional schools, land registration, the extension of wards, increase in salaries of judges and the payment of taxes on property to municipalities.

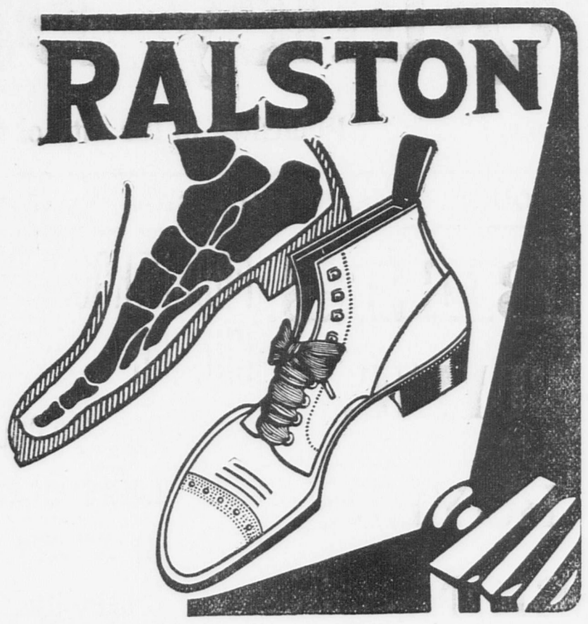

Michigan Central Retrenchment

Detroit, Jan. 16.—Owing to a decrease in business and corresponding falling off in earnings, all division superintendents of the Michigan Central railway have been ordered to lay off as many employes as business will permit.

The Weather Forecast

Almanac, Friday, Jan. 17.
Sun rises—7:10; sets—4:38.
Moon sets—6:34 a. m.
High water—10:45 a. m.; 11:15 p. m.

Rain or snow in New England will be followed by fair and much colder weather.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

HAD NO OPPOSITION

Bay State Democratic Committee Elects Officers

A MILD PROTEST FROM TEN

Objected to Permanent Organization Until Certain Vacancies Had Been Filled--Will Do Nothing, However, to Contest the Choice of Officers

Boston, Jan. 16.—An organization of the Democratic state committee which, it is expected, will prove permanent, was effected at a meeting of thirty-two members from the forty districts. James W. Synan of Pittsfield was elected permanent chairman, receiving twenty-one votes, with no opposition. Other officers chosen were: T. J. Collins, secretary; C. F. Cronin, assistant secretary, and J. F. McGrath, J. F. Millea and J. J. McCarthy, vice chairmen. A fourth vice chairman and a treasurer remain to be selected at a future meeting.

Eleven of those present at the meeting refused to vote for permanent officers, on the ground that certain vacancies on the committee should be filled before permanent organization was effected. Ten of these eleven members had met previously at the headquarters of the committee, but subsequently accepted an invitation to join their fellow-members who had come together at the Quincy house, and it was at the latter place that the business of the day was transacted.

When the entire organization of thirty-four members had been called to order, it was found that G. M. Harlow of Plymouth was representing the Second Plymouth district on the ground that, as there was a tie vote at the caucus last fall, his seat was secure until his successor had been chosen. The full committee, however, thought differently, and Harlow was asked to retire, by a vote of 23 to 11.

Subsequently Richard Oldham of Norwood, who was chosen by last year's committee on the night before the Springfield convention, was also found in the room, but he voluntarily retired when the question of his claim to membership was brought up. Richard Coffey of Lynn, about whose election there was also a question, was the third person to retire.

The committee then proceeded to a vote, although the ten men from the headquarters protested that no permanent organization could be effected until the vacancies had been filled. They refused, therefore, to participate in the subsequent election.

None of the members-at-large chosen at either of the conventions at Springfield was present at the meetings yesterday. Synan, the new chairman, was also chairman at the meeting held at the Quincy house on the 9th instant, which gathered at the call of William S. McNary, while Collins was also secretary of the so-called McNary meeting.

Papers showing the election of Synan and Collins have already been filed at the state house, and it is believed from the remarks of the minority at yesterday's meeting that nothing will be done to contest these elections.

The appointment of the executive committee of the state committee, which will have charge of the party machinery, will rest with Synan, if his election remains uncontested.

Potomac Yields Up Crawford's Body

Washington, Jan. 16.—The body of Lieutenant Crawford, private secretary to Admiral Dewey, was found yesterday in the Potomac river. He disappeared on Nov. 22 last, leaving a note to a friend that he was driven to end his life by financial troubles. Crawford came from Vineland, N. J., twenty years ago, and, although without naval education or training, he ranked as lieutenant after his appointment as secretary to Dewey.

Crisis Relates Only to Budget

Tokio, Jan. 16.—Specials from Washington today say that it is believed that the immigration controversy had something to do with the cabinet crisis. These surmises are entirely in error. The cabinet crisis is purely the result of interior differences over the budget. In the event of the resignation of the entire cabinet its reformation wou'd certainly result in the retention of a number of the present ministers.

Noted Music an a Suicide

Omaha, Jan. 16.—Professor Baetens, aged 82, committed suicide by shooting while seated in a bathtub at his boarding house. Baetens for many years was a solo cellist in Theodore Thomas' orchestra and at one time was head of the Cincinnati Conservatory of Music. He had played before most of the crowned heads of Europe.

Where Justice Moves Slowly

Paris, Jan. 16.—A dispatch from Casablanca states that the French troops have arrested three of the instigators of the troubles in that city on July 31 last, when three tribes raided the town and killed several native guards and Europeans. The men will be tried by court martial.

The Stoessel Court Martial

St. Petersburg, Jan. 16.—The trial by court martial of Lieutenant General Stoessel for having surrendered the Port Arthur fortress to the Japanese is nearing its end. The belief prevails that Stoessel will not be found guiltless.

DYSPEPSIA

"Having taken your wonderful "Cascarets" for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to "Cascarets" for their wonderful composition. I have taken numerous other so-called remedies but without avail and I find that Cascarets relieve more in a day than all the others I have taken would in a year."

MAJORITY HEADLESS

Identification of Many Fire Victims Will Be Impossible

BOYERTOWN'S DEAD NOW 170

Heartrending Scenes In Morgue--Gas Fumes From Tank Used In Show May Have Been the Indirect Cause of the Great Catastrophe

Boyertown, Pa., Jan. 16.—Bearing up bravely under the awful blow which it received in the destruction of Rhoades' Opera house by fire on Monday, this thriving little borough has come to a full realization of the fact that one-fifteenth of its population was wiped out of existence by the holocaust.

The figures compiled by Coroner Strasser show that there are 170 dead as a result of the fire. Of the bodies, or remains, that lie in the four improvised morgues, 115 have been officially or partially identified by relatives or friends.

The public school is also being used as a charnel house. Here the bodies were laid out in rows. Each bit of jewelry or fragment of clothing picked up in the blackened ruins was tagged, as were the charred and blackened bodies or such portions of them as remains, and all in search of missing loved ones were permitted to pass through the gruesome rows to make identifications. Few of the bodies could be recognized by the features alone, as in most cases the upper portion of the corpses was seared or burned to a crisp.

A detail of state police held the anxious crowds in check around the schoolhouse morgue and those seeking missing relatives and friends were compelled to pass in to view the bodies in order. The scenes were heart-rending. Children of tender years were, in some cases, called to make the identification of parents who went to an untimely death in the fire panic, and again feeble men and women were racked with anguish as they came upon some distorted body in which they recognized the form of a lost son or daughter.

Before any of the bodies were removed from the morgue Coroner Strasser empanelled a jury to view the remains and the scene of the devastating fire and to sit at the inquest. After the jury had been sworn in they made an inspection of the ruins and went through the morgues. No date has been fixed for the inquest.

There were fifty-five undertakers or their representatives in the town yesterday and there was plenty for them to do, as all were called upon to assist in preparing the remains for inspection and identification. Strasser says that not more than twenty-five of the entire number of bodies removed from the fire have heads. There are several trunks that probably will never be identified.

Building Inspector Heckman of Reading, who made an inspection of the opera house which was destroyed, said last night: "In my opinion the people in the hall were overcome by the fumes from the tank used in connection with the tableaux lights and simply could not help themselves. A man told me that he reached in the doorway to assist a woman from the building and that he was nearly overcome by gas. He was not in the hall when the fire started."

A committee has been appointed to make a canvass of the borough and arrange for the proper burial of the dead. A call has also been issued for volunteers to help dig the graves necessary to bury the victims.

Will Look After Orphans

Philadelphia, Jan. 16.—The Children's Aid society of this city has arranged to take care of twenty-five children who have been made orphans and left destitute by the Boyertown theatre fire. The children were left without anyone to care for them and they will be brought here and placed in homes.

Indictment of Bank President

New York, Jan. 16.—The special grand jury which was sworn to investigate the conduct of certain banks in New York county, returned two indictments against William R. Montgomery, president of the Hamilton bank. The charges involve overdrafts and overcertification. Montgomery pleaded not guilty, with the usual reservation of his right to later change his plea or demur to the indictments. The $5000 bail required was furnished.

Argentina's Invitation Accepted

Washington, Jan. 16.—Upon the invitation of the Argentine government, Commander Cone has been cabled instructions to make a special visit to Buenos Ayres with the torpedo boat flotilla when the little vessels reach Montevideo. The distance from the latter port to the Argentine cape is only 120 miles up the Platte, but the voyage is not possible for the battleship fleet, owing to lack of water.

Strong Opposition to Beckham

Frankfort, Ky., Jan. 16.—The senatorial situation has changed little, except that the Democrats opposed to the election of former Governor Beckham seem to be more solidly against him than ever and declare that he now has no chance to win. The vote yesterday stood 66 for Beckham, 64 for Bradley, 5 scattering, 2 absentees, and one not voting.

MASKED MAN AND REVOLVER

Combination Proved Too Strong For a New Hampshire Postmaster

Hanover, N. H., Jan. 16.—Postmaster Sampson was held up at the point of a revolver by a masked man in the Hanover postoffice last night and robbed of $570 and a gold watch. The robber escaped.

During the evening Sampson and Assistant Postmaster Kewe were in the office, and just before closing time Kewe went to the basement to fix the fires for the night. He left Sampson sitting at a desk in the back part of the office, arranging his cash. Sampson had placed $570 in an envelope, preparatory to depositing it in the safe, and had the envelope before him on the desk. Suddenly he heard a crash of glass from the window at his side and, turning his head, looked into the muzzle of a revolver held by a masked man standing on the opposite side of the window.

The robber demanded that the money be handed over to him. After the robber had obtained all the money in sight he demanded Sampson's watch. The watch was turned over to the robber, who disappeared.

Fire Destroys Old Church

Boston, Jan. 16.—The Second Congregational church of Dorchester, one of the most beautiful types of colonial church architecture in the city, was burned early this morning by a fire which is believed to be incendiary. The building was erected exactly 100 years ago, the society recently celebrating the 100th anniversary of the erection of the present building. The church had but recently been completely repaired, repainted and refurnished in anticipation of the anniversary exercises, which occurred on Jan. 3, 4 and 5. The loss is $75,000.

Got Nothing From Walker

New Britain, Conn., Jan. 16.—Julius H. Pease, who went to Ensenada, Mex., as the representative of the Savings Bank of New Britain to interview William F. Walker, the bank's defaulting treasurer, who is in jail there, for the purpose of getting information concerning the securities Walker is charged with having taken, returned to this city last night. He refused to give out anything concerning the result of his mission. It is believed here that the mission was not crowned with success.

Wagonload of Goods Missing

Haverhill, Mass., Jan. 16.—A wagonload of fur garments and rugs, valued at $1500, was stolen from a team in Railroad square, according to a complaint made to the police by Abraham Lange of New York, representing a fur importing house of that city. Lange told the police that he had loaded a wagon with furs, intending to offer them for sale, and while he was in the railroad station the team disappeared. Later the outfit was found in Lafayette square, but the furs were missing.

Were Better Off In State School

Portland, Me., Jan. 16.—Joseph Tetrault, Clarence Conant, Elton Cook and Charles Haney, who escaped from the state school for boys Monday evening, were captured yesterday afternoon at New Gloucester, 20 miles from here, by J. F. Hill, a traveling meat dealer. The boys had not eaten a mouthful since escaping from the school. They had suffered a good deal from the cold and were glad to be captured. Hill brought the boys to this city and will receive the reward for their capture.

Steele Incurably Insane

Boston, Jan. 16.—By order of Judge Bond, John A. Steele, who shot and killed Edward H. Cohen and seriously wounded Dennis D. Driscoll at the state house last month, has been committed to the state hospital for insane criminals at Bridgewater. Alienists told the court that Steele, in their opinion, was incurably insane. Steele was on parole from an insane hospital at the time of the shooting.

Swept From Train and Killed

Lynn, Mass., Jan. 16.—Charles E. Norris of Salem, aged 30, fell under the wheels of the Boston-Portland express in this city last night and was killed. Norris was riding on the outside of one of the vestibules of the train and was struck and swept off by the fence which divides the tracks in front of the Lynn station.

Amateur Actress Killed by Fall

Lowell, Mass., Jan. 16.—Miss Katherine J. McDonough, aged 22, who has been prominent in amateur theatricals, was killed last night by falling from a second-story window at her home here. The cause of her fall is a mystery. At the time Miss McDonough was in her chamber preparing to attend an entertainment.

Burning of a Schoolhouse

Attleboro, Mass., Jan. 16.—The Robinson schoolhouse on Brown street was burned last night. The building was of wood, two stories high and was valued at $5000. It was built four years ago. The cause of the fire is thought to have been incendiary.

Experts Testify Against Mahan

Bennington, Vt., Jan. 16.—Expert testimony was given for the state yesterday in the trial of Alfred Mahan, charged with the murder of his 4-year-old niece. Witnesses expressed the belief that Mahan was sane on the day of the crime and is sane now.

Train Took Man's Head Off

Boston, Jan. 16.—The headless body of a man found in the Charlestown freight yards of the Boston and Maine railroad was identified as Arthur Smith of Worcester. He was killed by a train on the Mystic freight division.

MANY HEADS LOPPED OFF

Hibbard Continues Policy of Saving Money For City of Boston

Boston, Jan. 16.—Mayor Hibbard has removed from office Thomas A. Whalen, superintendent of the city printing plant. The salary of the position is $3000. Laurence Minot, a wealthy citizen, chairman of the board of trustees of the municipal statistics department, was appointed to take charge of the plant temporarily.

Mr. Minot is going to serve without pay, and will apply strict business methods to the conduct and management. It is concluded that the mayor is going to demonstrate through Minot's management the practicability and usefulness of the city's plant. If the experiment results in showing that the municipal venture is a costly experiment and is run at a loss it will be abolished.

Mayor Hibbard's decapitations yesterday were H. S. Howard, deputy collector, $1800; E. J. Barrett, deputy collector, $1800; J. J. Feneno, secretary, water department, $2500; D. H. Nooman, clerk, sewer division, $1600; F. J. Kneeland, inspector of painting, $1300; O. S. Grant, constable, street department, $3 a day; H. J. Duffy, constable, street department, $3 a day; 26 inspectors, sewer division, $2.50 to $3 a day (suspended).

Altogether the mayor saved the city approximately $30,000 a year by the discharges made yesterday.

The Vanderbilt-Pepper Case

New York, Jan. 16.—On the ground that her father was mentally incompetent, Miss Minerva Vanderbilt has asked Justice Maddox in the supreme court in Brooklyn to annul the marriage of her father, Edward W. Vanderbilt, to Mrs. Mary A. S. Pepper, the spiritualist. The two were married on June 1, 1907. A few months later Miss Vanderbilt brought suit for the return of property her father made over to his bride, and on the successful issue of that suit she caused the arrest of her stepmother on charges of grand larceny. This case is still pending.

Immigration Question Settled

Tokio, Jan. 16.—The Canadian immigration question has been settled. The Japanese government has received notice that the report of Rodolph Lemieux, Canadian minister of labor, is entirely satisfactory to the Canadian government, and that it would accept in good faith the verbal promise of the restriction of the emigration of laborers, relying upon the Japanese government to enforce the regulations which are outlined in its memorandum. Nothing now remains except the exchange of memorandums between the two governments.

Day of Clipper Ship Returning

New York, Jan. 16.—Closely following the arrival of the ship Glendoon, with her record of thirty-five days from Capetown, comes the ship King George, which arrived only 107 days out from Hong Kong. A remarkable day's run of 325 miles was accomplished when the vessel was in the Indian ocean off Mauritius, being sent along by roaring trades. On several occasions she logged over 300 miles a day.

Saves Millions For China

Washington, Jan. 16.—The senate yesterday passed the joint resolution providing for the remission of more than half of the Chinese indemnity granted on account of the Boxer rebellion. The resolution reduces the amount of the Chinese indemnity against expenses incurred by reason of the so-called Boxer disturbances in China in 1900 from $24,440,780 to $11,655,492.

Receiver For Solvent Concern

Cincinnati, Jan. 16.—Although declared to be perfectly solvent, the Havlin Hotel company has gone into the hands of a receiver, upon application of the Havlin Realty company, which owns the hotel building. The money stringency is given as the reason for the receivership. The assets are $225,000 and the liabilities $60,000.

Quake and Tidal Wave

Port Au Prince, Hayti, Jan. 16.—A serious earthquake has occurred at Gonaives, a seaport town of 18,000 population. A few houses have been destroyed and others were damaged. No loss of life has been reported. Communication with the town is broken. The shocks continue. The first was followed by a tidal wave.

Assignment of Ohio Bank

Norwalk, O., Jan. 16.—The doors of the Ohio Trust company here were closed yesterday. A voluntary assignment was announced. The last statement showed deposits of $412,000 and loans of $380,000.

NEWS IN BRIEF

A bill forbidding the carrying in the mills of betting tickets on horse races and of newspapers containing betting information was introduced in congress by Mr. Gordon (Tenn.)

Abner Podiat, a merchant of Palmer, Mass., filed a voluntary petition in bankruptcy, giving his liabilities as $12,695.

Henry R. French, agent, of Lexington, Mass., has filed a voluntary petitioon in bankruptcy. His liabilities are given as $13,259. There are no assets.

The annual meeting of the New England Shoe and Leather association was held at Boston. It confirmed its previous decision to continue the fight for free hides.

Vice President and Mrs. Fairbanks gave a reception at Washington in honor of the members of the United States senate and their ladies. A large company was present, including President and Mrs. Roosevelt.

The Observations In the Daily Walk

A session of the court for juvenile offenders was held at Quincy this morning.

Several from Quincy were present Wednesday at the funeral of Sheriff Farrell at Randolph.

Mayor Shea says that he will probably announce the personnel of his official family next Monday evening.

The business men's banquet of the Y. M. C. A. will probably be held Wednesday evening, Feb. 12.

Macleod & Quinn of Brewers Corner are to open a market about Feb. 1 at the corner of Hancock and Saville streets.

There is some skating, although the ice is rather thin in places and treacherous. Skaters should therefore exercise considerable care.

Auctioneer Johnson will sell at mortgagee's sale next Tuesday the groceries of A. M. Morton near Fountain square, also horses and wagons.

L. Y. Speare vice president of the Electric Boat Company, will give his illustrated talk on Submarines at the Y. M. C. A. next Wednesday evening.

Hon. W. B. Rice of Quincy was on Wednesday elected a vice president of the New England Shoe and Leather Association. Fred B. Rice is one of the directors.

Mrs. Lucy Emily Carr, daughter of the late Joseph G. Brackett of Quincy, died on Tuesday at Somerville. Mr. Brackett resided on Elm Place near the Universalist church.

New electric light poles have been put up all along Walker street. They are high and stable and look as if they could stand all kinds of wind and weather.

The committee having in charge the arrangements for the second annual ball of the Quincy Police Relief association at Music hall Jan. 24, will leave no stone unturned to make the affair even more of a success than that of last year.

Mrs. John Hays Johnson of 241 Belmont street gives her daughter Katharine a dancing party at Wollaston hall Saturday evening. Mrs. E. A. Jameson, Mrs. C. M. Bryant and Miss E. J. Corlen are to act as matrons.

Dennis O'Neil has been fortunate in procuring the large area next to Pope's on Squantum street down by the boulevard as a skating pond. Mr. O'Neil was unable to secure Jackson's field for this purpose but he lost no time in bettering matters.

Maurice E. Kilpatrick has sold to John G. DuBois of Norfolk Downs his house on Atlantic street which is now being finished. When completed the house will be of eight rooms, up to date in all details and commanding a view of Dorchester bay and regions beyond.

After the Bargains.

George W. Wilson, the manager of the Furniture Sales Co., which is conducting the ten days' sale at the furniture store of W. G. Shaw, reports good results from Daily Ledger advertising. Yesterday was the opening day, and many buyers were out to get the big bargains offered. See big ad" in today's paper, and remember sale is for ten days only.

Humorous Resolves At Men's Club

Humorous resolves were subjects for the debate at the meeting of the Men's club of Christ church Wednesday evening.

The first of the subjects was: "Resolved—That the front end of a ferry boat is the stern." Merton A. Turner opened the debate in the affirmative.

Other subjects were: "Resolved—That a ladies' hat is an artistic creation." Herbert Dickey for the affirmative.

Resolved—"That it is not to an employer's benefit to have workmen who whistle and sing at their work." Arthur Thomas for the affirmative.

Resolve—That the working day commence at sunrise, and that the clocks at the present time are four hours behind. John McGregor for the affirmative.

The last subject was: "Resolved—That West Quincy is the best district."

There was a general discussion on all the subject. Refreshments were served and there was music.

Plans were also discussed for the minstrel show to be given Feb. 27.

Hotel Man Dead.

Frank O. Ketterer, a son of John F. Ketterer, proprietor of Ketterers' hotel, Boston, pasesd away at his home in Germantown on Wednesday, aged 31 years. He had been associated with his parents in their Boston business for fifteen years and was well known in the hotel trade. Early in January he underwent a serious operation, from which he rallied, and was apparently on the road to recovery, when complications set in. He was a member of the Ivanhoe lodge, K. of P., and Boston lodge. B. P. O. E. He leaves a widow and a son.

Historic Quincy.

A large audience greeted Charles H. Johnson at the Quincy Point church on Wednesday evening when he gave his illustrated lecture—"Historic Quincy, past and present." The views were new to most of the audience, and were enjoyed because they were thrown so clearly. There was considerable new about the shipyard right in their midst. The supper which was served by the ladies before the lecture was an excellent one.

Quick growing vegetation is a great trouble to railway companies in South Australia. No less a sum than $80,000 a year is paid for removing the weeds which grow on the permanent way.

THE FIRST EXCLUSIVE ANNUAL
Motor Boat and Engine Show
At Mechanics Building, Boston
JANUARY 25, to FEBRUARY 1.
No similar opportunity has been offered to examine and study the latest developments and improvements in motor boat and engine construction.
Open from 10 A. M. to 11 P. M.
Admission, 50c.

Wollaston Men Lead at Whist

H. H. Ward and J. T. Slade, representing the Wollaston Whist club were top notches in the large field at the Mystic Valley meeting on Wednesday evening. R. F. Foster and C. A. Barker also had a high score. J. H. Broughton and E E. Hoxie, also Gordon Eaton and F. T. James, were just above the line. These from Wollaston had a miuns score: G. R. Thomas and A. B. Hillman, W. J. Hatch and G. E. Curry, R. T. Anthony and H. A. Stevens, V. S. Brokaw and A. C. Littlefield.

The Wollaston club men now stand at the head in the tournament as will be seen by this summary:

Wollaston	Plus 40
Central	Plus 40
Waltham	Plus 34
Old Belfry	Plus 15
Alter Ego	Plus 5

The Red Men's Bowling League

Teams 1 and 2 were the winners in the Red Men's bowling league at Norfolk Downs on Wednesday and both are tied for first place.

Team 2 found Team 3 an easy mark winning the first game by 56 points, the second by 35, and the third by 6.

The summary:

TEAM 2.

Smith	91	90	86	267
Whall	92	84	76	252

Probate Court.

Judge White held Norfolk county probate court on Wednesday at Dedham.

Wills allowed—Anna H. Tower of Weymouth, Edward D. Roofey of Hyde Park, Mary Rogerson, otherwise called Mary Rogerson Monks of Medway, Ann McGuire of Stoughton, Edith M. Roberts of Wrentham.

Administrations granted—On the estates of Adam Capen of Stoughton, Cynthia W. Haynes of Medfield, Leverett N. Weeks of Dedham, Catherine A. Murphy of Needham, Mary E. Lyman of Dedham, Ellen York of Medway, Phebe H. Healey of Dedham, Annette Merrill of Quincy, Mary A. Klausen, of Randolph, Mary Curran of Norwood and Charles D. Tisdale of Randolph.

Several accounts were allowed, inventories filed and trusteeship granted.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

CHRISTMAS WITH ATLANTIC FLEET

Gay Day on Our Battleships Off Port of Spain.

SPORTS OF ALL VARIETIES.

"Rookie" Ship's Officers Won Boat Race For One Mile—Strolling Minstrels From the Vermont Gave the Fleet a Moonlight Serenade—Complete Yet Pleasant Surprise.

Two-thirds of the 14,000 men of the American fleet on its way to the Pacific coast never spent Christmas in a tropical country before. Accustomed to snow and frigid weather, thousands of them found it difficult to realize that it really was Christmas with the thermometer well above 90, the crews in white and awnings over the quarter decks, says the New York Herald's special correspondent, writing from Port of Spain, Trinidad.

If anything were needed to prove the contentment of the men with their lot, the fact that hundreds who were entitled to liberty preferred to stay on board would suffice. Christmas morning came with a flood of tropical sunshine, but not enough wind to make a whitecap in the broad gulf of Paria, a beautiful expanse of deep water, fed to the westward of Trinidad by the Orinoco river. Ships were dressed in keeping with the spirit of the day. Instead of lines of colored flags, Christmas greens were lashed to the trucks, the yardarms, the rails and the gangways, many of the latter being so adorned with palms that visitors had to press through a jungle of green on their way up to the deck.

Boat races occupied most of the forenoon. Challenges had been given and taken all during the cruise from Hampton Roads. Immediately after breakfast the stake boats took positions at the extremities of a one mile course, with the finish just off the bows of the flagship Connecticut, where the fleet's athletic officer, Lieutenant D. A. Weaver, was in charge of the events.

Better sport than was provided by the chief petty officers' racing cutters race for one mile could not have been wished for. Seven crews lined up at the start, and all were off with the gun, the Vermont leading and the Kentucky, Alabama, Illinois, Kearsarge, Connecticut and Minnesota following irregularly behind. Eighty-four brawny chief petty officers, bending to oars with the unparliamentary language of cockswains pounding their ears, drove the lean racing cutters through the water. The fast flying craft were followed each by its own steam launch.

It was impossible to note the relative position of the crews throughout the race, for they gained and fell back alternately, and the race remained in doubt until the finish line had been crossed, and the crew of the Kentucky, last ship of the fleet, which was Rear Admiral Evans' flagship when he was commander in chief of the Asiatic fleet, crossed their oars, drifted under the bows of the Connecticut, caught a line from their steam launch and were towed back to their ship, whose men nearly jumped over the rails with enthusiasm.

Then came the mile race for gigs, which was won by the Rhode Island crew, with the Kentucky and the Yankton following, the latter boat pulling only five oars. The race was the outcome of the Yankton's challenge during the period when the little yacht was wallowing in seas which scarcely disturbed the battleships on the run from Hampton Roads.

The signal forces then had their turn in dingeys, which proved a stirring prelude for the chief event of the day to the entire fleet—the officers' race for one mile. The athletic spirit of the fleet has taken stronger hold of no one more than the commissioned personnel, and this race brought out a larger field than any other event, eleven crews getting away with the gun. All relied on a sharp, short, fast stroke. Forty-two to the minute was a frequent average for the first quarter mile. The contest was in racing cutters.

The officers' race was remarkable in that all were favorites. Each boat had from 900 to 1,000 men and officers cheering madly for it. The Louisiana, Vermont and several others had rigged pulling machines in the cruise from the United States and had worked faithfully to get in shape, but it remained for the Kansas to carry the day. Her officers had no pulling machine, but twice daily did their mile or two to improve their wind. The more glory to the namesake of the Sunflower State, too, for she is a "rookie" ship, having been only recently commissioned under Captain C. E. Vreeland. She is learning to accept laurels with nonchalance, having captured the football championship from the other "rookie" ship, the Vermont, just before leaving the United States.

While the traditional blanket could hardly have covered the contestants as they finished, yet they were well bunched. The Kansas was mistaken for the Kearsarge, and the signal announcement was made that the Kearsarge had won. This was corrected later. That ended the racing programme.

Every ship had something doing in the afternoon. Captain Wainwright remained aboard his command, the Louisiana, all afternoon, supervising all sorts of sports, for which the quarter deck was turned over to the men. There was a "lemon race," a great favorite, in which each contestant carried a spoon in his mouth and a lemon in the bowl. Potato races and obstacle races filled up the afternoon until it was time to get ready for the Christmas dinner.

If any person is inclined to give credence to the letters signed "Bluejacket" or "American Seaman," which sometimes appear in the newspapers, in which complaint is made of the food, he should come aboard a man-of-war, and fifteen minutes at mealtime in the general mess will open his eyes.

The enlisted men of the United States navy are better fed than any force of fighting men in the world. And the food is not always simply "plain, but wholesome." It is varied and wholesome, and on holidays, like Christmas, it is really elaborate, with enough sweet stuff and "trimmings" thrown in to produce the "tummy ache" of boyhood days, without which no Christmas or Thanksgiving celebration is a complete success.

Imagine a broad, deep blue gulf, with just the flutter of a southern trade wind caressing its surface and a sky equally blue, save where a million stars help a golden tropical moon to give light enough to bring into shadowy relief the vast bulk of sixteen battleships. Then imagine a barge drifting from ship to ship, the strains of mandolin music and twenty-three white figures caroling this Christmas lay:

Merry Christmas! Merry Christmas! All happy and well!
Here comes the Vermont! Say, don't she look swell?
We're a high rolling, rollicking crew.
Merry Christmas! Merry Christmas to you!

This may serve, though inadequately, to give an idea of the most picturesque feature of the Christmas celebration of the Atlantic fleet at Port of Spain. The steerage or junior officers' mess produced the song, and it made such a hit aboard the Vermont that it was agreed to give the fleet a moonlight serenade. Venice could have lent no more beautiful setting for the anchorage of the fleet.

After dinner on the Vermont, which was made a family feast in the wardroom, with Captain W. P. Potter as the chief guest, a sailing launch was called away, and twenty-three wardroom officers and midshipmen, the latter and a visiting surgeon strumming mandolins and guitars, crowded aboard. A line was passed to a steam launch, and the strolling minstrels were under way for the flagship.

Every one was below at Christmas dinner when the launch drifted silently under the stern, and then upon the still evening air, while yet the O. D. (officer of the deck) was peering over the rail to determine what was bearing down upon the flagship, there rose the tinkle of the mandolins and the chords of the guitar and the deep throated song:

Merry Christmas! Merry Christmas! All happy and well!
Here comes the Vermont! Say, don't she look swell?
We're a high rolling, rollicking crew.
Merry Christmas! Merry Christmas to you!

In the stern sheets stood a trim figured, dark haired lieutenant in white evening uniform. With a megaphone he gave a low command and then, swinging it toward the flag quarters aft, roared, "Three cheers for Admiral Evans!" They came with a "hip hip," then three for Captain Osterhaus and then three for the officers and as many for the crew. The launch was now drawing away in the dark, and a hush fell, to be broken a moment later when a whistling chorus broke into "Honey Boy," the Vermont's ship song.

Down the first division, up the second and on to the end the launch load of fleet carolers made their way. Cheers for flag officers were given wherever flagships were approached and cheers for all captains and crews.

The fleet was taken by surprise. It was something new. Deck officers acknowledged the greeting by waves of their caps and shouted equally good wishes.

The Louisiana, fourth ship of the first division and accordingly the Vermont's neighbor, was the last visited, and there, as they had done earlier in the evening, the Vermonters went aboard, and when the traditional ceremonies were to be performed in the wardroom, gay with Christmas trimmings, they broke into this song:

Here's to you, Louisiana!
Here's to you, our jovial friend!
And we'll drink before this jolly crowd,
We'll drink before we part.
Here's to you, Louisiana!

Such a celebration could be possible only in the tropics. In American ports the singers probably would be run down by ferryboats or arrested by harbor police. If the Vermont's innovation becomes a custom the service will gain a picturesque holiday feature, which will compensate for the loss of some of the atmosphere of the old navy.

In the evening two or three minstrel shows were also given, visiting parties passed from ship to ship, and under a star sprinkled moonlit sky the celebration of Christmas came to an end.

Automobiles on Rails.

Locomotives cannot always be had for drawing special cars for the use of railway inspectors, and this condition is causing a growing demand for small inspection cars that are propelled just as automobiles are—in fact, they are railway autos, says the Pathfinder. They are coming into use in all countries where there are railways. In the United States these inspection cars are made so as to make a speed of forty miles an hour, and enough gasoline is taken along to run the auto 150 miles. Even in India these machines are being used, and one manager of a railroad has had a machine built that will run either on the rails or the wagon roads.

Newsy Budget From Shipyard

The middle bearings for the 2000 K. W. Curtis turbine of the Old Colony Street Railroad Company is being re-babbited at the Fore River machine shop.

William H. Godfrey, foreman of the shipwright department, on his way to the yard a few days ago, secured a dandelion blossom in full bloom.

Captain J. Pillsbury has been appointed to succeed Rear Admiral Brownson as chief of the bureau of navigation. The new chief hails from Lowell, Mass., and is well known about Boston and vicinity on account of having been stationed at the Charlestown navy yard after the close of the war with Spain.

The long-delayed report on the collision of the sound steamer Larchmont and the schooner Harry Knowlton, off Block Island, Feb. 11, 1907, was sent to Congress a few days ago by Secretary Straus in response to a special resolution adopted by the House last winter. The investigation was made by William E. Withey and John Stewart, steamboat inspector at New London, Conn. They reported that the pilot of the Larchmont, John L. Anson, who is dead, was to blame for the accident. Captain George W. McVay of the Larchmont was exonerated of blame for the occurrence, but he is censured by the inspectors for his alleged bad judgment in handling his vessel after the collision. The officers and crew of the Harry Knowlton are said to have acted in accordance with the navigation laws. The collison and the subsequent loss of both vessels and nearly one hundred lives is found by the inspectors to have been due to "careless and unskilful navigation" on the part of Anson. "We cannot commend or mention with approbation the judgment displayed by Captain McVay in his efforts to save the lives of his passengers and crew," say the inspectors, "but evidence is wanting to warrant our charging him with incompetency or misconduct."

The battleship Dreadnought has returned to home waters after a six weeks' experimental cruise of an important character. The chief feature of the cruise has been the big gun trials, which were carried out at Aranci Bay to secure secrecy. The big ship first proceeded to Bantry Bay on leaving Portsmouth and Plymouth and then continued on to Gibraltar and the Mediterranean. Battle practice with the twelve-inch guns was carried out at a range of nearly four and one-half miles, and twenty-five hits in forty rounds were made on the service target, the cruiser Euryalus, flagship of the fourth cruiser squadron, acting as marking ship, and returning home in company with the Dreadnaught. The trials were carried out in such a way as to give a special strain to the hull, and the result of the test gave satisfaction. On the way out the new steering engine which had been fitted at Portsmouth Dockyard was tested. It was claimed to possess special advantages for a ship with twin rudders like the Dreadnaught, and acted so efficiently that it is understood it will be used in the entire class of seven Dreadnaughts which are built or under construction. New propellers were also experimented with. They are of less pitch than the originals, which for an unascertained cause lost speed-productive power on the race home from Trinidad, and arealso said to have given every satisfaction, the speed of the ship being appreciably augmented.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

DEAD OR DYING.

Reaction Is Slow, but Sure, Against Civic Commercialism.

The mayor of Holland, Mich., writes that negotiations are on foot to have a private company supply the lighting. It would cost $30,000 to put the municipal plant in condition for efficient service.

At a citizens' meeting recently held in Trenton, Mich., the city council was instructed to enter into negotiations for the sale of the electric light plant.

Chester, Ill., has voted against the purchase of the waterworks system.

Manitowoc, Wis., recently voted two to one against purchasing the waterworks and four to three in favor of submitting the question of rates to the state commission. Only about a quarter of the regular vote was polled, which is not encouraging to advocates of the "referendum."

By a vote of 329 to 44 the people of Washington, Ind., rejected a scheme for remodeling the municipal lighting plant notwithstanding the alternative presented by the common council of providing for extensive repairs or eventually abandoning the business of municipal lighting. The plant has fallen behind year after year, although liberal appropriations have been made for its support, and repairs have been neglected till it is little better than a mass of junk. An expert who recently examined it decided that it would require $38,000 to put the plant in good running order, and the people were asked to vote on the question of expense. The negative vote means that the plant will be sold.

ENTIRE CITY INTERESTED IN YOUNG MAN

Cooper's New Theory Attracts Widespread Attention During Stay in Cincinnati.

An adequate idea of the intense interest which has been aroused by young Mr. Cooper during the past year with his theories and medicines is given in the following article which appeared in the Cincinnati Post while Cooper was introducing his ideas to the people of that city. The article says: "The beginning of Mr. Cooper's second week in Cincinnati gives every indication that he is to enjoy the same astonishing success here as in other cities.

"From the first day of his visit the crowds that call to see him have steadily increased, until now it has reached a point where several thousand talk with him each day. The entire city seems to have become interested in his theory that the human stomach is degenerate, and he already has an army of followers in Cincinnati who seem positive that his claims are correct.

"A number of Cincinnatians were interviewed at Cooper's headquarters on Friday, and several interesting statements, showing their intense faith in Cooper's preparations, were secured. The following are selected from these statements and are characteristic of them all: Mrs. M. E. Emerson of 630 West Court street, said: 'I have suffered with stomach trouble and constipation for a year or so. When I ate I would have bloated spells, sour stomach, fermentation, bad taste in my mouth. In the morning I was as tired as when I went to bed. I had a dull pain in the lower part of my back. I have taken almost one bottle of the New Discovery and am so wonderfully improved that I have come down here to thank Mr. Cooper in person and obtain more of the medicine.'

"Another individual interviewed was Mr. J. H. Brooks, living at 527 Walnut street, who had the following to say: 'For the past eighteen months I have been a constant sufferer from catarrh of the head and stomach. My nasal passages would become inflamed and sore. I would have severe headaches, which affected my eyes, and great crusts of matter would drop into the throat, causing an irritation of the bronchial passages, until the stomach finally became poisoned. When I would lay down at night a phlegm would gather in my throat until it almost choked me, and would cause an annoying cough. Half a bottle of Cooper's New Discovery gave me relief, and when the first bottle was finished I felt like a new man. I am now completely cured and consider Cooper's New Discovery the greatest catarrh, blood and stomach remedy in the world.'"

The Cooper preparations have been wonderfully successful throughout the United States. We consider them remarkable medicines and would be pleased to explain the nature of them. —E. J. Murphy.

NO PLANS APPROVED

Grade Crossing Meeting of Last Evening an Illustrated Lecture

There was a very large attendance Thursday evening at the citizens' grade crossing meeting at City Hall. Ex-Mayor Thompson presided, and at the opening he stated that a number of views of the crossings at Brockton and Attleboro would be shown.

Ten views were thrown upon the screen showing crossings in Attleboro before and after the separation of the grades.

As each view was shown. G. B. Bates jumped to his feet and asked if it would not have looked better with the tracks depressed rather than a Chinese wall. The question came so often that the smile went around and ex-Mayor Sears suggested that sarsaparilla was the best thing for that depressed feeling.

Several views of the grades as separated at Brockton were then thrown upon the screen.

Ex-Mayor Porter remarked that the streets under the stone arches were very unsanitary, and that the steps leading from the street to the depot at Brockton were not very clean when he had seen them.

The next picture was a profile of the railroad through Quincy from Presidents bridge to the Braintree line. This was an interesting view and showed how very uneven the grade was. The tracks at the Quincy station were 13 feet higher than at Presidents bridge or at the culvert just north of the School street bridge.

Mr. Bates remarked that the tracks could therefore be depressed 13 feet at Saville street and the tracks would then be level.

This would mean that the level would be 9 feet below Water street.

In reply to questions, City Engineer Flood said that the grade at the Quincy and Braintree line was 61 feet and at the Braintree depot 81 feet. To depress the grade at Water street would make an impossible grade.

Mr. Bates asked a number of questions as to grades at different points, his idea being that the tracks could be depressed all through Quincy to Braintree. This would be much better than a lot of Chinese walls through the city.

The next view was the new plan of Frederick E. Tupper, C. E., for abolishing the grade at Water street. This plan proposed to cross the tracks by an overhead bridge. It contemplated widening Water street on the east side between Franklin street and the street railway turnout giving a street 60 feet wide. Commencing at Franklin street, the grade would be one of 3.7 per cent. There would be abutments for the bridge on both sides of the present tracks and nearly to Pleasant street. Then the street would taper off at a 3 per cent grade until it reached the present street near Craig's sheds. This would allow stone teams to pass under the street at a level into the new freight yard.

A new street was proposed starting from a point on Water street near the turnout. This street would be in the form of a loop. It would pass through the site now occupied by Crane's hay sheds and take a small corner of the Merry Mount Granite Co., property. This way was so that heavily loaded teams coming from West Quincy could go by way of this new street to Liberty street, thence on level ground to the new freight yard.

The plan proposed does away with the end of Presidents avenue at the junction of Water street. Federal avenue was to be extended in a straight line to Water street making a new street.

The property on both sides of Water street would have to be raised to the new street. Provision was also made for a new station on the east side of the tracks, as well as a station on the west side. The proposed new Water street would be a solid fill on both sides to the abutments. The grade of Franklin street where it crosses Water street would be raised 2 feet, 6 inches.

Another view of Mr. Tupper's plan was a profile showing the grade of the tracks between Quincy Adams and the Braintree depot also the grades on both sides of the proposed Water street.

Upon motion of Mr. Blackmur the report of the committee on Water street was taken from the table and recommitted.

Upon motion of Mr. Blackmur, the following gentlemen were added to the committee: John L. Miller, Andrew Milne, Frederick L. Jones, John R. Richards, Robert E. Foy and Walter P. Pinel.

The report of the committee on Saville street was also taken from the table and recommitted.

Mr. Angier suggested that some views be obtained showing the depressed tracks on the Boston & Albany road.

The meeting then adjourned.

Ladies' Night At Y. M. C. A.

The bowling alleys have been unusually busy on account of the bowling league occupying them three evenings. Mr. Sanberg's team won two out of three games Thursday night.

This is out of town week for the basket ball teams. On Thursday Quincy first team played in Cambridge. On Saturday the Intermediates play in Somerville, and on Saturday the second team play in Somerville.

Wednesday evening the Employed Boys team won from the heavy team of Westminister, Jrs., of South Boston by a score of 18 to 8. David Dakers has been elected captain of this team.

The Candy league continues to flourish. Thursday the Fudge won from the Caramels. Saturday morning the Chocolates and Caramels battle again.

Saturday evening will be Ladies' night at the gym, and every lady is invited to be present and see the work. The St. Marys Jrs., will play against our Advanced Jrs. at 7.30. A fast game is promised. There will be music, drills, gymnastics, games, and fun for all. Admission free and all are welcome.

STILL IN CONTEST

J. T. Cavanagh Actively Supported For Commissioner Of Public Works

The hustlers for city jobs are beginning to cool off a little, except those that are working in the interest of John T. Cavanagh for Commissioner of Public Works. They have not given up the fight as yet.

Mr. Cavanagh served one year in the office during the administration of Mayor Keith in 1899. Quincy has had but seven Commissioners during the nineteen years of its city government, the longest in service being Charles F. Knowlton.

In 1889 the Commissioner was John Pritchard. The next year there was a change, and George Alexander came in for one year. Then W. Walter Ewell served three years. In 1894 Mayor Hodges appointed William N. Eaton, and he was reappointed in 1895.

It was a Democratic Mayor, Hon. C. F. Adams, who first went out of town for a Commissioner, who served two years under Mayor Adams and one under Mayor Sears. Mayor Keith made a change in 1899, and John T. Cavanagh was named.

In 1900 Mayor Hall put back Mr. Knowlton, and reappointed him in 1901. Mayor Bryant also continued him three years. Thomas F. Burke, the present Commissioner served during the three years of Mayor Thompson.

It is said ex- Commissioner Knowlton was the choice of May or Shea for the appointment, but could not be prevailed upon to accept.

Good Work at St. Chrysostom's

The annual parish meeting of St. Chrysostoms church, Wollaston, was held Monday evening in the parish rooms. The regular election took place, reports were made, and business transacted.

The report of the Woman's Guild showed good work done, they having made the last payment on the rectory mortgage debt.

The election of officers resulted as follows:

Senior Warden—Frank E. Cleveland.

Junior Warden—Percy L. Davidson.

Treasurer—John W. Atkins.

Clerk—Theodore Parker.

Vestrymen—Herbert H. Albee, C. J. Hennigar, R. W. Whiteacre, H. B. Barham, H. W. Richmond, E. Landis Snyder.

Delegates to Diocesan Convention—F. E. Cleveland, P. L. Davidson and E. Landis Snyder.

Delegates to Archdeaconry Convention—H. W. Richmond, J. G. Jacobs, Charles Kolsted.

During the past year $475.00 has been given to the rector, Rev. A. Edwin Clattenburg, for the church mortgage debt. A vote of thanks was passed showing the appreciation of the parish for the services which Edward A. Lyman has rendered the parish in the past fifteen years.

Owing to a slip on the part of the chairman of the meeting, no action was taken in regard to the faithful work done by W. D. Purdom the past year as sexton. He offered his services for one year if the money which should have been paid him were given toward paying off the church mortgage. A vote of thanks should have been passed, acknowledging this great service.

During the year Mrs. Charles J. Anderson gave to the church a lecturn Bible, in memory of her two children, Carrie Florence and Charles William Anderson.

Two members of the Atar Guild gave to the church last Easter a white silg shalice veil, burse and bookmark, beautiful embroidered.

The Altar Guild has given a green chalice, veil, and burse. They also gave a surplice.

Mrs. David L. Jewell secretary and treasurer of the Woman's Guild since 1893 burned the rectory mortgage note while the Doxology was heartily sung by all present. Mrs. Jewell read a brief history of how it came into possession of the Guild in 1896. They made nine payments in all $4,500.00.

Refreshments were served by the social committee of the Guild, Mrs. D. C. Miller, chairman.

$25,000 Fire At Milton

The most disastrous fire that Milton has had for a long time was that which distroyed the large stable of Mrs. Charles Van Burnd on Brush Hill road, Tuesday afternoon. The origin of the fire is somewhat of a mystery. It appears that about 5 o'clock that day several of the men employed in the stable were in the basement seated about the heater. The sudden stamping of the horses caused them to investigate. As they went up stairs they found the stable filled with smoke, and that it was impossible to get the horses out. When Chief Choate arrived in response to the alarm, he immediately ordered a second and then a general alarm sounded. This brought all of the town apparatus, as well as aid from Hyde Park. The stable burned like tinder the flying sparks igniting several buildings in the neighborhood, threatening to cause a conflagration. The stable was practically destroyed, including four valuable horses, brass mounted harnesses and imported carriages. Chief Choate estimates the loss at $25,000. He has been unable to determine the cause of the fire.

Leap Year Surprise For Methodist Club

The January meeting of the Methodist club was held last evening in the Wollaston M. E. church with a good attendance. In the midst of the business session there was considerable disturbance caused by the entrance of a large body of the fair sex. A committee appointed to ascertain the reason of the intrusion brought back the report that there had been a unanimous New Year's resolution on the part of the ladies to keep in closer touch with what the men were doing.

The newly elected officers were installed by Mr. George Taylor and suite in a painstaking and praiseworthy manner.

The new officers are:

President—Arthur B. Cassidy.

Vice President—Samuel A. Kay.

Secretary-Treasurer—A. N. Murray.

Executive Committee—R. B. Smith, L. A. Merrill, F. O. Bennett, F. A. Sutermeister and S. N. Belcher.

The violin solos by Mr. Upton were a rare treat. Rev. Varnum A. Cooper, one of the patriarchs of Methodism, talked to the club on "Reminiscenses of a busy life." With the skill of a writer he carried the audience back over seventy years to the scene of his boyhood in the little Connecticut town and from that point they travelled with him through the intensely interesting experiences of what has certainly been a busy and fruitful career.

He sketched in a very entertaining manner incidents of his life from boyhood. The youngest of a large family of children, an orphan at 10 years; cook on a coasting vessel at 12, voyage to Turkey; desertion of vessel in New Orleans; narrow escape from wreck off Absacom; abandoning the vessel at Boston; a winter was spent at North Bridgewater learning the shoe-makers trade with a former shipmate. An unexpected attendance at a Methodist prayer meeting during this interval ashore led to conversion and a desire for a better education. The sea fever led to several other trips at sea, until enough education had been acquired to obtain a situation as a school teacher. Then the call to the ministry more study and the commencement of his life work in the ministry. Had been stationed in twelve different charges in three conferences; 22 years as superintendent of Little Wanderers Home in Boston, and when most men would think they were entitled to a cessation of active duties, taking up the work of collecting a fund for the benefit of ministers of the gospel who have worked to their limit for the cause of their master.

A resolution was adopted inviting all the men's clubs of Wollaston to a union meeting to be held in the Wollaston M. E. church, in February. An address by an interesting speaker, and music appropriate to the occasion to be arranged by the executive committee.

After the address the ladies provided a bountiful collation.

The executive committee had voted that there should be no refreshments. those who staid away because of this announcement resolve not to do it again.

Just Jotted Down By Ledger Men

The ice men are begining to fear that they will not be able to harvest any ice this year.

The recent ball of the Firemen's Relief Association netted $462, which has been added to the relief fund.

All the members of the Citizens' Association have been notified by postal of the grade crossing hearing by the Commissioners on Saturday.

At the recent meeting of the directors of the Citizens' Association, George H. Brown was elected president, Paul R. Blackmur as vice president and Emery L. Crane as secretary. Charles H. Burgess resigned the office of secretary on account of ill health.

The fourth quarterly conference will be held at the West Quincy M. E. church, Thursday evening, Jan. 23, at 7.45. Rev. John Galbraith, D. D., of Boston district will preside at the business meeting, and also speak to the congregation on some church topic of interest. All will find a cordial welcome.

SHOT BY ALLEGED ROBBER

Policeman Held on to His Man After Being Fatally Wounded

Boston, Jan. 17.—Patrolman John T. Lynch, connected with division 2, was shot by William Foley, aged 24, whom he placed under arrest last night. Lynch died an hour after the shooting.

Patrolmen Lynch and Doyle, the latter being in citizen's clothes, had been sent out especially to find three men who had earlier in the evening broken into and robbed the store at 364 Washington street, running off with several sweaters which were near the door. The police had secured a good description of the men and Doyle had but a few moments before left Lynch when he heard three shots. Rushing to Lynch's aid, he saw Foley, one of the men for whom he had been looking, held to the ground by the wounded officer.

Foley was recognized by the police as a former resident of South Boston and they claim he had a short time ago completed a sentence of three years for breaking and entering. Besides the 38-calibre revolver he carried, there was found on his person fifty rounds of ammunition and a bunch of skeleton keys.

But one of the three bullets fired struck Lynch. The bullet entered the left side and struck downward into the abdomen, the man dying of internal hemorrhage. Lynch was 28 years old.

Law Case Dragged Over a Century

Boston, Jan. 17.—A case which has dragged through the courts of Massachusetts for 122 years was finally closed yesterday by the decree of Judge Grant in the probate court directing William W. Risk, public administrator in nine estates, to pay to the state treasurer the sum of $10,356. The estates represented were those of nine men, creditors of the estate of Ellis Gray, a Boston merchant, who died in 1786. While the estate was still in the probate court in 1838, deposits were made in the Suffolk savings bank by order of the court for the benefit of the nine creditors, but neither they nor their heirs could ever be found. The deposits accumulated to $10,356.

Asks $5000 For Loss of Love

Lynn, Mass., Jan. 17.—Papers in a suit for $5000, brought by Edward C. Longley, a street railway conductor, against George C. Evans, a real estate owner, for alienation of his wife's affections, were filed at Salem yesterday. The Longleys, who were married at Woodstock, Vt., seven years ago, came here last year and boarded at Evans' house. The husband began divorce proceedings some time ago. Mrs. Longley said that she would stand by Mr. Evans, who had given her a good home when her husband deserted her.

Disagreement of Johnson Jury

Providence, Jan. 17.—The jury in the trial of Thomas Johnson, charged with the murder of William H. Clinton, reported a disagreement last night and was discharged. Johnson has been on trial since last Monday morning. He admitted throwing sulphuric acid on Clinton. He said he had obtained it to use in cleaning clothing, and that he threw it on Clinton in self-defense when Clinton drew a revolver.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

SENSATIONAL Furniture Sale
HENRY L. KINCAIDE & CO.

UNEQUALLED in magnitude by any furniture sale ever inaugurated. This is a legitimate genuine cut price sale. **A SQUARE DEAL SALE FROM START TO FINISH,** where original prices and tags remain on goods, and Sensational Sale Prices are attached showing the wonderful saving afforded. No goods marked up with special prices attached to deceive unthinking buyers. Our prices always have been and always will be, **THE LOWEST ON EARTH.** If some one offers a discount or gift to turn a sale, we will offer a larger one. If some one starts a fake sale we immediately inaugurate **A SQUARE DEAL SALE,** a sale that means something to the buying public, especially the working man. We have one of the largest and most attractive furniture stocks in New England. Our stock is wonderfully complete at the present time, not a weak spot in it. Beautiful Mahogany Chamber, Dining Room and Parlor Furniture. Exquisite designs from the leading Grand Rapids Factories. Choice Leather Library Furniture, Mission, Early English, Dutch, Golden Oak, Birch, Birds' Eye Maple Furniture. Brass and Iron Beds, Latest styles in Draperies and Portieres, High grade Pianos, Glenwood Ranges and everything that's good and true in House Furnishings. **THIS ENTIRE STOCK WITHOUT EQUAL IS OFFERED AT SENSATIONAL PRICES DURING THIS SALE.** We invite comparison. Goods sold during this sale we will store free until needed. Special credit arrangements to all who so desire. This is an opportunity you will never have again, to buy Home Furnishings at less than manufacturers' prices.

Drop Side Couches Complete with mattress and bolsters $3.98, $4.98, $5.75.

The Above are but a scattering few of our slaughter prices. Every piece of furniture in our store will be sold at a cut of from 20 to 60 per cent. Many things at less than the cost of materials used, to say nothing of labor. Cost has not been considered in this sale for we anticipate the greatest year's business we have ever done. The little panic and scare of the past few months is now a thing of the past. This great country was never more prosperous. The greatest crops in history have been recently harvested. Plenty of money is in existence and that which has been reposing under the mattress and in the stocking of the skeered folks is rapidly finding its way back into legitimate channels. The wheels of industry have started everywhere—the few unemployed are getting back to work and a steady gain in business is being made each day. The worst is over and the greatest prosperity the country has ever known is close at hand. The trusts are now sitting up and taking notice. Great railroad corporations are climbing down from their high perch, and the rights of labor are being recognized. What's happened is all for the best and we say advisedly to every house keeper present or future, get busy, anticipate your needs of the future, buy the things you need or may need, for the money saved during this sale is money earned, and such an opportunity as this may never come again.

Special Credit Arrangements for all who wish.

Mortgagee's Sale.

BY virtue of a power of sale contained in a certain mortgage deed, given by Emma B. Tilton to Paul G. Harting, dated March 25th, 1907, and recorded with Norfolk Deeds, Book 1650, Page 306, and duly assigned by the said Harting, to the Employees Trust Incorporated, a Massachusetts corporation, said assignment being duly recorded, for breach of the conditions thereof, and for the purpose of foreclosing the same will be sold at public auction upon the premises hereinafter described, on the third day of February 1908, at eleven o'clock in the forenoon, all and singular, the premises described in said mortgage deed, namely:—

A certain parcel of land with the buildings thereon, situated in that part of Quincy called Quincy Point, and being lot one (1) on a plan of land belonging to Walter E. Burke by Perry Lawton, C. E., dated September 1902, and recorded with Norfolk deeds, bounded and described as follows:—Beginning on South Street, at the corner of the granted premises and land late of Albert C. Nash; thence running northerly along said South street) 66 10-100 feet; thence turning and running easterly along land of one Read, 104 45-100 feet, thence turning and running southerly along lot two (2) on said plan 63 95-100 feet to land late of Albert C. Nash; thence turning and running westerly along land of the late Albert C. Nash, 111 69-100 feet to the point of beginning, containing seven thousand and seven square feet of land, more or less.

Said premises will be sold subject to a first mortgage of record, and subject to all unpaid taxes and assessments if any. Two hundred dollars will be required to be paid in cash by the purchaser at the time and place of sale.

RECEIVER IS NAMED

Takes Charge of Companies Organized by G. L. Richards

PROSPERED AS A PROMOTER

Hungry and Penniless Ten Years Ago, He Is Now Believed to Be a Millionaire--Went to Europe In July and Has Failed to Return

Boston, Jan. 17.—Through the failure of George L. Richards to return from Europe, whence he departed last July on permission of the courts, and the dissatisfaction of many investors in a number of Richards companies, promoted on the lines of the "get-rich-quick" concerns, Francis W. Hunnewell was appointed receiver by Judge Lowell in the United States circuit court for the George Livingston Richards company and the Agnew Auto-Mailing Machine company. Today, according to Attorney Cavanaugh, who represents a number of investors, a receiver will be asked for the Richards Publishing company, limited.

Richards, from the time he came here without a dollar ten years ago, not having tasted food for three days, has had a meteroic career, and is now believed to be a millionaire. He built a magnificent residence in Brookline out of his companies and attracted attention all over the country for his reputed $500,000 stable of fine racing horses.

He attracted small investors from all parts of the country and started enterprise after enterprise, the golden tide constantly flowing in as new propositions were launched. Lesser legal difficulties from complaining stockholders, who claimed they had been promised 1000 percent returns, were met and overcome, and the industries evidently did a thriving business.

The Brown Book was the first publication which brought Richards' name prominently before the people of the country, the magazine having a claimed circulation of over half a million. It was used to advance the interests of later companies promoted by Richards. In turn appeared the Bernard Richards company, the Richards Publishing company, limited, the Richards Syndicate, the George Livingston Richards company, the Agnew Auto-Mailing Machine company and the Automatic Addressing company. The magazine Modern Women succeeded the Brown Book and also reached a wide circulation, being used, like its precursor, to a considerable extent to advertise new Richards propositions.

More than a year ago, it is stated, Richards was arrested at the instigation of a dissatisfied investor and was obliged to give $4000 bonds, the litigation still pending. As a result, when Richards wished to go abroad early in 1907, he had to get permission of the court and give additional bonds. He returned, and again on July 9, 1907, sought permission to go abroad, ostensibly to attend to financial interests in London and on the continent. He did not return.

The appointment of a receiver yesterday was the result of a petition brought by John A. Goodwin of Richmond, who invested $700 in the George Livingston Richards company and $200 in the Agnew Auto-Mailing Machine company. The petition alleges mismanagement and fraud, claims the circulation of Modern Women has fallen from 400,000 to 33,000 the past year and that the majority of the stock in the companies is held in small quantities and widely distributed.

Ordered to Answer Questions

New York, Jan. 17.—Judge Hough of the United States circuit court handed down an opinion directing Otto H. Kahn, a member of the banking firm of Kuhn, Loeb & Co., to answer all questions propounded to him by the interstate commerce commission. E. H. Harriman was directed to answer all questions except those relating to the purchase of Union and Southern Pacific stock in connection with the dividend of August, 1906.

Policeman Tried to Shoot Editor

New Orleans, Jan. 17.—Edward S. Whitaker, inspector of police, entered the editorial rooms of The Morning World here last night and fired two shots at Joseph M. Leveque, the editor. Neither shot took effect. The head of the police department had been criticised in the columns of The World for attending the races daily while drawing a salary of $6000 a year from the people and was referred to as a "blackguard and a bully."

To Raise Extra Currency Limit

Washington, Jan. 17.—After two sessions of the senate committee on finance the members of the committee were in possession of a fair idea of what shape the Aldrich financial bill will be when it is reported next week. It is stated to be practically certain that the limit of extra currency which the bill provides for will be raised from $250,000,000 to $500,000,000.

Lets Priests Out of Army

Paris, Jan. 17.—The council of state having decided that ecclesiastics over 25 years of age, whose time for active service in the army has already passed, are subject to military service only as members of the reserve, all students and priests above that age who were called to the colors by reason of the separation law will be released.

OLD TEACHER TESTIFIES

Mrs. Thaw Doubted Son's Sanity as Far Back as 1881

New York, Jan. 17.—The non-arrival of important witnesses who are hurrying to New York by steamer and train caused an abandonment of the afternoon session of the Thaw trial yesterday and cut the morning sitting down to less than two hours.

The elder Mrs. Thaw figured indirectly in the evidence. A letter written by her in 1881 to the master of the little Pennsylvania school, where her son was a pupil, was identified by the master and read to the jury. In it her great anxiety as to the conduct of her son was related and fear that she entertained even then that his mind was unbalanced. The schoolmaster, now 79 years of age, was an impressive witness. He is Abraham R. Beck and he related many incidents which led him to the conclusion that young Thaw undoubtedly was irrational.

Benjamin Boman, formerly doorkeeper at the Madison Square theatre, where Evelyn Nesbit played in "A Girl From Dixie" in 1903, repeated his testimony at the first trial as to a threat by Stanford White to find and kill Thaw before daylight.

Strange Bid of Ohio Man

New York, Jan. 17.—One of the 2000 strange letters which have been received by Mrs. Evelyn Thaw since her husband's trial began contained an offer from an Ohio man to substitute himself for Thaw and, if necessary, be executed. The writer imposed the consideration that his family be paid $3,000,000 as soon as the proposed substitution is complete. His letter covered 600 pages. He declared that he was a double of the prisoner in appearance and could take Thaw's place in his cell by visiting him in prison in disguise. The writer said he had no special desire to live, was not afraid to die, but made the offer to provide for his family.

Arabs Overcome by French

Tangier, Jan. 17.—There was a terrific ten-hour engagement in a ravine near Settat yesterday between a French column under the command of General D'Amade and a column commanded by Mulai Rachid, one of the chiefs of Mulai Hafid's forces. The French succeeded in dispersing the enemy and occupying Settat. Twenty French soldiers were wounded and many Arabs were killed. The latter not only offered a dogged and fearless defense, but returned repeatedly to the battle after they had been routed and attacked the French from three sides.

Another Head Lopped Off

Boston, Jan. 17.—Matthew Cummings, superintendent of the city street cleaning department, has been removed from office by Mayor Hibbard. The reason assigned for the removal was "the good of the service." Cummings received a salary of $3000. Daniel H. Gillepsie, superintendent of the sanitary department, was put in temporary charge of the street cleaning department.

Wider Locks For Big Canal

Washington, Jan. 17.—President Roosevelt has approved the recommendation of the isthmian canal commission, endorsed by Secretary Taft, increasing the width of the locks of the canal from 100 to 110 feet. The action in recommending the widening of the locks is made "to meet requirements of the navy that can reasonably be expected in the near future."

Hanna's Appointment Held Up

Rome, Jan. 17.—At the conclusion of a lengthy conference between the pope and Cardinal Gotti, the pope approved the decision of the propaganda, which held the matter of the appointment of Rev. E. J. Hanna as coadjutor bishop of San Francisco in abeyance and requires Hanna to publish an explanation of his articles involving the charge of modernism.

Sinn Fein Men Get a Setback

Dublin, Jan. 17.—The Sinn Fein adherents suffered reverses at the municipal elections here, electing only three of the eleven candidates contesting in twenty wards. The Sinn Fein leader, Alderman Cole, was among those rejected, while Joseph P. Nannetti, the lord mayor, who was opposed by the Sinn Fein faction, was elected by a large majority.

Walker to Be Brought Back

Mexico City, Jan. 17.—David E. Thompson, American ambassador to Mexico, has received the formal application for the extradition of William F. Walker, charged with absconding with the funds of the New Britain, Conn., savings bank. The prisoner will probably be sent to the border within the next few days.

Smoker For Battleship Officers

Rio Janeiro, Jan. 17.—A smoker was given last night to the American officers by the English and American residents of the city. A very attractive program was carried out. The Brazilian and American national anthems were received with great enthusiasm and there was a great show of cordiality.

Troops Wanted In Goldfield

Carson City, Nev., Jan. 17.—The Nevada state senate adopted a resolution petitioning the president to maintain troops in Goldfield until the legislature can, by the passage of a law, provide either for a police force or some other method of maintaining peace.

The Weather Forecast

Almanac, Saturday, Jan. 18.
Sun rises—7:10; sets—4:39.
Full moon—8:37 a. m.
High water—11:15 a. m.; 12 m.

The weather will be generally fair and slightly warmer in New England.

STORY IS PUNCTURED

Postmaster Told of Being Robbed by a Masked Man

"FAINTED" AFTER INCIDENT

Evidence That Window Was Broken From Inside of Office Led to Investigation and Subsequent Alleged Confession of Misuse of Funds

Hanover, N. H., Jan. 17.—Postmaster Leon F. Sampson, who reported to the police that he had been held up and robbed of office funds to the amount of $570, was placed under arrest last night, following a confession which he is alleged to have made to a postoffice inspector. Sampson is said to have confessed that he manufactured the story of the robbery on account of a shortage in the postoffice funds.

The discovery of peculiar circumstances in connection with the alleged robbery is said to have led to suspicion on the part of the officers who investigated. Late yesterday Sampson was subjected to a long and searching cross-examination by Postoffice Inspector Rapp and at the end acknowledged that his story was untrue. In the cellar of the postoffice a tin tobacco box containing $285 in bills was found hidden.

The story of Sampson as told to the police Wednesday night was that, while he was sitting at his desk in the postoffice arranging his cash account for the middle of the month, he heard a crash of glass from a window beside him, and looking up beheld a revolver pointed at him by a hand outside the window. The postmaster said that a masked man held the revolver and demanded the money which was on the desk. Sampson said that he turned over this money and also his gold watch to the robber, who then disappeared. The postmaster was discovered lying on the floor beside his desk apparently in a fainting condition by Assistant Postmaster Kewe, who had been in the basement to fix the fires of the night.

Chief of Police Gauthier, who was notified of the alleged robbery by the postmaster, immediately went to the office and inspected the premises. He noticed that the glass from the broken window was all on the outside of the building, and he considered this circumstance a very peculiar one in view of the postmaster's statement that the window was broken by the robber from the outside. The chief's suspicions were aroused and he made a thorough search of the basement of the postoffice, eventually finding the tobacco box containing exactly one-half of the sum of which the postmaster asserted he had been robbed.

When Postoffice Inspector Rapp arrived the evidence in the possession of the police was turned over to him, and after an investigation on his own account he cross-questioned the postmaster with the result that the latter finally admitted that he broke the window himself with his elbow from the inside Wednesday night. Sampson is alleged to have admitted then that he had used postoffice money to pay creditors who have been pressing him, and that he invented the story of the robbery to cover up the shortage. The amount of the shortage, it is said, has been made up to the postoffice by Sampson, so that his account with the government is now correct.

Sampson is under bonds of $8000. His bondsmen have designated Horace E. Hurlburt to act as postmaster until the vacancy in the office is officially filled. Hurlburt was sworn in late yesterday.

Sampson is 35 years of age and has a wife and one child. He came here from Woodstock, Vt., six years ago and entered the postoffice as a clerk. He was appointed postmaster four years ago. He has been regarded always as a faithful and efficient official.

Rebels Marching Toward Capital

Port-Au-Prince, Jan. 17.—The revolutionary forces are now marching on Port-au-Prince. The Haytian government has dispatched a large body of troops to Archahale, eighteen miles northwest of Port-au-Prince, to check the advance further of the revolutionists. President Nord has determined upon the most vigorous measures.

Italy's Loss America's Gain

Rome, Jan. 17.—King Victor Emmanuel gave a dinner last nigh in honor of Baron Takahira, the Japanese ambassador. While sincere regret is expressed here at his departure, Takahira has been the object of the warmest congratulations on his appointment to so important a post as that of ambassador to America.

Fighting Against Ten-Year Sentence

New York, Jan. 17.—Arguments on the appeal of Captain Van Schaick, commander of the ill-fated excursion steamer General Slocum, from his conviction and sentence of ten years' imprisonment, were heard yesterday by the United States circuit court of appeals. Decision was reserved.

Almost Ready For the Jury

Bennington, Vt., Jan. 17.—The third week of the trial of Alfred Mahan, who is accused of the murder of his 4-year-old niece, closed with the completion of two of the arguments in the case. The remaining arguments will be made today and it is expected that the case will reach the jury before night.

The funeral services of Abbie Hayden of South street were held Wednesday afternoon and Rev. A. R. Atwood officiated. The floral display was beautiful and abundant. She was ill but a few days with pneumonia.

Alexander McGregor was on Thursday evening reelected president of the Scots Charitable Society, defeating Andrew Stewart 168 to 78. Robert Pirie was reelected vice president, Rev. James Todd, formerly of Quincy, was elected chaplain.

Mr. and Mrs. Pinel Are Celebrating

Walter B. Pinel, one of South Quincy's well known business men, is celebrating his fiftieth birthday anniversary. Incidentally it is also his thirtieth wedding anniversary, and he and Mrs. Pinel are giving up the day to celebrating. They are keeping open house all day and evening and are welcoming all callers. Mr. and Mrs. Pinel were married in Christ church, Jan. 17, 1878, and have always made their home in Quincy. They have nine children living, who are helping them receive today.

Central Labor Union Install

The following officers of the Quincy Central Labor Union were installed Thursday evening at Wilson's hall, by Past President Wililam J. Walsh.

President—Robert McVitie.
Vice President—W. D. Thomas.
Secretary—James Watson. .. ....
Treasurer—Charles H. Wilkins.
Sergeant at Arms—James Brady.
Legislative Committee—Charles W. Hanscom (chairman), James Watson (secretary), William J. Walsh Charles H. Wilkins and Harry Marr.
Organizing Committee — Charles W. Hanscom (chairman), James Watson (secretary), John J. Connors, W. D. Thomas and Peter Goodman.

The funeral services of Mrs. Eliab Ramsdell were held Thursday afternoon at 2 o'clock at her late home on Oak street. The Rev. Henry Albert Coolidge, pastor of Memorial church, officiated and paid tribute to the deceased in a short impressive sermon. Floral offerings were expressive of the affection of friends and relatives. The interment was at Mount Wollaston.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The Motor Boat And Engine Show

The success achieved by both the New York and Chicago motor boat shows presages a most successful exhibit in Boston, says Manager Chester I. Campbell, who has just returned from Chicago where the second show of the season was held. In speaking about the Chicago exhibit, Manager Campbell said it was surprising to see the great amount of interest exhibited, which interest he is satisfied will be transferred to Boston.

Although the Chicago exhibit closed the middle of last week, Mr. Campbell remained in Chicago to superintend the shipment of a great many of the displays. Two trains, one of nine and the other of eight freight cars are necessary to carry the displays from Chicago to Boston, and this does not include a great deal of material which is to be shipped here from several of the western factories.

Take the Truscott people for instance, says Mr. Campbell, it is a fact that four-fifths of their exhibit was disposed of at sale during the show, and in order to make a satisfactory showing at the Boston show they have determined to ship exhibits direct from their factory in addition to what is now en route.

The 40 ft. semi-racer finished in teak wood and displayed at Chicago by the Gas Engine and Power Co. which attracted endless attention at both New York and Chicago, will be displayed here, although it last week became the property of Brewer Hidlewise of Chicago. The sale was made with the understanding that the boat should not be delivered until after the Boston show, so that Bostonian will have an opportunity to inspect what is admittedly one of the best power boats ever constructed. The cabin cruiser Sarapa will be shown by the Baker Basin of Quincy, so that those who have seen her cutting through the local waters will have an opportunity to see what she looks like below the water line.

The management of the show which opens Jan. 25 and closes Feb. 1 is to make special arrangements or rather special nights for the different yachting organizations in this section. The Boston Yacht club will be especially honored in this, as to it will be granted the first of the special nights, when the decorative schemes will embrace the display of the burgee and colors of that famous organization. Other clubs will be considered and honored during the progress of the show.

It is more than possible that Gov. Guild and the head of the Naval Battalion of the Massachusetts Volunteer Militia will be present on the opening night, while one special evening will be devoted to the reception of the web feet of the militia, most of whom are interested in power boats both as an adjunct to their work in the militia and for pleasure purposes also.

The Winthrop Yacht Club which has in its membership some of the most enthusiastic of motor boatmen is taking especial interest in the forthcoming show, which will surpass anything in its line that has ever been held in Boston.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

IF MOTHERS ONLY KNEW

When children are cross, irritable and peevish it does not signify that they have bad tempers; it shows that there is something wrong with the child which it is not able to explain, and which the mother—**If She Only Knew**—could easily and quickly cure. Mothers, study your child's symptoms; if cross, peevish, nervous, grits the teeth, wets the bed, picks the nose, has variable appetite or bowels, suffers with wind-colic or headache, is irritable and restless, has furred tongue or offensive breath, you may be sure that child is troubled with *worms*, which cause nearly all the ills of childhood.

Don't delay—disease comes suddenly—a few doses of the wonderful old-time remedy—

DR. TRUE'S ELIXIR

will give your children that vigorous health which is so important to their future happiness.

Dr. True's Elixir expels the **worms**, if there are any—if not it acts as a gentle laxative and tonic. It cleans out all waste matter from the stomach and bowels, tones and strengthens the entire system of adults as well as children. Dr. True's Elixir is a safe, pure, vegetable tonic and has been the standard household remedy for **fifty-five long years.**

Sold by all druggists, 35c., 50c., $1.00.

Write for free book, "Children and their Diseases."

DR. J. F. TRUE & CO., Auburn, Me.

Special treatment for tape worms. Free pamphlet.

Newsy Budget From Shipyard

The fire proof concrete engine test house, in which all the engines and machinery for the submarine boats are thoroughly tested out before installation on board ship, is being extended to meet the requirements of the expanding business of the Electric Boat Company in the construction of submarines. The building is located at the lower end of the yard between the pipe shop and the long wooden building in which the submarine boats are built.

A Washington dispatch of Wednesday to the Herald says: Representative Hobson had a conference with President Roosevelt today, and on leaving the White House said he would have the President's support in behalf of a bill he had nearly completed drafting, providing for a continuing naval program. Mr. Hobson's bill will provide for an annual appropriation of $50,000,000 to be expended in the manner to be decided on each year by the President and experts of the navy for new battleships. The number and design of these ships to be built each year will thus be entirely within the control of the executive. Mr. Hobson said he was in favor of the construction of the largest ships possible.

Canadian shipyards are not favored by the British government, much more than the American yards are by the United states. A Toronto special to the Boston Transcript says:

"It is now nearly ten years since the first steel vessel was built on Lake Ontario. Since then four steel shipbuilding yards have come into existence—two in Toronto, one at Bridgeburg on the Niagara River and the fourth, the largest and best equipped of all, at Collingwood, on Georgian Bay. Not since the new industry was begun has it been confronted with more discouraging conditions than those which have just led to the closing of the yard at Collingwood. Steel vessels flying the British flag have increased in number in recent Lake seasons; and the increase must inevitably continue with the building of the Grand Trunk Pacific Railroad and the filling up of the country west of Winnipeg and the consequent development of the transport business at Port Arthur and Fort William.

But the trouble for the shipyards in the Province of Ontario is that most of the orders for new tonnage go to the Clyde and the Tyne. The shipbuilding industry has no protection in the Dominion tariff against British vessels registered for the coasting trade. Bounties, which have been urged for two years past are long in coming. In the meantime, if the statements made by Mr. B. M. Smith manager of the Collingwood yard, are to be accepted as correct none of the Canadian yards have made any money out of the work they have undertaken."

Furniture Bargains.

The sensational prices quoted on furniture this week by Henry L. Kincaide & Co., have caused large sales at bargain prices. It is just the opportunity that many have wanted and they were prompt to profit thereby. Everything is marked down, including pianos, dining room furniture, parlor furniture, chamber furniture, hall furniture, library furniture, den furniture, carpets, rugs, draperies, etc. Solid oak sideboard for only $6.75.

TODAY'S COURT.

George Drysdale of Braintree and Daniel H. Kenney of Quincy were fined $10 each for drunkenness.

William Mulvey was arraigned for non-support at Cohasset. Case contined until Feb. 29.

Commissioners Hearing on Grade Crossings

The City Secures An Adjournment After the Railroad Presents Its Plans

A large number of citizens were present this morning at the hearing before the Commission appointed by the Superior court to determine the manner in which the grade crossings at Saville street and Water street shall be separated.

The Commissioners are ex-Governor John L. Bates of Boston, Winfield S. Slocum of Newton and Arthur H. Wellman of Malden.

The New York, New Haven and Hartford railroad was represented

JOHN L. BATES

by Col. J. H. Benton and Engineer B. T. Wheeler. F. B. Greenhelge appeared for the Commonwealth. E. W. Burdett, Esq., represented the Old Colony street railway. Horace G. Allen Esq. appeared for Henry M. Faxon, and A. P. Worthen for the heirs of A. J. Richards.

The city was represetned by Mayor W. T. Shea and City Solicitor Thomas.

The hearing was opened at 10.30 by ex-Governor Bates, chairman of the Commission, who stated that they were present to proceed to the consideration of the question.

Col. Benton said that the plans were not infallible. The tracks between Boston and Braintree was the most congested of the whole New Haven system.

Mr. Wheeler then explained the plans of the railroad. He said there was no reasonable method of a crossing at Saville street without destroying access to the railroad. The full development of plan would give full access to the depot on both sides for teams and by a subway from the west side. The plan also proposes to extend Irving place to Granite street.

At Water street the plan proposed to close the street at the crossing, and for a new overhead way south of the depot. If Water street was continued it would make a prohibataory grade or a raising of the grade of Franklin street, making a lump. It also proposed new ways to Kranklin and Water streets. These are the same plans as outlined at length in prvious issues oftheDaily Ledger

City Solicitor Thomas said that the city had not as yet got down to plans that were satisfactory to the citizens, and he reserved the right to later ask questions. He explained the meeting held. He felt city was in no way to go ahead until the citizens had agreed upon some plan. He would therefore ask for an adjournment of the hearing for a month or six weeks.

Mr. Burdett said that the street railway would have a car to take the party to Water street.

Col. Benton thought a month would be long enough for an adjournment.

It was then decided that the adjournment should be until Monday, Feb. 17, at 10 o'clock.

John Q. A. Field said he had considerable experience in these matters, and he desired to present a plan which he believed would be a good one.

Mr. Burdett asked the grade of the proposed new way at South Quincy to Franklin street by the railroad plan.

Mr. Wheeler replied that it would be four per cent. In reply to further questions he said the distance from the railroad to Franklin street was 450 feet and 500 feet the other way.

Ex-Mayor Thompson said the general consensus of opinion was against the railroad plan and the citizens desired to present an alternate plan. We are a growing community, and it was desirable to obtain the best possible solution. It ought not to be treated in an undesirable way. The crossings should be as numerous as possible, in addition to the exist-

RIO HARBOR IS FULL

Fleet Swelled by Arrival of Torpedo Boat Flotilla

A NAVAL CLUB RECEPTION

Magnificent Garden Party In Honor of American Officers--Rumors In United States of Disaster to Battleship Connecticut Were Groundless

Rio de Janeiro, Jan. 18.—The American battleship fleet was joined in the harbor by the torpedo boat flotilla, numbering six vessels, which arrived from Pernambuco and anchored near the sixteen big battleships yesterday afternoon. The flotilla left Pernambuco Jan. 13 and met with good weather on the voyage to this port.

Lieutenant Commander Cone reports that the health of the men of the flotilla is generally good, though there are some cases of malaria among them. The vessels under his command will sail for Buenos Ayres as soon as coaling is finished, which will probably be on Jan. 21.

The reception and garden party tendered the officers of the American fleet by the naval club took place at the Botanical gardens amidst most picturesque surroundings and proved a magnificent success. Combined with the setting of tropical plants there were special decorations of a most elaborate and beautiful character.

More than three thousand persons were in attendance, including members of the highest Brazilian society. The guests were transported to the gardens in fifty special electric tram cars and were everywhere greeted en route with enthusiastic cheers from the crowds that lined the streets. All the Americans wore bouttonaires of the Brazilian and American colors in the form of small bows, while the Brazilian officers wore miniature American flags as boutonnaires.

The Botanical gardens presented a magnificent sight. Along the walks and on the borders of the lakes were buffets where refreshments were served. There was dancing upon the lawn to the music of a large orchestra until late in the evening.

The scene in the harbor is a most striking and picturesque one. Never before were there so many warships anchored in this port at one time. Besides the sixteen American battleships, there were the fleet of Brazilian warships, the German cruiser Bremen and finally the six American torpedo boat destroyers to swell the great fleet.

Scores of small boats run to and fro between the warships and the shore, carrying thousands of the men who have been granted leave, while the officers are still being feted by the government, the city and the people of Rio Janeiro. Nothing has occurred to break the absolute peacefulness of the scene in the harbor and the enjoyment of the time ashore.

A considerable surprise and not a little amusement was aroused among the officers of the battleship fleet and among the people of Rio Janeiro over numerous inquiries cabled here from the United States for information regarding a reported disaster to the battleship Connecticut, Admiral Evans' flagship.

At first the inquiries were mystifying to those to whom they were addressed. The rumor of a mishap to the Connecticut did not originate here and at the time frenzied inquiries were being telegraphed from the United States all the ships of the fleet were lying peacefully in the harbor in plain view from the shore.

Finally it became clear that the rumor of an accident originated in the United States and, having been widely circulated, occasioned considerable alarm there.

The above dispatch from Rio de Janeiro thoroughly establishes the falsity of a rumor circulated in many American cities yesterday as to a grave catastrophe to the American fleet. The report was systematically distributed from Boston to San Francisco, and a number of newspapers were misled into printing it. It not only was groundless, but was calculated to excite the gravest alarm among the friends and relatives of the thousands of officers and men aboard the American ships.

Sunday Baseball Permissible

Washington, Jan. 18.—Secretary Metcalf has declined to interfere with the playing of baseball on Sunday at the League Island navy yard, but has indicated that the presence of spectators at the games is not desirable. He stated the department's position in a letter to counsel for a number of residents of Philadelphia, who protested against the indulgence in athletic exercises on Sundays, particularly baseball, on the part of the enlisted men of the navy attached to vessels at League Island.

President Yields to Nevada

Washington, Jan. 18.—President Roosevelt informed Governor Sparks of Nevada by telegram that he would permit the troops to remain in Nevada for such reasonable length of time as would give the legislature opportunity to organize a force to perform the police functions of the state. This information was in response to a communication from the governor to the effect that the legislature was perfecting legislation to the end stated.

NOT A CAMPAIGN MANAGER

Veto on Stories Circulated In Regard to Senator Crane

New York, Jan. 18.—Governor Hughes arrived here last night and devoted a long evening to speechmaking in several places, in which he scrupulously avoided reference to himself as a candidate for the Republican presidential nomination. To all inquiries on affairs political, in which he might be said to have a personal interest, he made the one reply: "I have nothing to say."

The governor's arrival in the city had been out-run by the report that while here he would have an important conference with Senator Crane of Massachusetts. It was also hinted that Crane might manage a Hughes campaign for the presidency. Hughes and Crane did not meet. The senator stopped over night at the Waldorf-Astoria and went on to his home at Dalton, Mass., this morning. Hughes spent the night at the Hotel Astor and will leave for Albany this afternoon.

To the reports linking the names of the governor and the senator the former answered "nothing to say," and the latter would not even say that much. It may, however, be accepted without reservation that the reports were baseless. The two men are not even personally acquainted. Neither has sought an interview with the other, nor has there been occasion for a meeting.

Governor Hughes is not looking for a campaign manager and Senator Crane is not going to manage a campaign for Hughes—nor anyone else.

Fate of Alcohol Drinkers

Vallejo, Cal., Jan. 18.—John Harf of the cruiser St. Louis died yesterday from drinking wood alcohol. He is the third victim in a week to succumb to the decoction. Two other sailors are blind from the same cause and five others may never again be fit for active service. Harry Wilson and James T. Hayes are the other two bluejackets who are dead from the drink. Ten sailors surreptitiously obtained about ten quarts of the alcohol, which they drank.

Barker Pays Death Penalty

Lincoln, Neb., Jan. 18.—Frank Barker, who killed his brother and his sister-in-law Feb. 13, 1904, was hanged here yesterday. Several hours before the execution he begged Governor Sheldon to grant a personal interview. Sheldon called at the jail and talked with the prisoner for two hours, but declined to interfere. For almost four years Barker's attorneys saved him from the gallows by technical pleas.

Hitch In Sale of the Thunderer

London, Jan. 18.—Apparently a hitch has occurred in the reorganization of The Times, which on Jan. 6, it was announced had passed from the control of the Walter family to a new company. A paragraph appears in The Times this morning declaring that no sale has been effected and that the previous statement only referred to negotiations that were in progress.

Great Investigation Planned

New York, Jan. 18.—Every electric lighting and power company in New York city will be subjected to an investigation by the public service commission. The resolution adopted by the commission providing for the investigation is similar to the one under which the investigation of the New York traction companies was conducted.

American Woman In Druce Case

London, Jan. 18.—Miss Mary Robinson, the daughter of an American planter, who, in the recent Druce case, testified that she knew Druce as the Duke of Portland, that Charles Dickens told her that Druce was the Duke of Portland and that Druce himself afterward confirmed the statement, has been arrested on a charge of perjury.

Rejection of Balloon Proposals

Washington, Jan. 18.—Because of the incompleteness of specifications accompanying them, the signal office of the army has practically decided to reject all the proposals submitted for furnishing a dirigible balloon. The result of the bids is a disappointment to the signal service. It is probable that further proposals will be asked for.

Four Girls Killed In Fire

Scranton, Pa., Jan. 18.—Four girls were killed, ten seriously injured and a score or more slightly hurt at a fire in the Imperial Knitting company's mill in this city. Eighty-five girls were at work on the third floor when a fire broke out on the second floor. The whole interior of the building was burned, causing a loss of $75,000.

Bank Closed--Cashier Missing

Bellingham, Wash., Jan. 18.—George Montford has been appointed temporary receiver for the Exchange State bank of Blaine, which has closed. O. C. Mathis, cashier, has disappeared, and a warrant was issued yesterday for his arrest. He is charged with forging school bonds and hypothecating them with his own bank.

Charges Against Police Chief

New Orleans, Jan. 18.—Charges of malfeasance in office were made last night against Police Inspector Whitaker, chief of the city's police, for shooting at J. M. Leveque, a newspaper editor. Whitaker was ordered to appear on Jan. 24 before the board of police commissioners to answer these charges.

The Weather Forecast

Almanac, Sunday, Jan. 19.
Sun rises—7:09; sets—4:40.
Moon rises—5:46 p. m.
High water—12 m.; 12 p. m.

Generally fair weather will prevail in New England. The temperature changes will not be marked.

ON ROCK BOUND COAST

Steamer Tolesby Broke Her Back on a Great Ledge

FACED MOUNTAINOUS CLIFF

Twenty Men Forced to Stand on Hillock For Nineteen Hours--Suffered From Extreme Cold and Barely Escaped Perishing

St. Johns, Jan. 17.—The particulars of the remarkable escape from death and the story of the privations endured by the crew of the British steamer Tolesby, which was wrecked ten miles west of Cape Race on Monday, were learned from the men who arrived here yesterday afternoon. Their experience has seldom been equalled in marine records.

The Tolesby was bound from Galveston for Havre with a cargo of cotton. During a thick snowstorm Monday noon the officers lost their bearings and the ship struck with a terrific crash on a submerged ledge at the foot of a steep cliff, 500 feet in height, the only spot along the long stretch of coast where she could have remained above water after going on the rocks.

The crew of twenty-four men remained on the vessel four hours. Signal guns were fired at frequent intervals for assistance and as night approached rockets were sent up. The section of coast where the steamer went ashore is one of the most desolate on the bleak coast of Newfoundland and is sparsely inhabited. There are two small settlements within six or seven miles of the wreck, but in the storm the guns were not heard and no person saw the rockets on account of the thick weather.

Just before darkness fell the storm suddenly increased to a heavy gale. Immense waves swept the decks of the doomed craft, washing overboard every article not attached to the vessel. The merciless pounding of the seas finally broke the back of the steamer abaft of the engine room, and the crew, fearing she would go to pieces before morning, launched the lifeboats in a desperate attempt to save themselves from perishing. Three boats were put over the sides, but all were smashed to pieces. The crew then constructed rafts from spars, and after a hard struggle with the big billows succeeded in landing on a narrow stony beach in a cove at the foot of the cliff, a solid wall of rock, 500 feet high and extending for miles.

The men were little better off than when on board their crumbling vessel, for the tide rose during the evening and threatened to sweep them from their position. One daring seaman with a rope about his waist succeeded in scaling the cliff after he had nearly fallen several times. He was able to haul up three others of the crew. The rising tide cut off all chances of the other men reaching the rope.

The night was extremely cold and the shipwrecked crew, wet to the skin, suffered terribly. In desperation they broke up pieces of wreckage and were able to light a fire. At 10 o'clock the rising waves put out the fire, and the twenty men were forced to stand on a single hillock of sand the entire night. The sailors say that had the tide risen another foot they would have perished. The marooned men were nineteen hours on the hillock. Most of them suffered from frost bites, and all were without food.

The four who reached the summit of the cliff Monday evening attempted to locate a settlement, but went in the opposite direction to the nearest place. They were almost overcome by the cold and were forced to seek shelter in a vacant fisherman's hut for the night. Tuesday forenoon they continued on for four miles and finally found a settlement.

Returning with some of the male residents, they met villagers of another settlement who had seen the wreck. By means of ropes lowered to the foot of the cliff several men descended. They found the castaways too helpless from hunger and exposure to attempt the ascent themselves, and all hands had to be assisted to the top.

The steamer is a total wreck and much of her cargo is adrift. The shipwrecked men will be forwarded to England from this port.

A Cry For Japanese Trade

Paris, Jan. 17.—The Temps publishes a pointed editorial article complaining that Japan is not treating France fairly in the matter of the distribution of her foreign orders for industrial and war material. Although two Japanese loans aggregating $115,000,000 have been placed in France since the peace of Portsmouth and the negotiation of the recent ententes, not a single order has been received by a French manufacturer, whereas during the years 1906-07 Japan spent $59,600,000 in England, Germany and the United States.

Liabilities of Over a Million

Dallas, Jan. 17.—The Western Bank and Trust company of Dallas, the largest savings bank in Texas, has been placed in the hands of Henry D. Lindsley, with instructions to administer the affairs of the institution for the interest of its creditors. Its total liabilities are $1,054,104. A schedule of the assets has not been filed, but officers of the bank declare that depositors will lose nothing.

MAXIM'S NEW POWER.

Motorite Is to Propel Torpedoes and Torpedo Boats at Great Speed.

A new torpedo boat that will hurt itself at a battleship's hull faster than a mile a minute.

A new submarine torpedo boat that will bore a path beneath the surface of the water at the rate of sixty miles an hour.

A new motive power—motorite—to propel the torpedo and the torpedo boat so powerfully that if necessary it will shoot them rocket-like out of the sea.

This trinity of inventions, evolved together, patented side by side by Hudson Maxim and announced through the New York Journal by the inventor himself, will put at the disposal of the United States government the most destructive engines of naval warfare possessed by any nation of the world.

After more than two years of constant experiment the famous inventor of smokeless powder and maximite has so far perfected these three engines of war that he has just applied for letters patent and notified the government of his success.

Mr. Maxim, starting out with the sole intention of designing a torpedo that would surpass in speed the slow moving Whitehead, found that he had invented not only what he sought, but also a motive power so tremendous that it would revolutionize submarine warfare, transpose the despised torpedo boat into the most dreaded fighting monster of the sea and later may even be expected to send a transatlantic liner between New York and Southampton faster than the fastest trains move on the land.

A delicate blend of nitroglycerin, gun cotton and one other drug and the application of a new system of "jet propulsion"—the same principle on which automobiles are run—is the secret of it all.

NEW BIRD FOR COLORADO.

The Capercailzie Imported From Sweden to Stock Mountain Forests.

Two strange birds have arrived in Denver, having journeyed all the way from Sweden. Now they are domiciled in inclosure 70 at the city park. If the plans of their owner, W. F. Kendrick, succeed, they will be the progenitors of a new race of birds in the Colorado mountains, says the Denver Post.

They are the capercailzie, pronounced caper-kel-zi, and are the size of a small turkey. In habit they are much like grouse and ptarmigan. They thrive best at timber line and subsist on pine spruce and hemlock boughs and mountain berries.

Mr. Kendrick, who is tremendously interested in birds and animals, has had an ambition for some time to start the breeding of these birds in Colorado because of their rarity and beauty. He has already bred and liberated thousands of pheasants, but the capercailzie were hard to get. For months he has had a commission in Sweden for two perfect birds. As the result of his order the two arrived the other day.

The capercailzie is almost as large as and similar in habits to the American wild turkey, with the advantage that it can endure much more severe hardships and cold weather and will live on food such as is obtainable from the treetops if necessary when the ground is deeply covered with snow.

Mr. Kendrick will keep the birds at the park until they breed, his plan being to take the young to the most suitable places in the mountains and liberate them.

MORE SHIMOSE FOR JAPAN.

Buys All Saltpeter Available In Chile and Much Yucca.

Passengers who arrived at San Francisco recently by the Kosmos liner Neko and officers on the steamer bring news of great Japanese activity at the port of Iquique, in Chile, says a San Francisco dispatch to the Spokane Spokesman Review. They say that the Japanese government is buying all the saltpeter available in Chile and also that great stocks of yucca, which grows in great profusion in the Shama district, near Iquique, are being sent by every steamer to Japan. A line of fast steamers of about 6,000 tons register have been put on between Japan and Iquique, and, according to reports at the ports along the coast, these steamers are taking full cargoes of saltpeter and yucca on every trip.

Yucca is a stunted form of palm, with a resinous grass growing in the head, the product of which contains a large percentage of picric acid, and its sole use is for the manufacture of shimose powder, the high explosive which was used with deadly effect in the Russo-Japanese war.

A Mystery Solved.

"What is the navy sailing for?" quoth I to Captain Binks.
"I do not know," the sea dog said, "but this is what I thinks:
Bob Evans wants to teach the Japs the game of tiddledywinks."

I put the question next unto our doughty admirell.
"I do not know," said he, "and if I did I wouldn't tell."
I thought he muttered something else that bade me go to thunder.

The secretary next I sought. "Oh, Mr. Sec.," said I,
"Why is the navy sailing west?" He straightway made reply:
"Because it isn't sailing east," and shook my hand goodby.

I went to Loeb. "Oh, William Loeb, pray can you tell to me
Just why the navy's going west to the Pacific sea?"
"Why, is the navy going west? Who told you so?" said he.

At last I asked the president, "Please tell me why you risk
The navy sailing round the Horn?" He answered sharp and brisk:
"Because the sailing is so bad from Omaha to Frisk."
—Carlyle Smith in Harper's Weekly.

MADE AWFUL LEAP

Woman Plunged From Thirteen-Story Window of Hotel

OF NERVOUS TEMPERAMENT

Had Left Her Boston Home to Take Rest Cure From Social Duties--Was Prominent In Society and Considered Very Beautiful

Boston, Jan. 18.—Herbert M. Sears arrived here today with the body of his wife, who committed suicide by leaping from the thirteenth story of the Hotel St. Regis, New York. A letter written by Mrs. Sears just before she plunged from the thirteenth story of the hotel was delivered to Sears by Coroner Shrady.

While Sears would not make public the contents of the letter, it is understood that Mrs. Sears wrote that she was wearied of the ten years' battle against sickness and that she could no longer endure it.

Mrs. Sears leaves two children, Elizabeth, aged 16, and Phyllis, aged 13. The portrait of Mrs. Sears and her two daughters, painted by J. J. Shannon, A. R. A., in 1906, was declared to be "notable even in an academy chiefly notable for its display of portraits of famous beauties."

Mrs. Sears for years has suffered from a nervous trouble with at times periods of melancholia, when she was carefully watched. During the past year she had apparently recovered a part of her former self, and her end thus was not expected. She was in New York at the suggestion of her doctor to take a rest cure from social duties which wore on her during the past season.

For nine days Mrs. Sears had been a guest of the St. Regis, her only companion being her maid. It was her usual custom to go to this hotel for brief periods to rest from her various home and society affairs and receive treatment from Joseph Collins, one of New York's specialists in the line of nervous ailments.

Dr. Collins had seen her on the night previous to her rash act and pronounced her normal. The maid noticed nothing wrong about her mistress and retired at the usual hour, only to be awakened in the night to be apprised of the death of Mrs. Sears, for whom she so tenderly cared for and watched over.

The room occupied by the nurse was adjoining that of Mrs. Sears, both overlooking much of the city from the south. The doors between them were bolted. The window from which Mrs. Sears made her egress for the fatal jump extends from the floor to the ceiling, and works on a pivot. Outside this was a small projection, around which was an iron railing.

In her descent, Mrs. Sears cleared this railing and apparently shot outward, nothing interrupting her course for the 100 feet intervening between her and the roof of the building on which her mangled body was found. At 697 Fifth avenue is the hotel extension, but her body shot over this, striking on the stone coping between No. 697 and the home of Mrs. Brewster.

Mrs. Sears was 37 years of age. She was the daughter of Francis Bartlett, the art collector who gave the famous collection of Greek statuary to the Museum of Fine Arts. Her family belonged to the most exclusive circle of Boston, New York and Newport.

Her home at 287 Commonwealth avenue is one of the finest homes in that aristocratic thoroughfare. She was considered a beautiful woman, and the portrait painted by J. J. Shannon and exhibited some time ago in England was the attraction of all lovers of the beautiful. She was maried to Sears sixteen years ago.

The Moroccan Disturbance

Tangier, Jan. 18.—A squadron of General D'Amande's column, while reconnoitering, captured Caid Ouldel Hadjhamon, the principal instigator of the massacre at Casablanca. It is believed that this capture will materially check the warlike sentiments of the tribesmen. A dispatch from Fez says that pillaging has begun there. The consulates are closely guarded.

Riot Over Evictions

New York, Jan. 18.—Forcible resistance by tenants whom an upper East Side landlord was trying to evict resulted in the gathering of a crowd of 2000 or more sympathizers in the neighborhood who made so much trouble for the police that the precinct reserves were called out. During the rioting four women and a number of men were taken into custody.

Embezzlement Charge Quashed

San Francisco, Jan. 18.—Upon motion of Assistant District Attorney Cook, Judge Dunne dismissed the charge of embezzlement against David F. Walker, president of the wrecked California Safe Deposit and Trust company, relative to the disappearance from that bank of the Colton estate securities, valued at $205,000.

Tolesby's Cargo Washed Away

St. Johns, Jan. 18.—Severe weather forced the salvage steamers that were attempting to reach the wrecked steamer Tolesby to abandon the attempt and return to this port. The after-half of the ship has been torn apart and 7000 bales of cotton have been washed away.

MURDER IN FIRST DEGREE

Charge Against Robber Who Shot and Killed Policeman Lynch

Boston, Jan. 18.—The police late yesterday placed under arrest James F. Lawrence, aged 24, on suspicion of being associated with Arthur B. Smith, who shot and killed Patrolman John T. Lynch. Lawrence is believed to have been the companion of Smith when the shooting occurred and is wanted as a witness.

Smith is held for the grand jury on a charge of murder in the first degree. A warrant charging him with the offense was issued by Judge Bolster and later he was brought before the magistrate, and, waiving examination, was remanded to jail without bail.

Smith gave his name as William Foley. When brought before his inquisitors at police headquarters he insisted that that was his name, but after he had been measured the police recognized him as Arthur B. Smith, and when shown his photograph he confessed that that was his name.

Smith was born in South Boston. He has lived there all his life, doing various things for a living. He is 24 years old.

When he was 10 years old he was arrested for larceny and put on probation. On July 24, 1897, he was again arrested for larceny and sentenced to the house of reformation on Rainsford island.

Early in 1903 he was sentenced to the state reformatory at Concord on a charge of breaking and entering. Since his release in July, 1905, the police have heard nothing from him.

For State Technical Schools

Boston, Jan. 18.—The commission on industrial education of the commonwealth has voted to establish throughout the state technical schools or industrial colleges, in conformity with the acts of the general court of 1906. The passage of an act making permanent a system of technical schools will place Massachusetts on record as the first commonwealth in the new world to inaugurate such a system.

Naval Tug on a Ledge

Newport, R. I., Jan. 18.—The United States naval tug Sioux struck on the ledges off Gull Rocks lighthouse, while proceeding up the bay to the coaling station here. The steel vessel, valued at $40,000, struck the rocks at half-tide and was later almost submerged. It is thought that her bottom is badly punctured. The commander and crew of ten men were taken off.

Receiver For Insurance Company

Boston, Jan. 18.—The American Insurance company, which has done business in Boston for fifty years and withstood the strain of losses of the big fires in Boston, Chicago and Baltimore, has gone into the hands of a receiver, yielding to the severe strain put upon it by the San Francisco disaster.

Boston Schooner Founders

Boston, Jan. 18.—Word was received here last night that schooner Malden, owned by Crowell & Thurlow of this city, foundered and went to the bottom while bound from San Juan, P. R., for this port. Captain Charles Bates and his crew were rescued by steamer Kirnwood and landed at Darien, Ga.

Boston Service Discontinued

Boston, Jan. 18.—Announcement is made by the officials of the Puritan line, which for years has maintained a steamer service between Boston and Antwerp, that hereafter the Boston service will be discontinued and that the three steamers of the line will hereafter go direct to Baltimore.

Mahan's Fate In Jury's Hands

Bennington, Vt., Jan. 18.—The jury in the murder trial of Alfred Mahan, which has occupied the attention of the superior court since Dec. 26, retired at 4:40 yesterday afternoon. At 9 o'clock the jury failed to report any agreement and soon afterwards the members went to bed.

Government Raises Wages

Boston, Jan. 18.—The announcement is made at the Charlestown navy yard that the wages of a considerable number of the government employes have been raised, taking effect Jan. 16, while increases for employes in still more departments are under consideration.

Won't Stand For Lower Wages

Detroit, Jan. 18.—President Keefe of the international longshoremen, addressing the labor committee of the Lumber Carriers' association, said that under no circumstances would the longshoremen consider a proposal to reduce wages, though they were willing to go into conference to correct any hardships to owner or worker if any were found in the existing contract.

Men Escaped From Burning Mine

Pittsburg, Jan. 18.—The Catsburg mine of the Monongahela Consolidated Coal and Coke company, near Monongahela City, is on fire. Forty men were at work in the mine, but all have been accounted for, having escaped at the two lower entries. The fire is believed to be under control.

May Be Kept Out of Canada

Ottawa, Jan. 18.—A report has been received here that 200 Japanese are en route from Hawaii to Vancouver. At the interior department it is said that if the immigrants started after the passage of the order-in-council restricting immigration they will not be allowed to land in Canada.

Hurry Order For Quick-Firing Guns

Paris, Jan. 18.—China has placed an important order for quick-firing guns in Paris. Whether the guns are purchased owing to the acute relations between China and Japan or on account of internal troubles in China is unknown here.

A Double Elopement.

By ANNE HEILMAN.

Copyrighted, 1907, by C. H. Sutcliffe.

Hester Blake finished sweeping the snow from her front porch and then looked dubiously at the huge drifts lying across the road and the slaty sky above.

"They won't come," she assured herself. "Cousin Emma 'll never venture out such a day as this. It'll be the first Christmas I've ever spent alone." She sighed unconsciously as she reentered the silent house.

Mrs. Blake lived in the outskirts of the village of Clifton. She kept a boy to do the chores, had a cow and chickens and lived in a comfortable way on a tiny income. She was "Aunt Hester" to all the young people of her acquaintance, which was considerable, for she was popular, this worn woman of fifty. Her sad blue eyes and faded brown hair had a compelling charm even under the rusty black hat which she wore in winter and summer alike, and when she smiled your heart went out to her. You could have told her your most intimate troubles, sure of a tender understanding and sympathy and that the confidence would go no further.

The bright, shiny little kitchen had the incipient smells of good things for dinner in it, and Mrs. Blake set to adding yet another savory odor.

"Might as well finish getting the dinner now I've started it," ran on her low monotone. She talked to herself for company. "Mercy me—sleigh bells!" hastily opening the door. "Charlie Brock and Elvie Lee of all people! Hurry in and I'll get you some hot coffee. It'll heat you up. Why, Elvie, what was your father thinking of to let you ride out in such weather?"

"Father doesn't know anything about it," faltered Elvie miserably.

Mrs. Blake's glance went from one to the other as she poured the steaming coffee. There were little humorous, indulgent creases in her face. "You are running away," she said.

Elvira hung her head and began to cry.

"Don't scold her, Aunt Hester," burst out Charlie. "It wasn't her fault. I asked her to go."

"Well, what's she crying about?" questioned Mrs. Blake severely. "Didn't she consent, or did you carry her away by force, Charlie?"

"Of course he didn't," protested Elvira. "I said I'd go, but I wish I hadn't. I was sorry right after we'd started, and I—I made Charlie stop here instead of going to the minister's. I ought to go back home. I know father 'll be worried." And her lip began to quiver again.

"Well, he won't be worried long," said Charlie, turning from the window. "He's coming down the road now."

Elvira sprang to her feet.

"Don't let him come in, Aunt Hester!" she cried excitedly. "He'll be mad at Charlie!"

"Let him!" fiercely from Charlie. "I don't know's I care."

"Don't say anything hateful to him," pleaded the girl piteously, "will you, Charlie?"

"Don't worry, Elvie," replied the boy soothingly. "I won't hurt him."

"I didn't mean that!" cried Elvie, trembling and clinging to him. "I don't want him to hurt you!"

"Would you care, Elvie?"

Elvira sobbed hysterically, her face against his coat.

"Of course I'd care"—in muffled tones—"you know I'd care."

Meanwhile Mrs. Blake watched the floundering horse far down the road.

"He'll be here directly," she warned. "You'd better get ahead of him."

But Elvie shrank back.

"I don't want to run away," she wailed, still clinging to her lover.

Over her head Charlie looked with despairing eyes at the older woman. With swift determination to help him, she took the girl's trembling hands in hers. "Elvie," she demanded, "do you love Charlie Brock?"

"Of course I do," answered Elvie, looking at her in surprise.

"Well, then, I don't know's I ought to advise it, but your mother's dead, and your pa'll never let you marry Charlie, because he's too poor, but that's no reason for separatin' young hearts. You've both got love and health and strength, and, Elvie, you're twenty-four and ought to know your own mind, and if you love Charlie and ain't got the courage to stand up in front of the minister, why, just stay here and let your father take you back home. But if you want to marry him you'll go now and have the words said before your father can pull his horse out of the drift, and I'll get my wraps and go with you."

As she disappeared into the adjoining room Elvie looked up into her lover's face. "I'll do it, Charlie," she whispered. "Aunt Hester's right. She always is. I'll go—wherever you go."

"On second thoughts I've determined to stay and have it out with the squire," said Mrs. Blake as she hustled the young people out to the cutter and wrapped a warm rug around the trembling girl. "Don't worry, Elvie. I'll make it all right with your father. Mind you come straight back here for your dinner," she urged smilingly as they drove rapidly away.

But when Elvira's father faced her at her own fireside a few minutes later there was no smile on her tired face.

"Yes, I helped them," she said defiantly, breaking the silence of thirty years.

"It wasn't your business," Squire Lee blustered, but she stopped him with quiet dignity.

"Yes, it was, Samuel. It was my business not to let Elvira spoil her life as you spoiled yours, for you ain't been happy any more'n I have. I ain't sayin' that Elvie's mother wa'n't a good woman, but the Lord makes two people for each other and puts them into this world to meet and marry and die together, and if they go against his plannin' they suffer."

He started eagerly to speak, but she went on rapidly.

"I didn't have enough money for you, and you shilly shallied between me and Lida and finally married her without sayin' a word to any one, and so at last I married Isaac. He was a good husband." A sudden impulse of loyalty toward the dead surged within her.

"Hetty," a joyous warmth breaking into the squire's voice—"Hetty, you said—you said 'any more'n you were.' Do you mean that you've cared, too, all these years? Have you, Hetty?" with compelling eyes on hers.

"Yes," she answered simply, "I've cared. And there hasn't been a day in all these years when I've seen you growing harder and harder that I ain't said to myself, 'He'd been different if he'd married the woman he loved.' Elvie's just like you. She'd keep Charlie off and on, and some day she'd go and marry somebody else and be miserable."

"I didn't mean her to be miserable," the squire stammered slowly. A great wonder held him fast. Was this the quiet, self repressed woman who all these years had sat across the aisle from him every Sunday morning in church, this slender, vibrant creature trembling in the might of her demand for happiness for his motherless girl? Was this the woman whom he had believed without feeling?

"Hetty!" he cried and held out his hand.

She took it and stood looking sadly up at him.

"Hetty, I didn't think you cared in that way. I thought you hated me for the way I'd treated you after goin' with you for two years. I never thought you missed me as I've missed you all these years. I'd give them all only to live over the two happy years when we kept company. How different"—

"You've remembered!" the widow cried, and her wan cheeks flushed. "I'm very lonesome here, Samuel, but I won't be any more when I know you've remembered. Now go out and put up your horse. Tommy's away for the holidays, and I'm all alone. The young folks are comin' back here for dinner, and you must join us, sociable like, and forgive them for runnin' away."

"Hetty," pleaded the squire, the light of determination in his eyes, "let's run away too! My horse is better'n Charlie's. We'll get to the parsonage most as quick as they do. Here, put on your wraps!" he commanded.

"No, no, Samuel"—her face flaming—"not after the way I talked. It looks as though I was hintin' "—

"We've wasted altogether too much time already, Hetty. Put this scarf over your ears. It's too cold for a bunnit."

"Oh, Samuel, we're too old to be so foolish!" she faltered.

"We're not too old to love," he assured her as he tied on the scarf.

Happiness.

Many people go through life dissatisfied and unhappy because they do not have what their neighbors have. They allow themselves to be constantly nettled by comparing themselves with others better off.

Now, about as poor business as one can engage in is to go through life with one's eyes so fixed upon what others have that he cannot enjoy his own.

Everywhere we see prosperous people who are making a great deal of money, and yet they are dissatisfied, discontended, unhappy, restless. They rove about from place to place, trying to find pleasure in this thing or that, but always disappointed. They think if they could only get somewhere else than where they are, do something else than what they are doing, if they could only go abroad, travel over different countries in a touring car or in an automobile, they would be happy. Their eyes are always focused upon something in dreamland instead of something in the land of reality.

They mistake the very nature of happiness. They put the emphasis on the wrong things.

The secret of happiness is not in your fortune, but in your heart. It does not consist of having, but in being. It is a condition of mind.—Success Magazine.

Very Neighborly.

"Good afternoon," said Mrs. Nagg, with icy politeness, to her next door neighbor. "Would you mind not looking out when my visitors are passing? It makes the place look vulgar."

"Thought they were brokers' men," replied Mrs. Snapp pleasantly. "You and your sister, or charwoman, or whatever she is, are not the kind that men visitors run after much, are you?"

"Better than some people whose 'usbins have run away from them," observed her neighbor.

"What do you mean, ma'am?"

"I name no names; their 'usbins may be in prison or they may not. 'Ave you seen my doormat, by the bye? I missed it yesterday."

"When I become a thief, ma'am, I'll steal something that's clean."

"Well, I must go," said Mrs. Nagg cordially. "I wish I could stop, but I've got to call on a lady."

"And so, of course, you feel awkward. Going to ask for a place as cook, perhaps. Well, I shan't keep you, ma'am. Good evening!"—London Scraps.

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

ANNUAL SALE, TEN MILLION BOXES

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is no goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St Quincy, or the Treasurer, RICHARD D. CHASE Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

New York, New Haven and Hartford R. R.

On and after Jan. 5th, 1908, trains will run as follows: Subject to change without notice.

River and Harbor Improvements

There was presented in the House of Representatives yesterday afternoon a petition from William Hoag and Allan M. Davis with a resolve saying that "the conditions set forth in the act of Congress known as the river and harbor act, approved March 2, 1907, which requires that no part of the sum appropriated by Congress by said act shall be expended until the secretary of war shall have received satisfactory assurance that the improvement of a certain portion of the Neponset river which lies above the improvement provided for by the said act of Congress shall hereafter be maintained by the Commonwealth of Massachusetts or other agency without expense to the government of the United States, are hereby accepted and the said conditions shall be performed by the commonwealth in accordance with the terms of the act of Congress aforesaid."

Mr. Curtiss of Hingham put in the petition of Walter W. Hersey and others with a resolve saying that, "the Board of Harbor and Land Commissioners is hereby permitted to dredge an anchorage basin at the head of Hingham harbor to a depth of six feet at mean low water and the sum of $10,000 is hereby appropriated to be paid out of the treasury of the commonwealth from the ordinary revenue for this purpose."

A Hot Time In City Square

There was quite an exciting time on Granite street near the corner of Hancock street this noon and for a time it looked as though murder might be committed.

It seems that two Italians, who gave their names as Dominico Cambolo and Luigi Tomau, had been employed excavating for the foundation of a house on Hancock street near Merrymount park. They had been at work for several weeks, and the only thing they had received for their work up to date was promises they allege.

This noon the two met their boss, as they called him on Granite street near the rear entrance to the Greenleaf hotel.

When the trio met the two Italians demanded their money, and were given more promises. A wordy war in the Italian language followed which grew warmer and warmer as it progressed.

Then it is alleged that the two knocked the boss down. The crowd interfered and Officer Matthews placed the two under arrest.

As soon as the boss got on his feet he began to run, and at last accounts was still running. He did not stop even to give his name, and the police have been unable to learn it.

Next Week at The Scenic.

The program for next week at The Scenic is to be a very attractive one, and the management has secured, at an additional expense, the most intensely interesting and beautiful reproduction of the original French drama in motion pictures, "The Two Orphans," and many others equally as enjoyable, which are an evening's entertainment in themselves.

In the vaudeville bill the following will do their best to amuse the Scenic patrons: James F. Corbley, polite entertainer, who, as a singer and monologue artist never fails to please an audience. The McLain Sisters, exponents of wooden shoe dancing and highly entertaining songsters; Sig. Guilmette, in an unrivalled comedy wire act; Hughes Bros., with a reptation, in a refined musical act. F. Jason Dolman will sing the latest and most popular songs, which will be beautifully illustrated. Both pictures and songs change Mondays and Thursdays.

Newsy Budget From Shipyard

Italy's proposal to appoint a civilian as her minister of war, announced some time ago has been carried into effect, and Senator Baron Casana chosen for the post. The Ministerial Popolo Romano, which at first deprecated the change to a civilian minister, seems now to have become reconciled to it. The only hostile criticism comes from the Radical and Socialist press, which has hitherto made a civilian minister the first item in its demand for any reform. Both the Vita and Avanti protest that the moment chosen for the experiment is inopportune, suggesting that Premier Giolitti has acted with the deliberate purpose of securing its failure.

Manager's notice number 178 has been issued, stating as follows: "Mr. E. B. Hill has assumed the duties of general foreman of U. S. Light Vessels numbers 90, 91, 92 and 93."

The electric wiring and lights are being installed in the new addition to the machine shop.

Transfer Tug Number 21, which will be one of the most powerful tow-boats in the new York service, had a dock trial yesterday. The steam pressure maintained was 150 pounds, and although this test was the engine's first performance, Engineer Charles H. Lincoln was well pleased with the result.

Although the Howard avenue gate has been discontinued for teaming, since the installation of the new gate built for that purpose on East Howard street near the employment office, it is still open at morning, noon and night for the convenience of those taking their meals at the Vermont House.

The news that a German fleet will cruise in the Mediterranean next spring has created some anxiety in French government circles, where it is thought that the presence of the warships may mean a "renewal of German meddling in Moroccan affairs."

A Russian engineer has invented a new type of submarine boat. The new boat employs the same motors above and below the surface.

Another Russian naval invention is a system to prevent the discharge of heavy guns except when the ship is on an even keel.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists.

Minstrel Show Iroquois Club

Music hall was well filled last evening at the second annual minstrel show under the auspices of the Iroquois club, given under the direction of A. J. Dinegan with William Wilson as pianist.

When the curtain rolled up for the opening chorus it showed a semi-circle of forty voices. The chorus was in striking green costumes with bright red trimmings. They were completely outshown however, in the gaudiness of the six end men, who wore shiny red Prince Albert coats and large black and white checkered trousers and silk hats.

Daniel L. McIntosh was the interlocutor with Herbert Hibbett as mascot. The end men were Bob Sullivan, Al Bullock, Bill Carey, Tim DeCoste, Dan Driscoll and Harry Hefferman.

Most of the end men received tributes when they sang their songs. Some of these were flowers and some were other articles. Bill Carey received a large roll which upon being opened proved to be a sign reading "Dublin's Councilman;" and Dan Driscoll received a sign reading "Knocker."

The opening chorus was arranged by A. J. Dinegan, and was an exceptionally good one, as it introduced the following young ladies: Misses Henrietta Malcolm, Margaret McKenzie, Margaret Walsh, Leona Rizzi, Josephine Rizzi, Mary Martell, Rita Lothrop, Carrie Blanding, Etta Thurber.

All of the end men had songs in the first part, and in addition there was a solo by Edward Donovan assisted by the club quartet, and a solo by George Davy.

During the grand finale there were tableaux by J. E. Belanger and Eva Marchand in "The Girl I Loved in Sunny Tennessee;" John Cain in "Old Black Joe;" and Frank Driscoll, Paul and Richard Larkin and John Cain in "Old Folks at Home;" and the "Thompson Street Cadets;" led by Edward Barrett.

Between the songs the jokes flew thick and fast. Many of the club members as well as well known characters in City Square came in for sharp pointed raps. There were also some about city officials, the Board of Health being referred to as working over time making out permits for the dead ones at City Hall. City Hall was likened unto a livery stable as it contained Mayor and Shea. (Mare and shay.) The policemen also came in for a few good natured knocks. The topical song, "In dear Quincy," also contained many hits.

One of the most taking numbers was the dancing specialty by Master Herbert Hibbett. This called for repeated encores.

Part two included a few minutes with Dudley Prescott, the humorist; swinging baton exhibition by Edward Barrett and an Indian song and dance with these characters: Big Chief — James Sullivan; Princess — Alfred Bullock; Braves—Peter Sullivan, Robert Sullivan and Timothy DeCoste; Squaws—Harry Heffernan, William Carey and Russell Sullivan.

At the conclusion of the minstrel show there was dancing until 2 o'clock. Music was furnished by Wilson's orchestra, and Alfred J. LaCroix catered for the lunch that was served in the annex.

CITY HOSPITAL.

THE Annual Meeting of the Corporators of the City Hospital of Quincy, will be held at Colonial Hall, on MONDAY EVENING, January 20th, at 8 o'clock, for the election of trustees for the ensuing year, and the transaction of any other business that may come before them.

WARREN W. ADAMS, Clerk.
Quincy, Jan. 8, 1908. 11t

Just Jotted Down By Ledger Men

More changes on Monday on the N. Y., N. H. & H. R. R.

Wollaston Masonic lodge will attend the funeral of James Abbott Stuart, formerly of Wollaston, who died at Allston on Wednesday.

Five Quincy built warships are now in the harbor of Rio Janerio, the Vermont, Rhode Island, New Jersey, Lawrence and Macdonough. A slight accident to the Lawrence is reported.

Unity circle of Kings Daughters have obtained for their entertainment next Wednesday evening a reader, and musical talent both vocal and instrumental. Tickets are good for the entertainment and refreshments.

A large audience should greet Mr. Sanford Bates Sunday evening at First church chapel when he addresses the Y. P. C. U. on Enthusiasm. Mr. Bates is president of the Boston Federation of Unions and the meeting should be an interesting one.

George Batty, a machinist and marine engineer, now employed at the Fore River shipyard is quite a clever artist, and as an aside often gives a complete evening's entertainment. Prof. Batty is known as the novelty and ever-ready entertainer. His address is 628 Washington street.

The Massachusetts Humane society has awarded a certificate to Fred A. Ray, 356 East River street, Hyde Park, for his bravery in saving the life of Alice Ash, 10 years old, of 93 Copeland street, West Quincy. The little girl fell from a boat and would have drowned had not Ray swam out and brought her to shore.

Mr. E. H. Angier of the Citizens' Association is receiving a great many applications for tickets for the lecture to be given by President Eliot of Harvard university at Quincy Music hall on Thursday evening Jan 30. It shows enterprise on the part of the Association in giving Quincy people an opportunity to hear and discuss such a vital question as "City Government by a few selectmen."

The numerous friends of the Pine Tree State Association are looking forward with a great deal of pleasure to next Wednesday evening Jan. 22, when the associction will give another of their delightful dances. These dances given each winter by the people of the Pine Tree State are, in every sense of the word, most enjoyable occasions. All who have had the good fortune to attend any of the previous dances are most anxious not to miss the one on Wednesday evening.

TRIBUTE OF RESPECT.

Adopted by Quincy Police Relief Association at a special meeting, called Jan. 17, 1908:

Whereas—It has pleased Almighty God in His mysterious providence to take from our midst, by death, our much esteemed friend and brother, Patrick J. Kelliher, who departed this life January 12, 1908, and as he was a useful and upright member of our association, always willing and ready to do good, therefore be it

Resolved— That while he is sadly missed, we will cherish memories of his worth, his honesty of purpose, high ideas of right, sterling qualities as a man and his willingness to labor for every good and noble cause, and be it further

Resolved, That we bow in humble submission to the will of our Heavenly Father, and in all things acknowledge his wisdom and righteousness. That we deeply sympathize with his bereft wife, child and relatives, and tender to them our condolence.

Resolved, That these resolutions be entered upon the record of our association, a copy sent to the press for publication, and an engrossed copy forwarded to the family of the deceased.

Mark E. Hanson,
Jeremiah Hinchon,
George A. Cahill,
Committee.
Quincy, Jan. 18, 1908. 1t

NOVELTY
Pleases Everybody.
IT CROWDS
Churches, Lodges, Societies and Halls,
Prof. GEORGE BATTY,
Entire Program Entertainer.
Master of Novelties; Instrumental Combinations, Solos, Duets, Quartettes, Specialties; Picturesque Artistic Paper Features and Attractions; Humorous Monologue, Songs, Dialect Recitals, Story-Telling; Musical Whistling and Imitations.
Calls to Home Parties receives prompt attention.
625 Washington Street, Quincy.
Jan. 18

BRAINTREE.

The next meeting of the Woman's Guild of the South Congregational church will be held on the regular date, the fourth Wednesday of the month which is next week Wednesday, Jan. 22. All the members are urged to attend.

The quarterly meeting of the Norfolk and Pilgrim Branch of the Woman's Board of Missions will be held Tuesday, Jan. 21, at the First Congregational church of Braintree. It will be an all day gathering with a luncheon of coffee and rolls provided by the entertaining church. It is earnestly hoped that our ladies will take notice of the meeting; the early date and the close proximity

On Thursday, Jan. 16, Mrs. Joyce entertained the Local club at her home on Sherbrooke avenue. The hostess treated her guests to a shore dinner, only the noise of the ocean waves was lacking. Among those present was a former member who was most cordially welcomed by her associates. The dentist had done too much for one lady to enjoy the refreshments so she did not appear and the other absentee was detained by illness in her family.

The regular meeting of the Krow Eldeen society was held last Tuesday evening at the home of Mrs. C. A. Dawson. Owing to the small attendance the election of officers was postponed till next Tuesday evening.

Mrs. James Dreghorn, who has been receiving treatment at the Homeopathic hospital, Boston, returned to her home on Hancock street Wednesday. Her many friends are pleased to learn of her good health.

Mr. and Mrs. N. E. Hayden and Miss Grace I. Loring accompanied Mrs. J. E. Hayden to Beverly, Monday evening, where she installed the officers of Auxiliary 25.

Wednesday, Miss Alice Holbrook attended the morning session of the Massachusetts library association, which was held in the Public library, Boston. Miss Carolyn Wilkinson, our librarian, attended the afternoon session.

Mrs. Atherton N. Hunt of Vine street entertained the Bridge club Wednesday evening.

Thursday Harry Bates of Pearl street went to the Massachusetts General hospital, Boston, for examination. It was found necessary to submit to an operation which will be performed next week.

Miss Elizabeth Levangie, daughter of Mr. and Mrs. Benjamin Levangie, was tendered a surprise party on Thursday evening, a number of friends from Dedham being present.

The Washington whist club was entertained at the home of Mr. and Mrs. Bert Woodworth of West street, Thursday evening.

R. Allen Gage has cut down nearly all the old apple trees on the land owned by the N. Y., N. H. & H. R. R. on Elm street opposite post office block. They were infested with gypsy moths.

The Braintree Guild (Episcopal) will hold a social and supper in the Masonic Temple on Friday evening, January 24. Supper will be served at seven o'clock. All are cordially invited.

The St. Mary's Society (Episcopal) will meet on Wednesday afternoon, January 22, at the home of Mrs. Bill, 91 Hollis avenue.

Mrs. H. R. Church and children of Milford, Mass., are visiting her parents Mr. and Mrs. H. A. Clark.

Mrs. Flossie Trufant has returned from Brookline, where she has been spending a few weeks.

The usual monthly social will be held at Delta hall Masonic Temple, Friday evening, January 24. A chafing dish supper will be served at seven o'clock to be followed by an entertainment and from the character of the artists engaged it is expected the evening will be one of exceptional pleasure.

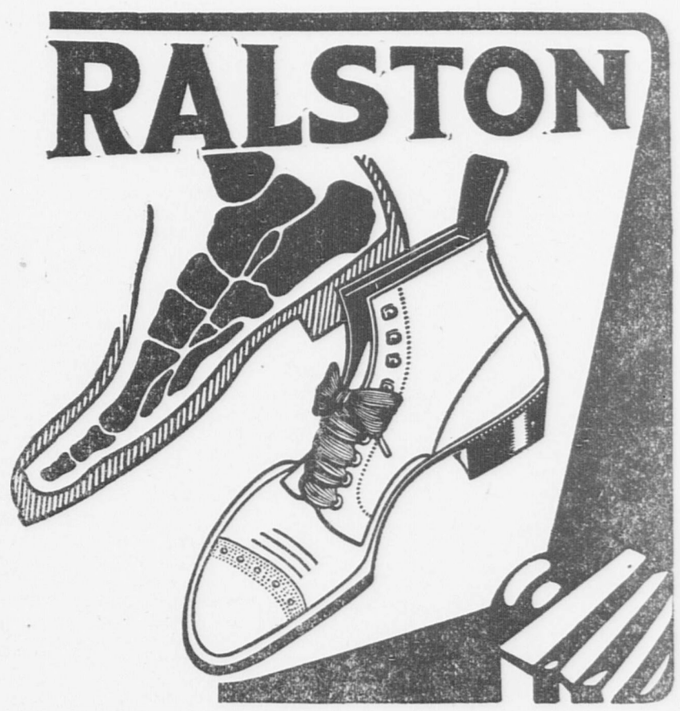

—Beef is going down, we are told, but evidently so slowly that its descent is not perceptible.

Announcement has been made this week of a song recital to be given by C. Pol Plancon of Boston, baritone soloist at First church on Wednesday evening, Jan. 29th, at First church chapel. He will be assisted by Mrs. Laurance H. Sturtevant, soprano soloist and Mr. Cutter at the piano. It promises to be a notable affair, musically and socially.

Help Him
Ask your doctor if there is one single injurious thing in Ayer's Hair Vigor. Formula published everywhere.
A very delicate matter, to be sure, but do you think your husband is as good looking as he ought to be? Help him out! Offer to buy him a bottle of Ayer's Hair Vigor if he will only use it. Removes dandruff, keeps the hair soft and smooth, gives the proper finish to the general make-up. J. C. Ayer Co., Lowell, Mass.

FIRST ANNUAL EXCLUSIVE EXHIBITION
THE NATIONAL
MOTOR BOAT and ENGINE SHOW
Opens SATURDAY, Jan. 25, at 8 P. M.
MECHANICS BUILDING, BOSTON,
CONTINUING ONE WEEK.
Open from 10 to 11. Admission, 50 Cents.
CHESTER I. CAMPBELL, Manager.

RALSTON

So Cleverly Have
the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,
1 Granite Street, Quincy.

SENSATIONAL
Furniture Sale
HENRY L. KINCAIDE & CO.

UNEQUALLED in magnitude by any furniture sale ever inaugurated. This is a legitimate genuine cut price sale. **A SQUARE DEAL SALE FROM START TO FINISH,** where original prices and tags remain on goods, and Sensational Sale Prices are attached showing the wonderful saving afforded. No goods marked up with special prices attached to deceive unthinking buyers. Our prices always have been and always will be, **THE LOWEST ON EARTH.** If some one offers a discount or gift to turn a sale, we will offer a larger one. If some one starts a fake sale we immediately inaugurate **A SQUARE DEAL SALE,** a sale that means something to the buying public, especially the working man. We have one of the largest and most attractive furniture stocks in New England. Our stock is wonderfully complete at the present time, not a weak spot in it. Beautiful Mahogany Chamber, Dining Room and Parlor Furniture. Exquisite designs from the leading Grand Rapids Factories. Choice Leather Library Furniture, Mission, Early English, Dutch, Golden Oak, Birch, Birds' Eye Maple Furniture. Brass and Iron Beds, Latest styles in Draperies and Portieres, High grade Pianos, Glenwood Ranges and everything that's good and true in House Furnishings. **THIS ENTIRE STOCK WITHOUT EQUAL IS OFFERED AT SENSATIONAL PRICES DURING THIS SALE.** We invite comparison. Goods sold during this sale we will store free until needed. Special credit arrangements to all who so desire. This is an opportunity you will never have again, to buy Home Furnishings at less than manufacturers' prices.

Children's Furniture, High Chairs, Rockers, Cribs, Cradles, all at less than cost prices.

Drop Side Couches Complete with mattress and bolsters $3.98, $4.98, $5.75.

The Above are but a scattering few of our slaughter prices. Every piece of furniture in our store will be sold at a cut of from 20 to 60 per cent. Many things at less than the cost of materials used, to say nothing of labor. Cost has not been considered in this sale for we anticipate the greatest year's business we have ever done. The little panic and scare of the past few months is now a thing of the past. This great country was never more prosperous. The greatest crops in history have been recently harvested. Plenty of money is in existence and that which has been reposing under the mattress and in the stocking of the skeered folks is rapidly finding its way back into legitimate channels. The wheels of industry have started everywhere—the few unemployed are getting back to work and a steady gain in business is being made each day. The worst is over and the greatest prosperity the country has ever known is close at hand. The trusts are now sitting up and taking notice. Great railroad corporations are climbing down from their high perch, and the rights of labor are being recognized. What's happened is all for the best and we say advisedly to every house keeper present or future, get busy, anticipate your needs of the future, buy the things you need or may need, for the money saved during this sale is money earned, and such an opportunity as this may never come again.

Special Credit Arrangements for all who wish.

Henry L. Kincaide & Co.,
New England's Lowest Priced House Furnishers,
1495 Hancock St., Quincy. Main Store and Annex open Monday, Friday and Saturday Evenings.

EVELYN THAW'S TALE

Even Reporters May Be Prevented From Hearing It

COURT CONSIDERING MATTER

Thaw's Mother, Wife and Former Nurse Give Testimony Calculated to Build Net of Irrationality Around the Slayer of Stanford White

New York, Jan. 18.—A series of surprises brought the Thaw trial near a crisis yesterday. Both Evelyn Thaw, the wife, and Mrs. William Thaw, the mother of the defendant, were on the witness stand, and just as the former was about to relate anew the story of her life, as she told it to Thaw in Paris in 1903, District Attorney Jerome arose and suggested that in the interest of public morals all persons save those immediately interested in the case be excluded from the courtroom during the recital of what he termed "a horrible tale." The motion included the representatives of newspapers as well as the public generally.

Attorney Littleton of the defense joined in it to shield the young woman from hundreds of curious eyes, and said that, so far as the constitutional right to an open hearing was concerned, he was ready to waive that point in any ironclad manner the court might suggest. Proceedings were suspended until next Monday, when Justice Dowling, who is presiding, will announce his decision.

The district attorney's suggestion was a distinct surprise, and called forth the remark by Dowling that it would have come with greater force at the first trial.

When Jerome arose it was generally believed that he was about to combat the admissability of Evelyn Thaw's testimony on the ground that it could not have had a very serious effect upon the mind of the man who subsequently became her husband, inasmuch as the homicide did not occur until three years thereafter. Jerome had previously objected to Mrs. Thaw's detailing conversations she had with Thaw three years prior to the tragedy, but Justice Dowling ruled that the declarations of the defendant were admissible on general principles and without any reference to the Wood case, under which the evidence in dispute was admitted last year.

"I will not except to your honor's ruling," said the district attorney, as he took his seat after his objection, "for the state has no power of appeal."

Then Jerome attacked the witness in another way and, by standing immediately in front of her and objecting to practically every question which Littleton asked in his preliminary examination as to her early history, cut her recital from the effective narrative form it assumed last year into a hundred fragments.

Many of the objections, based upon irrelevancy and immateriality, were sustained by the court. When these failed, the prosecutor was ready with others until the testimony was fairly torn to shreds and had entirely lost the many little touches of interest which were a part of the recital last year when no objections were offered. Jerome said his objections were intended to bar all stories about pet cats "and a lot of other stuff," which had no place in the trial.

The day, however, was one of good progress. The elder Mrs. Thaw, pale and weak from her recent illness, was assisted to the witness chair and repeated a large part of the testimony she gave a year ago. Her appearance and the sincerity of her evidence as she told of her son's strange conduct after meeting Evelyn Nesbit and hearing her story had a marked effect upon all who listened. On account of her weak condition her examination was interrupted by consent, to be resumed some time next week, when she will tell of Thaw's infancy. Jerome's manner while she was on the stand was all deference, and it was his suggestion which led to the respite in her ordeal.

But when the young wife took the stand the change was marked. Jerome glared at her from the very first, and his objections were fairly shouted into her ears. Well accustomed to court usage from her former experience, the young woman waited patiently for a ruling as to each objection. When they were sustained she was silent; when overruled she was ready with a response.

Effective testimony was given by Miss Alice C. Fletcher of Washington, long a friend of the Thaws and a frequent visitor at their home. She said she had known Harry Thaw for twenty-six years and he had always impressed her as irrational. Miss Catherine O'Neill, who nursed Thaw as a boy, from his third to his tenth year, added her evidence to that already adduced as to to erratic conduct and tendencies of the defendant.

Two doormen at the police station where Thaw was confined the night of the tragedy repeated their testimony of last year about Thaw's irrational appearance and his complaining of noises that did not exist.

Full Time For Silk Workers

Northampton, Mass., Jan. 18.— Belding Bros.' silk mill here, which has been running on reduced time since November, will resume operations on Monday on full time, fifty-four hours a week. Five hundred hands are affected.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher. and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children- Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher.

The Kind You Have Always Bought

The Scrap Book

Evading the Issue.

An old woman who entered a country savings bank was asked whether she wanted to draw or deposit.

"Nayther; Oi wants to put some money in."

The clerk entered the amount and pushed the slip toward her to sign. "Sign on this line, please," he said.

"Above or below it?"

"Just above it."

"Me whole name?"

"Yes."

"Before Oi was married?"

"No; just as it is now."

"Oi can't wroite."

GOLD.

Gold, gold, gold, gold!
Bright and yellow, hard and cold,
Molten, graven, hammered and rolled,
Heavy to get and light to hold,
Hoarded, bartered, bought and sold,
Stolen, borrowed, squandered, doled,
Spurned by the young, but hugged by the old
To the very edge of the churchyard mold!
Price of many a crime untold.
Gold, gold, gold, gold!
Good or bad a thousandfold!
How widely its uses vary—
To save, to ruin, to curse, to bless,
As even its minted coins express,
Now stamped with the image of good Queen Bess
And now of a bloody Mary!

—Hood.

Sweet Revenge.

A little boy came into a dentist's office and had a troublesome tooth removed. The boy asked for the tooth. The dentist gave it to him and asked why he wanted it.

"I'm goin' to take the old thing home an' stuff it with sugar an' watch it ache!"—Lippincott's.

A Cause For Thanks.

A camp meeting was in progress in the wire grass region of Georgia. The afternoon service was conducted by Uncle Mose Bradford, an exhorter of deep piety, but innocent of book learning. He took for his text on this occasion the words of St. Paul, "For I have learned in whatsoever state I am therewith to be content."

After talking about fifteen minutes on the beauty of contentment from a Christian's point of view, he announced that he was going to "throw the meeting open." His invitation was, "If you've got anything to be thankful for, git up and say so."

One after another rose and spoke of peace and contentment under circumstances that seemed impossible, judged from a worldly standpoint. Some said they were thankful for things they had missed, and at last an old lady arose, pushed back her sunbonnet, and with a beaming countenance triumphantly exclaimed, "Well, Brother Mose, I hain't got but two teeth, but, thank God, they hit!"

A Choice of Two Evils.

"I think I can quiet little Flora," said the professor. "There's no use in humming to her in that silly way. What she wants is real music. The fact that I used to lead our glee club at college may make a difference too."

He took the child and, striding up and down the room, sang in his best manner. After awhile a ring was heard, and the door was opened to admit a little girl.

"I'm one of the family that's just moved into the flat next to yours," she said. "There's a sick person with us, and he says would you mind letting the baby cry instead of singing to it?"—Ladies' Home Journal.

Lots of Weather.

"I want to do some shopping today, dear," said a fond wife—"that is, if the weather is favorable. What is the forecast?"

At the other end of the table her husband, consulting his paper, read aloud, "Rain, hail, snow, thunder, lightning and floods."

Guilty Consciences.

The following advertisement recently appeared in a London morning paper:

"The person who stole my umbrella last Sunday in St. Paul's church is personally known to me, and unless he shall return it before twenty-four hours he will see his name printed in this same paper. Address X. Y., 10 High street."

A dozen silk umbrellas were received by the advertiser the following day, each accompanied by a note of apology for the involuntary mistake made.

No More Room.

Once in Dublin toward the end of the opera Satan was conducting Faust through a trapdoor which represented the gates of hades. His majesty got through all right—he was used to going below—but Faust, who was quite stout, got only about halfway in, and no squeezing would get him any farther. Suddenly an Irishman in the gallery exclaimed devoutly, "Thank God, hell is full!"

How Jack Got the Bed.

"A sweetheart of his was longing for a feather bed," said Goggins, "and Jack determined to get it. Well, he marched into a house, the door of which he found open, and went upstairs and took the best feather bed in the house, tied it up in the quilt, crammed some caps and ribbons he saw lying about into the bundle and marched downstairs again. But, you see, in carrying off even the small thing of a feather bed Jack showed the skill of a high practitioner, for he descendhered the stairs backward."

"Backward! What was that for?"

"You'll see by and by. He descendhered backward, when suddenly he heard a door opening and a faymale voice exclaim, 'Where are you going with that bed?'

"'I'm going upstairs with it, ma'am,' says Jack, whose backward position favored his lie, and he began to walk up again.

"'Come down here,' said the lady. 'We want no beds here, man.'

"'Mr. Sullivan, ma'am, sent me home with it himself, ma'am,' said Jack, still mounting the stairs.

"'Come down here, I tell you,' said the lady in a great rage. 'There's no Mr. Sullivan lives here. Go out of this with your bed, you stupid fellow.'

"'I beg your pardon, ma'am,' says Jack, turning round and marching off with the bed fair and aisy."

Little Reason, Big Fuss.

Robert G. Ingersoll used to relate an anecdote of a Hebrew who went into a restaurant to get his dinner. The devil of temptation whispered in his ear, "Bacon." He knew that if there was anything that made Jehovah real white mad it was to see anybody eating bacon, but he thought, "Maybe he is too busy watching sparrows and counting hairs to notice me," and so he took a slice. The weather was delightful when he went into the restaurant, but when he came out the sky was overcast, the lightning leaped from cloud to cloud, the earth trembled, and it was dark. He went back into the restaurant, trembling with fear, and, leaning over the counter, said to the clerk, "Did you ever hear such a fuss about a little piece of bacon?"

Not a "Birth" In His Language.

A commercial traveler is on friendly terms with the porter of a sleeping car that he uses frequently.

"Well, Lawrence," announced the salesman one morning gleefully, "I have good news for you. We've had a birth in our family—twins."

"Dat am no birth, sir; dat's a section."—Ladies' Home Journal.

Crowded.

In the Berkshire hills there was a funeral, and as the friends and mourners gathered in the little parlor there came the typical New England female who mingles curiosity with sympathy, and as she glanced around the darkened room she said to the bereaved widow:

"Where did you get that new eight day clock?"

"We ain't got no new eight day clock."

"You ain't? What's that in the corner there?"

"Why, no, that's not an eight day clock; that's the deceased. We stood him on end to make room for the mourners."

Honors Were Easy.

A congressman's secretary, thinking he heard burglars in the house, woke the congressman.

"Sir, sir," he whispered sharply, "there are burglars in the house!"

"Well," he mumbled drowsily, "so there are in the senate."—Everybody's.

Opinion Based on Knowledge.

A physician who has some practice among the colored population was awakened in the middle of the night by a frantic ring at his bell. Putting his head out of the window, he inquired, "Who's there?"

"It's me, doctah. It's Dinah. I wants yer ter come quick ter see my ole man. He's pow'ful sick."

"What seems to be the matter with him?"

"It's indigestion ob de kidneys."

"You mean congestion of the kidneys."

"No, sah; it's indigestion ob de kidneys. He done eat four platefuls ob 'em, stewed, fer supper, and he ain't done slep' a wink since."—Lippincott's.

What the Nose Couldn't Do.

A Sunday school teacher tried to make the little ones understand different verses in the Bible by letting them finish each sentence.

"The idol had eyes," she said, "but it couldn't"—

"See!" cried the children.

"It had lips, but it couldn't"—

"Speak!"

"It had ears, but it couldn't"—

"Hear!"

"It had a nose, but it couldn't"—

"Blow it!"

As Lincoln Might Have Put It.

A naval officer once went to President Cleveland, laying before him a request for the appointment of a nephew to the Naval academy at Annapolis. "His father, my late brother, our father, grandfather and great-grandfather before him were all in the service," the officer added.

The president did not speak for some moments. When he did he said:

"As a matter of fact, I am rather disposed to grant the appointment, knowing as I do the young man's merits, but what you have just remarked with reference to the long service of the family in the navy fills me with some doubt. I am tempted to ask whether you do not think that it is about time that one of the family went to work for a living."

A Conscientious Constituent.

Congressman Hull of Iowa sent free seeds to a constituent in a franked envelope, on the corner of which was the usual words, "Penalty for private use, $300." A few days later he received a letter which read:

"I don't know what to do about those garden seeds you sent me. I notice it is $300 fine for private use. I don't want to use them for the public. I want to plant them in my private garden. I can't afford to pay $300 for the privilege. Won't you see if you can't fix it so I can use them privately? I am a law abiding citizen and do not want to commit any crime."

CLUBWOMEN'S FROLIC

"Post Parliaments" Tell Why Woman Should Not Vote.

SHE'D NEVER BECOME OF AGE.

Could Not Join the Navy Because the Souvenir Department Would Bankrupt the Government--Jolly Members of New York Organization Satirize Mere Man.

Peals of laughter issued from the corridors of the state apartments of the Waldorf hotel in New York the other morning, coming from the newly decorated pink reception room, which was filled with well gowned women, of whom those in the front row and on the platform presented a peculiar appearance, says the New York Times. All these women were decorated with big white placards suspended from bright red ribbons around their necks, which were inscribed in big black letters, "Secretary of the Treasury," "Secretary of War," "Secretary of the Interior," etc., titles of the various heads of the government. A few bore only the word "Committee." The central figure was inscribed "President."

It was the Post Parliament club of New York in its annual "frolic," which this year took the form of a cabinet meeting to consider the subject of a "department devoted to the interests of women," with a seat in the cabinet.

The president, also president of the club, Mrs. John Fowler Trow, and cabinet officers sat on the platform, while on the floor were the speaker of the house, Mrs. Charlotte Wilbour; the sergeant at arms, the smallest woman in the club; the women marked "Committee" and Mrs. Belle de Rivera.

There was a strong sentiment against women, which was voiced by the cabinet officers in turn.

"There is no reason for giving woman a vote," said the secretary of the interior. "She never would get to be twenty-one, so she couldn't vote anyway."

"We couldn't have women in the army," said the secretary of war, "for they would never get to the age when we could retire them."

"It would never do to have women have anything to do with the navy," said the secretary of the navy, "for the souvenir department would bankrupt the government."

After the last of the cabinet officers had been heard the sergeant at arms announced Mrs. de Rivera, who said, "My committee has something to say." The committee—four women properly placarded—exclaimed in chorus:

"We do not wish to think; we are the womanly women," which was received with hilarity.

"Mrs. President," began Mrs. de Rivera, "I should like to ask if there are secret service men here. I understand that the suffragists have taken to militant movements, and I do not think my life is safe.

"Do not let women vote. What will happen if we interfere with noble man, who can make 500 laws at one sitting? Do we want unskilled labor making our laws? Men make our laws, and women have only to obey them.

"We read that the greater part of the criminal class are men. Is it possible that the vote has something to do with this and that by giving it to innocent women we shall make them, too, criminals?

"Men have decided when and where we shall wear hats, whether or not we shall smoke. Why interfere with them? It makes the brain reel to think of the possibilities if women—and love—were to enter politics.

"Women can't serve the political machine and babies too. Give women the vote, and, the first thing you know, they will have the baby using the political machine for a perambulator. There will be no homes, no marriages, nothing but bosses."

CORN LIKE CENTURIES AGO.

Ear Similar to That of Ancients Grown by Freak of Nature.

Nature forgot its centuries of education near Adel, Ia., last fall and by some strange freak produced corn as it was originally found in its wild state, says a Des Moines (Ia.) special dispatch to the Chicago Inter Ocean. The ear of corn is the most remarkable ever shown in the corn belt. At about the middle of one side of the ear a little sprig came out, extending about four inches long.

At first glance it looks like a portion of the tassel bearing corn. But it is not a tassel. It is a head like that of any small grain, having little cups, in some of which perfect grains of corn have formed.

It is claimed this was the original form of corn by agronomists who have seen it and that with centuries of cultivation was brought to the present form of corn.

Gave a Mule to a College.

Charles Tanner of Salina, Kan., has given to the Kansas Wesleyan university, located in Salina, the best mule in his barn, valued at probably $200, says a Salina correspondent of the Kansas City Journal. The animal will be sold at public auction on the street in Salina on Jan. 25, and as the bidding will be spirited among friends of the university the mule is expected to bring close to $1,000.

The Good Time Coming.

When airships come into common use, says the Chicago Record-Herald, people who tell us how far it is as the crow flies will be of real service.

COMMITTEEMEN AT ODDS

Expected Endorsement of Hughes Fails to Materialize

New York, Jan. 17.—An attempt to force consideration of the tabled resolution endorsing Governor Hughes for the Republican nomination for president was defeated last night at what was probably the stormiest session in the political history of the New York Republican county committee. After nearly three hours of debate, characterized by bitter invectives and frequently drowned down by cheers, hisses and catcalls, an adjournment for one month was taken with nothing more than routine business having been transacted.

A vote on the straight question of endorsing Hughes or any other presidential candidate was never reached, the time of the committee being taken up with appeals from the ruling of the chair and other minor issues. There was no doubt of the veiled issue, however, and the outspoken supporters of Hughes lined squarely against those who are either friendly to the candidacy of Taft or opposed to any endorsement by the committee at this time.

At its meeting in December the county committee tabled a resolution endorsing Hughes as a candidate before the Republican national convention. It was then understood that definite disposition of the resolution would be made last night. Preceding the session last evening, however, the executive committee met and a lineup showed an opposition to Hughes of 22 to 13 in the sub-body.

During the speaking there were mingled cheers and hisses for the president, Hughes, Taft and Foraker, and the chairman had a desperate time in keeping a semblance of order.

Prediction of Jeff Davis

New York, Jan. 17.—Resolutions pledging the support of the Progressive Democratic League to the candidacy of William J. Bryan for the presidency were adopted at a mass meeting held under the auspices of the league at Cooper Union last night. The principal address was made by Senator Jeff Davis of Arkansas, who predicted the nomination and election of Bryan. The Declaration of Independence was now, he said, a stranger to most people, and something was wrong with the ship of state. Relief from present conditions, he said, was to be found in the policy of giving every man an equal chance.

Endorsement of Bryan

Buffalo, Jan. 17.—At a meeting of the Democratic general committee a resolution was adopted endorsing William J. Bryan as Erie county's choice for the Democratic presidential nomination.

Further Arrests In Murder Case

New York, Jan. 17.—Charged with attempted murder in the first degree in having acted in concert with Bedros Hampartzoomian, who killed L. Tavshanjian, the millionaire Armenian rug manufacturer, Yeiga Coozugian, a restaurant keeper, and Kisag Gellalia, a grocer, both Armenians, were locked up last night. The two men had been held as witnesses against Hampartzoomian, who is now awaiting electrocution, and against Father Martoogesslan, the Armenian priest who was arrested at the time, charged with conspiracy. The priest is now in the Tombs.

Cannot Get Horse to Carry Him

Washington, Jan. 17.—Secretary Taft says that it has been decided to retain Colonel Marshall, corps of engineers, on the active list, in charge of harbor improvements at New York, for the reason that he is fully capable to perform the duties confided to him, despite the fact that his size and weight prevented him taking part in the recent riding test at Fort Myer. So far the army quartermasters have failed to provide a horse strong enough to carrry one of his weight with safety.

Cashier Scott In Insane Hospital

Franklinville, N. Y., Jan. 17.—Edwin D. Scott, cashier of the People's National bank of Franklinville, which was closed last Monday by a federal bank examiner, was committed to a hospital for the insane. Scott's actions had been irrational for some time prior to the closing of the bank, and since then he has become violent.

Wife Charges Squandering

Middletown, N. Y., Jan. 17.—The application of Mrs. Eva M. Barker for the appointment of a committee to care for the property of her husband, Charles B. Barker, a wealthy New York yachtsman, is denied by Justice Mill of the supreme court. Mrs. Barker claimed that her husband was squandering his property.

Long Deadlock Likely

Frankfort, Ky., Jan. 17.—The senatorial deadlock remains unbroken. The Republicans yesterday cast their sixty-four votes solidly for Bradley and Beckham again received sixty-six votes. It looks like a hopeless deadlock unless the Republicans and anti-Beckham Democrats can unite on some Democrat other than Beckham.

NEWS IN BRIEF

A petition in bankruptcy was filed at Denver by Orman & Crook, railroad contractors.

The Irish Parliamentary party re-elected John E. Redmond to the position of chairman.

Vice President Charles E. Chase was elected president of the Hartford Fire Insurance company to succeed his father, the late George L. Chase.

John K. Hamilton, aged 67, of Sabbattus, Me., committed suicide by hanging. It is believed that his mind had become unbalanced.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whitish discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousnnss, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten day's treatment is yours, also the book. Write today, as you may not see this offer again. Address

PLANNING BOMBARDMENT

Hayti Adopting Energetic Campaign Against Insurgents

Port au Prince, Hayti, Jan. 18.—The government has declared the ports of Gonaives and St. Marc, which are occupied by insurgents, to be blockaded, and it declares that preparations are being made to bombard them.

The American converted yacht Eagle arrived here yesterday and Commander Marvell, after an interview with the American minister, Mr. Furniss, proceeded with the vessel for St. Marc.

The report that General Jadotte, commandant of the government troops in the Gonaives district, had been shot and killed by insurgents, has been confirmed. General Deslouches, commanding the revolutionary troops, has been killed in an action at St. Marc.

The other cities of the republic except Gonaives and St. Marc are quiet.

The diplomatic corps has made a formal protest against the government's proposed bombardment of towns held by the insurgents.

Washington, Jan. 18.—American Minister Furniss at Port au Prince reports that the towns of Gonaives and St. Marc are in the hands of the revolutionists; that there was a battle, and that the revolutionists were repulsed. Furniss had an interview with President Nord, who had insisted upon bombarding St. Marc. Lieutenant Commander Marvel had protested against the bombardment until a reasonable time had been allowed in which to move the women and children and non-combatants from the port.

Support of Tuskegee Urged

New York, Jan. 18.—Governor Hughes, Henry Watterson and Booker T. Washington gave sympathetic expression to the needs, aims and hopes of the negro race before a large audience at Carnegie hall. To these personally delivered addresses were added similar sentiments in the form of messages from Cardinal Gibbons and Ambassador Bryce. With unanimity these men advocated further opportunity for this less fortunate people through popular support of Tuskegee institute, in the interests of which the meeting was held.

Arrests In $200,000 Theft Case

Merced, Cal., Jan. 18.—A Scotland Yard detective is reported to have arrested two men here on charges of having committed a $200,000 jewelry robbery in London. The accused men, it is said, waived extradition, and it is further said that the detective and his prisoners have left for New York. According to the story told here, four years ago last April the home of a wealthy Londoner was robbed of jewelry valued at $200,000. Simultaneously a groom and a butler employed in the house disappeared.

Sovereign Bank to Liquidate

Toronto, Jan. 18.—The Sovereign Bank of Canada has gone into liquidation and the Bankers' association will take charge of the assets. The bank has seventy-six branches in Ontario, Quebec, the northwest and the maritime provinces. The Sovereign bank was organized in Toronto in 1904 with a capital of $1,500,000, which was increased in 1905 to $4,000,000,000. Depositors will lose nothing, but holders of shares in the Sovereign bank probably will not fare so well.

Business Slowly Improving

New York, Jan. 18.—R. G. Dun & Co.'s Weekly Review of Trade says that progress is slow, but each week brings a little improvement, and confidence in the future grows more rapidly than current transactions. The best feature is the broader market for commercial paper. Buyers are coming into the leading markets in large numbers, which should increase transactions unless prices cannot be adjusted.

Navy Hospital Ship Wanted

Washington, Jan. 18.—Surgeon General Rixey of the navy asked the house committee on naval affairs to recommend an appropriation of $1,500,000 for the construction and equipment of a navy hospital ship. This estimate contemplates the installation of the most modern instruments and appliances which science has perfected in the surgical field.

Shutting Off Trade Privileges

Ottawa, Jan. 18.—The Dominion government has passed an order-in-council withdrawing the coasting privileges from Italy, Germany, Netherlands, Sweden and Norway, Austro-Hungary, Denmark, Belgium and the Argentine Republic. These countries, after Jan. 1, 1909, will not be permitted to do a coasting trade in Canada.

Navy Unprepared For War

Santa Barbara, Cal., Jan. 18.—Radical reorganization of the navy should be undertaken at once, in the opinion of Rear Admiral McCalla, as expressed in an interview. The lack of preparation of this country for possible war should demand early and serious consideration, he said.

NEWS IN BRIEF

Andrew Marshall has been appointed assistant attorney general of the commonwealth of Massachusetts by Governor Guild to succeed Walter P. Hall, now chairman of the railroad commission.

A delegation of citizens of Paducah, Ky., presented a handsome silver service to the gunboat which bears the name of their city. The presentation was made on board the Paducah, which was anchored off New Orleans.

James C. Hawkins, aged 25, was instantly killed while crossing the tracks near the North station, Boston, by being struck by a shifting engine.

BOSTON AMUSEMENTS.

BOSTON THEATRE.

Manager Morison is showing a determination to develope the possibilities of stock company productions to the fullest extent in his conduct of the season at the Boston theatre. He is not content to follow in the beaten path of this class of theatrical management but is constantly striving, and with distinct success, to give his patrons productions of novelties and in a fashion equal to those for which much larger prices are charged. He has made an arrangement with David Belasco in regard to the production of the charming comedy "Sweet Kitty Bellairs" which will enable him to present this play next week with all of the scenery, designed and painted for Mr. Belasco's production of it as well as with all the beautiful costumes designed and manufactured for the performance of the play under Mr. Belasco's direction. The members of the Massachusetts Press Associatson are to be the guests of Manager Morison at the first performance of this play on Monday evening next following the annual dinner of the Association in Boston on that day.

COLONIAL THEATRE.

Maclyn Arbuckle, who plays the role of "Slim" Hoover, the Sheriff, in Klaw & Erlanger's production of "The Round UUp" at the Colonial theatre in Boston, is a native Texan and was educated to be a lawyer. He was admitted to the bar at Texarkana before he was twenty years of age, and, after nearly starving to death endeavoring to work up a practice, he joined a one-night stand trope and became an actor. His attention was turned to the stage through soliciting subscriptions for a set of Shakespeare. In his many leisure moments he committed to memory several parts and made quite a local reputation reciting them from a billiard table in the hotel cafe. Col. W. F. Cody ("Buffalo Bill") recently saw "The Round Up" at the Broadway theatre in New York and remarked that it is the truest picture of western life that has ever been seen on the stage. It is a strong, healthful play, telling a forceful human story.

KEITH'S THEATRE.

One of the best all-round bills of the season will be given at Keith's next week, with William Courtleigh and company, Laddie Cliff, Marzella's trained birds, Fagan and Byron Spissel Brothers and Mack, Charles Leonard Fletcher, the Basque Quartet and the Goltz Trio among the leading features. "Peaches" is the sketch to be played by William Courtleigh and his company, which includes that clever character comedian, Richard P. Crolius. It is from the pen of George V. Hobart and is one of the brightest things the clever humorist-dramatist has ever written. That it is well played by the Courtleigh company goes without saying.

CASTLE SQUARE THEATRE.

The Castle Square theatre is in the midst of another grand opera revival, and "La Traviata" is sharing the success that has always come to "Il Trovatore;" to "Aida" and to all the Verdi operas. A dramatic known to all theatre-goers who have seen Dumas's "Camille;" gives it a romantic atmosphere, and the pathetic character of it's heroine appeals to both lovers of emotional acting and of music. Verdi has written some of his most eloquent solos and choruses for "La Traviata;" and at the Castle Square they are excellently interpreted by an enlarged orchestra and by an augmented company of singers. Madame Noldi in the title role has again won a significant triumph ever since the opening performance last Thursday evening. It's last performance will be given next Wednesday afternoon and evening.

TREMONT THEATRE.

"The Man of the Hour," by George Broadhurst, the most widely discussed play of modern times comes to the Tremont theatre next Monday night. It has been witnessed by nearly a million people during its phenomenal run of almost two years in New York. Brady and Grismer bring the New York cast and the Tremont engagement will be the only one in New England. "The Man of the Hour" deals with the theme of political graft. It is a play throbbing with strong emotions and with red blood in its veins. It is essentially human. Even its political grafters are the real thing, big strong men of mentality and force.

THE ORPHEUM.

A genuine sensation has been provided for the Orpheum for the week of Jan. 20, in the "Motto-girl," an act that has drawn record breaking audiences in every city in which it has been presented. It was the wonder of London for three months at the Palace theatre and no other act in years was the subject of so much newspaper comment. It was the same in Paris, everywhere controversy arising as to whether the figure on the stage, and afterwards passed through the audience for examination, is a piece of mechanism or a live girl. The bill for this week contains a number of strong features including Nellie Wallace, a grotesque comedienne who by a style of her own has proved a big winner.

The Observations In the Daily Walk

The alarm from box 63 at 9.37 last evening was a false alarm.

Mrs. Forrest B. Royal of Adams street left this week for New York for a few weeks' stay.

Edward T. Q. Hodges of East Milton took first prize for single comb black leghorn pullets at the Boston poultry show.

At the Poultry show this week Dr. W. J. Middleton of Quincy Point took first prizes for Scotch canary, and also for a golden lizard canary.

The Fragment society of First church will hold an all day box luncheon meeting in the chapel next Wednesday from 10 A. M. to 3 P. M.

The date of the Elliot debate in Quincy is Thursday evening, Jan. 30, having been postponed from the earlier date. There will be no charge for admission, but tickets will be required, to be obtained from E. H. Angier the secretary.

Mrs. James Newcomb of 1564 Hancock street passed away Friday afternoon. She leaves a son and two daughters, John Q., Annie and Elizabeth M. She was a native of Quincy and has always resided in this city.

The Young People's Religious union of First church will meet in the chapel on Sunday evening at seven o'clock. Mr. Sanford Bates, president of the Boston Federation of Unions, will speak on "Enthusiasm." There will be music.

It is hoped all members of the hospital corporation will show their interest by attending the meeting on Monday evening at eight o'clock in Colonial hall. New names for membership may be proposed at this meeting. It is the annual meeting for hearing reports and the election of trustees.

The young people have not been forgotten by the committee on the Valentine dance for the benefit of the Day Nursery and an afternoon dancing party is to be held for them Saturday Feb. 8th from half past two until half past five. There will be good music, valentines and a happy times for all.

The Galahad Brotherhood will hold its tenth social in the parish house next Thursday evening. An interesting program has been selected, including numbers by Misses Ella and Ruth Packard, readings by Master Joe Beal, vocal solos by the Misses Fowler and others of interest.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

If YOU are a young man, and not associated with any other Quincy church, YOU are most cordially invited to come to our meeting.
A warm welcome—Hearty singing—A helpful hour together.

County Appointments

The County Commissioners have made these appointments for the year: Chaplain at the jail and house of correction, Rev. Edward W. Virgin; physician at the same institution, Dr. Francis L. Babcock; janitor at Court House and inspector of County buildings, John E. Drummond; county police, William M. Marden of Quincy, Owen J. Reynolds, John E. Drummond and Bennett Wilson of Dedham.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Grade Crossings Hearing

(Continued from Page 1.)

ing ways. We should have as easy grades as possible. Should relieve our industries of all possible addition to the costs of conducting business. We are anxious for a solution where the best interests of the citizens will be served. What is of advantage to the citizens is of advantage to the railroad. We do not want to impose any further burdens on anyone. Do not want even individual propositions to have influence until the citizens decide to agree or not agree. Had no objections to any plan provided it was the best plan.

George H. Brown of the Citizens' Association seconded the remarks of the ex-Mayor. The association had a committee who are giving matters careful consideration and desired more time.

After being in session about an hour an adjournment was reached. The commissioners and others interested then went to view the two crossings.

It was stated to cross the tracks at Saville street by an overhead bridge if the bridge was started at a point opposite the shop of James T. Penniman, the street would pass over the tracks at a level. There would however be a steep grade on the Hancock street side. This would give a headway of 18 feet over the tracks. To depress the tracks Mr. Wheeler said would necesitate the lowering of the depot and spoil the approaches to it.

The party walked up over Whalley road and back by the way of Dimmock street and Upland road. This was to give the commissioners an idea of the growth of the city.

A special car was then taken for Quincy Adams. There the Commissioners looked into the need of maintaining the spur tracks to the granite yards south of the station. They also took into consideration the need of proper facilities for entering the new freight yard at the north of the station.

Many questions were asked as to the growth of the city, and as to the amount of the business in the granite industry. These went to show that the Commissioners mean to inquire carefully into the needs of the city as well as existing conditions, and that they will not reach a conclusion without a full and impartial understanding that all interests may be protected.

Grade Crossings At Braintree

The Braintree Observer and Reporter says today:

Ex-Gov. John L. Bates, Winfield S. Slocum, commissioners appointed on grade crossings, gave a public hearing in the Braintree lower town hall last Saturday morning at 10.30 o'clock. Col. Benton appeared as attorney for the railroad and Mr. C. C. Mellen for the town of Braintree.

Mr. Wheeler of the civil engineering department of the N. Y., N. H. & H. R. R., presented plans for overhead bridges at Elm, River and Union streets. These plans were very unsatisfactory to the citizens present.

Those who made themselves heard in opposition were Mr. G. H. Arnold and Mr. John Kelley. The meeting adjourned to Saturday morning, Feb. 29 at 10.30 o'clock in the upper town hall.

The hearing then adjourned to the street crossings in question and there the commissioner heard the citizens and took in the situation for themselves.

The selectmen have appointed fiftee citizens, five from each precinct of the town to serve with them on grade crossings as follows:

Precinct one—Charles B. Cummings, Benjamin F. Dyer, William Gallagher, I. Wendall Gammons and Edward Shay.

Precinct Two—Elmer E. Abercrombie, George H. Arnold, Alexander A. Carson, William C. Harding and Will W. Mayhew.

Precinct three—Albert E. Avery, J. Parker Hayward, John Kelley, Chas. O. Miller and Charles G. Sheppard.

This committee held a meeting at the town house. They will have engineers' plans for the citizens to act upon as soon as they can be made.

There will be nothing of more importance to the citizens of Braintree, during the next century, than the grade crossing question. It is the duty of us all to take an active part in the work by attending the hearing and offering advice. When plans are made by the town committee, meeting our approval, let us stand by them.

New Club For Employed Boys

The charter members of the Employed Boys Y. M. C. A. Social, Literary and Debating club formed last night are: David Dackers, David Melville, George Shirley, Alex. Mundie, F. J. Mahoney, G. Newcomb, William Deans, Fred Robinson, Gustaf Erickson, Russell Gomez, A. J. Benlcher, W. T. Newcomb, L. G. Emil Bouchard, Allen C. Newcomb and Guy Massey.

In the election of officers David Dackers was elected president, David Melville as vice president; G. V. Shirley as secretary, and J. A. Goodhue, treasurer. Meetings will be held on alternate Friday evenings. Programs consisting of debates, current topics, social "stunts" and refreshments will make the evenings enjoyable.

The next event is a joint debate Resolved—That the use of the boycott is justifiable. Affirmative—Geo. Shirley and Dave Melville. Negative—David Dackers and Will Childs. Mr. Goodhue will show a series of lantern slide pictures on Egypt.

Another Victory For Quincy High

The Quincy High basket ball team expected defeat yesterday for they had heard that Brockton High had a strong team. It proved an easy victory for Quincy by the score of 45 to 18. Gourlie made ten bags, and Duncan and Howe almost as many. Marden and Marsh also played their positions well. Quincy has now won all three of its scheduled games by big scores ,and there is an increasing interest in the game.

The summary:

QUINCY		BROCKTON
Gourlie, l f.		r.g., Wardwell
Howe, r.f.		l.g Eagan
Duncan, c.		c. Benson
Marden, l.g.		r.f. Riley
Marsh, r.g.		l.f. Washburn

Score—Quincy 45. Brockton 18. Goals from floor—Howe 4, Gourlie 10, Duncan 6, Marsh, Wardwell, Washburn, Riley 5. Goales on free tries—Howe, Gourlie 2, Riley 4. Referee—Tupper. Umpire—Pierce. Timer—Cleveland. Time—20-minute halves. Attendance—300.

Good Scores At Y. M. C. A. Alleys

The third game in the Y. M. C. A. bowling tournament resulted in a victory for Captain Sanberg's team, score as follows:

NO. 3 TEAM.

Sanberg	76	93	71	240
Galbranson	90	72	78	240
Hermanson	93	83	91	267
Bouthier	73	87	89	249
Griffiths	82	79	78	239
	414	414	407	1235

NO. 4 TEAM.

Gordon	75	77	79	231
Dackers	84	79	76	239
Oswald	68	80	63	211
Tinney	97	104	83	284
O'Neil	84	76	81	241
	408	416	382	1206

Atlantic Veterans Play Pool Match

Considerable interest centered in a pool match last evening between two veterans of Atlantic, played at Doyle's. Patrick Barry, aged 55, was pitted against Moses Chisholm, aged 65. L. Leco was agreed upon as referee and Patrick Duggan was timekeeper. After 1 hour and 10 minutes' play, Barry won by the score of 50 to 26.

NO OCCASION FOR ALARM.

The State Boad of Health reported to the Senate this week. Regarding the alleged pollution of Boston Harbor by the discharge of sewage at Moon Island from the Metropolitan sewer, the report says that samples of water were collected for analysis in various parts of the outer and inner harbors and under varying conditions of the tide. The effect of the sewage discharge at Moon Island was noticeable only within a very restricted area. "In view of the fact that the waters of the inner harbor showed more evidences of pollution than the waters of the outer harbor, execpt in the neighborhood of the main sewer outlets, the Board sees no present necessity for action to prevent the further pollution of the waters of the harbor by the discharge of sewage"

—Representative Hobson's new bill asks Congress to appropriate $50,000,000 to be expended in the manner to be decided on each year by the President and experts of the navy for new battleships.

Social Realm.

(Continued from Page 1.)

The Wollaston Unity club will meet in the vestry of the Wollaston Unitarian church Friday evening January twenty fourth. The meeting is in charge of Miss Elizabeth Thayer and the subject is "Art."

* * *

The annual ladies' night of St. Stephen's chapter, Royal Arch Masons, will be held in the Masonic apartments on Tuesday evening, January 28. There will be an entertainment, dancing and refreshments.

* * *

Mrs. C. Nelson Smith and daughter of New Rochelle, New York, are visiting Mr. and Mrs. Eugene Hale Sprague of Wollaston.

* * *

Society people are interested in the dancing party to be given at Quincy Music hall on St. Valentine's night, Feb. 14th, for the benefit of the Day Nursery. With a long list of patronesses and an able committee all working to make it a success, it promises much socially and financially.

* * *

Miss Beatrice Tisdale and Miss Charlotte Burgess gave a very pretty dancing party at Colonial hall last evening.

* * *

Mr. and Mrs. C. B. Edwards of Braintree arrived on Tuesday evening from their Southern trip. They enjoyed the voyage to New Orleans in the Creole and also the return by land with the various stops in the southern cities.

MILTON.

The annual ball of the Firemen's Relief association at the Town Hall next Wednesday evening promises to be a social and financial success.

A regular meeting of the Thursday Evening club was held this week. After the meeting there was a whist party.

WEYMOUTH.

Mr. and Mrs. Albert Sanborn of Prospect street have returned after an extended stay at the Kansas Hot Springs, Mrs. Sanborn's many friends will be glad to learn that her health is much improved.

Mr. and Mrs. Percy Cook arrived in town on Monday after a most summerlike voyage home from England. The Atlantic ocean was calm and peaceful all the way.

Mrs. L. B. Voorhees of Washington street arrived home on Thursday of last week after a visit with her daughter Mrs. N. Atherton Richards at Yonkers on the Hudson. Mr. Leighton Voorhees proceeded to the Electrical college, Washington, D. C. where he is taking a course of study.

Master Albert Davis has been enjoying the hospitality of his aunt, Mrs. Eunice Brown at Whitman.

William Price and family have moved from Richmond street to Sterling street.

Mrs. Ernest Balland of Commercial street will act as hostess to the Elmwood whist club next Friday afternoon.

Mr. and Mrs. Aubrey Williams have taken up their residence on Washington street, where they will be pleased to meet their many friends.

By the will of Anna H. Tower of Weymouth, allowed by Judge Flint in the Norfolk probate court, the South Hingham Unitarian parish receives $500 and the cemetery in that town $100. There is another provision that if there be a hospital in Weymouth at the decease of the testatrix it shall receive $200. The will was drawn June 11, 1907, and Jennie B. Worster of Weymouth, executrix, gives a bond of $12,000. The estate is appraised at $15,000.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

—A statesmen issued this week estimates that there are 206,800 freight cars in United States and Canada in excess of the business demands. Some difference from what it was three months ago when the railroads could not get enough to move the crops in the West. Assuming the average value of a car to be $600 equipment representing $124,080,000 of capital is lying idle.

Only Daily in Norfolk County.

Advertising Wise and Unwise.

Some foolish fellows advertise
On clouds and rainbows in the skies,
Or paste their ADS. on sides of ships
Sky-hooting at exciting clips.
Take note: The merchant who is wise
Knows well just where to advertise
To get results—the proper caper
Being to use THIS popular paper.

UNIQUE CHARTER

Drawn For Cities of 25,000 Right of Recall And Referendum

Something new in the City charter was introduced in the Legislature last week by Representative A. L. Nason of Haverhill. It is a general city charter, providing for the right of recall, the initiative, protest and referendum, and other new features. The document has been drawn by former United States Dist.-Atty. Boyd B. Jones and is offered on the petition of the Haverhill Civic Association. It is stated in the first section that the object of the charter is to offer something of a uniform nature for any city which may wish to adopt it, and it is provided that on petition of 25 per cent. of the voters in any place of 25,000 population or over, the question of adopting this system of government shall be submitted to them.

It provides that the city government shall consist of a mayor, four aldermen and four school trustees. It is stipulated that at the first election after the adoption of the charter by the voters two of the school trustees shall be chosen for two years, while two others are to be elected for a full term of four years.

The manner of election is provided for, it being necessary for each candidate for mayor, aldermen or school trustees to file with the city clerk a statement of his candidacy, which must be accompanied by a petition signed by at least 25 qualified voters requesting that he run for the office named in his statement.

Another clause provides that the mayor and four aldermen are to be called the "city council" and they are to hold all the executive legislative and judicial power now reposed in the hands of the same body and all appointed boards in any city which may hereafter adopt the charter. Five departments are provided for, those of public affairs, schools, accounts and finances; public safety and charity, streets and public improvements, parks and public property.

The right of recall is explicit. To remove any elective officer at any time it first becomes necessary to secure a petition signed by at least 25 per cent. of the voters qualified to vote for mayor in the election last preceding, demanding the election of a successor to the person named. This petition must be filed with the city clerk. It must also contain a general statement of the grounds on which the removal is desired. In the event that the signatures are on separate sheets at least one signer on each shall take oath before some officer competent to administer one that the statements contained there on are true. Ten days are thereafter allowed the city clerk to investigate the signatures and ascertain if the required number have been obtained. If the city clerk deems the petition insufficient it may be amended any time within 10 days. Upon his being satisfied it is to be sent to the city council without delay, and the latter shall at once order a new election. Any person sought to be removed from office may be a candidate to succeed himself, and unless he orders otherwise in writing the clerk shall place his name on the official ballot without nomination.

On a petition of a number of voters equal to 25 per cent of the votes cast for mayor at the preceding election any ordinance may be submitted to the council, and the latter shall either pass it within 20 days or call for a special election in which the matter, without alteration, shall be submitted to the voters. If there is a regular municipal election within 90 days of the time the document is submitted the matter may go over until then, when it must go upon the ballot. If any ordinance submitted is not accompanied by signatures equal to 25 percent. of the voters it shall go over until the next general election. The council is likewise empowered to submit a proposition providing for the repeal of the ordinance or amendments to it, but they must go on the ballot for the voters-at-large to decide.

The protest and referendum provides that any ordinance passed by the council which is not satisfactory may be rejected by the people by vote. Matters of immediate public safety and health are exempted from this provision.

The charter also provides that any persons who do anything for a candidate on the promise of material reward, money or otherwise, shall be subject to a fine of $300 or imprisonment for 30 days, while if a candidate is convicted of offering a bribe he is liable to a fine of from $100 to $500 or imprisonment of not less than 10 days nor more than 90 days. The charter also provides for a salary of $2500 for mayors and $1800 for aldermen in cities of from 25,000 to 50,000 population, $3,500 for mayors and $2000 for aldermen in cities of from 50,000 to 75,000 population, and in cities containing a larger number of inhabitants the matter of salary is to be especially determined.

It is stated that this charter is to have the backing of boards of trade all over the state and that a petition containing over 1000 names is to accompany it when it is offered today by Mr. Nason.

N. E. O. P. Officers

The officers of Quincy lodge of N. E. O. P. were installed Friday evening by Deputy Grand Warden Georgiana M. Jordan and suite. The installation was followed by music, speeches and an oyster supper. The officers installed are:

CITY OFFICES

How Dame Rumor Has Filled The Departments For Mayor Shea

It is more than probable that Mayor Shea will send a communication to the City Council tonight announcing the names of those whom he has selected for his official family.

Having in mind the statements of His Honor during the municipal campaign, and since his inaugural, that he should select his officials for their qualifications regardless of party affiliation the citizens are looking for a fulfilment of those promises.

Since his election he has been beseiged on all sides by persons looking either for positions for themselves or for their friends, yet he has not let any information drop as to who he has selected for the various offices.

There have been scores and scores of rumors, however, but no one appears to know just into whose hands the plums will drop. The general impression has got abroad however, that those supposed to be of the Democratic affiliation will fare well.

The latest rumor places Randolph C. Bainbridge in the Commissioner's office. The same rumor places John Curtis in the City Treasurer's office and Timothy J. Casey as Tax Collector.

Cornelius Duggan of Atlantic is said to be slated for Overseer of the Poor, and that Peter J. Williams will again be the head of the Fire department.

John G. Whitman of Wollaston, rumor says, will be City Engineer, and that Dr. Hallowell will be reappointed as City Physician.

The names of Warren W. Adams and James H. Elcock are being juggled with the offices of Chief of Police and Principal Assessor . One rumor places Adams as Chief of Police and Elcock as Assessor and another Elcock as chief and Adams as Assessor. The names of Lieut. McKay and Officer Goodhue are also being mentioned in connection with the office of Chief of Police. There seems to be considerable doubt as to who will get the appointment. Many expect Chief Burrell will be reappointed while some say Michael T. Sullivan.

The names of Dr. Garey and Dr. Burke are mentioned with the Board of Health, and the names of Maurice I. Gatcomb and William J. Walsh with the office of Sealer of Weights and Measures.

The only other important office is that of City Solicitor and for this berth the name of John W. McAnarney is mentioned.

However as stated above the whole thing is a matter of guess-work, as Mayor Shea has not taken the press into his confidence and has succeeded remarkably well in keeping these matters to himself. Unless all signs fail everybody will know tonight.

Captain Derry

Captain William A. Derry, who died at East Foxboro, was brought to this city for interment in Monnt Wollaston cemetery on Sunday. He was a native of Quincy and for many years resided in this place. He was captain for 20 years of a coasting vessel, and carried the Myles Standish monument to Duxbury from Boston. He leaves a sister and three brothers; Capt. Charles T. Derry, Horace A. Derry, Barton Derry and Mrs. Abbie Willett.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

Death of Popular Young Man

James Forrest, son of Mrs. James Forrest, of Hancock street, Wollaston, died Saturday night at eleven o'clock after an illness of four and one half years.

He was born in Wollaston April 7, 1885; Graduated from the Massachusetts Fields school in 1899. From there he entered the High school where he proved to be a young man of great ability. In his freshman year he took a prominent part in the High school production of "Dido," and became so popular that in his sophomore year he was elected president of his class.

In his junior and senior years he was reelected president. And in the season of 1902 he played guard on the football team, where he showed talent as he had in other things.

In the spring of 1903 he took competitive examinations for West Point, and was appointed first alternate. He then took civil service examinations for the post office and was appointed shortly after graduating from High school in 1903.

During September he became ill and was confined to his home. The case was a very peculiar one and has proved a puzzle to the leading physicians and surgeons of the country, none of whom were able to help him.

Services will be held Wednesday morning at 10 o'clock at St. John's church, Quincy.

THAYER PUBLIC LIBRARY.

Braintree Library has received timely gifts of money, one of $100 from Mr. George O. Wales to complete the payment of the new stacks, and the second of $150, from the Philergians for the reading room. It is a part of the plan of development to adapt the present reading room to the needs of young people and later on to open the trustts' room for reference work and for an adult study room.

The gift of the Philergians will be expended under the supervision of a joint committee from this Woman's club and fram the Library Trustees. These two gifts of money are especially appreciated at this time and are significant as showing our awakened sense of interest in the library on the part of the town.

A new system of changing books will be installed in the course of a few weeks. This system will be a great convenience to the public and will save much time in the handling of books.

Other improvements and changes are already underway, but it is necessary to again remind patrons that they must be patient as the limited funds permit of only slow progress. It should be borne in mind that the "Hunt Fund" when available is restricted to the purchase of books and cannot be used for running expenses or for improvements.

Owing to the prevalence of contagious diseases, it was deemed advisable, as a precaution, to close the library on Friday last for a thorough fumigation.

PUBLIC HEARING.

THE Special Committee of the City Council appointed to consider the advisability of petitioning the General Court to amend the

CITY CHARTER,

or for a new Charter will give a public hearing to all parties interested, in the Council Chamber, City Hall, on TUESDAY evening, Jan. 21, 1908, at 7.35 o'clock.

Per order of Committee,
RICHARD R. FREEMAN, Chairman.
ATTEST: GEORGE T. MAGEE, Clerk.

Hotel Men and Elks at Funeral

The funeral of Frank O. Ketterer, who died Jan. 15, was held Sunday afternoon from his late residence on St. Germain street, Germantown, and was very largely attended.

Boston lodge B. P. O. Elks, of which he was a life member, were present in a body. There was also a large delegation from Quincy lodge of Elks, and the Boston lodge, Knights of Pythias, as well as members of the Hotel Men's Association.

The flowers were very many and beautiful, completely filling the rooms in which the casket was placed.

The services were conducted by Rev. R. F. Halloway, D. D., of Cambridge, who officiated a few years ago at the marriage of Mr. and Mrs. Ketterer. The Apollo quartet sang, "Eternal Goodness" and "Meet Me There."

At the conclusion of the services the remains were escorted to Mt. Wollaston cemetery by the Elks, who performed their burial service at the grave. The quartet sang "Nearer My God to Thee" and "Vacant Chair."

Sudden Death.

Carl Hendrickson, the 15 year old son of Mr. and Mrs. John Hendrickson of 31 Carrolls lane, died suddenly Sunday at the City Hospital. The young man was skating on a nearby pond when he was taken ill. He was removed to his home and then to the hospital. He lived but a short time after being taken to the hospital.

CITY HOSPITAL.

THE Annual Meeting of the Corporators of the City Hospital of Quincy, will be held at Colonial Hall, on MONDAY EVENING, January 20th, at 8 o'clock, for the election of trustees for the ensuing year, and the transaction of any other business that may come before them

WARREN W. ADAMS, Clerk.
Quincy, Jan. 8, 1908. 11t

Just Jotted Down By Ledger Men

Excellent skating.

Beautiful moonlight evenings.

The Daily Ledger prints the best reports of the City Council meetings.

Henry P. Kittredge left Saturday on his annual trip to Southern Pines.

Everybody is invited to contribute news to the Ledger. Please send it promptly.

There is good skating on Butler's pond and on the meadow in the rear of the car barn on Hancock street.

The City Council Committees on Finance, Streets and Sewers will hold meetings tonight before the Council meeting.

The committee of arrangements for the annual ball of the Quincy Police Relief Association are: Chief Burrell, Lieut. McKay, John T. Larkin and Alfred W. Goodhue. The late Patrick J. Kelliher also served on this committee.

City Auditor Fairbanks attended the meeting of the city auditors at the Bellevue, Boston, on Saturday, to meet Charles F. Letteny, chief of the State Bureau of Statistics of Labor. There was a discussion on a uniform system of Municipal accounting.

AT REQUEST OF THAW

His Counsel Will Not Agree to a Closed Hearing

TESTIMONY OF YOUNG WIFE

Defendant Sees Motive Other Than Public Morals For Prosecution's Proposal That It Be Given In Secret --Newspaper Men Will Hear Story

New York, Jan. 20.—Justice Dowling will be called upon today to determine whether or not the testimony of Evelyn N. Thaw shall be taken behind closed doors. It is freely predicted that he will refuse to exclude both public and newspaper representatives, but a compromise may be reached by the exclusion of those who come only from idle or morbid curiosity.

By leaving the newspaper men in the courtroom the constitutional provision as to a public trial would be met and the young woman on the stand would have to face only a handful of persons, as compared with the crowd which thronged the court last Friday afternoon. As to keeping the story out of print Dowling told District Attorney Jerome when he made his surprising suggestion that if any newspaper cared to repeat the details of the recital it could do so simply by reference to its files of a year ago.

Justice Dowling said on Friday that he would hear further suggestion from counsel today provided, of course, there was general consent to closing the doors, a thing never before done in this jurisdiction in a murder trial. Martin W. Littleton, Thaw's chief counsel, who partly concurred in the district attorney's motion when it was first made, has decided to withdraw that concurrence and to leave the matter entirely in the discretion of the court.

Under these circumstances it is said that Dowling will not attempt to keep the proceedings secret, but he may cooperate with the attorneys in an endeavor to keep the general public out of the courtroom during the young woman's examination on the witness stand.

The non-concurrence of the defense in the plan for a closed hearing is said to be due to Thaw himself, who believes that he sees behind Jerome's motion a motive other than the public morals on which he based it in his remarks to the court. Thaw believes that behind closed doors the prosecutor would go even further in his cross-examination of his wife than he did at the first trial, when with pitiless persistence he drew from her many details which were omitted in the direct evidence—details which did not reach the public through any newspaper.

Mr. Jerome based his cross examination last year on the ground of testing the creditability of the witness, and under the rulings of Justice Fitzgerald this greatly widened the character of the questions. Dowling is inclined, however, to cut down both direct and cross examinations to the material facts, and it is generally believed that neither Littleton nor Jerome will put the defendant's wife through the same severe ordeal as last year.

When young Mrs. Thaw has finished her testimony and has been put through the cross examination, the elder Mrs. Thaw will finish her evidence. This will leave but three or four regular witnesses to be heard before the six insanity experts retained by the defense are put upon the stand to answer a hypothetical question covering all of the testimony. The trial will be pushed with all possible haste to an early conclusion.

Big Boulder on the Track

New Martinsville, W. Va., Jan. 20.—An alleged attempt to wreck a passenger train at Porter Falls failed because Engineer Bull saw a large boulder on the track in time to stop the train just as the pilot of his engine struck the obstruction. Samuel McCormick, a recently discharged section hand, was found in hiding nearby and was arrested on a charge of attempting to wreck the train.

The New England Ice Crop

Boston, Jan. 20.—The next three weeks will probably settle the ice crop in New England for 1908. Ice dealers to the north of the city are fairly confident of harvesting an ordinary supply, but to the south the conditions at the present time are far from being satisfactory. Last year at this time the icehouses were full and the companies were laying in an extra supply.

Terrible Work of Greeks

Sofia, Jan. 20.—While a festival was in progress at Dragosh, Macedonia, and the villagers were dancing upon the lawns in the public park, a large band of Greeks suddenly swooped down upon them and, after driving them into their houses, set fire to the buildings and burned them to death. The victims included women and children, and numbered, it is said, between 25 and 45.

Beckham to Get Help From Bryan

Frankfort, Ky., Jan. 20.—Gossip as to the deadlock over the election of a United States senator has it that the Republicans will unite with the Democrats who are opposing the election of Beckham to elect a Democrat. State Senator Campbell is mentioned in this connection. Beckham has received word that W. J. Bryan will come to Frankfort to aid him.

LIFE PRISONER KILLED

Murderously Assaulted by Fellow Inmate of Insane Department

Thomaston, Me., Jan. 20.—Edward M. Smith, known as "Bucksport" Smith, aged 70 years, a life prisoner in the state prison here, was murderously assaulted and killed yesterday by Neale D. Brooks, aged 23 years. Smith lived for five hours after being assaulted.

Both men were inmates of the insane department and after the killing Brooks declared that it had been his intent to kill five or six others. The assault occurred at 7:30 o'clock, while the men were filing back up the stairs from the bathrooms, where they had been cleaning up. Brooks had secured an iron bar from one of the bedsteads. When he had reached a turn of the stairs, where he was momentarily out of sight of the keepers, he suddenly drew out the bar and clubbed Smith, who walked in front of him, over the head. Smith dropped in his tracks and several blows were rained upon his head by the insane youth. The man's skull was fractured.

Smith's home was in Bucksport and he was sentenced to state prison for life on April 19, 1878, having been convicted on the charge of murder. While detailed in the insane department he had never given any special trouble and was known as a trusty in that department.

Brooks' home was in Gray and he was sentenced on Jan. 28, 1904, to serve twenty years for committing rape. About one year ago he was ordered into the insane department for observation, but had not been actually committed. Twice while in the insane ward he had tried to commit suicide, and he had to be constantly watched.

Bank Wrecker Convicted

Chicago, Jan. 20.—John R. Walsh was found guilty of wrecking the Chicago National bank. The federal jury that had spent two months hearing the mass of testimony consumed thirty hours in agreeing on a verdict. The verdict was based on fifty-three of the 150 counts, on which he was tried. On the other ninety-seven counts he was found not guilty. It is possible to sentence him to five years on each count or a total of 265 years.

Despondent Woman Hangs Herself

Lewiston, Me., Jan. 20.—The body of a woman who was found hanging by the neck in the summer cottage of Rev. H. M. Lowe at Leeds, when Lowe went to his cottage to look after it for the winter, was identified as Miss Florence Bigelow, aged 46 years, of Greene. She secured admittance to the cottage by breaking a window. The woman had been dead more than a week. The reason for the suicide was despondency.

Hayti Blockades Two Ports

Port au Prince, Hayti, Jan. 20.—The blockade of St. Marc and Gonaives, which are held by the revolutionists, is assured by the presence of four warships at the ports and the disposition of the Haytian forces on land. The government continues to dispatch numerous troops to surround the territory now occupied by the revolutionists. Calm is maintained in all the other towns.

Burial of Unknown Fire Victims

Boyertown, Pa., Jan. 20.—The bodies of twenty-four unidentified dead who lost their lives in the Rhoades Opera house fire last Monday were buried yesterday in Fairview cemetery in this place. No eulogy was delivered at the grave. Four ministers, representing as many denominations, read the plain burial service of their respective churches.

No Immunity For Ruef

San Francisco, Jan. 20.—Prosecuting Attorney Langdon announces that all questions of immunity for Abraham Ruef are at an end and that he will ask Judge Lawlor to set for trial one of the charges of bribery against Ruef now pending. It is also announced that every charge against Ruef will be pressed to a conclusion.

Blessed Waters In Private

St. Petersburg, Jan. 20.—The usual ceremony of blessing the waters, during which, in 1905, the czar narrowly escaped assassination by means of the saluting cannon, took place at Tsarskoe-Selo yesterday instead of at the waters of the Neva. The imperial blessing was bestowed on the waters of the lake in the palace park.

Denial From Bryan Bureau

Washington, Jan. 20.—Willis J. Abbott of the Bryan publicity bureau in this city denies the published statement that he had received a letter from Bryan to the effect that he would stand aside should it develop that one-third of the delegates to the Denver convention opposed his nomination.

Australians Suffer From Heat

Melbourne, Jan. 20.—There is much suffering because of the unusual heat wave throughout Victoria. The people are obliged to sleep out of doors and there have been many cases of sunstroke. Thirty-two deaths have been recorded from this cause during the past few days.

Train Took Ninety-Foot Plunge

Corydon, Ind., Jan. 20.—Three trainmen were killed and two were probably fatally injured when a locomotive plunged from a ninety-foot trestle, turning a somersault in the air and dragging with it two freight cars and a caboose.

The Weather Forecast

Almanac, Tuesday, Jan. 21.
Sun rises—7:08; sets—4:43.
Moon rises—7:44 p. m.
High water—1 a. m.; 1:15 p. m.
It will be fair and not quite so cold in New England.

PLOT OF ANARCHISTS

Said to Aim at Destruction of United States Battleships

CHIEF CONSPIRATOR KNOWN

Brazilian Police Became Aware of Plans and Plotters Fled to Interior --Washington Not Inclined to Place Much Credence In the Story

Rio Janeiro, Jan. 20.—The Brazilian police have discovered an anarchistic plot here, having as its object the destruction of part of the American fleet now lying in the harbor. The conspiracy centres in Rio Janeiro and Petropolis, but has ramifications in Sao Paulo and Minas Geraes.

An individual named Jean Fedher, who resided in Petropolis, was the chief conspirator here, although it is understood that foreign anarchists are deeply involved in the plot. Fedher is believed to have fled to Sao Paulo and the police, who know him, have been sent to that place to apprehend him.

One of the detectives who was well acquainted with Fedher, having served on the police force at Petropolis for some time, returned from that place yesterday after having made investigations there and had a long conference with the chief of police at Rio Janeiro. The latter let it be understood later that the Sao Paulo police are on the track of the arch-conspirator and expect to arrest him soon. In an official note which the chief of police sent to the correspondent of The Associated Press, he says:

"Some time before the arrival of the American fleet at Rio Janeiro, the Brazilian government received from Washington and Paris advices that anarchists of different nationalities intended to damage one or several of the ships of the American fleet. The names and addresses of the conspirators were indicated by information which the police here had received previously from France and Germany. The police of this district are working with the police of Sao Paulo and Minas Geraes, and I am sure every precaution will be exercised and the most rigorous vigilance observed, both on land and at sea, to prevent any injury being done."

The chief of police, after having made this official statement, said that he did not feel that he should go into any further details with regard to the conspiracy, but he authorized the statement that the plot was organized by Fedher, and he added that the people of the United States could rest easy, because all of the conspirators had taken refuge in the interior.

As yet the people of Brazil are ignorant of the details of the plot to do injury to the visitors, although there has been some slight inkling of the matter. The impression which the exposure of this plot will create here will be a profound one, because it is the first anarchistic conspiracy that has ever been known in Brazil.

The police of Sao Paulo have sent word that they are on the track of the malefactors who, they declare, will not be able to come to Rio Janeiro.

Thinks Story "Preposterous"

Washington, Jan. 20.—Rear Admiral Pillsbury, chief of the bureau of navigation of the navy department, was greatly surprised to learn through The Associated Press of the discovery of an anarchistic plot in Rio de Janeiro to destroy the battleship fleet. It was the first intimation Pillsbury had had of such a plot.

"I cannot believe it. It seems preposterous," he said. He added that it was about on a par with the rumor having its origin in Paris of an attempt to destroy the battleships Connecticut and Missouri. He said that it would be strange if the anarchists went as far as Brazil, bent on the destruction of the Pacific-bound fleet, when they could probably carry out their plot with much greater ease in this country. Thousands of visitors annually visit the American battleships at Hampton Roads, New York and other places, and it would not be a very difficult matter, he feared, for anyone having as an object the blowing up of a warship to carry out his intention.

Big Loans to Sovereign Bank

Toronto, Jan. 20.—There is much speculation as to how the shareholders of the Sovereign bank will fare when the final statement of the liquidation is issued. During the past few months J. P. Morgan & Co. and the Dresdner bank of Berlin have loaned to the bank nearly $2,500,000. The interests of these two concerns, it is understood, are fully covered.

Had Filled High Positions

Philadelphia, Jan. 20.—Charles Emory Smith, editor of The Press, former minister to Russia and ex-postmaster general, died suddenly at his home in this city, aged 65 years. Death was caused by heart trouble. He was born at Mansfield, Conn. For about a month Smith had been in poor health, but his condition had not been regarded as serious.

Fell Beneath Car Wheels

Boston, Jan. 20.—While attempting to catch an outward-bound West Roxbury car on Washington street, Peter Lydon, aged 22, fell beneath the car and was killed. Passengers helped to lift the car so that the man's body might be extricated.

Hard Coughs
We publish the complete formulas of all our medicines. We are proud of them. We have nothing to conceal; no secrets to hide.
If your doctor fully endorses your taking Ayer's Cherry Pectoral for your hard cough, then buy it and use it. If he does not, then do not take a single dose of it. He knows all about this splendid medicine for coughs and colds. J. C. Ayer Co., Lowell, Mass.

FROM A LIVING TOMB

Miners Are Rescued After Being Imprisoned Forty-Six Days

GREAT REJOICING AT ELY

Three Men Had Been Over a Thousand Feet Under Ground Since the Third of December--Well Supplied With Food and Drink

Ely, Nev., Jan. 20.—After having been entombed forty-six days, 1000 feet below the surface in the Alpha shaft of the Giroux mine, A. D. Bailey, P. J. Brown and Fred McDonald were rescued Saturday night. Whistles were blown all over the camp, bells were rung and crowds cheered in the streets of Ely to celebrate the men's being saved.

"Ah," was the only word from Bailey, the first of the trio to reach the outer air. He tottered forward into the arms of comrades, who in a few minutes recuperated him.

"Is that you, Arthur?" asked McDonald, as his brother stepped forward and embraced him after nearly seven weeks of separation. "By George, it certainly seems good to be out of that hole," he said, as he was led away, telling his brother of his terrible experience.

"Somebody give me a chew of tobacco," said Brown, with a laugh, as he was led from the mine shaft to the change room of the mine, where the three men were made comfortable.

When news that rescue was near reached Ely from the mine many citizens went to the mouth of the shaft to greet the men. Many hours passed while the crowd waited and the entombed men and their rescuers dug vigorously to remove the earth that blocked the mouth of the 1000-foot tunnel.

Finally the anxious crowd around the shaft heard the bell signal "hoist away," and a loud cheer burst forth. The basket soon rose to the surface, bearing one of the rescuers supporting Bailey. Mrs. Bailey was not there, for one of her children was sick. As soon as Bailey was provided with clean clothing he hurried home, supported by friends.

Another shout of joy greeted McDonald, and when the last man, Brown, came out, the crowd became almost hysterical, realizing that the men's long entombment was ended.

On the morning of Dec. 4 McDonald, Brown and Bailey and two Greeks were working in the bottom of a shaft eighty-five feet below the pump station and 1085 feet below the surface. The shaft caved in, snapping the cable which was used to haul the cage from the shaft and hurling thousands of tons of rock and timber into the shaft. From the bottom of the compartment in which the men were working to the pumping station a series of rickety ladders offered the only means of egress.

With rocks and timbers raining down upon them, the five men struggled up these ladders. Half way up falling timbers knocked the two Greeks from the ladders, killing both, but Bailey, McDonald and Brown reached the pump station. Its timbered roof withstood the rocks and timbers which came down the shaft, and offered them a safe prison, where for a whole day they crouched, while at intervals rocks and timbers kept crashing above them, threatening momentarily to crush this place of refuge.

At first at was thought on the surface that all five men had perished, but twenty-four hours after the accident the three buried men managed to make themselves heard by tapping on a six-inch water pipe that reached from the pumping station to the surface.

Communication was established with the world above and food and drink were plentiously lowered through the pipe. A large supply was sent down, for it was feared the pipe might be broken before the rescuers could reach the imprisoned men. But throughout the long weeks of imprisonment this pipe was used daily. A portable telephone was lowered and the men were able to talk with people above. This telephone carried from friends news of the world and messages of cheer, and from the buried men reports of the nether conditions.

Clearing the debris was slow work, for timbers, rocks and earth were so twisted together that a new shaft had to be cut most of the 1000 feet. At no time did the entombed men suffer greatly, except for their enforced seclusion.

Two Men Killed by Train

Clinton, Mass., Jan. 20.—James Utley, Jr., and Thomas Hall, brothers-in-law, were struck and instantly killed by a train a short distance east of Sterling Junction station. Edward Shaw, 30 years old, who was with them, was also hit by the train and received injuries which may prove fatal. The three men had been pickerel fishing and were on their way home.

Negro Lynched For Shooting

Dothan, Ala., Jan. 20.—Cleveland Franklin, a negro employed by a cotton oil company, was lynched last night by 200 masked citizens. His body was riddled with bullets after it had been swung from the limb of a tree. It is said that Franklin shot and seriously wounded A. C. Faulk, an official of the oil company, when caught robbing the cash drawer at the mill.

INVADED A CHURCH

Unemployed Men Wanted Special Sermon and Collection

Boston, Jan. 20.—Some 200 or 300 of the unemployed held a meeting on Boston common yesterday, during which they were addressed by Morrison I. Swift, who has been holding meetings in the city and has presented addresses to the mayor and the governor, and following the meeting proceeded to Trinity church, where Rev. Alexander Mann, the rector, was just about to preach before Boston's most aristocratic citizens. The men filed quietly into the church, astounding the ushers by their sudden appearance during the progress of the service. The visitors were found seats about the various parts of the church.

Just before Mann was about to begin his sermon a note was sent to him by one of the leaders of the unemployed, asking him to preach "on the duty of the state and city to the unemployed" and have a collection taken up for the benefit of the unemployed of Boston.

Dr. Mann read the communication aloud and stated that as the program of the day's exercises had been made in advance he could not change it. Also that the collection of the day was for the benefit of foreign missons. He said he would be willing to talk upon the subject desired next Sunday and to take up such a collection as was asked for. He hoped the men would attend the service next Sunday and stated that free seats would be open to them.

The men made no demonstration and filed out quietly when the services were over. Later Swift attempted to read a set of resolutions from the steps of the Public Library, but the gathering was broken up by the police. Proceeding to a vacant lot in the Back Bay, Swift succeeded in getting his resolutions before his followers and in having them adopted. They condemned in general terms the governor in having, as they claimed, driven the unemployed from the steps of the state house by his orders last week. A dozen police officers broke up the meeting.

Revenge For Sister's Execution

Krasno-Ufimisk, Russia, Jan. 20.—President Sviridoff of the local zemstov was shot to death yesterday by a brother of Mlle. Ragozinnikova, the murderess of General Maximoffsky, director of the department of prisons of the ministry of the interior, on Oct. 28 last. It is supposed that the murder yesterday was committed in revenge for the refusal of Sviridoff to make any move in behalf of Mlle. Ragozinnikova, who was hanged on Oct. 31.

Insane People Tried to Escape

Marshall, Mo., Jan. 20.—Fire damaged two buildings of the Missouri colony for the feeble minded and epileptics to the amount of $40,000 and imperilled 175 patients. There is no fire apparatus at the institution and the flames were conquered by a bucket brigade. Several patients tried to flee from the grounds, but guards held them. The cause of the fire was defective electric light wiring.

Alleged Passer of Bad Checks

Sanford, Me., Jan. 20.—Charles F. Hayes, who was arrested at Fitchburg, Mass., at the request of Portland officers, who accuse him of passing fraudulent checks, is also wanted in this town. Hayes passed two checks here on the Chapman National bank of Portland which were later returned as worthless.

An Unusual Phenomenon

New York, Jan. 20.—A strange phenomenon in the Gulf of Mexico of a dust shower at sea is reported by the steamer Monterey, whose officers declare that on Jan. 11 a peculiar white powder like flour fell from the skies. It was not a volcanic dust, there being no grit in the composition.

Struck and Killed by Train

Worcester, Mass., Jan. 20.—The body of E. F. Newbert of Chicopee Falls, aged 32, was found under a car in the freight yards in this city. It is supposed that he alighted from a train and, starting to cross the tracks in the yard, was hit by a freight train.

NEWS IN BRIEF

William H. Wiggin, one of the oldest builders and contractors of Lowell, Mass., is dead, aged 80. He served in both branches of the city council and in the Massachusetts house of representatives.

Robert Armstrong, 12 years old, was drowned in Crystal lake, Newton, Mass. He went too near an open spot when the ice crumbled and he fell in.

Euclid Tremaine, aged 13, was drowned while skating on the Cocheco river at Manchester, N. H. He broke through the ice.

Surgeon General Devine, who has been connected with the Massachusetts state militia since 1883, tendered his resignation as surgeon general to Governor Guild. The resignation was accepted.

Gustaf Youngbain, aged 12, of Needham, Mass., was drowned while skating on the Needham reservoir.

Miss Elizabeth E. Cook, a Cornell law "co-ed," has been chosen by the debate council to represent Cornell in the triangular league debate against Columbia on the subject of federal incorporation.

Peter Caplette, aged 22, and Miss Annie Marrier, 19 years old, were drowned while skating at Webster, Mass.

Several light falls of snow, following a period of cold weather, have within the past week greatly improved logging conditions in Maine.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

MURDER MYSTERY SOLVED

Detectives Say That Youth Confessed to Killing Miss Eddy

Providence, Jan. 20.—Earl Jacques, 19 years old, has confessed to two detectives that he killed and robbed Miss Mary Eddy. Miss Eddy was employed in the Greenville woolen mills, where Jacques has also worked. While she was on her way to her home from work on the night of Jan. 3 she was killed by a blow from a club and her pay envelope, containing $13.13, taken. Jacques was arrested on suspicion a few days after the murder, but he denied knowing anything about it and relatives succeeded in establishing an alibi for him.

Information received by Police Detectives Haran and Monahan of this city, who have been working on the case, led them to take Jacques into custody again Saturday night. According to the detectives Jacques said that his conscience troubled him and that he could keep his secret no longer.

The detectives say that Jacques declared that on Jan. 3 he left the woolen mill a short time before the closing whistle blew and, going to the rear of the mill, secured a yarn roller from a rubbish pile. The roller is of wood, about two inches in thickness and five or six feet long. With this weapon, according to the officers, Jacques lay in wait by the roadside until Miss Eddy came along. Then, the officers say, Jacques struck her over the head from behind, felled her to the ground and tore the pay envelope from its hiding place in the bosom of her dress. Jacques is locked up at the central station.

Fata Result of Fist Fight

Newport, R. I., Jan. 20.—As a result of a fist fight between two naval apprentices on board the United States training ship Cumberland at this port H. A. Hartnet, aged 23, died at the naval hospital. D. M. Manning, 20 years old, is under a sentry's charge, awaiting an investigation of the authorities into Hartnet's death. The fight was the culmination, it is said, of a long disaffection among the younger boys on board the Cumberland against what they call the bullying methods of Hartnet, who was a big fellow.

Man and Wife Fatally Burned

Campton, N. H., Jan. 20.—George Morrison and his wife were burned by the overturning or explosion of a lamp in their home here and both died at the home of a neighbor. Mrs. Morrison was coming down stairs with a lighted lamp when the lamp was either dropped or exploded. Her clothing caught fire and her husband rushed to her assistance. His clothing also caught fire and both were fearfully burned. One son, 16 years old, survives.

Fatally Shot by Boarder

Boston, Jan. 20.—Mrs. Rosario Valarro, aged 25 years, was fatally shot while in bed, dying six hours later. Before she died the woman told the officers that one of her boarders, Guiseppi Capuana, came into her room, quarreled with her and when she ordered him to leave shot her. The police have not found Capuana. The husband of the dead woman left her some months ago and his whereabouts are not known.

Death In Auto Accident

Providence, Jan. 20.—George H. H. Mercer, a cotton broker, prominent in social circles in this city, was fatally hurt when an automobile in which he was riding skidded in turning a corner and dashed into a telegraph pole. Mercer's skull was fractured in several places and he died in a short time. With the exception of Mercer, who was thrown against the pole, three others in the automobile escaped injury.

Passenger Train Ran Away

Bangor, Me., Jan. 20.—A passenger train running between Fort Fairfield and Fort Fairfield Junction started of its own accord while no one was aboard at Fort Fairfield and ran wild ten miles, until it was ditched, on telegraphic orders, at Easton. A monetary loss of $15,000 was caused. The train consisted of a locomotive, combination baggage and smoker and two passenger coaches.

Laborers Hurt by Dynamite

Middletown, Conn., Jan. 20.—By the explosion of a quantity of dynamite here three Italian laborers were severely injured and two others less seriously hurt. The men were at work on a new trolley line. A charge which had been set for blasting failed to explode and the workmen were attempting to remove it by picking when one of them accidentally sent his pick into the dynamite.

Mahan Guilty of Murder

Bennington, Vt., Jan. 20.—A verdict of guilty of murder in the second degree was brought in by the jury in the case of Alfred Mahan, charged with the murder of his 4-year-old niece, Ethel Mahan, at North Bennington last summer. The penalty for murder in the second degree in Vermont is life imprisonment.

Steering Gear Perhaps Defective

Newport, R. I., Jan. 20.—The Scott Wrecking company today begun pumping out the water from the naval tug Sioux, which sunk on the rocks in Narragansett bay last Friday. Members of the crew express the belief that the accident was caused by defective steering apparatus.

Drank Himself to Death

Bangor, Me., Jan. 20.—George W. Ferris of Old Town, aged 35, who was arrested here for drunkenness, was found dead in his cell at police headquarters. Death was due to alcoholism.

GOOD AFTERNOON.

There does not appear to be much interest in the public hearing relative to the City Charter advertised for tomorrow evening. There is but little opportunity for a change without destroying the fundamental principles of the Quincy charter, which are: A complete separation of the Legislative and Administrative departments; also the placing of individual responsibility first upon the Mayor, and, second, upon the individual heads of each department.

Quincy has been free from deadlocks over the confirmation of officials, because the Mayor has the sole power of appointment and removal. On the whole Quincy has secured as good officials as it would had the Council had the power to confirm. Certainly there has been very little politics in the City Council.

It would be different if the Council had the confirming power. For example, the Republican Council this year could prevent Mayor Shea from carrying out the wishes of the voters. They would then divide with the Mayor the responsibility of the administration of 1908.

The only amendments the Daily Ledger would suggest is one to safeguard the credit of the city. It would require all orders involving the expenditure of money to be by roll call and require a two-thirds vote or even 18 votes. Now,, improvement orders are inserted in a loan order by a majority vote, it being claimed that the appropriation is made later when the loan order is passed. Then each sum does not stand upon its individual merits, but there is something to please each ward and the "pork barrel" order is passed. Thus the city debt grows.

One of the duties of the City Council should be to establish and amend the water rates, and it should decide in what class of property water meters shall be placed. This would relieve the Commissioner of Public Works of some of his duties now open to criticism.

The school buildings both old and proposed should be taken entirely out of the hands of the Commissioner and given to the School Committee. The City Council would continue to make appropriations as at present, and could hold up anything extravagant or unnecessary. The School Committee know better that the Commissioner and the City Council what the school needs are.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Dropped Dead.

William McLean, aged 58 years, of 13 Rodman street, died suddenly Sunday morning at the Quincy Adams depot. Mr. McLean with his two daughters started for the depot to take the 11.13 train. He stopped to speak to a friend, but seeing the train coming hurried to the depot. As he reached the platform he fell unconscious. He was taken to the depot where he died in a few minutes. Heart trouble was the cause of his death.

The Observations In the Daily Walk

A regullar meeting of the City Council will be held tonight.

Mrs. Emma S. Moore of Dysart street left today for a visit at St. Johnsbury, Vermont.

The annual meeting of the City Hospital corporation will be held tonight at Colonial hall.

The Pioneer Whist club will meet Wednesday evening with Mrs. Frank Flanders of Beach stret.

Harlie Dean of Freeman street left Monday for South Pasedena, California, where he will make his home.

Eight degrees above zero was the lowest temperature this morning, as reported to the Daily Ledger.

The sun sets today at 4.42, the afternoons having lengthened half an hour. They will gain fourteen minutes more this month.

Mr. and Mrs. W. B. Grant and daughter Lois, of Rawson road spent the week's end with Mrs. Walter H. Cole of Ashland.

The Charitable Tens of Kings Daughters will meet with Mrs. Thomas Fenno, Hancock street, Tuesday afternoon from 2 until 5 to sew for the hospital.

Mrs. Julia Page returned Saturday to the home of her son, Charles W. Page at Beach street, after visiting relatives for four months in Philadelphia and New York.

A Boston paper says Herman Hormel and H. Clifford Gallagher, both for Taft, is the slate in the 10th congressional district for the Republican National convention.

The Daily Ledger is represented today at the annual banquet of the Massachusetts Press Association at the United States hotel. This evening the editors will attend the Boston theatre.

The tug boat known as Transfer No. 2, built by the Fore River Shipbuilding Co. left the dock Sunday morning at 10.45 for Harlem, N. Y. She was in charge of Capt. Edward Evans and it is expected that she will reach New York this afternoon.

Announcement was made last week of a song recital to be given by C. Pol Plancon of Boston, baritone soloist at First church on Wednesday evening, Jan. 29th, at First church chapel. He will be assisted by Mrs. Laurance H. Sturtevant, soprano soloist and Mr. Cutter at the piano. It promises to be a notable affair, musically and socially.

Kennel Club Shoot

A Blanchard's 24 was the best score on Saturday for the Club cup at the shoot of the New England Kennel club at Braintree, B. S. Blake scored 25 for the season's trophy.

—The cruiser North Carolina was given another speed trial on Saturday off Virginia capes, but was unable to make her required contract speed of 22 knots. She will be given another trial in the near future.

DIED.

LARCELY SIGNED

Petition in Favor of the Present Lines Of Water Street

A petition to the Mayor and City Council circulated in Ward 3 on Saturday was immediately filled with signatures of business men, residents and merchants generally, and shows the sentiment that exists regarding the proposed abolition of the grade at Water street.

The petition reads as follows:

To His Honor the Mayor and The City Council of Quincy:

We the undersigned Taxpayers and residents of Quincy-respectfully urge that in the proposed abolition of the Water Street Grade Crossing, The interests of the City and residents can be best served by maintaining as nearly as possible the present lines and grade of the Street at the Railroad Crossing, and we urge that every effort be used to maintain as nearly as possible the present conditions.

The petition is signed by the following individuals and firms:

J. B. Sutherland
McGrath Bros.
P. W. Driscoll
Enos S. Costa
John C. Kapples
Alexander Falconer
Benjamin J. Langhorne

The coal consumption per head is greater in England than of any other country.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
Adress: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

Newsy Budget From Shipyard

The Boston Globe reports John Johnsen moatswain of the new steamer Melrose, fell through the hatchway of the steamer at Norfolk on Friday and was instantly killed, Johnsen joined the vessel just before she left Quincy a week ago. He was a native of Sweden, about 36 years of age, and so far as known had no relatives in this country. The body is held waiting for friends to claim it. If none are found the owners of the steamship will arrange for the burial. The Melrose left Norfolk on Saturday for Sabine Pass to load a cargo of sulphur for New York.

Submarines will be the subject of an illustrated talk of unusual attractiveness by L. Y. Speare, vice president of the Electric Boat Company, at the Y. M. C. A. building, Wednesday evening. It is safe to say there is probably no one in this country more able to discuss this vastly important and intensely interesting subject, than is Mr. Speare.

For the benefit of those who may find it inconvenient to attend this lecture, the followiug outline of the history of submarines which appeared a short time since, in the London Spectator mas prove interesting:

"The first steps toward the practical adoption of submarines in modern fleets were taken in France. The Gymnote of 1886 was the earliest example. She was about sixty feet long and weighed about thirty tons. When submerged she had a speed of six knots, and at the surface rather more. She was propelled by electric motors, current for which was supplied by storage batteries. This vessel was followed by the Gustave Zede in 1891, a vessel 148 feet in length, weighing 265 tons, and having a speed of eleven knots at the surface and eight knots under water.

Many difficulties arose on the trials and several years were occupied in overcoming them. Ultimately success was attained, and the experience gained helped forward the rapid development of submarines in the French Navy that followed upon the Fashoda incident in 1898. France possessed two complete submarines at that time and another was building. On March 31, 1907, the completed submarines of that country numbered forty and there were fifty-nine others building. The largest vessels yet laid down in France are about 200 feet long, weigh 560 tons, have engines of 1700-horsepower, are to attain a speed of fifteen knots, carry six or seven torpedo tubes and will cost 100,000 pounds each.

"Simultaneously with the movement in France attention was directed to the United State to the performances of submarines built by Holland. In 1896—after twenty-one years continuous work—the Plunger was laid down from Holland's designs under a contract with the Navy Department. She was eight-five feet long, weighed 165 tons and was propelled at the surface by steam engines, oil fuel being used in the boilers. This mode of propulsion proved unsatisfactory.

Another Holland submarine, subsequently purchased for the United States Navy, was fitted with a gasolene engine for surface propulsion and electric motors for use when submerged. This boat was about fifty-four feet long and weighted seventy-five tons. She proved successful on trial. In March last the United States Navy possessed eight completed vessels of the Holland type, while four more were building.

A rival type has been introduced in the United States by Mr. Simon Lake and has been adopted in other navies to a limited extent. Comparative trials have been made recently between representative vessels of the two types, and it has been decided to expend the special grant made by Congress on more Holland submarines."

TODAY'S COURT.

James H. Croke was fined $15 for drunkenness at Randolph.

John Collins was fined $5 for drunkenness at Weymouth.

Victor Johnson was fined $15 for drunkenness and $10 for disturbing the peace at Quincy.

Oliver H. Sullivan was arraigned for violation of the liquor law at Holbrook. Case continued until next Monday.

John Gillis was fined $5 for drunkenness at Quincy.

Domineco Cambolo and Luigi Palmirico were arrigned for assault at Quincy. Cases placed on file on payment of costs amounting to $7.76. This was the street row on Granite street.

—George H. Wade, a prominent citizen of Hyde Park, died on Saturday, aged 37. He was a manufacturer of chemical dyestuffs.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Whist Scores At Wollaston

Another very successful invitation tournament was held by the Wollaston whist club on Saturday evening with nine pairs playing. This club is now tied with the Central club of Somerville for the lead for the handsome Mystic Valley League trophy, and it is expected that the Wollaston club will secure a safe lead at the regular meeting of the league which will be held at Brasee's hall on Wednesday, Feb. 19. The score Saturday evening was as follows:

A. B. Hillman and J. T. Fuller,	plus 11 1-2.
C. E. Barker and V. S. Brokaw,	plus 9.
E. E. Hoxie and C. B. Hoxie,	plus 4 1-4.
J. J. Henry and A. C. Littlefield,	plus 4 1-4.
G. R. Thompson and H. C. Seymour,	plus 3 1-4.
H. A. Stevens and T. H. Foster,	minus 2 3-4.
G. H. Stevens and J. Y. Hamilton,	minus 5 1-2.
J. Thomas and H. S. McKay,	minus 9 3-4.
R. T. Anthony and J. A. Hamilton,	minus 14 1-2

Bowling Averages At the Y. M. C. A.

The high individual members of the Y. M. C. A. bowling teams, shows that the best bowlers in the city are enrolled in the six teams now competing for prizes.

The standing of the teams is as follows:

	Won	Lost	Percent
Team 5	1	0	1.000
Team 3	1	0	1.000
Team 1	1	0	1.000
Team 4	0	1	.000
Team 6	0	1	.000
Team 2	0	1	.000

The individual averages above 80 are: Nichols, 95; Tinney, 94; Stewart 91; Hermanson, 89; Thomas, 88; Michaels, 85; Mahoney, 84; Bouthier, 83; Mitchell, 82; Giles, 80; O'Neil, 80; Newcomb, 80; Sandberg, 80; Galbranson, 80; Andrews, 80.

Highest strings,—Stewart of Team 2 and Tinney of Team 4, each 104.

No Score in Football Match

The Fore River foot ball team met the Howard & Bullough's team at Pawtucket, R. I., on Saturday in the New England league, and a hot game of two 40-minute halves was played without a score.

The field was covered with a coat of thin mud, and was in very poor condition. Both teams played the short passing game and the great goal keeping of Esplin of the Fore Rivers kept their opponents from scoring.

During the second half McDevitt of the Fore Rivers and McAllister of the Pawtucket team collided and McDevitt was carried off the field unconscious with a fractured rib.

Basket Ball

The Quincy Y. M. C. A. basket ball team was defeated at Somerville on Saturday 29 to 18. The local team included Marsh, Marden, Howe, Curtis and Gourlie.

The Thayer Academy—Melrose High game was awarded to Thayer.

Ice Hockey

At hockey on Saturday the Milton Academy and a Sophomore team played a tie match—3 to 3. Milton High and the Mechanics Arts teams also played to a tie, neither team scoring.

Who Profits?

Politicians manage municipal affairs in such a way that their own interests are cared for first and public service is only a minor and subsidiary feature. Money collected from taxpayers is spent for the benefit of the "gang" instead of for that of the people, and the consequence is that enterprises conducted by the city are invariably not merely ill managed, but enormously expensive.

There is no reason to hope that this state of affairs will be changed so long as human nature remains what it is, and therefore the people will not be likely in their sober senses to intrust any public utility that can safely be left in the hands of private enterprise to any city government.—Chicago Journal.

The Dream and the Reality.

Municipal jobs are usually given out as political rewards. The fitness of the applicant, his faithfulness to duty, his honesty, integrity and industry are all secondary considerations. His faithfulness and his value to party or faction are of first importance to the party managers, who really run all municipal plants. The result is indifference and extravagance, high costs of production and operation—in short, the complete annihilation of the beautiful theory of the dreamers.—Connellsville (Pa.) Courier.

The Tax Rate In Indiana.

Indiana is one of the few states that have a bureau of statistics. Its latest report shows that the tax rate in the twenty-eight cities which operate their own light and water plants is $1.96, while the rate in the other fifty-seven cities is only $1.77.

MATCHES IN HER STOCKINGS.

American Actress Describes Incident That Might Have Been Tragic.

It is proverbial among customs officials that next to being flattered a woman loves to smuggle. Actresses are no exception to the rule, and an amusing incident that came near being a tragedy recently occurred to an American actress who yielded to the feminine weakness for outwitting revenue collectors, says a London correspondent of the New York Herald. Her name is a familiar one to New York theater goers, and it is not unknown in London, but it would be unfair to give it, as even now the French authorities might make it unpleasant for her.

"When I went over to Paris recently," she said, "I took along two dozen boxes of English matches which a friend of mine there who smokes asked me to bring her, as she can't endure those snippy little French matches that never light. I dumped the whole lot into my hand bag, and when we were drawing near Paris I opened the bag to see if everything was in order for the customs officials in case they felt inclined to rummage in it, as they sometimes do.

"I had forgotten all about those matches, but there they were in mass meeting. It seemed as though the bag was full of them. Then I remembered taking matches into France is about the most serious offense you can commit there. The duty is something like a shilling a match, and I knew if I was caught with them it would cost me more than Tetrazzini could earn in a whole season.

"The pockets of my cloak and skirt were already stuffed full of packages of tea, and there was only one thing to do, and that was to put them in my stockings. I did it, and did it quickly too. Fortunately I was alone in the compartment, and so there was no embarrassment in that proceeding.

"I had no more than got the last one tucked in than the train drew into the Gare St. Lazare. As soon as I stood up to get out I discovered that in my hurry I had made one grand mistake—I had put matches between my legs instead of on the outside, so that when I tried to walk it was almost impossible. Those bunches of matches kept hitting each other, and I was in constant fear that they would go off and set fire to my underwear. The only way I could move was to walk straddled out, just as though I was riding cross saddle. People stared at me, thinking, I suppose, I had some kind of deformity.

"Never did I put in such a miserable half hour as I did walking around that station getting my luggage through. I was in constant fear that I would be caught or that I would burst into flame. Never, never will I smuggle again—that is, matches in my stockings."

Mr. George P. Huntley, who was also a listener to this tale, said, "It is a lucky thing your stockings were not of a warm color."

NO REVIVALS FOR CHILDREN.

Bad For Their Nerves, Says Washington Educator.

Children must not attend revival meetings. It is as bad for them as to play cards, pool or other games, to dance or to skate, to attend the drama or concerts by the best of musicians—in fact, it is almost as bad for the child as smoking or drinking.

So said Professor A. A. Cleveland of the State college at Pullman, Wash., at a recent meeting of the state teachers, at which President Harry Pratt Judson of the University of Chicago was the leading speaker, says a Seattle (Wash.) special dispatch to the Chicago Inter Ocean. Professor Cleveland created a sensation by his emphatic and sweeping denunciations of the parents who allow their children to indulge in nerve destroying sports, amusements and other affairs, including revivals and religious meetings.

Professor Cleveland did not mince words. He declared that to the child of grammar and high school age the utmost care must be taken to prevent overstrenuousness and nervous dissipation. His subject was, "Dissipation of Our School Children."

Any game, exercise or intellectual amusement calling for the expenditure of an unusual amount of nerve force is detrimental to the child's system, he said.

HOUSECLEANING AUTO.

It Also Runs Riveting Hammers For Skyscraper Construction.

Every few days we hear of the automobile put to some new and practical use. The latest is a portable vacuum and compressed air housecleaning plant, "built like an automobile," says the New York Post. The mechanism which produces the compressed air and operates the vacuum, together with the engine which propels the car and operates the producing plant, is mounted on a chassis of latest automobile design. Speed is ten miles per hour, the average speed limit in cities.

Sufficient compressed air is developed to operate all the riveting hammers and drills that would be in use at any one time in the construction of a skyscraper building. This makes the machine useful for steel construction work, sand blasting and paint spraying.

Superb Clubhouse For London.

The finest clubhouse in London is to be erected in Pall Mall for the Royal Automobile club, which has secured from the crown a lease of the old war office.

Leap Years Galore.

This century will have twenty-five leap years, the greatest possible number.

CITY COUNCIL

Have Little Tilt Over Failure To Report on Coddington Order

A regular meeting of the City Council was held Monday evening. Every member was present and there was a large crowd of citizens who came to hear the list of appointments read.

The meeting was uneventful otherwise, save for a short tilt between Councilmen Whiton and Bryant over the Coddington school order.

TRANSFER WANTED.

A communication was received from the Mayor with inclosure from the Chief Engineer of the Fire Department asking for the transfer of $80.29 from the appropriation for lighting, and $24.18 from the appropriation for hose of 1907, to the appropriation for fire alarm of 1907. Laid on the table until later when Councilman Beal offered an order making the transfer, which was referred to the Committee on Finance.

APPOINTMENTS.

A communication was received from the Mayor appointing Daniel C. McNeil a weigher of coal and the following constables which were confirmed: John J. Byron, William Gelotte, George W. Rackham, Nicholas Garbarino, C. H. Tower, H. W. Merrill, Lemuel Pitts, William L. Peck and William Kay.

A communication was received from the Mayor appointing the city officials, and administrative boards published in full in another column. Placed on file.

COST OF CITY STABLE.

A communication was received from the Commissioner of Public Works, in reply to inquiry, stating that the number of horses at the City Stables in 1907 was 14 and the cost of maintenance $5,978.96. Placed on file.

PETITIONS.

Several applications of licenses were received, including one from James P. Flannigan a permit to transport liquor, and from F. F. Crane for an auctioneer's license.

That of F. F. Crane was laid on the table until later, when Coudcilman Falconer offered an order granting the license which was adopted.

A petition wae received to accept Broadway, at Norfolk Downs. Referred to Committee on Street.

REPORT OF COMMITTEES.

The Finance Committee reported ought to pass on the order authorizing the Mayor to have the annual reports printed. Rules suspended and order passed.

The Finance Committee reported ought to pass on the order authorizing the Mayor to have his inaugural address printed. Order adopted.

The Finance Committee reported ought to pass on the order authorizing

HAS A BALANCE

Finances of City Hospital Show $1,180.01 In Treasury

The treasurer of the City Hospital of Quincy reported at the annual meeting Monday evening that the current income for the year 1907 had been $15,618,50, and the total operating expenses $13,398.09. He also reported a cash balance of $1,180.01, showing the institution on the hill to be in a good financial condition.

The annual meeting was held in Colonial hall and attended by thirty members of the corporation including Mayor Shea and Councilmen Gilson and McGilvray. N. G. Nickerson presided and W. W. Adams was clerk.

The records were read and approved, and new members were elected.

Timothy Reed for the Trustees reported that 344 patients had been admitted to the institution during the year of whom 33 had died. There were 72 medical cases and 272 surgical cases, the latter including 40 cases of appendicitis. He reported three graduates from the Nurses' Training School, paid a tribute to the late Dr. H. M. Willard, thanked the Hospital Aid Association for their work, also D. L. F. Chase and the Hospital week collectors. The endowment fund had been increased by a leagacy of $1,000 from Miss Annie S. Beale.

R. D. Chase, the treasurer made the following report:

RECEIPTS.

Cash on hand Jan. 1, 1907,	$3,339.91

MAYOR'S SELECTIONS

Makes Almost A Clean Sweep In the City Departments

A new Commissioner of Public Works, a new City Treasurer, a new Tax Collector, and several other new city officials for 1908, have been appointed by Mayor Williams T. Shea, the list being forwarded to the City Council on Monday evening, as follows:

Commissioner of Public Works,—
RANDOLPH BAINBRIDGE.

City Treasurer,—
JOHN CURTIS.

Collector of Taxes,—
TIMOTHY J. CAREY.

City Solicitor, —
JOHN W. McANARNEY.

Chief of Fire Department.
PETER J. WILLIAMS.

Overseer of the Poor,—
JAMES H. ELCOCK.

Assessor for three years,—
WARREN W. ADAMS.

City Physician,—
DR. HENRY C. HALLOWELL.

Inspector of Milk,—
WILLIAM G. CURTIS, M. D.

Inspector of Buildings,—
WARREN S. PARKER.

Manager of Adams Academy,—William Everett, Luther S. Anderson, George M. Sheahan, Frederic J. Peirce and Perry Lawton.

Managers of Public Burial Places,—Albert W. Fay, John Q. Cudworth, Alfred O. Diack, Joseph H. Vogel, Louis K. Badger and Wellington W. Mitchell.

Some of the officials have not yet been appointed, namely: a Chief of Police, a City Engineer, a Board of Health, a Board of Park Commissioners, a Board of Trustees of the Thomas Crane Public Library, and possibly others.

Thus far, however, it has been almost a clear sweep. The department officials and administrative boards will not assume their positions until the first Monday in February, the 3d.

THE NEW COMMISSIONER.

Randolph Bainbridge, who is to be Quincy's new Commissioner of Public Works, although not a Quincy born boy, has been a resident of this city for years. He is a young man of wide and varied experience in the same line of work at Revere and Winthrop.

He was born in New York in 1874, and is therefore 34 years of age. His family moved east 25 years ago, and for the past 15 years have resided in Wollaston. He was educated in the Edward Everett grammar and English High school of Boston taking a special course in engineering and highway mathematics at the Institute of Technology.

He began his preparation for an engineer in the office of H. T. Whitman, where he rendered valuable assistance in railroad construction and street construction in Revere and Winthrop. He also had charge of laying out the extensive Frick estate in Brookline; also planned the layout of several estates on the North Shore, including the large estate of Judge Moore at Pride's Crossing.

He was also sent to Port Chester, N. Y., as expert advisor to supervise the developement of the drainage system, roads, lawns and instllation of water works and electric lights.

His friends have explicit confidence that he will fulfill the manifold duties of Commissioner of Public Works as he has every other thing undertaken heretofore. He resides at 68 South Central avenue, Wollaston.

THE NEW ASSESSOR.

Warren W. Adams, the new assessor, was born in Quincy in December 1844, and has made his home here most of the time. Leaving school he entered the coal and lumber business with his father, until the Civil war broke out.

He enlisted as a private in Company G, of the 44th Massachusetts regiment for nine months in 1862. At the expiration of his term of enlistment he re-enlisted as 1st Lieut. in Company B of the 60th Massachusetts regiment and served until the close of the war. He was one of the charter members of Paul Revere Post, 88, G. A. R.

He served the Quincy—Weymouth district in the Legislature in 1889, and in 1890 was appointed by President Harrison as postmaster of the Quincy office. He served as postmaster for four years. In 1894 he was appointed an inspector in the State Fire Marshal's office where he remained eight years, or until the office was abolished. Up to the municipal election of 1907 he had always been an ardent Republican, but was an enthusiastic supporter of Mayor Shea.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good but I have found the right thing at last. My face was full of pimples and blackheads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets."
Fred C. Witten, 76 Elm St., Newark, N. J.

IN TIMES OF PEACE

World's Navies Have Important Roles Not Relating to War

A GREAT DIPLOMATIC FORCE

Tendency to Promote Friendship Among the Nations--Brazilians and Americans Pledge Friendship at Brilliant Banquet at Rio

Rio Janeiro, Jan. 21.—The Brazilian minister of foreign affairs, Baron Branco, gave a magnificent banquet last night to the officers of the American fleet. Fully a thousand persons attended the banquet, which was served in the grand saloon of the Monroe palace. The banqueting hall presented a dazzling sight, being beautifully decorated with masses of flowers and electric lights.

Admiral Sperry, the captains of the warships and the ministers of foreign countries occupied places in the banqueting hall especially assigned to them. At the close of the banquet Branco made a fitting speech, to which the American ambassador, Irving B. Dudley, responded.

"The usual objects for which armies and navies are instituted," said Dudley, "are to ensure domestic tranquility and provide for defense against foreign foes. Nations to which conquest is the only end in view have not absolutely ceased to exist, but conquest is evanescent and is in our day condemned by all nations, at least by all not at the time interested, as an affront to civilization.

"But navies in times of peace have other important roles, and we have been deeply impressed during the past week with the presentation of one of these roles, which has no relation to war, but makes solely for peace and friendship among nations. The value of navies as a diplomatic force and the promoter of international good will has been many times illustrated. A striking instance may be found in the recent visit of Admiral Bacellar and his ships to Hampton Roads and New York, which was profoundly appreciated by the people of the United States.

"Nor can we for a moment doubt, as we now behold the manifest evidence of fraternity and good fellowship between our countrymen at this great and brilliant function, by which your excellency honors Admiral Evans and his five hundred officers; by which, in truth, your excellency signalizes the traditional friendship of Brazil for the United States; that the international good feeling which we are ever striving to augment has been promoted to a substantial degree by the coming to Rio Janeiro of the American fleet.

"'As between Brazil and the United States,' cabled our president to yours a few days ago, 'these ships are not men-of-war, but messengers of friendship and good will, commissioned to celebrate with you the long continued and never to be broken amity and mutual helpfulness of two great republics.'

"This was very true twenty-five years ago, and yet how truer now. One of our greatest statesmen has said that the friendship between the United States and Brazil is singularly strong, that the ties that join them are intimate and pertinent. I may add that their political institutions are wonderfully similar; that, while preserving proper independence one of the other, they have rarely failed to work in unison. They have joined in a community of constitutional principles and precepts, political ideals and commercial interests.

"Allow me, Mr. Minister, in thanking you for your kind words with reference to our country and our president, to propose in his name the health of the sagacious statesman and wise ruler, President Penna, and the prosperity of this republic of vast domain and grand and growing achievements and illimitable future."

Death Claims Richest Indian

Guthrie, Okla., Jan. 21.—James Bigheart, formerly chief of the Osage Indians and said to be the richest Indian in the United States, died of paralysis at his home near Bigheart, in the Osage nation. Bigheart was born in Missouri 67 years ago. With forty other Osages he volunteered in a company of Kansas cavalry and participated in several battles of the Civil war.

Paris Cabs Out of Commission

Paris, Jan. 21.—Paris was without cabs last night, and therefore greatly incommoded. A thousand cab drivers held a mass meeting to protest against the new police regulations prohibiting empty fiacres from circulating about the boulevards during the crowded hours, and ordering that the horses be kept on a trot when the cabmen were seeking passengers.

Unemployed Asked Mayor For Work

Seattle, Jan. 21.—About 3000 unemployed men marched to the mayor's office to ask for work. Most of them are lumbermen who have been driven to the city by the closing down of lumber mills and logging camps. The mayor had no work for them.

A Triple Train Disaster

Milan, Jan. 21.—Ten persons were killed and many injured in a collision between two trains near this city. The catastrophe was further aggravated by a train from Milan, which ran into the wreckage of the two ill-fated trains.

Established 1887. Probate Business
Rooms 1 and 2 Savings Bank Building,

WERE THREE CLAIMANTS

First Wife Awarded Widow's Share of Millionaire's Estate

Boston, Jan. 21.—An unusually sensational will case in which three women claimed a widow's share of the estate of the late Joseph A. Greenough, a millionaire, was decided by Judge George in the probate court in favor of wife No. 1, who, prior to her secret marriage to Greenough in 1874, was Miss Martha Higgins. George ordered a partial distribution of the estate, amounting to $300,000, to the first Mrs. Greenough and the next of kin.

The first Mrs. Greenough claimed to have been divorced from Greenough in Colorado in 1876. The court held that as neither of the parties had a domicile in Colorado at the time the divorce was granted the divorce was rendered null and void.

The other two claimants for a widow's share of the estate were Mrs. Emma Eaton-Greenough, who now bears the name and who claims a public marriage to Greenough in 1885, and Mary M. Kerekes of Philadelphia, who claims to have been married to Greenough in 1886.

The first Mrs. Greenough, in whose favor the court ruled, is prominent in musical circles and is an aunt of Suzanne Adams, the opera singer.

Shaw Talks to Business Men

Haverhill, Mass., Jan. 21.—Former Secretary of the Treasury Shaw was the principal speaker at the annual banquet of the Board of Trade, held last night. He devoted much of his talk to the causes of the recent financial depression, enumerating among other things the general extravagance in living, questionable methods of doing business and action in regard to corporations by state legislatures and by congress.

Raised $50,000 as a "Starter"

Boston, Jan. 21.—Fifty thousand dollars was pledged last night at a mass meeting of the Alumni association of Poston college, a Catholic educational institution. The college recently purchased thirty acres of land in Newton and on this land it is planned to erect six buildings. With the money pledged at last night's meeting as a nucleus, it is planned to raise over a million dollars to carry out the plans.

Unemployed Visit State House

Boston, Jan. 21.—There was another demonstration by the unemployed at the state house yesterday, but only three were permitted to enter the building. Morrison I. Swift again led the body and, with two men, whom he said were in particularly straightened circumstances, he was allowed to see the governor's private secretary. The state board of charities will investigate the two cases.

Cotton Men Inspect Big Mills

Manchester, N. H., Jan. 21.—Upwards of 200 members of the Cotton Goods Buyers and Jobbers' Association of the United States came here from New York and Boston and inspected the big cotton mills of Manchester. Following a tour of the big factories, the largest of the kind in the world, the visitors were tendered a banquet in one of the Amoskeag Manufacturing company's mills.

Maine Folks Drink Poor Liquor

Portland, Me., Jan. 21.—District Attorney Whitehouse has been assured that a government pure food inspector will soon be appointed for the district of Maine. It is said that the enforcement of the law will be felt seriously by many liquor dealers, as much of the liquor that comes into the state at the present time would not pass inspection under the pure food act.

Died In His Old Home

Bennington, Vt., Jan. 21.—William W. Sherman, who was for fifty years paymaster for the Lowell Machine company of Lowell, Mass., died at his home in this city in his 93d year. He completed his half-century as paymaster of the machine company in 1902, and returned to live in Bennington in the house where he was married sixty years previously.

Mysterious Assault on Street

Lynn, Mass., Jan. 21.—Guiseppi Bellebella of Boston, aged 35, was picked up on the street last night with a long stab wound in his cheek and a revolver bullet in his brain. He is not expected to recover. None of the Italians in the neighborhood admitted knowing anything about the assault, but the police took thirty to the station for examination.

Schooner Lands on Ledges

Portsmouth, N. H., Jan. 21.—While beating down the coast in the teeth of a strong southerly gale, schooner Agnes Manning struck on the ledges off Rye. The schooner is pounding heavily and her bottom appears to be badly broken. Although Captain Shepherd and his crew refuse to abandon the vessel, the chance of saving her is not regarded as promising.

Receiver For Trust Company

Providence, Jan. 21.—The New England Trust company of this city has gone into the hands of a temporary receiver. The company had been having a rather difficult time recently to keep afloat, and with the closing of the Union Trust company last fall the plight of the New England Trust company is believed to have become more serious.

Boston Aldermen Organize

Boston, Jan. 21.—After several ineffectual attempts, the board of aldermen organized by choosing Louis M. Clark, Rep., as chairman. The board stands seven Democrats and six Republicans, but the deadlock was broken by two of the Democrats voting for Clark.

REMARKABLE RECORD MADE IN NORTHWEST

Young Man with New Theory Is Astonishingly Successful in Minneapolis.

The remarkable success that has attended L. T. Cooper during the past year has not been confined to any one locality, but is so widespread that the young man is now a well-known figure in most of the leading cities of the country.

Mr. Cooper believes that the stomach is the foundation for most ill health, and claims that his preparation, by regulating the stomach, is a true specific for most diseases. The following extract from the Tribune of Minneapolis gives an idea of the surprising number of people who are accepting Cooper's theory. The article was one of many that appeared during Cooper's stay in Minneapolis, and is as follows:

"The sale of Cooper's preparation is now phenomenal in this city, and an estimate made today seems to indicate beyond all doubt that it will equal the large figures reported from Pittsburg during the thirty days Mr. Cooper spent in that city.

"During the past twenty-two days Mr. Cooper has been in Minneapolis, the sale of his preparation has averaged about two thousand bottles a day. When the amount of medicine disposed of throughout the state is added to this, the amount will be doubled. Therefore, the young man has sold in twenty-two days eighty-eight thousand bottles of his medicine in the state of Minnesota alone, which is a truly remarkable record.

"During the past week so many hundreds of Minneapolis people have been calling to thank Cooper for the good he has accomplished with his medicine, that it is safe to say that his visit will long be remembered by the sick of the city."

We sell the famous Cooper preparation which has made a similar record to the above wherever introduced.
—E. J. Murphy.

EVELYN THAW'S TALE

Jury Hears Her Recital of Wrongs by Stanford White

MET CONSTANT OBJECTIONS

Prosecution's Efforts to Exclude Details Decreases Effectiveness of Testimony--Pitiless and Aggressive Questions Strike Fire

New York, Jan. 21.—Mrs. Evelyn Nesbit Thaw told her story yesterday for the second time. The repetition lacked the vitality of the first recital, but the great crowd in the courtroom, where her husband, Harry K. Thaw, is on trial for killing Stanford White, listened intently to every word. Justice Dowling had ruled that he found no warrant in the law for closing the doors against the public and there was a great clamor for admittance from a throng which hung about the building all day long.

District Attorney Jerome, having failed in his effort to exclude spectators, took occasion, when it came to cross-examining the witness, to bring out all of the details of the first trial which Mr. Littleton, for the defense, had omitted in his direct examination. Jerome also sought to block Mrs. Thaw's testimony in its entirety, on the ground that a conversation which occurred three years before the tragedy could not have any bearing on Thaw's mental condition on the night of the homicide. Justice Dowling overruled the objection.

Mrs. Thaw's story was broken into bits by constant objections by the prosecutor, who sought to exclude all details, on the ground of immateriality. The frequency of these objections led Dowling to request Littleton to cut down his examination as much as possible.

Mr. Littleton took this course only to have Jerome insist, during cross-examination, on reading from last year's record nearly every word the witness then uttered. He did this under the privilege of framing new questions.

Mr. Littleton objected, declaring that the district attorney, by reading the former testimony in a disagreeable manner, was trying to discredit the witness in the eyes of the jury when he could not discredit her in any way by direct questions.

Mr. Jerome made no attempt to disguise an air of utter contempt in reading the testimony. Contempt also characterized most of the questions he put to the witness. He attacked her in the loudest tones he has yet used at the trial. He plunged at once into the more intimate details of the testimony and made no delicate choice of words in framing his interrogations. Littleton's objections on the ground of "offensiveness and impropriety" were often sustained by the court.

Mrs. Thaw matched her wits against those of both Jerome and his assistant, Mr. Garvan, who was ever at his chief's elbow with new suggestions. She fenced with them as skilfully as she did a year ago and at times reflected the mood of the district attorney by answering him in a voice pitched in as loud a key as his own. His pitiless and aggressive questions often struck fire, and once, when he demanded if the young woman told Thaw certain things, she replied, hotly:

"Yes, I told him, but I didn't use the language you are using."

"Don't argue with me, madam," shouted Jerome, who then had the reply stricken from the record.

But one new feature marked the testimony of the witness. This was about Thaw's swallowing the contents of a bottle of laudanum at Monte Carlo in 1904 in an attempt to end his life. Previous to this, at the Grand hotel in New York, Thaw talked of suicide, his wife declared, and suggested that she also should take poison because both their lives had been ruined. Mrs. Thaw said she humored Thaw at the time and diverted his mind. She was out of the room when he finally took the poison in Europe.

"Why didn't you tell us about this at the first trial?" demanded Jerome.

"Because Mr. Delmas said it might make Harry out too crazy," the witness retorted before the district attorney could stop her.

So this witness pricked into the minds of the jurymen the fact that evidence had been suppressed before which the astute Delmas feared would make Thaw appear so demented that "dementia Americana" would not be needed as a defense, and the insane asylum might be his fate.

Croatians Are Money Savers

Vienna, Jan. 21.—It is understood here that the Croatian Savings bank at Agram is contemplating the establishment of branches in New York, Chicago and Allegheny, Pa., where it is anticipated it will find a profitable business among the Croatian immigrants. It is estimated that the Croatians in the United States transmitted to their former homes more than $16,000,000 in 1907.

Arrest of Bank Officers

Rocky Ford, Col., Jan. 21.—President Gidding, Cashier Smith and Assistant Cashier Barkley of the defunct state bank of Rocky Ford have been arrested, charged with accepting deposits after they knew the institution was insolvent. They furnished bonds and were released.

CAUSE AND CURE OF APPENDICITIS

THE SIMPLE REMEDY THAT EFFECTS THE CURE

Professor Blanchard of the French Academy of Medicine has spent a great amount of time studying that dread disease—**Appendicitis.** In company with Professor Metchnikoff, he has carefully examined numerous cases, and both have reached the conclusion that the cure is not the knife. In more than forty cases the symptoms of Appendicitis disappeared after the patients had been treated for worms.

There are, no doubt, many persons suffering from worms who are erroneously attributing their trouble to some other cause. A few doses of Dr. True's Elixir are sufficient in most cases for the complete expulsion of the worms.

The presence of these parasites is easily recognized by the following symptoms:—Indigestion; foul tongue; offensive breath; variable appetite; hard and full belly with occasional gripings and pains about the navel; heavy, dull eyes; itching of the nose; short dry cough; grinding of the teeth; starting during sleep; slow and frequent fever; in children—convulsions and bed wetting.

Dr. True's Elixir will not only expel the worms, but will build up the whole system as well.

DR. TRUE'S ELIXIR THE OLD FAMILY REMEDY

has been in constant use for more than half a century. Even though no worms may be present, Dr. True's Elixir prevents their growth and is an invaluable remedy for the relief of stomach ills. Its marvelous tonic qualities brings back a feeble and impaired digestion; purifies and enriches the blood; quickly regulates a disordered liver.

Dr. True's Elixir is used and endorsed by physicians and hospitals all over the country. Read what Mrs. Joy says of Dr. True's Elixir:—

CENTRE ABINGTON, MASS.

DR. TRUE:—"I wish to inform you of the success I have had in using one bottle of your Elixir. I gave it to my children, and after the third dose one of them passed a long round worm. I also wish to say it is one of the safest and best medicines to have in the house for children. I would not be without it now." Sincerely yours,

Mrs. Henry C. Joy.

Dr. True's Elixir is sold by druggists everywhere at 25c, 50c, and $1.00 a bottle. An interesting and instructive booklet entitled "*Children and Their Diseases*" will be sent free to all who apply for it, by simply addressing **Dr. J. F. True & Co., Auburn, Me.** We have a special treatment for tape-worm. Send for free book.

THE WARSHIP "PLOT"

Indications That Whole Affair Was Probably a Myth

NO RELIABLE BASIS FOUND

Story of Plans to Blow Up American Warships Originated In Paris and May Have Been a Deliberately Concocted Scare

Paris, Jan. 21.—The reports cabled from Rio Janeiro that the Brazilian authorities were warned from Paris of a possible attempt to blow up the American battleship fleet while in the harbor there are true.

Some time ago certain suspicions indicating the existence of a plot to destroy the whole or a portion of the fleet, either at Rio Janeiro or in the Straits of Magellan, were aroused here and naturally communicated to Rio and Washington. A chartered steamer was reported to have conveyed explosives for the use of the conspirators to Rio Janeiro, arriving there about the middle of December, and John Fedher, whose name is mentioned in the Rio dispatches, was one of the men whose name was revealed here as implicated in the conspiracy.

The alleged plot is supposed to have some rather startling ramifications, but the evidence along this line is far from conclusive and rests chiefly upon the statement of an individual whose record was subsequently proved to be anything but creditable. Consequently, the whole affair is regarded with much skepticism and indeed the presumption has been raised that it may have been a deliberately concocted scare.

In any event, it is now believed here that if the plot actually did exist, the timely warning and precautions taken have completely frustrated the plans of the conspirators at Rio Janeiro and compelled them to transfer their operations further south, if not to abandon them entirely. The latter hypothesis is considered here to be most probable.

The reports yesterday from Rio Janeiro have been characterized as another weird chapter of the fantastic recital. It is believed here that the action of the Rio Janeiro police grew out of the information forwarded to Rio from Washington and this city.

Washington Was Interested

Washington, Jan. 21.—That the American government was cognizant of the existence of the belief of ulterior designs against the battleships in the harbor of Rio Janeiro is admitted in administration circles. The news first reached here by way of Paris, where somebody communicated to the American embassy. There the officials were quick to send the news along to the state department at Washington, which in turn sent it forward to the American embassy at Rio and also forwarded it to the navy department.

The intimations contained were vague and indefinite as to details, yet, in view of the great importance of the matter and the possibilities which might develop were the officials on the scene not informed, no time was lost in transmitting it to Rio Janeiro.

The data forwarded to Washington, it is understood, contained the names of some of those persons who, it was alleged, were engaged in the anarchistic plots, but their names were not disclosed at the department.

While they admitted that some damage might be done under the most favorable circumstances by persons having evil designs against a battleship, many of the officers who discussed the matter pointed out how difficult this would be in the absence of the most approved apparatus in mine laying operated by skilled persons.

Suit Against Bank Commissioners

San Francisco, Jan. 21.—Henry B. Russ has begun suit against the present and former boards of state bank commissioners to recover $16,375 which he deposited with the California Safe Deposit and Trust company. He alleges that favorable reports on the condition of that institution were issued by the commissioners and that a deposit of $10,000 was accepted by the bank two days before its doors were closed.

Professor Fisher Loses Mayoralty

Middletown, Conn., Jan. 21.—In a bitterly contested city election Mayor W. C. Fisher, Democratic candidate for re-election, was defeated by Thomas M. Russell, Republican. Fisher received 815 votes and Russell 942. Mayor Fisher, who is a member of the Wesleyan university faculty, was elected two years ago by 40 votes.

Hard Road For Ruef to Travel

San Francisco, Jan. 21.—It is disclosed that Abraham Ruef, alleged briber of supervisors to grant a trolley franchise to the United Railways, was granted immunity provided that he testified for the state against other defendants. He failed to keep his word and the state now purposes to prosecute him on 117 indictments.

Sighted a Burning Vessel

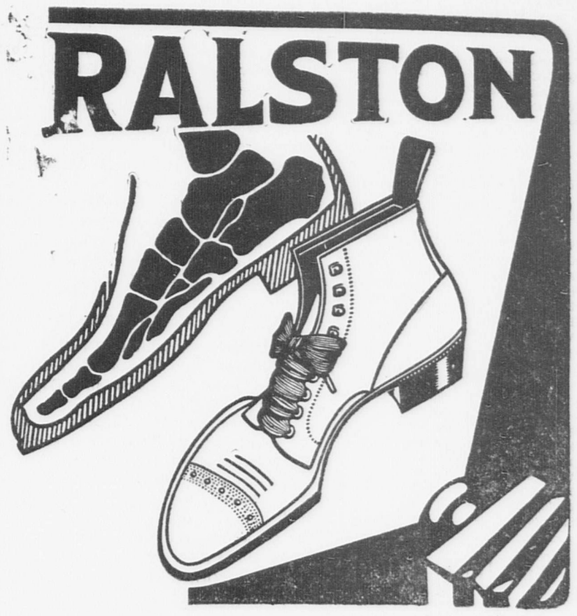

Norfolk, Jan. 21.—Steamship Riverton, from Simons Town, South Africa, reports having sighted below Cape Hatteras on Jan. 18 a big wooden ship or schooner burning fiercely. Her masts had fallen and her decks were burned away, but five feet of her sides were still above the water. The Riverton saw no signs of life.

Hair Loss

Consult your doctor about your falling hair. If he says, "Ayer's Hair Vigor is the best," then begin today. Do as he says.

Suppose you send this advertisement to your baldest friend! Everybody should know that Ayer's Hair Vigor promptly checks falling hair, destroys dandruff, keeps the scalp clean and healthy. Does not affect color of hair. Formula with each bottle. J. C. Ayer Co., Lowell, Mass.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

The Observations In the Daily Walk

Another day with temperature above 50.

A civil service examination for engineers and janitors will be held in Quincy, Feb. 19.

All of the mebers of the City Council have been presented with season tickets to the Scenic theatre.

The Dorcas society of the Universalist church are to hold a whist party Thursday evening at Electa hall.

Frank Bristol of Providence, R. I., is a guest of Mr. and Mrs. George Hill of Walker street this week.

Comments on the Fore River football game at Pawtucket will appear in the Daily Ledger tomorrow.

Public hearing in the Council chamber tonight on the question of petioning the General Court to amend the City Charter or for a new City Charter.

The matron reports over $5,000 received last year from patients at the Hospital which is surely a banner year and most creditable.

At the billiard tournament at the Granite City club on Monday evening John Curtis (135) beat C. W. Garey (150) by score of 135 to 147.

The committee who had charge of the recent minstrel show given by the Quincy Point Social club will hold a banquet and dance tonight at Electa hall.

The Rev. H. A. Manchester of Boston will give a grand stereopticon lecture on "The Holy Land" in the First Presbyterian church, Water street, on Wednesday evening.

The menu for the lunch at the Granite City club whist tournament Wednesday evening will include cold ham, mashed potatoes, hot cream of tartar biscuits, coffee, crackers and cheese.

The Ladies' Benevolent society of Memorial church will give a supper in the church vestry Wednesday evening. This year all functions of the church have been well attended, and it is hoped this supper will be equally successful.

Pronounced Hit From the Start.

The Scenic is keeping up the reputation made by other houses on the circuit, of which this theatre is one, and is playing to large audiences every night, standing room only being the condition long before the commencement of the show last night at this increasingly popular place of amusement.

The special feature of the moving pictures shown last night was a magnificent reproduction of the original French drama "Two Orphans," the story that never grows old. Many others were shown, interestingly enjoyed by the audience, and all the pictures were remarkably clear and distinct. A good bill is presented.

Stedman Williams.

Word has been received of the death on Monday, at Ashburnham of Stedman Williams, formerly of Quincy, aged 69 years. Mr. Williams, when in Quincy, resided at the corner of School and Elm streets on the estate now occupied by Dr. J. F. Welch, then on Elm street. Mr. Williams, who was in the leather business, moved to Ashburnham several years ago. His death was due to a shock. He leaves a widow, a son and daughter. His daughter is the widow of Alexander Thompson. The burial will be in Quincy.

City Council Meeting

(Continued from Page 1.)

the Clerk to have the rules of the Council printed. Order adopted.

The Committee on Sewers and Drains reported an order appropriating $6,000 for house connections with the public sewer. Referred to the Finance Committee.

The Committee on Streets reported an order for a public hearing Feb. 3, on petitions of the New England Telephone Co. for attachments and locations for poles. Adopted.

The Finance Committee reported reference to the Executive, with instructions to settle, the communication from the city of Boockton with bill for aid rendered Louisa R. C. French. Adopted.

NEW ORDERS.

Councilman Whiton offered an order for an arc light on the corner of Putnam street extension and Edgemere road. To Executive.

Councilman Moir offered an order appropriating $12,000 for a sewer on Hancock street from Billings road to Willet street. Referred to Committee on Sewers.

Councilman Ferguson offered an order for a crosswalk on Bryant avenue near Trainers lane. To Executive.

WOODWARD MANAGER.

Councilman McGilvray moved to proceed to the election of a Manager of Manager of the Woodward Fund.

This was by ballot the result being as follows:

Whole number of votes	23
Necessary for choice	12
George A. Sidelinger had	12
George F. Sawyer, Jr., had	10
Charles J. McGilvray had	1

George A. Sidelinger was declared elected.

CODDINGTON ORDER.

Councilman Whiton asked what had become of the Coddington school order, and was informed by the President that it was before the Finance Committee.

He then asked why the Committee had not reported on the matter.

Councilman Bryant, chairman of the Finance Committee said it was an order involving $10,000. He had seen no plans and did not believe in rushing an order through without time to consider it. The committee will probably report at the next meeting.

Councilman Whiton moved the Finance Committee be requested to report the order at the next meeting of the Council.

Councilman Bryant—I said the Committee intended to report at the next meeting. If the gentleman from Ward One wants to make a gallery play all right. The committee should be given an opportunity to investigate.

Councilman Whiton denied that he was making a gallery play.

The motion was lost.

Adjourned at 8.03 until Feb. 3.

Maynard—Humphrey.

Quincy and surrounding towns were largely represented Saturday night at the wedding of Miss Adelle Humphrey, daughter of Mr. and Mrs. and Mrs. Frank W. Humphrey of East Weymouth and St. Louis to Frederick C. Maynard of Winchester. The ceremony took place at 6.15 o'clock at the Congregational church, East Weymouth, and was performed by Rev. Emery L. Bradford. Arthur M. Raymond presided at the organ and the bridal party was led by the four ushers. These were Paul W. Maynard of Winchester, John M. Hawkins of Boston, Ernest L. Saunders of Quincy and Frank J. Ludwig of Jamaica Plain. Miss Hazel Humphrey Baker was maid of honor and Miss Elizabeth Humphrey was the flower girl. The groom was attended by Allston A. Stillman of Winchester. The bride was given in marriage by her father. A reception followed the ceremony at the residence of Mr. and Mrs. George H. Baker.

Dance at Atlantic.

The first dancing party of the season was given in Atlantic Music hall Saturday evening under the direction of Warren Owen, Stanley Furgerson and Horace Jenkins. A large crowd of prettily gowned young women and enthusiastic young men were present and a few of the older dancers lent dignity to the assembly. Murdock's orchestra rendered music for the evening. The gathering was representative of most of the surrounding towns as well as of Atlantic. The young men to whose energies the sucess of the party is due, may feel inclined to repeat the occasion in the near future.

Burglars Caught At Milton

Alva Snow of Randolph avenue, Milton, was aroused from his peaceful slumber at 1.20 this morning by having a ladder placed against his house. Getting up he ran to the window and saw the face of a man looking in at him. As soon as the burglar saw the family were awake he lost no time in getting down the ladder and disappearing.

Mr. Snow notified the police and Officers Higgins and O'Connell were soon hunting for the man. Their hunt was successful, for they found him hiding in the park near the Randolph line. The fellow could not give a clear account of himself and he was locked up.

He gave his name as Ferdinand Paquin, and his home as Rhode Island. He was arraigned in court for attempting to break and enter, and was held in $1,000 until Wednesday morning. In the mean time the police will lock him up.

The Late Andrew Phillip.

The funeral of Mr. Andrew Phillip, at Bethany church on Jan. 17, was largely attended. The Sons of St. George, of which the deceased was a member, were present. The quartet of the order sang very impressively several favorite selections. Dr. E. N. Hardy, pastor of the church, officiated and in his address spoke with deep feeling of Mr. Phillip's ten years' membership in the church, his characteristic cheerfulness and his marked faithfulness in the performance of every duty. The burial was at Mt. Wollaston.

Mr. Phillip was born in England, spent his childhood in South Africa, and has lived here in Quincy nearly twenty years. Within a year and a half, his father and mother, Mr. and Mrs. James Phillip, have passed away. Two sisters, Mrs. Ellen Collins of Quincy and Mrs. Fred Beer of Milford and a brother, John A. Phillip, survive him.

A Surprise Party.

A surprise party was tendered to Miss Edith Freberg of Faxon lane on Saturday evening. Piano duets and solos were rendered by Miss Ellen Anderson, Miss Edith Freberg, Elsie Johnson and Miss Gladys Walters. Refreshments were served and many games were indulged in. Miss Freberg was presented a beautiful gold ring by her cousin, Miss Esther Hermanson.

Among those present were Florence Hanson, Ellen Anderson, Esther Swanson, Esther Hermanson, Hilda Hermanson, Elsie Johnson, Gladys Walters, Rose Capiferri, Winifred Hanson, Lillian and Ingrid Jacobson, Minnie Freberg, Beatrice Phembe, George Freberg, Charles Freberg, Jelma Jacobson, Albert Freberg, Albin Anderson, Elmer Johnson, Joseph Maguire and Henry Johnson.

TODAY'S COURT.

Ferdinand E. Paquin was arraigned for attempting to break and enter at Milton. He was held under $1,000 bonds until Wednesday for a hearing.

"LITTLE EGYPT" WAS RICH

Man Who Says He Was Her Husband Wants $200,000 Estate

New York, Jan. 21.—Fred Hamlin of the banking firm of Hamlin & Co. of East Bloomfield, N. Y., through his attorney, has applied for letters of administration for the estate of Catherine Devine, the "Little Egypt" of Seely dinner fame, who died alone in her flat in this city two weeks ago. Hamlin asserts that he married the dancer nearly twelve years ago.

At the time of "Little Egypt's" death it was not generally supposed that she had left a fortune. An investigation, however, revealed that she owned real estate in New York, Long Island, Canada and New Jersey. In addition, she had several bank accounts and much valuable jewelry. She had been on the stage more than twenty years and her income after the Seeley dinner, it is said, averaged nearly $1000 a week. The estate is estimated at $200,000.

Hamlin and the dancer, it is said, never lived together. It is said that the two were married at the Little Church Around the Corner here a week after Miss Devine's appearance at New Haven, where Hamlin was a Yale student. Mrs. Lea Lilly, a sister of "Little Egypt," now living in Montreal, and another sister, Mrs. Frank Connell of this city, will contest Hamlin's claim to the fortune.

Mob Bungled at Lynching

Dothan, Ala., Jan. 21.—Grover Franklin, a negro, who was taken away from Sheriff Butler and his deputies and hanged to a tree, is again in the hands of the law and stands a chance for recovery. The mob was so closely followed by the officers that it hurriedly strung its victim up to the first tree and, thinking they had riddled him with bullets, fled. On the arrival of the officers the negro was still alive and was immediately cut down and placed in the county jail.

Retiring Loan Certificates

New York, Jan. 21.—Large blocks of clearing house loan certificates, amounting to about $15,000,000, were retired yesterday and the amount outstanding is now in the neighborhood of $20,000,000. The highest amount of certificates outstanding at any time during the financial crisis was $100,000,000. The rapid retirement of the certificates would indicate that within a few days all the clearing house banks will be back on a cash basis of mutual exchanges.

President Planning a Message

Washington, Jan. 21.—President Roosevelt contemplates sending to congress very soon a message making recommendations for remedial legislation in the matter of the employers' liability act which will meet the objections of the supreme court in its recent decision declaring the law unconstitutional. Coupled with this communication the president expects to say something about the general subject of trusts.

Heavy In Debt to Morgan

Toronto, Jan. 21.—The immediate cause of the suspension of the Sovereign bank was the refusal of J. P. Morgan, acting for himself and the Dresdner bank, to make any further advances. It was owing to Morgan and his interests that the bank was not forced to go into liquidation last June. The present debt of the Sovereign bank to the Morgan interests is $2,241,000.

Decision In Cortelyou's Favor

Washington, Jan. 21.—The application of George W. Austin of New York for an order against Secretary of the Treasury Cortelyou to restrain the latter from alloting $21,500,000 worth of Panama canal bonds to certain national banks was denied by Justice Gould of the supreme court of the District of Columbia. The ruling is practically a dismissal of the suit.

Union Labor Bank a Failure

Chicago, Jan. 21.—The affairs of the Commonwealth Trust and Savings bank, an institution organized two years ago as a strictly union labor bank, are to be wound up and the corporation is to be dissolved. The experiment has cost the stockholders about $6000. They will receive approximately 60 cents on the dollar.

Governor as Negro's Counsel

Louisville, Jan. 21.—A large crowd was in the Jefferson county circuit court to see Governor Willson appear as attorney for Joseph Grider, a negro waiter, who is suing the city for damages for injuries sustained as the result of a fall into an excavation. Willson had accepted the case before his election as governor.

Murder Trial In Quick Time

Newark, N. J., Jan. 21.—Within less than nine hours from the time he was brought into court, George Wilson, a negro, was tried, convicted and sentenced to death for the murder of Frederick R. Romer, an undertaker. The week beginning March 2 was fixed for the execution.

Senate Rejects a Nomination

Washington, Jan. 21.—The senate in executive session rejected the nomination of Charles Fairbanks to be pension agent at Concord, N. H. The committee on pensions had acted unfavorably upon this nomination, which some time ago was sent in by the president.

The Weather Forecast

Almanac, Wednesday, Jan. 22.
Sun rises—7:07; sets—4:44.
Moon rises—8:44 p. m.
High water—1:45 a. m.; 2 p. m.

There are no present indications of any decided change in weather and temperature conditions in New England.

THE BOYERTOWN HORROR

Coroner Predicts That There Will Be at Least Four Arrests

Boyertown, Pa., Jan. 21.—All the 170 victims who lost their lives in the theatre fire here on Jan. 13 having been buried, the authorities of the borough and the coroner of Berks county will now begin an investigation of the terrible affair. The unidentified dead, twenty-four in number, were buried Sunday.

Two investigations will be held, one by the borough authorities and the other by Coroner Strasser. The latter said: "I promise that the investigation of the cause of the fire and panic will be a rigorous one. I do not like to make any prophecies at present, but I will state that I believe that there will be at least four arrests. I will not intimate who they will be."

Warren Jones, who was ticket taker at the Rhoades theatre at the time of the fire, has confirmed in part the story that the doors were bolted when the audience made its rush to escape the flames. He made his first statement Sunday night. He declared that one of the two doors, which swung both ways, was bolted, and added:

"When the people began to rush from the hall I threw open one door and tried to open the one bolted. I could not do it. People finally smashed it down. I believe that what caused the deaths more than anything else was the placing of collapsible wooden chairs in the two aisles and behind the reserved seats."

Western Banks In Difficulty

Great Bend, Kan., Jan. 21.—The Bank of Ellinwood, at Ellinwood, was closed by order of the state bank examiner. The assets and liabilities of the bank have not yet been made public.

Guthrie, Okla., Jan. 21.—The state bank commissioner has taken charge of the Farmers and Merchants' bank of Chouteau, which has deposit liabilities amounting to $30,000.

Norwalk, O., Jan. 21.—The Norwalk Savings bank has made a voluntary assignment, following a meeting of directors and officers. This was indirectly due to the assignment last week of the Ohio Trust company of this city.

Light on Triple Murder

Florence, Col., Jan. 21.—Dead bodies of three of the four Italians whose disappearance from this city in the last three months has baffled the police, were found yesterday, buried 150 yards from the home of Antonio Nernino, who is under arrest, charged with the murder of four Italians. A vigorous search is now being made for the body of the fourth missing person. Nernino disclosed the hiding place of the bodies when threatened with immediate hanging. He declared that the murder was committed by Joseph Minichello, the missing man, and not by himself.

Catholics Under Our Flag

Milwaukee, Jan. 21.—There are 13,877,486 Roman Catholics in the United States, according to the advance sheets of the 1908 Wiltzius Catholic directory, published in this city. These figures show an increase of 798,093 over last year. Adding the 7,106,452 Catholics in the Philippines, 1,000,000 in Porto Rico and the 35,000 in the Sandwich islands, the entire Catholic population under the American flag is 22,018,878.

Upholds State Rights Doctrine

Washington, Jan. 21.—That the south still believes in the doctrine of state rights and that it will defend to the last the social and political supremacy of the white man was the declaration of Representative Heflin of Alabama, at a celebration of the 101st birthday anniversary of General Robert E. Lee here last night under the auspices of Camp No. 171, United Confederate Veterans of the District of Columbia.

Prison For Military Officer

Washington, Jan. 21.—The president has confirmed the sentence imposed by court martial in the case of First Lieutenant Lefort of the coast artillery. Lefort was convicted on various charges of obtaining money under false pretenses and was sentenced to be dismissed from the army and to be imprisoned for five years in the military penitentiary at Fort Leavenworth, Kan.

Held For Train Wrecking

Monongahela, Pa., Jan. 21.—John Mackey, Henry Ross and James Lecker were held for court in $2000 bail each on a charge of train wrecking. They are alleged to have been detected in placing obstructions on the Pittsburg, Virginia and Charleston railroad.

Fire Destroys Trade School

Buffalo, Jan. 21.—The trade school at an institution for wayward boys in West Seneca was destroyed by fire last night. The loss is placed at $150,000. None of the inmates were in the trade school building when the fire broke out.

NEWS IN BRIEF

John P. Collins, formerly captain of steamer Bunker Hill, dropped dead of heart disease at the Castle Square hotel, Boston.

Among the bills introduced in congress was one by Mr. Ashbrook of Ohio requiring the restoration upon coins of the motto "In God We Trust."

Rear Admiral Frank Courtis of the navy died at Washington, aged 63. He entered the naval service as a midshipman in 1862. During the Spanish-American war he was in command of the Essex. He was retired in 1901.

It is semi-officially announced that the Queen of Spain is again enciete. Accouchement is expected in July.

A squad of 132 seaman apprentices left the training station at Newport, R. I., for the League Island navy yard. They will go on board the battleship Mississippi for duty on that vessel.

City Hospital Has Balance

(Continued from Page 1.)

including $10 from the Quincy Mansion school.

Warren W. Adams was reelected clerk and sworn.

The nominating committee presented thirty names from which to elect 22 trustees and the ballot resulted in the election of the following: George E. Adams, James F. Burke, Daniel L. F. Chase, Richard D. Chase, Joseph A. Dasha, Alexander Falconer, Henry M. Faxon, John A. Gordon, M. D., Wendell H. Hull, Eugene C. Hultman, Nathaniel S. Hunting, M. D., Charles P. Hutchins, Henry McGrath, Arthur W. Newcomb, Nathan G. Nickerson, Theodore Parker, Thomas B. Pollard, Timothy Reed, Fred B. Rice, William B. Rice, Frank P. Waterhouse and John F. Welch, M. D.

The new members on the board are Daniel L. T. Chase, Representative Eugene C. Hultman and Dr. N. S. Hunting; also Dr. A. H. Gilson and Charles J. McGilvray elected by the City Council.

While the tellers were counting the ballots Dr. Gordon entertained the meeting with a history of Hospitals from the earliest time. It was less than 100 years ago, he said, that the first public hospital was established in New England, the Massachusetts General in Boston in 1812. Fifty years ago there were very few hospitals, but now there were 108 in Massachusetts with 17,584 beds. When the Quincy Hospital was established 19 years ago, there were very few cottage hospitals, but now all the cities and large towns have them. One of the benefits of these hospitals was the training of nurses.

A rising vote of thanks was given to Hon. W. B. Rice for his gift during the year of $17,500 for another ward.

By request, Fred B. Rice told of the work being done toward a Nurses Home and heating plant.

D. King made a suggestion that half of the board of trustees be elected for two years, and it was voted to include the proposed change in the next call of the corporation.

A nominating committee for next year was selected, and there was an informal discussion on Hospital week collections and the needs of the hospital.

$100 REWARD, $100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

RICHARDSON RELATES RECENT EXPERIENCE

Gives Account of Manner in Which Results Were Quickly Obtained.

The Cooper Remedies are rapidly winning their way into the hearts of the people of New England. E. J. Murphy, 1415 Hancock street, agent for the Cooper preparations in Quincy states that in every community where they have been introduced the results of their use have soon became manifest, and many statements have been by those benefited. Among these is one from Mr. Frank M. Richardson of East Milton, who says:—

"For the past ten years I have suffered from chronic constipation. This condition produced nervousness and caused me to feel dull and stupid. I was tired all the time, and had no energy. My appetite was very poor. I was compelled to take pills constantly to regulate the bowels.

"A short time ago I made inquiry of J. J. Hammers regarding the Cooper remedies, for which he is agent in East Milton. On his recommendation I began taking the New Discovery medicine, and in a little while noticed a remarkable improvement. It put my bowels in splendid condition; the nervousness has left me, my appetite is keen, and I feel bright, cheerful, and energetic. I can honestly recommend this preparation to all suffering from similar troubles."

It Certainly Was

A Merry Christmas!

IT CERTAINLY WILL BE

A Happy New Year!

THE NEW OFFICIALS

Several with Experience in City Governments Of the Past

While there is regret in some circles to see some of the faithful city officials like City Treasurer Fay, Chief Engineer Litchfield and Assessor Glover removed, the appointments of Mayor Shea seem to give good satisfaction. Of course there are disappointed ones; there always will be among those seeking office either for themselves or their friends But among the taxpayers who have really the most at stake, and contribute thousands of dollars where politicians give one dollar, the appointments are for the most part satisfactory.

Of the seven new department officials two served in the same capacity in former city governments, two of the others are ex-Councilmen and one an ex-Representative. All the officials seem to have been selected because of business qualifications for the offices.

Certainly John W. McAnarney is as good a city solicitor as Quincy ever had, and Peter J. Williams as good a fire fighter. Commissioner Bainbridge has excellent endorsements; one of the best being that H. T. Whitman is very sorry to lose his services.

City Treasurer Curtis belongs to one of Quincy's best families, and has a reputation for integrity and good service. Tax Collector Carey's success in private life is all the endorsement needed.

Overseer of the Poor Elcock is a gentleman of mature years, successful in business life, and charitable toward all.

Assessor Adams has had a wide experience which should equip him for the duties of his new office.

There would have been a howl if a faithful official like City Clerk Keith had been removed. Inspector Parker, City Physician Hallowell and Inspector Curtis, who are reappointed, have given good service.

THE NEW TAX COLLECTOR.

Timothy J. Carey, the new tax collector was born in Quincy in 1871, and educated in the Quincy schools, and at the Adams Academy. Leaving school he entered the employ of John R. Graham, boot and shoe manufacturer, where he was employed for several years. Of late years he has been the local representative of several of the large insurance companies. He is a member of the Knights of Columbus, Hibernians, and Quincy lodge of Elks, and a successful business man who stands well in the community.

THE NEW OVERSEER.

James H. Elcock, the new Overseer of the Poor is a man fully fitted to assume the duties of the office. In fact he is a first class man anywhere you put him. He is Quincy born and has resided in this town and city nearly all of his life. During his early manhood he served as a fireman on the old Granite hand engine and was also district chief from the West District for three years. He also served as constable for three years in the early seventies. He was elected a member of the City Council from Ward Four in 1899, and served in the City Councils of 1900 and 1901. During the last few weeks his name has been mentioned in connection with several city offices.

THE CHIEF ENGINEER.

Chief Engineer Williams has seen many years of service in the Fire department of the city, having been connected with it in various capacities for over thirty years. His first service was in 1875 when he joined the old Tiger hand engine company at South Quincy, remaining with that company until it went out of commission.

In 1885 he was appointed a district engineer from Ward Three, having charge of the steamer which was purchased at that time. He held office of district engineer for four years. In 1890 he was appointed by Chief Ripley as an assistant chief, and when Mayor Hodges assumed office was made chief. Since that time he has been in office for the greater part of the time.

When Mayor Sears assumed office he was succeeded by Chief Packard who served one year. In 1899 when Mayor Keith came into office it again became Chief Williams. He continued to hold office until the second year of Mayor Thompson, when he was succeeded by Chief Litchfield.

NEW CITY SOLICITOR.

John W. McAnarney who has been appointed as City Solicitor is no novice in that office, for he has held the same position in other years. He studied law in the office of James E. Cotter, Esq., and was admitted to the bar in 1888. Immediately after he opened an office in Quincy and has built up a large practice.

In 1891 and 1892 he served as City Solicitor under Mayor Fairbanks, and rendered valuable service during the hearings to determine what the city should pay for the plant of the Quincy Water Co., being associated with such well known men as James E. Cotter, Esq., and R. M. Morse, Esq.

In 1898 when Mayor Sears came into office Mr. McAnarney again became the City Solicitor. He held the office but one year at this time being succeeded by Paul R. Blackmur Esq.

He was at one time a candidate for the Republican nomination for Mayor.

THE NEW CITY TREASURER.

John Curtis, the new City Treasurer, comes from one of the oldest Quincy families, as well as a family that has held the office of treasurer under the town form of government for many years. His father, Thomas Curtis, was at one time town treasurer and Noah Curtis, his great uncle, was town treasurer for thirteen years. Benjamin Curtis, another relative, also served as a town treasurer.

The new appointee was born in Quincy, Dec. 9, 1855, and in common with the family at that time, learned the boot and shoe trade. Later he was engaged in the grocery business at South Quincy and East Milton.

His first public office was that of Councilman from Ward Three, serving in the City Council of 1892. Mayor Hodges appointed him as assistant assessor in 1894, and he continued to serve in that office through the administration of Mayor Hodges and Mayor Adams, in all four years. In 1899 Mayor Keith also appointed him to that office, and he served one year.

Arrangements For The Police Ball

Lovers of dancing are looking forward to the second annual ball of the Quincy Police Relief Association, which will be held Friday evening at Music hall. All who attended the first event of this association last year will want to attend this as it promises to be, if possible, more of a success than that.

The affair is in charge of a large and efficient committee headed by Chief Burrell, and they will leave nothing undone that will add to the pleasure and comfort of those who attend. From 8 until 9 o'clock there will be a promenade concert by Wilson's orchestra, which will include some of the popular music of the day. This orchestra will also furnish the music for the dancing.

Lieut. Daniel R. McKay is chairman of the reception committee, which means that the guests of the evening will be well looked after. He will be assisted by Sergt. Hanson and Officers Milford, Cahill and Lyons.

Chief Burrell will be the marshal and Lieut. McKay floor director, and Officers Goodhue and Larkin, assistant floor directors. They will be assisted by a large corps of aids.

Between the hours of 10 and 2 o'clock Caterer LaCroix will serve a lunch in the annex. The order of dances contains twenty numbers which include a plentiful sprinkling of the square dances in addition to the more modern dances. These are dedicated to the Mayor, the Judge of the District Court, City Council, and others.

The committee of arrangements includes Chief Burrell, as chairman, Lieut. McKay, Officer Larkin as secretary and Officer Goodhue as treasurer.

Only Daily in Norfolk County.

QUINCY CHARTER

Very Satisfactory To the Voters Who Suggest No Changes

The public hearing Tuesday evening before the special committee of the City Council relative to petitioning the General Court to amend the City Charter or ask for a new charter did not amount to anything.

With all the talk there has been during the past few months it appeared that amendments were wanted. It seems, however, that there is no desire for a change.

There were very few at the hearing and those present had nothing to say. Among those present were ex-Mayor Thompson, Representative Hultman, President Piper of the Board of Trade, Mayor Shea, ex-Councilman Polk, Assessor Johnson, City Solicitor elect John W. McAnarney, and several of the present Council outside of the committee.

Chairman Freeman first asked if anyone had any suggestions to make in regard to amending the charter.

Ex-Councilman Polk said he had no suggestions to make, but asked if the provision of the Melrose charter, which provides that the city debt could not be increased except by a vote of the city, might not be adopted.

Chairman Freeman replied that the committee had not considered anything, but desired to get an expression from the citizens. He then asked if anyone had anything to say in regard to a new charter.

No one spoke, and the hearing was closed, having been in session less than half an hour.

It is understood that the Citizens' Association desire to be heard in the matter after the lecture by Prof. Elliot.

Amateur Dramatics At West Quincy

St. Mary's hall was crowded to the doors Tuesday evening at the annual coffee party of the St. Mary's C. T. A. & M. R. A. During the first part of the evening an original farce was presented entitled "A Sea of Trouble." The several characters were impersonated by Napoleon B. Grignon, John D. Smith, Lewis A. Pendis, James A. Geary, Thomas Gunning, John J. Joyce, Charles A. Shortle and John F. Joyce.

This was followed by a miscellaneous entertainment entitled "A Comedy of Erors," the characters being impersonated by Joseph Barry, Thomas O'Brien, Arthur Foley, Fred McDonnell and Joseph Buckley.

At the close of the entertainment dancing was in order. Mrs. John Ballou had charge of the refreshments, Mrs. Lewis A. Pendis of the reception committee, and Hon. William T. Shea was chairman of the committee of arrangements.

New Location Neponset Depot

In the Legislature on Tuesday afternoon a petition of George E. Curry was presented for legislation, providing that the Railroad Commissioners are authorized, upon the petition of the New Haven Railroad Company, or of 50 legal voters of Boston, after hearing, to order the removal of the Neponset station to a point at or near a new street laid out over the railroad at Neponset, according to the report of the commission abolishing the grade crossing. The expense shall be borne by the railroad company.

National Motor Boat and Engine Show.

Mechanics Building, Boston, has been the scene of many great trade expositions, but judging from the preparations which have been made and the great interest already displayed by those connected with the industry, the coming National Motor Boat and Engine Show, which opens in Mechanics Building, January 25, promises to eclipse them all, and as an exhibition in the boat building and mechanical line, it will interest all New England.

There are probably more motor craft owned in New England than in any other section of the country, for there are so many splendid inland facilities for motor boating in addition to the magnificent coast line with its picturesque harbors and ideal cruising grounds. This year's exhibition which will stand alone and not be a part of the auto show, will be able to present in a most attractive way displays of motor boats and engines heretofore impossible in the limited space allotted to the boat section of the auto show.

When one considers that the immense building with its great exhibition halls, has been engaged for this show, the great size of the project can be imagined. It means that New England will see an exhibition such as was not dreamed of a few years ago. Only the facilities of the building limit the size of the display.

The very largest types of cabin motor craft which it is possible to get within the building will be exhibited and these boats will be fully equipped for sea service. There will be countless other types of power craft while the engine display will be the most unique in the history of the business. The Boston Show will follow the great successes of New York and Chicago. There will be an attractive musical program each day.

Schoolmates at his Funeral

The funeral of James Forrest was held this morning from St. John's church and was very largely attended. Many of his former schoolmates were present as well as a host of friends. Many sent floral tributes and there was a display of beautiful flowers. Mass was celebrated by Rev. John J. Coan, and the Gregorian mass was sung by the choir. Miss Mary McConarty also sang "Only Waiting." The burial was at St. Mary's cemetery.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

PARKWAY BRIDGE

Petition For New Highway To Be Built Over Neponset River

One of the petitions presented in the House is that put in by Representative Mildram of Boston, William C. Curtiss and others, for legislation to authorize the construction of a new bridge over the Neponset river between Boston and Quincy, near the site of the present bridge at Hancock street. The matter is to be put, according to the bill with the petition, into the hands of a special commission, of which the Harbor and Land commission shall be one part. One commissioner shall be appointed by the Mayor of Boston and one by the Mayor of Quincy, and there shall be a third person also appointed.

The object of the bridge is, probably, to secure connection with the Metropolitan parkway at Atlantic which extends through the Quincy Shore Reservation, Merrymount park, and up the Furnace Brook parkway, to the Blue Hills Reservation.

While the petition locates the bridge near the Hancock street bridge, the location would probably be some distance to the west near the outlet of Sagamore creek, perhaps quarter of a mile from the present highway bridge, and in a more westerly direction.

This would be in continuation of the Quincy parkway which now ends at Hancock street on near the present lines of Atlantic street. The new bridge would land on the Boston side some distance back of the street railway car barns and would continue by a new parkway through Dorchester to Adams street or Franklin Park and connect with existing parkways of Boston and the Metropolitan district.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists.

POOR PROVIDED FOR

City of Boston Will Allow No One to Starve or Freeze

DEMANDS OF UNEMPLOYED

Replied to by Governor Guild, Who Points Out That Conditions Are Better at Present Than the Average For the Past Twenty Years

Boston, Jan. 22.—Considering the demands which were presented to the governor at the state house last week by a committee sent from several hundred unemployed which had gathered on the state house steps, a statement was issued late yesterday from the executive office replying in detail to the many suggestions embodied in the demands.

The statement declares that the writer of the resolutions which embraced the demands showed an almost complete ignorance of conditions and laws in the commonwealth, as some of the commissions demanded were already in existence and other legislation sought was clearly unconstitutional.

Regarding free employment agencies, which was one of the demands, it is stated that already such offices are doing effective work in Boston, Springfield and Fall River, securing positions at the rate of from 1000 to 2000 a month without charge. An appeal is made to further aid this work on the part of the public.

The office of the overseers of the poor in this city is open and no person need starve or freeze, declares the statement. Not only is this means available to the really suffering poor, but it is shown that a dozen or more charitable organizations stand ready at all times to help those in need. "They declare themselves well equipped for the purpose and will be supported thoroughly," is also contended.

While many are out of work at this time, especially those in the building trades and farm work, as every year, the reports to the governor, it is claimed, show that the conditions are better, rather than worse, than the average for the month for the past twenty years. The overseers of the poor of Boston also report that there has been an actual decrease for the year in applications for aid.

The state board of charity, it is also shown, reports that in a certain manufacturing town from which sensational stories have come of starvation and impending suicides that the operatives have been steadily sending through the postoffice money orders to their relatives on the continent of Europe, amounting to from $3000 to $4000 a week.

The proposition to impose a new tax to raise $500,000 to provide work for the unemployed is compared with the special legislation to reduce rents as both unconstitutional and impossible. It is shown that real estate must impose rents to get the money with which to pay taxes, and that reducing rents at the same time as increasing taxes is incompatible.

Pensions for the unemployed is also termed as "absurd," as tending to idleness, and "universal idleness meaning universal starvation."

The statement says that an investigation by the police shows "that the agitator responsible for certain recent disturbances has no regular residence in the commonwealth, that his recent stay has been scarcely a month, that although posing as a Socialist he did not register and vote for those principles, and is ineligible for election in any genuine labor union, as he is not a wage earner. His own admission shows he is not himself unemployed and that he needs no relief in food, clothing or shelter.

"The right to free speech extends even to a man who as a matter of record openly and publicly reviles all religion, encourages unchastity in women and advocates house breaking and theft. Self-respecting citizens must judge for themselves whether they can afford to associate publicly with one who so abuses the privileges of American freedom.

"Constituted authority, however, will not countenance such abuse. The common sense of the people is the only defense needed against bombastic mouthings too silly to be dangerous."

Trouble In Crack Military Company

New York, Jan. 22.—There was considerable comment in military circles when it became known that nine officers of the Twelfth regiment, N. Y. N. G., had tendered their resignations and that several others might also retire. Two majors, three captains and four lieutenants have turned in their resignations, with the explanation "expiration of term of service."

Williams Going to the Senate

Jackson, Miss., Jan. 22.—In the two houses of the Mississippi legislature Congressman John S. Williams was elected to the United States senate to succeed H. D. Money. Edmond F. Noel was yesterday inaugurated as governor of Mississippi. His inaugural address lasted but twelve minutes.

Would Buy Silver Bullion

Washington, Jan. 22.—Senator Teller introduced an amendment to the sundry civil appropriation bill providing for the purchase of silver bullion to the extent of $100,000,000 to be made into subsidiary change.

BRILLIANT SOCIAL FUNCTIONS

Americans and Brazilians Continue Exchange of Compliments

Rio Janeiro, Jan. 22.—The officers of the American battleship fleet gave a reception last evening aboard the battleship Minnesota. The event was largely attended by the society people of the Brazilian capital, officers of the Brazilian army and navy and the diplomatic corps. The Minnesota was beautifully decorated for the occasion. A large orchestra rendered a splendid program of music, while a military band played for the dancers, who took command of the deck immediately after the reception.

Jose C. Rodriguez, proprietor of the Journal of Commerce, entertained the American newspaper men accompanying the fleet at a banquet last evening. There were toasts and cordial responses by the newspaper men of the two countries, as well as friendly exchanges of sentiments between the naval representatives and those of the American and Brazilian press.

The flotilla of torpedo boat destroyers sailed last night. The next stop of the flotilla will be Buenos Ayres, where great preparations have been made for their reception.

Objection to Woman Debater

New York, Jan. 22.—The Columbia college debating team has formulated a protest against the selection of Miss Elizabeth A. Cook, a co-ed of Cornell, who was recently chosen as a member of the Cornell debating team, which is scheduled to meet Columbia in a debate on Feb. 28. A letter requesting that Miss Cook be barred from the team was sent to Cornell. President Woodbury of the Debating union said that if Miss Cook was not removed from the Cornell team, Columbia would forfeit the debate.

Disaster In Wake of Heat

Melbourne, Jan. 22.—The heat wave that has been centering over Victoria for some time past is ended, but it has left disastrous effects in its wake. Vast bush fires are destroying hundreds of homesteads and threatening many townships. The sufferings of horses and cattle have been terrible and the settlers have lost heavily in live stock. More than one hundred deaths from sunstroke have been reported and thousands of persons are ill from the effects of the heat.

To Protect American Interests

Washington, Jan. 22.—Because of the disturbed conditions in Hayti, and as a guarantee for the protection of American interests, it has been decided to dispatch cruiser Des Moines to that island, with headquarters in the vicinity of the troubled section. Gunboat Eagle, now at St. Marc, will look after the protection of these interests until the arrival of the cruiser, when she will resume her survey work around the coast.

Checking Immoral Traffic

Washington, Jan. 22.—The efforts of the authorities of the bureau of immigration of the department of commerce and labor to break up the white slave traffic are bearing fruit. There have been two convictions in the United States district court at Helena, Mont., of persons engaged in the importation of alien women for immoral purposes. Similar prosecutions are pending in other parts of the country.

Labor Opposed to "Spotters"

Washington, Jan. 22.—The executive council of the American Federation of Labor adopted a motion requesting President Gompers to discuss through the columns of the official organ of that organization "the question of the numerous secret detective agencies and their engagement by employers' associations."

Employers' Terms Rejected

Havana, Jan. 22.—The cigarmakers who are on strike have refused the terms offered by the manufacturers and the strike situation remains unchanged. The newspapers here warn the strikers that the factories may be removed to Florida if they do not come to some compromise with the manufacturers.

Government Accepts Battleship

Washington, Jan. 22.—Battleship Mississippi has been formally accepted by the government and was taken over this morning at the League Island (Philadelphia) navy yard. She is to be commanded by Captain Fremont, formerly naval attache at St. Petersburg and Paris, who is now on his way home.

Democratic Conference Called Off

New York, Jan. 22.—The proposed conference of old line Democrats from all over the United States, which was to have been held in this city next Thursday to discuss issues that might be urged at the Democratic national convention, has been indefinitely postponed.

NEWS IN BRIEF

Albert Beloquin, aged 5, was drowned in the Saco river at Biddeford, Me. He was playing on the ice, which gave way.

Richard Mitchell, aged 17, died at Holyoke, Mass., as the result of accidental gas asphyxiation.

A steam dredge owned by Simon Donovan was destroyed by fire at its anchorage off Highham, Mass. The dredge was valued at $30,000.

It is understood that the British government's naval program for the coming year only will involve a moderate increase in the naval estimates, mainly for cruisers and destroyers.

Bill Papke, who claims the middleweight championship of the world, defeated Walter Stanton in four rounds at Boston.

PROPOSALS—Sale of U. S. Vessels *Pinta* and *Canonicus*—Sealed Proposals will be received at the Navy Department until noon on the 19th day of February, 1908, at which time and place they will be opened, for the purchase of the U. S. vessels *Pinta* and *Canonicus*, appraised values, $1,400 and $6,000, respectively. They will be sold for cash to the person or persons or to the corporation or corporations offering the highest price therefor. A separate proposal for each vessel bid upon must be submitted in a sealed envelope addressed to the Secretary of the Navy, Washington, D. C., endorsed "Proposals for the purchase of the U. S. S.——" (naming the vessel for which offer is made), and each proposal must be accompanied by a satisfactory certified check for not less than 10 per cent of the amount of the offer. On application to the Navy Department, forms of bids and bonds, together with the terms and conditions of sale, also a printed list giving general information concerning these vessels, will be furnished. The vessels can be examined at any time after this date by applying to the Commandants of the navy yards, Mare Island, Cal., and Norfolk, Va., respectively, where they now lie. They must be removed from the limits of said yards within such reasonable time as may be fixed by the Department. The Department reserves the right to withdraw either or both of the above-named vessels from sale and to reject any or all bids. TRUMAN H. NEWBERRY, *Assistant Secretary of the Navy*, January 11 1908. Jan. 15-4t--15, 22, 29, 3

NOTICE.

THE Co-partnership heretofore formed and existing between the subscribers hereto under the firm name of MARSHALL & GELOTTE, for the purposes of carrying on a granite business in the City of Quincy, Massachusetts, is this day dissolved by mutual consent. All claims and demands against the firm will be adjusted by C. Otto E. Gelotte, and all accounts or claims of any nature due the firm are hereafter due and payable to said C. Otto E. Gelotte.

Dated at Quincy, Massachusetts, this eighth day of January, A. D. 1908.

WILLIAM MARSHALL,
C. OTTO E. GELOTTE.

Mr. Gelotte will continue the business on the premises, and the firm will be known as O. Gelotte & Co.
Quincy, Jan 8, 1908. 3t--8-15-22

EVIDENCE FOR THAW

Dozen Letters Written by Him Are Read to the Jury

ONE OF GREAT IMPORTANCE

Corroborates Claim of Girl Who Was to Become His Wife That She Told Him the Story of Her Relations With White--Jerome Cools Down

New York, Jan. 22.—District Attorney Jerome's long and severe cross-examination of Mrs. Evelyn N. Thaw at the trial of her husband came to an end late yesterday. The attorneys for the defense then succeeded in placing in evidence a letter written by the defendant in the fall of 1903, which completely corroborated the claim that the girl who was to become his wife did tell him the story of her relations with Stanford White much as she has related it upon the stand at this and the former trial.

This letter was one of a dozen which were read to the jury as tending to corroborate young Mrs. Thaw's testimony and as further tending to show the effect her story had upon the defendant's mind. Most of these letters were read to the jury in the former trial and were considered as one of the strongest bits of evidence in the hands of the defense.

Mr. Jerome objected to their introduction into the record yesterday, but was overruled by Justice Dowling after Thaw himself had made a waiver of the confidential relation of counsel and client when Frederick W. Longfellow, his former attorney, appeared on the stand to identify the letters.

Some of the writings were addressed to Longfellow and others had been sent to him to be delivered to Miss Nesbit. They all contained many references to the girl's history and to her experience, and in the letters intended for the young woman Thaw constantly bespoke his love and respect for her. Many of the sentences rambled on incoherently and there were many scratches, erasures and interlineations.

The first letter Mr. Littleton read yesterday was largely a repetition, in the defendant's own words, of the story the Nesbit girl says she told him in Paris in 1903. In it, however, Thaw refers to two "drugged champagne" incidents—one at the photographic studio in Twenty-Second street, and the other in the Twenty-Fourth street house, where, as Mrs. Thaw twice testified, that while luncheon and wine were served during her posing at the photographic place, nothing out of the ordinary occurred. Thaw's letter corroborated Mrs. Thaw in that he declared it was in the Twenty-Fourth street house that she and White first were alone.

Mr. Jerome was much quieter in his handling of Mrs. Thaw on the stand yesterday, and his voice lacked the high, hard pitch which filled the courtroom Monday afternoon. The cross-examination resolved itself for a time into a verbal battle between prosecutor and witness, and there were several lively tilts which ended only when Justice Dowling took a hand.

The defense is nearing its close. Thaw's will and the codicil made at the time of his marriage to Evelyn Nesbit, both of which were introduced last year as further evidences of irrationality on the part of the defendant, will be proved and introduced as evidence today. Then will follow the testimony of Miss Belle M. Lawrence of California, who was Thaw's teacher when he was 6 years old and could not talk intelligibly, it is said. Miss Lawrence kept a diary in which there are many entries concerning Thaw and an effort will be made to get this in evidence. The insanity experts should be reached not later than Thursday afternoon and the defense hopes to close its case by Friday night. A week later Thaw's fate should be in the hands of the jury.

Optimistic on Business Outlook

New York, Jan. 22.—Chairman Van Horne of the Canadian Pacific has arrived here from Cuba. He expresses the belief that the wheels of business will soon revolve at their normal speed. "This has been a very severe depression," he said, "and in my judgment the rebound will be speedy. Money is becoming easy. The security market is better, and soon corporations will be able to sell their securities again. When securities are being sold, one will find an immediate response in industrial circles."

Mitchell's Services Appreciated

Indianapolis, Jan. 22.—President Mitcheli of the United Mine Workers of America, at the national convention here, declined to accept a personal gift of $2700 tendered him by the miners of Montana and Wyoming as a token of their appreciation of his efforts to make their condition better. "Give it to Mrs. Mitchell and the children," he said, trembling with emotion. The draft will be sent to Mrs. Mitchell.

England to Take Account of Stock

London, Jan. 22.—The British Board of Trade has just inaugurated a new national stock taking in the shape of a census of the country's productive power, from a steamship liner to a loaf of bread. The new census will be based on returns furnished by employers throughout the country respecting their output for last year. Its object is to enable the country to know exactly and scientifically how it stands.

MORAN SERIOUSLY SICK

Friends Supposed That District Attorney Had Gone South

Boston, Jan. 22.—District Attorney John B. Moran of Suffolk county is ill, and possibly dangerously ill, at the Fenway hospital, Back Bay. For the past week he has lain in bed. During that time he has been shut off from everyone but his nurses and Dr. T. J. Reardon, who has had charge of Moran for some time.

While Reardon claims that Moran is suffering from a nervous breakdown, and that he is simply holding his patient at the hospital to build up his system, previous to sending Moran away for an extended trip to some health resort, it is learned that Moran is in a serious condition and that his physical breakdown is complete.

Mr. Moran left his suite at the Hotel Navarre apparently to go south. All his friends at the hotel believed this to be so. Instead he took a carriage to the Fenway hospital, but two blocks away, and since that time he has been confined to a bed.

Shaw Leaves Carnegie Trust

New York, Jan. 22.—Leslie M. Shaw has resigned the presidency of the Carnegie Trust company, which he assumed early last March on his retirement from the treasury portfolio at Washington. Explaining his resignation, Shaw said that he had had "small differences" with Charles C. Dickinson, the organizer and chief owner of the trust company. Of his future plans he would say nothing definite beyond this statement: "I may shy my castor into the political ring."

Cause of Darr Mine Disaster

Greensburg, Pa., Jan. 22.—The verdict of the coroner's jury which investigated the Darr mine explosion declares the disaster was caused by the accidental explosion of gas ignited by an open lamp and that the explosion was augmented by coal dust that extended throughout the mine. It finds that the bituminous laws of Pennsylvania were fully obeyed by all those having charge of the Darr mine.

Lived Under Assumed Name

Newark, N. J., Jan. 22.—The body of a man who died Sunday at the Kensington hotel, where he had been living under the name of "J. J. Cary," has been identified as that of former Justice Thomas W. Fitzgerald of the court of special sessions in Brooklyn, who was recently removed from the bench and disbarred from the practice of law. Death was due to heart disease. He was 54 years of age.

Assault Charge Withdrawn

New York, Jan. 22.—The complaint of assault preferred by Edmund J. Relly, a photographer, against Count Szechenyi, the fiance of Miss Gladys Vanderbilt, which was to have been heard in police court yesterday, was withdrawn before the time set for the hearing, Relly having decided to abandon the action.

Says Bryan Will Be Nominated

Washington, Jan. 22.—The intention of the Democratic party to nominate William J. Bryan for president at the convention to be held in Denver in July next was declared on the floor of the house of representatives by Representative Champ Clark of Missouri, and evoked continued applause.

President Lets Down Bars

Washington, Jan. 22.—The president has decided to modify the army riding test regulations by providing that all permanent staff officers engaged in purely civil duties who are of rank and age not likely to be called upon for field operations may, at their own request, be excused from the test.

Afraid of Mulai Hafid

Tangier, Jan. 22.—Mulai Hafid has been proclaimed sultan at Wazan, chiefly, it is believed, because the populace were convinced that if they refused to proclaim him their heavy property holdings at Fez would be pillaged. The agents of Mulai Hafid have been preaching holy war.

Tobacco Destroyed by "Riders"

Hopkinsville, Ky., Jan. 22.—A band of 100 "night riders" burned the large tobacco barn on the farm of James A. Coleman in Christian county. The barn contained 15,000 pounds of tobacco which was ready for shipment. Coleman is not a member of the tobacco association.

Women Won't Smoke In Public

New York, Jan. 22.—An ordinance prohibiting women from smoking in restaurants and other public places was adopted by the board of aldermen. While the final vote was unanimous, the ordinance had been strenuously opposed during its consideration.

Punished For Breaking Quarantine

Havana, Jan. 22.—Private Buggee of the Fifteenth cavalry has been sentenced by a court martial to four months' imprisonment at hard labor and to forfeit $10 monthly pay for breaking the yellow fever quarantine at Cienfuegos.

Explosion on French Cruiser

Paris, Jan. 22.—A special dispatch from Toulon to The Journal says that a 47-millimetre gun exploded on board the French armored cruiser Victor Hugo during practice. Considerable damage was done, but no one was injured.

The Weather Forecast

Almanac, Thursday, Jan. 23.
Sun rises—7:07; sets—4:46.
Moon sets—9:45 p. m.
High water—2:15 a. m.; 2:45 p. m.

There will be light rains in New England, followed by generally fair and colder weather.

PRESIDENTIAL BOOM

Hughes Grateful to Those Who Are Urging His Candidacy

IS MINDFUL OF GREAT HONOR

Is Not Seeking It, and Will Use No State Patronage Nor Executive Power to Get Delegates--He Won't Run For Governor

Albany, Jan. 22.—Governor Hughes last night publicly declared his attitude toward the movement in favor of his nomination for the presidency in a letter to James S. Lehmaier of New York, acknowledging notification of the resolution of endorsement recently passed by the Republican club, and appointing Jan. 31 for a meeting with the club, at which he intimates he will still more definitely declare himself.

"I am deeply sensible of the honor conferred upon me," says the governor, "by my fellow members of the Republican club, in the passage of the resolution to which you refer, and it will give me pleasure to accept the invitation. In accepting it, it is proper for me to restate my position.

"It is my desire that the sentiment of the party shall have the freest expression, and that such action shall be taken as will be for its best interests.

"I do not seek office nor shall I attempt to influence the selection or vote of any candidate. The state administration must continue to be impartial and must not be tributary to any candidacy.

"I have no interest in any factional controversy, and desire above all things that there shall be deliberation, honest expression of the party will, and harmony of effort.

"I cannot fail to recognize the great honor which the nomination would confer or the obligation of service which it would oppose. Nor should I care to be thought lacking in appreciation of the confidence and esteem which prompt the efforts of those who sincerely desire to bring it about. The matter is one for the party to decide, and whatever its decision I shall be content.

"I shall be glad to meet with the members of the club as you suggest and to make such further statement as may be appropriate. In view of the engagements already made I do not see how it will be possible to have such a meeting before the evening of Jan. 31. And if that date suits your convenience, arrangements may be made accordingly."

The federal forces which are opposing Governor Hughes' presidential boom and endeavoring to manipulate so as to check his strength with the voters by renominating him for governor received a severe shock when it became known yesterday that the governor stood by the declarations of his friends that he would not accept a renomination. It is clear that this matter is settled.

It was similarly made apparent that the governor had no intention of repudiating his presidential boomers, and was not to be shaken in his determination. The anti-Hughes leaders have been demanding that he disown Odell, Black and Aldridge and prevent a factional fight. This the governor will not do, standing firmly on his rights as a citizen to be a candidate and merely insisting that he will use no state patronage nor executive power to get delegates. These developments have greatly elated his friends.

A DEMOCRATIC TRUMPH

Bryan Wants It In Congress as Well as White House

Frankfort, Ky., Jan. 22.—The climax of W. J. Bryan's visit to Frankfort was reached yesterday afternoon when he spoke to the Democratic members of the legislature behind closed doors, advocating the election of former Governor Beckham as United States senator. Bryan declared he had no fears for himself.

"I am here," said he, "because I believe the Democratic ticket has a good chance to be elected this year. I do not know who the Democratic standard bearer may be, but I know that it takes a Democratic senate and house to uphold the president. I do not want to be a president simply to sit in a chair, but to do something for the people.

"All the popularity of the Republican president has come from adoption of Democratic principles and reform. We cannot rely much on Republican senators. We may get the house, but it will require an overwhelming victory to get the senate.

"For a generation we have had a government under corporate control. This government was sold to the highest bidder and since that time a saturnalian feast has existed at Washington. The only relief is a Democratic triumph this fall, not only the White House, but also the house and senate. The legislature of Kentucky faces a great responsibility and should arise to the occasion and elect a Democratic senator on whose vote the deliverance may rest."

Great Strike Threatened

London, Jan. 22.—Another big strike in the shipbuilding trade in the Tyne district is threatened against the reduction of wages, which the employers state is necessary, owing to the depression in the industry. Several thousand men are affected.

PAYING OF PARTY DEBTS

What Probers Say They Found In Boston Health Department

Boston, Jan. 22.—The Boston health department, according to a probe report rendered by the finance commission last night, "illustrates vividly the difficulty of maintaining a high standard against the sinister influences of politics." The report comments at length on the evident efforts to pay party debts, shown in the investigation results, and makes these recommendations:

That Dr. Douglas, Dr. McDavitt, Smoke Inspector Goddard and those of the present sanitary inspectors and milk inspectors who are known to be incompetent be removed. It recommends increasing the number of sanitary inspectors to twenty-one, at a minimum salary of $1000 each. The abolition of the positions of assistant commissioners, held by E. E. Brown and D. J. Kinneally, removed, is recommended, and that a competitive system, with closer supervision of work performed, be submitted for the present methods of awarding contracts.

Chairman Durgin of the board is commended for his conscientious labors for the department. The department cost $50,000 more the past year than the average for the three preceding years, claims the commission.

Thugs Maltreated Policeman

Boston, Jan. 22.—Set upon and beaten into insensibility by two daring thugs as he was walking along Centre street, Jamaica Plain, last night, Patrolman Hayes of station 13 now lies at his home in a serious condition. When the patrolman sank to the sidewalk the assailants made their escape. A general alarm was sent out from the station, but as only a meagre description could be obtained of the thugs they have not been captured.

Life Prisoner Seeks Pardon

Boston, Jan. 22.—A petition signed by former Attorney General Parker, the selectmen of Clinton and other citizens of that town, has been filed with Governor Guild, praying for the pardon of Walter Smith of Clinton, who is serving a life sentence in the state prison. Smith shot his father on April 19, 1903, when 17 years of age. His father's constant abuse of his mother, it is claimed, had temporarily deranged the prisoner.

Lecturer Dies In Church

Worcester, Mass., Jan. 22.—Charles M. Smith, aged 65, a veteran of the Civil war and widely known among Grand Army men as a lecturer on the story of his escape from Andersonville prison, was stricken with apoplexy in the Park Congregational church after partaking of a supper there last night, dying immediately. He was general agent of the Travelers' Life and Accident company of Hartford.

Fire Destroys Old Academy

Stamford, Conn., Jan. 22.—Betts academy, one of the oldest preparatory schools in the country, was destroyed by fire this morning. The loss may amount to $150,000, it is stated. The fire started in the boiler room and was first discovered by Sheldon Cross, one of the fifth-six students at the academy, of the fifty-six students at the academy.

Shortage of Over $100,000

North Attleboro, Mass., Jan. 22.—Receiver Bancroft of the Jewelers' National bank has forwarded the report of the bank's condition to the comptroller of the currency. No part of the report will be made public until after it reaches Washington. It is known, however, that there is a shortage in the accounts of over $100,000.

Investigated Fatal Fist Fight

Newport, R. I., Jan. 22.—The board of naval officers who have been investigating the fist fight aboard the naval training ship Cumberland, as a result of which Naval Apprentice J. J. Hartnet met his death last week, has concluded its labors. The report has been forwarded to the naval department at Washington.

Wetmore Wins In Rhode Island

Providence, Jan. 22.—The bitterest and most protracted contest in the political history of Rhode Island virtually ended when on the first ballot cast in both branches of the general assembly, former United States Senator Wetmore of Newport was elected to the federal senate from Rhode Island.

Fined For Counterfeiting Tickets

Portland, Me., Jan. 22.—George Layton and Harry T. Fowler, indicted for having attempted to counterfeit admission tickets to the Harvard-Yale football game last fall, were sentenced yesterday to pay $200 and half costs each. They paid and were discharged.

Took Deadly Dose of Acid

Lowell, Mass., Jan. 22.—William Hague of this city was found dead in a field in the rear of a house in Dracut, where his wife resided. He had taken a dose of carbolic acid. He is supposed to have committed suicide while under the influence of liquor.

Rhode Island's Population

Providence, Jan. 22.—The state census of Rhode Island, completed and presented to the general assembly, shows an increase in population of 12 percent since 1903. The present population of the state is 480,080, and five years ago was 428,556.

Has Wider Field of Duty

Boston, Jan. 22.—Baron Gustave Tosti, Italian consul at Boston, has received notice from his government transferring him to Denver. He had expected to be transferred to Brazil. His new field of duty will embrace fifteen states.

"Blessings Brighten as They Take Their Flight."

Health is never so much prized as when illness interferes with pleasure or work. When the stomach is sick, the digestion weak, the nerves unstrung, the head heavy with pain, nothing seems so desirable as a sound mind in a healthy body. Keep stomach, liver and bowels in good order with

BEECHAM'S PILLS

and you will rarely lose a day's work or an evening's pleasure through sickness. These pills are a safe corrective and a general tonic, the good effects of which are felt throughout the entire body. Whenever you are not feeling at your best, take Beecham's Pills. They relieve constipation, remove bilious conditions, improve the digestion,

The Observations In the Daily Walk

The Finance Committee of the City Council will meet Thursday evening.

But two days more before the grand concert and ball of the Quincy Police Relief Association.

The mild weather has spoiled the skating and likewise the prospects of the ice men for the present.

The variety store of Henry Coram on Willard street was broken into Monday night, and a few cigars taken.

An illustrated lecture on Sweden, Norway and Denmark will be given at Faxon hall tomorrow evening.

At the billiard tournament at the Granite City club Tuesday night John W. Walsh beat R. F. Claflin 120 to 103.

The central station apparatus was called out on a still alarm Tuesday afternoon for a lively brush fire near Patch's ice houses at Quincy Neck.

The Rev. H. A. Manchester of Boston will give a grand stereopticon lecture on "The Holy Land" in the First Presbyterian church, Water street, on Wednesday evening.

Mr. E. Cutter, Jr., who is to assist at Mr. Plancon's song recital next week Wednesday evening is well known in musical circles in and around Boston. He is musical director of the Ampion Club of Melrose and a most pleasing accompanist.

For the convenience of patronesses and subscribers to the song recital by Mr. Plancon next week Wednesday evening at First Church chapel, subscriptions will be received by Miss Annie L. Prescott.

The next regular meeting of the Loyal Temperance Legion is to be held on Saturday, at 1.30 o'clock in Protection hall, Johnson's building. Parents are invited to witness the good work being done by their children.

Charles E. Thomas, who has been serving as sub carrier at the Quincy post office, has been appointed carrier, his appointment to date from Feb. 1. He has been assigned to the Braintree office and will cover the East Braintree route.

Social Club Reunion.

The committee who had charge of the recent minstrel show given by the Quincy Point Social club, and those who took part in the entertainment, had a reunion Tuesday night in Electa hall. About seventy-five were present and a grand good time was enjoyed. During the first part of the evening there was vocal and instrumental music. Then came the banquet, which was served by Landlord Porter of the Greenleaf. The menu included cold meats, potato salad, escalloped oysters, rolls, coffee, ice cream and cake. Following the supper there were a few toasts, after which the party adjourned to large hall where dancing was enjoyed.

There is Art
In Spending Money.
If Circulated Here
It Helps the City

AMONG THE CLUBS.

The adjourned annual meeting of the Hospital Aid association is to be held on Thursday afternoon, Jan. 30, at three o'clock in the chapel of First church, when it is hoped there will be a large attendance.

A full meeting of the Junior Friday Friday club was recorded on Monday afternoon when the club met with Mrs. Alfred P. Thompson of Brook street, Wollaston, with Mrs. William H. Whitney, also of Wollaston, in charge of the program. Florence and Siena: painting, architecture, etc., were discussed, after which the hostess served a dainty lunch.

An interesting meeting of Quincy Alliance is anticipated on Monday afternoon in First church chapel when Mrs. Harriet Morse Litchfield of Wollaston will speak on "Judgments."

Members of the Friday club and Junior Friday club are looking forward to St. Valentine's day when they are to hold a joint meeting at the home of Mrs. Walter E. Burke. Miss Ellen Thompson of Brookline is to give her, "Festa Days in Northern Italy," which will interest both clubs as they are studying Italy this winter.

Mrs. Lucia Ames Mead who is to address the Quincy Women's club early in April is in New York filling fifteen engagements. Her lectures deal with questions pertaining to peace and international relations.

Club women in this vicinity are much interested in the course of lectures to be given by Edward Howard Griggs on Saturdays at Tremont Temple, Boston. There are ten lectures in the course, beginning this week and ending March 28th. The hour eleven o'clock is also found convenient as it leaves the afternoon free. The subject, "Great Autobiographies, types and problems of Manhood and Womanhood," promises much of interest, as the most interesting of all subjects of study is human life and the most instructive of all problems are those concerning the development of personality and the bringing to active realization the powers of individual character.

Members of the Day Nursery association have about completed arrangements for the two dancing parties which they are to give for the benefit of the Nursery. The children's dance will be on Saturday afternoon Feb. 8th and the Valantine ball on the evening of Feb. 14th. Several young married women will matronize the children's party and there is a goodly array of patronesses for the ball.

QUINCY WOMEN'S CLUB.

The annual musicale of the Quincy Women's club will be given at the next meeting of the club on Tuesday January the twenty-eighth at three o'clock. Mrs. Chandler W. Smith, former president, will give piano solos, and address the club. Miss Winetta Lamson, who will sing, is a pupil of M. Alfred Giraudet of the Paris Opera, George Henschel of London, and Mr. William L. Whitney of Boston. Mrs. Grace M. Brandon, the violinist, is a pupil of Bernard Listemann of Lichtenberg, and Mr. Felix Winternitz. She is also leader of the first violins in the orchestra, of the Malden Musical club. It is earnestly hoped that all members will be in their seats before three o'clock, as it is disturbing both to the artists and the audience to have people coming in after the program has begun.

The Civic committee has arranged for a gentlemen's night on Feb. 26, and has secured Mr. John Nolen of Cambridge, who will speak on "Civic Betterment and How to Improve our Out Door Surroundings," illustrated by the stereopticon. The lecture will be given at First Church chapel and complimentary tickets will be sent city officials and others.

It will also be a great opportunity for for the ladies of Quincy who like a bargain for they can buy a ticket for twenty-five cents for themselves and at the same time receive a complimentary one for a gentleman, thus they practically get two for a quarter; a leap year bargain. This small sum is asked not to make money but to cover the expenses of the lecture.

No man can buy a ticket as it is complimentary to them but they can secure one of any member of the Civic committee, as can also the ladies but they must pay for theirs. As the lecture is one of great interest and open to all, whether club members or not, a large audience should greet Mr. Nolen.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
Address: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

PHILERGIANS OF BRAINTREE.

The Philergians held an adjourned meeting on Wednesday afternoon, Jan. 15, in Cochato hall, at which important business was transacted. It was voted to donate $150 for equipping a young peoples' reading room in the Thayer public library building.

A tax of thirty cents per capita was levied, ten cents of which will be used to constitute the club a member of the General Federation of Woman's Clubs for this year; the other twenty cents per member will make up the deficit in the fund of $100, which has been voted for the expenses of the approaching biennial convention.

It was also voted that a membership ticket to the Philergians for the year 1908-1909 shall be given to the girl, in the senior class of Braintree high school, maintaining the highest standing throughout the current year, and whose school education is to end with graduation.

A petition is to be circulated among the Philergians asking the school board for some system of medical inspection in the public schools.

The club membership having reached two hundred, it was voted to extend the limit to two hundred and fifty.

NEIGHBORING WOMEN'S CLUBS.

Dr. Alfred M. Tozzer of the Peabody Museum is to be the speaker at the New England Women's club, on Monday afternoon, at their rooms on Clarendon street, Boston. "The People and Monuments of Yucatan."

The nominating committee for the selection of officers for 1908-09 of the Massachusetts Society of the Daughters of the Revolution are Mrs. Nellie Pray, Mrs. Robert E. Hill, Mrs. John P. Heath, Mrs. Henry Weston and Mrs. Emily H. Gosselin. The society at its meeting Jan. 16 voted to join other patriotic societies in purchasing the old Chesapeak flag to be sold at auction in London on Jan. 29.

On Monday the Brockton Woman's club observed its annual guest evening. The principal entertainer was Mr. Leland Powers, who read the French play, "Gringoire," and selection from "David Copperfield." There were violin solos by Miss Olive Whiteley, accompanied by Mr. George Sawyer Dunham. At the close of the entertainment a social hour and refreshments were enjoyed.

At the regular meeting of the Norwood Woman's Club it was unanimously voted to join the General Federation of Woman's Clubs, and also voted to incorporate the club, which will be done at an early date. The afternoon was in charge of the Educational Department, Mrs. Sarah Phillips Bigelow chairman, the speaker being Mr. Thomas A. Watson of East Braintree. His subject was "Industrialism."

TODAY'S COURT.

The continued case of Ferdinand E. Paquin forattempting to break rnd enter at Milton was called ond he was held in $1,000 for the grand jury,

Joseph Robertson was arraigned for drunkenness at Quincy. Case continued until Feb. 29.

DIED.

FOSTER—In Boston, Jan. 20, Mr. Seth Foster of Norwell in his 78th year.

HOUSE—In Hyde Park, Jan. 20, Mr. Charles A. House in his 63d year.

Established 1870. Telephone.
JOHN HALL
FUNERAL DIRECTOR
CARRIAGE and AMBULANCE Service
1435 Hancock Street, Quincy, Mass.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St Quincy, or the Treasurer, RICHARD D. CHASE Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

Newsy Budget From Shipyard

The United States fleet of battleships bound for the Pacific ocean, sailed from Rio Janeiro this afternoon.

Steam trawler Spray arrived in Boston this week with 35,000 pounds haddock, 5,000 pounds cod, and 1,000 pounds lemon-sole.

Vice President Speare of the Electric Boat Company lectures this evening at the Y. M. C. A. building on submarines.

Charles H. Bagen of Washington street has resumed his work after a four weeks' illness.

Some idea of the foot ball game played at Pawtucket, R. I., Saturday between the H. and B. team ,and the crack Fore Rivers, both of the New England league, may be had from an article which appeared in the Sunday issue of the Providence Journal.

The ground was covered with mud and on account of this neither team put forth its best effort. Too much zeal on a slippery field would have had a tendency towards accidents, and in spite of the cautiousness of players, which was absolutely necessary under the existing condition, one accident did occur.

"Though the Howard & Bullough foot-ball eleven played a tie game with the fast Fore River aggregation on the Sabin street grounds yesterday afternoon, in which neither side was able to score, yet the game was the slowest and most uninteresting witnessed this season in that city. Neither team seemed to have any life and could not seem to do the right thing when an opportunity presented itself, and, added to this, the field was in a very poor condition, being wet and soggy in all places and at one end being nothing more than a field of mud.

It was a game which promised to be a very interesting contest, as the two teams are noted to be the fastest exponents of the short kick and passing game in New England. From this point of view the crowd looked for a very close game and in this they were not disappointed, but they did expect to see some work that was of a clever nature and they failed to perceive it.

The Howard & Bullough eleven had all the chances that could be desired to win the contest and in a great measure outplayed the visiting team, but when they had advanced the ball as far as their opponents' goal they suddenly seemed to lose their nerve and failed to put any aggressiveness into their attack. Consequently they fell short of making very many easy scores and perforce lost a chance to secure the contest.

The work of the Fore River team was decidedly off color and nothing like what they have put up when in this city before. The men did not work together in the same way as in the past, and had it not been for the excellent defence of McGregor and Esplin in goal the feeble attack of the home aggregation might even at times have been successful. That it was finally beat off was due in no little measure to the work of these two men.

The first serious accident of the foot-ball season in Pawtucket occurred when McDevitt sustained the breaking of two ribs on the right side as a result of a collision with McAllister. The accident came during the second period and about 15 minutes before the finish of the game. McAllister was hustling for the sphere to prevent its going out of bounds, as it lay very close to the Fore River goal.

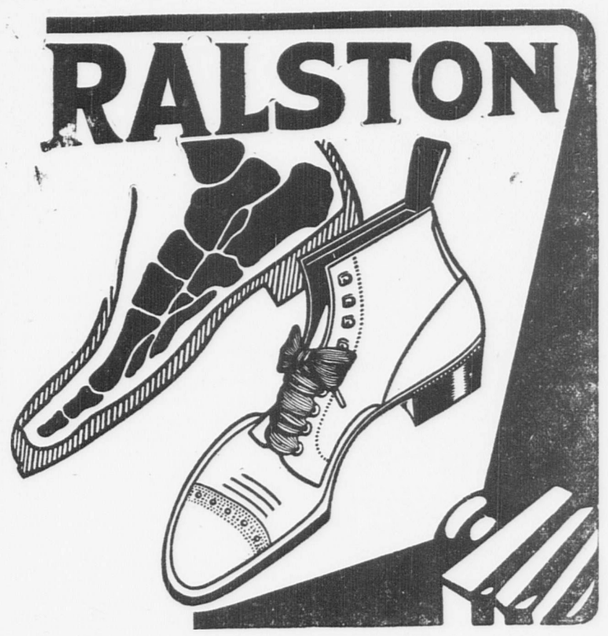

McDevitt came from the side on the jump, and as he was about to meet the ball with McAllister he stumbled and fell against the Howard & Bullough man. McAllister toppled to the ground, and, in order to prevent himself from receiving the force of the fall by McDevitt, raised his hands and knees to keep the weight of McDevitt off of his body. He caught the stocky halfback of the Fore Rivers and turned him over, rolling him to one side. It was thought for an instant by the crowd that McAllister by his quick manoeuvre had prevented an accident, but suddenly it was found that McDevitt was injured instead of McAllister, who had been in the most danger.

It appeared that as McDevitt fell he struck his right side against McAllister's knee and the force of the blow was sufficient to fracture two of the ribs. He appeared in great pain, and Dr. Woodhead, who attends the games for the home club, was called, and upon making an examination, found the ribs were broken. McDevitt was then taken to the Twin City Hospital, where his injuries were treated. He was reported as resting very comfortably last evening."

—Some people do not realize that Admiral Evans is steaming steadily towards summer weather, and that it will be practically midsummer for the fleet when he rounds Cape Horn.

Old Coughs Old coughs, desperate coughs, rasping coughs, extremely perilous coughs, coughs that shake the whole body. It takes a strong medicine, a doctor's medicine, to master such coughs. A great many people rely on Ayer's Cherry Pectoral.
Keep in close touch with your family doctor. No medicine was ever made that could take his place. Trust him at all times.
J. C. Ayer Co., Lowell, Mass.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

Annual Dance Pine Tree Club

The annual dance of the Pine Tree State Association of Quincy on Wednesday evening at Faxon hall was probably the most successful ever held. There were so many in attendance that there was almost a crowd. Among the number were Representative R. P. Coombs and wife and Postmaster Charles L. Hammond Of course a large percentage hailed from the State of Maine, and the remainder have always been sorry that they could not claim the Pine Tree state as their birthplace. Next to Massachusetts, the State of Maine is all right.

The floor manager was P. F. Carlin and his aids were Frank E. Mitchell, Jed. Gleason and Mr. Chapman. The music was by Thompson's orchestra and with Mr. Hobbs as prompter, gave excellent satisfaction.

Round dances predominated on the order of dances, and most of them were encored. But equally enjoyable to many were the Portland Fancy, Virginia Reel, Lanciers and the plain quadrilles.

Ice cream and cake were served during the evening, but the dancers had little time for refreshments except at intermission which came about 10 o'clock. Frank Carlton was chairman of the refreshment committee. Dancing continued until after midnight. It was a very enjoyable party.

Many Attractions At the Y. M. C. A.

The public are again invited to see the work of the Y. M. C. A. gymnasium on Saturday evening. The ladies of the Brockton gym have been invited to visit and take part in the exhibition. This will add much interest to the program, as the Brockton young men are clever performers. The men who take part in the class work are to have a lunch after class. It is expected a large number will be present.

The bowling scores for last week at candle pins were:

Monday,—H. Andrew,94.
Tuesday—J. Winslow, 114.
Wednesday—A. Stewart, 108.
Thursday—B. Tinney, 104.
Friday—J. Giles, 104.
Saturday—H. Trask, 93.

Tonight Quincy teams clash at the Y. M. C. A. with the fast teams from the Cunningham gymnasium of East Milton. Game called at 8 o'clock.

Saturday morning the boys of the Somerville Y. M. C. A. visit the Quincy Y. M. C. A. After class work games, races and basket ball will be enjoyed. Lunch will be served the visitors by Quincy boys.

On Wednesday evening of next week the Employed Boys and Advanced Juniors will have an athletic meet and basket ball game. Silk badges will be offered as prizes for the athletic events.

It is expected that the second annual Boys Athletic meet for the State will be held in Quincy gym on Saturday Feb. 29.

Bryant's Biddies Swept the Class

Councilman C. M. Bryant will be pardoned if he does feel a little might proud over the remarkable winnings of his biddies of the House Rock poultry farm at the Boston show recently. They swept the classes for rose and single comb Rhode Island Reds, as will be seen below:

Cock,—first and special color.
Cock,—third.
Hen—fifth.
Cockerel—first, special shape, special color, and silver cup for the best Rose comb male.
Cockerel—second.
Cockerel—third.
Cockerel—fourth.
Pullet—second.
Pullet—fourth.
Pen—second.
Special—$10 best display.
Special—$5 best cock and four hens.
Special shaped male.
Special—best colored male.

Also Rhode Island Club Specials as follows: $5 best Rose Comb cock; $5 best Rose Comb cockerel; $3 second best Rose Comb cockerel; $3 second best Rose Comb pullet; $3 second best Rose Comb hen; $5 best shape male either variety, won by first cockerel. Two ribbons best shape, two ribbons best color and silver cup best Rose comb male won by first cockerel.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

A Talk on Submarines

About 200 men listened to a talk on "Submarines' by Mr. L. Y. Spear, vice president of the Electric Boat Co., at the Y. M. C. A. on Wednesday evening.

Mr. Spear's remarks were illustrated by stereopticon views, showing first the history of the submarine craft its use in the Revolutionary and Civil wars, the modern invention, its recent improvements, and several series of slides on the Governmental tests at Newport last year. Mr. Spear concluded his talk by giving a scientific statement of the use of the submarine vessel as a fighting factor in modern warfare.

The occasion was the first of a series of practical talks which will be held every other week through the remainder of the season. The next will be on the "Work of the Associated Press," by J. L. Rand, Boston manager of the Associated Press, and will be given Feb. 5.

Whist Tournament.

Another one of those good times was held at the rooms of the Granite City club Wednesday night. The whist tournament started at 8.15 with seven tables in play. Twenty-five hands were played, the highest percentage being secured by Dr. C. W. Garey and H. H. Hill. At the close of the play Henry P. Furnald served cold ham, hot mashed potatoes, hot cream of tartar biscuits, coffee, crackers and cheese. For next week the menu will include oyster patties and hot rolls.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Annual Meeting Christ Church

After a short vestry meeting, the regular annual meeting of the Christ church parish took place Wednesday evening for the election of officers and reports of organizations connected with the church. The rector, Rev. W. E. Gardner presided. The same officers were elected with the exception of A. C. Smith who resigned. Herbert A. Rhoades of Braintree parish was elected to fill the vacancy.

While the tellers were counting ballots, very interesting reports were read by Miss Emily Wilde for the Woman's Guild, Miss Emma Savil for the Reaper's Circle, Miss Gertrude Jones for the St. Margaret's Guild. William L. Thomas for the Sunday school, Miss Marion Bolster for the Junior Auxiliary, Mrs. Mabel L. Brown for the Altar Guild. Then followed the Rector's report and a brief report of the Braintree mission.

The discussion of the budget for 1908 formed the principal topic of the evening. The budget was finally adopted and the meeting adjourned at 10.30 P. M. Following the meeting a social hour was enjoyed during which refreshments were served by the Woman's Guild.

The Eliot Debate.

E. H. Angier, secretary of the committee that has in charge the "better government" meeting to be held January 30, reports that tickets for same are now being distributed. Great pains have been taken by the committee to see that all applications were properly entered and filled, but if anyone should not receive his tickets Mr. Angier will appreciate it very much if they will advise him promptly.

REMEMBER!!

THE LAST CHANCE---THE FINAL CALL

The moon rises tonight at 9.45.

On the last day of the month the sun will rise at 7 and set at 4.56.

LaCroix, the caterer is out with a new wagon appropriately lettered.

H. H. Hill, of Winchenden, formerly of Quincy, was in town on Wednesday.

The Democratic City Committee will meet for organizations Friday evening.

Robert E. McDonnell was the best man at the wedding of Thomas L. Cavanagh and Miss Agnes Daley at St. Gregory's church, Dorchester, on Wednesday.

Wilson's orchestra of ten pieces will furnish the music for the concert program and also the dancers at the grand ball of the Quincy Police Relief Association tomorrow night.

The alarm from Box 74 at 5.03 Wednesday afternoon was for a grass fire. The recall sounded promptly. It is a little singular, but the same box was sounded the night before at the same identical time for a grass fire in the same identical spot.

The annual meeting of the Merrymount Granite Co. was held Wednesday evening and these officers elected: President, James H. Sullivan; clerk, Michael B. Geary; agent, Patrick W. Driscoll; directors, the above with Enos S. Costa, John McTiernan, John C. Kapples and Charles Edgrin.

REVOLVERS IN MUFF

New York Woman Uses Two With Deadly Effect

TRAGEDY IN A RESTAURANT

Advertising Solicitor Killed by Woman Who Befriended Him Before He Became Prosperous--She Then Snuffs Out Her Own Life

New York, Jan. 23.—Sweeping through the crowded restaurant that occupies the eighth floor of Macy's department store and into the men's cafe, a tall, stylishly dressed woman bent for a moment over the shoulder of a diner, whispered something in his ear, and then, drawing a revolver from her muff, emptied the five chambers into his body.

As the victim, Frank Brady, an advertising solicitor, slipped lifeless from his chair to the floor, the woman flung the weapon from her and, taking a second revolver from her muff, shot herself first in the head and then twice in the breast. She died a half hour later.

A note found in the woman's purse proved her to be Mrs. Mary Roberts Clark, a manicurist, the widow of a police officer and stepmother of a 6-year-old son, Raymond. Brady was 30 years of age and the sole support of his aged mother, for whom he had made a home. The shooting was the culmination of a series of violent quarrels and, according to the woman's intimates, in fulfilment of a threat to murder him in a public place, "before the world," unless he renewed the attentions she claimed to have received when he was less prosperous and she in a position to befriend him.

The police had little difficulty in tracing the tragic story back from effect to cause. The suicide, who was 30 years of age, had been Mary McLean when she married John Roberts. When the latter died a year ago she assumed the name of Clark and supported herself and child first as the wardrobe woman at an up-town theatre and then as a manicurist. She was of a prepossessing appearance and had marked business ability. Last August she made a will in which she was able to provide for the education of her son at a fashionable school in Westchester county. A clergyman was made executor.

While Mrs. Clark was in prosperous circumstances Brady had lodgings at her home and she claimed to have aided him to the success which he subsequently attained. A few months ago he left her home and made a home for his mother when he brought her from New Jersey. Recently Mrs. Clark thought that Brady was avoiding her and when he called at her home occasionally they quarreled.

A few days ago Mrs. Clark called upon her attorney and told him that something serious was going to happen. Yesterday she went to her bank, made a cash deposit, wrote a note identifying herself and referring the reader to her attorney, and, armed with three revolvers, went to the store where she knew that Brady usually lunched.

Amid the buzz of conversation in the main dining hall her agitated manner attracted the attention only of the waitresses, one of whom, noticing her approach the men's smoking room, asked if she was seeking someone.

"Yes," she replied, "and I know where he is, too."

She brushed the girl aside and in a moment stood behind Brady's chair and whispered in his ear. Before he had time to reply she had shoved a revolver in his face and commenced firing. The head, the neck, the shoulder, the breast and the abdomen were successively pierced by bullets and as Brady lay dead at her feet, giving one glance to the half dozen men nearby who were momentarily stunned by the pitiless murder, Mrs. Clark whipped another weapon from her furs and put a bullet near her right ear and two others in her bosom.

The shooting was out of the sight of the hundred or more shoppers in the restaurant, but the report of the discharges created consternation and there was a rush for the elevators. Employes of the place quickly closed the door, shutting off a view of the smoking room, and reassured the women patrons, few of whom realized what had occurred.

The police broke the news to Brady's aged mother and the Gerry society took charge of the dead woman's boy.

Site For Stephenson Memorial

Washington, Jan. 23.—The Stephenson Grand Army memorial to be presented by the Grand Army of the Republic to the people of the United States in honor of the late Benjamin F. Stephenson, founder of that organization, will be erected in this city at the junction of Pennsylvania avenue, Seventh street, Louisiana avenue and C street, Northwest, directly east of the equestrian statue of General Hancock. Action to that end has been taken by the statuary commission.

Professional Robber Disposed Of

Binghamton, N. Y., Jan. 23.—After escaping from jail once and making five other attempts, Charles Carter, a notorious burglar, was taken to Auburn prison to begin a fifteen-year sentence. Carter yesterday pleaded guilty to robbing a clothing store in this city. Last spring he escaped from a Michigan sheriff while being taken to the state prison.

THE SHIP OF STATE

Grosscup Thinks Cannon Can Safely Fill the Place at the Wheel

Chicago, Jan. 23.—Judge Grosscup of the United States circuit court, speaking last night at the banquet of the Illinois Lawyers' association, said:

"As a progressive among progressives, as one whose ideal is that the corporation may be so reconstructed that through it, as a trustworthy institution, the property of America, incorporated as well as unincorporated, will eventually become the property of the people of America, I wish to see in the next president of the United States a man not wholly an idealist, a man not wholly a practical man, but a man who, animated by the nation's best ideals, will set out to reach them on practical lines and will travel onward by roads that are laid on solid earth.

"Ahead of this generation of Americans lies a work that in time will constitute one of the greatest triumphs of our history. But successfully to accomplish it we must be safely piloted past the dangers of panic and business depression on the one hand, and the dangers of a greed and selfishness that wish to remain unmolested on the other.

"It will take a trained captain as well as a determined one to pilot the ship of state. A captain courageous, hearty, straightforward; an optimist always, but never a foolish optimist; a father in wisdom, a brother in strength and sympathy; a captain who knows the chart, and is not afraid to follow it. 'Uncle Joe' Cannon can, in my judgment, safely and confidently fill the place at the wheel."

Fire Hose Unfit For Use

New York, Jan. 23.—Testimony to the effect that the hose used by the New York fire department had never been tested for fear it would burst was had from Fire Commissioner Lantry, who appeared as a witness in the inquiry concerning defective hose used in fighting the fire in the Parker building, in which three firemen lost their lives. The testimony disclosed that the condition of practically all the hose in the department was bad. Lantry declared that forty-one lengths burst at the Parker building fire.

Cornell Will Back Miss Cook

Ithaca, N. Y., Jan. 23.—President Goodrich of the Cornell debating council declares that Cornell will not yield to Columbia's protest against the selection of Miss Elizabeth E. Cook, a co-ed, who was chosen as a member of Cornell's team in a debate against Columbia. Goodrich, who is also president of the Triangular Inter-College Debating league, says he will fight Miss Cook's disbarment, even if forced to call a league meeting to discuss the question.

Will Benefit South America

Santiago, Chile, Jan. 23.—Congress yesterday passed a bill authorizing the president to make contracts for a railroad running north and south. The bill limits immediate expenditure to about $37,500,000, but it is intended that when completed the railway will run from the frontier of Peru to the Straits of Magellan, a distance of about 2600 miles. Spur lines will be built to coast ports and into mining districts and agricultural areas.

Liquor Dealers Favor Temperance

Louisville, Jan. 23.—The Model License League, composed of men interested in the manufacture and sale of spiritous and malt liquors, adopted resolutions declaring for temperance and condemning laws intended to destroy their properties. They favored strict observance to license laws by liquor dealers as a means to prevent further prohibition legislation.

Magoon to Explain Cuban Affairs

Washington, Jan. 23.—At the suggestion of the president and Secretary Root, Secretary Taft has cabled Governor Magoon to come to Washington between Feb. 1 and 8 for the discussion, consideration and decision of a number of important matters concerning the government of the island. Magoon will not be absent from Cuba more than a month.

"Pirate" Steamer Off Hayti

Port au Prince, Jan. 23.—Steamer Vortigern, which sailed from St. Thomas on Jan. 18 with General Firmin, who was the leader of the revolution in Hayti in 1902, and a score or more of other exiled revolutionists on board, has made several attempts to land them on Haytian soil. The Haytian government has declared the Vortigern to be a pirate.

Cruiser Ready For Commission

Vallejo, Cal., Jan. 23.—Orders have been received at the Mare Island navy yard to commission the armored cruiser South Dakota on Monday. The ship was delivered by the contractors, the Union Works, several months ago. Since then extra work has been done by the navy yard force.

Bag of Gold Stolen

New Orleans, Jan. 23.—A bag containing $830 in underweight gold coin has disappeared from the New Orleans sub-treasury. The shortage resulting has been made good by the officials who had the gold in charge.

And Still No Election

Frankfort, Ky., Jan. 23.—There was no result in the balloting for United States senator in joint session of the legislature yesterday. It resulted as follows: Beckham, 63; Bradley, 61; scattering, 6.

The Weather Forecast

Almanac, Friday, Jan. 24.
Sun rises—7:06; sets—4:47.
Moon rises—10:47 p. m.
High water—3 a. m.; 3:15 p. m.
The weather will be generally fair and colder in New England.

BAD BREATH

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."

NO LEGAL EVIDENCE

Thaw's Complaints to Comstock Had No Effect

MORE LETTERS BEFORE JURY

Defendant Shown to Have Tried to Close Up Houses Where Girls Were Said to Have Been Mistreated --Elder Mrs. Thaw Takes Stand

New York, Jan. 23.—The end of the second Thaw trial is fast approaching. This fact was indicated late yesterday when Dr. Charles Wagner, the first of the alienists to be called by the defense, took the stand for his preliminary examination.

Anthony Comstock, vice president of the society for the suppression of vice, had been heard as a witness earlier in the day and Mrs. William Thaw, mother of the defendant, had completed her testimony. The kindergarten teacher who had charge of Harry Thaw as a lad of six also testified, and the day marked a long stride toward the conclusion of the celebrated case.

Mr. Comstock's testimony, while new, had been discounted by the known facts of Thaw's appeal to him to assist in closing up the houses where Stanford White was alleged to have maintained elaborately furnished apartments and where young girls were said to have been mistreated. A dozen letters Thaw wrote to Comstock regarding the matter, and giving a detailed description of the Twenty-Fourth street house, were admitted in evidence and read to the jury.

District Attorney Jerome seemed as pleased as the defense with the letters and later in the day read into the record himself most of Comstock's replies to Thaw. The witness indicated in his testimony that nothing had ever come of the complaints, legal evidence being lacking.

Mrs. William Thaw, still unable to walk unassisted because of her recent illness, was not long upon the stand. She told of Thaw's early life, of influences before his birth and of the mental unsoundness of two of her brothers. There was no cross-examinaton, Jerome contenting himself by reading to the jurors the affidavit made by the elder Mrs. Thaw last year when the question of her son's sanity was pending before a lunacy commission.

In that affidavit she declared that in the direct line of descent there had been no insanity in Harry Thaw's family for four generations. As to the collateral cases Mrs. Thaw said there were but two and they were easily accounted for. In her statement to the commission Mrs. Thaw also resented the insinuations she said she had been compelled to suffer because of the newspaper reports of insanity in the family and declared there were no family secrets to hide and no skeleton to be bared.

Mr. Littleton may continue with expert testimony today or he may offer as witnesses the doctors from Rome, Paris and London, who are to tell briefly of attending Thaw in those cities. Another doctor is expected to tell of an outbreak on a train, and that will end all save the expert testimony.

Yesterday the codicil to Thaw's will was placed in evidence, but the will itself was temporarily ruled out because of the insufficiency of evidence showing its custody since 1905. Littleton said he would supply this today or Friday.

Friendship Remains Unbroken

Tokio, Jan. 23.—The house of peers met today and was addressed by Premier Saionji, who announced that an agreement had been reached between the Canadian government and Japan regarding emigration, and said it must be remembered that the traditional friendship of the American government towards Japan remained unchanged and that negotiations were continuing in the most cordial manner. He further said that he believed a solution of the emigration question would soon be reached.

Submarines For Pacific Coast

Washington, Jan. 23.—Responsive to petitions from western commercial organizations, Representative Kahn (Cal.) introduced a bill to provide for the defense of Pacific coast ports. The bill appropriates $1,000,000 toward the construction, by contract, on the Pacific coast, of fifteen submarine torpedo boats of the most approved type, to cost not more than $5,000,000.

Census Taking Is Expensive

Washington, Jan. 23.—Director North of the census bureau has asked the house committee on census for an appropriation of $14,000,000 to defray the cost of taking the census of the United States for 1910. He says that 3300 additional clerks are needed in the census bureau and that 60,000 enumerators will be required.

West Virginia Bank Closes

Huntington, W. Va., Jan. 23.—The Citizens' bank at Buckley has closed its doors and is in charge of Banking Commissioner Matthews. It is said a run made by depositors caused the suspension. The capital stock is $100,000.

Woman Suffrage Favored

Lansing, Mich., Jan. 23.—The constitutional convention committee on elections unanimously reported a proposal granting woman suffrage, with a recommendation that it be passed.

Commonwealth of Massachusetts.

LAND COURT.

To Ellen K. Kendall, Mary B. Moors and Matthew Luce of Cohasset, in the County of Norfolk, and said Commonwealth; Thomas F. Marshall of Wakefield, in the County of Middlesex, and said Commonwealth; and to all whom it may concern:

Whereas, a petition has been presented to said Court by the Town of Cohasset, a municipal corporation located in said County of Norfolk, to register and confirm its title in the following described land:

A certain parcel of land situate in said Cohasset, on Jerusalem Road, so-called, bounded and described as follows: On the North by the sea; on the West by land of Ellen K. Kendall; on the East by land of Matthew Luce; and on the South by Jerusalem Road. Said parcel (as claimed by petitioner) having been reserved for a highway or public place.

The above described land is shown on a plan filed with said petition, and all boundry lines are claimed to be located on the ground as shown on said plan.

You are hereby cited to appear at the Land Court to be held at Boston, in the County of Suffolk, on the seventeenth day of February, A. D., 1908, at ten o'clock in the forenoon, to show cause if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any degree entered thereon.

Witness, Leonard A. Jones, Esquire, Judge of said Court, this twenty second day of January in the year nineteen hundred and eight.

Attest with Seal of said Court.
(Seal.) CLARENCE C. SMITH, Recorder.
23-30-6

RIO IS LEFT BEHIND

American Warships Are Now Headed For Punta Arenas

TEN DAYS TO REACH STRAIT

Americans Have Made Friendships and Won Sympathies In Brazil Which Will Be Felt In Years to Come--Given a Grand Send-Off

Rio Janeiro, Jan. 23.—To the booming of guns and the cheers of thousands on the accompanying pleasure craft, the American warships sailed from Rio Janeiro yesterday afternoon bound for Punta Arenas, on the Magellan strait. Ten days will bring the fleet almost to the midway point of the 14,000-mile cruise to San Francisco, and the ships and the men carried with them the god-speed and good wishes of the whole Brazilian nation.

Not an untoward incident marked the visit of the Americans here. They were feasted and feted, officers and men, during their sojourn in Rio, and half the population turned out from early in the morning to give them a fitting send-off. As on the arrival of the fleet, so at its departure, the quays, the public buildings and the hills were crowded with thousands watching the warships until they had disappeared through the mouth of the bay into the open sea.

President Penna, accompanied by high Brazilian officials, visited the flagship Minnesota, remaining there about an hour. Admiral Thomas, commander of the flagship, Captain Hubbard and American Ambassador Dudley received the president with all honors. In the saloon of the Minnesota there was a mutual exchange of greetings. While the president was aboard the Minnesota and during his tour among the vessels salutes were exchanged and on his departure from the flagship twenty-one guns were fired.

About 3 o'clock the American fleet began to move, passing out in single column and inverse order according to divisions, the Alabama leading. Three divisions of the Brazilian navy followed, composed of three battleships, seven cruisers and six destroyers, and in the vicinity of Fort Villegagnon many steamers circled, having on board thousands of spectators from shore. Hundreds of launches and small craft, all gaily decorated, formed a stirring spectacle.

Slowly at first the great warships moved, but as they disappeared from view they were moving at a 10-knot pace. One by one as they passed the president's yacht they saluted with twenty-one guns, and the forts replied in kind. There was much waving of small flags and handkerchiefs and the cheering seemed incessant, with the noisy blowing of whistles from the steam craft.

Captain Ingersoll, chief of staff to Admiral Evans, interviewed before the departure of the fleet, said that he had no special plans for the passage of the ships through Magellan strait. They will go through, however, he said, as a solid fleet.

Commenting on the departure of the fleet, The Journal of Commerce said: "In the few days of the fleet's stay friendships have been made and sympathies won which will have a far-reaching effect in the years to come. The great ships have faded on the horizon and are ploughing their way to the Pacific. Rio Janeiro has become for them a thing of the past, but we hope and trust that from the commander-in-chief to the humblest member of the fleet, feelings of friendship, esteem and admiration will be ever present, as they will to the friends and comrades whom they left behind in Rio. Come fair weather, come foul, they have won the hearts of the Brazilians, Americans and Englishmen in this city."

The German cruiser Bremen, which has been here for some time past, and which recently was ordered to remain until the departure of the American fleet, in order to give the German officers additional time to make observations, left with the American ships.

Existence Was a Luxury

St. Petersburg, Jan. 23.—Testimony showing the straits of civil population at Port Arthur during the siege was given at the court martial of General Stoessel yesterday by Colonel Vershinin, who was civil commissioner of that place. According to Vershinin, a cow cost $800, a pig $500, eggs $1 apiece and other things correspondingly. Mme. Stoessel had a large herd of cattle and a flock of chickens and charged for them exorbitant prices.

Prepared to Block Intrigues

Lisbon, Jan. 23.—All the political parties in Portugal that are opposed to Premier Franco appear to be intriguing to precipitate rioting on the occasion of the meeting of the electoral colleges, but Franco seems to have a firm grip on the situation and he is prepared to make use of vigorous measures to maintain order.

One-Day Strike Omitted

St. Petersburg, Jan. 23.—The third anniversary of "Red Sunday" (Jan. 22, 1905,) passed quietly. Even the one-day strike of the workmen was not declared this year, the leaders of the Socialist organizations deciding instead to ask the workmen each to contribute a day's wages to a fund for the relief of the unemployed.

CLEARING UP BIG ROBBERY

Police Arrest Two Alleged Participants In Theft of $4500

Boston, Jan. 23.—Following an investigation of more than six months, the police placed under arrest Frank Harrington, aged 23, and James Kenney, aged 17, both of Boston, charged with being two of the gang of four that stole $4500 contained in a wooden box from a wagon of the Boston Elevated Railway company. The police claim to have located a third member of the gang in New York, who will probably be arrested soon. The fourth member, it is understood, will not be arrested.

Paymaster Fenno was leaving the Elevated company's headquarters on Milk street on the morning of July 18, last. A team was waiting around the corner on Pearl street containing three men. They knew at what time Fenno would make his appearance with the money with which to pay off the men in one of the divisions.

A certain man stepped up to Fenno and engaged him in conversation just as he placed the money inside the foot-rest of his buggy. Fenno was caused to step back for an instant, and when he turned his head a moment later the money was missing.

In the meantime one of the three men in the team waiting around the corner leaped out, rushed over at the instant Fenno turned his head, and quickly put the money in his own team.

Financial Stringency Is Passing

Washington, Jan. 23.—The secretary of the treasury announces that, owing to the great improvement in financial conditions throughout the country, he has begun the gradual withdrawal of deposits of public moneys in moderate amounts from the national banks. The first call has been made upon New York banks and amounts approximately to $10,000,000. This is in addition to about $10,000,000 returned by the New York banks since Dec. 26. The secretary says that a general call for a moderate amount will be made upon banks in other cities at an early date.

No Russian With Evans' Fleet

St. Petersburg, Jan. 23.—The controversy arising out of the report that Commander Diatchkoff, a Russian naval officer, is, in an official capacity, following the American fleet on its trip around South America, has now taken a new turn through the publication of a communication in which the naval ministry entirely disavows the alleged naval attache. The communication proceeds to state that neither Diatchkoff nor any other Russian naval officer is cruising with Admiral Evans' fleet.

Dissolution of Union Ordered

Cleveland, Jan. 23.—Judge Phillips, in deciding the case against the Amalgamated Glass Workers' union, held that the contract of amalgamation of the four trades, cutters, flatteners, blowers and gatherers, was illegal, and granted the petition of the cutters and flatteners, a minority, who asked for the dissolution and a division of $110,000 in the treasury of the union. The petitioners claimed that they were being discriminated against by the blowers and gatherers.

Socialists and Police In Conflict

Brunswick, Ger., Jan. 23.—Social suffrage demonstrations here last evening led to a collision with the police in which several persons were wounded and many arrests were made. About 6000 Socialists formed a procession for the ducal palace. The police dispersed the procession and the men then assembled in the various halls of the city to hear speeches in favor of suffrage reform. A collision with the police occurred after the meetings adjourned.

Grafter Removed From Office

St. Petersburg, Jan. 23.—M. Gurko, assistant minister of the interior, has been dismissed from office as the outcome of the Lydval grain scandals. Gurko, it was charged, made an illegal contract with Lydval to supply grain to the famine-stricken provinces and advanced him money. Since the case was taken up Gurko twice tendered his resignation as assistant minister, but Premier Stolypin refused to accept it.

Arrest of Russian Plotters

St. Petersburg, Jan. 23.—A dispatch from Kiev reports the arrest there of a man and a woman who have just arrived from Geneva with a plan for a general distribution of arms and ammunition in Russia. The authorities captured also a considerable quantity of weapons.

Senatorial Election Ratified

Jackson, Miss., Jan. 23.—In joint session, the Mississippi legislature ratified the election of John S. Williams as United States senator to succeed Senator Money.

NEWS IN BRIEF

The Republican state committee of North Dakota declared in favor of the nomination of Secretary Taft for the presidency.

Addison Curtis, 10 years old, broke through the ice while skating at Amesbury, Mass., and was drowned.

Karl Muck, conductor of the Boston Symphony orchestra, will not remain with the orchestra after the present season, owing to his duties in Berlin.

A new power house, to cost $100,000 and which is to supply power to five of the big factories at Holyoke, Mass., is to be erected in the near future.

James Bruerton, Boston manager of the Hartford Fire Insurance company and one of the best known insurance men of New England, dropped dead of apoplexy while walking on a street at Boston. He was born in Boston 64 years ago.

CLUBBED TO DEATH

Body of Farmer Found Under Brush Pile Near His Home

Calais, Me., Jan. 23.—With the head terribly battered by blows from a club, the body of Andrew Higgins, a Baileyville farmer, was found partly concealed under a brush pile, not far from the little cabin where he dwelt alone. It is believed that robbery was the motive of the crime.

As a result of the investigation thus far made, the authorities are of the opinion that Higgins was attacked from behind with a club, but that he gave his assailant a hard battle. Two blood-stained clubs, one of which may have been used in self-defense by Higgins, were found a little way from the camp, while 100 yards further on the body was concealed. The position of the clubs is believed to mark the place where the man met his death, the body being afterward dragged to the place of concealment.

Higgins was 70 years old and somewhat eccentric. Since the death of his wife several years ago he had lived in a little camp on his farm at some distance from the main farm buildings. His only daughter, Miss Clara Higgins, lives in this city.

Hebrews Are Burned Out

Boston, Jan. 23.—Four persons were injured, a score of firemen suffered from the effects of smoke and an area of a quarter of a square mile burned over in a fire which did $40,000 damage in Chelsea. The fire occurred in the heart of the rag picking section of Chelsea, a business largely carried on by Hebrews. Two three-story houses, six tenement blocks, 2½ stories high, for twenty-four families, two rendering plants, one storeyard for rags and six rag picking buildings were burned.

Legislative Officers Criticised

Boston, Jan. 23.—The presiding officers, both past and present, of the two branches of the state legislature were severely criticised at the annual meeting of the Massachusetts Total Abstinence society for what was termed their attempts to thwart temperance legislation in the makeup of the legislative committees. Reports of the officers of the association were of an encouraging nature.

Death of Old Lawyer

Boston, Jan. 23.—Charles A. Welch, aged 93, died at his home in Newton last night after an illness of two weeks of bronchitis. Welch was born in Boston and following his graduation from Harvard he began the practice of law. Fifty years ago he entered into partnership with the late Edwin D. Sohier, and until within two years offices were retained under the firm name in this city.

Appointment Displeases Printers

Boston, Jan. 23.—At a meeting of the Allied Printing Trades council last night the appointment of William H. Minot as superintendent of the city printing plant by Mayor Hibbard was severely criticised. A vote was taken protesting confirmation of the appointment, it being claimed that Minot is not a practical printer or a union man.

Pair of Yeggmen Sent Away

Boston, Jan. 23.—Joseph Sheehan and Richard Mack, both having several aliases, charged with breaking into the Ponkapoag postoffice at Canton, were found guilty after the jury had been out five hours. They were at once sentenced to four years and six months at hard labor in the federal prison at Atlanta.

Will Take Up Ghost Problems

Worcester, Mass., Jan. 23.—Clark university will investigate ghosts. President Hall states he will favor the acceptance of the bequest of $5000 from the late Joseph A. Battles for the study of spirits and unusual psychic phenomena. Hall says the money can be put to good use along these lines.

Life Sentence For Mahan

Bennington, Vt., Jan. 23.—Alfred Mahan of North Bennington, who was convicted of murder in the second degree for the killing of his 4-year-old niece, was sentenced to life imprisonment at hard labor at Windsor prison. He was removed today to Windsor to begin his sentence.

Serious Charge Against Doctor

Chicopee, Mass., Jan. 23.—Dr. H. G. Forbes of this city was arrested on a charge of causing the death by a criminal operation of Mary L. Chapin of Holyoke. The Chapin woman died yesterday afternoon. Forbes was held in $10,000 for his appearance in the police court.

Writer Guilty of Libel

Cologne, Jan. 23.—Dr. Carl Peters, who was at one time governor of German East Africa, won his libel suit against R. Von Bennigsen, the Berlin correspondent of the Cologne Gazette. Peters charged that he had been libelled by certain published statements alleging misconduct on his part in Africa. Von Bennigsen was sentenced to pay $25 damages and all the costs of the suit, or go to jail for twenty days.

Actress and Lawyer Wed in Hospital

Chicago, Jan. 23.—Sarah Truax of Chicago, an actress, and Charles S. Albert, an attorney of Minneapolis, were married yesterday afternoon at a hospital here, where the bride is to undergo an operation today. The marriage was to have taken place last week, but was postponed on account of the illness of the actress.

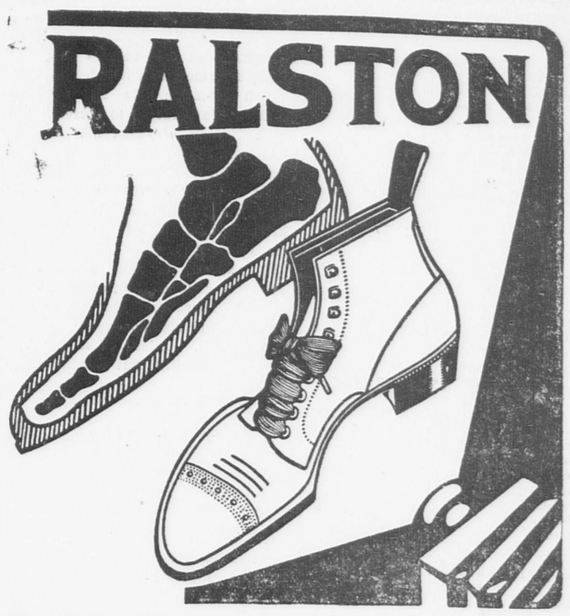

Won't Recognize Mulai Hafid

Madrid, Jan. 23.—The Spanish representatives in Morocco have been instructed to recognize Abd-el-Aziz as the only sovereign. Spain regards Mulai Hafid as a pretender.

The Observations In the Daily Walk

Carlton McNeil is enjoying a vacation.

The boarding-houses at the Point are beginning to fill up.

The "Minute Men" are rehearsing for their spring entertainment.

Miss Millie Hurtle of Bromfield street spent week end at Bath, Maine.

The Old Farmer's Almanac predicts considerable snow during February.

Clara Buzzell has recovered from her recent illness and is at home again.

Miss Sarah Jordan of Brookline is the guest of Mrs. A. Morse of Blake street.

Rev. A. R. Atwood speaks at the United Presbyterian church this evening.

Invitations are out for the annual banquet of the Priscillas at Quincy Point.

The B. T. club met Thursday afternoon at the home of Mrs. A. E. Linnell on Davis street.

Sixteen young people from Ward One assisted last week in a gospel concert at Snug Harbor.

Work is picking up at Fore River and in a few weeks, we are told, many men are to be hired on.

Fred J. Gross of Auburn, Maine, visited his mother, Mrs. Fred A. Gross of West Elm avenue, this week.

Mrs. Mary Gross of West Elm avenue leaves Friday to visit her sister, Mrs. Robert Cobb, at Providence.

Mr. Patterson has leased the "Crescent" hotel and opened it up for lodgers.

Wedding bells rang merrily on Wednesday evening in the vicinity of Broadway.

Five young people were admitted into probation at the Point church, last Sunday morning.

"The Army of the Unemployed" is the topic of the sermon at the Point church, Sunday morning, Jan. 26.

"Two Steps into the Christian Life" if the subject of the sermon at the Washington street Congregational church on Sunday evening.

Mrs. Maria Hickok of Somerville and Miss Minnie Freeman of Boston were the guests last week of Mrs. E. A. Snow of West Elm aveuue.

The parents of Charlie Knester, Edison Street, gave a pretty party in his honor on Wednesday, in celebration of his seventh birthday.

Miss Simons and Mr. Mulligan, who have been visiting Mr. and Mrs. Charles Gutterson of West Elm avenue, returned to Ogdensburg, New York, on Tuesday.

Miss Eva M. Brown was elected one of the vice presidents, and a member of the executive committee, of the Massachusetts Total Abstinence Society at its annual meeting on Wednesday.

From the returns from tickets sold for the second annual ball of the Quincy Police Relief Association tomorrow evening it promises to be largely attended, as well as a most successful affair.

C. H. Tower & Co. have completed their new upholstery shop at 182 East Howard street which is the the most commodious and up-to-date in the city. There new telephone number is 372-1.

Confirmation by Bishop. Lawrence

Bishop Lawrence made a visitation to St. Chrysostom's church at Wollaston on Wednesday evening and administered the rite of confirmation to a class of eight. There was a very large attendance at the service and the Bishop's sermon was listened to with marked attention. He showed how check in life tendered to increase the worth of man drawing his illustrations from St. Peter and his denial of Christ. St. Peter wanted to follow Christ, but soon after he saw why Christ would not allow him to do this. Christ checked him and the following events proved the necessity.

The address to the confirmation class was confined to the word "Increase." There must be increase in godliness, in righteousness and in spiritual life. Unless these be thus increased the life that should be is absent.

Church Supper At Atlantic

The Ladies' Benevolent Society of Memorial church gave one of the best attended suppers of the season in the the church vestry Wednesday evening. Mrs. William Cummings was chairman of the committee and was assisted by Mrs. Frank Jenkins, Mrs. Roger Wilde, Mrs. Wilson Hammond, Mrs. Charles Safford, Mrs. Henry Kolseth, Mrs. E. M. Chase, Mrs. John Welch, Mrs. Charles Newcomb and Mrs. Elijah Hall. Those who waited on table, under the direction of Mrs. F. G. Osgood, were Miss Louise Wilde, Miss Ann Upton, Miss Florence Cummings, Miss Verna Harding and Miss May Young.

Wedding At Quincy Point

A very pretty wedding took place Wednesday evening at Washington street hall, when Miss Mary C. Sherriff daughter of Mrs. A. P. Sherriff, became the bride of Mr. Robert Falconer, a popular young man of Quincy Point. The bride was gowned in white silk cut princess en traine, and carried bride roses. She was attended by Miss Minnie M. Doig of Hyde Park, who wore white embroidered gown, and carried pinks. Mr. William Gillis of Quincy acted as best man. There were three flower girls Ina Sherriff, Amy Homer and Elizabeth Whitman. Rev. A. R. Atwood performed the ceremony. A wedding supper was served. The gifts were many and beautiful. Mr. and Mrs. Falconer will make their home at Broadway, Quincy Point.

King's Daughters Entertainment.

A large number enjoyed a very pleasing entertainment at Bethany chapel Wednesday evening, given by the Entertainment Ten of the King's Daughters. Mrs. Jennie Hocking Hunt and Mrs. A. R. Moulton contributed a piano duet, Miss Ruth Packard a pleasing violin solo, Miss Helen Drinkwater of Braintree delighted with her vocal numbers, and the readings of Miss Jennings are always popular. Chafing dish refreshments were served to all, and home-made candies were for sale.

TODAY'S COURT.

George Baldwin was arraigned for neglecting to support his children at Quincy. Case continued until Feb. 29.

Thomas Buckley was fined $10 for drunkenness at Quincy.

The prayer meettng on Sunday evening by the Christian Endeavor society of the Park and Downs Congregational church will be conducted by Mrs. MacDonald. She will have for her subject, "How man speaks to God."

"Ave Marie" was played on the violin by Lars Fjallback last Sunday morning at the Point church, and in the evening there was a cornet solo "The Holy City."

New Men's Club At Atlantic

Rev. Henry A. Coolidge has organized a men's club in Atlantic which bids fair to rival the popularity of the old Social club. Unlooked for enthusiasm has been shown in this new venture, and if the vigorous interest continues it will sweep up every male in town, and swell the treasury to overflowing. All men in Atlantic are elegible. After the supper on Wednesday evening, this new club held a meeting in Memorial church and elected the following officers: President, Frank Jenkins; vice president, William Cummings; secretary, Fred Burditt; treasurer, Mr. Arthur. The board of directors includes the above officers and Charles Newcomb, Harry Kolseth and Frank Thomas. Plans were made for the winter's work and a goodly number were enrolled. The regular meetings will be the third Thursday of each month.

Two Depots Reported Entered

Burglars were about Atlantic and Montclair Wednesday night, but from all that can be learned no great haul was made, and the breaks were evidently the work of boys. The places entered were the railroad depots at these two places.

At the Montclair depot entrance was had by smashing a window. The ticket rack was forced open and a number of tickets taken. Just how many has not been determined as yet.

The police after investigation are inclined to believe that the Atlantic depot was not entered at all. There was a window that had been broken, but the ticket agent reports that was done sometime Wednesday. He says, however, that while he was absent from the depot Wednesday afternoon, between 4 and 6 o'clock, some one stole a gum slot machine.

January Sprinkle.

It is a very unusual thing to see a street watering cart in use in January yet such was the case Wednesday. The high wind during the afternoon raised a blinding cloud of dust, so much so that the watering cart was ordered out to sprinkle the streets in City Square The merchants appreciated it.

The members of the house and senate from the six south-eastern counties of the state met this week and oranized with the choice of Senator Garfield of Brockton, as president, Representative Mayhew of West Tisbury, secretary, and Representative Worcester of Weymouth, treasurer.

But two more days are left to take advantage of the grand furniture sale at W. G. Shaw's in City Square. The goods must be sold and the prices are such that are seldom if ever equalled for their lowness.

COMMISSIONERS' NOTICE.

ESTATE of EDWARD L. ROBBINS, late of Quincy, in the County of Norfolk, deceased, represented insolvent.

The subscribers, having been appointed by the Probate Court for said County, commissioners, to receive and examine all claims of creditors against the estate of said Edward L. Robbins, hereby give notice that six months from the thirteenth day of November A D., 1907, are allowed to present and prove their claims against said estate, and that they will meet to examine the claims of creditors at the office of Rufus B. Tobey, No. 701 Tremont Building, Boston, on the fifth day of February next, at ten o'clock in the forenoon.

CHARLES W. BAILEY,
HERBERT B. BAILEY,
Commissioners.

January 20th, 1908. 3t--23, 30, 3

Commonwealth of Massachusetts.

NORFOLK ss. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

JULIA A. SMITH,

late of Quincy, in said County, deceased, intestate:

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Charles M. Smith of Quincy, without giving a surety on his bond.

You are hereby cited to appear at a Probate Court to be held at Quincy, in said County of Norfolk, on the twelfth day of February, A. D. 1908, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, James H. Flint, Esquire, Judge of said Court, this twenty-second day of January, A. D. 1908.

JOHN D. COBB, Register.

Grocers' Banquet.

Senator C. F. Jenney of Hyde Park and Rev. C. F. Hill Crathern of Braintree were among the guests at the annual meeting of the Old Colony Grocers' and Provision Dealers' Association at the United States Hotel Wednesday evening. At the business meeting Henry W. Mansfield of South Braintree was elected president. A banquet followed the election.

The association put itself on record to fight the granting of liquor licenses to grocers.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

—In speaking of industrial training at a recent meeting, our secretary of the State Board of Education is reported to have said, "We have an overdose of book learning without any actual practical training." The secretary was speaking on general principles as schools are run today. Another leading educator has said, "Too heavy at the top." The tendency is to crowd the scholars through the lower grades and rush them to the High school, and at the end of four years they know what?—Weymouth Gazette.

—Senator Farley of Alabama shows by statistics that the use of intoxicants by the negroes is the cause of much crime, and that is, in a large manner, why the South is now going on the water wagon.

Houghs Neck Elects a Council

A largely attended meeting of the Houghs Neck Associates was held Wednesday night at Pandora hall, Henry French, presiding. Several were admitted to membership.

It was voted to appoint a council of two members from each of the five districts, who would consider the needs of that district and report to the whole committee.

This council is made up as follows:

District No. 1—O. G. Fosdick and Ernest Norteman.

District No. 2—Hiram Dell and Edward Barrett.

District No. 3—W. J. Hudson and Albert Acorn.

District No. 4—Waldo Hutchins and Addison Hammond.

District No. 5—Harry Greenlaw and Joseph Wall.

Large committees were appointed to consider the following subjects:

To see the gas company in regard to extending its mains to Houghs Neck.

For the acceptance of new streets.

To petition the City Council for an appropriation of $1000 to abolish the liquor clubs at the beach.

On information.

On school accommodations at the beach.

On watering the streets during the summer months.

It was also voted to hold a ladies' night on Feb. 22.

There was music and refreshments at the close of the meeting.

Norfolk County Probate Court

The following business was transacted before Judge Flint at the Dedham session of the Norfolk county probate court on Wednesday:

Wills allowed—On the estates of Andrew J. George of Brookline, Abby Chapman of Quincy, Bartholomew Collins of Avon, William H. Derry of Foxboro, John Mackenzie of Dover, P. Howard Mead of Sharon, Anna M. Mead of Dedham, Sarah McEwan of Walpole, Albert A. Folsom of Brookline, Elizabeth S. Folsom of Brookline.

Administrations granted—On the estates of Benjamin F. Taylor of Hyde Park, Margaret M. Ward of Milton, Margaret C. Farren of Weymouth, George E. Henry of Brookline, Catherine Neagle of Quincy, Mary Woodick of Quincy, Sarah Johnson of Needham, Charles Harrison of Foxboro Rebecca T. Wilkins of Braintree, and George W. Farren of Weymouth.

Several accounts were allowed and other business transacted.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

1435 Hancock Street, Quincy, Mass.

Newsy Budget From Shipyard

President Lalane in his annual report to the National Board of Trade at Washington this week urged the necessity of some form of a ship subsidy which will retain the more than $200,000,000 which is paid annually to foreigners to carry our commerce. He again advocated uniform bills of lading, and the making of every consulate a modern business agency.

The report of the fifteenth annual meeting of the Society of Naval Architects and Marine Engineers held in New York, is contained in the January issue of the International Marine Engineering. The meeting was called to order by president Francis T. Bowles, president of the Fore River Shipbuilding Company. The secretary-treasurer, in his report on the condition of the society at the close of the fiscal year, Oct. 31, 1907, showed a total membership of 801. By the admission of twenty-seven new members the present figure becomes 828. From the financial point of view, the society is in a flourishing condition. receipts during the year having aggregated $10,912. The present resources of the society, after writing off doubtful accounts, aggregates $26,-694, with no liabilities against it. The exercises terminated in the annual banquet at Delmonicos.

A list of the papers read during the meeting which consumed two days, is given:

An experimental investigation of steam lines around ships' models, by Naval Constructor D. W. Taylor.

Some experiments on the effect of longitudinal distribution of displacement upon resistence, by Professor Herbert C. Sadler.

Further tactical consideration involved in warship design, by Commander A. P. Niblack, U. S. Navy.

Submarines of battleship speed, by Mason S. Chace.

Motor boats for naval service, by Naval Constructor L. S. Adams, U. S. Navy.

High speed motor boats for pleasure use, by Henry D. Sutphen.

Some observations on motor-propelled vessels, and notes on the Bermuda race, by Wm. S. Stearnes.

Two new revenue cutters for special purposes, by C. A. M'Allister, Engineer-in-chief, U. S. R. C. S.

Test in Steamship Governor Cobb, by Professor W. S. Leland and H. A. Everett.

Appliances for manipulating lifeboats on sea-going vessels, by Axel Welin.

The transportation of refrigerated meat to Panama, by Roland Allwork.

Two instances of unusual repairs to vessels, by Assistant Naval Constructor W. B. Ferguson, Jr.

Wooden sailing ships, by B. B. Crownshield.

Some early history regarding the double turreted monitors Miantonomoh and class, by Wm. T. Powell.

All items concerning personals, sports, etc. in which shipyard men are interested, which are left with or forwarded to our correspondent, George H. Corliss, will be given prompt attention.

A Washington dispatch to a Boston paper says: Because of the disturbed conditions in Hayti, and as a guarantee for the protection of American interests, it has been decided to dispatch the cruiser DesMoines to that island with headquarters in the vicinity of the troubled section. The DesMoines will reach Port-au-Prince about Feb. 1. She is now on her way from Boston to New York, and will take aboard her regular supply of ammunition at the latter place and at Norfolk on her way to Hayti. The Des Moines is in command of Capt. J. M. Potts and was built at Quincy.

C. H. Tower & Co., of Quincy Point have the contract for the upholstery work on the United States scout cruisers Salem and Birmingham built at the Fore River.

WORST OF SEASON

Heavy Snowfall And a Gale Make Today Decidedly Wintry

Quincy is experiencing today the worst storm of the season. The weather was threatening all Thursday afternoon and in the early evening there was a little fall of fine snow. The wind crept around to the northeast, and at 10.30 it blew hard. Then it began to snow, and the wind increased in violence. In the middle of the night it blew a gale. The snow was very fine yet it made considerable so that sunrise saw the ground covered with a white mantle.

The snow did not fall level but drifted in places. This storm continued all the morning, the low temperature and high wind making the snow cut like a knife as it struck the face. It was particularly disagreeable being out, especially if the wind had to be faced.

Traffic on the steam and street cars was but little delayed up to noon. All of the trains were a few minutes late both inward and outward. On the street railway all lines are open and cars are being operated on nearly schedule time.

The city snow ploughs got out fairly early, and sidewalks in business section were in fairly passable condition. The wind, however, blew the snow back almost as fast as it was ploughed off. On the side streets the sidewalks were not cleared as promptly.

Reports from Houghs Neck are that the storm is very severe, and the wind is blowing a gale. No damage has been done, however, other than to blow down a sign from one of the buildings. Street car service is reported as a little irregular.

Whether it storms or not; whether 20 or 10 or 5 of the Daily Ledger employes are able to get to the office of publication, the paper must appear, and it does today; and it is newsy too.

Appointment to Police Force

Mayor Shea has appointed Henry F. Riley a member of the permanent police force, to fill the vacancy caused by the death of Officer Patrick J. Kelliher.

Officer Riley was born in Shercock. County Cavan, Ireland, June 6, 1878. He came to this country with his parents when a boy, and at the age of 6 years entered the Willard school. After completing his education he learned the trade of a stone cutter and this business he followed up to the present time.

He did some special police duty in 1904 and 1905, and on Jan. 22, 1906 was appointed a member of the resere police and has done more or less police duty ever since. He is a member of the St. Mary's C. T. A. & M. R. society.

Will Open Tomorrow.

There will be many brilliant gatherings during the coming National Motor Boat and Engine Show which opens at Mechanics Building Saturday. The management has arranged for special nights during this show and men prominent in army and naval circles, political and social life, and members of yachting organizations, will be conspicuous in the throngs attending the show.

Every indication points to an exhibition which will prove a revelation when compared with the so-called Motor Boat and Engine Shows of the past. It will be a marvelous show in many respects, for it will not only tell the startling story of the tremendous progress that has been made in this great industry which is now on a par with that of the automobile trade, but it will be a most interesting and instructive exhibition for all classes.

Bounty Removed On Seal Tails

The Committee on Fisheries and Game of the Legislature, after a one-minute session on Thursday, decided to report a bill abolishing the $3 bounty on seal tails. It will probably be rushed through the Legislature today.

Quincy has been one of the chief victims of the fraud practiced by the Penobscot Indians, having paid the following amounts during the last three years:

In 1905,	$714.00
In 1906,	1,791.00
In 1907,	594.00

The Herald says, it has cost the state $15,000 to learn the co-relation of a Penobscot Indian and a seal's tail.

The hearing before the committee on fisheries and game, which was held Thursday developed the fact that "for ways that are dark and tricks that are vain" the heathen Chinee had nothing on the innocent sons of the red warrior from down Penobscot way.

The figures provided by County Commissioner Moody Kimball of Essex county showed the progressive nature of the Indians' cupidity, for in 1904, when the bounty was new only $28 were paid out in that county. In 1906 the sum had grown to the comfortable total of $987, while in 1907 the full significance of the "good thing" had dawned on the Penobscots and they reaped a harvest of $2,484 in Essex alone, while they caught Norfolk, most of it secured in Quincy, for $3,000.

Suffolk, which purchased a large assortment of seal tails in the same year, provided no schedule, but the Indians enjoyed their stay in Boston, as they have repeatedly told the authorities since nine of them have been under arrest for perjury.

It also developed at the hearing that the Indians had a very large field for their enterprise in the seal industry, for while Massachusetts was buying the tails, the state of Maine was equally generous in the matter of bounty, but preferred the nose. As a result the Indians divided their forces, one partner coming to Massachusetts with the tail while another remained at home and grew wealthy on the nose.

One seal that figured in the Massachusetts graft furnished 131 tails, each of which brought $3.

Representative Fogg of Newburyport regaled the board with the methods of the Indians, who, he said, made the tails so repulsive before bringing them to the town and city clerks that few there were who would look at them, but insisted that they be removed and destroyed. Most of the clerks couldn't pay the money out fast enough to get rid of the Indian and his odorous collection.

It is estimated that 21,000,000 acres are available for rice growing in China.

Crow Dinner For a Lawyer

One of the officers of the district court, a member of the Massachusetts Bar Association, and two scribes, sat down to a crow dinner on Thursday. That is, it was crow for the member of the bar. The gusto with which he tackled that crow gave the impression that he had been there before.

The dinner was served at Thompson's restaurant in City Square and it was rather surprising that any restaurant in Quincy could put up such a dinner. The menu included soup, fried scallops on toast, hot roast chicken, mashed potato, cranberry sauce, sliced tomato on lettuce, celery, individual plum pudding, ice cream, coffee, cake, crackers and cheese.

It was well cooked and well served. Speech making was not on the menu yet other diners looked with some amazement at the party and wondered if a plot was being hatched to blow up City City Hall or to land some office seeker in a warm chair for the year.

Time will tell, and the first of the month will tell who has to pay for the next dinner, and who it will be that has to eat crow.

Dedication at The Pond Home

On Saturday, Feb. 1, the new addition to the Pond Home will be dedicated with appropriate services. Open house will be held from 1 to 6 P. M. Train leaves Boston South Station at 12.27 P. M. for Pondville. All are invited to visit the beautiful home prepared by the King's Daughters where many of the homeless, worthy aged people of Norfolk Country are given refuge and rest.

—Another street railway, the Lexington & Boston, has increased its fare to six cents.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St. Quincy.

Maiden Speech of Cong. O'Connell

Hon. James F. O'Connell, the Congressman from this district made a hit in the House the other day. In its Washington gossip the Herald says:

When, the other day, Representative O'Connell of Boston, broke all records by making two maiden speeches in one afternoon, the House of Representatives was treated to a new sensation. It was brought about in this way. A friend of the new congressman some time ago, in anticipation of his approaching entrance into the Congressional Record took him aside and said:

"Now, look here, Congressman, one of the most important things about making a speech in the House, especially if you are a newcomer, and haven't a reputation to attract the attention of your colleagues is to speak up pretty lively and make yourself heard above the din which almost always prevails. What you want to do when you come to the bat is to fill your lungs with air and let her rip."

So when the congressman arose to speak he took a deep breath and "let her rip." He could have been heard over in the Marine Hospital, two blocks away, but he made a hit, and everybody in the House heard him. Most of the freshmen whisper their maiden speeches and get all mixed up, but O'Connell showed that he knew the value of a good pair of lungs and was able to handle them. The next time he makes a speech the other members won't go into the cloakrooms to tell stories until he has had his say. They will stay and listen to him, for he made good.

Sub Committees of School Committee

Dr. Hunting, chairman of the School Committee, has appointed the following standing sub-committees for 1908:

High school—Hunting, Curtis and Newcomb.

Adams—Miller, Newcomb and Duggan.

Coddington—Bushnell, Miller and O'Hara.

Cranch—Miller, Owens and Hunting.

Gridley Bryant—O'Hara, Miller and Owens.

John Hancock—Wadsworth, Bushnell and Owens.

Lincoln—Wadsworth, Owens and Hunting.

Massachusetts Fields—Curtis, Duggan and Bushnell.

Quincy—Duggan, Curtis and Newcomb.

Washington—Newcomb, O'Hara, and Bushnell.

Willard—Owens, Hunting and Miller.

Just Jotted Down By Ledger Men

Wintry.

No school today.

It would not be a winter without one or two snow storms like that today.

The Finance Committee of the City Council met Thursday evening.

The street watering cart was out on Wednesday, and the snow ploughs today.

There will be a meeting of the members of the Point church, this evening at 8.15 in the vestry.

The Ladies Aid met Monday at the home of Mrs. T. Lincoln, Jr., and planned for the coming fair.

William B. Rice was this week elected one of the directors of the Boston Safe Deposit and Trust Co.

Mr. Gardner has moved his family into 154 East Howard street and he is working for the Tower Upholstery Co.

The Quincy High basket ball team, with an unbroken record, will today meet the Weymouth High team which has won seven consecutive games. Who will win?

Not just such a night as the Quincy Police Relief Association would have selected for their annual concert and ball, but over 1,000 tickets have been sold and undoubtedly there will be a large attendance at Music hall.

CASE OF THE RELIEF

Controversy Over Hospital Ship Gets Before Congress

ARGUMENT OF BROWNSON

Officers of Merchant Marine Not as Capable of Handling Government Ships as Naval Officers--Rixey's Attitude Shown in Correspondence

Washington, Jan. 24.—The speaker laid before the house of representatives the response of Secretary of the Navy Metcalf to the resolution introduced by Representative Gill (Md.), calling for the correspondence relative to the designation of staff officers to naval commands. The correspondence is voluminous, dating back to 1904.

The new matter in the correspondence, about which congress particularly desires information, consists of a long memorandum prepared by Admiral Brownson, then chief of the bureau. This is dated Jan. 18 last, thereby anticipating the admiral's resignation by nearly a month, and in it Brownson submits the reasons why, in the opinion of the bureau of navigation, the department should reverse its decision to commission the Relief in command of a medical officer.

Admiral Brownson holds that, whether hospital ships or not, such vessels as the Relief must accompany a fleet to fulfill their purposes, and to do so must be navigated and commanded in the same seamanlike manner required of all vessels to assure safety on the high seas. There is nothing in the training of medical officers, the admiral contends, which fits him for such command. It requires just as skillful a navigator to pilot a hospital ship as it does to pilot a warship, the difficulties being wholly independent of the internal arrangements of the vessel or the uses to which she may be put.

Telegraph operators or cable engineers are not put in command of cable ships, nor are postmasters put in command of mail steamers. A battleship can with propriety be called a floating fort, but artillery officers are not fit to command them. Long experience with merchant crews and officers on board naval colliers, tank ships, transports, supply vessels, etc., show, he explains, that officers of the merchant marine do not perform this duty as efficiently as naval officers do.

Admiral Brownson cites his experience while he was in command of the Asiatic station to support this assertion. He there thoroughly tested ships with full merchant crews, with full naval crews, and with merchant crews and officers and one line officer of the navy in command. He found that the last-mentioned system was the least efficient.

Notwithstanding the best efforts of the navy department to sharply define the functions of the officers, complications constantly arose regarding navigation and administration, and Brownson cites such instances as when the Iris was run ashore and the Nanshan was the scene of a disgraceful disturbance in the harbor of Hong Kong as the result of a clash of authority.

If a hospital ship were merely a floating hospital, securely moored and not called upon to move from place to place, it would, perhaps, not be well, in Brownson's opinion, to have any sea line officers on board. Besides the navigation of the vessel and administration thereof, the discipline of the crew must be maintained and there can be no complete control over the personnel on board a hospital ship when a part of it is amenable to one set of laws and the other to the navy regulations—the officer in command being an officer who by law is forbidden the right of exercising military command except in his own corps, and the master of the ship being a civilian with no legal right to control enlisted naval men.

Admiral Brownson next enters into an analysis of the statutory law bearing on this subject, quoting several acts, all of which, he declares, are prohibitive of the full exercise of command by medical officers. He concludes his memorandum by summarizing his objections to the proposed order in the case of the Relief.

The last chapter in the correspondence, a new one also, is a reply by Surgeon General Rixey to Brownson's memorandum under date of Jan. 22. Rixey denies that he ever asked that medical officers be entrusted with the navigation of hospital ships. On the contrary he asked, he says, that the bureau of navigation select a sailing master and crew to navigate the ship, all orders to and from the sailing master to pass through the senior surgeon "who will be in command."

The Relief, as an army hospital ship, was commanded by a medical officer, and there can be no question, he says, but that naval medical officers are as well qualified.

The surgeon general says that neutrality of the hospital ships demand that line officers and fighting crews be not put aboard. He contends that a merchant master and merchant sailors are as efficient in pilotage and navigation as line officers and a fighting crew, "and," says the surgeon general, "a naval crew who would wish to be on a naval hospital ship when there was fighting to be done, would, to say the least, be most unsatisfactory as naval men of the fighting branch."

He cites the army transport service commanded by civilians as notably efficient as concerns administration. Naval medical men, he points out, met the same resistance from the line in their claiming the right to command hospitals on shore, yet, since 1904, when this question was settled in favor of naval officers, "this sustaining of the bureau in regard to command in the shore hospitals has been most satisfactory."

Attention is called to the fact that the Solace destroyed her claims to neutrality on several occasions and even laid claim to prize money.

Sophs Descended Upon Freshies

Philadelphia, Jan. 24.—An effort on the part of the sophomores of the University of Pennsylvania to break up the annual class dinner of the freshmen here precipitated an incipient riot in a fashionable restaurant, in the course of which nearly $500 worth of damage was done by the students. A riot call was sent in and ninety policemen were hurried out to quell the disturbance. A number of students were beaten by the police and half a dozen were arrested.

Deserter From Foraker Ranks

Cincinnati, Jan. 24.—Senator Foraker says that the contest for delegates to the Republican national convention will be continued, even though some of his best known supporters had been reported as deserting him. This statement was made because of the report that ex-Lieutenant Governor Harding, one of his warm personal friends, had announced himself in favor of Taft, although heretofore strongly supporting Foraker for the nomination.

Taft Is For Square Deal

Washington, Jan. 24.—Secretary Taft is carrying out the policy in New York that he has directed his managers to follow in other states, where there are candidates for the Republican nomination for the presidency. In a letter to Chairman Parsons of the Republican county committee of New York Taft makes it clear that he does not want his friends to prosecute a campaign in New York as against Governor Hughes.

Alleged Conspirators on Trial

Havana, Jan. 24.—The trial of General Parra and others implicated with him in the alleged conspiracy against the government has begun here. Testimony tends to show that Parra's intention was to blow up buildings, massacre the Americans and overthrow the provisional government. The conspiracy embraced members of all political parties, the color line being clearly marked.

Mrs. Albert's Recovery Predicted

Chicago, Jan. 24.—Mrs. Charles S. Albert, formerly Miss Sarah Truax, the actress, underwent a successful operation for appendicitis at a hospital here yesterday. Mr. and Mrs. Albert were married in the hospital Wednesday. Physicians assert that Mrs. Albert's condition is satisfactory and predict her speedy recovery.

Mail Steamer Probably Lost

Junfau, Alaska, Jan. 24.—It is feared that the mail steamer Fox has been lost, with Captain States and Charles McConnaghy, owner and engineer of the craft. The Fox left Winham Bay Jan. 14 for Kake, fifty miles away. In spite of a thorough search nothing has been heard from the boat and those who were aboard.

Employes Remembered In Will

Philadelphia, Jan. 24.—Under the provisions of the will of John A. Betz, the brewer of this city who died recently, each of his numerous employes is given an amount equal to a week's salary. The estate, which is valued "at $200,000 and upwards" by the executors, is devised to the family of Betz.

Amassed and Lost Fortune

Stockton, Cal., Jan. 24.—Alfred W. Dennett, who amassed a fortune from a chain of quick lunch restaurants extending from New York to San Francisco, died here. Through unfortunate investments he failed in 1899 for a large amount. Dennett was 72 years old and a native of Topsham, Me.

May Turn Down Czar's Scheme

St. Petersburg, Jan. 24.—The conflict between the emperor and the duma over the naval program, which entails an expenditure of $500,000,000, is steadily developing in a direction unfavorable to the realization of the emperor's ambitions, the scheme having met opposition in unexpected quarters.

Vicars Was "Careless"

Dublin, Jan. 24.—The commission which has been investigating the disappearance of the jewels from Dublin castle still withholds its report, but it is stated on good authority that the government has decided to dismiss Sir Arthur E. Vicars for carelessness in the custody of the regalia.

Got Off With Light Fines

Parkersburg, W. Va., Jan. 24.—Two contracting firms recently indicted by the federal grand jury for violating the federal eight-hour law by working employes on dam construction over eight hours a day pleaded guilty before Judge Dayton and were fined $15 each.

Nevada to Have State Police

Carson, Nev., Jan. 24.—The senate, in committee of the whole, discussed the state police bill and unanimously recommended its passage. The bill was ordered enrolled. The measure calls for an appropriation of $150,000.

The Weather Forecast

Almanac, Saturday, Jan. 25.
Sun rises—7:05; sets—4:48.
Moon rises—11:51 p. m.
High water—3:45 a. m.; 4:15 p. m.

It will be fair in New England, except snow in extreme southeast portion; much colder, except in eastern Maine and northern Vermont.

THREE ON EACH SIDE

Limit Placed on Expert Witnesses In Thaw Trial

ALIENISTS GIVE TESTIMONY

Thaw Told Them He Was a Guest at Dinner Party Given by White--His First Glimpse of Evelyn Nesbit Is Also Described

New York, Jan. 24.—When an early adjournment of the Thaw trial was taken yesterday to enable the attorneys for the defense to prepare their long hypothetical question covering all the evidence in the case, there seemed no more doubt that next week will bring the second hearing to a close. Justice Dowling has decided to limit each side to three expert witnesses, and two of the defense's trio were heard yesterday as to the mental and physical examinations they made of Harry Thaw in the Tombs prison after his arrest for killing Stanford White.

No experts for the state have yet appeared in the courtroom and Mr. Jerome has not indicated how he will combat the testimony of the alienists in the employ of the defense. All of the doctors who served Jerome at the first hearing are under subpoena by the defense, not as paid experts, but as possible witnesses in sur-rebuttal of any action the district attorney may take in rebutting the plea of insanity which has been built up.

Justice Dowling conferred with all the attorneys interested in the case before announcing his decision to limit the amount of expert testimony to be placed before the jury. Last year the defense offered six experts to answer the hypothetical question, but these were overwhelmed, numerically at least, by the nine brought forward by the district attorney. The effect of Dowling's decision will be materially to shorten the case. The defense should conclude its evidence today unless Jerome carries his cross-examinations beyond the limit of his present intention.

Dr. Wagner of Binghamton, N. Y., and Dr. Evans of Morris Plains, N. J., both superintendents of state institutions for the insane, were on the stand yesterday. In detailing their conversations with Thaw in the Tombs they brought out more clearly two points which were glossed over last year.

The first of these was that Thaw told them in 1900 or 1901 he was a guest of Stanford White at a dinner party in the Madison Square garden tower. He left early and was accused of breaking up the party. Some of the guests did not eat much, Thaw declared, and the young woman who sat next to him declared the food was bad.

Thaw also told the physicians about the first time he saw Evelyn Nesbit. It was in 1901 in front of a theatre. "A pure-looking girl," he described her. When he asked who she was he was told her name was Nesbit and that "she belongs to Stanford White." Thaw managed subsequently to meet the girl at an after-theatre supper in company with several other stage persons.

Prominent Politician In Contempt

St. Paul, Jan. 24.—Federal Judge Morris sentenced Sherman S. Smith, an ex-member of the legislature and a well known Minneapolis politician, to serve three months in jail for contempt of court. Smith was charged with trying to influence two jurors in a case involving alleged misuse of the mails. Sentence was stayed for thirty days and the case was appealed.

Historic Fortress Undermined

Havana, Jan. 24.—A survey of Moro castle by American engineers shows that the historic fortress has been seriously undermined by the effects of a storm on Jan. 12. The seaward batteries are threatening to fall, and the engineers declare that extensive repairs are necessary at once to prevent the collapse of the whole seaward structure.

Death of Composer MacDowell

New York, Jan. 24.—Edward A. MacDowell, one of America's foremost composers, died here last night. He was 46 years of age. Death was due to a nervous affection. In the spring of 1905 MacDowell suffered a nervous collapse, from which he failed to recover. During the past year his intimate associates realized that the end was not far off.

Balloon Experiments In Navy

Washington, Jan. 24.—Some experiments with a dirigible balloon are in contemplation by the naval autnorities at the navy yard here during the coming spring. Naval experts are of the opinion that after all the balloon or airship will prove of greater value to the fleet than to the army in actual warfare.

Governor Will Push Charges

Lansing, Mich., Jan. 24.—Governor Warner has ordered that the hearing of the charges which he preferred against State Treasurer Glazier of malfeasance in office and gross neglect of duty must proceed, regardless of the fact that Glazier has presented his resignation

Officer Abused His Authority

Potsdam, Jan. 24.—The military court of honor which tried General Count Von Hohenau and Major Count Johannes Lynar found Lynar guilty of abusing his authority on six counts. He was sentenced to fifteen months in jail. Von Hohenau was acquitted.

HEALTH *In Childhood*

means health in later years. As the child builds the adult shall be. Weakly, neglected children do not grow to vigorous man and womanhood. Childhood complaints yield easily to proper treatment—*but they do not correct themselves.* The weak stomach, pallid complexion, listless bearing, irritable temper, disturbed sleep, speak plainly of the ailments common to children, most of which have their origin in disordered stomach and bowels.
The greatest safeguard to children's health is

Dr. True's Elixir

For indigestion, irritability, constipation, poor appetite, peevishness, fevers, stomach and liver troubles and worms it is unequalled. Parents of two generations have relied upon it. It restores sound, vigorous health when nothing else will. First it removes the cause, then adds nature to repair the damage; builds anew the waste, enriches the blood and sends a glow of health and vigor to every organ and tissue of the body. At all druggists, 35c. Write for free booklet: "Children and Their Diseases."

MANY INFLUENTIAL PEOPLE ADOPT NEW THEORY

Statements from Followers of Cooper Obtained Recently in Various Cities.

A number of statements from prominent people located in various cities where the widespread discussion over L. T. Cooper's new theory regarding the human stomach has recently waged, give an idea of the intense interest the young man has aroused during the past year. The statements are as follows:

Mr. C. D. Mitchell, of 2412 Avenue C, Birmingham, Ala., has this to say with regard to his belief in Cooper's medicine: "I have been troubled with indigestion and stomach trouble for the past year. I had heartburn, bloating after eating, gas on stomach and bowels, palpitation of the heart, pain in the lower part of my back, and various other symptoms, and was a victim of much distress. I tried many remedies, but received little or no benefit from them. I was advised to try the Cooper preparations, and did so. In one week's time I was improved wonderfully—the first relief I had been able to obtain. Mr. Cooper's medicine does all he claims for it."

Mr. J. O. Spradling, of 705 South Tejon Street, Colorado Springs, Colo., says: "I was troubled with indigestion for two years. It caused me a great deal of suffering and misery. I did not dare to eat meat at all, and everything I did eat soured on my stomach. I tried various remedies, but found no relief. Three months ago I started taking Cooper's New Discovery, and after using the contents of three bottles I was entirely cured. I can now eat and relish anything that my appetite craves. The New Discovery is truly a great stomach medicine."

Mr. Wm. Codier, of 408 Graves Street, Syracuse, N. Y., is very strong in his expression of belief in the new medicine, and has the following to say on the subject: "I have suffered from catarrh of the nose and throat for four years. It must have been communicated to my stomach, for all this time my stomach has given me a great deal of trouble, and caused me much pain and suffering. My stomach was often sour, and my food did not digest. I was bothered by a continual desire to spit, and there was a constant dropping of mucus into the throat.

"The first relief I have been able to obtain is from Cooper's New Discovery, which I have been taking for about a week. My catarrhal condition has been greatly improved and my stomach is almost well. Mr. Cooper's medicine has benefited me more than anything I have ever used."

These statements are from reliable citizens in various communities who have tried these celebrated medicines. We sell them and will gladly explain their nature to any one interested. —E. J. Murphy.

THE FIRST ANNUAL EXCLUSIVE EXHIBIT
— OF THE —
NATIONAL MOTOR BOAT AND ENGINE SHOW
WILL BE HELD AT
MECHANICS BUILDING, BOSTON.
This is the first year that the Motor Boat Show has been separated from the Auto Show. This whole show is devoted to Motor Boats and Engines and in the number and interest of the exhibits and the space occupied by them this exhibition is greatly superior to anything heretofore attempted.

PLOT IS FRUSTRATED

Had Overthrow of Portuguese Monarchy as Its Object

MURDER OF FRANCO PLANNED

Ringleaders Surrounded While In Conference and Several Are Captured--Chief, Who Is a Journalist, Always an Active Revolutionary

Lisbon, Jan. 24.—An abortive attempt to overthrow the monarchy and proclaim Portugal a republic was nipped in the bud Wednesday night by the prompt action of the government. The plot was organized by a small group of advanced Republicans.

As near as can be ascertained, the plan was to assassinate Premier Franco and then depend for success upon street risings, supported by secret Republican and labor organizations armed with bombs and revolvers.

The conspirators intended to take advantage of various festivities to carry out the coup d'etat. The royal family were at Villa Vicosa, entertaining the Duke of Abruzzi; most of the army and navy officers who were in the city were attending a gala performance at the theatre, while many of the chief functionaries of state were present at a ball at one of the legations.

The police discovered what was in the wind early in the evening and surrounded and raided a house where the ringleaders in the plot were conferring. When they broke in the doors the lights were extinguished and in the confusion that followed most of the conspirators managed to make their escape.

Several of them, however, were captured, including the leader, Joao Chagras, a republican journalist who was prominent in the republican revolt of 1891; Franca Borger, editor of O Mundo, and a merchant by the name of Grendella. A case of revolvers and of bombs was found in the cellar.

A general alarm was sent out, and while the prisoners were being taken to jail troops began to appear from all directions. A squad of cavalry was placed around Franco's house, and the night passed without further incident.

From papers captured it was evident that the conspiracy was badly organized and premature. Chagras has always been an active revolutionary. After the revolt in 1891 he escaped to Brazil and subsequently, being pardoned by amnesty, returned to Portugal.

By last night about forty conspirators had been arrested. The police have secured evidence of another revolt planned to take place Jan. 31, the anniversary of the republican revolt at Oporto, if Wednesday night's plans failed.

The general political situation is marked by increasing activity on the part of the Republicans and Miguelites. Senor Miguel has announced that his program includes the recognition of parliament's right of assemblage, abolition of the death penalty and all excesses of absolutism.

The Diario Popolar prints a sensational article to the effect that many officers in the Lisbon garrison are under suspicion of being implicated in the conspiracy to overthrow the government.

Premier Franco has established a rigorous censorship, so that no news of the conspiracy may be learned abroad. This dispatch was sent by courier to Badajise, Spain.

Tramps Flood New York

New York, Jan. 24.—The Charity Organization society, after an investigation of the condition of unemployed throughout the country, reports that at least 35,000 homeless men, a majority of whom are classed as tramps, are now in this city. The most serious phase of the situation is the continued influx of tramps, who are exploiting the plight of unemployed workers for their own ends.

Confesses Murder of Daughter

South Bethlehem, Pa., Jan. 24.—Believing that his illness would result fatally, John Fetter, aged 73, confessed yesterday that he murdered his daughter, Ella Fetter, aged 39 years, in November, 1894. He says that he placed a rope around his daughter's neck and then told the neighbors that she had hanged herself. The confession was lodged with the district attorney.

Contracts For Canal Supplies

Washington, Jan. 24.—The war department will invite proposals for the transportation from New York to Colon of 4,000,000 barrels of cement for use in canal work., These proposals will be opened the latter part of April, and their character will determine the policy of the war department in the matter of large shipments to the isthmus.

Much-Wanted Man Arrested

Marshall, Mich., Jan. 24.—Sheriff Graham was notified of the arrest at Denver of Fred Warren, who is wanted by the police here on a charge of embezzling $1500 involved in some life insurance premiums and policies. It is said that the police of other cities besides Marshall are seeking an interview with him.

Walker to Be Extradited

Mexico City, Jan. 24.—Extradition papers in the case of William F. Walker, the defaulting banker of New Britain, Conn., were sent to Ensenada, Lower California, yesterday by the foreign office.

"FOR POLITICAL REASONS"

Millions of Dollars Wasted In Boston Sewer Department

Boston, Jan. 24.—In a partial report on the sewer department issued by the finance commission last night, the commission declares that the cost of work now contemplated will be nearer $30,000,000 than the $20,000,000 estimated, and declares that "the work so far done has been largely for political rather than for business or scientific reasons."

In commenting on its inquiry up to date the commission states: "The waste in this department, as recently conducted, in the employment of labor, the letting of contracts, and the purchase of supplies, has been enormous, perhaps greater than in any other department of the city government."

The commission also declares that the sewer department is "in an utterly demoralized condition in respect to discipline and efficiency of the force and general methods of administration."

Won't Remove Kearns' Body

Newport, R. I., Jan. 24.—Two dispatches were received at the naval training station from Mr. and Mrs. J. J. Kearns of Pittsburg in regard to the disposition of the body of their son, Edward, enlisted as a seaman apprentice under the name of Joseph Hartnet and who died following a glove contest. The first dispatch asked that the body be taken from the grave and shipped to Pittsburg, while the second requested the authorities to let the body stay in its present burial place.

Shot Wife and Sister-In-Law

New Haven, Jan. 24.—Following the refusal of his wife to return and live with him, Clifford W. Cadwell, according to the police, last night shot her twice in the face with a revolver and then shot his sister-in-law, Miss Virginia Peck, in front of the house where the two women had been living. Cadwell was captured shortly after the shooting. Miss Peck is not seriously hurt, but Mrs. Cadwell's condition is such that recovery seems doubtful.

Gotch Fulfils Contract

Springfield, Mass., Jan. 24.—The superior strength of the heavyweight champion, Frank Gotch, brought him victory in his handicap wrestling match with the middleweight champion, Jim Barnes. Gotch agreed to throw Barnes three times in an hour and accomplished his task. The time for the falls in order was 15:30, 10:30 and 10.

Boy Saves Old Man's Life

Middleboro, Mass., Jan. 24.—The bravery of Antonio Veroni, aged 14, in entering a burning dwelling house last night saved the life of Michael Brodder, aged 60, who was asleep there alone. The little building was almost entirely wrapped in flames when Veroni made his way through the smoke and dragged the man out.

Lewis Knocks Out Mantell

New Haven, Jan. 24.—Harry Lewis of Philadelphia knocked out Frank Mantell of Providence, holder of the welterweight championship of the country, in the third round of their twelve-round bout here. Lewis, upon winning the championship, said he would challenge Papke for the middleweight title.

Loose Tire on Engine

Worcester, Mass., Jan. 24.—The locomotive, tender and the forward coach of a passenger train from Boston were derailed just as the train was entering the Worcester yard last night. No one was injured. A loose tire on the trailer wheel of the engine had caused the trailer wheel to ride a frog and the frog broke.

Hub Councilmen Elect President

Boston, Jan. 24.—In a riotous session of the common council of the city of Boston last night Leo F. McCullough, Democrat, was elected president of the council on the second ballot. One Republican, Walter C. Brown, voted with the Democrats, although McCullough had a large majority on the second ballot.

Locomotive Works to Close

Providence, Jan. 24.—The local plant of the American Locomotive works will be shut down the first week in February for an indefinite period, and the force of about 1000 will be entirely out of employment. The cause of the shutdown is attributed to the unsatisfactory condition of railroad business.

Aged Man Killed by Car

Easton, Mass., Jan. 24.—Edwin Howard of Taunton, aged 70, was killed by an electric car here while crossing the street. Being somewhat hard of hearing, he did not hear the approach of the car. He was in town with his wife, visiting a daughter.

Double Drowning Accident

Amesbury, Mass., Jan. 24.—Lewis Woodman, aged 22, a carriage worker, and Miss Blanche Adkins, 15 years old, a high school pupil, were drowned in Lake Gardner. They were skating and went through a hole in the ice.

Toselli Preparing a Surprise

Genoa, Jan. 24.—Enrico Toselli, the music teacher who married Countess Montignoso, the divorced wife of the King of Saxony, gave a concert here last night. Toselli said that he was writing a comic opera and that he intended later to publish some curious and important news which would surprise those who are interested in public life.

Storm Dreaded by New Yorkers

New York, Jan. 24.—After a week or more of the balmiest sort of weather, the mercury suddenly dropped and the city is white with snow. Owing to the number of unemployed in the city, the storm is dreaded.

BOMB THROWN AT BANK

Forty Thousand Dollars In Window Saved by Proprietor

New York, Jan. 24.—An exploding bomb last night wrecked the front of an Italian bank on Elizabeth street, briefly exposing $40,000 in silver and gold which the bankers, Pasquale Pati & Son, had piled in the windows as ocular proof of their ability to pay depositors on demand.

The junior partner, Salvatore Pati who was on guard inside, was badly cut by the glass that rained in upon him, but stuck by his charge and soon had the money stored away in the vaults. The score of clerks had left the place some hours before and the explosion injured none but Salvatore Pati.

The bomb throwers, who were not seen by the banker, were quickly lost in the crowd of several thousand excited Italians who gathered about the wreck, and their motive is a mystery. It was at first believed that a robbery had been attempted and the known distress in certain sections of the city lent color to this theory. If robbery was the object the perpetrators, it is believed, must have been amateurs who lost courage at the critical moment when the tempting treasure was within arm's reach from the street.

Pati, the elder, is one of the most prosperous of the Italian bankers in this city. His institution is capitalized at $500,000. During the bank troubles he conceived the idea of a window display to reassure doubting patrons.

Tillman on Negro Domination

Columbia, S. C., Jan. 24.—Senator Tillman, in an address before the general assembly last night, advocated the repeal of the fifteenth amendment and the encouragement of desirable immigration as a means to offset inevitable negro domination in the states in which the blacks predominate in population. He said that negroes will soon be able to comply with the constitutional rights of the various southern states and thus govern where they outnumber the whites. He believed that the north and west would help the south to repeal the fifteenth amendment.

Spanish King's Close Call

Madrid, Jan. 24.—King Alfonso had a narrow escape from death while hunting yesterday. A wild boar unexpectedly appeared and rushed at the king, who shot the animal. The king then dropped the gun and walked up to the body, supposing that he had killed the boar, but it suddenly bounded up and flew furiously at the king, who was saved only by a prompt shot fired by one of the party into the maddened animal's head. Alfonso was unhurt.

Practiced For Big Wedding

New York, Jan. 24.—Preparatory to the wedding of Miss Gladys Vanderbilt and Count Laszlo Szechenyi, set for next Monday, there was a rehearsal yesterday of the ceremony at the Vanderbilt mansion. Szechenyi took his place beside his bride-to-be just as he will on the day of the wedding, and the chancel choir and the quartet of St. Patrick's cathedral went through the march and rehearsed the music to be heard at the wedding.

Bryan Predicts Democratic Victory

Birmingham, Ala., Jan. 24.—Birmingham tendered to William J. Bryan and Judson Harmon a warm welcome during their visit. When Bryan was introduced as "the next president" there was a great demonstration. Bryan predicted a Democratic victory this year and he based his prediction on a united Democratic party and a divided Republican party.

Life Prisoner a Suicide

Joliet, Ills., Jan. 24.—Frank J. Constantine, murderer of Mrs. Louise Gentry of Chicago, who was serving a life sentence, died last night of injuries sustained by throwing himself from a gallery in the state prison to a stone floor thirty feet below. He was unconscious from the time of his fall last Saturday until death.

The Salvation Army Squabble

New York, Jan. 24.—Justice Newburger, in the supreme court, denied the application of the Salvation Army of the United States—the Booth organization—for a temporary injunction restraining the American Salvation Army, of which J. W. Duffin is the head, from using the words Salvation Army.

Revision of Tariff Favored

Washington, Jan. 24.—The national board of trade concluded its sessions here with the adoption of a number of important resolutions, among them being one urging an expeditious revision of the tariff and endorsement of the proposal for the creation of a permanent tariff commission.

Governor Folk's Ambition

Jefferson City, Mo., Jan. 24.—Governor Folk announces that he will endeavor to take the senatorship from W. J. Stone. The governor says he will open his campaign with a speech in St. Joseph the first week in February.

NEWS IN BRIEF

The second of the series of state receptions was given at the White House by President and Mrs. Roosevelt in honor of the judiciary.

Charles H. Treat, treasurer of the United States, spoke before a gathering of Boston business men, tracing the history of the national banking system.

John Andrejack, 14 years of age, broke through thin ice and was drowned while skating at Bridgeport, Conn., and Frank Hayes, 12 years old, met a similar fate from a like cause at Danbury, Conn.

George Canty, valet to William Faversham, the actor, committed suicide at Chicago by inhaling gas. No motive for the act could be learned.

For Coughs
Never hesitate to ask your doctor about Ayer's Cherry Pectoral. It is a regular medicine, a strong medicine, a doctor's medicine.
It would be very interesting to know how many years your family physician has prescribed Ayer's Cherry Pectoral for coughs, colds, and all forms of lung troubles. Ask him the next time you see him. We know physicians who have used it for over half a century. J. C. Ayer Co., Lowell, Mass.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

NEW ADVERTISEMENTS TODAY.

W. G. Shaw—Furniture Sale
Boy Wanted.
For Sale—Light Sleigh

The Observations In the Daily Walk

Sleighs are out.

It is predicted that a cold wave will follow the storm.

The wind blew over sixty miles an hour last night.

One thing is sure, and that is there will be no more grass fires for the present.

The no-school school signal was sounded at 7.30 this morning, and again at noon.

Few people are about today, and these would probably have stayed at home but for business.

The Wolaston W. C. T. U. will meet with Mrs. George E. Thomas, 28 Newton street, on Tuesday.

Isaac Burns of Old Colony avenue, youngest son Albert is very ill with diphtheria.

The forced sale of W. G. Shaw closes tomorrow night. It includes furniture, carpets, stoves, etc.

The Weber Male Quartet of Boston will sing at Bethany Congregational church Sunday evening at the 7.30 service.

Friends of Miss Isabel Albee of Prospect avenue are glad to see her out again after a month's confinement to the house by illness.

The night of the Police ball a year ago was a very stormy one, yet it did not prevent a large crowd from being present.

Jan. 24 was the coldest day of January last year—10 degrees above at noon. It was also the lowest noon temperature for the winter of 1906-1907.

Sidney M. Paterson, the crack pitcher of the South Quincy base ball club and other local teams, leaves next week for Portsmouth, Va., and will play in the Virgina base ball league which opens the season soon.

E. E. Hoxie and F. T. James were high men (east and west) at the tournament of the American Whist club on Thursday evening, while G. R. Thompson and A. B. Hillman were low men (north and south). Other Wollaston players were entered.

A special meeting of the Junior Auxiliary to Y. M. C. A. will be held in the Association hall, Saturday, at 3 P. M. All young ladies over fourteen years and out of grammar school are invited to attend. Members are asked to bring their friends. Refreshments will be served.

Wollaston lodge, No. 174, A. B. S., held its regular meeting at Brasee hall on Tuesday evening. There was a good attendance, and after the business of the lodge had been transacted all entered into a spelling match which proved amusing as well as instructive. A good time is anticipated for the second meeting in February when the lodge will celebrate their third anniversary by giving a family party.

TODAY'S COURT.

Guiseppe Marini was arraigned for assault on N. Di Bona at Quincy, and Louis Schlager for assault on Blanche Di Bona. Cases continued until Saturday.

John Hokkanen was arraigned for larceny at Quincy. Case continued until Saturday.

Michael Ureal was arraigned for drunkenness at Weymouth. He was fined $15; sentence suspended until April 30.

Augustus Van Allan was arraigned for the larceny of a pair of shoes at Weymouth, and for drunkenness. Cases continued until Saturday.

Knights of Columbus Installation

The newly elected officers of Quincy council, Knights of Columbus, were installed Thursday evening, at Hibernian hall, by Deputy Grand Knight Austin Connell of Roxbury, assisted by Mr. McCarthy also of Roxbury. At the close of the installation there was a vocal and instrumental entertainment by members of the council. Refreshments were served.

Social of Galahad Brotherhood

The Galahad Brotherhood held its tenth monthly social in the parish house, of Christ church, Thursday evening, about thirty-five couples present. Music for dancing was furnished by N. H. Savage and Henry Teasdale. During the evening the following entertainment was given: Comic songs, William Teasdale; vocal duets, Misses Packard; recitations, Master Joe Beal; vocal selections (double trio) Misses Fowler; vocal solo, Miss Ruth Packard; readings, Miss Ella Packard. Light refreshments were served during the evening. Committee of arrangements, Roy Prout, John G. McGregor, Byron C. Miller, Mr. Moyle and John King.

MILTON.

The seventeenth annual ball of the Milton Firemen's Relief Association was held Wednesday evening. It was one of the most successful of many enjoyable parties. The attendance was large, the music good and a fine time was the verdict

The hall, especially about the platform, was very prettily decorated. Hose pipe and other fire appliances being tastefully arranged. Chief Geo. Choate was in charge and was assisted by a large committee. A good sum was netted for the relief fund.

The Thursday Evening club held its usual weekly gathering and smoke talk this week.

The fire department has been called out several times this week for grass fires.

That old car used for a freight depot has not been moved to its new location as yet.

The ladies of the Baptist society are arranging for an entertainment and supper for the early future.

In the Salem District Court Wednesday Eugene D. Libby of Mattapan, chauffeur for Edward L. Hurd of Milton, was charged with manslaughter, the charge resulting from the death of Vera Roberts the five-year-old daughter of Everett Roberts of Bridge street, Salem, who was struck and killed by an automobile. He pleaded not quilty, and the case was continued for two weeks, during which time the inquest will be held. The defendant was held in bonds of $5,000, which was furnished by Mrs. Hurd, who was with her husband in the courtroom.

The funeral of Theodore Russell Glover of Adams street on Wednesday was attended by many prominent residents of the town and also business men of Boston. Rev. Roderick Stebbins officiated and the pallbearers were Hon. John D. Long, who married Mr. Glover's niece; Theodore G. Bremer, Clifton Bremer, Arthur M. Little, M. G. Richardson and Frederick Guild, Jr. Burial was in Mt. Auburn cemetery.

At hockey on Thursday, Milton Academy defeated Milton High 1 to 0.

The Magazines.

The New England Magazine announces its reorganization under the presidency of Bertrand L. Chapman. Samuel Morris Conant of Pawtucket, the former owner, remains in the company, the second largest stockholder. Other stockholders are W. H. Forbes, president of the Forbes Lithograph Company; Adam Sutcliffe of Pawtucket, and Rhey T. Snodgrass. Winthrop Packard retires from the editorship and is succeeded by Mr. Snodgrass, formerly connected with Collier's Weekly. The magazine celebrates its hundred and fiftieth anniversary in the March number. It will remain at its former price, and its policy will now be to represent New England much as the California magazines do the Pacific coast.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Mortgagee's Sale.

BY virtue of a power of sale contained in a certain mortgage deed, given by Emma B. Tilton to Paul G. Harting, dated March 27th, 1907, and recorded with Norfolk Deeds, Book 1050, Page 306, and duly assigned by the said Harting, to the Employees Trust Incorporated, a Massachusetts Corporation, said assignment being duly recorded, for breach of the conditions thereof, and for the purpose of foreclosing the same will be sold at public auction upon the premises hereinafter described, on the third day of February 1908, at eleven o'clock in the forenoon, all and singular, the premises described in said mortgage deed, namely:—

A certain parcel of land with the buildings thereon, situated in that part of Quincy called Quincy Point, and being lot one (1) on a plan of land belonging to Walter E. Burke by Perry Lawton, C. E., dated September 1902, and recorded with Norfolk deeds, bounded and described as follows:—Beginning on South Street, at the corner of the granted premises and land late of Albert C. Nash; thence running northerly along said South street) 66 10-100 feet; thence turning and running easterly along land of one Read, 104 45-100 feet, thence turning and running southerly along lot two (2) on said plan, 63 95-100 feet to land late of Albert C. Nash; thence turning and running westerly along land of the late Albert C. Nash, 111 69-100 feet to the point of beginning, containing seven thousand and seven square feet of land, more or less.

Said premises will be sold subject to a first mortgage of record, and subject to all unpaid taxes and assessments if any. Two hundred dollars will be required to be paid in cash by the purchaser at the time and place of sale.

EMPLOYEES TRUST INCORPORATED.
Assignee, and Present Holder of said Mortgage, Tremont Building, Boston.

Newsy Budget From Shipyard

The Herald bureau at Washington reports that the sub-committee of the House naval affairs committee granted a hearing to the New England Coal & Coke Company on Thursday regarding the purchase by the government of three colliers, the Everett, Malden and Melrose. The committee heard Henry S. Lyons and Harry Brown of the Fore River Ship Building Company, which built the vessels, and Charles Skentelberg, marine superintendent of the Massachusetts Steamship Company. The question of the purchase is important to mechanics and workmen around Boston as if these colliers are sold to the government the New England Coal & Coke Company will have three other vessels built about a year hence when the railroad to Norfolk is completed.

William Harris Douglas president of the New York Produce Exchange addressed the National Board of Trade at Washington this week in favor of a ship subsidy. In this connection a statement offered by Mr. Douglas was adopted, favoring the establishment of subsidized mail lines between this country and South America, and the encouragement of American shipping interests by the payment of Government subsidies.

Coal barge Bristol is putting a cargo of coal on board the United States Scout Cruiser Birmingham at the Fore River shipyard.

An inch and a half air pipe line is being installed from the small air compressor to the end of the new machine shop extension.

Foundations have been built, ship tools erected and an overhead structure built in that part of the yard which adjoins the Howard avenue end of the plate yard, for the handling of beams and floors while being punched and riveted.

It is reported that the U. S. Scout Cruiser Chester, building at the yard of the Bath Iron Works, a sister ship of the Birmingham and Salem, comes to Boston tomorrow to be put into dry dock, and after being scraped and painted below the water line will proceed to the Rockland course where her propellor will be standardized, after which the trial trip will be run off.

BRITISH SHIPYARDS.

A London dispatch to the Boston Transcript says: Great Britain's claim as shipbuilder for the world is no longer justified to such an extent as formerly. The statistics of the world's shipbuilding in 1907, just issued by Lloyds Register, shows a total out put of mercantile tonnage by the United Kingdom of 1,742,365, being a decrease of 220,200 tons as compared with 1906, which was the highest on record. The foreign output in 1907 increased by nearly 80,000 tons. Great Britain, however, still builds more than one-half the mercantile shipping of the globe, which last year showed a net increase of 1,984,800 tons as compared with an increase of 2,158,000 in 1906.

The world's fleet of sailing ships was reduced during the year by 180,000 tons and the steam tonnage was increased by 2,164,800. United States built in 1907, 475,000 tons, which was a slight increase. Germany shows rather a serious decline. Last year she built 275,000 tons as compared with 318,000 in 1906, while at the same time she purchased less from Great Britain. Great Britain is still a large purchaser of vessels built abroad. Another matter of great discontent in Great Britain is the large percentage of foreigners employed as seamen in British mercantile marine, numbering a total of forty thousand with an annual wage list of $10,000,000. While the question of the unemployed is pressing heavily ashore, this is considered unfortunate and the British naval league is taking active steps to agitate the utilization of the unemployed to take the place of aliens on the ships.

The Spanish Senate definitely approved the bill, which was presented in the shape of an extraordinary budget, for the complete reorganization of the navy. The bill, which some time ago was unanimously passed by the Chamber of Deputies, and was only opposed by a handful of Catalan members, was the object of a lengthy debate in the Senate, in which Senators Carranza, Fernandez, Caro and Concas ,all three belonging to the navy, the third an ex-naval minister, were conspicuous for their opposition to the bill, especially that part dealing with the personnel of the navy. But every one, whether of the Opposition or of the Ministry, is agreed as to the necessity of providing the navy with adequate materials. The disagreement is only on the quantity of material and the hode of construction. According to the bill the plan for the reorganization of the navy includes the building of three battleships, three destroyers, twenty-four torpedo boats, four gunboats and four fishery protecting tugs. The battleships will be of 15,000 tons, the destroyers of 350 tons, the torpedo boats of 180 tons and the gunboats 800 tons. The personnel of the navy will under the present school will be trasferred to land. The reform be largel reduced. The naval land defences will receive a large share from the work of construction.

Team One Gets Two Out of Three

In the Y. M. C. A. bowling tournament on Thursday evening Team 1 defeated Team 3 two games out of three, and lost the first game by only one pin. Only four men bowled on each team, and the contest was close. On the totals Team 1 was only 18 pins ahead.

The summary:

TEAM 1.

Newcomb,	76	81	87	244
Andrews,	69	84	76	229

Chesapeake Flag.

John Adams chapter, D. A. R., of which Miss Floretta Vining is regent are interested in the purchase of the Chesapeake flag, and made a contribution at their meeting today. Miss Vining says: "We must have this flag. It belongs to us and there must be no question about raising the money. It shall be done and that's all there is to it.

Salamagundi Party.

Tonigbt at 7.30 members of the boys' department have a good time in their rooms at the Y. M. C. A., playing games, etc. Partners are chosen and progressive games are played like crokinole, carroms, fish-pond, pool, jackstraws, etc. Refreshments follow.

—The Massachusetts Horticultural society will hold its flower show of the year at Horticultural hall, Saturday from 12 to 4 o'clock. On the same day at 11 o'clock Robert Cameron, superintendent of the Harvard botanic garden, Cambridge, will give a lecture on "Annual and Biennial Flowers."

—At a banquet on Thursday evening the business men of East Weymouth took steps to organize a board of trade.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THE END OF IT ALL.

[Copyright, 1907, by P. C. Eastment.]

"Say, captain," said the recruiting sergeant as he entered the room where his superior was seated in a building on South street, New York, "I've got a jim dandy of a recruit. He's a swell."

"He isn't the sort we want."

"But he says he's bound to enlist either in the army or navy."

"Bring him in."

The captain had seen Thomas Dalton's kind before. It always began with a false name—the first name that came into their heads—and it almost always ended in desertion or tragedy. He sized the young man up as he stood at the desk, and he made mental memoranda as follows:

"Hasn't got through college yet. Got into some scrape. Old man has given him a dressing down. Young fellow is proud and won't stand it. Hasn't the money to go abroad or take a tour out west and is going to enlist in spite of the governor. Old man will buy him out of the service in six months. The mother's tears will make him do it. He's bound to take the army or navy. Six months of discipline will take some of the frolic out of him, and I'll give him a show to settle down."

The usual questions were asked and answered, the young man was sent to the surgeon, and before sundown he belonged to Uncle Sam. The sergeant, being now his superior officer, started out to patronize the "fresh fish."

It didn't work. He wanted to talk confidentially. The recruit was mum. Nothing further was learned about him, and after three or four days he was sent off to Jefferson Barracks to go west to Fort Thomas. They wanted recruits out there. The Sioux were threatening to go on the warpath again.

There are men among army officers who should never have been commissioned. Their temperaments unfit them to preserve discipline and rule as they should. Such a man was Captain Coleman of Company G. He was quick tempered, irascible, peevish and a martinet, and of the ten captains in the regiment he was oftenest in trouble with his men and was obliged to report the most desertions. James Dalton was assigned to Company G, and within two days and for no reason that he or his comrades could argue out the captain was down on him and showed it in various ways. It wasn't two weeks before he was in the guardhouse for some dereliction that would have been passed over in another. The colonel was a fatherly man, and in his desire to be fatherly toward the young recruit he made matters worse.

Dalton asked for no one's sympathy. He gave no one his confidence. He tried his best to obey all regulations and fit himself for a soldier. He would have had praise from the right sort of officer. Indeed, he did have it in a way from the lieutenants of the company, but there was nothing but growling and fault finding from the captain. His conduct almost created a scandal at the post. One day on company drill he was singled out and needlessly rebuked and sneeringly criticised and ordered off to the guardhouse under arrest. There was a muttering up and down the ranks, but this only provoked Captain Coleman to add other charges. That night in the guardhouse a gray haired corporal said to Dalton through the slats of the door:

"What it's about I dunno, but the captain isn't giving you a square deal."

"And it will grow worse instead of better," replied the prisoner.

"You can bank on that. He's hounded a dozen men out of the company since I got these stripes. It'll be court martial and five years for you if he can bring it about."

"And what shall I do?"

"I've got to go out to post No. 3. I shall be gone fifteen minutes. The heavy iron poker has got in with you somehow. If I was inside there, I believe I could pry off these slats with it."

"Thank you."

When the sergeant returned, Dalton was gone; also one of the muskets and a belt of fifty cartridges. Over on officers' row a private soldier with a musket in his hands stood for three or four minutes looking up at a certain window as if thinking to send a bullet into the opening. Then he lowered the musket and turned away and crept from the fort between posts Nos. 7 and 8. It was a summer evening, with the crickets singing, and the sentinels drowsed as they walked. Daylight brought excitement and a bustle. A member of Company G had deserted. Three mules had been run off from the corral. Indian signal smoke had been seen at daylight, and by sunup settlers came pouring in with the news that Red Bull had broken loose and was in the hills with 500 warriors.

Dalton had made for the hills. He must go into hiding and exist some way until the hue and cry was over. He knew that the redskins were threatening, but he had no choice. In the darkness he crossed the mile wide plain and then made his way up the side of Eagle peak for the same distance, and the coming of daylight found the warriors all about him. All the long forenoon they could see the puffs from a score of Indian rifles. They knew that it was the soldier and deserter, but they could render him no aid until afternoon—until they knew that his last cartridge had been fired an hour before. Then 300 men marched out and found and buried the ghastly thing the fields had left. He had demanded ten lives for his one. He had ostracized himself—enlisted, deserted and there among the rocks ended it all. M. QUAD.

The Best Job Printing at This Office

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,

1 Granite Street, Quincy.

The Social Realm

"Judge not; the working of the brain
And of his heart thou canst not see:
What looks to thy dim eyes a stain,
In God's pure light may only be
A scar, brought from some well-won field,
Where thou wouldst only faint and yield."

* * *

Miss Floretta Vining is leaving Hull next week for her usual midwinter stay at the Parker House, Boston.

* * *

One of the prettiest parties of the season was that which was given in Brasee hall, Wollaston, Saturday evening, Jan. 18, by Mrs. John L. Johnson for her daughter, Katherine. The hall was decorated with evergreens and fancy colored paper sunshades. Hendrie furnished frappe all the evening and during the intermission a beautifully spread table was brought into the hall, and the children were served with all kinds of fancy ices and cakes. Hot chocolate was served. The German favors were fancy umbrellas of which every person had one for a souvenir, as well as a beautiful Japanese box filled with chocolates. Mrs. Johnson was assisted in receiving by Mrs. Edward E. Jameson and Miss Elizabeth Corlew. Merrill's orchestra furnished the music for dancing. At the end of the evening's pleasure the young people showed their appreciation of Mr. and Mrs. Johnson's kindness by giving them three hearty cheers.

(Continued on Page 8.)

ANNUAL POLICE BALL

Grand Success Financially But The Storm Kept Many Away

Although there was not such a jam this year at the annual ball of the Police Relief Association as last year, there was a large attendance. Nearly fifteen hundred tickets had been sold, and if all had come with ladies Music hall would not have been large enough.

Owing to the severe storm many who intended to be present remained at home. Then several of the car lines were blocked by stalled cars, and this made some late in arriving. It was 9.30 before the grand march was started.

The officers on the several committees were on hand in good season, and carefully looked after the wants of the guests. All wore very pretty ribbon badges, on the front of each being suspended a medalion representing the seal of the City of Qiuncy. The invited guests were given blue bows appropriately lettered.

The reception committee, headed by Lieut, Daniel R. McKay, were particulary active, and every guest was immediately taken in hand and looked after, and it was seen that he had not only partners for the march but for other numbers on the order.

The music, Wilson's orchestra, was exceptionally good, and gave a very fine promenade concert during the early part of the evening. The program included the following selections:

1. March,—Jolly Trumpeters Seltzer
2. Overture,—Poet and Peasant Suppe
3. Concert Waltz,—Red Mill Victor Herbert
4. Duet for Flute and Cello,—Serenade Titl
5. Military Song,—The Captain Master Mark McCarty
6. March,—Popularity Cohen

The military song by Master Mark McCarty was one of the hits of the evening, and he was obliged to respond to several encores.

While these were in progress the participants of the ball were arriving as well as the specially invited guests. The latter included Mayor Shea, all of the heads of departments of 1907, the members of the City Coucil, ex-Chief of the Fire department, and chiefs of the departments of surrounding towns.

There were no special floral decorations but Derringer, the florist, saw that the officers of the ball were provided with bouquets for their ladies.

At 9.30 the orchestra struck up the first trains of the march "Popularity" which was the signal for the ball to get in motion.

The march was very prettily executed and was under the direction of Leo J. McMasters.

The march was led by Chief of Police Frank E. Burrell and Miss Gertrude E. McKay, Mayor William T. Shea and Miss Sadie Johnson, Lieut. McKay and Miss Mary E. McKay. Then followed Officers Goodhue, Larkin, Milford, Lyons, Boutin, Riley, Phillips, Doran and Halloran with their ladies, and upwards of sixty couples.

The march was not as lengthy as some have been at similar affairs, and this was appreciated by the participants. The march over, the program of dances opened with a waltz "Welcome to our second." Then came a quadrille dedicated to His Honor, the Mayor, and eighteen other numbers. Every number was dedicated to some person or popular air. These included His Honor, the Judge, Hail to the Chief, Old Harry 25 years in harness, the faithful animal that draws the patrol wagon, and also to out of town friends.

In the vicinity of midnight there was a brief intermission during which refreshments were served. The refreshments were on the buffet lunch plan, and were served continuously from 10.30 by Caterer LaCroix. The menu was:

Rolls and Sandwiches
Chicken Salad Escalloped Oysters
Ice Cream
Vanilla Stawberry Chocolate
Orange Sherbet Frozen Pudding
Coffee
Cake
Nut Citron
Frosted Sponge

A waltz to the air of "A dream of home" brought the second annual to a close at 2 o'clock. Special cars were then in waiting to take the participants to their homes.

The officers of the ball to whom great credit is due for its success were as follows:

Marshal—Chief Frank E. Burrell.

Floor Director—Lieut. Daniel R. McKay.

Assistant Floor Directors—Alfred W. Goodhue and John T. Larkin.

Aids—John Holloran, Jeremiah Hinchon, John Bowtin, Ernest H. Bishop, Claes A. Broberg, Charles Olsen, Charles T. Crooker, Michael Donovan, Patrick A. Milford, George A. Cahill, James W. Murray, Edward Johnson, William S. Lyons, Edward J Curtin, Henry F. Riley, Timothy J. Golden, Daniel H. Doran Daniel J. Ford and Jeremiah Dinneen.

Committee of Arrangements—Chief Frank E. Burrell, Lieut. Daniel R. McKay, John T. Larkin and Alfred W. Goodhue.

Reception Committee—Lieut. Daniel R. McKay, Sergt. Mark E. Hanson, Patrick A. Milford, George A. Cahill, William S. Lyons.

Hhe members of Quincy Police Relief association are:

President—Frank E. Burrell.

Vice President—Daniel R. McKay.

Secretary—John T. Larkin.

Treasurer—Alfred W. Goodhue.

Trustees—Mark E. Hanson, Ernest H. Bishop.

Finance Committee—Patrick A. Milford, John Halloran, Jeremiah Hinchon.

Visiting Committee—Michael Donovan, William S. Lyons, Claes A. Broberg, Daniel H. Doran, Edward Johnson, Charles T. Crooker.

Edward J. Curtin, Henry F. Riley, James H. Whelen, John Bowton, James W. Murray, Henry W. Thorne, George A. Cahill, George F. Phillips, Charles Olson, John P. Duffy, Jeremiah Dinneen.

BAD FOR THE BODY

Certain Preservatives In Food Shorten the Term of Life

THEY OVERTAX THE KIDNEYS

Chief Government Chemist Reports Results of Experiments With Drugs as Relating to Human System--To Teach Farmers to Make Alcohol

Washington, Jan. 25.—Dr. H. W. Wiley, chief of the bureau of chemistry of the department of agriculture, reported to the house committee on agriculture the results of exhaustive experiments conducted by the bureau to determine the poisonous effect on the human system of such drugs as borax, benzoic acid, benzoate of coda, sulphate of copper, sulphur dioxide, formaldehyde and salycilic acid, when contained in foodstuffs.

Dr. Wiley said that the expulsion of these and kindred drugs from the body is performed almost entirely by the kidneys and that he is satisfied the term of American life would be lengthened if the use of such drugs in foods were wholly discontinued. He said he was convinced that kidney disease, so prevalent among Americans, is partly the result of constant introduction into the system of such preservative substances as benzoate of soda, carried in foods.

Discussing sulphur dioxide and its injurious effects, Wiley told the committee of a discovery just made by him that salt solution is a perfect substitute for sulphur in the whitening and drying of fruit. He exhibited samples of apples dried experimentally by the bureau. The sulphured fruit was not so white or tender as the salt-cured.

The committee was informed by Wiley of plans to teach the farmers of the United States to make denatured alcohol. Next August he will erect a still at the bureau of chemistry and operate it himself for two or three months, producing denatured alcohol daily from damaged fruit and vegetable substances such as can be bought cheaply in the market. He has invited the agricultural college of each state and territory to send a representative to Washington to observe this still and master the process of distillation.

"The law permitting the free distillation of denatured alcohol," said Wiley, "has not benefited the farmers of the country at all, for they do not know how to build a still or run one. I propose to teach them through the agricultural colleges if they want to learn. Denatured alcohol is an excellent fuel and makes a fine light. As it can be manufactured from farm waste, the farmers ought to avail themselves of the new law permitting it to be made without imposition of revenue tax."

Swift's Men Not Looking For Work

Boston, Jan. 25.—Yesterday's snowstorm furnished the first real opportunity to test the "intense desire" for work possessed by Morrison I. Swift's "army of the unemployed." But the army failed to materialize, and if any of the 3000 odd men who secured work shovelling snow were followers of Swift the fact was not revealed. Inquiries failed to reveal that Swift or any of the other leaders tried to get work for any of their followers, and the followers themselves evidently remained indoors.

Sickness Invades Czar's Household

St. Petersburg, Jan. 25.—An epidemic of influenza has attacked the imperial family. The emperor's only son and his four sisters all have been taken ill. The condition of the heir apparent is complicated by an inflammation of the ear and a specialist in aural diseases has been summoned to Tsarskoye-Selo to attend him. It is thought the infection was brought to the palace at the time of the recent Christmas tree celebration.

Immigrants Again Delayed

St. John, Jan. 25.—Again the 300 immigrants who started from Antwerp for St. John on steamer Mount Royal, and after a month on the Atlantic ocean were picked up and taken to Queenstown, are overdue at this point. Steamer Montrose left Queenstown on Jan. 11 with the Mount Royal's passengers and should have been here Tuesday or Wednesday last.

Railroads Violated Law

Chicago, Jan. 25.—Six railway companies were found guilty in the United States district court of having violated the safety appliance law. Two were fined $300 and costs, one $200 and costs and one $100 and costs. In the case of the other two companies punishment was suspended pending motion for a new trial.

Labor Men Criticise Hughes

Albany, Jan. 25.—The failure of Governor Hughes to appoint on either of the public service commissions any representative of organized railroad labor as such was sharply criticised by the legislative board of the Brotherhood of Locomotive Firemen and Enginemen in annual session here.

Bryan Will Serve If Drafted

Atlanta, Jan. 25.—William J. Bryan was asked in this city if he would accept the Democratic nomination for president in 1908 if it were offered. His reply was: "I am not a volunteer for the place. If I am drafted, however, I will not desert."

TRIAL INTERRUPTED

Witnesses Who Are to Testify For Thaw Delayed by Storm

New York, Jan. 25.—The heavy snowstorm which swept New York yesterday caused the first serious interruption of the second Thaw trial. It stopped practically all shipping in the lower bay and prevented the steamer Adriatic from reaching her dock. On board the liner are four physicians and a trained nurse from Europe, who, Mr. Littleton declared in court, are important witnesses for the defense. He desires to place their testimony upon the record before propounding hypothetical questions to the three experts who will swear that when Harry K. Thaw shot and killed Stanford White he was so mentally deficient that he did not know the nature or quality of his act or that the act was wrong. The request for an adjournment until Monday, which he made upon the opening of court, was granted by Justice Dowling.

Mr. Littleton promised to have the long hypothetical query ready after his few remaining witnesses of fact have testified on Monday, and unless Mr. Jerome's cross-examination of the experts is unexpectedly long the defense will rest by Monday night. The prosecution will proceed on Tuesday with its rebuttal and should not take more than a day and a half. The sur-rebuttal by the defense will be brief and the case should end by Friday or Saturday of next week.

Uncle Joe Remained Unruffled

Washington, Jan. 25.—According to Congressman Shackelford of Missouri, Speaker Cannon "is the greatest despot ever born or invented. There is nothing in all Europe to match him," declared the Missourian. He was moved to these remarks during consideration of the urgent deficiency appropriation bill. After the man from Missouri had loudly berated the speaker he suddenly challenged him to tell the members who invested him with the authority to shoulder all responsibility for legislation now and in the hereafter. Uncle Joe laughed immoderately, but he would not rise.

Jury Recommends Mercy

New York, Jan. 25.—Paul Kelly, the motorman of the Ninth avenue elevated wreck in which sixteen people lost their lives, was found guilty of manslaughter in the second degree. The jury made a strong recommendation for mercy. The train of which Kelly was the motorman struck a curve and was derailed. One car plunged into the street. Kelly testified that the signal for him to continue down Ninth avenue was suddenly changed when he was only three car lengths away. He applied the brakes, but the train struck the curve heavily and the derailment occurred.

Average Legislator Not Posted

New York, Jan. 25.—James Bryce, British ambassador to this country, in an address here declared that present day legislation was too heavy to be handled by legislatures as now constituted, and that many legislative problems were beyond the ability of the average legislator. These problems, he declared, could be mastered only by men with special knowledge. He said there was need for some organized system of gathering and examining materials for legislation, that difficult problems might be handled more scientifically.

Wolves Won Fight With Banker

Deadwood, S. D., Jan. 25.—Through the finding of a skeleton on the plains northwest of Edmonton it is believed that the mystery of the disappearance of John M. Burgess is solved. Burgess left here last summer to establish a bank at Edmonton. The skeleton, which was found on the trail Burgess took, was picked clean by wolves. Nearby lay an empty rifle and five wolf carcasses, indicating the struggle for life.

To Keep Young Men at Home

St. John, Jan. 25.—James H. Barnes has been appointed agent for the bureau of colonization and industries. This is a new government department. One of Barnes' duties will be to endeavor, by placing young men on granted lands, to prevent exodus to the United States or the Canadian west.

"Pink Eye" Among Middies

Annapolis, Md., Jan. 25.—An epidemic of "pink eye" has broken out among the midshipmen and about seventy-five cases have been treated at the sick quarters in the last week.

NEWS IN BRIEF

A. M. and P. A. Agelasto, arraigned at Norfolk on the charge of getting over $200,000 from local banks on false cotton warehouse receipts, were acquitted.

A petition in bankruptcy has been filed against William Kleinschmidt and George H. Howland, of Kleinschmidt, Howland & Co., dealers in jewelry, New York. The liabilities are $250,000.

James A. Wood, a wholesale lumber dealer of Boston and Cambridge, Mass., has filed a petition in bankruptcy. The liabilities are placed at $437,310 and the assets at $322,658.

The subordination of athletics and the study of the Bible in academic institutions was advocated by Principal Stearns of Phillips academy at the dinner of the New York alumni of Andover.

The Bricklayers and Masons' International Union of America, in its annual session at Detroit, endorsed the postal savings bank idea.

F. H. Foster, aged 60 years, in former years a leader of the turf, owning some of the best horses on the circuit, dropped dead in the Quincy house, Boston. He is believed to have left a considerable fortune.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signatnre of Chas. H. Fletcher. and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children- Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.

MOUNT FUJIYAMA.

Japanese Pilgrimage to Its Tempest Swept Summit.

To the people of Japan the mount Fujiyama is sacred. The meaning of the word is "honorable mountain." During that brief six weeks of summer when Fujiyama's wind swept sides are climbable, writes A. H. Edwards in "Kakemono," the pilgrims come in thousands, in ten thousands. They dress themselves in white from head to foot. They carry long staves of pure white wood in their hands, each stamped with the temple crest, and in bands and companies they climb the mountain.

Always the leader at their head, his staff crowned with a tinkling mass of bells, like tiny cymbals, chants the hymn of Fujiyama. For six short summer weeks they come. Then the winds rush down, the snow falls, the tempests rage, and Lord Fujiyama lives alone.

No human being has yet stayed a winter on his summit, and even in the summer weeks the winds will blow the lava blocks from the walls of the rest houses and sometimes the pilgrim from the path.

Fujiyama stands alone, not one peak among a range, but utterly alone. Rising straight out of the sea on one side and from the great Tokyo plain on the other, his 12,365 feet in two long curving lines of exquisite grace rise up and up into the blue, and not an inch of one foot is hidden or lost. It is all there, visible as a tower built on a treeless plain. It dominates the landscape. It can be seen from thirteen provinces, and from a hundred miles at sea the pale white peak of Fujiyama floats above the blue.

AERIAL NAVIGATION.

The First Gas Bag and the First Dirigible Balloon.

On the 1st of December, 1783, when the first gas balloon rose from the Tuileries, carried up by Charles and Robert, the Marquis de Villeroy, an octogenarian and skeptic, declared it was tempting God himself. He was rolled in his armchair to a window of his chateau to witness the impossibility of such an ascension. But the moment the aeronaut, gayly saluting the spectators, rose in the air, the old man, passing suddenly from the most complete incredulity to unlimited faith in the power of genius, fell upon his knees and exclaimed: "O men, ye will find the secret of never dying! And it will be when I am dead!"

The public, easily confounding the atmospheric with the astronomic heavens, already hailed the day when the aeronaut would continue his aerial course to the moon, to Venus, to Mars or Jupiter.

Pierre Giffard, then Dupuy de Lome, tried the first dirigible balloons. Later Captains Renard and Krebs in their aeroplane, La France, went from Meudon to Paris and back at the same time that Gaston Tissandier was carrying out his fine experiments. But all progress was soon stopped by the weakness of the motors compared to their weight.

Nothing further could be done until the arrival of the explosive motor. In fact, it was the improvement in automobiles which won us the conquest of the air.

Hands and Feet.

It is said that Disraeli was prouder of his small hands than of all his great mental accomplishments. This was presumably because they were badges of aristocracy in their evidence that he had not been brought up to labor, and he worshiped aristocracy. And small feet of the same character—evidences that the possessor did not go barefoot when a child. Generations of carefully shod children of the nobility developed this characteristic of those of "gentle blood" as distinguished from the commonalty. But such proofs of superiority were not meekly endured. In due time brainy commoners discovered that the "artistic hand" was not small, but long and slender, and then came the athlete multitude, who scorn small hands and feet as evidences of effeminacy.—Indianapolis Star.

Gray Hairs In Wall Street.

"It seemed to me down in New York the other day," remarked a Clevelander who had just returned from the metropolis, "that one might almost recognize Wall street and the financial region by the number of gray haired young men you see. I had occasion to be in several offices on Wall street the other day, and I honestly believe more than half of the young men I saw had gray hair. I noticed the same thing along the street. It may have been just a coincidence, but I couldn't help wondering if they would have been gray just as soon if they had been at some other game for the last few years."—Cleveland Plain Dealer.

Stupid Fellow.

"Mary said 'No' to me last night," sighed Peter Sloman, "but I don't believe she could honestly tell why she did it."

"Oh, yes, she could," replied his cousin Kate. "She told me."

"Did she?"

"Yes; she said she didn't think you'd take 'No' for an answer."—Philadelphia Press.

Rome's Gormandizing.

The decline of a nation commences when gormandizing begins. Rome's collapse was well under way when slaves were thrown into the eel pits to increase the gamy flavor of the eels when they came upon the table.

Success has a great tendency to conceal and throw a veil over the evil deeds of men.—Demosthenes.

HAPPY MONTHS.

An Odd Custom Observed In England at Christmas Time.

"Happy months" is the name applied to the little mince pies made at Christmas time throughout England and served to any guests who may call at the house during the holidays.

The saying is that for every one of these tiny pies one eats a happy month will come during the year, only the pies must be given to the one who eats them.

When one calls at the house the little pies are brought forth with a glass of wine or a cup of tea, and, however well satisfied one may already be as regards one's appetite or how many of these "happy month" pies he has already eaten, it is considered a marked breach of etiquette to refuse the little pie, although one is allowed to take it home and eat it later. This, however, is not very often done, for who would refuse the coming of a happy month by refusing to overtax the stomach for just one more little pie?

In some parts of England these little pies are literally made by the dozen, so there will be plenty of them for family and friends. They are made of the richest of puff paste, too, which, at the best of times, is an indigestible goody, and the crust is filled with a mince meat filling that is even richer than the crust.—Suburban Life.

CEYLON ELEPHANTS.

The Only Species In Which the Males Have No Tusks.

What a sight for a Ceylon elephant hunter would be the first view of a herd of African elephants—all tuskers! It is a singular thing that Ceylon is the only part of the world where the male elephants have no tusks. They have miserable little grubbers projecting two or three inches from the upper jaw and inclining downward.

Nothing produces either ivory or horn in fine specimens throughout Ceylon. Although some of the buffaloes have tolerably fine heads, they will not bear a comparison with those of other countries. The horns of the native cattle are not above four inches in length.

The elk and the spotted deer's antlers are small compared with deer of their size in India. This is the more singular as it is evident from the geological formation that at some remote period Ceylon was not an island, but formed a portion of the mainland. It is thought that there must be elements wanting in the Ceylon pasturage for the formation of ivory.—Ceylon Manual.

An Austrian Dogberry.

The Vienna men of law once distinguished themselves in a unique manner. A Wachau peasant had been caught in the criminal act of throwing stones at rabbits. He had not hit them, and the rabbits had decamped without so much as suspecting the attack, but the peasant was hauled before the high courts of justice. His defense was that the rabbits had been close to his garden and that he had only tried to frighten the greedy rodents off his cabbages. All the same, he was condemned to three days' imprisonment. The peasant appealed against the sentence, but in vain. If a rabbit had been killed, said the authorities, the peasant would certainly have stolen it, and stealing a rabbit was an unlawful action. And thus the man from Wachau went to prison for three days, and the wise judges of Vienna bounded into fame for their method of applying the "if" and "and" theory.—Westminster Gazette.

The Sundial at Yale.

About the time of the Yale bicentennial celebration in 1901 some wag presented the university with a perfectly good sundial, which was elaborately advertised in the New York papers and with due solemnity set up in a conspicuous place on Berkeley oval. "The blamed thing never did take very well," the Record explained apropos of the trouble sundry undergraduates got into in trying to run off with the mainspring of it, and the grotesque grandeur of this expensive and beautiful piece of architecture set the Owl off into paroxysms of laughter in which the campus followed with a will. "Shay, Jack, what time is it?" "I can't tell you, old fel'; this sundial's stopped." And, "Hey, fresh, out there by the sundial! Strike a match and see if it isn't bedtime!" are typical.—E. R. Embree in Bohemian.

Wanted to Be Ready.

Servant—I've come to give notice, ma'am, as I am going to get married. Mistress—Indeed, Mary! How long have you been engaged? Servant—I ain't engaged at all, ma'am. Mistress—Well, who is the happy man? Servant—You know the big shop down the road. Well, the shopwalker looked at me the day before yesterday, and yesterday he smiled, and today he said, "Good morning," and I expect tomorrow he'll propose, and, you see, ma'am, I want to be ready.—London Answers.

Drawing Power.

D'Auber—Of course not every one can be an artist. One must have imagination to draw. Crittick—Yes; I notice that most so called artists in talking about themselves draw on their imaginations a great deal.—Catholic Standard and Times.

Optimism.

"Pa, do you know any optimists?"

"Yes. We have one in our office. Every time he draws his pay he thinks he is going to have several dollars left at the end of the week."—Chicago Record-Herald.

A fool at forty will never be wise.—Irish Proverb.

PAINTING'S ODD FATE.

Valuable Canvas by Firman Girard Found In a Swamp.

LOST FOR FIFTEEN YEARS.

Disappeared on Way to Chicago Fair. Now In Syracuse Museum—Adorned For Years Cottage of Hunter Who Found It—Present Owner Would Now Buy It.

After fifteen years of almost constant inquiry Firman Girard, the eminent painter, has at last discovered a valuable painting which disappeared while en route to the Chicago World's fair in 1893, says a special cable dispatch from Paris to the New York Times.

M. Girard sent twelve pictures for exhibition at the fair, but only ten arrived there. What became of the two remaining pictures is a mystery. M. Girard intrusted the search to Donald Harper, an American lawyer in Paris. Mr. Harper recently learned that one of the pictures is now in Syracuse, N. Y.

Exposed for three years to the winds, rain and snow in the Montezuma marshes, to be found by a lonely hunter and guide and used as a decoration for his cottage for years and finally rescued for the Syracuse Museum of Arts, is the remarkable history of this valuable painting, which disappeared years ago.

The painting, which is valued at more than $3,000, is entitled "A Visit to a Florist's Conservatory." It represents a woman in the conservatory choosing flowers, with the gardener near at hand, the conservatory buildings showing in the background.

Before the Chicago World's fair M. Girard consigned under the care of the French government twelve paintings for exhibition at the Chicago fair. Although the consignment reached New York apparently intact, the picture which has now found its home in Syracuse and another one were missing upon its arrival at Chicago.

In the winter of 1896 a hunter who lives in the Montezuma marshes and acts as a guide to hunters in that region, while trapping in an unfrequented part of that immense swamp near the point where the tracks of the New York Central pass, came upon a soiled and wrinkled canvas. Taking it home, he cleaned it as best he could and hung it upon his wall. Several months later a peddler who chanced by saw it. Appreciating that it had something more than an ordinary value, he endeavored to dicker for its possession. His anxiety, however, aroused the trapper, and he refused to sell.

The hunter thought little more of the matter until about five years ago, when Louis Will, a Syracuse manufacturer and a trustee of the Syracuse Museum of Fine Arts, engaged this man as a guide. Learning that Mr. Will was a connoisseur, the man mentioned the canvas, but at the time Mr. Will thought nothing of it. Later the man again approached him on the subject, but without arousing his curiosity. Later, when he heard of the circumstances surrounding the discovery of the picture, Mr. Will was sufficiently interested to see it.

When the trapper exhibited the canvas, Mr. Will did not realize its true value, although satisfied that it possessed no ordinary merit. He offered a moderate sum and became its owner. Upon his return home he asked Dr. George F. Comfort, director of the museum, to look at it. The instant Dr. Comfort saw the canvas he recognized the peculiar style of the noted Frenchman and felt sure that the signature it bore was genuine.

Mr. Will had the canvas cleaned and hung in his library. He commissioned Dr. Comfort to ascertain how it came to be lost in that out of the way corner of the earth. Dr. Comfort got into communication with the artist, and a voluminous correspondence has resulted. He found that the French government and the painter had been conducting an energetic search for the painting, although M. Girard had been compensated for its value by an insurance company.

Desiring to retain the painting, Mr. Will has since been in correspondence with the French consul in New York and Donald Harper, an American lawyer in Paris, who represents M. Girard, in an effort to determine its exact title, so that he may safely make the purchase.

Prisoner Fond of Fresh Air.

A colored fellow in the jail at Columbus, O., is a great lover of fresh air. He begs the jailer to let him out in front to scrub the steps, says the Columbus Dispatch. Of course his request is granted, and the steps are always white and clean as any floor. He likes to stay out so well that he will scrub them over two or three times each morning, and it is said that he would keep scrubbing all day if the jailer would let him. The amount of energy that he displays in this work would have kept him out of jail altogether. He says that when he gets out he will work all the time; no more jail for him.

The Modern Idea.

He knelt before the gentle maid
And held her hands within his own.
She looked down at him, half afraid.
And yet was glad they were alone.

"Be mine," he said, "and I will swear
To guard you well from want and woe
The smarting sorrows others bear,
My darling, you shall never know.

She heard his heartfelt, eager plea
And answered with a little smile:
"Your proposition pleases me.
I think I'll take you on awhile."
—Chicago Record-Herald.

A FORTUNE OF $200,000

Said to Be Awaiting Waitress In a Boston Lunch Room

Boston, Jan. 25.—The Globe says that Miss Georgia A. Smythe, a waitress in a Cambridge street lunch room, has received news from her home in New Brunswick that she is undoubtedly entitled to a fortune of $200,000 by virtue of being a great-great-granddaughter of Maria Fitzherbert, celebrated in history as having been married to King George IV of England, although the marriage was never officially recognized.

Miss Smythe's family have been landed proprietors in New Brunswick for at least four generation. Her father is dead and she and a sister are his only heirs.

When Maria Fitzherbert died in 1837 a vast quanity of her papers, including letters from George IV, were sealed by her orders for seventy years. They were recently opened at Windsor castle by order of King Edward, and, according to the advices Miss Smythe received from home, an advertisement has been published in New Brunswick papers calling for heirs of Mrs. Fitzherbert—who was wealthy in her own right, in addition to receiving a princely income from the empire when George IV espoused a German princess—to make themselves known with a view to receiving their shares in the distribution of a fortune aggregating something like $12,000,000. Lawyers retained by Miss Smythe's great-uncle believe that her share figures out something like $200,000.

Portland Loses $1,000,000 by Fire

Portland, Me., Jan. 25.—The monetary loss by the destruction of the city hall by fire is estimated at $1,000,000, but this sum will not cover the loss of papers and documents lost. City departments were swept clear of everything by the flames, with the exception of the city clerk's and the city treasurer's offices, the money and securities in the latter being believed to be intact. One of the mos valuable libraries in the state, the Greenleaf law collection, was completely destroyed. The blaze originated in the city electrician's office and was caused by crossed wires.

Advisory Board For Mayor

Salem, Mass., Jan. 25.—The appointment of an advisory board of prominent people of Salem is announced by Mayor Hurley. The board will assist the mayor by giving opinions in regard to matters of general public interest. The members of the board are D. M. Little, collector of customs and former mayor; W. H. Gove, a former alderman; D. A. Donahue, merchant; Mrs. Kate G. Wells, the author; J. A. Pitman, principal of the state normal school; J. F. Appleton, business man, and Dr. E. T. Poyrier.

Million Divorces In Twenty Years

Boston, Jan. 25.—More than 1,000,000 divorces have been granted in the United States in the last twenty years. This fact was intimated at the annual meeting of the National League for the Protection of the Home, held in this city. One of the matters engaging the attention of the league is a movement to stop the influx of people from Massachusetts to Rhode Island for hasty marriages. No less than 525 couples from this state took out marriage licenses in Providence during the year 1907.

Fire Loss of Over $100,000

Everett, Mass., Jan. 25.—Everett hall, a large three-story wooden building, long identified with the history of the city, used by the Masons, a moving picture show company and for mercantile purposes, was destroyed by fire last night. Two buildings of smaller size were also burned. The total loss is more than $100,000. The fire started in the two-story Everett Fair building from the boiler in the basement.

New England Bankers Congratulated

Boston, Jan. 25.—United States Treasurer Treat was very busy in Boston yesterday, meeting men of all walks of life and giving them his ideas of the financial situation in the country, which he referred to as most encouraging. He congratulated New England bankers upon being able to sustain the credit in this section of the country with so little help from the national government.

Probably Fatally Burned

Salem, Mass., Jan. 25.—Mrs. Marguerite Naize was alone in her apartments last night when a lamp exploded and her dress caught fire. She ran down stairs to the street and extinguished the blaze by rolling in the snow, but her condition is so serious that she is not expected to recover.

Will Fight For Prohibition

Concord, N. H., Jan. 25.—A determined effort is to be made to add New Hampshire to the increasing number of states in which prohibitory liquor laws are in force. This state had a prohibitory law until 1903, when the legislature enacted a high license, local option law.

Big Plant to Again Start Up

Providence, Jan. 25.—The 1800 employes at the silversmith plant of the Gorham Manufacturing company welcomed an announcement to the effect that within two weeks the plant will start on full time. The works have been operated on short time for several months.

Arrest In the Higgins Murder Case

Calais, Me., Jan. 25.—Nicholas Wallace, who was arrested at Topsfield as a suspect in the Higgins murder case at Baileyville, was arraigned before Trial Justice Dudley of Baileyville and pleaded not guilty. He was held without bail for trial.

CITY OF PRESIDENTS

Birthplace Of Two Burial Place Of Two

Old historic Quincy settled in 1625 has much of interest to visitors. When Braintree was incorporated in 1640, the territory now known as Quincy, was a part. In 1792 Quincy became an independent town, and in 1888 was incorporated as a city.

Quincy was named in honor of Col. John Quincy, descendant in the third generation from Edmund, 2d, who settled in Quincy, in 1634; grandfather of Abigail (Smith) Adams, the wife and mother of a President of the United States.

The city includes Wollaston, Atlantic, Quincy Point, South Quincy, West Quincy, Montclair, Norfolk Downs, Wollaston Park, Squantum, Houghs Neck, Adams Shore, Germantown and Quincy Neck, comprising in all over 16 square miles, of which 2,530 acres are in public parks.

BIRTHPLACES OF PRESIDENTS

Birthplace of John Adams, the first Vice President and second President of the United States, Franklin street, Quincy Adams; house built in 1681 and restored in 1897 by Adams Chapter, Daughters of the Revolution. Open to public. Admission charged.

Birthplace of John Quincy Adams, the sixth President of the United States, junction of Franklin street, Presidents road and Independence avenue. Built 1716, restored 1896 by the Quincy Historical Society. Open to public afternoons from 2 to 5. Admission charged.

ABIGAIL ADAMS CAIRN.

Penns hill, erected June 17, 1896, by Adams Chapter, Daughters of the Revolution, to the memory of Abigail Adams, who with her son, John Quincy, from the spot watched the smoke of battle at Bunker Hill. Cairn composed of many historic stones, the corner stone being part of the old sleeper of first railroad in United States which ran from Quincy quarries to tide water, Neponsit river.

BURIAL PLACE OF PRESIDENTS.

First Congregational Church (Unitarian) at Quincy centre. In auditorium each side of high pulpit, are mural momuments, to the memory of John Adams, the second president, and John Quincy Adams, the sixth president of the United States, and their wives. The funeral of John Quincy Adams was held in this church. Beneath the entrance is the Adams tomb, reached by stairways from the vestibule. Near the tomb is the box in which was brought from Washington the body of John Quincy Adams, also the old town hearse. Admission may be secured on application to W. E. Dewhurst, sexton, 3 Maple Place. A fee is asked for attendance, etc.

HANCOCK CEMETERY.

Hancock cemetery across the street from First church contains many old stones. Among the old graves are those of Henry Adams, founder of the Adams family who died Oct. 5, 1646; Rev. William Thompson, 1st pastor over the Braintree church who died Dec. 10, 1666; Rev. Henry Flint who died Oct. 11, 1668; Rev. John Hancock father of the Patriot who died May 7, 1744 and many other notable people.

JOHN HANCOCK BIRTHPLACE.

Adams street, junction of Dimmock and Hancock streets. A bronze tablet has been placed by the City of Quincy on Adams Academy to mark the place where the house stood in which the patriot John Hancock, the bold signer of the Declaration of Independence, was born.

PRESIDENTS ADAMS MANSION.

Adams street, corner Newport avenue Quincy. Residence of President John Adams and contains many family relics. Occupied by descendants. Not open to public.

PRESIDENTS LANE.

Now Goffe street, leading from Adams street, near Mansion. Opened by John Adams to drive his cows to pasture.

DOROTHY Q. HOUSE.

Hancock street, corner Butler road, Quincy, Old Quincy homestead in which Dorothy Q was born. Owned by the Massachusetts Society of Colonial Dames. Has quaint old paper on parlor put on for wedding of John Hancock and Dorothy Quincy; also secret chamber and other interesting feature. Open free to the public on Saturdays, from 11 A. M. until 4 P. M. Other days admission charged

MYLES STANDISH CAIRN.

Squantum heights, erected in 1895 by the Daughters of the Revolution, of Massachusetts, in memory of Captain Myles Standish and his men of Plymouth Colony, who landed here Sept. 30, 1621, guided by the Indian Tisquantum.

MYLES STANDISH SPRING.

On the beach to the left and back of Squantum Inn. Spring of fresh cold water, where Standish and his party breakfasted and thence started to explore the country around Boston Bay.

SQUAW ROCK.

Pile of rock, on which is a perfect head of a squaw, frequently mentioned in early Squantum history. Near by is also Sachem's Knoll.

PILES CURED AT HOME BY NEW ABSORPTION METHOD.

If you suffer from bleeding, itching, blind or protuding Piles, send me your address, and I will tell you how to cure yourself at home by the new absorption treatment; and will also send some of this home treatment free for trial, with references from your own locality if requested. Immediate relief and permanent cure assured. Send no money, but tell others of this offer. Write today to Mrs. M. Summers, Box P, Notre Dame, Ind.

THE BEST FLOWERS ON THE MARKET
YOU WILL FIND AT

TIP.

[Original.]

"Can you find my dog?" said an old lady to the man at the desk at a police station. She was a diminutive woman with a pale face and grizzly gray wavy hair pulled down in an old fashioned way over her temples.

"Your dog, madam?"

"Yes. He's been missing for weeks. I'm sure he's been stolen, for he wouldn't have left me willingly for the world. He's a Scotch terrier, and his name is Tip. He loves me better than any one, and somehow I can't get along without him."

"When did you miss him, madam?"

"It's three weeks ago last Wednesday. I saw a strange man call to him and pet him. I thought the man had taken a fancy to him—he's such a beauty—but didn't suppose he would steal him. Poor little Tip!"

The last words were spoken with as much tenderness as if Tip had been a kidnaped child.

"Is that all? Were there no other suspicious circumstances connected with your dog's disappearance?"

"Nothing connected with the dog, but something happened that night. Burglars entered the house and took the few spoons I had left of my grandfather's silver."

"Have you recovered them?"

"No, but I wouldn't mind that so much if I had Tip, though I'm very poor. I'm afraid they're not treating him well, and I'm lonesome without him."

"H'm! The man who petted him took him to deprive you of the alarm the dog would give when the house was entered. Burglars won't enter a house without first getting rid of the dog if there is one."

"Do you think so? I supposed he admired him. Everybody admires Tip. Here's his picture."

She drew a photograph from her reticule and handed it to the officer, who inspected it, muttering to himself, "Ugly enough to be a prize fighter." Then to the lady, "I fancy they may not have killed your dog, madam"—

"Heaven forbid!" she interrupted, raising her hands and her eyes.

"They would more likely try to sell him since they could easily get a big price for him. I'm afraid we can't do anything for you, madam. If your dog hadn't been stolen to enable the thief or thieves to rob your rouse, I should advise you to advertise a reward for his return, stating that no questions would be asked. But, you see, if they got away with your spoons they wouldn't risk trying to get a reward for the dog. They're not quite such big fools as that. No, ma'am; we can't find your dog for you, but if you choose to leave your address if anything turns up we'll let you know."

The old lady went away sorrowful.

A week passed when one morning a policeman called upon her and said the chief would like to see her at the station. She went there and saw the same man behind the desk as before.

"I have word," he said, "that a suspicious character is loitering about Arlington, fifty miles up the railroad. He's got a dog with him which he's trying to sell. I've phoned them to arrest him and hold him till we can discover if the dog's yours."

"I'll go right away and see," cried the old lady excitedly.

"There's no occasion for that," said the man at the desk. "Just wait a moment."

He took up a telephone receiver, called the police station at Arlington and asked to have the dog brought to the phone. When it was announced the dog was there, the chief talked in the receiver: "Hello, doggy! Doggy want a bone? Hello, Tip, Tip, Tip!" Then he asked how the dog had taken his call. The reply came that the only recognition he showed was a slight pricking up his ears at the name Tip.

"Now, madam," said the chief, "you talk to him."

"Tip! Is that you, Tip? Did the naughty man take my little doggie away from me?"

For reply there came a series of joyful barks.

"Let up," came a policeman's voice, "or the dog'll break the machine."

The chief ordered the dog sent down, and the same afternoon he was in his mistress' arms—that is, so long as she could keep him there, for he jumped down and up and circled about, barking, while the old lady sat with joyful tears streaming down her cheeks.

It was a few days after this that the lady received a note from the president of the —th National bank stating that if she could find it convenient to call at the bank he would be pleased to see her. He added an invitation for her to bring her dog. She sent a reply that the dog was not for sale. That afternoon the president called on the lady.

"There's no use," she said, "for you to try to buy Tip. I wouldn't part with him for all the money in your bank."

"Nor would I deprive you of him for twice that amount. I have called to tell you that Tip has been the means of our recovering $100,000 worth of stolen securities. When you called to him over the phone, the man who had him was about to be released. He was held for further investigation and turned out to be one of a gang that robbed our bank six months ago. Here are your spoons, and here is the reward offered for the information leading to the recovery of our bonds. I give it to you in trust for Tip as long as he lives, though you are to spend the income and have the principal at his death."

Tip and his mistress are living in luxury. MABEL D. HENDRICS.

Councillor Bemis Guest of Honor

Hon. A. F. Bemis of Brookline, a member of the Governor's Council, will be the speaker on Tuesday evening at the regular meeting of the Congregational club of Wollaston. Mr. Bemis has been in public life since 1900, as a representative, senator and councillor. Practical Politics in 1902 said of him:

"Representative Albion F. Bemis is of that class of men whose participation in public life is emphatically to be encouraged, and to whom the people may safely and wisely, as a rule entrust the framing of their laws. It is too often the case in American political life that the men whose experience would prove most valuable to the state think they are too much engaged in their private business pursuits to give the necessary time and attention to public duties. The state is a distinct gainer when such a man as Mr. Bemis can be induced to place his ability and business talents at the disposal of the people.

"The personality of Mr. Bemis is typical of the successful American manufacturer,—keen, observant and pertinacious, with an apparent liking for hard and earnest work. A never failing courtesy of the old school sort has made Mr. Bemis a host of friends among his fellow members and this has also contributed in no small degree to the success of measures in which he was interested."

Brooks Adams to Preside.

Brooks Adams, Esq , will preside at the Citizens' Association meeting in Music Hall next Thursday evening at which President Eliot will speak on "City government by a few selectmen." The following named members of the Association have been appointed ushers for this meeting:—Messrs. Emery L. Crane, Delaware King, Henry L. Kincaide, Lawrence W. Lyons, Harry W. Read, James F. Burke, George W. Abele, Charles H. Burgess, C. Theodore Hardwick, A. F. Schenkelberger, Maurice P. Spillane, and George E. Pfaffmann.

Musical Treat.

Music lovers of the city will be glad to know of the musical service at Bethany church at half past seven Sunday evening. The Weber Male Quartette of Boston, than which there is none superior, has been engaged through the kindness of friends in the church. The Quartet will render five or six selections. At the morning service Dr. Hardy will read a sermon-story entitled "A Religious Experiment." The public is cordially invited to these services.

At Brooklyn Institute.

Dr. Edwin N. Hardy gave his illustrated lecture on "The Old-Time New England Meeting House" on Thursday evening in Brooklyn, N. Y., before the Brooklyn Institute of Arts and Sciences, considered by many the best lecture platform in the country. After the lecture the management at once engaged Dr. Hardy as one of their lecturers for next year, suggesting as subject, "The Old Time New England Home Life."

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists.

SERIOUS ACCIDENT

Young Woman Run Down While Boarding Train At Quincy Adams

Miss Catherine Walsh, aged 19 years, was seriously if not fatally injured yesterday afternoon, by being struck by a train at the Quincy Adams station.

She has been stopping with her uncle, Michael F. Collins, at the corner of Federal and Independence avenues. Mrs. Collins is at the Carney hospital, and Miss Walsh left home to go to see her. She arrived at the depot in time to take the 1.10 inward train. The train was late, however, and it was nearly 2 o'clock before the train arrived.

When the train came to a stop Miss Walsh left the depot and started acrosh the outward rails to board the train. As she did so an outward express came along and struck her, throwing her onto the platform. It is claimed that the engineer of the express did not see the train in the depot on account of the storm until it was too late to stop.

Word was telephoned to the police to meet the inward train at the Quincy depot to take her to the hospital, but she was taken through to Boston and thence to the Massachusetts General hospital.

As far as can be learned, there were but two boys who saw the accident. Just what the extent of her injuries are, is not known. It is said, however, that some of her fingers were cut off, her hip broken and that she was injured internally.

This morning it was reported that the girl was failing and that she had slim chances of recovery.

Is Almost a Centenarian

Miss Judith Spear ,the oldest resident of Quincy, observed her 96th birthday anniversary yesterday, at her home on Saville avenue. For several years Mrs. Spear has been able to receive callers on her birthday and to converse intelligently on the topics of the day. This year, however, owing to the severe storm and illness she was not able to receive callers. Miss Spear's health has been remarkably good, and she has been unusually smart for one of her advanced years up to recently. Two weeks ago, while physically as well as usual, she was obliged to take to her bed, where she is now confined. Her ailment is that incidental to advanced age.

Valentine Dances.

Two dancing parties are to be given at Quincy Music Hall in February for the benefit of the Day Nursery. The first, on Saturday afternoon, the 8th, will be for young people and will include a Valentine German as well as plenty of other dances, with music by an orchestra. The second will be on the evening of the 14th, for which Mullally's orchestra has been secured. It promises to be another event in the social calendar for the season. The following ladies are among the patronesses: Mrs. Theophilus King, Mrs. Henry M. Faxon, Mrs. Harry L. Rice, Mrs. Russell A. Sears, Mrs. Walter E Burke, Mrs. Everett C. Bumpus, Mrs. John Nolan, Miss Georgiana C. Lane, Miss Alice K. Prescott, Mrs. Nathaniel S. Hunting, Mrs. C. Theodore Hardwick, Mrs. Eben W. Sheppard, Mrs. Dexter E. Wadsworth, Mrs. James H. Stetson, Mrs. Joseph M. Sheahan, Mrs. Roderick McLennan, Mrs. R. J. Teasdale, Mrs. James F. Burke, Mrs. Arthur Sibley, Mrs. Edward E. Jameson, Mrs. Thomas Lacey, Mrs. Henry G. Fay, Mrs. Frank A. Page, Mrs. Adelaide Armstrong, Mrs. Roger H. Wilde, Mrs. Charles R. Safford, Mrs. Harry W. Read, Mrs. Thomas Addison, Mrs. Joseph Dasha, Mrs. John L. Gow.

—It is doubtful if any of the laboratories maintained by the government for scientific research are more unique in character, yet bear promise of more important results, than one which has just been established in Washington by the United States Forest Service for investigating the structure of commercially important woods.

Old Chronic Sores Cured by "THE HOUSEHOLD SURGEON." Druggists refund money if Dr. Porter's ANTISEPTIC HEALING OIL fails. 25c

Newsy Budget From Shipyard

The Electric Boat Company, with headquarters in the yard of the Fore River Shipbuilding Company, Quincy, is constructing three submarine boats for the Austrian government.

The New York Herald prints the following dispatch, dated Shanghai, Thursday:

Despite the state of her finances Japan is planning for two 20,000-ton battleships and two 18,500-ton armored cruisers of the greatest speed, to be built immediately.

China is placing orders for 40 torpedo boats and two gun vessels in foreign yards. There is keen competition for orders at Pekin.

The Japanese government is installing wireless telegraphy on all Yusen Kaisha-American liners.

Three Japanese cruisers will visit Manila in the latter half of February to attend the carnival.

The Japanese navy already exceeds the U. S. navy in numbers of armored cruisers, of protected cruisers, of destroyers and of torpedo boats. It has two battleships larger than the Dreadnought launched or nearing completion, to none for the United States. In 1907 Japan launched the battleship Aki, sister of the Satsuma, launched in 1906; the armored cruisers Kurame and Ibuke, the third-class cruisers Tone, Yeddo and Mogami. The United States launched the third-class cruisers Salem, Chester and Birmingham. Japan launched a score of torpedo boat destroyers, the United States none. Japan laid down three battleships of the Dreadnought type, an armored cruiser of 18,450 tons, the Ibuke, which was launched six months later, breaking all records, and a third class cruiser or scout. The United States laid down two battleships, the North Dakota and the Delaware.

If Japan keeps on for three years as she is building ships at present, she will pass the United States and contest with Germany for the place of second naval power. Germany will build three 20,000-ton battleships and an armored cruiser every year for several years to come.

THE COCHATO CLUB.

On Wednesday evening Prof. Chas. E. Fay of Tufts College gave his wonderful illustrated lecture "Mountaineering in a New Switzerland Canadian Alps," before a large and appreciative audience.

The lecturer has made many visits to this wonderful region in the far northwest; being in many instances the first to ascend some of the most inaccessible snow peaks and to explore several beautiful valleys.

The lecture revealed a superb mountain region on our own continent, destined to become better known and enjoyed in the near future.

Afternoon bridge will be enjoyed by the women next Tuesday at 2.30 o'clock.

He Wanted to Burn Them.

Husband (looking up from his paper)—What asses men can make of themselves!

Wife—What is the matter now, dear?

H.—I am looking at the love letters in this breach of promise case.

W.—Are they interesting?

H.—Interesting? They are absolutely sickening. Hear this: "My dear ducky." "My lovely dorey." Ha, ha, ha!

W. (demurely)—It does sound rather foolish, doesn't it?

H. (with a burst of laughter)—Foolish? Idiotic, you mean. It's the worst nonsense imaginable. To think that any man in his senses could write such stuff as this: "I send you a million kisses, my goosie poosie, sweety peety!" Ha, ha, ha!

W.—Perhaps he loved her when he wrote those letters.

H.—Suppose he did! Is that any excuse for writing such bosh?

W.—Yes, it should be. Here are some letters I found today when looking over my old relics—relics of courtship. They are very foolish, but very precious to me, I assure you. They are your letters. One of them begins, "My ownest own preciousest little ducky darling, my"—

H. (hastily)—That will do. Put them in the fire.—London Scraps.

Gunpowder.

The explosion of gunpowder is divided into three distinct stages, called the ignition, inflammation and combustion. The ignition is the setting on fire of the first grain, while the inflammation is the spreading of the flame over the surface of the powder from the point of ignition. Combustion is the burning up of each grain. The value of gunpowder is due to the fact that when subjected to sufficient heat it becomes a gas which expands with frightful rapidity. The so called explosion that takes place when a match is touched to gunpowder is merely a chemical change, during which there is a sudden evolution of gases from the original solid. It has been calculated that ordinary gunpowder on exploding expands about 9,000 times or fills a space this much larger as a gas than when in a solid form. When this chemical change takes place in a closed vessel the expansion may be made to do a work like that of forcing a projectile along the bore of the great gun or test tube in the line of least resistance.

Why Snow Is White.

The reason snow is white is that all the elementary colors are blended together in the radiance that is thrown off from the surface of the crystals, which may be examined in such a way as to detect these colors before they are mingled together to give the eye the impression of whiteness. The whiteness of the snow is also in some degree referable to the quantity of air which is left among the frozen particles. Considerably more than a thousand distinct forms of snow crystals have been enumerated. These minute crystals and prisms reflect all the compound rays of which white light consists. Pink and various other tints may be seen reflected from sheets of snow under certain angles of sunshine. So much light is reflected by snow in the day that the eyes often suffer from it, and enough is given in the night to guide the traveler in the absence of artificial light or moonlight.—Chicago Tribune.

The Eleventh.

Archbishop Usher was once washed ashore from a wreck off the coast of Ireland. Almost destitute of clothing, he wandered to the house of a church dignitary and asked for shelter and aid of a brother clergyman.

"How many commandments are there?" inquired the other, thinking to detect an impostor.

"I can at once satisfy you that I am not the ignorant impostor you take me for," replied the archbishop. "There are eleven commandments."

"No," was the sneering comment; "there are but ten commandments in my Bible. Tell me the eleventh and I will relieve you."

"There it is," said the archbishop; "'a new commandment I give unto you, that ye love one another.'"

Holding His Job.

Michael Callahan, a section boss for the Southern railroad, has a keen Gaelic wit. One warm afternoon while walking along the railroad tracks he found a section hand placidly sleeping beside the rails. Callahan looked disgustedly at the delinquent for a full minute and then remarked:

"Slape on, ye lazy spalpeen, slape on, fur as long as you slape you've got a job, but when you wake up you ain't got none."—Lippincott's Magazine.

A Run of Luck.

Ruffien—Old fellow, you look blue. Are you on the wrong side of the market? Trumbull—Market be hanged! I moved yesterday. The van man broke £5 worth of the furniture. I lost a five pound Bank of England note, the gas company held me up for double the usual deposit, and I've just been summoned on a jury.—London Mail.

A Choice of Evils.

"Your daughter can come to me for her music lessons and can do her practicing at home."

"I'd rather you'd give her her lessons here at home and have her do her practicing at your rooms."—Houston Post.

A Mountain View.

She (on their wedding trip in the mountains)—Carlo, what's that long white streak on the ground over toward our inn? He—My Lord! That's probably our bill!—Transatlantic Tales.

Behavior is a mirror in which every one displays his image.—Goethe.

Plain Face?
Your doctor understands the formula of Ayer's Hair Vigor. Ask him about your using it. Do as he says. He knows.
Did nature give you a plain face? What of it? Make your hair so handsome that every one will forget your face. Make them talk only of the softness, richness, and marvelous beauty of your hair. Ayer's Hair Vigor, "the new kind," does not color the hair. J. C. Ayer Co., Lowell, Mass.

Open from January 25 to February 1. 10 to 11.
ADMISSION, 50 CENTS.
CHESTER I. CAMPBELL, Manager. Jan. 25-1t

How Much Could You Get For Your Farm?

You are a farmer. You live near this town. You own land. Let us say that you own more than you need and would like to sell a hundred acres.

How much could you get per acre?

Land values have risen lately. But has the value of your land risen as you think it should?

Your land is good land. You think it is worth considerably more than anybody has offered you. Well, let us see.

A man buying farm land naturally prefers to locate near a thriving, up to date town. He wants good home markets for his crops. He wants good schools.

Let us say your land is three miles from town. A farm that looks very much like yours is three miles from a town twice as big and twice as prosperous as this town.

If you were going to buy a farm for your own occupancy, wouldn't you pay a whole lot more for land near the town that is twice as large and twice as lively?

Of course you would. It would be good business.

Now, what makes a town big and bustling? Money. Money in circulation. Not in circulation in Chicago, for instance, but right in the town that wants to grow.

How much money have you sent to the big Mail Order houses in the city the past ten years? How much have your neighbors sent? How much have all of you together put out of circulation here at home?

It is probably beyond calculation. If all that money had been spent in your own home town, isn't it reasonable to assume that the town would have grown more than it has grown?

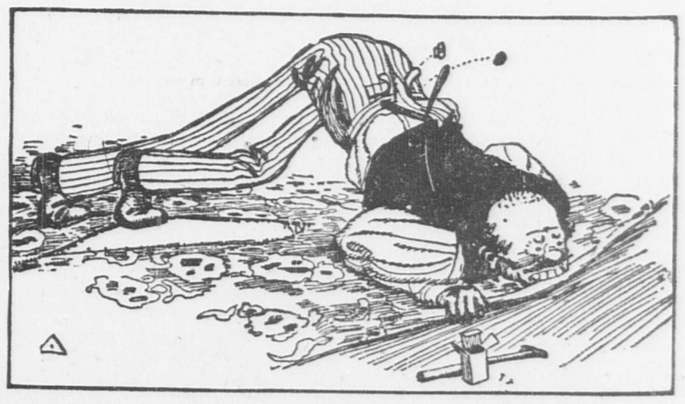

Wouldn't this town be a bigger and better town?

Wouldn't it have more stores to buy your produce?

Wouldn't it have more public improvements to make it more attractive to outsiders who might come here to live, to go into business, or buy your surplus land at a good figure?

TO TRADE AT HOME MEANS TO HELP THE TOWN AND THE NEIGHBORHOOD. TO HELP THE TOWN AND THE NEIGHBORHOOD MEANS TO HELP YOURSELF.

Right on the Job.

When father lays the carpet,
He gets right on the job,
And WANT ADS. get there also
When you try 'em on the mob.

SNEAK AWAY

Auto Party Run Down Child And Hurry Away To Escape Suit

Life imprisonment would be about the proper penalty for autoists who sneak away after injuring people on the highways. The accidents are serious enough, but one can have only indignation for a party like the one reported below by the Herald. The town authorities should offer a big reward for their apprehension:

In an effort to escape detection after running down a little girl with their touring car, five men left little Catherine Lennon, 5-year-old daughter of M. T. Lennon, Canton avenue, Milton, by the roadside near her home, and drove away.

The child is at the Massachusetts General Hospital with a broken right thigh. The police are looking for the men, but without definite clews. Indignation over, the affair runs high in Milton.

In company with her brother John Catherine was walking home along Canton avenue when the automobile overtook her, about half a mile from home. They were walking almost in the gutter to avoid the machine, when ie swerved to one side suddenly knocking the little girl down and running over her.

As the child crawled out from under the machine and made painful attempts to stand up with her broken thigh, one of the five men in the car said that they ought to take her to her home. Little John, who is 11 years of age, listened to the conversation.

"No, we won't. We'll be sued if we do," replied the one to whom the remark was addressed. Then they tried to get the boy to carry his crippled sister home. This was out of the question, as the child was too heavy and the distance too great. At last the automobilists decided to carry the children part of the way home and leave them there.

Before the parents of the children knew of the accident the touring car was on its way again. Little John was left standing by the roadside with his sister in his arms. She was screaming with pain. There neighbors found the two and helped them to their home.

PUBLIC INSTALLATION.

The public installation of the officers of Delta Lodge, A. F. and A. M. took plyace at the Masonic Temple, Braintree, on Tuesday evening and was a very interesting and successful event. There were nearly 400 in attendance from Braintree, Weymouth and the surrounding towns, and the many ladies present showed particular interest in the ceremony.

The officers were installed by Wor. Bro. Frederic L. Putnam, Grand Lecturer of the Grand lodge of Massachusetts assisted by Wor. Bro. Charles N. Shute as Marshal, who were received by Wor. Bro. William S. Stone, the retiring master.

The officers for the ensuing year are as follows: Wor. Master, George T. Burnham; Senior Warden, John H. Guy; Junior Warden, Charles G. Jordan; Treasurer, W. Edward Gutterson; Secretary, Harry L. Patten; Chaplain, Josephus Sampson; Marshal, John N. Rodgers; Deacons, Walter J. Harrison and Byron C. Shanks; Stewards, Atherton N. Hunt and James H. Stedman; Inside Sentinel, Henry D. Higgins; Tyler, Edward T. Jordan.

The ceremony was conducted very ably by the installing officers and was interspersed by music. A fine violin solo was given and a double quartet of members of Delta lodge rendered very acceptably many pleasing selections. One of the features of the musical program were the two songs "When Evening's Twilight" and "'Tis Morn" by the quartet while the electrical effects gave the setting and rising of the sun at twilight and morn. Several humorous stories were told and refreshments were served.

It was the first opportunity for many to view the interior of the new temple and many compliments were given. The ventilation of the lodge room, which is a room almost entirely without windows, proved very satisfactory for the large number of people present, and the concealed lights gave a very soft glow to this fine room. Altogether it was a very enjoyable evening.

Only Daily in Norfolk County.

Quincy Downed The Milton Five

By far the best exhibition of the National indoor sport was given in the Y. M. C. A. gymnasium Thursday night, when the two teams from the Cunningham gym of Milton went down before the sturdy sons of Quincy.

The preliminary game was between the Milton Midgets and the slightly heavier Employed Boys' team. The Midgets had won over fifty straight victories but met their Waterloo. The playing of Erickson who scored 12 of the 22 points for Quincy was a feature. The Midfiets' score was 14.

The Quincy first team is a much lighter aggregation than the "Milton Five," and a short time ago suffered defeat at their hands in Milton. At Quincy, however, the score was more than reversed. After forty minutes of the fastest and cleanest basket ball seen here this year the score stood 31 to 18 in favor of Quincy.

The summary:

QUINCY.		MILTON.
McDonald & Gourlie	r.f.	Archer
Morris (capt.)	l.f.	Eaton
Tupper	c.	Powell (capt.)
Parker	r.g.	Landstrom
Mundee	l.g.	Forbes

Goals—Powell 6, Tupper 4, Morris 4, Gourlie 4, Parker 2, Archer 2, McDonald and Landstrom. Referees—Burnett and Maxwell. Time Keeper--Trask. Scorer—Conin.

Tie Score on Overtime Period

The Quincy High school basket ball team met the Melrose team yesterday instead of the Weymouth High as scheduled, and found them worthy rivals. It was the first visiting team the Quincys have not defeated, but as it was a tie the home team is very well satisfied. The second half was extended five minutes in efforts to break a tie of 13 to 13 bnt scoring had come to a standstill, and it was then decided to call the game a tie.

The summary follows:

QUINCY	MELROSE
Gourlie, l.f.	r.g. Stantial
Howe, r.f.	l.g Stafford
Duncan, c.	c. Milliken
Marden, l.g.	r.f. Knapp
Marsh, r.g.	l.f Locke

Score—Quincy High 13, Melrose High 13. Goals form floor—Howe 3, Gourlie 2, Duncan, Stafford, Locke 3. Goals on free tries—Howe, Knapp 5. Referee—Tupper. Umpire Saltmarsh, Timer—Cole. Time—20 minute halves Attendance—200.

A Need for More Judges

Editors of the Ledger:

I appreciated your joke a few days ago about the courts not working overtime on my mechanic's lien case.

They certainly did not exceed the speed limit. But they were fair to labor and proved it by deciding in my favor at every stage of the proceedings. I have no fault to find with the judges even if they don't belong to the union, and I certainly have no fault to find with the gentleman who opposed me or his attorney, and when the last round was fought I got my money.

My grievance is with the system. It is unreasonable to have the business of the courts in such condition that it takes the man who furnishes labor and materials nearly four years to get his money. Many a man with a good case gives it up in despair. This is the strong card of the corporations and they play it to the limit. I invite the attention of our Representatives in the General Court to this matter.

The number of judges should be increased or the speed limit raised so that business can be done a little faster.

G. B. Bates.

TODAY'S COURT.

The continued case of Augustus Van Allen, for drunkenness and larceney of a pair of shoes at Weymouth, was heard and he was fined $15 on each complaint.

The continued case of John Hokkanen, for larceny at Quincy, was heard. He was found not guilty and discharged.

—The Boston, Revere Beach & Lynn Railroad will discontinue its all-night service, the last train leaving Boston at 12 05 A. M. It has been a losing proposition.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

WEYMOUTH.

On Monday an accident at the Hunt's labratory for fireworks resulted in an injury to Mr. Guerton. While obtaining a pan of powder his shoe rubbed against the floor and a spark occasioned a blaze.

John Harris Gutterson, who has quite a social following, will leave Boston the last of the week to be the guest of the Somersworth Woman's club on Saturday afternoon. He will give a talk on Thomas Moore, and nodoubt will repeat his success before the Abbot Academy Alumnae Association on last Saturday at the Vendome.

Miss Alice M. Nash is spending the week with her sister Mrs. Frank H. Walsh at Quincy.

Miss Katherine Tracy has been entertaining Miss Margaret Burke of Roxbury.

John Guertin was badly burned by an explosion at Hunt's factory Monday afternoon and on Tuesday Charles Goff was also burned by an explosion of chemicals.

The many friends of Mr. and Mrs. Warren Weston sympathize with them in the death of Mr. Clark (Mr. Weston's father), who has been a member of their family in his recent years of declining strength and frail health. Mrs. Harding of Cohasset is a daughter of Mr. Clark. His strength and vigor gradually abated through the fall and winter, and on Wednesday he passed over to the great majority at the advanced age of eighty-five years.

The Red Men Raise Up Chiefs

On the sleep of the 23d Sun of the Cold Moon, G. S. D. 416, (Jan. 23, 1908) the elective and appointive chiefs of Hodenosaunee tribe, I. O. R. M., of Wollaston, were raised to their respective stumps. This was done by Deputy Great Sachem, Wm. Scampton of Roslindale, assisted by Past Sachems Snow of Dorchester as deputy great prophet. The rest of the suite being past sachem from Ponkapoag, Normanton and Kitchamauging tribes.

The ceremony was performed in a most dignified and excellent manner, and the following officers were raised up:

Sachem—Geo. A. Wardwell.
Prophet—W. L. Jefferson.
Sen Sagamore—Chas. Waterhouse.
Junior Sagamore—George Lavelle.
C. of R.—E. M. Dunn.
K. of W.—William Hobart.
C. of W.—George Dicky.
G. of F.—John P. Thomas.
G. of W.—L. F. Addison.
1st Warrior—John Egan.
2d Warrior—John McLeod.
3d Warrior—William Manninan.
4th Warrior—Clifford Whall.
1st Brave—Sidney Williams
2d Brave—Edward Herrick.
3d Brave—Frank Herst.
4th Brave—James O. Connell.

A pleasing feature of the evening was when Deputy Great Sachem Scampton, in behalf of the tribe, presented Past Sachem J. P. Thomas with a solid gold emblematic charm. Brother Thomas has been a member of the order for nearly 30 years and a faithful and hardworking member. A collation was served and a social time enjoyed by all.

At The Scenic Next Week.

An entire change of bill, which comprises the following, will be produced at The Scenic next week, commencing Monday night: George L. Platte, "The Violet Girl," clever female impersonator; Louthitte & Jones, high-class comedy sketch artists; Coden & Mack, "Up-To-The-Minute" singers and dancers, and William Chase, who will sing several entirely new illustrated songs. In addition to the above the latest effects in motion pictures will be shown.

Seal Tail Cases.

The Herald reports that the grand jury of Essex county yesterday found indictments for larceny against the five Maine Indians who, it is alleged fraudulently obtained money from the state of Massachusetts for the capture of seals. Perjury was the charge sent in the

sent to the grand jury. The Indians and the counts are: Benevett Francis, Gloucester, eight counts; Sapiel Mitchell, Gloucester. two counts; D. Soebason, Nahant, and Sapiel Soc-Thomas Bailey, Gloucester, Joseph ciobie, Salem, one count each.

The Indians were brought to Massachusetts from Eastport, Me., the first day of the new year by State Officer Proctor. City Clerk Somes of Gloucester said the treasurer paid out to these Indians $1,005 on his certificates. It is charged they obtained $713 from City Clerk Entwistle in Salem, and from the clerk at Nahant $201.

BRAINTREE.

The only Braintree transfer of real estate recorded at the Norfolk registry this week was that of William S. Levandier to Louise McKeough.

The Krow Eldeen society will meet next Tuesday evening with Elva Bates of 23 Sampson avenue.

A belt broke in the finishing room at the Slater & Morrill shoe factory Wednesday which did considerable damage and gave the workmen an unexpected vacation.

The many friends of Amasa S. Thayer of Washington street have anxiously followed him through his serious illness and hope he may soon be restored to full health and strength.

Miss Helen Watson, who has been visiting her grandparents Mr. and Mrs. G. R. M. Bestick of Crescent avenue, has returned to her home in Lynn.

Miss Bessie Tirrell of Hancock street attended the wedding of her friends Miss Lottie Merritt and George A. Golden at New London, Conn., on Tuesday.

We have received a booklet from Lawton, Oklahoma, with a picture of the First Congregational church of that city and an order of services. Rev. Oliver B. Loud, pastor is well known here.

The members of Rebekah lodge met Thursday night and one candidate was initiated. All the new officers are regularly installed and an especialy adapted to their several stations.

The members of Hose Co. No. 2, met at their quarters Monday evening. After an excellent turkey supper remarks by Chief Cottrell, Asst. Engineers Whitmarsh and Hill and Capt. Carmichael of Hook and Ladder No. 2, were listened to. The company reorganized as follows: John Kelley, Capt.; George Mansfield, 1st Lieut.; and M. Levangie, 2nd Lieut.

Charlie Tobey returned to his home on Tremont street, Sunday after an extended Western trip through Idaho, Nebraska, Illinios and Ohio. At one time he was in Roosevelt, Nebraska. He found business very quiet on account of the recent money depression.

The regular monthly meeting of the Penniman School Association was held Monday evening, Jan. 20. It was voted that an article be put in the annual town warrant to see if the town will appropriate a sum of money to improve the Penniman school hall, the association to contribute funds. Following the meeting progressive whist was enjoyed. Ice cream and cake found ready sale. About $15 was netted.

Episcopal services are held at four o'clock each Sunday afternoon at Delta Hall, Washington street. Preaching by Rev. W. E. Gardner. Sunday school at three o'clock. All are cordially invited to these services.

The many friends of Mr. and Mrs. Louis A. Conn assembled at the home of Mrs. A. M. Chick at Braintree where a reception was tendered them before leaving here where during their stay here they have been held in esteem by all who knew them.

EIGHTY-EIGHTH BIRTHDAY.

Mr. James F. Glover of Middle street, Braintree, spent Thursday evening, Jan. 23, entertaining relatives and friends at the home of his daughter Mrs. Jennie F. Hawes, in celebration of his eighty-eighth birthday.

He was born in Quincy and spent his earlier days in Quincy and Braintree, and has seen many changes in both places. He remembers seeing the ground broken for the erection of the stone church now standing in Quincy square. He also was a member of both the first Quincy and first Weymouth bands.

Mr. Glover was married in the old Union church by the Rev. Jonas Perkins, a little over sixty years ago to the daughter of Isaiah Thayer, and both are now enjoying good health.

Mr. Glover showed some of his old time agility by giving a few clog steps and every thing passed over in good style. The friends went home wishing Mr. Glover many more birthdays.

Friends were there from Boston, Dorchester, Hamilton, and neighboring towns. Mr. Glover received some elegant presents.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000, but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most gratefully received.

The Secretary, TIMOTHY REED, Adams St, Quincy, or the Treasurer, RICHARD D. CHASE, Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

COVERT WAR THREAT

Germany Tried to Coerce France In the Moroccan Dispute

DELCASSE CREATES A STIR

Says Anglo-French Entente Headed Off Universal Conflict During Russo-Japanese War--France Master of Destinies If True to Alliances

Paris, Jan. 25.—During the discussion in the chamber of deputies of the interpellation on Morocco, introduced by M. Jaures, the Socialist leader, M. Delcasse spoke upon foreign affairs for the first time since his retirement as minister of foreign affairs during the crisis of 1905. He received an ovation such as has not been witnessed in the chamber for months, and it did not come only from the members of his party.

The speech was a defense not only of his Moroccan policy, but of his general policy of friendly ententes with foreign nations. The Moroccan policy initiated by him, Delcasse declared, was based on the principle of France's predominant position in north Africa, which compelled her to prevent any other power from establishing an influence at Fez, where it would become a constant menace to Algeria.

Delcasse created something of a stir by describing the covert threat of war, unless France took the dispute concerning Morocco to the Algeciras convention for adjustment, as a German bluff. Rather than yield, he declared, he retired from the foreign ministry.

Nevertheless, Germany's object, which Delcasse said was to break the circle of France's alliances and friendships, failed. France's policy of fortifying her international position had twice saved the peace of the world. It solved the differences existing between France and Great Britain and drew Spain and Italy closer together without displeasing Russia.

"Thirty-seven years ago, while France was prostrated and isolated, Germany, her conqueror, was building up the triple alliance," continued Delcasse. "At last our present chain of alliances and ententes, forged after infinite pains, guarantees our security for the future. The whole world recognizes that the Anglo-French entente prevented a universal conflagration during the Russo-Japanese war. Our greatest peril now lies not abroad, but in the internal dissensions at home. If we stand true to our alliances France will remain the master of her destinies."

Although he opposed taking the Moroccan question to Algeciras, Delcasse said that he had done nothing to embarrass the government, and that, since the obligations of the treaty of Algeciras had been accepted, France must honestly abide by them.

M. Jaures, in presenting his interpellation, violently assailed the policy of the French government in Morocco. He declared that if the support of Abd-el-Aziz, who he termed the "opera bouffe" sultan of Morocco, continued France would inevitably be forced into a military adventure which would necessitate the mobilization of 100,000 or 150,000 men to march to Fez.

Jaures created a stir by charging that in the past the government had "flirted" alternately with both Abd-el-Aziz and Mulai Hafid, and he claimed to have in his possession letters providing that the late Dr. Bauchamp was a secret intermediary between Mulai Hafid and the French foreign office.

In reply to the Socialist leader, Foreign Minister Pichon denied that the government had ever had either direct or indirect relations with Mulai Hafid.

Famine Distress Not Acute

New York, Jan. 25.—Replying to a message by cable inquiring as to actual famine conditions in India, and tendering help if desired, Governor General and Viceroy Minto has sent the following cable dispatch from Calcutta to The Christian Herald of this city: "Most grateful for generous offer. Will distribute any help America sends, but distress not yet so acute as to appeal to her liberality. Letter follows."

Orchard Sticks to His Story

Cripple Creek, Col., Jan. 25.—In a letter received in this city, Harry Orchard, confessed murderer of ex-Governor Steunenberg of Idaho and principal witness in the conspiracy cases against Haywood and Pettibone of the Western Federation of Miners, says of his confession: "I have told the truth and would not go back on one thing if by doing so I would save my life and gain my liberty."

"Diamond Maker" Is Exposed

Paris, Jan. 25.—In the case of Henri Lemoine, the "diamond maker," which was being heard before an examining magistrate, M. De Haan, a diamond merchant, testified that several of the diamonds which Lemoine alleged to have been manufactured had been sold to Mme. Lemoine by de Haan. The witness easily selected these stones from a lot that were produced in court.

May Build Cement Plant

Washington, Jan. 25.—Announcement is made by the isthmian canal commission that if the proposals for furnishing the 4,500,000 barrels of cement needed in the next three years are excessive the commission will ask bids for constructing a manufacturing plant on the isthmus.

WILL FIGHT EXTRADITION

Absconder Walker Believed to Be Well Supplied With Funds

Mexico City, Jan. 25.—William F. Walker, the absconding cashier of the New Britain (Conn.) savings bank, will fight extradition proceedings in Mexico and will not return to the United States until every means of defense in this country has been exhausted.

That is the latest phase, it is announced, of the case of the fugitive American banker who is under arrest at Ensenada, Lower California. It is also believed that Walker has not squandered the entire amount he is alleged to have taken from the Connecticut bank, as was reported, but that he is still in possession of a large sum and that he is now trying to gain liberty by making a settlement with the bank.

The authorities interested in the case, however, have been unusually active in preparing for every emergency. The extradition papers were issued at the foreign office within the forty days allowed under the terms of the treaty after arrest, and so far as is known every obligation has been complied with. The papers are now on their way to the district judge, before whom the case will be tried.

Liquor Profits to Go to Charity

Huntington, W. Va., Jan. 25.—Representatives of the United States Coal and Oil company operating at Holden, a mining town near here, have been granted a license to sell liquor after Feb. 1. Replying to protests against the license it was stated that miners will not stay where drink cannot be procured. The company had lost heavily on account of this condition and offered to turn the profits of the saloon over to such charity as the court might direct. This proposition was accepted.

Wants Bill of $10,000 Paid

Washington, Jan. 25.—Professor Thorpe of the University of Pennsylvania and an author of note has instituted mandamus proceedings in the supreme court of the District of Columbia to compel Secretary Cortelyou to pay him $10,000 for compiling five volumes known as the Charters, Constitutions and Organic Laws of States and Territories, authorized by act of congress. Cortelyou declined to make the payment on the ground that Thorpe had not complied with the contract.

Purchasing Power Weakened

New York, Jan. 25.—R. G. Dun & Co.'s weekly review of trade says that more manufacturing plants have resumed, and money is abundant at easy terms, but business feels the weakened purchasing power of the thousands still unemployed. As it becomes possible to make commercial loans at 6 percent there is a disposition to extend operations, many mills now producing for distribution next fall and winter.

No Redwoods In the Sierras

San Francisco, Jan. 25.—Naturalists believe that they have at last scored on President Roosevelt, because of his recent magazine article about the "redwoods of the Sierras." There are no redwoods in the Sierras, declare competent authorities. The redwood, it is declared, is prevalent only on the coast line of the state, and is to be found only in the fog belt which stretches from Santa Cruz to Del Norte.

Kentucky's Senatorial Battle

Frankfort, Ky., Jan. 25.—The senatorial deadlock has settled down to a succession of tiresome ballots. Ex-Governor Beckham is still three votes short of election and Bradley lacks five votes. Six Democrats who are opposed to Beckham hold the balance of power. These six can elect Bradley or Beckham if they choose, but it is doubtful whether they can force the election of any other man.

Rounding Up Revolutionists

Guayaquil, Ecuador, Jan. 25.—Eleven army officers were arrested at Quito as they were preparing to leave the capital with the intention of joining Navarro, who is said to be fifty miles from Quito organizing a band of revolutionists. Colonel Larrea, a former secretary of war, who had just returned from exile, also was arrested. He is suspected of being a conspirator.

Money For New England Colleges

New York, Jan. 25.—One-half of his estate, valued at $300,000, is left to charitable, educational and religious organizations by the will of John Ordronaux, filed for probate at Mineola, L. I. The bequests include: To Dartmouth college, $30,000; University of Vermont, $10,000; Trinity college, $10,000.

Thief Gets Queen's Miniatures

London, Jan. 25.—Three valuable miniatures of the Duchess of Fife, the Queen of Norway and Princess Victoria, all belonging to Queen Alexandra, have been stolen by burglars from the studio of an engraver in London to which they had been sent for reproduction.

Betrayed by Girl's Love

Chicago, Jan. 25.—The love Grace Warner, who against the wishes of her mother had been secretly meeting Horace Simons, led to his arrest on the charge of being implicated in the murder of William R. Mooney, a policeman, on the night of Jan. 2.

Portugal Will Maintain Order

Lisbon, Jan. 25.—The government has issued a statement declaring that it believes the maintenance of order in Portugal is assured.

The Weather Forecast

Almanac, Sunday, Jan. 26.
Sun rises—7:04; sets—4:49.
Moon rises—12:34 a. m.
High water—4:15 a. m.; 5 p. m.

It will be fair and not so cold in New England.

Advertising Wise and Unwise.

Some foolish fellows advertise
On clouds and rainbows in the skies,
Or paste their ADS. on sides of ships
Sky-hooting at exciting clips.
Take note: The merchant who is wise
Knows well just where to advertise
To get results—the proper caper
Being to use THIS popular paper.

The Scrap Book

They Needed It Most.

A regiment of soldiers was drawn up in the barrack square for church parade, but the church was being repaired and could only hold half of them.

"Sergeant major," ordered the colonel, "tell all the men who do not want to go to church to fall out on the reverse flank."

About half the number quickly availed themselves of the privilege.

"Now, sergeant major, dismiss all the men who did not fall out and march the others to church. They need it most."

THE GOOD, GREAT MAN.

How seldom, friend, a good, great man inherits
Honor and wealth, with all his worth and pains!
It seems a story from the world of spirits
When any man obtains that which he merits
Or any merits that which he obtains.
For shame, my friend! Renounce this idle strain.
What wouldst thou have a good, great man obtain—
Wealth, title, dignity, a golden chain
Or heaps of corses which his sword hath slain?
Goodness and greatness are not means, but ends.
Hath he not always treasures, always friends,
The great, good man, three treasures—love and light
And calm thoughts, equable as infants' breath—
And three fast friends, more sure than day or night—
Himself, his Maker and the angel death?
—Coleridge.

The Country's Need.

"I say," said the old lady with the high pitched voice as the jerkwater slowed down at Grigsby station—"I say, what is all this fuss about educatin' boys to be civil engineers? The thing that this 'ere country really needs is a few civil conductors and less sassy brakemen."—Lippincott's.

Talking of Ants.

"Talking of ants," he said, "we've got 'em as big as crabs out west. I've seen 'em fight with long thorns, which they used as lances, charging like savages."

"They don't compare to the ants I saw in the east," said an inoffensive individual near by. "The natives have trained them as beasts of burden. One of 'em could trail a ton load for miles with ease. They worked willingly, but occasionally they turned on their attendants and killed them."

"I say, old chap," said a shocked voice from the corner, "what sort of ants were they?"

"Elephants," said the quiet man.

She Was Welcome to the Rest.

As several travelers got into the station bus one of the men noticed that a young woman had a grip exactly like his, but that it was placed with the rest of the baggage on top. Thinking there might be some mistake made, he kept his inside and placed it at his feet. He was soon engrossed with his paper and did not notice the young woman reach over and draw the grip close to her side. He waited until she was occupied with a book and then pulled the grip to its former position, the rest of the travelers looking on with amused expressions.

In turning over a leaf she looked down and suddenly became aware of the removal of the grip. With some force in her voice and manner, she said, "That is mine!" and jerked it back close to her feet.

Touching his hat politely, the owner said: "All right, madam. But may I please get my pipe and nightshirt out? You are welcome to the rest of the things!"—Ladies' Home Journal.

As It Seemed to Him.

A man had been employed to make an inventory of the furniture in the house. He was so long about his task in the parlor, however, that the mistress of the mansion went to see what he was doing. On the floor lay an empty bottle. On the sofa lay the man sleeping. But the inventory had not been wholly forgotten. At the top of the page stood a solitary eloquent entry, "One revolving carpet."

A Poor Sermon.

A clergyman accepted an invitation to officiate at Sunday services in a neighboring town and intrusted his new curate with the performance of his duties. On returning home he asked his wife what she thought of the curate's sermon.

"It was the poorest one I ever heard—nothing in it at all!"

Later in the day the clergyman, meeting his curate, asked him how he had got on.

"Oh, very well. I didn't have time to prepare anything, so I preached one of your unused sermons."

The Question Was Passed.

"I believe," said the prosecuting attorney, "that you gave your name as Mary Howitly, unmarried?"

"I did."

"And what is your age?"

"I decline to answer."

"But the court wishes to know."

"It's none of the court's business."

"What's that, madam?" the judge asked sharply.

"I said, your honor, that it was none of the court's business what my age is."

"The witness will answer the question," frowned the judge.

"The witness will do nothing of the kind," replied the lady.

"The court insists," said the judge.

"And why? Will I tell the truth with any less impartiality whether I am twenty or seventy?"

The judge was thinking of a fitting answer when the prosecuting attorney put in:

"May it please the court," he said severely, "this is contempt and should be punished accordingly."

The witness smiled most exasperatingly.

"May it please the court," she said, in close imitation of the prosecutor, "you may fine me for contempt if you wish, but it will not make me answer. Your honor and the gentleman who asks me the question are elected to the offices which you fill by the people, and you are both willing to be elected again. Imprison me if you wish. I shall not answer. But I say to both of you now that when the public know you have punished a woman for refusing to tell her age you will never be elected to office again in a thousand years. Women have some rights that are bound to be respected, and public sentiment has accorded us this one. So there."

The judge looked down at the prosecutor, and the prosecutor looked up at the judge, and the question was passed.

A Lincoln Retort.

A woman once wrote to Abraham Lincoln asking for a sentiment and his autograph.

He answered promptly:

Dear Madam—When you write to a stranger asking the favor of a letter, always inclose a postage stamp. There's the sentiment. Here's the autograph:

A. LINCOLN.

Told In Six Hundred Words.

A beginner in newspaper work in a small town who occasionally sent "stuff" to one of the New York dailies picked up what seemed to him a "big story." Hurrying to the telegraph office he "queried" the telegraph editor: "Column story on so and so. Shall I send it?"

The reply was prompt, but unsatisfactory. "Send six hundred words," was all it said.

"Can't be told in less than twelve hundred," he wired back.

Before long the reply came: "Story of creation of world told in six hundred. Try it."

The Professor and the Child.

A German professor who is extremely studious and detests being annoyed in his studies was alone with the children one evening. They raced from room to room until their father could stand the noise no longer, and, losing all patience, he rushed from his study and ordered all of them to go to bed at once. It was only twilight, and they remonstrated, but to no avail. All but one finally went upstairs sobbing. The exception was a little girl, who positively refused to budge an inch. The professor at last administered a slight corporal punishment, and she dolefully followed her companions. Soon afterward his wife broke in on the professor's now undisturbed studies, and her first question was, "Where are the children?"

He was forced to tell of their depravity, and she ran upstairs.

Presently she returned in great excitement and cried out to her husband:

"I think you must be crazy! I thought there must be something wrong when you told me you had to whip one of the children for disobedience. Now, do you know what you have done? The child you have whipped wasn't ours at all, but a little girl who has been spending the evening here."

Pat's Way of Saying It.

Pat had heard some one quote the time honored wedding congratulation to the happy pair, "May all your troubles be little ones," and it tickled his fancy. Not long ago a friend of his entered into bliss, and Pat was hardly able to hold back his congratulations until the ceremony was over. As soon as he could he rushed up to the couple and, grabbing each by the hand, he sang out, "Long life to the both of yez, and may all your throubles be little babies!"—Lippincott's.

Kipling at a Luncheon.

"Yes, you know," the hostess was saying, "Kipling came in and behaved so strangely! At luncheon he suddenly sprang up and wouldn't let the waitress come near the table. Every time that she tried to come near he would jump at her.

"He made a dive for the cake, which was on the lower shelf of the sideboard, and took it into the parlor to eat it. He got the crumbs all over the sofa and the beautiful rug.

"When he had finished his cake he simply sat and glared at us."

The visitor finally could not control herself and asked, "Excuse me, but are you speaking of Mr. Rudyard Kipling?"

"Mr. Rudyard Kipling? Oh, no; Kipling is our dog!"

Old Fashioned Things.

A lady called in an old physician of the last generation to treat her baby, who was slightly ailing. He prescribed castor oil.

"But, doctor, castor oil is such an old fashioned remedy."

"Madam," replied the doctor, "babies are old fashioned things."

Anything to Oblige.

A Harvard student who was a candidate for the degree of doctor of philosophy had adopted spelling reform as his particular line of work, and as commencement day drew near he went to President Eliot with a request. "You know, Mr. President," he said, "that you are proposing to make me a Ph. D. Now, I have made a specialty of spelling reform, and I always spell philosophy with an 'f.' Could you not make my degree F. D. instead of Ph. D.?"

"Certainly. In fact, if you insist, we shall make it a D. F."—Ladies' Home Journal.

A POPULAR VERDICT

Jury Acquits Andrew Detsch, Who Was Charged With Murder

KILLED HIS WIFE'S ADMIRER

Sensational Tragedy In Which Defense Claimed That Man Was Killed In Mistake For a Burglar--No Appeal to "Unwritten Law"

Philadelphia, Jan. 25.—After a trial of three days, Andrew J. Detsch, who was charged with murdering Harry Ferree in a boarding house in this city last November, was acquitted. The jury was out nearly three hours. The announcement of the jury's verdict caused an enthusiastic demonstration by the crowd in the courtroom.

The death of Ferree was sensational, and owing to the peculiar circumstances surrounding it the case created great interest. Detsch contended that he killed Ferree in mistake for a burglar and the jury took this view of the case.

Detsch, who is 23 years of age, lived with his wife and child in an up-town boarding house. On the night of Nov. 5 policemen heard several shots and traced them to the house. They forced an entrance and on the third floor hallway, in front of the door of the Detsch apartments, they found Ferree dead, with three bullet wounds in his body. He was in his stocking feet.

Ferree was about 50 years of age and had occupied a room on the second floor. In the bedroom occupied by the Detschs the police found the young husband and his wife, who is 22 years of age, and their 18-months-old child.

Detsch told the policemen that he heard someone trying to get into the room and, thinking it was a burglar, shot four times through the door with a heavy calibre revolver, not knowing that the man on the outside was a fellow-boarder.

The police were inclined to accept this explanation, but in searching the personal effects of Ferree they found many letters which had passed between Ferree and Mrs. Detsch and a number of suggestive photographs. The police then charged Detsch with having deliberately killed Ferree. They contended that Detsch learned of alleged misconduct between his wife and Ferree and that he planned to kill the latter. The theory of the commonwealth was that Detsch caused his wife to lure Ferree to her room in the belief that her husband was absent and that Detsch fired the shots through the door when he heard Ferree place his hand on the doorknob.

Detsch maintained during the trial that he did not know that the man outside the door was Ferree and that he thought he was shooting at a burglar.

In an endeavor to show a motive for the shooting the commonwealth made an effort to introduce the letters and photographs, but the court ruled them out on the ground that the commonwealth must prove that Detsch knew of the alleged intimacy of his wife with Ferree. This left the prosecution without a motive and it rested its case after proving that Ferree was killed.

Counsel for the defendant, in his closing argument to the jury, said that he did not appeal to the "unwritten law," but that the defense rested on Detsch's statement that he took Ferree for a burglar. Counsel said that there is no unwritten law in Pennsylvania and that the "so-called unwritten law is not worth the paper it is not written upon."

Sale Officials Licenses

Philadelphia, Jan. 25.—Captain Hughes, Chief Engineer Updyke and Captain Fisher of the department of wharves, docks and ferries, created by an act of the last legislature, were found guilty at a hearing before the United States inspector of steam vessels of having made false and erroneous reports about the condition of city ice boat No. 1. The inspectors ordered the revocation of the accused men's licenses.

Resignations Explained

Paris, Jan. 25.—The Japanese ambassador here, Baron Kurino, denies that the recent resignation from the Japanese cabinet of the minister of finance and the minister of communications was due to opposition to the proposed military appropriation. He declares that the only divergence of views was between the two cabinet officers themselves.

Bank Cashier Kills Himself

Ellinwood, Kan., Jan. 25.—W. L. Bockemohle, cashier of the suspended bank of Ellinwood, under bond for making false statements of the bank's condition in December, shot and killed himself last night at his home just after his bondsmen had informed him that they had surrendered him to the sheriff.

Steamship Rate War Continues

Liverpool, Jan. 25.—The three Canadian steamship lines having waited for a week in the hope that the Cunard and White Star lines would settle their differences, have now cut their passage rates uniformly to meet the cut of the Cunard line.

Nevada Senate Passes Police Bill

Carson, Nev., Jan. 25.—The Nevada police bill was passed by the senate without a dissenting vote and was sent to the assembly. In the assembly there was a test vote, indicating sufficient support to pass the police measure.

A SPANISH TRICK.

The Incident Which Moved England to Turn Drake Loose.

The relations between which Drake's raid into the south sea had for a time threatened with open rupture had greatly improved—at least in outward appearance—and in 1585, under special promises of immunity from molestation on religious or other grounds, Philip had invited to his ports a fleet of English corn ships in order to supply the deficiency of his own harvests. No sooner, however, had the English ships arrived than an embargo was laid upon them and their crews arrested.

One ship, the famous Primrose of London, managed to escape. While lying off Bilbao quietly discharging her cargo she had been visited by the corregidor of Biscay and his guard disguised as merchants. Suddenly called upon to surrender, the crew flung themselves upon the Spaniards, drove them all overboard and made sail. Some of the discomfited Spaniards as the shore boats fled were seen clinging to the English vessel. These were humanely rescued and carried in triumph back to England, and among them was the corregidor himself. Upon him were found his official instructions, setting forth expressly that the embargo was ordered for the purposes of the expedition which Philip was preparing against the English. This was enough for the queen and the powerful public opinion of commercial circles in London, which had obstinately clung to pacific relations with Spain. A retaliatory embargo was proclaimed, letters of general reprisal were issued and Drake was let loose.—From Publication of Navy Records Society.

A PORTO RICAN CUSTOM.

Prayers For the Dying Recited In the Public Streets.

"A few evenings ago while we were at dinner in our hotel," writes an American author visiting in Porto Rico, "we heard the tinkling of a small bell just outside the hotel doors. Instantly Salvador, the waiter, stopped in the little bustling run with which he waits on the guests, hurriedly procured a candle, lighted it and carried it out on the balcony. Almost as soon as that candle was on the balcony railing we three Americans were beside it, questioning Salvador, for we were sure something unusual was going on.

"We saw a procession of many people, led by two priests, coming down the street, each person bearing in his hand a lighted candle. They stopped in front of a house facing the hotel, and Salvador told us that somebody was dying there and they were praying for his soul. Up and down the street as far as we could see on every balcony railing was burning either a candle or a kerosene lamp.

"From the absorbed interest of the people gathered in front of open doors and windows of the afflicted house the sufferer was apparently trying to die in full view of the spectators.

"Presently the bell began to ring again, the procession formed once more, and they all moved up the street, Salvador telling us in explanation that there was a second person dying and they were now going to pray for him."—Exchange.

A Slight Deduction.

In Mrs. Lapham's family circle her powers of reasoning were accounted most remarkable and convincing. Outside the family her ability to convince was not so marked.

"See here," she said without releasing the ten cent piece for which the conductor of the trolley car had gone to her side, "I've only brought Willy with me. He's eight, so I've got to pay his fare. I've left Myra, that's four, and Neddy, that's two, at home. Now, you wouldn't have charged me for them, would you?"

"No, madam," said the conductor. "Your fare, please."

"Well, they'd have taken one seat," persisted Mrs. Lapham, still retaining her hold on the ten cent piece. "I couldn't have held 'em both. I thought of bringing them, only 'twas too far. Now, why can't you take off something from Willy under the circumstances?"—Youth's Companion.

In Buying Perfumes.

"If you give her perfumery for her birthday," said the druggist, "give with discretion. Find out first the effect of perfumes on the system.

"Heliotrope is a bad scent for any but the boisterous and gay. It is depressing. It often causes the neurasthenic to weep. Would it suit her?

"Musk is a powerful stimulant, a good thing for those with weak hearts. How is she that way?

"Stephanotis creates languor. If she is lazy, then avoid it.

"Violet is the best perfume. It elevates the mind. It spurs to deeds of bravery, of sacrifice. It creates beautiful thoughts. Get her violet, my boy."—Exchange.

The Commutable Cook.

"My wife and I are keeping house in the suburbs this year."

"What does the transportation cost you?"

"Well, let's see. We bought three commutation tickets at"—

"Three! Who uses the third?"

"That's for the cook. I take one out every night, and she leaves the next morning."—Brooklyn Life.

The Cure.

"In love with that penniless young scamp, are you?" said old Roxley. "Well, I propose to cure you of that."

"You can't," retorted the willful young girl. "I'm determined to marry him."

"That's it exactly. I propose to let you do it."—Exchange.

INSOMNIA

"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented."
Thos. Gillard, Elgin, Ill.

Ending the Honeymoon

By TAYLOR WHITE.

Copyrighted, 1907, by E. C. Parcells.

"And so you are your Uncle Dudley's heir?" cried Laura as Dan Fetter folded the letter and replaced it in its envelope. "Isn't that great?"

"It's not much of a fortune," explained Dan. "Just before the failure Uncle Dudley wrote that he had hoped to leave me a lot, but that he was afraid there was precious little left and that was going fast. Two weeks after that the failure came, and he shot himself. Poor Uncle Dud!"

"But there must be something," insisted Laura, "and we can look for the pirate's treasure."

"And lose what little there is left," suggested Dan. "That chart was all right to study over in the winter evenings, Laurie, but it's a different thing to sink money in a search for treasure buried 300 years ago off the Argentine coast."

"But this is real," suggested Laura, going to the desk and taking therefrom the well worn parchment which had furnished them amusement for so many long winter evenings. It was well preserved, and Dan could clearly trace the lines and written directions.

This paper had been handed down in the Kingsland family since one of the early Kingslands, a sailor in the British navy, had befriended a member of a pirate crew captured in the Spanish main. Just before the prisoner went to his execution he had slipped into the hand of his benefactor a roll of parchment which had come down through past generations, gaining in romance with each year.

Now the two poured over the old map with renewed interest since there was at least the possibility that they might have the means for prosecuting the search. Dan was inclined to be skeptical, but Laura would not have it so.

"It is a real treasure," she declared. "I know that it is real, and I will never forgive you, Dan, if you don't go after it. Think of the years we have been wishing that we had enough money to fit out an expedition! Now our chance has come, and you're laughing at the idea. You must go, Dan."

"We'll see what Uncle Dudley's fortune is," he temporized. "Wait until the estate can be settled."

It was not a long wait. Dudley Fetter had been forced into bankruptcy after a long career as a shipping merchant. The disappointment had so preyed upon his mind that he had killed himself, and the little old lawyer who was at once his counsel, receiver and executor soon disentangled the muddle. Dan found himself owner of a tramp steamer and some $7,000 in money.

He was inclined to sell the steamer, but Laura would not hear of it. She was firm in her faith in the pirate's map, and she at last carried her point through, only after she had declared that she would break her engagement if Dan did not undertake the trip.

The captain of the Dudley was a weather beaten old man of fifty, whose shrewd eyes twinkled when the subject was broached to him.

"I never heard of 'em that far south," he declared; "but, Lord love ye, there's pirate's gold hidden from the north pole to the south—to hear 'em tell it. It's as likely to be there as anywhere."

"Will $5,000 take us down and back?" demanded the cautious Dan. Captain Glass removed the pipe from his lips the better to smile.

"Down and back and down again," he asserted. "Anyway, you don't have to worry about getting back. We can easily get a load at Buenos Ayres or Rio to pay the cost of the up trip. It'll make a nice little sail for you, seeing as you've never been to sea. Why not make it a bridal tour? Brides bring luck to ships. Maybe with a bride we could find the gold."

"I know you will!" cried Laura, jumping up to plant a kiss on Dan's cheek. "We'll be married on board the Dudley before she sails."

The last argument was a clincher, and Dan gave in. Ten days later the men were called aft to witness a quiet little wedding, and as the minister went over the side a noisy little tug helped the Dudley get out into the stream and point her nose to the south.

It was a long, delightful honeymoon to these two, who had never seen the ocean until Dan had come to New York to claim his legacy. They had a day or two of seasickness, but this soon passed, and after that, as they slipped over the blue waters, Laura's confidence in the quest grew amazingly. Even Dan began to share her enthusiasm long before they had crossed the equator.

At last the course was altered, and the Dudley headed inland until the black, forbidding cliffs loomed darkly before them. It was no easy matter to pick their way through uncharted channels, but at last the steamer slipped into a little bay, and Captain Glass declared it to be the spot shown in the map.

Here the rocks did not come sharply down to the water's edge, but ran inland, forming a sheltered nook of some few hundred acres in extent. The two huge rocks which marked the entrance to the bay and a peak of the distant spur of the Andes formed their range marks, and as soon as they had put up tents on shore Dan, who had studied civil engineering, got out his transit and began to lay off the lines.

The cross marks fell near the base of the cliff where the sides were more precipitous than elsewhere, and for two days the men from the steamer labored to clear away the underbrush.

"We shall have to dig deep," reminded Laura. "There must have been a heavy deposit of earth during the 300 years that have elapsed."

"We'll dig through to China if necessary," declared Dan as he watched the men work. In anticipation of the digging some laborers had been brought along, and for ten hours a day they took out the sandy loam. At the end of three weeks they had a huge hole in the ground, but there was no trace of treasure chests, and Dan and the captain began to lose faith, even though Laura grew more confident as the days progressed.

"We'll get it yet," she insisted. "Just keep digging and the honeymoon fortune hunters will sail back to New York with millions."

"I'll dig one more day," promised Dan, "and then we must be getting back. The provisions are getting low, and we are only losing time."

Laura pleaded, but Dan was firm, and that night she sobbed softly in the tent while as though in sympathy the heavens opened their floodgates and the rain poured down. It was the first rain of the season, and had it not been for Captain Glass' precaution in ditching the tents they must have been swept away by the flood that poured across the little strip of land.

It was a melancholy scene that greeted their eyes as the sun rose the next morning. The underbrush was washed away, and as they made a path to the excavation a cry burst from their lips. The water had undermined the banks, and in place of the hole was a sea of mud.

"That's the answer," said Dan grimly, as he pointed to the spot. "There's the work of six weeks gone for nothing."

"But look across," said Laura, pointing to the cliff, where now a narrow hole, uncovered by the landslide, made itself apparent. "Perhaps that is it."

Carefully skirting the excavation, Dan and the captain gingerly made their way across to the cavity and with a wave of their hands disappeared. It was two hours before they returned, and then Dan came running out with a cry of triumph.

"It was a gold mine, not buried treasure, that the old pirate was talking about, he explained breathlessly. "It is one of the richest mines in the country."

Laura smiled into the eager face. "I knew it would come out all right," she said. "It just had to be the end of the honeymoon."

Sense of Smell.

It is said that the sense of smell is better developed in men than in women. In human beings, however, it is but slightly developed as compared with the lower animals. The reason for this becomes apparent when the structure of the skull of a dog or a cat is examined. Observing the nasal passages of either of these creatures, it is found that the so called turbinated bones are twisted and folded in a complicated fashion, so as to make a great extent of surface in a small space. The interior of the labyrinth thus formed is lined with the mucous membrane that contains the extremities of the nerves of smell. A section through the turbinated bones of a bear, which has a particularly keen sense of smell, resembles a honeycomb. In a human being the turbinated bones are poorly developed, so that the surface of mucous membrane is comparatively small. The sense of smell is particularly acute in some fishes, as the sharks. The olfactory membrane of a big shark, if spread out, would cover a dozen square feet.

A Tragedy of Niagara.

The story of Niagara is full of strange tragedies. One of the most dramatic of them is as follows: A hundred yards above the brink of the American falls a rock ten feet square projects for a foot above the water in midstream. One morning the inhabitants awoke and saw a man sitting on it. The noise of the rapids prevented verbal communication. They did not, do not and never will know how he got there. He stayed there thirty-six hours. The people telegraphed to Buffalo, and the railway company sent one excursion train after another for thirty-six hours to see the man on the rock. They painted signs and stuck them up for the man to read, saying, "We will save you." Two hundred yards above there is a bridge. From this by ropes they floated rafts with provisions to him. At the end of his stay a big raft came for him to get on. What they were going to do with him if they got him in this seething rapid is not known. He tried and failed and went over the fall, and that is all.

Tombs as Dwellings.

It is surprising to strangers to find Egyptian families occupying some of the tombs which have been excavated and abandoned. It seems uncanny to see babies playing cheerfully about the doors of the tomb houses and to watch chickens running in and out as they do at the mud dwellings. When questioned about the tombs a dragoman said that those occupied as homes had been tombs of ordinary citizens of no value as show places for tourists. As some of them have several rooms extending into the rock and as they are cool in the hottest days of summer and warm in the cool days of winter, they are altogether desirable as homes. The Egyptians do not share the horror of dead bodies felt by Europeans. Children run about with pieces of mummies, and if they cannot dispose of them to tourists they play with them. A mummified foot or hand is so common in Luxor that one may be purchased for a few cents.—Leslie's Weekly.

The Observations In the Daily Walk

The next regular meeting of the City Council will be held Monday, Feb. 3.

The officers of Norfolk lodge, A. O. U. W. of Atlantic, will be publicly installed Monday evening.

The annual meeting of the Democratic City Committee announced for Friday night was again postponed.

The next meeting of the Whatsoever Circle, King's Daughters, will be held with Mrs. Samuel Chapman, Willow street, Monday, Jan. 27, at 7.45.

An adjourned meeting of the Hospital Aid association will be held on Thursday afternoon, Jan. 30, at three o'clock in the chapel of First church when a full attendance of members is hoped for.

A meeting of the Junior Alliance will be held this evening at half past seven in the parlor of First church to which all young ladies of the parish are invited.

The annual meeting of the Ladies' Aid Society of the West Quincy M. E. church was held at the home of Miss Turner, Crescent street. Several new members were admitted and the officers for the past year were reelected.

Next Wednesday is Carnation day in honor of President McKinley. The carnation was his favorite flower and one worn in the coat lapel on that day is a sign that the martyred President has not been forgotten.

The many friends of Frank Genero, driver of the combination hook and ladder at Wollaston, who has been ill for the past four months will be glad to learn that he is improving although still confined to the house.

Thorpe Babcock, who left for the west in the early summer has been made manager in a large lumber firm in Seattle, Washington. He was joined recently by Bob Forbes, a well known football player at Yale.

C. Frank Randall, William J. Sullivan, Charles C. McCue and Charles R. Sherman who have been taking the census of births, have completed their work. The figures have not been tabulated as yet.

Twenty of the boys from the Somerville Y. M. C. A. with their physical director are guests at the Quincy Y. M. C. A. today. They are indulging in a series of games and this afternoon visited the works of the Fore River Ship Building Company.

On Wednesday evening Jan. 29th a joint meeting of the Young People's Christian union and the Young People's Religious union is to be held at the South Congregational church, Boston. A social will be held from 7 until 8 o'clock. Rev. Edward Cummings will conduct the service and Dr. Hamilton, president of Tufts college will give an address.

One of the busiest women in Quincy is Mrs. Edmund R. Wade of Wollaston, recently of Atlantic, who is an expert on household affairs. Beside teaching cooking at the Quincy Mansion school and the Milton high school, she is busy giving demonstration lectures before various women's clubs. Mrs. Wade is very practical, and just at this time her lecture on "How to buy and use the cheaper cuts of meat and to use up left-overs" is proving helpful to many housekeepers.

SUNDAY SERVICES.

THIRD SUNDAY AFTER EPIPHANY.

Church services are inserted in this paper without charge, but none will be accepted to run until further order. A notice should be sent each week even though it is but a renewal. Give subject and special services when odss b'e. Let all churches be represented—Eds.

Makaria Fraternity

SUNDAY: 12 TO 1—SHARP

Bethany Church, City Square

If YOU are a young man, and not associated with any other Quincy church, YOU are most cordially invited to come to our meeting.

A warm welcome—Hearty singing—A helpful hour together.

Social Realm.

(Continued from Page 1.)

A cablegram has been received from Mr. and Mrs. Dexter E. Wadsworth announcing their safe arrival at Vera Cruez and a fine passage with sunny skies.

* * *

On account of the severity of the storm the Unity Club meeting which was to have been held last evening is posponed until further notice.

* * *

Cards have been received from Los Angeles, California, announcing the marriage of Martin Luther Kelsey of East Milton and Mrs. Sarah Janet Fox of Los Angeles. Mr. and Mrs. Kelsey will be at home to their friends after May fifteenth at their East Milton home.

* * *

Mrs. Herbert Lawton and Mr. Lucius Lawton of Presidents hill are in California, where Mrs. Lawton's sister has a home.

* * *

Another out-of-town man wins a popular Quincy young lady as his bride. Some months ago the announcement of the engagement of Mr. Walter Walker Benson of Somerville to Miss Mabel May Wilson, daughter of Mr. and Mrs. William Wilson of Atlantic, was made. The happy young couple are now wedded, the ceremony taking place at the beautiful home of the bride's parents. Dr. Edwin N. Hardy was the officiating clergyman and the full ring service was used Mr. and Mrs. Benson will make their home in Quincy for the present.

* * *

Mrs. Isaac M. Holt of Cottage street is visiting friends in Norwell this week.

* * *

Mr. and Mrs. H. Gerrish Smith of Presidents hill left Friday for Jacksonville, Florida, for a few weeks' stay. Mrs. Smith's mother, Mrs. Dent, who has been visiting here, will stay until their return.

* * *

Mrs. Hannah Williams Benchley of Dorchester entertained friends at a card party at her home on Friday afternoon. The severe storm prevented several Quincy friends from attending which was a great disappointment.

* * *

Mr. and Mrs. John Golden of Sagamore street welcomed a little son into their household Wednesday night.

* * *

The engagement was announced this week of Miss Louise Cavanagh daughter of Mr. John Cavanagh of Cedar street, Braintree, and Mr. George B. Gavin of Irving place. Quincy.

* * *

Mr. and Mrs. T. L. Sturtevant of Adams street are leaving next week for the South.

* * *

What promises to be one of the nicest social affairs of the season is the song recital to be given next Wednesday evening in First church chapel by C. Pol Plancon of Boston, assisted by Mrs. Laurance H. Sturtevant, with E. Cutter, Jr., at the piano. The musical program will be one of the best ever given in this city; a treat for lovers of vocal music. After the recital tea is to be served which will add much to the social end of the affair. Mr. Plancon is a nephew of the famous opera singer and inherits his talents. It is always a pleasure to hear him sing not only because of his fine voice but because he sings with great expression and enjoyment.

* * *

Mrs. Charles York of Rockland, Me., (nee Henrietta Harding) is entertaining her two sisters the Misses Cora and Annie Harding of Botolph street.

* * *

The members of the Matrons' whist club met with Mrs. Harrie W. Bosworth of Braintree, on Thursday evening. The souvenirs were secured by Mrs. W. J. Tirrell, Jr. and Mrs. H. A. Simonds.

* * *

Mrs. Charles Cherrington of Clive street will entertain the former Atlantic Bridge club Friday evening. The club has disbanded since the first of the year.

* * *

Mr. and Mrs. J. Murray Knight of Braintree entertained a company of relatives and friends recently in commemoration of the 28th anniversary of their marriage. After a social hour refreshments were served and music enjoyed. Among the musical selections a solo by James Hender accompanied by Mrs. F. H. Morgan pianist, evoked much applause and merriment. The guest departed at a late hour wishing their host and hostess many happy returns.

LOWER TELEGRAPH RATES, BETTER SERVICE PROMISED.

High Tolls Have Kept Americans In Last Place as Wire Users.

Although Americans write the greatest number of letters per capita, they make the poorest showing in respect to the use of the telegraph wire. But the entry of a new telegraph company into the field with reduced rates and better service will change all this.

The average number of telegrams a year per capita is 5.05 in New Zealand, 2.27 in Great Britain, 1.28 in France and only .95 in the United States owing to the high rates prevailing here.

As though to prove what the Western Union and the Postal could do with modern methods of transmitting telegrams, the Telepost company, formed in New York to build a rival telegraph system, has published a flat rate for telegrams of 25 cents for twenty-five words, without regard to distance, delivered by messenger; 25 cents for a fifty word "telepost" sent by wire, but delivered at destination by mail, and 5 cents for each additional ten words on both classes of messages.

The Telepost company uses the Delany automatic system of transmitting and receiving messages that has demonstrated a speed of 1,000 words a minute. This enables the new company to make a profit of 14 cents a message even on the basis of its lower charges or three and one-half times as much as is earned by the old line companies using manual transmission having a maximum speed of fifty words a minute and an average speed of little more than one-fourth that figure. This is what makes the average cost per message to the Western Union 30 cents and leaves the company a profit of only 4 cents.

The possibility of giving such a service as the Telepost company promises is due to the fact that using Delany's invention one wire will carry as much business as seventeen operated quadruplex, twenty-seven used duplex or sixty-eight used simplex. To duplicate the capacity of the Telepost's New York to Chicago trunk line, estimated by its engineers to cost $1,373,120, would involve the Western Union in an outlay of $7,609,550. Sections of this main line will soon be in operation, and the company's field will be rapidly expanded by use of independent telephone lines.

TEXTILE MILLS EARNED BIG PROFITS LAST YEAR.

Bright Outlook For Linen Making Shown by Large Dividends Paid by Cotton Industry.

New Bedford cotton mills in 1907 paid stockholders the largest dividends in the history of this industry. Eighteen corporations, with a capital of less than $19,000,000, distributed $2,578,270 in dividends, an average of 13.73 per cent. Last year the average rate was 8.92 per cent.

These figures indicate the possibilities ahead of the Oxford mills now being equipped in Massachusetts to manufacture linen. This is the first time the linen making industry has been established on a commercial basis in the United States. Besides the usual linen fabrics, the new mills, using a recently perfected process of reclaiming the linen fiber from flax, will produce a number of byproducts of great industrial importance in themselves.

These are savoil, an absorbent machinery waste; oxolint and oxolite gauze for surgical purposes, for which linen is, of course, greatly superior to cotton; a linen gun fiber, the importance of which can be judged from the fact that 400 tons of gun cotton are now made daily, and a paper pulp which is made from the shive, or woody part of the flax straw. This has heretofore been wasted, although from it can be made the very best quality of rag paper.

Not only will the new process enable the Oxford mills to add all these byproducts to its business, but by this method the seed crop can be harvested before the flax straw is turned over to the linen makers.

Reform In School Luncheons.

Parents have come to see the danger of allowing school children to make their luncheons upon unwholesome food containing little if any nourishment. There are many palatable lunches that can be easily made at little cost and that the children will like as well as unwholesome sweets.

Currant cakes from this recipe make a very nourishing luncheon: One-half pound butter, twelve ounces sugar, fourteen ounces flour, six ounces currants, one-quarter ounce baking powder, four eggs, one gill milk, essence of lemon. Sift the baking powder with the flour on to a sheet of paper on the board; add the fruit and peel; cream up butter and sugar, adding eggs in the usual way; stir in the flour, fruit, etc., and work—i. e., beat up—to cake batter consistency with the milk. Place in round papered tins and bake in a moderate oven.

Children also like these oatmeal biscuits: One-half pound flour, one-quarter pound coarse oatmeal, two ounces brown sugar, three ounces currants, one gill milk. Mix the flour, oatmeal and sugar, warm the butter in the milk, add the currants, and then work the whole together into a paste; roll out very thinly, stamp out into round or other shape and bake in a moderate oven for about twenty minutes.

To restore luster to tarnished aluminium it is sufficient, says the Scientific American, to immerse it in water slightly acidulated with sulphuric acid. To small articles of aluminium a soft brush may be applied. For the bath water with a little carbonate of soda will suffice.

BOSTON AMUSEMENTS.

KEITH'S THEATRE.

An event that promises to be one of the most notable of the season at Keith's is due to happen next week—the first appearance in vaudeville in Boston as a single entertainer of May Irwin, unquestionably America's greatest comedienne. Since she started in Chicago last September, Miss Irwin's tour of the country has been one of triumph after triumph, the business she has drawn to the theatres she has played being far in excess of that ever done by any single star in vaudeville. She has a number of new songs of the kind she sings so well, including "I'm Afraid to go Home In the Dark," which is a tremendous hit, together with some of those she has made famous in the past.

THE ORPHEUM.

The quality of the vaudeville, now being presented at the Orpheum Theatre in Boston, has been attracting wide attention, even outside of the crowded houses, which are now the rule. Although the prices are not much higher than those charged for moving picture shows, the Orpheum with its great seating capacity is presenting the biggest and most expensive acts, now in vaudeville. For the week of Jan. 27th, one of the features will be Col. Bordeverry, the world's greatest rifle and pistol shot, who does most remarkable feats imaginable, among them being playing the piano by striking the keys with bullets, and disrobing a lady in full evening dress, the fastenings of her gown being removed by the pistol shots.

CASTLE SQUARE THEATRE.

Patience" is making the hit of the season at the Castle Square. Produced last Thursday evening, it will continue through the first half of the coming week to arouse mirth with its comic scenes and pleasure with its alluring music, the singers one and all combining to give the opera the finest presentation it has ever had in Boston.

Next Thursday evening Verdi's always remembered grand opera, "Il Trovatore" will be revived at the Castle Square for the third time since the opera season opened last May. This in itself, is sufficient to attest the continuous popularity of the opera, for its revival is due to an insistent public demand that could not be refused.

BOSTON THEATRE.

At the Boston Theatre next week Manager Morison is again showing his enterprise in securing the first production by a stock company of the play credited to "Thomas Raceward" which made the novelty of Ethel Barrymore's season a few years ago and was called "Sunday." The play was written by a number of Englishmen who agreed upon the name of "Thomas Raceward" as the author and in addition to being a success as presented by Ethel Barrymore has proved popular in London, Australia, and South Africa. The first and last acts are laid in a Rocky Mountain mining camp and the other parts of the play pass in England. The title part is a young girl born in the mining camp and the name Sunday is taken from the day of her birth. The play is full of strong contrasts and interesting types of characters well calulated to show the membership of the Boston Theatre company to good advantage.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street

BORN.

SPROWL—In Quincy, Jan. 22, a son to Mr. and Mrs. Herbert A. Sprowl of Kendrick avenue.

RALSTON

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,

1 Granite Street, Quincy.

Wednesday Will Be McKinley Day

The annual observance of the birthday of men who have adorned high stations in the Nation's gift, and in its service has a distinct educational value as well as an uplifting influence. The usefulness of their services to their country ,and to mankind in general, is necessarily, recalled and the encouragement of their example is brought forcibly to mind. There is no more ennobling influence than is the contemplation of the lives of great and good men and whatever

PRESIDENT M'KINLEY DELIVERING HIS SPEECH AT PAN-AMERICAN EXPOSITION.

may lead to this contemplation should be encouraged.

"The Carnation League of America" has established the custom of observing the birthday of the late William McKinley, January 29, by wearing on that day a carnation, his favorite flower.

The life, character and services of William McKinley can not be studied or reviewed without profit to the individual and the community. In his death the nation suffered the loss of one of her foremost sons—the Christion world, a disciple of pure and manly living.

A people can not have too many national days—days commemorative of brave deeds, or noble lives nobly lived. The thoughtful observance of each tends to keeping the whole body of the people up to the highest patriotic pitch, and if "Carnation Day" shall add its quota to the fostering of real national patriotism, we may be sure that the great soul of William McKinley will look down from above and imbue "Carnation Day" with some of his love and veneration for the glories of our nation and the permanency of institutions.

"Carnation Day" was established January 29, 1903, and has been observed with great unanimity on each recurring anniversary. May it continue to grow in power and good works from year to year.

Protection of Birds.

Edward Howe Forbush, the New England agent of the National Association of Audubon societies for the protection of wild birds and animals, writes: If the people of New England intend to preserve their game birds, ample protection must be afforded on the breeding grounds, and if for any reason whatever, the supply of birds, becomes depleted a close season of one year or more should be declared and the law should be enforced until the birds have time to recover their numbers. If, however, gunners are prohibited from shooting upland game birds, they will turn their attention more to shooting wildfowl, snipe or shore birds and these birds already require better protection than they now have, for several species are now nearing extinction.

—The budget of the Waltham School Board for 1908 asked for an appropriation of $99,080, an increase of $4,031.50 over last year. The items are as follows: Teachers and superintendents, $79,665; evening schools, $2,220; janitors, $7,785; office assistant, $600; truant officer, $400; incidentals, $1,300; text books and supplies, $5,700; transportation, $1,150; support of truants, $260; total, $99,080.

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.

Quincy Exhibit at Motor Boat Show

The National Motor Boat and Engine show opened in the Mechanics Building, Boston, on Saturday, with thousands in attendance, and promises to be an attraction this week. It will close Saturday night at 11 o'clock. Chester I. Campbell of Wollaston is the manager and he has been successful in interesting boat builders and sportsmen generally. The motor craft has become such a popular fad that it divides the honors with the auto. Many beautiful cruisers of the cabin type are shown.

The Baker Yacht Basin of Quincy exhibits the power launch Sarapa which is 38 feet over all, beam 8 feet 6 inches, draft 3 feet, with a 20 horse power Buffalo engine. She has already cruised upwards of 3000 miles and shows little or no wear.

Brookline View Of Quincy Shake-up

The Brookline Press says editorially:

"Mayor William T. Shea, who was elected on a non-partisan ticket, and supported by Republicans with a direct understanding that he would use a large sized broom at city hall, has not disappointed his supporters. Though but a partial list of appointments have been sent in we note that changes have been made in the office of commissioner of public works, city solicitor, tax collector, city treasurer, chief of fire department, overseer of poor and assessors.

Two of the deposed officials, Thomas Burke, commissioner of public works, and James H. Cunningham, tax collector, are well known representatives of Quincy politics as exemplified in Norfolk County. Mr. Burke on several occasions having been in a receptive mood in regard to prominent county offices. Mr. Cunningham will be recalled by Brookline republicans as being a candidate for the office of county treasurer two years ago, and as being favored for the office of sheriff last year.

"Randolph C. Bainbridge of Ward 5 appointed to succeed Mr. Burke is very highly spoken of as a man thoroughly qualified to fill the position. John W. McAnarney the new city solicitor is a well known Norfolk County lawyer and seems an excellent choice for that position."

Small Reward Is Offered

The Bay State Automobile Association has offered a reward of $50 for the conviction of the five men who run down the five year old daughter of M. T. Lennon in an automobile at Milton last week. The Selectmen of Milton should offer a reward of $100; some say $500. It might then be possible to ferret out such fellows.

A Day's Activities At the Y. M. C. A.

There certainly was something doing at the Quincy Y. M. C. A. on Saturday which may be summarized as follows:

9 A. M. to 10.30—Junior gym class for boys 12 to 14. Program: Marching, drill, gymnastics, game "All Run." Basket Ball, Chocolates vs. Caramels, won by Chocolates.

10.30—Advanced juniors in gym, boys 14 to 16, and twenty boys from Somerville. Program: Class work, athletics, 15 yd. dash, 3 standing broad jumps. Relay races, 2 basket ball games. The events were run for both ages of boys and silk badges given as prizes. Quincy boys won eight places, and tied one out of fourteen. Quincy boys won both basket ball games.

12 P. M.—Somerville entertained at lunch by Quincy boys, after which the boys visited the Fore River works.

3 P. M.—High school boys in gym. After class the boys pooled expenses on a "feed." Buying the materials and cooking it themselves in Association kitchen.

4 P. M.—Young Ladies's Auxiliary met. After transacting their routine business a lunch was served.

8 P. M.—Exhibition and ladies' night in the gym. The Senior and Employed Boys classes were assisted by the leaders corps of the Brockton Y. M. C. A. A large audience enthusiastically applauded the men on the various features of the work. The program included: Marching Calesthenics; feature drill, representing a trip down the harbor, clam digging, rowing, swimming, base ball, etc.; then came apparatus work. four squads; pyramids by Brockton; high bar work by Quincy; tumbling by Brockton; basket ball, Brockton vs. Quincy. No score was kept but loud applause from the gallery would indicate that everybody was happy.

While the exhibition was in progress the Committee on refreshments were busy collecting money and buying groceries. After the exhibition the Brockton young men were entertained very nicely by the senior class men at lunch.

The Reapers' Circle, King's Daughters of Christ church, will give an entertainment at the parish house on Thursday evening, Feb. 6. The Dorothea Dix Children of Boston will furnish the program.

Resolutions

On the death of BRO. PATRICK J. KELLIHER.

WHEREAS:—It has pleased a bountiful and loving God to remove from our midst our esteemed associate and Brother Patrick J. Kelliher, and

WHEREAS:—We humbly bow to his supreme will in all things. Therefore be it

RESOLVED:—That in the death of Brother Patrick J. Kelliher, St. Francis Court, No. 25, M. C. O. F., loses a good and faithful member, his family a loving father and kind husband, and the community an honored and respected citizen: and

RESOLVED:—That we, the members of St. Francis Court, No. 25, M. C. O. F., tender our heartfelt sympathy to the family of our departed Brother in this, their hour of affliction and sorrow, and we humbly pray Almighty God to assist them to bear their sorrow with Christian patience and fortitude; and

RESOLVED: — That these resolutions be spread upon the records of the Court, printed in the Quincy papers and a copy sent to the family of the departed Brother.

W. R. BURKE,
JAMES L. FENNESSY,
JOHN BARRON,
Committee on Resolutions.

High Score Wollaston Whist

At the invitation meeting of the Wollaston Whist club Saturday evening, Councilman J. H. Broughton and H. A. Stevens were high men making the highest score thus far in the Round Robin tournament.

The sumary:

J. H. Broughton and H. A. Stevens,	plus 12 1-2
V. S. Brokaw and J. A. Hamilton,	plus 4 1-2
C. E. Barker and A. B. Hillman,	plus 0 1-4
R. T. Anthony and H. P. Fitton,	plus 0 1-4
E. E. Hoxie and J. T. Fuller,	plus 0
E. T. Noyes and J. A. Mitchell	minus 2 1-2
H. C. Seymour and T. H. Foster,	minus 3 3-4
C. B. Hoxie and J. J. Henry,	minus 3 3-4
E. E. Gray and J. Y. Hamilton,	minus 8

Team Five Has Best Per Cent

It has been decided to count each string a game in the Y. M. A. bowling league, and teams 5, 1 and 2 are in the lead. The first games of Teams 5 and 2 have been protested and are not included. All the other teams have bowled six games each and the standing follows:

	Won.	Lost.	Per Cent.	Total.
Team 5,	3	0	100	1303
Team 1,	5	1	83	2180
Team 2,	2	1	66	1261
Team 4,	3	3	50	2520
Team 3,	2	4	33	2184
Team 6,	0	6	00	2059

Team 2 Is Making Trial

Teams 2 leads the Red Men's bowling league both in games won, and in high team total and single team total. In individual scores Wardwell has the best single and Leech the best total. The standing Jan. 27:

	Won.	Lost.	Per Cent
Team 2	8	4	.666
Team 4	7	5	.583
Team 1	6	6	.500
Team 3	3	9	.250

The best averages are:

Leech, 89	Manimon, 79
Smith, 86	Herrich, 79
Langill, 85	Thomas 77
Cox, 85	La Velle, 76
Shay, 83	McLeod, 75
Wardwell, 83	Jim Egan, 72
Waterhouse, 83	Dunn, 72
Whall, 80	O'Connell, 72
Bugbee, 80	

Weekly Shoot.

Archibald Blanchard won both the Cub cup and a leg in the season's trophy at the weekly shoot of the New England Kennel club at Braintree on Saturday. Mr. Blanchard secured a gross total of 22 in each event, and a net total of 20 in each event.

Wedding Anniversary.

Mr. and Mrs. Henry W. French celebrated their third marriage anniversary Sunday evening by entertaining a number of their friends at their home on Bay View avenue, Houghs Neck. The evening was passed in a pleasant manner with music and refreshments. Mr. and Mrs. French received many valuable gifts from friends.

Republicans to Organize.

A meeting of the 1907 Republican City Committee will be held in the Board of Trade rooms, Wednesday evening at 7.45 P. M. There will also be a meeting of the 1908 Republican City Committee at the same place at 8 o'clock, Wednesday evening.

Much interest is being taken in the song recital to be given by Mr. Pol Plancon on Wednesday evening at First Church chapel and a large and brilliant gathering is anticipated as about three hundred have already subscribed. It will be a musical treat; one which Quincy people can seldom enjoy unless they go to Boston.

Owing to the extreme mildness of the weather The Dunlap, Cooke Co., Ltd., "Canadian Fur Store," 167 Tremont Street., Boston, have decided to offer their entire stock at reductions that will ensure money saving purchases of reliable and high class furs secured fram first hands in Canada and delivered to them duty free.

ADVERTISE IN THE OBSERVER.

Weber Quartet At Bethany Church

A congregation numbering over 500 greeted the Weber Male Quartet at the Sunday evening service at Bethany congregational church, crowding the auditorium and balcony. The quartet sang five well-known selections, some accompanied by Mme. Morey at the organ, and others without accompaniment. The numbers were: "Calvary," "The Lord is God," "I'm a Pilgrim," "What a Friend Thou Art to Me," and the "Evening Song" of Buck. All were beautifully rendered and delighted the audience, but the "Evening Song" was particularly good.

The quartet now includes: A. C. Prescott, 1st tenor; A. F. Cole, 2d tenor; G. H. Wood, baritone; and W. E. Davison, bass.

The sermonette by Rev. Dr. Hardy, the pastor was from the first chapter of Joshua, a portion of the fifth verse: "As I was with Moses, so I will be with thee: I will not fail thee, nor forsake thee." It was a lesson full of encouragement.

Best of Service By Quincy Exchange

The Quincy telephone exchange is rapidly climbing to the top in the merit service system which speaks volumes for the good work of Manager W. C. Crane and the chief operator, Miss Katherine C. Walsh.

In the standing published in the January issue of Telephone Topics, Quincy and Lynn are a tie for second place with a percentage of 101.3. East Boston holds first position with 101.4 per cent. in the 27 exchanges.

Heroic Rescue.

George Kemp, a 12-year-old Hingham boy, made a heroic rescue of two little girls from drowning on Saturday. The girls broke through the ice and the lad throwing off his coat dove after them. He rescued one of the girls and then dove a second time and rescued the second girl.

Arrested as Deserters.

William J. Mulligan of Quincy and Peter Rittenhouse of Philadelphia, who it is claimed are deserters from the U. S. S. Cumberland, were arrested by Constable Hultman on Sunday, and are now at the police station. It is claimed by a circular sent out by the Navy department that they deserted three months ago. The Navy department at Washington was communicated with by telegraph this morning, and as soon as word is received the deserters will be taken to Newport, R. I., and delivered to the naval authorities.

Just Jotted Down By Ledger Men

The weather was very mild Sunday, although the ground was covered with snow.

The annual meeting of the Granite Railway Co. will be held in Boston on Friday.

At the billiard tournament at the Granite City club on Saturday evening, John W. Bell (200) beat William R. Thomas (120), 200 to 105.

A pleasing entertainment, dancing and refreshments are on the program for the ladies' night of St. Stephen's chapter, Royal Arch Masons.

Miss Celina Beliveau will give a dancing party at Faxon hall on St. Valentine's night. The party will be matronized by Mrs. Edward B. Marnock, Mrs. Lewis A. Pendis and Mrs. Dennis F. Crowley.

Michael Fogarty of Quincy Point fell while stepping from a train at the Quincy depot Saturday night. He was taken up unconscious and carried into the baggage room where he was attended by Dr. Garey, and later removed to his home. He received several cuts on the head.

Kind remarks are often made relative to those who clear their sidewalks of snow, even if they do not reach the ears of those public spirited citizens. The clean walk is appreciated when there is lots of snow on neighboring sidewalks, and also when other sidewalks have slush like today.

At the Lynn Kennel club's annual show held in that city last week Elmhurst kennels of Wollaston won as follows: "Red Peggy," 1st limit red bitches; Primrose H., 2d novice red bitches; Silver Lake Sona black and white, 2d limit 1st open. Reserve winners and special, for best dog or bitch owned by a member of the Brockton district kennel club.

LONG WAY TO TRAVEL

Filipinos Not Yet Fit For Complete Self-Government

M'KINLEY POLICY IS CORRECT

Secretary Taft Cannot Fix Time For Declaring Islands' Independence--Prediction of Great Development of Business Within a Few Years

Washington, Jan. 27.—Nine years after the battle of Manila Bay, Secretary Taft records the results of the American occupation of the archipelago and forecasts the future of the Filipinos in an exhaustive report transmitted to congress by the president, which he accompanies with a letter, commending in the highest terms the secretary's conclusions.

The president declares that ruin would have followed the adoption of any other policy towards the Philippines than that outlined by William McKinley and carried forward through nine years, and asserts that there is no brighter pages in history than that dealing with the relations between the strong and the weak in those islands. He adds that the Filipinos "have yet a long way to travel before they will be fit for complete self-government."

Secretary Taft's report gives his observations on his recent visit to the islands to the extent of nearly eighty printed pages. Generally speaking, the secretary is highly optimistic in treating of this subject, even though he cannot fix a time for declaring the independence of the islands. In answer to the critics who have made "the most astounding and unfair statements in respect to the cost to the United States of the Philippines," he figures a total annual expenditure of $5,000,000 and vigirously denies the failure of the Philippine policy.

The secretary says that great changes have occurred in the islands. The people are now anxious to have the American soldiers retained. There is a high standard of administration of justice. Nothing is more popular than the constabulary. There are no questions between the government and the Roman Catholic church, unless the Aglipayan schism can be said to be involved. Peace prevails in a greater degree than ever before in the history of the islands. The magnificent Benguet road is now justified by the results obtained.

He predicts a development of business within twenty-five years that will make the Filipinos themselves stand high in the world's industrial populations. His recommendations are that Philippine products be admitted into the United States free of duty under reasonable limitations; that present restrictions be removed on the acquisition of mining properties; that the Philippine government be authorized to conduct an agricultural bank, and finally, that the islands be exempted from the operations of the coastwise shipping laws.

Noted Novelist Dies In Poverty

Florence, Jan. 27.—Ouida (Louise de la Ramee), the novelist, died at Viareggio, after a long illness. She died in most distressing poverty, her only attendant being an old servant woman in whose arms she expired. The immediate cause of death is set down as asthma complicated by heart disease. Ouida had a passionate fondness for dogs and up to the very last was surrounded by many of them, depriving herself of even the necessaries of life to feed them.

Bryan Made "Social" Calls

Washington, Jan. 27.—Contrary to expectations, William J. Bryan did not discuss politics with Democratic party leaders yesterday. It had been understood that Bryan would confer with his supporters in both houses of congress and that his position as to the presidential nomination would be discussed and a definite decision would be reached. Bryan did, however, see a number of prominent Democrats during the day, but he said that the calls were social ones.

Father Petroff Loses His Rank

St. Petersburg, Jan. 27.—Father Gregory Petroff, the most noted priest in the Russian church next to Father John of Cronstadt, was deprived of his ecclesiastical rank at a session of the holy synod and handed over to the civil authorities for judgment before a civil court. An alleged contumely to the church and state was contained in a letter which he addressed to the metropolitan of St. Petersburg.

Fire Panic In Skating Rink

Chicago, Jan. 27.—Fifty negroes, while skating in a rink on the second floor of a frame building, were thrown into a panic by a fire that broke out in the basement. The skaters fled for the stairway without taking off their skates and most of them fell headlong on the stairs, landing in a heap at the bottom of the staircase. A number were severely bruised.

Dynamite Kills Three Men

New York, Jan. 27.—Three men were killed instantly and five others seriously injured by the premature explosion of dynamite in the Pennsylvania tunnel at Homestead, N. J. The injured are so severely wounded that recovery is doubtful. It is not known positively what caused the explosion.

DRAWING TO A CLOSE

This Week May Witness the End of the Thaw Trial

New York, Jan. 27.—The Thaw trial entered upon its fourth, and probably its last week, today. The dispatch with which the present hearing has moved compared with the trial of a year ago, which lasted twelve weeks, is little short of remarkable. The defense has another day of evidence to offer and the state should have its evidence in rebuttal before the jury by Thursday night.

District Attorney Jerome has assumed something of an air of mystery as to the scope of the testimony he will offer to rebut the showing of insanity made by the defense, but it is said he will make an effort to bring up some of the secret records of the commission in lunacy which inquired into Thaw's condition last March and which pronounced him capable of intelligently advising with his counsel.

The records of the commission were sealed by order of Justice Fitzgerald, who appointed the board solely for the purpose of advising the court as to Thaw's mental condition, and this fact may prove a stumbling block to the district attorney's plans.

The Mont Rose Reaches Port

St. John, Jan. 27.—After nearly fifty days on the ocean the 300 immigrants who left Antwerp on Dec. 7 for St. John on steamer Mount Royal arrived here on steamer Mont Rose. The Mount Royal was buffetted about the Atlantic for a month, given up for lost and finally reached Queenstown. There the passengers were transferred to the Mont Rose and left again for St. John. On the Mont Rose were also 200 other immigrants from Antwerp. The Mont Rose should have reached here Wednesday last, but very rough weather delayed the steamer.

Portuguese Government Nervous

Lisbon, Jan. 27.—Although the government apparently is master of the situation, much nervousness is manifested in official circles following the plot to overthrow the monarchy and establish Portugal as a republic. Premier Franco sleeps each night in a different house, surrounded by cavalry. The police have seized a number of revolvers and bombs. Troops, police and customs corps have been assigned to barracks ready for any emergency. There are indications that the plot had ramifications in the army.

Rockefeller a Drawing Card

Augusta, Ga., Jan. 27.—John D. Rockefeller occupied his first Sunday morning in Augusta this winter listening to a sermon in the Tabernacle Baptist church (negro) by Rev. C. T. Walker, who got out of a sick bed to preach when informed that Rockefeller would be one of his conggregation. After the sermon Rockefeller held a conference with Walker in the latter's study, when he "made a very generous donation to the church."

Valuable Collection Missing

St. Louis, Jan. 27.—Captain Charles F. Brown, 74 years old, Civil war veteran and minerologist, died as a pauper at the city hospital. Brown was found dying by workmen sent to wreck a delapidated building. He was penniless, he said, but steadfastly refused to tell what had become of his $30,000 collection of Arkansas minerals, the result of thirty years' work. Brown was a native of Massachusetts.

French Troops Repulse Moors

Tangier, Jan. 27.—Advices received here state that the Zenataia and Ouled Ali tribes attacked the French troops on Jan. 23, but were repulsed with severe loss after four hours' fighting. Two French columns had just effected a junction when the tribesmen, covering a front of about four miles, swept down in crescent formation. One French officer and five privates were wounded.

To Test Monitor's Mechanism

Washington, Jan. 27.—The single-turreted monitor Florida is to be made a target for the big 12-inch rifles of a battleship. It is not the purpose to destroy the monitor, but the gunfire will be directed against her turret. Much mechanism is contained in the turret and information is desired as to the effect of actual gunfire upon this controlling machinery.

Club Won't Hear Foraker

Cleveland, Jan. 27.—Senator Foraker has declined the Tippecanoe club's invitation to attend the McKinley memorial banquet next Wednesday evening, at which Secretary of War Taft is to be the principal speaker. Foraker wrote that it will be impossible for him to attend. He gave no reason for declining the invitation.

California's Big Orange Crop

San Francisco, Jan. 27.—The orange crop harvest of California, now in full season, in quantity and in quality, promises to break all previous records. The fruit exchanges of the state estimate that the total output of oranges will reach 30,000 carloads. The harvest will last until July 4.

Emperor William's Birthday

Berlin, Jan. 27.—Fifty representatives of Germany's highest nobility are taking part in the celebration of the emperor's birthday. The emperor is beginning his fiftieth year and is near the close of the twentieth year of his reign.

The Weather Forecast

Almanac, Tuesday, Jan. 28.
Sun rises—7:03; sets—4:52.
Moon rises—2:07 a. m.
High water—6:30 a. m.; 7 p. m.

There will be snow in north and rain in south portion of New England. It will be colder.

MYSTERY EXPLAINED

Rush Job on Lawrence Estate Was For Mrs. Eddy

SHE MOVES FROM CONCORD

Has House of Thirty-Four Rooms--Speculation Over Building of Two Massive Vaults--Cost of New Home Will Reach Over $200,000

Boston, Jan. 27.—The occupation of the Lawrence estate in Brookline by Mrs. Mary Baker G. Eddy sets at rest the mystery which has for four months past shrouded the forced labors of 300 men on the Lawrence estate, concerning which the utmost secrecy has been observed.

Early last October Robert P. Walker, a Christian Scientist of Chicago, who is also a real estate broker, came to Boston and bought from the widow of R. Ashton Lawrence the Lawrence estate in Brookline.

It was learned that there was some delay in the culmination of the transaction, owing to a doubt on the part of Mrs. Lawrence as to whether the estate would be used for an institution. The general restrictions on the property, which did not cover the actual site of the house, however, barred the erection of any institution on the estate. As a result of the delay it is understood the offer for the land was increased and that the price paid was in the neighborhood of $100,000. Later, additional land was purchased at a cost of $1600 and a second parcel bought for $6000 on the southeasterly side, making the estate altogether one of twelve acres.

Plans of a Chicago architect, the same who designed the Christian Science Publishing company's house in Boston, were sent on and work of remodeling the big stone house in the centre of the estate begun. The orders were that the work should be rushed, regardless of expense. Three hundred men began work in the middle of October and continued their labors until within a few days.

The work was kept up night as well as day, and the old Lawrence home was completely transformed, being practically rebuilt. The alterations are estimated to have cost fully $100,000, making the total cost of the new home of Mrs. Eddy fully $207,600.

The outer stone walls of the mansion have been left standing, but with the addition of a big projecting porch in front, topped by a canopy held up by immense chains. Two smaller circular porches have been built on the rear, from which may be had an unobstructed view of the country for miles.

As remodeled the house contains thirty-four rooms. On the first floor is an immense hall running through the house. At the left of the main entrance are two large parlors. Altogether there are ten rooms on the first floor, twelve rooms and three baths on the second floor and the same number on the third floor.

Perhaps the one feature of the remodeling which occasioned the most speculation was the erection of two massive vaults, of unusual strength and size, being built of steel and concrete, which were placed one at the head of the main stairway on the first landing and the second at the second landing. In addition, the house was made as nearly fireproof as possible throughout.

Secretly, mysteriously, Mrs. Eddy was carried aboard a special train at Concord at 2 o'clock in the afternoon, and less than three hours later was carried into her new home near Boston. Money was spent without stint, train schedules were ignored, and with a pilot engine running far ahead and a trailer far behind, to keep a clear track, the special of three private cars rushed over the tracks of the Boston and Maine to Lowell, then was switched over the New York, New Haven and Hartford to South Framingham, and now with a clear track ahead thundered along the line of the Boston and Albany to Chestnut Hill station.

The move was made with the utmost secrecy and even Christian Scientists, high in the councils of the faith, knew nothing of the projected change of residence until the news leaked out and the newspapers were after the "story." Not one leader of the Boston church had the slightest intimation of any such move.

The story that Mrs. Eddy was to move to Boston has been time and time again officially denied by the church leaders here. Only recently the rumor to that effect was pronounced "absurd."

While it may be stated by some Christian Scientists that Mrs. Eddy's move was known in advance, it is said upon the highest possible authority in the Boston church that Mrs. Eddy's coming was an absolute and total surprise. Not the slightest hint of it had ever reached Boston.

The most remarkable feature of the whole affair was the presence on Mrs. Eddy's special train of a regular physician, not a Christian Science practitioner. He is Dr. Alpheus Morrill, a homeopathic physician and a graduate of Dartmouth college. Through the journey Morrill was constantly at Mrs. Eddy's side and according to members of the train crew was obliged to stimulate his aged patient with hot cloths and otherwise administer to her.

A REAL LOVE MATCH

Gladys Vanderbilt Becomes Wife of Count Szchenyi

HAS FORTUNE OF HIS OWN

No Financial Consideration Involved In the Marriage--Nobleman Popular In Society, but Prefers Sports and Travel to Social Gaieties

New York, Jan. 27.—In the famous Vanderbilt mansion at Fifth avenue and Fifty-seventh street today at noon, Miss Gladys, youngest daughter of Mrs. Cornelius Vanderbilt, cousin of the Duchess of Marlborough, and one of the richest of American heiresses, became the bride of Count Laszlo Jeno Maria Henrik Simon Szechenyi, a young Hungarian nobleman of ancient lineage and comfortable fortune.

The marriage ceremony was performed by Mgr. Lavelle, rector of St. Patrick's cathedral, and the bride's attendants were Miss Ruth Vanderbilt Twombly and Miss Dorothy Whitney. Count Anton Sigray, who recently arrived here with Count Dionys and his wife and Count Paul Esterhazy, was the best man. One of the bride's brothers, Reginald, gave his sister in marriage. After the ceremony a breakfast was served, to which some 250 invitations were issued. The Vanderbilt home was superbly arranged and decorated for the occasion and one of the features of the ceremony was music by an orchestra of sixty pieces.

The wedding gifts are said to exceed one million dollars in value and have been guarded day and night by detectives. Special arrangements were made with the police to manage the curious throngs which usually gather on such occasions.

The young couple will leave this afternoon for Newport, where Mrs. Vanderbilt's home, "The Breakers," has been prepared for them. They will remain there until Feb. 4, when they will sail for Europe.

Last summer Miss Vanderbilt became of age and entered into possession of her share of her father's great fortune, estimated at from twelve millions to fifteen millions of dollars.

Ever since her coming out a few years ago rumor has been busy engaging her to numberless young Americans, as well as to an endless succession of titled foreigners ranging from royalty to the latest impecunious noble who happened on American shores. But even the gossip mongers concede that in her marriage to this comparatively obscure young Hungarian she is making purely a love match.

Count Laszlo is a handsome man of 28, slender and straight, his bearing betraying his military training and devotion to out-of-door sports. He is not even the head of his family, being the youngest of the four sons of Count Emerich Szchenyi, who was for many years the Austro-Hungarian ambassador at Berlin and who played an important part in the negotiation of the German-Austrian alliance.

The present head of the house of Szechenyi is Count Dionys, who until very recently was first secretary of the Austro-Hungarian embassy at Berlin and who is reported to be slated for an independent diplomatic post. Count Dionys' wife was a Countess de Caraman-Chimay and a cousin of the Prince Chimay who married Clara Ward, the American girl whose sensational elopement with Rigo, the gypsy violinist, brought her into notoriety a few years ago. The other brothers are Counts Stephen and Peter and all of them enjoy hereditary seats in the Hungarian house of magnates.

Count Laszlo is also a cavalry officer, and though he belongs to most of the exclusive clubs of Europe and is popular in society, he rather prefers sports and travel to the social gaieties of his set. He is an ardent sportsman, a crack shot and an expert polo player. He has done much big game shooting and was a member of the expedition sent by the Austrian emperor some years ago to establish friendly relations with King Menelik of Abyssinia.

Count Laszlo is said to have an income of some $60,000 a year, and owns both town and country estates, although he is not, as has been reported, the owner of the magnificent domain of Horpact castle. That is the hereditary seat of the Szechenyi family and as such is held by Count Dionys, the elder brother.

There has been much talk of the money settlement to be made upon the count, but close friends of the family aver that, unlike nearly all recent notable international marriages, in this case there was no money settlement of any kind. Countess Szechenyi will retain her great fortune and she has told her friends that their joint means will be used in common in the American manner. Laszlo's brothers and friends denied the reports of a money settlement when they arrived here a few days ago and declared that no financial consideration of any character was involved in the marriage.

Saved From the Gallows

St. Paul, Jan. 27.—The board of pardons commuted to life imprisonment the sentence of Merton S. Munn, who was to have been hanged on Feb. 7. Munn was convicted of the murder of August Franklin. After passing the death sentence Judge McClenahan collapsed on the bench.

A SECOND VISITATION

Fire In Portland's Wholesale District Causes Loss of $750,000

Portland, Me., Jan. 27.—With the embers of Portland's city hall scarcely cooled from Friday morning's fire, this city was visited last night with another disastrous blaze which gutted the large wholesale dry goods house of Milliken, Cousens & Co., and the wholesale shoe house of A. F. Cox & Son. The fire threatened the entire wholesale district within a block of Friday's conflagration. The total damage is over $750,000.

The first sign of fire was discovered by Mrs. Ryder, wife of the janitor of the First National bank, across the street from the dry goods house. At that time the flames were already shooting out of the third story windows. Running to the telephone, she at once notified fire headquarters. Appreciating instantly the serious nature of the blaze in such a location, the fire headquarters at once sounded a quick double alarm, calling practically all the apparatus in the city to the scene. The regular fire alarm system was burned out in the city hall fire, but a temporary arrangement had been fixed up Saturday night.

Chief Engineer Eldridge, who was badly hurt at the city hall blaze, was unable to leave his bed, and the responsibility of directing last night's fire fell upon Assistant Chief Engineer Paine. From the outset he was handicapped by the absence of the Hayes ladder truck, which was crushed at Friday's fire, but the need of this truck became so imperative that it was dragged out and used to good advantage.

Dangerous Lunatic Escapes

Worcester, Mass., Jan. 27.—John J. Hoster, 35, said by attendants of Worcester insane hospital to be the most dangerous man they had in confinement, escaped by picking the locks of three doors with a hairpin. Hoster has escaped twice before. Once he went to St. Louis, where he engaged as an attendant in an insane asylum. While there he gave testimony on which John Smith, an attendant, was convicted of murdering a patient. Then Hoster beat another patient there into insensibility, which caused Hoster to be sent back to Massachusetts and Smith to be freed. Hoster was a sailor, committed from Boston six years ago.

Dog May Have Had Rabies

Lynn, Mass., Jan. 27.—Considerable excitement was created in Village square and the streets leading therefrom by a dog that was suffering from a canker disease, and nearly a dozen persons were slightly bitten or scratched. The animal was finally killed after he had been seized with paralysis and collapsed. The dog's head will be examined to ascertain whether he was suffering from rabies.

Depositors Will Lose Nothing

North Attleboro, Mass., Jan. 27.—That the Jewelers' National Bank of North Attleboro, now in the hands of a receiver, will be liquidated and a new bank formed is stated by one closely identified with the affairs of the bank. According to the same source of information there will be an assessment of 100 percent upon each of the stockholders and the depositors will be paid in full.

Bonds Said to Be Worthless

Boston, Jan. 27.—Isador L. Halman of Brookline was placed under arrest in this city on the charge of obtaining $4700 under false pretences from George F. Bosher of Manchester, N. H. Bosher alleges that Halman gave him $10,000 in bonds of a coal company as surety for a note of $5000, which Bosher discounted, and that he found that the bonds were valueless.

MacDowell's Remains Laid Away

Peterboro, N. H., Jan. 27.—Edward A. MacDowell, the famous American composer who died in New York last Thursday, was buried at his summer home here yesterday in a field belonging to his estate. Rev. Howard Hill conducted the commitment services, which were witnessed by about 300 townspeople and friends and relatives of the deceased.

Gloucester Skipper Drowned

Boston, Jan. 27.—The Gloucester fishing schooner Yakima came into harbor with her flag at half mast for the loss of her captain, Alfred Green of Gloucester, who was swept overboard by a monster wave in a storm. Everything possible was done by the crew to save their skipper.

Suicide In Wife's Presence

Boston, Jan. 27.—Joseph Trudeau, aged 20, shot and killed himself at his home here in the presence of his 19-year-old bride. A previous attempt to end his life by poison had been frustrated by his wife. An unhappy marriage is said to have been the cause of the suicide.

Russ an Railway In Norway

Stockholm, Jan. 27.—A mining engineer who has just returned here from an exploring expedition in northern Norway, where the Russian frontier approaches within fifteen miles of the north Atlantic, says that he saw large bodies of Russian soldiers, installed in a log barracks, engaged in building a railway in Norwegian territory in a wilderness many days' journey from the highway.

Ice Ruined by Dynamite

Sioux City, Ia., Jan. 27.—A charge of dynamite laid, it is said, by rival dealers, blew up the Missouri river ice field of H. M. Mickum and Charles Lundgren, destroying $3000 worth of the product. The detonation caused general alarm. The dynamite tore a hole out of the river ice as big as four city blocks.

Ayer's Pills

Ask your doctor what he thinks of this formula for a liver pill. Do as he says about using these pills. He knows.

COMPLETE FORMULA, AYER'S PILLS
Each Pill Represents

Jalap	½ Gr.	Podophyllin	1/10 Gr.
Ginger	½ Gr.	Gambogc	1/20 Gr.
Aloes	½ Gr.	Oil Peppermint	1/10 Gr.
Colocynth Pulp	½ Gr.	Oil Spearmint	1/30 Gr.

Excipient—Sufficient quantity.
We have no secrets! We publish the formulas of all our medicines. J. C. Ayer Co Lowell, Mass.

CLOSED FOR LIQUIDATION

National Bank of North America Forced to the Wall

New York, Jan. 27.—Comptroller of the Currency Ridgely has ordered the National Bank of North America closed for liquidation and appointed Charles A. Hanna, national bank examiner, as receiver.

The aftermath of the financial storm of last October in its effect on the bank which today closed its doors has been in the shape of heavy and persistent withdrawals, the result, according to President Havemyer, of persistent rumors set afloat respecting the bank's condition. Membership in the Clearing House association enabled the bank to weather the gale for a time, but the aid extended by this association in the form of loan certificates finally became the means of bringing about the decision to go into liquidation when the call for their redemption was intimated to the directors on Saturday last. The bank's indebtedness to the Clearing House association is $2,200,000.

President Havemyer lays the blame for the trouble on the persistent rumors he declares were the cause of withdrawals, which on Saturday became so heavy that it was believed the bank would not be able to meet its obligations today.

Death Came With Good News

Troy, N. Y., Jan. 27.—Charles G. Bledinger, an inventor, was found dead in his room in a cheap lodging house here. He had just learned that the superior court at Cincinnati had decided a patent right claim in his favor, awarding him $93,000 and interest upon it for several years. His invention, a machine for making paper-wrappers, was patented while he was in a sanitarium by his financial backer, who refused an accounting when the inventor was discharged from the sanitarium. The suit followed with the verdict of a fortune, which came too late. Bledinger was in such extreme want that he was recently employed as a dishwasher in a restaurant here.

Mineowners For "Open Shop"

Goldfield, Nev., Jan. 27.—The Goldfield Mine Operators' association last night abolished the card system, which required all employes to sign an agreement renouncing the Western Federation of Miners, and declared an open shop policy. Hereafter applicants for employment "shall only be required to satisfy the secretary of the association and the employers of their competency and reliability."

Torpedo Boats Reach Argentine

Buenos Ayres, Jan. 27.—Attended by a division of Argentine torpedo boats, the American torpedo boat flotilla, which left Rio Janeiro Jan. 21, entered the port of Buenos Ayres yesterday, the arrival being witnessed by a great crowd of spectators. Every boat in the American flotilla is in excellent condition and made the passage here without a hitch. All of the men are in good health.

Would-Be Lynchers Thwarted

Ottumwa, Ia., Jan. 27.—A mob of 200 men gathered at the county jail and demanded Roy Edwards, a negro, who is under arrest for attacking a woman. Sheriff Jackson told the mob that Edwards had been taken out of town and four men were allowed to inspect the jail. They found that the sheriff had really sent Edwards away and the mob then dispersed.

Campbell-Bannerman Laid Up

London, Jan. 27.—There is some anxiety in political circles over the health of Premier Campbell-Bannerman, who is confined to his rooms with a severe cold. His holiday at Biarritz, though it was successful so far as recovery from his recent attack of heart failure is concerned, failed to build up his strength.

Mock Duel Results In Death

Little Rock, Jan. 27.—James Miles and Odom Williams, each 12 years old, were returning from a hunting trip and a duel was playfully proposed. Neither boy believed his gun was loaded, but when Williams pulled the trigger of his gun a full charge entered his playmate's heart, killing him instantly.

Daring Haul From Mail Wagon

New Orleans, Jan. 27.—Daring thieves last night robbed a United States mail wagon loaded with incoming mail which had just arrived from northern points. They are reported to have got about $5000, but the postoffice authorities refuse to make any statement about the amount of the robbery.

NEWS IN BRIEF

The French government has begun the installation of an elaborate apparatus for wireless telegraphy in the Eiffel tower at Paris, by which it hopes to be able to communicate directly with New York.

Brigadier General Anthony Heger, U. S. A., retired, died at New York, aged 79. He was a native of Austria.

After a sojourn of nearly two years in Europe, where he went to recover his health, Richard A. McCurdy, former president of the Mutual Life Insurance company, has returned to this country.

The Bricklayers and Masons' International Union of America selected Boston for the next biennial session and elected officers. The new president is W. J. Bowen of New York.

Agnes Donnelly, aged 19, of Cambridge, Mass., was badly burned by dropping a lighted match on her skirt and died a few hours later.

The Canadian government has decided to loan sufficient funds for the farmers of the new provinces of Alberta and Saskatchewan, whose crops were a failure, to purchase seed grain.

The Observations In the Daily Walk

A new bill tonight at the Scenic.

Fifty degree temperature at sunrise.

James W. Rideout is seriously ill at his home on Payne street.

For comfort try the Ralston shoe sold by George W. Jones.

Quincy lodge of Elks has a large class for initiation at its meeting Tuesday evening.

Mrs. Samuel Holmes of Brook street, Wollaston, passed away Friday night, aged 62 years.

Mrs. Clara Waters of Everett was the guest of Mrs. A. W. Milscher over the week's end.

Mrs. Samuel Oxford of River street will entertain a party of lady friends on Friday afternoon.

Mr. Peter Cormive and family have moved from East Boston to 68 Washington street, this city.

Wells Quimby of Lyndon, Vt., has been spending the past few days with relatives in this city.

Mrs. A. W. Wilscher of Bacon street entertained a party of lady friends this afternoon at whist.

Many owners of sleighs went out for a spin on Sunday. A sleigh ride is somewhat of a rarity this winter.

J. H. Broughton and E. E. Hoxie had one of the best scores on Saturday at the tournament of the American Whist club.

The entertainment committee of the Granite City club are planning for an entertainment on the evening of St. Valentines day.

The sleighing was very good on Sunday and many improved the occasion. During the night the rain and the wind carried off most of the snow.

City Auditor Fairbanks was the guest of the City Messengers' Club on Saturday at its dinner in Boston. City Messenger Tirrell was also present.

It is probable that Mayor Shea will not announce the balance of his appointments until next Monday, the day the new officials take office.

Carl W. Gram of Wollaston, as a member of the relay team of the Institute of Technology, which will meet Williams college at the B. A. A. games.

The Boston College basket ball team will be here tomorrow afternoon to play Quincy High. On Friday, Milton High will be the rivals.

Miss C. S. Hubbard, who has been confined to the house the past two months by sickness, is once more able to attend to her store duties, and her many friends are pleased to see her around again.

D. G. M. W. Harry E. Miliken will be the installing officer this evening at the public installation of the officers elect of Norfolk lodge, A. O. U. W., in Music hall, Atlantic. An address by G. M. W. James J. Reidy, music and refreshments are also on the program.

The annual musicale of the Quincy Women's club will attract a large audience to the club house tomorrow afternoon. Refreshments and a social hour will follow the musicale and it should be one of the most enjoyable meetings of the season.

IT'S A NEW THING AND IT'S GREAT

THE FIRST EXCLUSIVE ANNUAL

MOTOR BOAT AND ENGINE SHOW

MECHANICS BUILDING, BOSTON.

CHESTER I. CAMPBELL, Manager. Jan. 27-3t

WELL BURIED.

Two Funerals For One Man Provided For by His Will.

Curious directions for the disposal of his remains were left by John Robert Pringle of Catford, who died leaving an estate of gross value of £8,049 3s. 3d. The testator directed:

"After my decease I desire that a competent and trustworthy doctor of medicine shall, by any experiment he may deem suitable, thoroughly satisfy himself that life is absolutely extinct. My carcass is to be cremated and the residuum thereof deposited in two metal urns, numbered respectively 1 and 2. On the ashes in No. 1 are to be placed a packet, which will be found on my desk, and my miniature portrait scarf-pin, and on the ashes in urn No. 2 a similar packet, which also will be found on my desk, and my miniature portrait finger ring."

He directed that the urns were then to be soldered down and No. 1 buried in his mother's grave at Newport Pagnell and the other in "my dear Lizzie's grave" in the Streatham cemetery at Tooting. He also enjoined his son to see that the graves of his mother and of the testator's mother were properly looked after.—London Mail.

A Warm Time Coming.

"I'm doin' me best with the fire, sir," said the janitor at the door of Gailey's office one cold morning, "but I'm afraid I can't make it very warm for you. You see, sir"—

"Never mind," feverishly replied Gailey, who had been out all night. "My wife will be here shortly, I expect."—Philadelphia Ledger.

Loaded.

Farmer Jones (to amateur hunter)—There wasn't a better water dawg livin' until you shootin' gents took to borrowin' 'im. Now 'is 'ide's that full of shots he'd sink to the bottom like a brick.—Bystander.

Standards.

She—Men and women can't be judged by the same standards. For instance, a man is known by the company he keeps. He—And a woman by the servants she can't keep.—Judge.

Time to Get Busy.

"But life has no bright side!" wailed the pessimist.

"Then get busy and polish up the dark side," rejoined the optimist.—Chicago News.

One of the most rare kinds of courage is the courage to wait.—St. Louis Globe-Democrat.

A City of Happy Homes.

Dublavin took a walk in the cemetery, where he noticed on the tombstones, "Good Husband," "Good Wife," "Good Son."

"It is evidently here that the happiest homes are found," he reflected.—Nos Loisirs.

An Admission.

Alice—I rather like that young Thompson. He has such a good, firm mouth and chin. Hazel—Goodness! Has he been kissing you too?—Kansas City Independent.

Always Strong.

Church—They say the human voice is stronger in the morning than it is at night. Gotham—I can't see any difference in baby's.—Yonkers Statesman.

A slip of the tongue is worse than that of the foot.—Spanish Proverb.

Quincy Post Office.

Letters remain unclaimed for the week ending Monday, Jan. 27:

Ben. Baker, W. E. Bishop, A. Cadman, Wm. Dallinger, Francisco E. Emerson, C. Johnston, Nondell Joyce, William Lewis, Heppieri Luigi, Charles McDonald, Jim Perry, J. R. McDonald Louis S. F. Meyboom, Stevr Muse, J. F. Nutting, Jack Osmond, John Pearson, Patrick J. Riley, W. Robertson, H. Strathaun,

Ladies—Mrs. C. B. Blood, Miss Amelia Caskary, Mrs. J. M. Gaggett, Miss Dora Geddes. Miss Della Haggerty, Mrs. Avis Hunter, Mrs. E. E. Lawlis, Dagmar Nelson, Mrs. R, Mrs. E.E. Seawlis, Miss A. M. Warren

—The Secretary of State reports 80,237 births in Massachusetts in 1906, an increase of 5,215 over 1905. in the same year there were 59,241 death, 29,654 marriages and 2,610 divorces.

—The New England Telephone Co. gained 36,210 subscribers during the year 1907 making a grand total on Jan. 1, 1908, of 290,417 subscribers.

Members of Quincy council, Knights of Columbus, are rehearsing for a mock trial to be held in the near future.

Newsy Budget From Shipyard

John Winslow of the mold loft left the employ of the company Saturday to return to Cornell University, where he will complete his course in naval architecture.

The U. S. cruiser Des Moines, built at Quincy, sailed from New York on Saturday in search of wrecks.

Germany is advocating a powerful navy that will make that country rank second to Great Britian as a naval power. The estimate for 1908 provides for nine new battleships, six small cruisers, 24 destroyers and seven submarines.

A dispatch from Buenos Ayres to the Herald reports the Quincy destroyers safe at that port. Attended by a division of Argentine torpedo boats, the American torpedo boat flotilla, which left Rio Janeiro, Jan. 21, entered port at 8.30 Sunday morning, the arival being witnessed by a great crowd of spectators. Every boat in the American flotilla is in excellent condition and made the passage here without a hitch. All on board are in good health. The boats will remain until Thursday morning, when they will steam for Sandy Point, in the Magellan strait, to join the battleship fleet. A number of entertainments have been arranged in honor of the visitors, which will include excursions to interesting points, a banquet to be given by the minister of marine and receptions by the President of the republic and the Naval Club.

CUNNING BIRDS.

Stratagem of the Lapwing and the Ruse of the Thrush.

"The goose is a frightful liar," said a nature fakir. "He quite puts me to shame."

"Really?"

"Really. You know how the goose, when you draw near it, hisses? Well, with that hissing sound it says: 'Scott, beware. I am a serpent.' Yes, from primeval times the goose has acted this lie. The primeval goose mother, sitting on her eggs in a place of reeds and sedge, would not fly when an intruder appeared; but, keeping her body concealed amid the leaves, she would stretch out her long, flexible neck and hiss wickedly. 'A snake in the grass,' the intruder would say to himself as he retreated, and on her eggs the goose would chuckle in a sly, contemptuous way.

"The lapwing is another liar. Approach her nest and she sets up a distressful crying and runs back and forth in front of you, trailing one wing as though it were broken. You follow. You think to snatch her up in your hands. With this lie she lures you away from her young.

"The thrush in time of drought beats with his feet on the grass like a clog dancer. Thus he lies to the earthworms. He makes them think that it is raining. Up they come in silent haste, and the deceitful thrush makes a rich meal."—New Orleans Times-Democrat.

TODAY'S COURT.

Michael Fogarty was fined $10 for drunkenness at Quincy.

James F. Carey was fined $75 for violation of the liquor law at Holbrook.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.
Jan. 21, 1 m.

Established 1870. Telephone.

For brush and grass fire, send word by telephone or otherwise, to the nearest Fire station.

132—Out of City Call, Braintree.
135— " " " Weymouth.
158— " " " Milton.
162— " " " Boston.

At the Country Club.

By TEMPLE BAILEY.

Copyrighted, 1907, by M. M. Cunningham.

The four women were drinking tea. Somewhere out in the October afternoon were four men who made up the friendly octet, but the women, on account of the coolness of the day and the charm of the big fireplace, had elected to stay away from the links.

Three of the women were not young, although the signs of age had been modified by careful grooming and diligent massage. Mrs. Amesbury even looked young with her slender figure, her shining hair and her grace of gesture and of carriage.

But Tressie Stuart was young, and therein lay the difference that made Mrs. Amesbury uneasy. One might give the lie to age by attention to complexion and costume, but there was a quality in Tressie's laugh, a light in her eyes, a buoyancy of spirit, that separated her from the other women and cast the blight of contrast upon their beauty.

"Tressie," Mrs. Amesbury said, "stop roaming around the room. You make me nervous."

"Oh, do I?" Tressie's apology was immediate. "It's something in the air, I think. These fall days make me feel like a young colt. I want to be out of doors, and here we are drinking tea by the fire, like a lot of old tabby cats."

"We are a lot of old tabby cats," Miss Angela Amesbury agreed cheerfully. Unlike her sister-in-law, she did not aspire to youthfulness. Having steered herself safely out of a somewhat emotional girlhood into a calm old maidism, she was prepared to claim all middle aged privileges, and tea drinking at the Country club was an indulgence that appealed to her comfortable soul.

"You are the only kitten in the crowd, Tressie," she went on. "Run on out and meet the men. They must be coming in by this time."

"Angela," Mrs. Amesbury reproved her, "Tressie can't go without a chaperon."

"Why not?" Angela asked bluntly. "Two of the men are her uncles, the third is your husband, and she has known Junior Mason since she was a baby."

"Oh, well"—Mrs. Amesbury shrugged her shoulders—"you know we don't think alike on such matters."

"No, thank goodness," said Miss Angela. And then the hitherto silent Aunt Georgia Stuart, who was officially Tressie's chaperon, interposed, "Tressie always does as she pleases, Mrs. Amesbury." And Mrs. Amesbury, with another shrug of her shoulders, gave up the argument and poured herself a second cup of tea.

And so it happened that as Junior Mason came up the elm walk toward the Country club, with the dull orange of the sunset behind him, he saw hurrying to meet him Tressie Stuart in scarlet coat and stiff brimmed hat.

"I should have died if I had stayed in there another minute," she told him. "Can't we walk somewhere before dark comes? This air is like wine."

"It's awfully muddy," he stated dubiously, "in this path under the trees. The other men are coming around by the road, but this was the shorter way, and I wanted to get a few minutes with you before the whole crowd began to piffle paffle."

"Don't be slangy," Tressie admonished.

"Well, you wouldn't call their small talk conversation, would you? It's piffle paffle, and Mrs. Amesbury is the worst of the lot."

"I am ashamed of you," Tressie scolded, "to criticise your elders."

"Mrs. Amesbury wouldn't thank you for calling her anybody's elder. She considers herself the leading juvenile of the Country club. That's why she's jealous of you."

Tressie stared at him.

"Junior," she said severely, "I didn't know you could be so critical of a woman."

He had the grace to look uncomfortable.

"She's made me so unhappy about you, Tressie," he blurted out at length.

"About me?"

"Yes, when you were away all summer and didn't write to me once."

Tressie's eyes were on the sunset.

"No, I didn't write," she said after a pause.

"Why not?"

"Mrs. Amesbury said—that there was another girl, Junior."

"What?"

"Yes. She said you were paying devoted attention to a little Kentucky singer."

"Oh!" Junior flung up his head. "And she told me you were going to marry old General Barnes."

"Who told you?" Tressie demanded.

"Mrs. Amesbury."

"Well, of all things!" Tressie's cheeks were flaming. "And you believed her, Junior?"

"Well, you believed about the Kentucky girl."

For a moment accusing brown eyes met accusing blue ones, and then they both laughed, the joyous laugh of youth that has come into its own again.

"She is good at—fiction," Tressie summed up. "She ought to be punished, Junior."

"Oh, let her go," Junior asserted, "and we will go for a walk, Tressie, and I will tell you all the things I have wanted to write and didn't dare."

But she would not go.

"It is getting too dark," she said, "and even if I have known you all my life, Junior, we must have some regard for conventions."

"Then let us slip in through the French windows and sit in the curtained alcove. They won't see us come in, and we can talk until dinner time."

The alcove was opposite the fireplace and gave a full view of the three women at the low wicker tea table. Mrs. Amesbury was prattling gayly.

"You see, dear Junior's money is a great temptation to the girls. Now, even Tressie"—

Tressie in concealment gasped, and there was wrath in her eyes.

"Don't mind her," Junior whispered. "I know you love me for myself."

Tressie whirled around on him.

"Who told you that I cared?" she demanded. "You are taking a great deal for granted, Junior."

"Please can't I take it for granted?" he urged. "I am going to propose to you right now, Tressie, or Mrs. Amesbury will never give me another chance."

They came out of their dream of happiness some time later to hear Angela protesting.

"But you wouldn't tie such beautiful girlishness as Tressie's to that worn-out old General Barnes?"

"He is very rich," Mrs. Amesbury evaded.

"I think Tressie will marry Junior Mason," Aunt Georgia said placidly. "They are great friends."

Mrs. Amesbury shook her head pityingly.

"Junior likes so many girls. Now, there was that little girl from Kentucky"—

Behind the curtains Junior growled "Piffle paffle," but Tressie put her fingers over his lips, and he kissed the fingers and smiled at her.

"Junior Mason is in love with Tressie," Miss Angela stated, "and you know it, Marion. You had better let him marry her, and then she will be out of the running."

Mrs. Amesbury stared at her sister-in-law haughtily. "I don't know what you mean, Angela," she said.

"Yes, you do." Miss Angela did not mince words. "You know you had always been the belle of the Country club until Tressie Stuart came, and you don't like to abdicate to youth and beauty."

Mrs. Amesbury straightened up in her chair and glared at the sear Miss Angela.

"You are insufferable, Angela," she began, and then, as the three missing men appeared in the doorway, she swept toward them. "We were just talking," she misstated sweetly, "of what we should have for dinner. Oysters and canvasbacks, don't you think, with orange salad and anything else you may suggest?"

Behind the curtains Tressie and Junior were arguing.

"I am going to announce it at once," Junior insisted.

"But"— Tressie began.

"There are no 'buts,'" Junior stated firmly, "and there are a dozen reasons why I should tell them that we are engaged."

And just then Mrs. Amesbury discovered them.

"Why, Tressie Stuart!" she cried as she opened the curtains. "How long have you been here?"

"Oh, a half hour," Tressie considered. "Haven't we, Junior?"

"Long enough for me to propose to Tressie," Junior said, making the astounding statement calmly.

"And she has said 'Yes,'" Junior went on. "I know you will congratulate us, Mrs. Amesbury."

And then with a last fling Mrs. Amesbury gave it up.

"My dear," she said bitingly as she kissed the reluctant Tressie, "who would have dreamed that it was poor little you that Junior really cared for?"

The Ermine.

Across the stream a little above the bank a beautiful white creature was running rapidly about among the stones. It would often vanish for a time, then come into view again at some distance from the hole into which it had disappeared. Ever on the move, peering and sniffing here, there and everywhere, it would have been almost invisible on the snow in its coat of pure white were it not for the jet black tip on its tail and the flashing deep brown eyes and inquisitive nose.

This graceful, active little creature was the ermine, with whose white fur we are all familiar and which in many countries is used for the royal robes of kings and queens to be worn at coronations and on other very special occasions. It is also used in some countries for the trimming of the cloaks of judges which they wear when sitting in court, and there is a saying that when a man is made a judge he "dons the ermine." In the olden days the fur of the ermine was symbolic of purity. In this country the pretty white fur made up with the black tips of the tails placed at regular intervals is very popular.—Charles Livingston Bull in Metropolitan Magazine.

Historic Wedding Ring.

After the great battle of Edgehill, fought when Charles I. was king of England, it was noticed that one of his bravest officers, an ancestor of the present Verney family, was missing. Search was made for the gallant soldier. Nothing was found but the gloved hand, still clutching the royal standard, and the wedding ring which he always wore still encircled the finger. The ornament was worn outside the gloved hand. With this historic relic the Verney family of Clayton, Buckinghamshire, England, have solemnized all their marriages, the ordinary gold band always being substituted after the ceremony. One marriage in which this wonderful ring was in use was that of Sir Henry Verney to the sister of Florence Nightingale.

At Liberty to Scream.

It was on a ferryboat plying between Sydney and Manly, one of that city's beautiful suburbs. Every seat was occupied. Each occupant felt the influence and prepared for an enjoyable trip when a lank girl of fifteen appeared, dragging by the hand a screaming child. There she stood, glowering. A mild lady suggested the child might be in pain. An old bachelor muttered that people who had charge of children should keep them at home. Low voiced but distinct imprecations were now rife. She took not the slightest heed of the muttering or the bawling, which was now at the highest pitch, till the suggestion was offered that medicine would do it good. Then she arose in her wrath, as it were, and, giving the child a vigorous shake, said:

"Ethel, cry as loud as you like. I've paid your fare."—London Tit-Bits.

Handsome Dogs Are Good Dogs.

In the most characteristic of English dogs, with the English bulldog as an unfortunate exception of a glaring sort, common sense principles in the canon of judging are distinctly marked. In the case of hounds any good eye can pick out the best animals. This was curiously illustrated not long since in private when an artist taken over one of the bigger kennels of foxhounds picked out the prize and pedigree dogs one after the other. He went purely by his own sense of what was strong and comely, of "strength and beauty met together," as Shelley says in a very different connection. — London Outlook.

The Observations In the Daily Walk

William H. Rice of Boston visited his sister on Sunday.

Mrs. Fred Wilson and daughter Julia of Chicago are the guests of Mrs. Mason of Willow street.

Horace T. Mann of Quincy, Illinois, spent the week end with H. W. Haskell of Green street.

Miss Susan Rice of Boston spent the week end with her sister, Mrs. Harry L. Linnell of Rawson road.

Little Miss Gretchen Young of Prospect street is slowly recovering from a severe case of diphtheria.

Mr. and Mrs. W. L. Jefferson of East Elm avenue are spending a few days with Mrs. Jefferson's mother at Stowe, Maine.

Miss Lulu Kolb of Clive street has returned from a week end visit with her sister, Mrs. Donna Caswell of Lawrence.

Fred L. Gross of Exter Academy spent the week end with his grandmother Mrs. Fred A Gross of West Elm avenue.

The breaking down of a freight train at Wollaston, Monday night, caused some trains to be late. No one was injured.

Mrs. Convers Moody, formerly of Quincy and Wollaston, died on Monday at Woburn, and will be brought here for burial on Thursday. She was the wife of Lieut. Moody.

The Committee on Harbors and Public Lands of the Legislature will give a hearing on the bill relative to enlarging the channel at Wollaston beach, Quincy, Feb. 4, at the State House, Boston.

The Congregational Men's club of Atlantic met Monday evening, with the president, Frank Jenkins of Billings street. Plans were made which in their achievement will be of intense interest to the public.

R. C. Bainbridge, the new Commissioner of Public Works, who assumes office next Monday, was about City Hall this morning, getting the lay of the land, and meeting the different officials.

Another of those good times tomorrow night at Plumer's hall. The Knights of Malta are getting famous for their whist parties. Everything is done for the comfort of their patrons.

The Sunday afternoon song service at Memorial church gathered together a surprisingly large number of vocalists this week. Rev. Henry A. Coolidge, pastor of the church, made a most inspiring conductor of the singing, as he is himself a vocalist of no small merit. The new books were used.

Thought Chairman Was a Czar

Levi H. Turner was the cause of a few discordant notes at the meeting of the Massachusetts Single Tax League in Boston on Monday night according to a report in a morning paper.

The meeting was called to hear reports from a recent session of the American Economic Association at Madison, Wis.

Mr. Turner arose and, it is reported, began a discussion of local option in Quincy where he said the tyranical rule of railroads was felt more than in any other city.

The chairman called him to order, stating that the meeting was called soley to discuss the progress made along single tax lines.

Mr. Turner replied that he understood the meeting was to be for a free discussion of the subject. He did not understand that it was for the purpose of hearing read clippings from magazines and newspapers.

Upon further attempt of the chairman to squelch the Quincy man, Mr. Turner is reported to have replied: "I don't think you are a czar here. For my part I don't intend to run the meeting, but I do not propose to have you deny me the privilege of the floor."

This closed the incident.

Furniture Sale Continued.

Although W. G. Shaw of the City Square furniture house disposed of a very large amount of stock at the great reduction sale of furniture last week, they find that they must still further reduce their large stock. The big sacrifice sale will therefore be continued for a short time longer.

This sale does not mean that the firm is going out of business, or that it is insolvent. It means that they were overstocked and must reduce stock. For this purpose everything in the furniture line has been marked down. Prices have been slashed regardless of cost and those who are wise enough to buy now get the benefit.

In marking their goods for this sale the only question considered was, "how low must they be marked to clean them out." Everything is marked in plain figures so that no mistake can be made.

Then purchasers may also take advantage of the liberal credit system for which this firm has always been famous. Such an opportunity as now presented will never happen again.

Frank Bristol of Providence, R. I., is remaining with Mr. and Mrs. Geo. Hill of Walker street while attending school in Boston. Mr. Bristol is studying to be an undertaker.

Miss Eva G. Prario of West Quincy, formerly with the New England Telephone and Telegraph Company in their Braintree office, has gone to Hamilton, Canada, for an extended visit. Miss Prario will be the guest of Mrs. S. Boner, formerly a Quincy resident.

Mullaney and Rittenhouse, the two alleged deserters arrested on Sunday by Constable Hultman, were taken to Newport, R. I., this morning and turned over to the naval authorities there. The young men said that they had no intention of deserting when they overstayed their shore leave of absence.

A Big Bill At the Scenic

Last evening marked the first night in the fourth week of this popular house, which was crowded to the doors when the show commenced. The bill presented was certainly one of high merit, and the immense audience appreciated every one of the several acts which goes to make up the best show ever seen in this city at popular prices.

The motion pictures shown have been carefully selected and were excellent, and the wonder of the patrons is how they can be presented so clear and distinct.

In the vaudeville, Coden & Mack, a clever young team who sings catchy songs, gave an up-to-date exhibition of dancing that was very enjoyable; George Platte, "The Violet Girl," a female impersonator of rare merit, with a marvelous range of voice, had the audience guessing until he removed his head dress in the second part of his act-Douhitt & Jones, the celebrated travesty comedians, in one of the best and most humorous comedy sketches on the vaudeville stage to day, had the audience in a continual "scream" with their witty, funny sayings, and their absurd way of doing things. These popular gentlemen never fail to produce merriment wherever they travel.

The illustrated songs were sung by William Chase, a Boston boy with an unusually pleasing baritone voice, who has sung in the best theatres from coast to coast. The songs this week are intensely popular and interesting, the march song especially, which was thoroughly appreciated by all present.

The supply of tickets for the Eliot debate under the auspices of the Citizens' Association has been exhausted If there are any who have tickets they will not use, they are requested to return them to E. H. Angier, secretary.

Views of Financ a Expert

New York, Jan. 28.—Speaking of the financial bills offered as a panacea for present financial troubles, Vice President Forgan of the First National bank of Chicago, at the annual banquet of the bankers of the city of New York, declared that in his judgment the country needs less, not more, expansion of credit. Forgan opposed strongly Mr. Bryan's proposition of "government guarantee of deposits of national banks" as a remedy of existing financial evils.

Bowling League At the Y. M. C A.

Teams No. 1 No. 5 rolled a very interesting match at the Y. M. C. A. Monday evening, Team No. 1 winning three straight from Team No. 5. Up to this date these teams were leaders but Capt. Nicoll's champions were given a severe defeat. Capt. Andrews was high man, rolling 114 in one string. Team No. 1 Capt. Andrews now leads the league.

The summary:

TEAM 1.

Thomas,	81	94	84	259
Jones,	86	90	83	259
Newcomb,	89	81	88	258
Andrews,	86	114	88	288
Parker,	81	69	79	229
	423	448	422	1293

TEAM 5.

Nichols,	75	81	90	246
Mahoney,	68	74	65	207
Prescott,	93	77	78	248
Morriss,	81	78	94	253

Basket Ball And Other Events

Saturday evening Feb. 1, Quincy first team will play the Cambridge Y. M. C. A. basket ball team in Quincy.

Feb. 8, Quincy second team will play South Weymouth.

Feb. 13, The Springfield Training school "Gymnastic Team" give an exhibition in Quincy gym.

Feb. 27, There will be a trial athletic meet with Brockton.

Feb. 29, Second annual Boys' open athletic meet.

Mar. 18, The State handicap meet is held in the Somerville Y. M. C. A.

Congressional Doors Barred

Buenos Ayres, Jan. 28.—Following the promulgation of an executive decree closing the congress, large forces of police occupied the congressional building to prevent the senators and deputies from attempting to take possession. The troops are still confined to barracks, it is stated, largely as a measure of precaution.

Californ a Bank C oses

Longbeach, Cal., Jan. 28.—The Citizens' Savings bank of this city has announced its suspension. About three months ago the bank took advantage of the ninety-day requirement rule for depositors and since the expiration of that time, it is understood, the withdrawals have been greater than the bank has been able to meet.

An $80,000,000 Project

St. Petersburg, Jan. 28.—The ministry of communications introduced in the duma a bill to double the tracks of the Siberian railroad, which, it is estimated, will cost nearly $80,000,000. Recently the ministry appropriated $5,500,000 for the purpose of doubling the tracks of this road between Samara and Zlatoust.

Queen Gets Back Miniatures

London, Jan. 28.—The three miniatures of the Duchess of Fife, the Queen of Norway and Princess Victoria, belonging to Queen Alexandra, which were stolen recently from the studio of her engraver in London, to which they had been sent for reproduction, have been returned. There is no trace of the thief.

Forced to Abandon Schooner

Newport News, Va., Jan. 28.—The steamship Earl of Carrick, from Shields, brought Captain Harper and eight men of the crew of schooner Helen G. Moseley of Boston, which was abandoned, waterlogged, off Winter Quarter lightship Sunday morning.

Austro-Hungary Our Friend

Vienna, Jan. 28.—The Austro-Hungarian minster of foreign affairs, in making his annual statement on the international relations of the Hungarian delegation, emphasized the friendly feeling entertained by Austria-Hungary for the United States.

Conspirators May Be Banished

Paris, Jan. 28.—A dispatch to The Matin from its Lisbon correspondent says that Premier Franco declared that the situation was now well in hand and that the conspirators would probably be banished until the country was absolutely calm.

The Weather Forecast

Almanac, Wednesday, Jan. 29.
Sun rises—7:02; sets—4:53.
Moon rises—3:17 a. m.
High water—7:30 a. m.; 8 p. m.
There will be snow or rain in south, snow in north portion of New England, except fair in eastern Maine.

MOMENTOUS QUESTION

What City Officials Should Receive Pay for Feb. 1 and 2?

There is considerable discussion in certain quarters over the pay of city officers. The salary of these officials is paid in monthly installments and this year the month of January ends on Friday, up to which time some claim they are paid.

As the new officials do not assume office until Monday, the present office holders must perform the several duties of their office until that time.

The question under discussion is whether officials of 1907-8 should receive any salary for these two days.

It is claimed by some that with the pay day Friday they have received their full year's salary and that if not paid for these two extra days that they will be just so much out.

On the other hand it is said that in 1907 the first Monday of February was not until the fourth day of the month, and therefore they would not have worked their full year until the fourth day of February this year which would be until Tuesday. Here is an opportunity for some of Quincy's mathematicians to get a little practice in figuring it out.

Why split hairs! The officials are paid so much a year, and the year for the department officials is from the first Monday in February to the first Monday in February, be it 52 weeks or 53 weeks, more or less.

The Daily Ledger is reminded of the old problem where two Quincy men coming from Boston on the train took seats in the rear car. Before reaching Quincy one man walked to the front car. Which man had the longer ride?

☞The second annual candy sale and entertainment by Makaria Fraternity will be held Wednesday evening, Jan. 29, at 8 o'clock. A very pleasing entertainment is promised and an excellent quality of candy will be for sale. Come early and avoid the rush as tickets are selling very fast due to the unexcelled entertainment given by the Fraternity last year. 2t.

$100 REWARD, $100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Newsy Budget From Shipyard

Manager's number 179 has been issued stating as follows:—"It is proposed that the United States Ship Birmingham should leave the yard for trial trip on Monday, February 24, 1908, at 1 P. M. Foremen and all others concerned are directed to have completed at the time of this trial trip every possible item of work on the boat, which is not held up by specific order from the office. All tests of every possible nature must be conducted before the trial trip. It is expected that upon the return of the vessel from the trial trip that she shall be delivered in about three weeks time."

The monitor Florida has been ordered out of commission at the League Island navy yard, and all her officers and men have been detached. Her crew has been assigned to new ships that will soon go into commission, while her officers were sent to their homes on a furlough. It will be some time, at least, before the Florida is again placed in commission. Last summer she was one of the vessels used by the boys of the naval academy on their annual summer practice cruise. The report printed in some papers that the Florida was likely to be used as a target for the gunners of the navy, like the English warships Hero and Belleisle, is most unlikely. The Florida is too new a ship to be made junk of in order to learn things which are always pretty well known. The Florida is one of the single turreted monitors that were begun for the navy at the beginning of the Spanish war. She cost in all about $2,500,000.

Recent Permits For Building

During the year 1907, or from the first of March when the Inspector of Buildings assumed office, 387 permits were issued. Many of these were for new buildings although there were a large number of repair jobs.

Among the recent permits issued were the following:

To Mary Mottla, for a house on Taft place off Elm street.

To F. W. Graut for a house at 247 Washington street.

To Fred M. Torrey for a house on Davis street, Norfolk Downs.

To George H. Wilkins, for an auto house on Great Hill, Houghs Neck.

To the Pneumatic Scale Co., for a machine shop, 48 by 52, at Norfolk Downs.

To Mrs. Jeannie W. Gannett for a summer dwelling at Post Island.

To Richard J. Barry for a house on Glover avenue, Atlantic.

To Henry L. Kincaide for a garage on Whitney road.

To Mrs. Maria R. Jones for a three-family house on Vane street, Atlantic.

To John E. Poland to rebuild the house of Joseph Robinson on Calumet street, Norfolk Downs, recently damaged by fire.

Prize Winners.

Mrs. G. H. Jaques of Main street has been doing well with her beautiful little dogs lately. At the dog show held in Brockton last month her maltese terrior won first in open winners and one special; her Yorksuire terriers won second and third in their classes At the Lynn show last week her maltese again won first in open class winners, and special for best in show; the Yorkshires won first in novice, second in limit, special for best novice and special for best puppy. Mrs. Jaques intends to show a good string at Boston next month.

—Frederic Hudson in his "History of Journalism" referring to the Boston Evening Transcript in its youthful days, early in the 1800's, says: "It was small, always clean and was a general favorite in the family circle." In the last two qualities the Transcript remains the same. In the former much difference may be noted; it has grown from a tiny four page sheet to a daily journal of from 16 to 52 pages in size. Its reputation as a clean newspaper of true worth continues to grow as well.

VITAL STATISTICS

The Death Rate For the Year 1907 Was Below Fifteen per 1000

The City Clerk reports the total number of deaths recorded in Quincy during the year to have been 465, an increase of 18 over the year 1906. The total includes several brought to Quincy for interment.

The number of marriages recorded in 1907 was 356, an increase of 7 over the year 1906.

The returns for the births have not been completed as yet but they will probably exceed those of 1907 when the number was 893.

Deducting from the 465 deaths the number who died out of town, and estimating the population at 30,000, the death rate of Quincy for 1907 was below 15 per 1,000.

With nine more marriages there would have been an average of one per day, certainly a busy year for cupid.

Race suicide is not threatening the City of Presidents, when the births average nearly three per day. There are about 5,000 married women in Quincy, and one in six became a mother during the year 1907.

Class No. 151 In First Aid

Star events are coming right along in the Y. M. C. A. gymnaium next month.

Tomorrow evening the Employed boys and the Advanced juniors will have an athletic meet and basket ball game. Admission free to the public.

Thursday evening there will be an apparatus test for the senior class in order to grade the class into groups of equal ability. Before class there will be a talk on "Food" given by the Physical director.

A class in first aid to the injured was started at the Y. M. C. A. Monday night under the direction of a Quincy physician. The class is No. 151 of the National First Aid Association, of which Clara Barton is president. It will consist of ten lectures and demonstrations and ends with an examination. Successful students will receive a diploma. The class meets on Monday evenings at 8.30. Ten men are already enrolled and quite a number should be added by next Monday.

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

Just Jotted Down By Ledger Men

A regular meeting of the School Committee will be held tonight.

The Houghs Neck association has five streets it will ask the city to accept.

The annual ball of the St. Mary's C. T. A. & M. R. society will be held in February.

Another new industry in the vicinity of the High school. This time it is a Chinese laundry.

Mayor Shea will probably announce the balance of his appointments the latter part of the week.

There will be a valentine party at Misses Julia and Flora Lyons, Miller street, West Quincy, Feb. 14.

Tomorrow is carnation day. Everybody should wear a carnation in memory of President McKinley.

The Telephone club, composed of employes of the Quincy telephone exchange, hold a dance tonight.

At the billiard tournament at the Granite City club Monday night, James H. Penniman beat Edward J. Murphy 100 to 72.

The adjourned hearing of the grade crossing commissioners will be held Monday morning, Feb. 17, when there will be a new city solicitor, new commissioner of public works and possibly a new city engineer.

The funeral of Mrs. Sarah A. Holmes was held Monday afternoon from her late residence, 34 Brook street, Wollaston. The services were conducted by Rev. E. D. Webber of the Baptist church. The burial was at Kingston.

Installation of Norfolk Lodge

There was a large attendance at Music hall, Atlantic, Monday night, at the public installation of the officers of Norfolk lodge, Ancient Order of United Workmen. In addition to the ladies of the members, there were a number of visitors from Merrymount lodge of Quincy and other lodges in this vicinity.

The installing officer was Deputy Grand Master Workman, H. E. Miliken of Everett, who was accompanied by a suite from that city. The officers installed were:

Past Master Workman—A. W. Dingwell.
Master Workman—Lewis Fleshman.
Foreman—John A. Welsh.
Overseer—Cornelius O'Connell.
Recorder—John C. Ward.
Financier—Charles Kolstad.
Treasurer—R. B. Smith.
Guide—J. J. Brennan.
Inside Watchman—J. H. Nelson.
Outside Watchman—Myron G. Berry.

At the conclusion of the installation ceremonies, there was a pleasing entertainment, which included a trio for the piano, violin and cornet by William Westland, Master Norman Kolstadt and John A. Welsh, and addresses by James J. J. Reidy, Grand Master Workman of Massachusetts, and Deputy Harry E. Miliken, and others.

A social hour followed the entertainment, during which refreshments were served. The evening closed by all joining in singing "Auld Lang Syne."

Granted a Divorce.

Mrs. Jennie Spargo of South Thomaston, Maine, formerly of Quincy, Mass., has obtained a divorce from Charles H. Spargo of Stonington, Maine, for gross and confirmed habits of intoxication and cruel and abusive treatment; custody of minor children Lillian, Ruth and Mary Dale Spargo decreed to libellant; the libellee ordered to pay libellant $4 per week payable every month, to assist in the support of said minor children.

PILES CURED IN 6 TO 14 DAYS.
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams Tel. 279-3.

LAW DECLARED VOID

Supreme Court Decides Against Claims of Union Labor

DISCHARGE OF AN ENGINEER

No Connection Between Interstate Commerce and Labor Organization Membership Which Makes Such an Act a Crime

Washington, Jan. 28.—The constitutionality of the act of congress of June 1, 1898, prohibiting railroad companies engaged in interstate commerce from discriminating against members of labor organizations in the matter of employment was called into question by the case of William Adair vs. the United States, which was decided by the supreme court of the United States favorable to Adair.

The opinion was by Justice Harlan and held the law to be repugnant to the constitution.

The court held that Adair, as master mechanic of the Louisville and Nashville Railroad company, had a right to discharge an employe because he was a member of a labor organization just as it was the employe's right to quit such employment because of his membership in such organization. Congress could not under the constitution, he said, authorize a violation of contracts under the guise of protecting interstate commerce.

The case came to the supreme court on a writ of error from the United States district court for the eastern district of Kentucky. Adair was proceeded against on the charge of threatening to discharge a locomotive engineer named Coopage because the latter was a member of a labor union. The act of 1898 was invoked for Coopage's protection and the district court fined Adair $100.

Justice Harlan held it was Adair's right to serve his employers as best he could so long as he did nothing forbidden by law as contrary to the public welfare. He reversed the lower court's decision.

"The right of an employe to quit the service of the employer, for whatever reason, is the same as the right of the employer, for whatever reason, to dispense with the services of such employe.

"It was the legal right of the defendant, Adair, however unwise such a course might have been, to discharge Coopage because of his being a member of a labor organization, as it was the legal right of Coopage, if he saw fit to do so, to quit the service in which he was engaged because the defendant employed those who were not members of some labor organization.

"In all such particulars the employer and the employe have equality of rights, and any legislation that disturbs that equality is an arbitrary interference with the liberty of contract which no government can legally justify in a free land.

"Congress could not consistently within the fifth amendment to the constitution make it a crime against the United States to discharge the employe because of his being a member of a labor organization.

"Looking alone at the words of the statute for the purpose of ascertaining its scope and effect and determining its validity, we hold that there is no connection between interstate commerce and membership in a labor organization as to authorize congress to make it a crime against the United States for an agent of an interstate carrier to discharge an employe because of such membership on his part."

An Unsuccessful Expedition

Brussels, Jan. 28.—Advices have been received here to the effect that the American expedition led by R. D. Mohun, which was seeking to penetrate into the wilds of the Congo Free State, was attacked by natives and compelled to withdraw. The object of the expedition was to pave the way for the large investment which American capitalists are to make in that country in the exploitation of the rubber, mining and railroad concessions made to them by Belgium.

Laying Off Railroad Mechanics

Cheyenne, Wyo., Jan. 28.—Supplementing the order of Saturday reducing work in the Union Pacific shops to five days a week, an order was posted here yesterday, reducing work still further to three days a week.

Altoona, Pa., Jan. 28.—The 5000 employes of the Pennsylvania railroad locomotive repair shops here have been notified that the shops will be closed until next Monday.

Maid and Dogs Chief Mourners

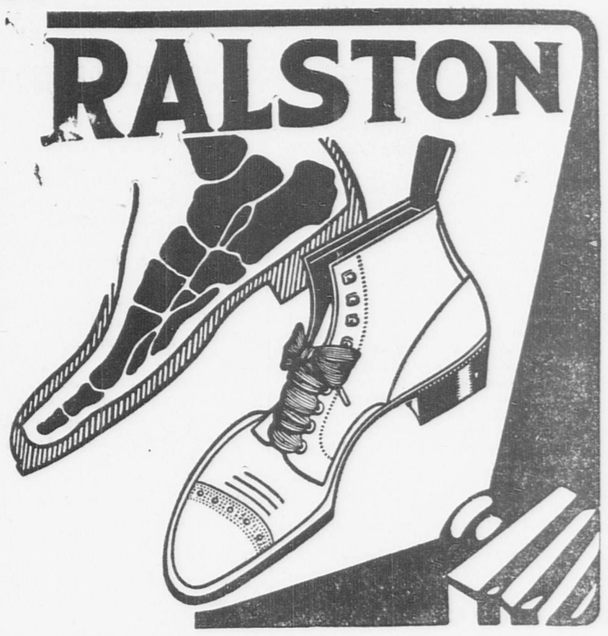

Florence, Jan. 28.—The funeral of "Ouida" was a most pitiful epilogue to her pitiful end. She died amid squalor and poverty and her body was followed to the grave only by a dozen dogs she had starved herself to feed and her faithful maid, to whom she left her last manuscripts. The body was buried in the English cemetery and the spot is marked only by a wooden cross.

Caught With Forged Draft

Havana, Jan. 28.—George W. Whitefield was arrested here while attempting to cash a forged draft. He is believed by the secret police to be the man of the same name who is wanted for swindling in many cities in the United States.

One Dose Often a single dose of Ayer's Cherry Pectoral at bedtime will completely control the night coughs of children. It is a strong medicine, a doctor's medicine, entirely free from alcohol. Made only for diseases of the throat, bronchial tubes, and lungs. Full formula on each label. J. C. Ayer Co., Lowell, Mass.
Ask your doctor to tell you, honestly and frankly, just what he thinks of Ayer's Cherry Pectoral. Then do as he says.

RALSTON

So Cleverly Have
the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

A NEW TERM APPLIED

Thaw Was Afflicted With "Manic-Depressive" Insanity

ATTACK LIKELY TO RECUR

Physician Who Attended Defendant Abroad Gives Testimony Which Brings Forth Important Questions From Justice Dowling

New York, Jan. 28.—Harry K. Thaw's defense closed yesterday with "manic-depressive insanity as explaining the death of Stanford White at the hands of the young Pittsburg millionaire. The case should go to the jury by Wednesday night or Thursday noon.

District Attorney Jerome will apply today for the appointment of a commission to take the testimony of Abraham Hummel, the disbarred lawyer, who is in the penitentiary on Blackwell's island, and who is said to be too ill to appear in court. Mr. Littleton of the defense said he would oppose any such action, whereupon Justice Dowling announced that if necessary he would go to the island himself tomorrow night with the defendant and his counsel to preside at the taking of Hummel's testimony. The jury, it was said, would not be compelled to take the night trip across the river. Thaw seemed delighted at the prospect of such an outing—even to the grim shores of New York city's penal colony—and smiled broadly at the court's suggestion.

District Attorney Jerome disappointed a crowded courtroom when he refrained from last year's tactics of baiting the expert witnesses for the defense, three of whom—Drs. Wagner, Evans and Jelliffe—declared that at the time Thaw killed Stanford White he was suffering from such a defect of reason as not to know the nature or quality of his act or that the act was wrong.

The prosecutor contented himself with drawing from the alienists the fact that last year they swore that it was during a "brainstorm" that Thaw committed the homicide. He also read from the affidavit made by Dr. Wagner before the lunacy commission last year, giving conversations with Thaw in court which tended to show that the defendant had a distinct recollection of occurrences on the roof garden immediately preceding the tragedy.

It was left to Justice Dowling to make the most important inquiries of the alienists. He desired to know the exact nature of "manic-depressive" insanity and if the attacks were likely to recur. He also asked if a person suffering from this form of insanity would be likely to commit assaults. He learned that it is a recurrent form of mental disorder; that the attacks come suddenly and without warning, a period of insanity being followed by a maniacal outburst, then by a period of complete depression and then by another lucid interval.

It seemed that the presiding judge was seeking to obtain information upon which to predicate judicial action in the event of a verdict of not guilty on the ground of insanity or of direct acquittal. Even in the latter event, it is pointed out, Dowling would have the right to have Thaw committed for examination.

An English physician, one of three foreign doctors who testified yesterday, first applied the term "manic-depressive" or "sub-acute mania" to Thaw's mental condition. Dr. Wells of London made the diagnosis during an outbreak by Thaw in London in 1899, when, with a normal temperature, Thaw demanded that the walls of his rooms in a nursing home be torn down so that he might have air and that twenty tons of ice be put in the apartment to cool it.

Mr. Littleton's hypothetical question, which was answered by the three experts, was a complete resume of the evidence except, as Jerome pointed out, the testimony of James C. Smith, brother-in-law of Stanford White, who talked with Thaw for fifteen minutes just before the shooting on the roof of Madison Square garden. The question contained some 16,000 words.

Date For Standard Oil Trial

Chicago, Jan. 28.—Judge Bethea, in the United States district court, has set the trial of the Standard Oil company of Indiana, on the charge of accepting concessions from the Chicago and Eastern Illinois railroad on shipments of oil, for April 6. It is a larger case than that involving the Chicago and Alton railroad, in which a fine of more than $29,000,000 was imposed on the Standard Oil company by Judge Landis.

"Dying" Man Fled From Storm

Birmingham, Ala., Jan. 28.—A tornado swept through the northeastern portion of Etowah county. No lives were lost, but much damage was done to property. The home of Bud McCurdy was crumbled like an egg-shell. A 75-year-old bachelor brother of McCurdy was on what was thought to be his death bed. In fear, the sick man jumped up and fled from the house and got out of the way of harm.

Alleged Robbers of Convent

Havana, Jan. 28.—The former priest, Jose Lopez, his wife and Perfecto Sanche, who were arrested at Naples, charged with the embezzlement of $32,000 in Havana gas bonds, the property of the Dominican convent, arrived here on steamer Virginia in charge of a detective,

PHYSICIANS DISCUSS NEW THEORY

Cooper's Views of Human Stomach Noted by Medical Men.

A recent article in the New Orleans Item gives an account of the effect upon the medical profession of that city with regard to L. T. Cooper's theory that the human stomach is responsible for most ill health. The article is as follows:

"The astonishing sale of Cooper's preparation in this city has now reached such immense figures that the medical fraternity have been forced into open discussion of the man's theories and medicines.

"The physicians seem to be divided with regard to the young man's success in New Orleans—some being willing to credit him for what he has accomplished, while others assert that the interest he has aroused is but a passing fad that will die out as quickly as it has sprung up.

"In a statement recently obtained from a well-known physician of this city, the position of those in favor of Cooper is well voiced. The doctor said: 'I am not a believer in proprietary medicines, but I must admit that some of the facts recently brought to my attention concerning this Cooper medicine have gone far toward removing the prejudice I had formed against them when I first heard of Cooper's new ideas and medicines.

"'Numbers of my patients whom I have treated for chronic liver, kidney and stomach troubles have met me and stated that Cooper's medicine has accomplished wonderful results for them. I notice particularly in cases of stomach trouble that the man has relieved several cases that were of years' standing and proved very obstinate to treatment.

"'I do not wish to stand in the way of something that may be for the public good, simply through professional prejudice, and I am inclined to give Cooper and his preparations credit as deserving to some extent the popular demonstration that has been accorded them in this city.'"

We sell the Cooper medicines. They are proving remarkably successful throughout the entire United States. —E. J. Murphy.

FORGERY IS CHARGED

Signature of Two Notes of $5000 Each Called Into Question

Worcester, Mass., Jan. 28.—W. A. Bailey, manager of the Massachusetts Realty and Investment company, with an office in this city, was arrested last night on charges of forgery in connection with two notes of $5000 each on which the name of O. O. Ware of Wilmington, Vt., appeared as signature and endorsement. Bailey was arrested upon his arrival here from Boston, where his business takes him each day, and on being taken to the police station declared that he preferred to remain there for the night rather than attempt to arrange for the bail of $10,000 which was demanded.

O. O. Ware, whose name appears on the notes, is a merchant of Wilmington and is interested in a bank there. He is said to have declared that he never gave Bailey any notes of any description and that the signature and endorsement on the notes are a clumsy imitation of his handwriting.

According to the police, Bailey sold the notes in question to Walter H. Davis, a Worcester wholesale dry goods dealer. Bailey said after his arrest that the charges were false and that he could prove his innocence. He said that he owed Davis money, that there had been some trouble over this, and that the arrest was an outcome of it.

At one time Bailey was engaged in the life insurance business. According to Ware, Bailey wrote life policies for him to the amount of $15,000 and, upon their maturing, invested the money for him.

Second Big Portland Fire

Portland, Me., Jan. 28.—A dozen business houses in the wholesale district suspended business because of the fire which destroyed the brick block containing the wholesale dry goods establishment of Milliken, Cousens & Co. and the shoe jobbing house of A. F. Cox & Son. Owing to the danger from falling walls, the police maintained fire lines at a safe distance that kept people from transacting business at these places. Revised estimates place the aggregate losses at $830,000.

President Eliot on Athletics

Boston, Jan. 28.—The "violent and fierce" sports of the present day are not necessary to the development of a martial spirit, declared President Eliot of Harvard university last night in addressing a large gathering here on "Harvard fifty years ago." He stated that fifty years ago strenuous athletics were comparatively unknown, football and rowing being in the most elementary forms, yet Harvard sent to distinguished service over 1200 graduates and students.

Dissatisfied With President

Providence, Jan. 28.—At a meeting in this city of stockholders of the United Illuminating company, a holding company for several lighting plants in Maine and Vermont, action was taken looking toward the removal from office of H. C. Fletcher, president of the corporation. Fletcher is a local broker. The nature of the charges and the reasons for opposition to Fletcher were not made public.

Gave Town Chance to Borrow

North Attleboro, Mass., Jan. 28.—The town of North Attleboro deposited with a savings bank the certificate of deposit for $34,000 issued recently by the receiver of the Jewelers' National bank, and on that collateral borrowed $10,000 which is to be applied to taking up notes about due. This relieves the town of temporary embarrassment due to the failure of the Jewelers' National bank.

Larceny of $4700 Alleged

Boston, Jan. 28.—A petition for a writ of habeas corpus has been filed by Isadore Halman in the supreme court. Halman is under arrest at the instance of the authorities of Hillsboro county, N. H., on a charge of larceny. It is alleged that Halman obtained $4700 under false pretences from George F. Bosher of Manchester, N. H.

Nine Injured In Wreck

Palmer, Mass., Jan. 28.—Because a faulty rail gave way on the line of the Central Vermont railroad an entire train, except for the locomotive, was hurled down a ten-foot embankment at Jewett's crossing, two miles south of the Connecticut state line. Nine persons were injured, two of them seriously.

Held on Murder Charge

Providence, Jan. 28.—Allen T. Benjamin, proprietor of the "Black House," a road resort, pleaded not guilty when arraigned at East Greenwich on the charge of murder. Benjamin was remanded to jail without bonds pending his trial. It is alleged that Benjamin shot and killed Albert D. Babcock.

Elevator Kills Clergyman's Son

Westfield, Mass., Jan. 28.—Ralph H. Maglathlin, 11 years old, son of Rev. E. B. Maglathlin, was killed by an elevator at the Woronoco paper mills at Woronoco village. The boy was strangled to death by being caught between the elevator and one of its gates.

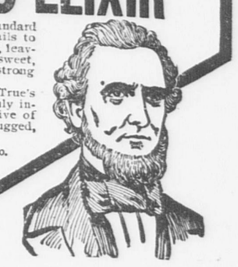

Sensation Did Not Materialize

Paris, Jan. 28.—None of the sensational surprises anticipated as to the Moroccan debate in the chamber of deputies yesterday occurred. Minister of Foreign Affairs Pichon, speaking for the government, showed plainly that the cabinet prefers not to discuss the Delcasse incident. He went no further than an energetic protest against the idea that the restoration of France's prestige was due to the ex-minister. "The foreign policy of France," he said, "is not the work of one man, one party or one government."

WORMS

Unsuspected worms are the cause of numerous little things that go wrong with children. When a child is sick you rarely think that its sickness is caused by worms, yet worms, either directly or indirectly, are the cause of three quarters of all the ills of childhood. Children, and often-times adults feel out of sorts, are irritable, feel listless and unrefreshed in the morning; suffer with indigestion, have a variable appetite, foul tongue, offensive breath; hard and full belly, with occasional gripings and pains about the navel; eyes heavy, and dull; itching of the nose; short, dry cough; grinding of the teeth; slow fever; and often in children, convulsions—in the majority of cases the cause of all the trouble is worms though you may not suspect their presence.

DR. TRUE'S ELIXIR

a pure vegetable compound, has been the standard household remedy since 1857; it never fails to expel not only worms but all waste matter, leaving the blood rich and pure, the stomach sweet, the bowels regular and the whole system strong and healthy.

The mother who gives her children Dr. True's Elixir regularly is wise, because it not only increases the appetite, acts as a preventative of coughs, cold, fever and worms but gives rugged, robust health.

Sold by all Druggists. Price 35c, 50c and $1.00.

Write for free booklet, "Children and their Diseases."

our stock at most enormously cut prices in order to further reduce same. It is imperative that we push out the goods now and we need your help to do it. In return we place our entire stock before you at such immense sacrifice in price to make it of very material interest to you to COME TO OUR ASSISTANCE BY BUYING YOUR NEEDS NOW.

Large numbers of people have visited our store during the past 10 days. But we want more people, still greater crowds needed to help us move out more of the Big $60,000 stock.

Gone the Limit in Price Cutting.

Those who have waited till now before buying—also those who can anticipate their future needs and buy now will be benefited by Savings that gladden the heart.

While the buying during the 10 days of our great Sale was phenomenal in the amount of goods sold and the response by the people was large and hearty, yet we learned that we are still **too long on goods**—our stock being much larger than we were aware of, and as we find it necessary to move out more of the stock, we are compelled to continue our Sale. But for a short time only—just long enough to reduce our stock to a proper proportion—we are near it now—but not quite—and to hurry off the surplus goods we have again relentlessly cut all prices.

In continuing the **Big Sale** there is but one reason—the necessity for further reducing our Big Stock—and to use all possible despatch in accomplishing this object we have put such very low prices on the goods that you **cannot afford to ignore our offers.** Former selling prices, real values and cost prices are forgotten in our eagerness to get rid of the goods. We asked ourselves but one question "How low must the goods be marked to clear them out **NOW—at once"** and with that one idea in mind we again went through every department from basement to garret and produced the most wonderful Bonafide Bargains ever placed before the people. They await you now and depend upon it every purchase you make during this Sale will effect you a big saving. Come early, come often during the Sale, for new Bargains will be daily displayed on our floors and bear in mind that this continuance will be for a short time only. Don't wait, but get in at your earliest convenience.

Prices at the Lowest Ebb

We have simply gone the limit in Bargain Giving in this final effort. Every article, every item in our store, every stick and pin included in this **Great Sale.**

'TIS A GOLDEN OPPORTUNITY—DON'T MISS IT.

"Our Liberal Credit System"

Rings out a Gladsome Event FOR ALL

During the remaining days of this sale we make the STARTLING OFFER TO SELL at the Big cut prices marked in plain figures on all goods to everyone wishing to avail themselves of OUR LIBERAL CREDIT SYSTEM. Nothing like this ever happened before anywhere---nothing like it will happen again.

The Barriers are now All Down

CONFINED TO NEITHER RACE, CREED NOR COLOR

Followers of Cooper Are Legion--- Statement of Albert F. Powell.

ALBERT F. POWELL.

The followers of Cooper and his theories are confined to no one class or creed—they are legion. The preparations introduced in Boston by this young man have had an enormous sale among people of all classes and nationalities, and are daily growing in popular favor. Among the latest to add his tribute to the medicinal value of the Cooper remedies is Albert F. Powell, one of the most popular and prominent members of the colored race in East Milton, Mass. Mr. Powell is commander of a Sons of Veterans Camp, as his uniform indicates, and is also well and favorably known as an accomplished singer. Regarding his experience with the Cooper medicine Mr. Powell says:—

"Several months ago I became afflicted with severe pains in the lower part of my stomach, which caused me great distress. I treated with several physicians, but their medicine did not relieve my suffering. About this time I began reading about the benefits many persons had obtained through the use of Cooper's New Discovery, and decided to try it. Before I had taken half the contents of the first bottle, I felt like a new man—all the pain and distress had disappeared. My stomach has been restored to splendid condition. I believe any remedy that affords relief to suffering humanity should be given the widest publicity, hence this statement."

E. J. Murphy, agent in Quincy for the Cooper remedies, claims the sale of these preparations has broken all records. J. J. Hammers is the East Milton agent.

LADIES' NIGHT

Royal Arch Masons Have Many Guests At the Masonic Apartments

The annual ladies' night of St. Stephen's chapter Royal Arch Masons, Tuesday evening, was a social success in every way. Upwards of three hundred companions, brothers and ladies were present, and the spacious rooms of the Masonic appartments were none too large to accommodate the party.

The reception committee included Ex-H. P., Charles E. Monroe; Ex-Comp Elihu T. Spear, ex-Comp Alexander Falconer, ex-Comp Eben Hardy, Comp Herbert Y. Follett, Hugh H. Ralph and Walter E. Piper, who were assiduous in their duties.

The committee in charge of Ladies' Night were ex-Comp John H. Whitehead, and Companions John Morgan, Thomas D. Borst, Rosco M. Horton and Henry P. Dowst, who had provided an excellent program, which included an entertainment, refreshments and dancing.

The entertainment opened with selections by Maxim's orchestra followed by an address of welcome by Rev. C. F. Hill Crathern, chaplain of the chapter. The address was in a happy vein, and at times sparkled with wit. He spoke of the many historic things in Quincy and the interest that was taken in historic events and orders. For the best things in Quincy they were indebted to Braintree. "I am from Braintree" said the speaker. You are welcomed to this historic brotherhood. The D. R's and D. A. R's, the societies that are inlove with each other, go back a great ways, but Masonry goes back to 4000 years before Christ. You are welcomed tonight to these mysterious chambers. He had no doubt that many of the ladies had been casting shy glances about trying to find the goat. He spoke briefly of what Masonry stood for.

The musical part of the program included selections by the University male quartette, composed of L. E. Baldwin, R. T. Hatch, W. A. Chandler and F. H. Lawton, assisted by Miss Ethel Beatrice Webster as accompanist and Miss May A. Moran reader.

The quartette was down for five numbers. Each of which was heartily encored. Their encores were humorous selections and brought forth rounds of applause.

Miss Moran was heard for the first time by many. She readily captivated her hearers and she can be assured a warm welcome when she again appears before a Quincy audiance.

In addition to these, Messrs Chandler and Baldwin of the quartette were heard in solos.

At the conclusion of the entertainment, refreshments were served, and then came dancing which was continued until midnight. Ex-Comp. Albert W. Fay was floor director, and he was assisted by a corps of aids who included companions Henry P. Furnald, John W. Boyce, Albert M. Willis and Joseph C. Morse.

☞The second annual candy sale and entertainment by Makaria Fraternity will be held Wednesday evening, Jan. 29, at 8 o'clock. A very pleasing entertainment is promised and an excellent quality of candy will be for sale. Come early and avoid the rush as tickets are selling very fast due to the unexcelled entertainment given by the Fraternity last year. 2t.

Birthday Party At South Quincy

Quite the event of the season for those who participated was the 14th birthday party of Master J. Weston Pratt, who invited upwards of forty young ladies and gentlemen to help him make suitable recognition of that important date, on Monday evening of this week at his home on Independence avenue.

The evening was made enjoyable with music, games, etc., followed by a collation. Then the rooms were cleared for dancing which added greatly to the enjoyment of the guests and the success of the party. Many beautiful presents were given by individuals and clubs which were thoroughly appreciated.

Those present were:

Masters Charles E. Bishop, Harry Sprague, Walter Morrison, Ralph Prout, Russel Westland, Ellis Young, Harry Boutilier, Harold Prout, Everett MacLaughlin, Howard Bishop, J. Weston Pratt.

Misses Louise Prout, Hilda McDonnell, Ruth MacCullock, Marion Boylster, Olive Barnicoat, Mary Joss, Jennie Boutilier, Cora Barnicoat, Celia McLellan.

Misses Ethel Prout, Florence Hart, Emma Barnicoat, Mary Donald, Jennie MacCullock, Ellen Joss, Lillian DeYoung, Wilma Wilson, Helen Kennedy, Grace Williams.

Masters Samuel Prout, John McDonnell, Gastave VanCollin, Lawence Hunter, Everett Prout, Russel Farquharson, Hammond Pride, Steven Page, Frank Wrigley, Harold Milnes.

Itch cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by C. D. Harlow & Co., Druggists.

Tomorrow Night,

Thursday, 30 Jan., at 8 o'clock,

Is the date of the Elliot meeting under the auspices of the Citizens Association, at Quincy Music Hall. Doors open to Ticket holders from 7.30 to 7.50.

Charles W. Eliot,

President of Harvard University, will speak on the subject: "Government by a few Selectmen." Brooks Adams, Esq., will preside, and Hon. Russell A. Sears and John W. McAnarney will in reply discuss the merits of the present Quincy Charter.

PROTECT SHIPPING

Councillor Bemis Tells How the American Shipping Is Handicapped

A choice roast of beef was served hot at the dinner of the Congregational club of Wollaston Tuesday evening, together with mashed potatoes, hot gravy, macaroni, rolls, coffee, and creamed apple pie. It was a menu that appealed to the men, and the attendance was the largest in the history of the club.

The special guest of the evening was Hon. A. F. Bemis, the Councillor from this district. Other invited guests were Representative E. C. Hultman of this city, Councilman R. R. Freeman, Councilman J. H. Broughton and ex-Councilman H. J. Polk.

Councillor Bemis was a classmate at Amherst college of Rev. E. A. Chase, pastor of the church, who happily introduced the speaker at the request of President Hull. It also developed that there were several Amherst men present, and the young men who served as waiters led in singing Amherst and other songs which were the hit of the evening.

Mr. Bemis discussed "Our Merchant Marine.'" He is a retired manufacturer, well posted on the tariff and his subject. He reviewed the tariffs of our country from the days of Washington showing that the protective tariff had built up and made prosperous our manufactures. He would extend the same protection to American shipping which has been woefully neglected. In 1830 to 1840, he said, the Yankee clippers were masters of the sea, and carried 75 per cent. of the American business. Since 1850 there has been a steady decline of American tonage so that today but 12 per cent. of our business was carried in American ships.

Mr. Bemis showed how Germany under Bismark had inaugurated subsidized steamship lines and built up foreign trade, and was today feared most by Great Britain. Although Great Britain was regarded as a free trade country it pursued just the opposite policy toward shipping. It had subsidized lines everywhere, and Americans who would compete were beaten before the start.

Now America is milched for $300,000,000 for carrying manufactures, and may sometime awake to the fact that it is a heavy burden. The foreign companies have so much at stake that they maintain the greatest lobby in the country to prevent the subsidy of American lines.

Mr. Bemis referred to the Pacific fleet at some length, endorsing the move of the President, and also referred to the Pacific problem, to China and Japan, to Canada, and made a very convincing argument why the United States should protect our merchant marine.

R. R. Freeman endorsed all that Mr. Bemis said, and told of his experience, especially with reference to the compulsory pilot law of the southern states.

Several gentlemen present entered into the discussion, and a vote of thanks was given to the speaker of the evening.

—Consulation and advice free and only a reasonable charge when our services are required. C. F. Pettengill, Optician, 1391 Hancock St., Quincy.

AMONG THE CLUBS.

The adjourned annual meeting of the Hospital Aid Association will be held tomorrow (Thursday) afternoon at three o'clock in the chapel of First church. A large attendance is hoped for.

Adams Chapter Daughters of the Revolution meet on Monday afternoon at the home of Miss Annie L. Prescott, 41 Spear street, with Mrs. Francis Guild Mayo, Mrs. Frank F. Prescott and Miss Prescott as the committee for the afternoon. Miss Mary H. Hinckley of Brook road, Milton, is to read a paper on, "The Village Arch of 1798."

Mrs. William H. Whitney entertains the Junior Friday club next Monday afternoon at her home on Arlington street, Wollaston. Miss Grace M. Isaac has the afternoon's program in charge, the study of Florence being continued.

The Quincy Day Nursery association will hold its February meeting on Tuesday afternoon, Feb. 4th, at the home of Miss Alice Keith Prescott, 41 Spear street. The association is giving two dancing parties in February, an afternoon and an evening one, for the benefit of the Nursery.

Mrs. Caroline S. Atherton is to be the speaker next Wednesday afternoon at the meeting of the Wollaston Alliance in the vestry of the Unitarian church, taking for her subject "The Progress of Mankind Onward and Upward Forever."

Prof. Edward Howard Griggs gave the introductory lecture in his course of ten, at Tremont Temple, Boston, last Saturday morning to a large audience. His subject for Feb. 1st will be, "John Stuart Mill: an admirable education and the recovery from it." The course is on Great Autobiographies: types and problems of Manhood and Womanhood. By studying contrasting lives it is possible to make evident the main laws and problems in the development of manhood and womanhood, and thus not only foster a wider comprehension of human life considered objectively, but deepen the student's insight into his own life and the problems that most vitally concern his happiness and culture.

At the meeting of the Mother's Association, Wednesday, Feb. 5th Mrs. W. G. Shaw will have charge of the devotional exercises,— Mrs. Helen Cox Lyon of Brookline will be the speaker and Mrs. Dudley Talbot of Milton will be the soloist.

The next meeting of the Shakespeare club will be with Mrs. Harry Kolseth of Walker street. A new play will be started as the last meeting finished "Training of the Shrew."

QUINCY WOMEN'S CLUB.

The annual musicale of the Quincy Women's club is the favorite afternoon in the year's program and that of Tuesday proved no exception for club members began to arrive at the club house soon after two and by three oclock it was an overflow, every available bit of room being utilized.

Mrs. George W. Morton, president was most cordially greeted after a two months' illness. A short business meeting was held with reports by the secretary and an announcement of a gentlemen's night by the Civic committee to be held on Feb. 26 at First Church chapel. After which Mrs. Chandler W. Smith former vice president and president was introduced. She said she felt she owed the club an apology for accepting the office of president last spring and then resigning but

PRINCIPAL RESIGNS

J. M. Nowland One of Longest In Service in Quincy Schools

James M. Nowland, who has been the master of the Adams and Cranch school districts for a number of years, has tendered his resignation, which was accepted with regrets at the meeting of the School Committee on Tuesday evening.

Mr. Nowland came to Quincy in 1889, and was assigned as master of the Adams school When the Cranch school was erected this building was included in his jurisdiction. Mr. Nowland resigns to attend to other business enterprises and will continue to make his home in Quincy.

After the resignation the Committee elected Harry Brooks of West Fitchburg, who will take charge next Monday. Mr. Brooks is a graduate of the Boston High and the Lowell normal school. He has had eight years experience as a teacher, the last three being at Fitchburg, where he has made a first class record. He is 29 years of age.

The finance committee reported the estimates for the annual budget which were adopted and will be forwarded to the City Council.

The expenditures of the department to date were reported as follows:

Salaries	$10,261.69
Janitors	754.14
Books, supplies, sundries	1,375.33
Rent	30.00
Fuel	2,005.66
Transportation	138.00
Evening Schools	
Totals	$14,564.52

The members present were Messrs. Hunting, Bushnell, Miller, Newcomb, O'Hara and Owens.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Just Jotted Down By Ledger Men

Today is Carnation day.

The Finance Committee of the City Council will meet Thursday evening.

There is good skating in places although the ice is rather treacherous.

Annual meeting tonight of the Republican City Committee also of the committee of 1907.

The New York & New Haven are doing a great job at the new freight yard at South Quincy.

A barn dance will be held at West Quincy on Friday evening. Something unique may be expected in the way of costumes.

Local interest in the abolition of the grade crossings seems to have died down. Frequent public meetings to keep up public interest would be a good thing.

Mr. Fred M. Rollins has charge of the Young People's Religious union meeting at the Wollaston Unitarian vestry on Sunday evening. There will be a speaker from the National Y. P. R. U.

The annual midwinter banquet of the Board of Trade will be held at Music hall, Thursday evening, Feb. 20. The banquet this year will be an innovation inasmuch as ladies will be present. Some good speakers from out of town are expected.

Conductor Barry of the Quincy Point line, caught a lively runaway on Washington street Tuesday afternoon. The horse, a black one, was attached to the forward wheels of the buggy and was dashing down the street at a wild pace. Bystanders were heard to remark "that it was a brave act."

MILDLY CRITICISED

Finance Commission Reports on Boston Fire Department

IT FINDS MUCH TO COMMEND

In Splendid State of Efficiency and Above the Average--Rumors of Misdeeds of Firemen Not Supported--Some Recommendations

Boston, Jan. 29.—In a report of nearly 8000 words, the finance commission, which is making an investigation of the departments of the city of Boston, last night issued its findings on the fire department.

There are no radical measures suggested or severe condemnations in the report. The commission finds that "since Mayor Collins' death the department has fallen under the malign influence of politics" and that the mayor has usurped to a great extent the power of appointment which belongs to the head of the department exclusively, and that political preferment has been exercised in making appointments, in some cases to the detriment of the department.

The efficiency of the clerical force is declared to be low, and systems of bookkeeping and accounting, good in themselves, not properly carried out.

The commission places itself on record as opposed to the one day off in five, with pay, as causing a cost of $80,000 annually, resulting last year in a deficit of $40,000. The formation of the Russell club is condemned and its voluntary dissolution suggested. The head of the department is scored for having exceeded the appropriation for the department. It is deemed unwise for the repair department to attempt to build apparatus. The system of practically avoiding calling for bids in making purchases of supplies is condemned.

On the whole, however, the commission finds that the department is in a splendid state of efficiency, above the average, that the habits of the men are good, the rumors of thefts at fires by firemen and of intoxication unfounded, the apparatus in good shape and the services rendered of high value.

The commission recommends among other things that hot coffee be served the firemen at the large fires in cold weather, at the expense of the department.

In closing its report the commission makes ten chief recommendations: The immediate and permanent divorce of all political considerations from this department; strict enforcement of the rule forbidding political activity or joining of political clubs by the firemen; extending the time of probation of prospective firemen; a careful watch of the habits of the men; dropping of unnecessary men in fire alarm and supply department; a study of the practibility of manufacturing in the repair shops; yearly test of appliances; study of one day off in five matter; appropriation only for absolute necessities, and no exceeding of the appropriation to be allowed.

The finance commission declares that the investigation has disclosed evidences of a combination among certain manufacturers of rubber tires which the commission intends to submit to the United States district attorney.

Fair Contest Resulted In Death

Washington, Jan. 29.—The board that investigated the circumstances connected with the death of Apprentice Seaman Hartnet, who died from injuries received in a boxing contest on the Cumberland at Newport, reports that "all the proper and customary precautions were taken to have the boxing contest a perfectly fair one and to guard against injury. The boxing bout was fought with heavily padded gloves of the regulation navy pattern. There was a surgeon at the ringside during the contest and the fight lasted for six rounds."

Pearl Harbor as Naval Base

Washington, Jan. 29.—The house committee on naval affairs heard Delegate Kalanianaole of Hawaii in support of a proposed appropriation of $2,000,000 for the construction of a drydock at Pearl Harbor, Hawaii. He urged also fortifications of Pearl Harbor and devoted much time to demonstrating, with the aid of maps, the strategic importance to the United States of the harbor as a naval base.

Big Fire In Packing Plant

Kansas City, Jan. 29.—Fire in the canning department on the second floor of one of the twin main buildings of the packing plant of Nelson Morris & Co. threatened destruction of the entire plant and caused a loss of half a million dollars. The plant was completed two years ago and was modern in every detail.

Warner Miller Assigns

New York, Jan. 29.—Former United States Senator Warner Miller, who, since his retirement from politics, has been engaged in mining enterprises, has made an assignment for the benefit of his creditors to Ernest I. Conant. Conant says that at present he can make no statement of liabilities and assets.

Death of Prince of Lippe

Heidelberg, Jan. 29.—Count Leopold, the reigning prince of Lippe, is dead. He was born on May 30, 1871, and was the son of the late Count Ernst of Lippe-Biesterfeld.

SCUFFLE IN LONELY SPOT

Signs That It Ended by a Man Being Strangled to Death

St. Albans, Vt., Jan. 29.—What is believed to have been a case of murder in which the victim was strangled to death is being investigated by the authorities as a result of the finding of the body of a man about 25 years of age in Swanton. A cord was knotted about the man's neck and had been twisted tight with a small stick.

The body was discovered by Charles Greenleaf, a woodchopper. It lay about a mile distant from the nearest house. It was partly concealed in a clump of bushes.

Investigation showed that a sleigh had been driven into the wood road and had stopped at a point near where the body was found. There was blood on the snow at one place and tracks indicating a scuffle had occurred. It is believed that the man was attacked at this place and overpowered, and his body afterward dragged through the snow to the bushes.

Cold Drives Caribou South

Seattle, Jan. 29.—The largest herd of caribou ever seen in the wilds of Alaska is now crossing the Yukon river, working its way southward to escape the unusually severe cold of the Arctic region. Several men connected with the United States survey in Alaska have just sent to the coast reports of the migration of the animals. There seems to be no end to the string. It is estimated that more than 100,000 caribou have crossed the stream and wended their way into the fastnesses of the mountains of the lower Yukon territory.

Death of Cardinal Richard

Paris, Jan. 29.—Cardinal Richard, the archbishop of Paris, who had been suffering with congestion of the lungs, died yesterday. The cardinal began to fail in health after the sensational quarrel between the Roman Catholic church and the French government, in which he carried out the wishes of the pope to defy the attack of the government on the church. The cardinal was born in Nantes in 1819.

To Keep Tobacco From Minors

New York, Jan. 29.—A campaign that has for its aim the prohibition by law in New York of the use of tobacco in any form by a minor was opened in the board of aldermen by the introduction of a resolution prohibiting any dealer from selling, giving away or disposing of cigarets or tobacco in any form to persons under 18 years of age. The resolution was referred to the proper committee.

Sanders Leads In Louisiana

New Orleans, Jan. 29.—Steady gains for J. Y. Sanders in the count of the Democratic state gubernatorial primary indicate that he has won the primary, carrying with it the certainty of the governorship of Louisiana at the next April elections. In early returns from the state at large he leads T. S. Wilkinson by about three votes to two.

Tariff Revision Without Politics

Chicago, Jan. 29.—It is announced by the Chicago Association of Commerce that one of the most influential and representative industrial committees organized in recent years will assemble on Feb. 3 in Washington for the purpose of urging tariff revision, without the interference of politics, after the next presidential election.

Steel Corporation's Big Earnings

New York, Jan. 29.—The report of the United States Steel corporation for the quarter ending Dec. 31, 1907, is made public. The net earnings for the last three months of the corporation's year were $32,553,995. The net earnings for the year 1907 were $160,984,477, the largest in the company's history.

Portugal After Agitators

Lisbon, Jan. 29.—Antonio Almeida, the former Republican deputy, is under arrest, charged with spreading an anti-government and pro-Republican propaganda. Former Republican Deputy Costa has fled the country to evade imprisonment on similar charges. The country is calm.

Getting Cruiser Into Shape

Washington, Jan. 29.—The armored cruiser North Carolina will undertake her third trial trip off the Chesapeake cape Feb. 15 next, and the builders meantime will make certain changes in the valve adjustments which they believe will ensure a successful outcome.

"Reds" Ran Into Cossacks

Tashkent, Russia, Jan. 29.—Revolutionists lured Police Captain Miretsky into an ambush and killed him and his orderly. In seeking to make their escape they ran into a guard of Cossacks and, after shooting two of the Cossacks, were finally taken.

Pensions For Brave Surf Fighters

Washington, Jan. 29.—An appeal to congress to aid the life-saving crews of the nation's coasts was embodied in a special message from President Roosevelt. He recommended that pensions should be given to members of the life-saving service.

Moroccan Policy Endorsed

Paris, Jan. 29.—The debate on the interpellation regarding Morocco was concluded in the chamber of deputies. The majority in favor of sustaining the policy of the government in Morocco was 336, the vote being 428 to 92.

The Weather Forecast

Almanac, Thursday, Jan. 30.
Sun rises—7:01; sets—4:54.
Moon rises—4:27 a. m.
High water—8:30 a. m.; 9 p. m.

There will be snow in New England, followed by generally fair and much colder weather.

THING OF THE PAST

Hale Thinks Slavery Does Not Exist In Philippines

TILLMAN TAKES EXCEPTIONS

Propriety of Perpetuating In Penal Code Penalties Against Persons Engaged In Slave Trade the Subject of Interesting Debate In Senate

Washington, Jan. 28.—Greatly to the surprise of everyone, the subject of slavery was introduced in the senate yesterday. Secretary Taft was directly charged with having a knowledge of slavery in the Philippines. The debate was made pertinent by the sections of the bill revising the criminal code of the United States, which provide penalties for dealing in slaves.

The old law against the slave trade has been retained in the penal code by the committee reporting it, but the word "persons" is substituted for the words "negroes, mulattoes and colored persons." Mr. Hale declared that slavery being a thing of the past, all reference to it should be taken out of the code.

Mr. Heyburn, in charge of the bill, contended for the retention of the provision, saying that there are forms of slavery other than those abolished by the Civil war. He cited coolie slavery and slavery for immoral purposes, which he said exists in this country, and said the prohibition would apply to such practices. He added that he had heard it charged that slavery of the old-fashioned kind still exists in one of the islands of the Philippine group.

"It is strange," said Hale, referring to the charge that slavery exists in the Philippines, "that such a condition should exist in view of the optimistic accounts from those islands that we have received. I am glad the senator from Idaho is one of those misguided persons who objects to these conditions, and if the senator has brought it out in one instance showing this whole melancholy condition he has done something for the benefit of the senate and for the country." Hale declared, however, that he never supposed slavery existed in the islands after the American occupation.

"I am surprised," asserted Mr. Tillman, "to hear any senator on the Republican side disclaim knowledge of what has been notorious since we took possession in the Philippines and known to exist there." Tillman said he was still more surprised that "the party which had gathered so much glory from the destruction of slavery in this country," and which has absolute control of our foreign affairs, had done nothing to put an end to the slave trade in the Philippines.

Senator Stone called attention to an agreement made by General Bates with the Sultan of Zulu for continuing slavery and polygamy.

"We have even gone further," said Tillman, "and given salaries to the sultan and his dattos."

Mr. Hale again said that if these monstrous conditions existed in the Philippines and received the sanction of this government or of the state the fact had certainly not been appreciated by him.

Mr. Tillman suggested that the Philippine islands are governed by Secretary Taft under the President of the United States.

Mr. Hale said: "I am not prepared to say that the secretary of war has suppressed important facts concerning the Philippines. The presumption is we have been told the whole truth." Hale asked that the paragraphs relating to slavery be passed over so that full information might be received concerning it, and Heyburn agreed.

Senator Sutherland advocated retaining the sections against slavery, saying that on the Pacific coast Chinese women had been actually sold into slavery.

Senator Lodge declared that it was a fact of common knowledge that General Bates made an agreement by which slaves might purchase their freedom, but President McKinley refused to approve of that treaty and shortly afterward slavery was practically abolished by executive military order.

The organic act of 1902 contained a clause against slavery, and on Sept. 24, 1904, the Philippine commission provided heavy penalties against persons who hold or sell slaves.

The paragraphs relating to slavery were passed over, and they will come before the senate for action at some later day.

Hartnet's Death Accidental

Washington, Jan. 28.—A report on the inquiry regarding the death of H. A. Hartnet, a naval apprentice at Newport, R. I., has been received at the navy department. Hartnet's death resulted from a clot on the brain from a fist fight on the training ship Cumberland. The inference at the navy department is that the youth's death was purely accidental. No action has been taken.

Stories Denied by Luce

Washington, Jan. 28.—In a letter to Secretary Metcalf, Rear Admiral Luce, U. S. N., retired, refers to stories attributing to him certain opinions which, he says, if true, would tend to weaken public confidence in the battleship fleet. Luce says that if there are structural defects in the battleships he knows absolutely nothing of them.

OCCASIONS COMMENT

Jerome Eliminates Expert Testimony From Rebuttal

THAW EVIDENCE IS ALL IN

Prosecution Balks Plan of Defense to Call In Sur-rebuttal Experts Who Previously Testified Against Thaw --Trial Is Nearly Ended

New York, Jan. 29.—With no attempt on the part of the state to combat with scientific testimony the claim of insanity urged in behalf of Harry K. Thaw, the taking of evidence in the second hearing of the famous Madison Square garden murder trial ended yesterday. Martin W. Littleton will begin his plea for the defendant today and is expected to occupy both morning and afternoon sessions with his summing up argument. District Attorney Jerome will speak tomorrow. He has promised to be brief and if his address should not extend beyond the morning session, Justice Dowling will hand the case over to the jury tomorrow afternoon. The court announced, however, he probably would not deliver his charge until Friday morning.

Contrary to his policy of last year, when he called nine experts in insanity to the witness chair, Jerome this year utterly ignored the scientific phase of the rebuttal case. He produced several eye-witnesses to the tragedy and several police officers who handled Thaw the night of the homicide and placed on record their opinion that the defendant's acts and manner were rational.

Under agreement of counsel the testimony given by Abraham Hummel at the last trial was read to the jury and the Thaw will was admitted in evidence without further proof as to its custody during the six months following the shooting of Stanford White. The affidavit alleged to have been made by Evelyn Nesbit in Hummel's office, charging Thaw with cruelty and attempting falsely to place the blame for the Nesbit girl's downfall upon Stanford White, also was admitted by Justice Dowling and then the case, so far as testimony was concerned, was at an end.

Mr. Jerome's elimination of expert testimony from the rebuttal case occasioned much talk. Based upon his assertions of last year that Thaw was an incurable paranoiac, rumor had it that the prosecutor might not be displeased with a verdict of not guilty on the ground of insanity with an ensuing committal of Harry Thaw to the asylum for the criminal insane at Matteawau.

Throughout the trial, however, Jerome has attempted to belittle and discredit all testimony having to do with Thaw's irrationality. He has attempted to show that the youthful outbursts of the defendant were fits of temper which deserved a "spanking," as he expressed it, rather than scientific discussion. He has attempted to discredit the outbreaks in later life with the suggestion that they were the result of too much drink and nothing more. That the prosecutor will ridicule the expert testimony is generally agreed. Having no experts of his own, he has a free hand in that direction this year.

Mr. Jerome's move yesterday also frustrated a plan of the defense to call in sur-rebuttal several of the experts who testified against Thaw at his last trial, but who, when Jerome switched to the appointment of a lunacy commission, made affidavits setting forth the opinion that Thaw was so insane as to be incapable of understanding the nature of the proceedings against him or of intelligently advising with counsel.

Mr. Littleton, in his argument, will contend that the prosecution has failed to shake the case of insanity built up by the defense. He will again call attention to the law and the burden of proof it places upon the state in a case where insanity is pleaded as a bar to responsibility for a criminal act. He will contend, and will also ask Justice Dowling to carefully instruct the jury on the point, that once the defense has produced evidence of insanity it becomes the duty of the prosecution to remove every reasonable doubt of insanity. In other words, Littleton will ask for an acquittal unless the jurors are convinced that every reasonable doubt as to Thaw being insane at the time of committing the homicide has been removed by the state's case.

Mr. Littleton has made no claim of present sanity for Thaw. In fact, the experts for the defense have testified that in "manic-depressive" insanity, the diagnosis now applied to Thaw's condition of mind, the patient is very apt to have attacks of increasing frequency and violence.

Mail Car and Contents Burned

Hattiesburg, Miss., Jan. 29.—Four cars of a fast passenger train toppled off a trestle near here and rolled down an embankment. No one was fatally injured. The mail car caught fire and was destroyed with all the mail.

Laplanders In Dire Distress

Stockholm, Jan. 29.—Serious famine conditions are prevalent in northern Lapland. According to a dispatch from Kiruna, the inhabitants in the parish of Velhelmina have gone to the extreme of slaughtering dogs and cats for food to prevent starving to death.

CHILD TAKEN FROM HER

Mrs. Clark Held In $2000 In Alleged Kidnapping Case

Boston, Jan. 29.—Mrs. Maud C. Clark, who was arrested after the officers had a sensational fight, and who is wanted in connection with the kidnapping of her child in New York, was held as a fugitive from justice in $2000 bail by Judge Wentworth in the city police court. The case was continued till next Thursday, Mrs. Clark not having furnished bail.

Mrs. Clark's 5-year-old son, Carleton, was taken from the Chardon street home by the police and handed over to Mrs. Sophie Kremer of New York, who presented papers showing the adoption of the child. The boy was immediately taken back to New York by Mrs. Kremer.

The attorney representing Mrs. Clark claims that she bought back the child from Mrs. Kremer, who had legally adopted it, but was willing the mother should have the child back on paying for it. The attorney claims that Mrs. Clark paid $190 in cash on Oct. 2 and gave her note for $310, and that a few days later an arrangement was made whereby she was to take the child from Mrs. Bell, a sister of Mrs. Kremer, which she did, and brought the boy back to Boston.

The attorney declares the act of the police in giving up the child when the mother was in the Tombs and the case about to be heard was unwarranted, and intimates that he may take action against the police.

Alleged Case of Blackmailing

Providence, Jan. 29.—On a charge of having attempted by threats to extort money from Henry A. Kirby, a manufacturing jeweler of this city, the police arrested William W. Sayles, aged 24, manager of the Imperial Oil company, with an office in this city. According to the police, Kirby received a letter sent by Sayles with contents of a blackmailing character, demanding the payment of $1000. Sayles was held in $1000 for a hearing on Feb. 4.

Against Increasing Navy

Boston, Jan. 29.—An address to congress, remonstrating against a further increase in the navy, was adopted by the board of directors of the American Peace society at a meeting held in this city. The address declares that such an increase would be "an injurious misrepresentation of the best sentiments of our people." The board directs its remonstrance especially against the proposed addition to the navy of four new battleships.

Permanent Receiver Wanted

Providence, Jan. 29.—A meeting of 400 depositors of the New England Trust company, which closed its doors last week, was held last night. It was voted to appoint a committee to represent the depositors in a petition to the superior court for the appointment of a permanent receiver for the institution. The committee was instructed to ask for a receiver not connected in any way at present with the affairs of the company.

Sued For $10,000 and Got $300

Hartford, Jan. 29.—The jury in the White Cap case, so-called, in which Willis E. Griffin of Granby sued former Deputy Sheriff Allshouse and eleven others for $10,000 damages for injuries alleged to have been inflicted when a mob drove him out of Granby in February, 1906, brought in a verdict for the plaintiff to recover $300. The trial lasted a week and attracted much attention.

Financial Crisis Over

Boston, Jan. 29.—Bankers from all over the state gathered here last night at the annual dinner of the Massachusetts Bankers' association. They were unanimous in declaring that the financial crisis is over and much better times are clearly in sight. The union and consolidation of Boston banks in recent years was accredited with having saved Boston.

Steward Jumped Too Late

Boston, Jan. 29.—In trying to reach the Portland steamer Ransom B. Fuller by jumping as she was pulling away from Union wharf, Daniel Clark, the steward, missed the deck and was drowned. In his drop he took with him two deckhands of the steamer, who had grabbed at him as he jumped to the deck of the steamer, but were unable to hold him.

Frothingham's Aspiration

Boston, Jan. 29.—Louis A. Frothingham of Boston announces that he will be a candidate for the Republican nomination for lieutenant governor this year, to succeed Eben S. Draper. Frothingham was speaker of the house in 1905 and was Republican candidate for mayor of Boston in the fall of the same year.

Count and Bride Not at Newport

Newport, R. I., Jan. 29.—None of the trains arriving in Newport yesterday brought the Count and Countess Szechenyi, who were expected to pass their honeymoon at one of the Vanderbilt residences in this vicinity.

Caught With Bogus Money Order

New Haven, Jan. 29.—A man who gives his name as Louis Ammerman was arrested here, charged with attempting to pass a bogus money order. He is held in $3000 bonds. His address is not given.

Dastardly Work of Robbers

New Carlisle, O., Jan. 29.—Andrew Staley, a wealthy distiller, was called to his door last night and by five masked men beaten into unconsciousness. His eyesight is probably destroyed. Staley's injuries may prove fatal. The burglars ransacked the house and escaped.

THE BOYERTOWN HORROR

Startling Testimony Brought Out at Opening of the Inquest

Boyertown, Pa., Jan. 29.—Suggestions of graft and admissions of neglect, which, it is intimated, may result in prosecutions, marked the opening sessions of the inquest here into the horror at Rhoades' Opera house on Jan. 13, when 169 persons lost their lives.

It was brought out that the main exit to the hall was blocked by the box office and that the stairway and the point of exit and entrance was but three feet one inch in width, and that Harry Fisher, the operator of the stereopticon apparatus, had received but two days' instruction in the methods of handling the calcium light and that he operated the machine in public for the first time on that fatal night.

In addition to this, Thomas A. Rhoades, the owner of the building, declared that the building had been inspected and passed by a state factory inspector after he "had given a contract for fire escapes to a Reading man." The factory inspector, he said, told him from whom he should buy his fire escapes; that he placed the order with the Reading contractor named, and that the inspector passed the building.

A Speech For Bryan

Washington, Jan. 29.—The urgent deficiency bill was up for consideration in the house yesterday, but in several instances it was ignored under the license of general debate. The presence of William J. Bryan furnished inspiration to Mr. Wallace (Ark.) for a vigorous speech, in which, while admitting that Bryan had made mistakes and had been charged with talking too much, he said the Nebraskan was worthy the honor and suffrage of all the states. International marriages of American heiresses to titled foreigners were denounced by Mr. McGavin (Ills.) His remarks evoked applause and laughter.

Decision In Cortelyou's Favor

Washington, Jan. 29.—Justice Wright of the supreme court of the District of Columbia in a decision upheld Secretary of the Treasury Cortelyou in declining to pay Professor Thorpe $10,000, claimed to be due him for the compilation of five volumes entitled "Charters, Constitutions and Organic Laws of the States and Territories." Thorpe had instituted mandamus proceedings against Cortelyou, who had resisted payment on the ground that the work had not been done in accordance with the contract.

Franco-American Trade Treaty

Washington, Jan. 29.—The president has issued a proclamation announcing the conclusion of the Franco-American reciprocity arrangement. Under it, America concedes a 20 percent abatement in duties on champagne and sparkling wines imported into this country and France confirms the minimum tariff rate now accorded American products. Other provisions include the creation of a commission to consider possible amendments to the trade regulations in France and America.

Haytien Revolution a Failure

Washington, Jan. 29.—Haytien Minister Leger reports that the revolution in Hayti is now over. The Haytien government is now making an effort to capture the leaders of the revolution. The latter are seeking asylum in the consulates, but they will not be allowed to remain in the American consulates, as the state department officials declare an intention to prevent it.

Will Testify For the State

Harrisburg, Jan. 29.—The appearance of Stanford B. Lewis, the active assistant of Architect Huston during the construction and furnishing of the capitol, as a witness for the commonwealth at the trial of the capitol prosecutions, tends to confirm the rumor that Huston has an understanding with the commonwealth and will be one of its witnesses.

Court Clerk Goes to State Prison

Chicago, Jan. 29.—John A. Cooke, former clerk of the circuit court of Cook county, has been taken to the state penitentiary to serve an indeterminate sentence for misapplication of the funds of his office. Although convicted almost two years ago, Cooke, by constant appeals, has carried his case through all the state courts.

Tug Rammed and Sunk

New York, Jan. 29.—The ocean-going tugboat Edgar F. Luckenbach, after being rammed by steamship Pawnee, sank between the Battery and Governor's Island. One of the crew of the tug was lost and all of the others were injured. The Pawnee escaped with slight injuries to her starboard boat.

Russia to Borrow $83,000,000

St. Petersburg, Jan. 29.—An imperial ukase just issued sanctions an international loan of $83,000,000 at 4 percent in the shape of notes on the state bank, redeemable within four years, replacing a like amount issued in 1903-4, now matured.

NEWS IN BRIEF

Albert Nason, aged 57, a tea and coffee salesman, died as a result of a fit of choking while eating in a Boston restaurant.

A voluntary petition in bankruptcy has been filed by J. A. Hendrie & Bro., caterers, Boston. The liabilities are given as $30,038.

The Eagle Brewing company of Providence has issued a notice to the trade that on and after Feb. 1 the price on all ale, lager beer and porter will be 50 cents a barrel more.

For Indigestion
Hurried eating, ill chosen food, over eating—any of these indiscretions frequently result in acute pains and other uncomfortable sansations which are wearing on the nerves and temper.
For all ills of the stomach
BEECHAM'S PILLS
are specially valuable, as they act almost immediately on the undigested food and carry it out of the stomach. These wonderful pills combine certain vegetable ingredients in exactly the right proportions to secure the best results, without doing violence to the delicate lining of the stomach.
Before the public for over half a century, for indigestion and kindred complaints, Beecham's Pills
Have No Equal
Sold Everywhere.
In boxes, 10c. and 25c.

The Observations In the Daily Walk

Knights of Malta whist party tonight in Plummer's hall.

The days will increase in length 1 hour and 16 minutes during February.

W. G. Shaw says it pays to advertise. He has had big returns from his Daily Ledger "ads."

Saturday will be the first day of February and there will be five Saturdays in the month.

The S. Agnes Parker Sewing circle will meet at the home of Mrs. Annie Wright, Friday afternoon.

It is rumored that there will be a contest over the additional sum necessary for the construction of the new Coddington schoolhouse.

McKinley day will be observed by Post 88 and Corps 103 at the home of Mrs. Annie Waterhouse, Dorchester. Car leaving city square at 7 P. M.

It was an Jan. 29, 1621, that Rose Standish, the wife of Myles Standish, the Pilgrim explorer, died. A cairn to Myles Standish is erected in this city at Squantum.

Mayor Shea was among the mayor who were guests of the Boston City Club on Tuesday night. This morning His Honor attended the cermonies at the conferring of the Sacred Pallium on Archbishop O'Connel.

Admission to the Eliot debate at Quincy Music hall tomorrow evening will be by ticket until 7.50. Seats will not be reserved after that hour, but will be free to those who have been unable to secure tickets. The demand has been in excess of the supply.

The song recital by Mr. Pol Plancon to which many have been looking forward with pleasant anticipation for several weeks is to be given this evening at First Church chapel. Mr. Plancon is to be assisted by Mrs. Laurance H. Sturtevant, soprano and Mr. E. Cutter, Jr., at the piano. Tea is to be served after the recital.

A large meeting of the Alliance was held Monday afternoon in the parlor of First church. Mrs. George W. Morton, president, after several weeks' absence because of illness was present and presided. After the devotional and business sessions a very strong and interesting paper on Judgments was read by Mrs. Harriet Morse Litchfield of Wollaston.

Runaway Accident.

Mrs. A. W. Bisson of South Quincy, had a narrow escape from serious injury Tuesday afternoon, while driving on Washington street, She was in a buggy and accompanied by a driver. When near Mill street the horse shied and the carriage collided with a fruit peddler's team. This caused the rear axle to break. The buggy then rolled over, throwing the occupants out. The horse ran with the remnants of the buggy which was badly smashed before the horse was captured by Conductor Barry. The occupants escaped with a few bruises.

TODAY'S COURT.

Patrick Hayes was fined $50 for throwing a st one through a street car window at Quincy

Among the Clubs

(Continued from Page 1.)

her husband's business called him to New Hampshire and it was easier for her to separate from the club than from her husband, hence her resignation. The club showed its pleasure at having Mrs. Smith at the meeting by giving her a very cordial reception.

The entertainment was in charge of Mrs. Otho A. Hayward, chairman of the Music committee and printed programs had been given out. Those participating in the musicale were:—Miss Winnetta Lamson, soprano, Mrs. Grace M. Brandon, violin, Mrs. Alma Faunce Smith, piano, and Mrs. Jennie Hocking Hunt, accompanist and they gave the following programe:

Piano, Scherzo and Choral. Opus 18	Dubois
Violin, Fantasia Appassionata	Vieuxtemps
Piano, Caprice on Airs from Ballet Music	Gluck-Saint Saens
Violin, Spanische Tanze (No. 3)	Sarasate
Violin, Nocturne	Daniel Van Goens

Also the following songs:

Oh, for a breath of the Moorlands	Whelpley
Time Enough	Nevin
The Danza	Chadwick
Love in May	Parker
The Rosy Morn	Ronald
Standchen	Strauss
Wiegenlied	Heitsch
Im Wunderschonen Monat Mai	Hammond
Mazur	Mlynarski
La Mort de Jeanne d'Arc	Bemberg
Ouvre tes Yeux bleus	Massenet
Petites Roses	Cesek
J'ai pleure en Reve	Hue
Ariette	Vidal

It was a very happy combination of music the piano, songs and violin making up a most delightful program for music lovers.

Mrs. Smith at the piano was down for but two, but responded to persistent encores. She never played better and her selections were much enjoyed.

Miss Lamson was the favorite and in her groups of songs gave great pleasure. The first group was in English, the second in German and the third in French. Her voice is a rich sympathetic soprano; a voice that reaches the heart, and holds her listeners. She was appreciatively encored.

Mrs Brandon also delighted with her violin playing giving three selections and responding to an encore. She and her instrument were in harmony and her selection gave lovers of the violin much pleasure.

To the success of the whole, however, none contributed more than Mrs. Hunt, who at the piano accompanied in perfect sympathy and accord.

It was a program full of pleasure from beginning to end and words of praise were heard continuously during the social hour.

Miss Alice Keith Prescott was hostess for the afternoon being assisted by a large committee. In the tea room the pourers were: Mrs. Alfred L. Goodrich of Wollaston and Mrs. Henry M. Faxon, assisted by Mrs. Alfred P. Thompson, Mrs. Walter E. Burke, Mrs. John L. Gow, Mrs. Breta Mitchell Pierce, Miss Addie Parks, Mrs. Paul R. Blackmur, Mrs. Alfred R. Remick and Mrs. Henry L. Kincaide.

In the reception room Miss Alice Gertrude Coe of Atlantic poured, assisted by Mrs. James L. Edwards, Mrs. Jesse I. Litchfield, Mrs. Wiliam Whitney, Miss Norma Lowe, Mrs. Ross K. Whiton and Mrs. Peter Mead.

In the large club room Miss Annie L. Prescott poured, assisted by Mrs. Francis F. Brewer, Mrs. Charles Wilson, Mrs. Albert M. Parker, Miss Fannie Wilson and Miss Georgiana Lane.

Hot chocolate, sandwiches and cake were served, and although there was an unusually large gathering there was ample.

The executive board will meet next week Thursday at ten o'clock at the club house.

The regular monthly meeting of Philanthropy committee will be held Tuesday morning, Feb. 4, at ten o'clock with Mrs. Francis Abele, 18 Spear street. At 10.30 a conference of charities will be held to which representatives of other charitable societies are invited.

The next meeting of the club will be on Feb. 11th, in charge of the Arts and Crafts committee, instead of the Civic as announced by the program in the club calendar.

It will be an open meeting to which the public is cordially invited. There will be a fine musical program and an exhibit well worth seeing. Fuller details will be given later.

NEIGHBORING.

In cooperation with the work of the health department of the General and Massachusetts State Federations the following meetings will be held to which members of other clubs and the public are cordially invited: Tuesday, Jan. 28, at 2.30 P. M., under the auspices of the Medford Woman's club in the vestry of the Unitarian church, corner of Powder House road. West Medford cars pass the door and leave Sullivan square every fifteen minutes. Wednesday, Jan. 29, at 7.45 P. M., under the auspices of the Newton Centre Woman's club ,in the First Congregational church, Newton Centre, corner of Centre and Homer streets. March 4, at 2.30 P. M., under the auspices of the Quincy Woman's club, at the clubhouse, Quincy. Train leaves South station at 1.52. Clubs are urged to send delegates. These meetings will be addressed by prominent speakers, and will be most interesting.

The Brighthelmstone club has instituted a flourishing magazine agency in charge of Mrs. Frederick Allison Tupper. The club is to have a leap year party on Feb. 27th.

On Friday, Feb. 28th, the Old Colony club of Weymouth has secured Prof. Edward Howard Griggs, who will lecture on "Art for Life's Sake."

Because of illness Mrs. Margaret Deland has canceled all her present as well as several future club engagements, which is a great disappointment to those anticipating her afternoon.

First Dance of Telephone Club

It was a very large as well as a very pretty party that was present Tuesday evening at the first dance given under the auspices of "Our Improvement Club," an organization composed of employes at the Quincy Central telephone exchange.

The party was held in the new Hibernian hall at South Quincy. In addition to guests from Quincy there was a large number from the telephone exchanges in the immediate vicinity. Cuff's orchestra furnished the music for the dancing, which was in order from 8 to 1 o'clock.

There were eighteen numbers on the dance program, and to each was attached some sentiment. Among these were: "Our superintendent," "Our manager," "What exchange, please," "I'll ring them again," "Another nickel please," and "The line is busy."

Miss Katherine C. Walsh, the local chief operator, was floor directress ,and Miss Margaret A. Leary, assistant.

They were assisted by an efficient corps of aids who included: Miss Alma LeClair, Miss Mary A. Cain, Miss Alice J. Harkins, Miss Josephine O'Brien, Miss Annie Flaherty, Miss Genevieve M. Magee, Miss Mary E. Duggan, Miss Annie Corcoran, Miss Elizabeth Connell, Miss Katherine Maloney and Miss Josephine Curran. Refreshments were served during the evening.

Cost Him $50 To Throw Stone

It will probably be sometime before Patrick Hayes, an employee at the Fore River, throws another rock through a street car window. He did this Tuesday night and the court assessed him $50. Hayes came from Neponset on a late car. He was somewhat under the influence of liquor and was creating considerable disturbance. Remonstratives on the part of the conductor did no good, and he was put off the car.

To retaliate Hayes picked up a rock and threw it through the window. There were a number of passengers on the car, and there was some narrow escapes from inqury by flying glass.

When the car reached Quincy it was reported to the police, and later Officer Phillips picked up Hayes and locked him up.

Team No. 2 Was Lucky

Great rivalry continues between all teams in the Y. M. C. A. League as no team has any great lead. Teams No. 2 and No. 3 rolled a close match Tuesday night, Capt. Giles winning the match, taking two out of three strings. Capt. Gordon's team won on total pin fall for three strings by 3 pins and won the last string, by the biggest string total of the evening:

Newsy Budget From Shipyard

Manager H. G. Smith is spending a two weeks vacation at Jacksonville, Florida.

During the terrific storm which swept the coast with such disastrous results last Friday, the steam collier Malden was one of two ships to leave Boston.

The number of the fire alarm box in the shipyard is 78, and the box is located on the northwest corner of the joiner shop opposite the power house.

The first keel-plate of the fifth leviathan of the Dreadnought class, H. M. battleship St. Vincent has been laid ,and within two years the new ship will be flying the commissioning pennant.

Just as the Bellerophon, Temeraire, and Superb were improvements upon the Dreadnought, so St. Vincent will be an improved Bellerophon. Her tonnage displacement will considerably overtop nineteen thousand, making her the biggest ship under construction in the British Navy.

A notable departure from the Dreadnought design is in the arrangement of the two barbettes. The forward one of the two will be elevated to give a clear discharge directly aft over the roof of the aftermost barbette, thus giving a stern fire of eight 12-inch guns compared with the Dreadnought's six. The St. Vincent will carry an improved heavy gun with heavier mountings, but her main armor will be eleven-inch Krupp steel, as in the Dreadnought. The new ship is to have a speed of twenty-two knots over a sea course, and to drive her extra thirteen hundred tons of dead weight through the water her turbines will develop a horsepower of about twenty-four thousand indicated horse-power.

DIED.

COMMONWEALTH OF MASSACHUSETTS, — STATE HOUSE, BOSTON, JAN. 27, 1908. The Committee on Harbors and Public Lands will give a hearing to parties interested in House Bill No. 33, relative to enlarging a channel at Wollaston beach, Quincy, at Room No. 431, State House, on Tuesday Feb. 4th at 10.30 o'clock A. M. William R. Salter Chairman. Alfred S. Burns Clerk of the Committee. Jan. 29-1t

PROPOSALS—Sale of U. S. Vessels *Pinta* and *Canonicus*—Sealed Proposals will be received at the Navy Department until noon on the 19th day of February, 1908, at which time and place they will be opened, for the purchase of the U. S. vessels *Pinta* and *Canonicus*, appraised values, $1,400 and $6,000, respectively. They will be sold for cash to the person or persons or to the corporation or corporations offering the highest price therefor. A separate proposal for each vessel bid upon must be submitted in a sealed envelope addressed to the Secretary of the Navy, Washington, D. C., endorsed "Proposals for the purchase of the U. S. S.——" (naming the vessel for which offer is made), and each proposal must be accompanied by a satisfactory certified check for not less than 10 per cent of the amount of the offer. On application to the Navy Department, forms of bids and bonds, together with the terms and conditions of sale, also a printed list giving general information concerning these vessels, will be furnished. The vessels can be examined at any time after this date by applying to the Commandants of the navy yards, Mare Island, Cal., and Norfolk, Va., respectively, where they now lie. They must be removed from the limits of said yards within such reasonable time as may be fixed by the Department. The Department reserves the right to withdraw either or both of the above-named vessels from sale and to reject any or all bids. TRUMAN H. NEWBERRY, *Assistant Secretary of the Navy*, January 11 1908. Jan. 15-4t--15, 22, 29, 3

THAT TWO DAYS' PAY

Mayor to See That Retiring Officials Receive Pay For Full Year

The question as to whether or not the outgoing city officials are entitled to two days' pay in February is still a much discussed question, not only by those directly interested, but by citizens as well.

The claim on which additional salary is based is that the appropriations are made for salaries from Jan. 1 to Jan. 1. The ordinances also provide that those salaries shall be paid in monthly installments.

That is on the last day of each month they are paid for the month just ending.

Thus if an official receives a salary of $1200 per year he will receive on Friday, Jan. 31, $100 for his services for the month of January. But by the Ordinances his term of office does not expire until Feb. 3, so that he will have worked two days in the month of February.

If this understanding or interpretation of the ordinances is correct then the man who receives a salary of $100 per month would be entitled to practically $6.89 for his two days' services, counting Sunday. This is the claim that is being made by those interested.

It appears that the whole trouble dates back three years, when Mayor Thompson took office. Certain of the officials under the previous Mayor were paid for the days intervening between the last day of January and the first Monday in February.

For illustration, Commissioner Knowlton received something like $35 for those few days between the last day of January and the first Monday of February. The office of Commissioner was not the only department where this was done for there were several others.

For this reason there are a number of officials who served three years under Mayor Thompson who have not received their full three years' salary so that unless adjusted they would be out two or more days' salary.

This, however, is to be straightened out by the present Mayor, who has ordered that all those officials who have been in office for three years and who have not received three full year's salary shall be paid the amount necessary to make up the balance due.

This may settle the dispute for the present, but hereafter the pay rolls of department officials should be made up to the first Monday of the month. New officials who serve from Feb. 3 to Feb. 29, should not receive a full month's pay.

Ventilation of Cars.

The occasional protest against the proper ventilation in street cars, says the Brockton Daily Enterprise, is met by the statement that many people object to any air circulating in a car on a cold day, and insist on having ventilation cut off where there is any. People who walk along the street, well clad and apparently finding no difficulty in keeping comfortable, sit down in a comparatively warm car, with the same winter clothing on, and oftentimes insist that everything shall be closed tightly. There is the protest of a glance and oftentimes of a murmur, if a door is opened widely merely for a moment to let somebody pass through.

It would seem as though the owners of the cars should not be criticised harshly for a condition of affairs that is brought about partly because carmakers know the public desire to be warm regardless of everything else, or because a section of the public insists that cars in which they ride shall be tightly locked against any more air than is absolutely essential to life.

Rewards of $200 Are Now Offered

Automobile dealers and in fact all owners of automobiles who believe in the legal use of the automobile for pleasure or business, are bitter in their condemnation of the five men who last Friday ran down 5-year old Catherine Lennon of Milton and then speeded away, leaving the little girl lying by the roadside with a broken hip and other serious injuries.

Seldom before has an act by operators of automobiles brought down upon the culprits the universal condemnation that is being expressed in this case, says the Boston Journal, and offers of rewards for the conviction of the men who are responsible are being made daily by automobile associations and dealers.

The following letter sent by F. J. Tyler, manager of the Maxwell-Briscoe Boston Company, which puts out the Maxwell automobile, to James Fortesque, secretary of the Bay State Automobile Association, is an indication of the limits to which automobile people will go to have the culprits brought to justice.

"Dear sir—I am interested in bringing to justice the five criminals who last Friday, Jan. 24, ran down and seriously injured little 5-year-old Catherine Lennon of Milton, and ran away, leaving the child by the roadside in agonizing pain from her broken hip, their only thought being to get away and avoid responsibility for their act.

"I know nothing of the circumstances of the accident, but I do know that their acts after the accident deserve for them the severest punishment the law can inflict. Nothing short of a prison sentence is severe enough.

"I heartily approve the action of the association in appropriating $50 for the arrest of the guilty parties, and I will contribute a like sum for the same purpose upon their arrest and conviction. I have also instructed my attorney, Arthur P. Tocle, 42 Court street, to co-operate with you in the matter."

In addition The Journal has received the following letter from Francis Hurtubis, Jr., counsel for the Automobile Owners' Association:

"By authority of the president of the Automobile Owners' Association I hereby offer a reward of $100 for evidence sufficient, to lead to the conviction of the person operating the automobile which caused the injury to Katherine Lennon on Canton avenue, in the town of Milton, between 4.30 and 5 o'clock in the afternoon. Please call or communicate with Francis Hurtubis, Jr., counsel for the Automobile Owners' Association, Rooms 1,016-17, 6 Beacon street, Boston."

Good Times at Granite City Club

There was a good attendance at the weekly whist tournament at the Granite City club on Wednesday evening, several guests participating in the play. George W. Prescott and Frank W. White received the highest percentage. After the play Henry P. Furnald served some delicious hot oyster patties. With them were rolls, coffee, crackers and cheese.

The entertainment committee have arranged for two pleasing evening entertainments for club members for February. One will include a series of moving pictures of familiar scenes and will be held on Valentine's night, Feb. 14.

The second entertainment will be given on the evening of Friday, Feb. 21, and will be by Prof. George Batty, the novelty and ever-ready entertainer. His program will include musical novelties, whistling solos, versatile reading, songs, one man band, etc.

Fire In a Freight Car

The alarm from Box 39 at 9.07 this morning was for a fire in a car of potatoes that stood on a sideing at the Quincy Adams station. The potatoes were consigned to F. H. Crane & Sons. The fire started from some defect in the heater and worked up into the warm air chamber. The fire also worked out one at end of the car and badly scorched an adjoining car. The loss to the first car is hard to estimate as it can not yet be told how much the potatoes have been damaged.

SONG RECITAL

C. Pol Plancon Delights a Large Audience at Unitarian Chapel

A brilliant music loving audience filled First Church chapel Wednesday evening for the song recital by Mr. C. Pol Plancon. The ushers were: Warren Ogden, George Hall, Charles A. Price, C. A. Howland, Jr., Henry R. Holden, Laurance H. Sturtevant, Ramon Burke and Brooks Keyes.

Promptly at quarter past eight Mr. Plancon stepped upon the stage for the opening number on the program and was most heartily received. The following program was given, Mr. Plancon being assisted by Mrs. Laurance H. Sturtevant, soprano, and E. Cutter, Jr., at the piano.

Aria—Non Piu Andrai. From "Figaro," Mozart
Mr. Plancon

Songs:
The Wanderers Song
Autumn Foote
A Good Excuse
Mr. Plancon

Songs:
Greeting Hawley
If I Only Knew Lehmann
Summer and Winter Atkinson
Mr. Plancon

Duet—Crudel perche finora Mozart
Mrs. Sturtevant and Mr. Plancon

Aria—Fille de Rois. From "L'Africain" Meyerbeer
Mr. Plancon

Songs:
Drink to me only with thy eyes Old English
The Two Grenadiers Schumann
Mr. Plancon

Duet—Passage Birds Farewell Hildach
Mrs. Sturtevant and Mr. Plancon

Bedouin Love Song Chadwick
Mr. Plancon

Prologo di "Pagliacci" (By Request) Leoncavallo
Mr. Plancon

Never before in the history of Quincy has a musical program been given of such uniformly high merit. The varied character of the selections showed Mr. Plancon's unusual versatility. The two love songs were finely contrasted, for instance the "Drink to me only with thy eyes" was given with tenderness and pathos, while the "Bedouin Love Song" was rendered with tremendous force and passion.

Another side of the artist was brought out in the subtle humor of the "Wanderers Song" and "A Good Excuse," which were irresistable.

After the splendid interpretation of "The Two Grenadiers" there was a breathless pause, followed by a storm of applause.

Mrs. Sturtevant has always been a favorite and her appearance called forth cordial greetings from her friends. The sweetness and brilliancy of her voice was finely shown in the two duets with Mr. Plancon, which were heartily encored. The perfect blending of the two voices and their musical sympathy was admirable.

Above all Mr. Plancon is a dramatic artist. He gave three operatic numbers widely differing in character. He was equally at ease in the lightness and dash of the "Figaro" aria: the impressive dignity of the "Fille des Rois" and the splendid climax of the Prologi di "Pagliacci," full of human life and passion.

In fact the program was beyond criticism. Mr. Plancon's voice is a baritone of unusual range throughout the entire registers. It is full, rich and well balanced.

No small part of the success of the evening was due to Mr. E. Cutter, Jr., who accompanied to perfection. He was in absolute sympathy with the artists and followed closely every shade of expression, whether in the delicacy of the songs or the fire of the operatic selections.

Following the recital, tea was served in the church parlor, Mrs. Henry M. Faxon and Mrs. Charles A. Price pouring, assisted by Miss Catherine Saville, Miss Blanche Morrison, Miss Beatrice Morrison, Miss Minnie Hardwick, Miss Stella Barker and Miss Ruth Penniman.

It was a great social success as well as a musical treat and it is hoped Mr. Plancon will favor Quincy again before long.

They Pay—Ledger Ads.

W. M. Chase New Chairman

The annual meeting of the Republican City Committee was held Wednesday evening and organization for 1908 made as follows:

President—William M. Chase.
Vice president—J. Leonard Ferguson.
Secretary—L. F. R. Langelier.
Treasurer—Eugene R. Stone.

All the above officers have been members of the City Council, and active in deliberations. W. M. Chase, the new chairman, was in the Councils of 1905 and 1906. For several years he has been a member of the Ward Five Republican Committee.

He believes in clean politics, and has been outspoken in the past in condemning some of the methods of party leaders. He is commodore of the Wollaston Yacht club, and resides in the vicinity of the clubhouse at Wollaston Park. In business he is the New England representative of the Central States Despatch Co.

On an informal ballot several votes were cast for ex-Councilman Louis F. R. Langelier as chairman, but the gentlemen stated that he was not a candidate, and upon his motion the election of Mr. Chase was made unanimous.

Some difficulty was experienced in securing a treasurer, as ex-Councilman Stone desired to retire. The position was offered to several, but when they all declined, Mr. Stone consented to serve another year.

Q. Y. C. May Improve Clubhouse

The annual meeting of the Quincy Yacht club will be held in Electa hall Thursday evening, Feb. 6. Among the matters to be considered are, to see if the club will appoint a committee of five to consider plans for improving the club house. Also to amend the by-laws in relation to starts at races.

There are no contests for any of the offices except the executive committee and house committee. Commodore Frank F. Crane, who has held that office for three years, will retire, and Herbert W. Robbins, the present vice commodore will probably be elected a Commodore.

The Boat Show.

News of the excellence of the National Motor Boat and Engine Show that is in progress in Mechanics Building seems to have spread rapidly through New England, for each day the attendance is growing larger and more distant places are being represented. From coast towns in Maine, the lake villages in New Hampshire and Vermont, Connecticut River towns and from other sections where there is enough water to float a boat, people are coming to Boston to look over the display of boats, engines and accessories, which is claimed to be the nearest complete ever made in Boston or elswhere.

Just Jotted Down By Ledger Men

C—O—L—D.

Zero temperature at sunrise.

Eliot debate this evening at Music hall.

The concrete sidewalks were very slippery this morning.

Not quite enough snow fell Wednesday to make sleighing.

John Adams court of Foresters will celebrate its anniversary Friday evening.

If the cold snap of today should hold for a week there will be no question about the ice men filling their houses.

The Ward Six Republican Committee has organized with Herbert S. Barker as chairman and Elwin R. Thrope as secretary and treasurer.

The Ward Two Republican committee has organized with Rollin H. Newcomb as chairman and C. Arthur Sampson as secretary and treasurer.

There was but little work done in the stone sheds today on account of the severe cold. In some of the modern sheds, however, the men were working as usual as they are protected from the weather.

The annual meeting of the Wollaston Yacht club will be held next Tuesday evening at the clubhouse. In addition to reports and the election of officers prizes for the yachting season of 1907 will be awarded.

There are no indications of hard times at the Daily Ledger office. The month of January has been the busiest month for several years, particularly in the job printing line, severely taxing the force of the office and requiring extra help.

TILLMAN STIRRED UP

Objected to Report From Cortelyou In Printed Form

SEES "PRESIDENTIAL AIRS"

Says Secretary of Treasury Throws No Light on Recent Transactions--Request For Lodge to Explain Is Promptly Complied With

Washington, Jan. 30.—The senate was entertained by a series of animated comments on the method adopted by Secretary of the Treasury Cortelyou in placing before the senate his reply to the resolution calling for information relative to the operations of the treasury department, in connection with the financial disturbance. The secretary had had the introductory part of his reply printed and copies of the pamphlet were on the desks of senators, which was declared by Democratic senators to be without precedent.

Senator Tillman not only took exception to the information being transmitted in printed form, but he noticed a similarity between the cover of the Cortelyou report and that of the president's messages which led him to charge the secretary with "putting on presidential airs before he is elected president."

This brought Senator Carter to his feet, and in his persuasive way he proceeded to poke fun at the Democrats, "who for weeks have been most anxious for information and now when it comes they object to the form in which it is presented."

At this juncture Senator Lodge was called on by Tillman for an explanation of why the report was transmitted in printed form.

The senator replied: "The reply is in the usual way, accompanied by elaborate exhibits. This report summarizes the facts in the exhibits. The senator from South Carolina, in his zeal for the law and the constitution, forgets that the secretary of the treasury is the only head of an executive department permitted to communicate directly with the congress. I confess I am surprised at the attitude of the senator from South Carolina. I know no one who is so constantly pleading for light. When the light begins to shed upon his dark mind, he complains. He insists the light shall come in his own particular way."

"Will the senator from Massachusetts say there is any light in this report?" shouted Tillman.

"Mr. President, there is an abundance of light in the report," said Lodge, "but whether the senator from South Carolina can see it is more than I can say."

Senator Aldrich then fired this remark into the Democratic ranks and the senate's proceedings once more resumed their dull and normal course:

"When the senators on the other side who are engaged in making this inquiry began, I supposed they were seriously making a serious inquiry into a serious business. The remarks of the senators from South Carolina and Texas show that they have been engaged in a caucus."

In his report Cortelyou justifies his efforts to relieve the financial stringency and claims his action helped to restore confidence. He defends the issue of the Panama bonds and certificates and says his course was not only legal but was expedient. The total bid for canal bonds exceeded two billions. New York banks, he said, are not favored by deposits.

"Martyrdom of King Charles"

Boston, Jan. 30.—Although it was during the reign of King Charles I of England that many of the early settlers of New England were compelled to leave the old country because of what they denounced as a policy of persecution, the anniversary of his death was observed here last night at the Church of the Advent (Episcopal), Rev. Dr. Van Allen preaching a sermon on "The Martyrdom of King Charles." Charles I was beheaded Jan. 30, 1649. He was canonized a saint by the Church of England.

Spanish Charges Are Refuted

Washington, Jan. 30.—Charges made in the Spanish cortes, alleging unsatisfactory treatment of Spanish laborers at work on the Panama canal, have been completely refuted through an investigation made by a committee representing the Gallego Society of Havana. According to the current issue of The Canal Record the commissioners express themselves as eminently satisfied with the condition of the laborers on the isthmus.

Widow and Son Get Fortune

Scranton, Pa., Jan. 30.—The jury in the Schooley-Crawford will contest declared the paper presented by George B. Schooley as the last will of James L. Crawford, the millionaire coal operator, to be a forgery, and found in favor of Mrs. Crawford, the widow, and her son, to whom the property was left by Crawford. More than $1,000,000 was involved in the contest.

Bank Officials Embezzlers

St. Petersburg, Jan. 30.—The bookkeeper and cashier of the discount department of the state bank have been taken into custody, charged with embezzlement. The embezzlements already established are said to amount to about $180,000.

HELD AS A WITNESS

Greenleaf Fainted When He Thought He Was Charged With Murder

St. Albans, Vt., Jan. 30.—An investigation of the death of the unknown man whose body was found lying in the snow beside a woods road two miles from Swanton has begun in that village. It gave no clue, however, to the identity of the man who was apparently murdered.

Charles Greenleaf, a wood chopper, who discovered the body, testified that he was on his way into the woods when he noticed red marks on the snow in the woods road as if blood had been shed there, and a little way further on he discovered the body half hidden in a clump of bushes. Greenleaf said that there were signs of a struggle in the snow, and that one side of the face of the dead man was bruised, as if he had been struck with a heavy club. Around the neck was a cord which had been drawn tightly by means of a stick, which had been twisted into it.

The court ordered Greenleaf held as a witness in bonds of $300, which were furnished. Some excitement was caused when Greenleaf, not understanding that he was wanted only as a witness, fainted. When he was revived he exclaimed that he thought he was to be charged with the crime. Bonds were furnished for him and he left the courtroom.

Armenians Wielded Knives

Lynn, Mass., Jan. 30.—Fearing that he was about to be robbed, Abram Googlan started a free fight in an Armenian boarding house last night and during the trouble three men were cut or stabbed. One is in a critical condition. Googlan displayed a roll of bills, and when one of the other boarders made an attempt to grab it Googlan seized a butcher knife. In a second a general fight was in progress, several men drawing knives to defend themselves.

Woman Held In Murder Case

Peabody, Mass., Jan. 30.—After a hearing lasting all day, Laura Lewandoovski was held without bail for the grand jury on the charge of having been implicated in the murder here of Dudwyck Kubak, a Pole, on Jan. 9. Patrolman O'Connor testified that on the night of Jan. 9 he saw Kubak and Laura Lewandoovski cross Washington street and go towards the lane leading into the field where Kubak's terribly mutilated body was subsequently found.

Not Unused to Prison Life

Northampton, Mass., Jan. 30.—A sentence of from four to five years in state prison was imposed on Albert H. Hurd for horse stealing. This is Hurd's eighth sentence on the charge of horse stealing and makes a total of 53½ years in prison, according to the sentences imposed. He is 67 years of age and has actually spent forty years in prisons in Connecticut and Massachusetts, some concessions having been granted him from his sentences for good behavior.

"Worked" Postoffice Orders

New Haven, Jan. 30.—Louis B. Ammerman, who was arrested here on the charge of passing forged government money orders, was held under bonds of $2000 for appearance in court. Ammerman is said to have confessed to the police that he has stolen money orders in Boston and New York and of having put them off in eight cities. The theft of money orders from postoffice stations all over the east has been going on for the past four months.

Persistent Firebug In School

Malden, Mass., Jan. 30.—While two police inspectors were in the office of the principal of the Faulkner grammar school here, questioning several of the pupils of the school regarding a fire which was discovered in the basement of the building last week, another fire broke out in the basement. An alarm was sounded, but before the apparatus arrived the fire was extinguished with pails of water. It is certain that both fires were deliberately set.

Engineer and Fireman Hurt

Providence, Jan. 30.—Engineer Brown and Fireman Lyke were badly hurt in jumping to escape the wreck of their engine in collision with a freight train at Wood River Junction. Brown and Lyke were running an engine light and extra, and it is said that they passed a signal set against them by the crew of the freight train. Brown is in some danger, but Lyke, it is thought, will recover.

Sampson's Case on File

Northampton, Mass., Jan. 30.—The case of Alden C. Sampson, an automobile manufacturer, who was charged with manslaughter on account of the death of Felix Maxwell, has been ordered placed on file in the superior court. Maxwell was run down and killed by an automobile driven by Sampson. Sampson had been tried on the charge of manslaughter, but the jury failed to agree.

Student Tries to Take Own Life

Boston, Jan. 30.—John O. Brooks, aged 18, of Wellesley Hills, a student at the high school in Wellesley, shot himself at the Adams house in this city and is in a dangerous condition. The bullet penetrated the left breast. The boy's father declares he knows no cause for the attempted suicide unless his son's mind has been unbalanced by overstudy.

Won't Help the Unemployed

South Kingston, R. I., Jan. 30.—At a largely attended town meeting a proposition to appropriate $3700 for the improvement of roads, on which the men who have lost employment through the shutting down of mills should be put to work, was defeated.

A REAL HUGHES BOOM

New York Republican County Committee Changes Front

WILL FIGHT TO A FINISH

Resolution Favors Instructed State Delegation to Chicago Convention "Lauterback Declares That "Dogs Were Set Free" by Secretary Taft

New York, Jan. 30.—Governor Hughes was strongly endorsed for the Republican nomination for the presidency and the administration of President Roosevelt was commended in a resolution unanimously passed by the Republican county committee last night. The resolution further favored an instructed delegation to the Chicago convention from this state for Hughes, which should use all honorable means to secure his nomination until "he is either nominated or directs the withdrawal of his name from the consideration of the convention."

The committee, under the resolution, pledges itself to do do all in its power to secure from congressional conventions and the state convention the adoption of resolutions instructing for Hughes.

The endorsement of Hughes for the presidency had come up for consideration at two previous meetings of the county committee and on both occasions was laid on the table after warm debates. The action of the committee at that time was provocative of much feeling among the committeemen, and Secretary of War Taft, in a letter, recently informed Congressman Parsons, chairman of the committee, that he did not desire his friends to divide his interest in any state that had a candidate of its own and that he would "greatly deprecate a contest which imperils Republican victory in New York in November."

The speeches that followed the introduction of the resolution showed a unanimity of feeling for the endorsement of Hughes, but indicaed that there were traces of resentment over the action taken at the previous meeting in tabling the Hughes resolution. Edward Lauterbach, who has been actively engaged in Hughes' interests, in seconding the resolution, declared that it was strong in tone and vigorous in its language. He said:

"It needs no prophet to say that the resolution will be received with unanimity by all present. It shows the truth of the saying that 'While the lamp holds out to burn the vilest sinner may return.' It is a late day, but we hope that repentance has come. Why was the hesitation? Leaders all over the state have reported that the sentiment has been for Charles E. Hughes for president.

"What is this change of front? The reason is simply, the leash has been cut and the dogs have been set free. Who set them free? Who has permitted the president of this committee to shake off the shackles and come forward as a free man? Was it any one in the state of New York? No, it was a man from Ohio. Other states had named as their candidates Cannon and Foraker, and then the ticket-of-leave was given.

"I call upon the people of this city and state to see to it that the resolution will be carried to a successful resolution in the Chicago convention."

Bryan Resolution Tabled

Boston, Jan. 30.—At a meeting that was harmonious throughout, the Democratic state committee perfected its organization for the year and took preliminary steps for the spring conventions by appointing an executive committee to take charge of the same. A resolution endorsing William J. Bryan as candidate for the Democratic nomination for the presidency was offered, but after several spoke against its adoption it was tabled by an almost unanimous vote.

Cry of Fraud In Primaries

New Orleans, Jan. 30.—Unofficial returns point to the victory of Lieutenant Governor Sanders in the Democratic primaries for the governorship of Louisiana. The complete official count will not be known for possibly two days. The Wilkinson campaign managers make charges of fraud.

Bryan Makes a Correction

Roanoke, Va., Jan. 30.—W. J. Bryan addressed a large audience here, speaking on politics. He said the statement printed in New York that he is in favor of incorporating all the president's ideas in the Democratic platform is in no way justified by what he has said.

Censored Play Modified

London, Jan. 30.—J. H. Radford, London's censor of plays, who last October forbade the production of H. G. Barker's play "Waste," has accepted a modified version, a copyright performance of which was given in London. The cast was a most remarkable one, including no fewer than six noted dramatists.

Was Popular With Constituents

Charlottetown, P. E. I., Jan. 30.—Arthur Peters, premier of the province of Prince Edward Island, died last night from Bright's disease. The premier was very popular on account of his geniality and warm-hearted disposition. He had been premier and attorney general since Dec. 20, 1901.

NORFOLK SS. PROBATE COURT.

TO the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

JULIA A. SMITH,

late of Quincy, in said County, deceased intestate:

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Charles M. Smith of Quincy, without giving a surety on his bond'

You are hereby cited to appear at a Probate Court to be held at Quincy, in said County of Norfolk, on the twelfth day of February, A. D. 1908, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And the petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, James H. Flint, Esquire, Judge of said Court, this twenty-second day of January, A. D. 1908.

JOHN D. COBB, Register.
3t--23-30-6

Commonwealth of Massachusetts.

LAND COURT.

To Ellen K. Kendall, Mary B. Moors and Matthew Luce of Cohasset, in the County of Norfolk, and said Commonwealth; Thomas F. Marshall of Wakefield, in the County of Middlesex, and said Commonwealth; and to all whom it may concern:

Whereas, a petition has been presented to said Court by the Town of Cohasset, a municipal corporation located in said County of Norfolk, to register and confirm its title in the following described land:

A certain parcel of land situate in said Cohasset, on Jerusalem Road, so-called, bounded and described as follows: On the North by the sea; on the West by land of Ellen K. Kendall; on the East by land of Matthew Luce; and on the South by Jerusalem Road. Said parcel (as claimed by petitioner) having been reserved for a highway or public place.

The above described land is shown on a plan filed with said petition, and all boundry lines are claimed to be located on the ground as shown on said plan.

You are hereby cited to appear at the Land Court to be held at Boston, in the County of Suffolk, on the seventeenth day of February, A. D., 1908, at ten o'clock in the forenoon, to show cause if any you have, why the prayer of said petition should not be granted. And unless you appear at said Court at the time and place aforesaid your default will be recorded, and the said petition will be taken as confessed, and you will be forever barred from contesting said petition or any degree entered thereon.

Witness, Leonard A. Jones, Esquire, Judge of said Court, this twenty second day of January in the year nineteen hundred and eight.

Attest with Seal of said Court.

ASKS FOR ACQUITTAL

Thaw's Counsel Claims That Defendant Was Insane

HIS PROSECUTOR IS SCORED

"Transcended All Rules of Propriety and Decency" In Attempts to Destroy Evelyn Thaw--Wants Justice For "Average American Boy"

New York, Jan. 30.—Martin W. Littleton, chief counsel in the defense of Harry K. Thaw, yesterday asked for the acquittal of his client upon the ground of insanity, declaring he could not conceive how, in the face of the evidence, the jury could render any other verdict. The serious and sincere evidence of the defense, tending to establish the insanity of the defendant, Littleton declared, has been answered only by the sneers and insinuations of District Attorney Jerome.

These sneers and insinuations, Littleton asserted, were not the competent proof that the law required the prosecuting authorities to produce, once the insanity of the accused person was brought into dispute. He repeatedly urged upon the jury to remember that in a case of this kind the burden of proof rests wholly upon the state to prove the sanity of the defendant beyond all reasonable doubt.

Mr. Littleton warmly defended Evelyn Thaw against the attacks of Jerome. He said he could not understand what she had done, what great crime she had committed, considered in the light of all she had confessed herself to be, that the prosecutor should transcend all the rules of propriety and decency and attempt to destroy her when, in the next breath, he was ready to "coddle and hug and vouch for the testimony of such a scoundrel as Abraham H. Hummel—the very vermin of the New York bar." The address of the defending attorney occupied all of the day's sessions.

Mr. Littleton urged that there should be no compromise. He asserted that if any doubt exists in the minds of the jurors they should resolve it in favor of the defendant and acquit him. He begged that they be not misled by the district attorney into voting for a verdict of conviction in some lesser degree than that of primary murder.

Any verdict of not guilty in the case, it is said, will carry with it the assumption that it was rendered on the ground of the insanity of the defendant, whether or not the insanity clause is added. The plea of not guilty entered in the case carries with it the specification that the defendant was insane at the time the crime was committed.

Mr. Litleton's argument was forceful and impressive. He refrained from appealing to the passions of the jurymen, and devoted himself to a logical, earnest and serious consideration of the facts as adduced in evidence. He said he asked for Thaw no more consideration than the average American boy had a right to demand of the average American jury. The speech was crisp in epigram and the short sentences were filled with the pith of logic and the quality of appeal. The jurymen followed it with intense interest and it was generally conceded that Littleton had left Jerome a difficult task.

"I confess to you, gentlemen," he said, "that I do not know what the district attorney has meant in this case. I cannot fathom how he feels he has discharged his burden under the law and I am waiting with much impatience to hear what facts, what evidence and what circumstances he will suggest to you as having been presented by him to show you that this defendant is sane beyond all reasonable doubt.

"Sneers and insinuations are all I have heard him offer you. He tried to confuse some witnesses who said that Thaw could remember some of the things that happened during his periods of mania. Can you gentlemen not clearly remember the details of your dreams at night when you wake in the morning. But can you say when you dreamed them?

"Where is the district attorney's proof? Where are the scientists, the books on insanity with which he has shown such thorough familiarity in the past? Where is the gallant band of alienists—nine of them—who appeared at his behest at the last trial and are still available; why are they not here to answer our case?"

Mr. Littleton, in speaking of Evelyn Thaw, said: "I do not know what the judgment of you gentlemen may be as to her morals or as to any responsibility of conduct either with Stanford White or Mr. Thaw, but the district attorney's manner toward her, in my judgment, exceeded anything she deserved. It amounted to unofficial antipathy—an antipathy which I believe exceeded by far the necessities or duties of his office. There always were the notes of savagery and bitterness in his examination of her and in his comments upon her before this jury which were not justified by the facts of this case.

"I don't know how you gentlemen feel about it, but it generally has been understood that a woman when she takes the witness stand in this country is at least entitled to have her testimony elicited with as much gentility, care, tenderness and regard of the ordinary proprieties as ordinarily governs the intercourse of men and women.

"I do not say that the district attorney transcended the proprieties and decencies; I leave it to you. I may be partisan. I would not have you judge the district attorney from anything I say, but it has seemed to me that Mr. Jerome has been more intent upon destroying this young woman than proving that Thaw was sane. The trend of his attack would lead you to believe that Mrs. Thaw and not her husband was on trial before you.

"What was there about this young woman or against her that Mr. Jerome should pace up and down before you like a caged lion when he was questioning her and glare at her and clench his teeth at her, not even sitting down when I was conducting the examination. What was there about her that called for such treatment from a man who could coddle and hug and vouch for this loathsome little Hummel? I do not want to be unfair to Mr. Jerome. We are very good friends. I do not, I repeat, ask you to take my view of him. Judge for yourselves."

Blame For Boyertown Disaster

Boyertown, Pa., Jan. 30.—The jury which has been investigating the disastrous fire at Rhoades' Opera house, in which 169 persons lost their lives, returned a verdict early this morning in part as follows: "We are of the opinion that Mrs. Monroe and the deputy factory inspector are largely responsible for the disaster on account of negligence. We request the prosecuting attorney of Berks county to arrest and, if possible, convict Mrs. Monroe, owner of the stereopticon machine, and Harry McBechtel, the deputy factory inspector, on the charge of criminal negligence."

Forests Should Be Saved

Washington, Jan. 30.—That this nation has reached the point where it must decide whether it is to lose the use of the rivers in the east and south through the non-preservation of forests, which safeguard the watersheds, was the declaration of Secretary of Agriculture Wilson to the American Forestry association, which convened here. The secretary expressed the hope that congress would take action to assure the beginning of the work of the preservation of the forests and the safeguarding of the watersheds.

Favors Marriages on Trial

Paris, Jan. 30.—Replying to the theme advanced by Paul Bourget in his play, "A Divorce," which was given in this city, Aristide Briand, the minister of justice and worship, practically came out in favor of trial marriages. He endorses the idea of the gradual evolution of the doctrine of divorce until the point is reached where a marriage may be contracted for a specified period under legal safeguards protecting the interests of both parties.

Spaniards Now Our Friends

St. Petersburg, Jan. 30.—Count Cassini, former Russian ambassador at Washington, and now ambassador at Madrid, has completely recovered from his severe illness and is about to return to the court of King Alfonso. Cassini says he has noticed a great change in the sentiments of the Spanish people towards the United States. The enemity which existed at the close of the Spanish-American war is now largely a thing of the past.

Man and Horse Killed by Car

Fall River, Mass., Jan. 30.—Patrick Cummings, a farmer, aged 60, was instantly killed, and his wife was seriously and perhaps fatally injured, when the carriage in which they were driving was struck by an electric car at Westport. The horse was killed and the carriage demolished by the impact of the swifting moving electric. No one on the car was hurt by the collision and the car was not damaged.

Won't Insist on Finger Prints

Johannesburg, Jan. 30.—The Asiatic difficulty has been settled, the government deciding to accept the signatures instead of the finger prints in the registration of Indians coming into the country. The leader of the Indians approves the solution in behalf of his countrymen. Those arrested in contravention of the law will be liberated.

Two Days on Active List

Washington, Jan. 30.—The unique experience of having the rank of a rear admiral on the active list for two days has fallen to the lot of Rear Admiral Logan, commandant of the Pensacola navy yard. He was confirmed a rear admiral by the senate Tuesday and was retired today and given permission to go abroad.

Prince's Son a High-Flyer

Paris, Jan. 30.—The Prince of Monaco has given public notice that he will not be responsible for the debts incurred by his son, Louis, who is at present living a gay life in the French capital. The latest exploit of Louis was the abduction of his natural son from the child's mother.

Proposed Increase In Pensions

Washington, Jan. 30.—A general pension bill which, if enacted, will increase the pension roll by about $12,000,000, was introduced in the house by Chairman Sulloway (N. H.) of the committee on invalid pensions. The bill has the support of that committee.

Over a Billion For Navy

Berlin, Jan. 30.—The government's naval program, embracing estimates of expenditures of more than $100,000,000 annually for ten years, passed to the second reading in the reichstag, only the Socialists and Poles opposing it.

The Weather Forecast

Almanac, Friday, Jan. 31.
Sun rises—7; sets—4:56.
Moon rises—5:34 a. m.
High water—9:30 a. m.; 10 p. m.

It will be fair and much colder in New England.

WITH ANCIENT RITES

Archbishop O'Connell Receives Sacred Pallium at Boston

INVESTITURE BY CARDINAL

Highest Dignitaries Attend Ceremony Which Marks a New Era For the Roman Catholic Church In New England--A Rare Occasion

Boston, Jan. 29.—The sacred pallium was invested upon Archbishop William H. O'Connell by Cardinal Gibbons at the Cathedral of the Holy Cross today with all the pomp, dignity and solemnity which sixteen centuries have contributed to the ceremony of conferring final authority upon the head of an archepiscopal diocese by the personal representatives of the pope.

The splendor of the decorations of the altar, the grandeur of the music of the mass, the imposing array of bishops and priests from twelve states, together with representatives of the political life of state and city, and, finally, the placing upon the shoulders of the head of the church in New England of the white pallium from the tomb of St. Peter in Rome by the prince of the church in this country, made the occasion a memorable one in the religious history of Boston.

The conferring of the sacred pallium was instituted in the fourth century and to a new archbishop it is the insignia of power and authority from Rome, as well as allegiance to the head of the church. The vestment is a band of white woolen cloth about three inches in width, almost circular in form, while inserted in it are six purple crosses, the whole being worn about the shoulders and fastened with three gold pins.

The pallium is made from the wool of two white lambs offered at the feast of St. Agnes on Jan. 21 at Rome. It is woven by the nuns of the convent of Terre di Specchi. With others, it is placed in a silver coffer and laid in close proximity to the body of the Apostle St. Peter in verification of the words: "We confer upon thee the pallium taken from the body of blessed Peter."

Once conferred upon the archbishop, the pallium remains forever in his possession, even after death, as it is buried with his body. The first wearer of the pallium in this country was Archbishop Carroll of Baltimore, and it was thirty-three years ago that it was conferred upon Archbishop Williams of this city, who died last September. The conferring of the vestment today upon his successor marked a new era in the Catholic church in New England.

The rarity and significance of the occasion and the presence of so many dignitaries of the church drew a tremendous crowd to the South End, and it was with difficulty that the streets immediately surrounding the cathedral were kept clear for the invited guests. Washington street was roped off completely for an hour before the ceremonies began and nearby side streets were also freed from the crowds.

The cathedral was filled early with invited guests, including Governor Guild, members of his executive council, Mayor Hibbard and members of the city government, and a number of other state and city officials. The altar presented a brilliant spectacle. Against a background was arranged a great mass of palms and ferns, while across from one side to the other was a golden band of incandescent lights.

The ceremonies began at 10 o'clock with the procession of priests, bishops and other dignitaries of the church, with Archbishop O'Connell and his train-bearers, and finally, Cardinal Gibbons and his suite bringing up the rear. The solemn high pontifical mass was then begun, Cardinal Gibbons officiating and entoning the opening blessing. The sermon of the mass was preached by Very Rev. Lawrence F. Kearney, the provincial of the Dominican fathers of Washington, and instead of being after the gospel, was not delivered until just before the conclusion of the mass.

The ceremony of conferring the pallium followed immediately after the benediction of the mass. During the mass it lay wrapped in heavy silk on the middle of the altar. The ceremony began with the administering of the oath of fealty by Cardinal Gibbons to Archbishop O'Connell. In taking the oath the archbishop was clad in his pontifical vestments, with the exception, however, of the mitre and gloves.

At the conclusion of the administration of the oath, the cardinal rose from his seat and, lifting the pallium from the altar, laid it upon the shoulders of the archbishop. The addresses of the cardinal and the responses of the archbishop were both in Latin and English. As soon as the declaration of the cardinal was made investing the pallium, the archbishop ascended to the altar and pronounced the papal benediction. The dignitaries then filed from the sanctuary, which brought the ceremonies to a close.

Wants to Remain Governor

Atlanta, Jan. 29.—Governor Smith has issued a formal statement announcing that he will not be a candidate for the United States senate to succeed Senator Clay. His statement also declares that he will run for a second term for governor in order to finish the work pledged in his platform.

BANK DOORS ARE CLOSED

Two Big New York Institutions Are In Financial Difficulties

New York, Jan. 30.—Two financial institutions of New York city, one a national and the other a state bank, did not open their doors this morning. The New Amsterdam National bank, capital $1,000,000, was taken in charge by a representative of the comptroller of the currency early last evening, and the Mechanics and Traders' bank, a state institution, capital $2,000,000, announced shortly before midnight the decision of the directors not to open today.

Both banks announce their ability to pay all depositors. A statement of the New Amsterdam National shows individual deposits of $2,065,272. No statement of the liabilities and assets of the Mechanics and Traders' could be had.

Both institutions had been known as in the Morse-Thomas chain of financial institutions, but both had undergone a reorganization of the directorates. The Mechanics and Traders' bank had two branches in Manhattan and ten in Brooklyn. All these branches remained closed today.

Did Not Touch Upon Politics

Cleveland, Jan. 30.—William McKinley, the martyred president, was the keynote of several addresses delivered at the Tippecanoe club's annual McKinley day banquet here, at which Secretary of War Taft was the guest of honor. All of the speakers confined their remarks to the life and deeds of McKinley and a discussion of the problems engendered by the Spanish-American war and the acquisition of the Philippines and the islands of the Caribbean. Not only did Taft and the other speakers confine themselves to McKinley eulogies, but Taft at no time during his stay here made any public references to political matters.

Postal Propositions

Boston, Jan. 30.—The sixth annual meeting of the Postal Progress league was held in this city. Resolutions were passed commending the efforts of the postmaster general looking to extension of the parcels post system and the establishment of postal savings banks and in favor of a uniform rate of 2 cents on letters to all parts of the world, with the unit of weight one ounce. Another suggestion favored a uniform rate of 1 cent for domestic letter postage, with the unit weight of two ounces.

Soldiers Not Posted In History

Berlin, Jan. 30.—Emperor William yesterday reviewed the First regiment of the guards at Potsdam, and after the men had marched past he took the regiment in hand personally and drilled it for an hour. The emperor then passed along in front of each company, picking out and questioning individual recruits on various subjects, but principally concerning German history. Regarding the latter they all appeared to be sadly deficient.

May Not Prosecute Mrs. Clark

Boston, Jan. 30.—Mrs. George Kremer of New York has notified Boston officials that she will drop proceedings against Mrs. Maud C. Clark, under arrest for New York officers on the charge of kidnapping, if Mrs. Clark will keep away from her son, Carleton Clark Kremer, the adopted child of Mrs. Kremer. The child was taken from Mrs. Clark on her arrest and turned over to Mrs. Kremer.

Disturbances In Lisbon

Lisbon, Jan. 30.—Two policemen were killed in yesterday's manifestations. Dr. Moris, J. P. Dossantos and Viscount Brava, progressist-dissidents, and Alfonso Costa, a member of the Republican committee, have been arrested. This committee recently issued a manifesto, but is not considered responsible for the attempts against persons.

Double Crime of Negro

Washington, Jan. 30.—John Harden, a negro, arrested for criminally assaulting and robbing Mrs. Margie Ruggy, a widow, near Mount Harmony, Md., is said to have confessed both crimes. On account of threats of lynching, he will be removed to jail in Baltimore.

No Objection From Britain

London, Jan. 30.—The British government, which has been kept fully informed as to the tenor of the German proposals for the maintenance of the territorial status quo in the North sea, has given its full assent thereto.

NEWS IN BRIEF

Robert A. Potter, administrator of the estate of the late C. J. Root, who was the victim of an automobile accident at Ashley Falls, Mass., has applied to the probate court at Bristol, Conn., for a commission to act on claims against the estate, which is valued at $175,000.

Marshal Halstead, 45 years old, formerly United States consul at Birmingham, Eng., died at Cincinnati, following an operation for appendicitis.

A state council of the United Brotherhood of Carpenters and Joiners was formed at Lewiston, Me. There will be about 1400 members in the council.

John Luxon, a well known telegraph operator, died at Worcester, Mass., of kidney trouble, aged 50. He was in The Associated Press service.

The resignation of William E. Hill as city marshal of Salem, Mass., was accepted by the board of aldermen. Hill has been appointed chief of police of Everett, Mass.

A number of the Italian-speaking citizens of Boston tendered a banquet to Baron Gustav Tosti, the retiring Italian consul at Boston, and to Marquis Alexander di Bruno, the new consul, who has just begun his duties.

Sour Stomach

"I used Cascarets and feel like a new man. I have been a sufferer from dyspepsia and sour stomach for the last two years. I have been taking medicine and other drugs, but could find no relief only for a short time. I will recommend Cascarets to my friends as the only thing for indigestion and sour stomach and to keep the bowels in good condition. They are very nice to eat."
Harry Stuckley, Mauch Chunk, Pa.

The Observations In the Daily Walk

W. E. Lee is employed at Stoneham.

Cook, the druggist, is advertising for a clerk.

James Wardell is working at the Fore River.

Charles S. Jones has about recovered from his recent accident.

C. C. Turner has moved his family from Silver to Washington street.

Joseph E. White is engaged in the dredging business in Boston harbor.

Two new strips of board fences have been added to Broadway, Quincy Point.

The Ladies' Aid society met to sew Monday at the home of Mrs. Lee, 29 Thompson street.

The visiting committee of the Point Parish meet Friday at 2.30 to transact their annual business.

A business meeting of the Point church and parish, has been called for Friday evening at the vestry, at 8.15.

The "Minute Men" held a social Tuesday evening for members; they were entertained by a whistler and ventriloquist.

Mrs. Eleanor A. Maybury recently visited former friends at Quincy Point. She has recently edited a book,—"The Coming of Christ."

The fourth annual banquet of the Men's club of Christ church will he held next Monday evening in the parish house. It is always largely attended.

Dr. Hardy and Rev. A. R. Atwood were the Quincy ministers in attendance at the Congregational club, Ford Building, Boston, on Monday evening.

The Ward One Republican committee has organized with George E. Adams as chairman, Henry Crane as secretary, and Arthur W. Ryder as treasurer.

The department officials at City Hall are busy making inventories of city property in their department to turn over to their successors Monday morning, known as Quincy's second inauguration day.

A section of the street railway trolley wire in front of City Hall broke this morning and fell into the street sending out a blinding flash. Officers Murray and Crooker guarded the wire until the repair car arrived.

Today is the coldest thus far this winter, the mercury being at zero at sunrise and 16 at noon. On Jan. 5 the noon temperature was 19. On two days last January there was 10 degrees temperature at noon.

One of Quincy's milliners was in court this morning upon complaint of an agent of the Fish and Game Commissioners, for having in her possession the feathers of a Heron. The case was placed on file on payment of costs.

The resignation of James M. Nowland as principal of the Adams and Cranch schools came unexpectedly to many, and they regret the schools are to lose his supervision. The resignation takes effect March 1, not next monday as reported.

Mr. and Mrs. J. W. Donovan of Squantum street were surprised by about fifty of their friends Wednesday evening, who enjoyed a few hours pleasantly in dancing, singing and games. John J. Herne, in behalf of the guests, presented Mr. and Mrs. Donovan a beautiful black walnut china cabinet.

The Makaria Fraternity entertained friends last evening with a pleasing program.

Miss C. S. Hubbard is having a midwinter markdown sale of underwear.

The F. D. Fellows Co. make a specialty of dependable clothing and quote low prices.

Tickets are out for the annual banquet and ladies night of the Quincy Board of Trade to be held Feb. 20 at Quincy Music hall, and are for sale by all members.

The many friends of Mrs. Walter Benson, (Mabel Wilson) of Squantum street, are glad to learn of her improved condition after a serious attack of the grip.

A bill has been reported in the Legislature to change the name of the Norfolk-Plymouth County Truant school to Norfolk-Plymouth County Training school.

Those desiring to attend the dedication of the new wing at the Pond Home for the Aged on Saturday should take the 12.27 train from the South station for Pondville.

For the better accomodation of depositors, the Quincy Savings bank will be open for business during the noon hour the same as the National banks. The hours will be from 8.30 A. M. to 3 P. M., except on Saturdays when the bank will close at 12 M. Hereafter the bank will not be open on Monday evenings as necessity does not seem to require it.

One wedding is already announced to be held in Quincy on February 29, the leap year date. The anniversaries for that couple will be few, but they will probably celebrate every four years; oftener than others now do. When married 25 or 50 years however they will have to select some other day than Feb. 2 9to celebrate.

Mrs. Louisa Clapp, widow of Isaac Clapp, and a sister of James W. Pierce of Quincy, died at her home in Dorchester Wednesday. She was 87 years of age, and like her ancesters for generations was born in Dorchester, where the Pierces settled in 1630. Her husband who was for years engaged in the drug business in Chelsea, died about 30 years ago.

Quincy people will be honored this evening by the presence of Charles W. Eliot, the president of Harvard University. The subject which he will discuss is also one of vital interest to the people of cities generally, as the present government comes in for considerable criticism. Only ticket holders will be admitted previous to 7.50.

Employed Boys Win the Meet

The Employed Boys class proved to be more than match for the advanced juniors in athletics and basket ball at the Y. M. C. A. Wednesday night. There was a large attendance of both classes, and much enthusiasm displayed by the young contestants. Last fall the Juniors easily defeated the Employed Boys. The latter class, however, has increased very fast in all directions, and is now perhaps the finest class in the gymnasium.

The summary follows:

15 yd dash—won by Holmes (Jr.); 2d., H. Prout, (Jr.) 3d., W. Childs, (E. B.)

Run, high jump—won by Jenkins, (E. B.) 4 ft. 5 in.; 2d., Santer (E. B.); 3d., Dakers (E. B.).

Potato race—won by Pinel (E. B.); 2d., W. Cranshaw, (Jr.); 3d., E. Newcomb (E. B.).

3 standing broad jumps—won by Dakers (E. B.), 23 ft. 11 in.; 2d., H. Prout, (Jr.) 3d, Souter (E. B.)

Silk badges were given to the first and second man in each event.

The basket ball game resulted in a decisive victory for the Employed Boys; score, 14-2.

In the athletic events the Employed Boys won 22 points against the Junior's 14.

This event is good training for the "Second Annual Boys' Open Meet," which will be held here on Feb. 29.

Tonight in the gymnasium there will be a talk on "Food and digestion," followed by an "apparatus test" for the Seniors, for the purpose of grading the class.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Newsy Budget From Shipyard

All the derricks and booms in the yard are being inspected and throughly overhauled, repairs being made where necessary.

Altho of late the weather for ground fishing has been exceedingly bad the the steam trawler Spray had the largest fare of the Tuesday arrivals at T wharf.

Sixty eight year ago today, Jan. 30, 1840, the Steamer Lexington burned on on Long Island Sound, N. Y., 140 were drowned.

An important experiment is in progress on the board of the Vermont and Louisiana during the trip of those ships with the rest of the Atlantic fleet from Hampton roads to Magdalena Bay. One turret on each of those vessels is being used to ascertain to what extent the shell of the guns of the respective turrets may be stored in the structures themselves. This is with the idea of reducing the time of firing. It is believed that with the shell stored nearer the breech of the gun it will be possible to increase the rapidity of fire over the present conditions, where the shell is stored below the turrett and must be sent up along the hoist with the powder. This necessarily takes some time under the best regulated handling of ammunition between the magazine and the turret guns. Of course, there is the element of risk to be considered, and this must be observed carefully by the board which is in charge of the demonstration on board the Vermont and the Louisiana. One element in the navy has insisted that there are at present insufficient precautions against disaster, and the officers who entertain this view are not inclined to believe that the advantage gained by having shell in the turret is worth the additional peril. About one-half of the allotment for a turret can be stored in the turret. It will be possible after the firing of the guns in the target practice at Magdalena Bay to ascertain just what time is gained by this arrangement.

Prince Jonah Kalamianaole, Hawaii's delegate in Congress, addressed the House Committee on Naval Affairs on Wednesday on the construction of a naval station in Pearl harbor and the building of a flotilla of submarine torpedo boats to defend American interests there.

The Navy Department is about to undertake to demonstrate the utility of the submarine in naval warfare says the Washington correspondent of the Transcript. The naval strategists have exerted themselves to find a solution of the problem of how to give these boats the nobility desired for naval purposes. The Department desires to demonstrat the possibility of conveying these boats long distances without "knocking down" in any way, so as to launch them at their destination in condition for instant use, even where no expert mechanics are available. The first step in the experiment will consist in the transportation to the Pacific of a couple of the smaller type of submarines. The Shark and the Porpoise weighing only about sixty tons each and being less than ninety feet in length, now at the New York Navy Yard, will be placed on the decks of two big colliers that are bound for the Pacific. An alternative plan contemplates the removal of some of the deck beams of the colliers, which would admit of slipping the submarines directly into the hold, where they would be much safer. If the experiment is successful it may be extended to the larger boats.

TODAY'S COURT.

William Ray was fined $15 for drunkenness at Quincy.

Arthur McDonnell was fined $10 for assault on Bridget Murphy at Quincy and put under $200 bonds to keep the peace for three months

The continued case of John Pericao for assault at Quincy was called and he was fined $15.

Carl Litchfield was arraigned for assault with a dangerous weapon at Weymouth. He was held in $500 until Saturday for a hearing.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

GEORGE W. JONES,
1 Granite Street, Quincy.

The Night Rate For Telephoning

The New England Telephone & Telegraph Company and the Southern Massachusetts Telephone Company have announced that on and after February 1, 1908, the night rate for their toll service will apply between the hours of 10 P. M. and 4 A. M. instead of between 6 P. M. and 6 A. M.

An official of the company says—"This change is necessary on account of the practice which has grown up of deferring calls which would ordinarily be made through the day, until after 6 P M., when the night rate goes into effect. The result of this practice has been to crowd a very large number of calls into a short space of time immediately after 6 P. M. The effect of this congestion of traffic is to place such a strain on the plant and operating force that necessarily a large number of calls are lost or delayed.

"The original object of the night rate was to attract toll business at a time when the lines were not being used to any great extent and when consequently the operating force could handle more calls. The result has been that the general practice of deferring calls until after six o'clock has overcrowded the lines and necessitates employment of a largely increased operating force which can be utilized only during rush hours. As a matter of fact in some exchanges the number of calls handled during the early evening hours is twenty per cent greater than during the busiest hours of the morning. The effect of this congestion together with the added difficulty of getting efficient operators for night work is bound to have a detrimental effect on the service.

"There is no comparison between the night rates for telephone and telegraph service, because telegraph messages are filed at any time for night transmission upon the agreement that they are to be sent at the convenience of the company and are not to be delivered until the next day.

"A telephone message however requires facilities for immediate transmission. For immediate transmission and delivery the telegraph companies always charge the full day rate no matter at what time of the day or night the message is filed.

The company believes that this change will take a severe and unnecessary strain off the plant and operating force by cutting out the rush hours and distributing the traffic more evenly throughout the day; and that for the same reason it will greatly improve the efficiency of the service to the general public."

The Elks as Guests.

The Elks are to be the guests of Manager William T. Donovan at the Scenic theatre Friday evening. On this date William Chase, who has a rich baritone voice, will sing the famous Elks' song, "Here's to Our Absent Brother." The mystic hour of "eleven" will be struck on a silver toned gong, and the song will be illustrated by some of the most beautiful slides produced up to date. The song itself is a beautiful composition and cannot fail to be enjoyed by all who hear it Exalted Ruler Deasy hopes all who can will accept Manager Donovan's invitation.

Ex-Gov. Utter at Y. M. C. A. Dinner

The third annual Y. M. C. A. contributors dinner will be held at the Association building on Wednesday evening, Feb. 12. Ex. Gov. George H. Utter of Rhode Island and Mr. S. B. Carter of Boston will be the speakers. Invitations will be issued in a few days.

These occasions have, in the past two years, proven very interesting and profitable for the work of the association. It will be remembered that very able and distinguished men have been present. Two years ago Hon. Carroll D. Wrigh, and last year ex-Gov. John D. Long. It is believed the past standard of excelling will be maintained this year, as Gov. Utter is a most eloquent and able man.

At the meeting of the board of directors it was voted to make this a paid dinner and tickets will be $1 a plate. In deviating from the past custom the association believes they are taking a dicided step forward, and it is hoped that the friends of the work will hold this date, the 12th and plan to be present.

THE
Young Men's Christian Association
OF QUINCY, MASS.
(Legal Title—Incorporated 1892.)

The Directors of the YOUNG MEN'S CHRISTIAN ASSOCIATION of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and bequests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an Endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys Department, or as a special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUMMINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

OUR HOSPITAL

(Legal Title: City Hospital of Quincy)
INCORPORATED 1889

The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over $60,000 but a fund of at least $100,000 is urgently needed.

Five Thousand Dollars ($5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need will be most gratefully received.

The Secretary, TIMOTHY REED Adams Street, Quincy, or the Treasurer, RICHARD D. CHASE Savings Bank Building, Quincy, will be very glad to confer with any one or to answer any inquiries.

The Jailer's Daughter.

[Original.]

"What y' in for?" asked the jailer's daughter, peering through the bars. She was a gangling girl of sixteen, with blue eyes and light wavy hair hanging loose over her back. The prisoner was a stalwart young fellow of twenty.

"Horse stealing."

"Couldn't y' find nothing better t' do than that?"

"I didn't steal any horses. A man with a grudge against me put up a job on me."

"Is that so? Y' ortn't t' swing if y' didn't do it."

The prisoner went on reading a paper that had been given him.

"I'd let y' out," she added in a low tone, "only pop keeps too sharp a watch on the keys, and there ain't much time."

The young man turned from his paper. "You can help me to get out if you wish," he said.

"How?"

"Can you get a saw?"

"Nothing but a buck saw."

"That won't do. Bring me a file and a case knife."

"Pop's got a file among his tools. I can get the case knife easy enough."

She went away, returning with the articles asked for. The prisoner, covering his hands with the bedclothing that the filing should not be heard, proceeded to make a saw of the knife. With one or both he proposed to cut away the bars to his window. This he did while the jailer's daughter strummed on a piano directly over his head so that the noise of cutting could not be heard.

When he had finished, the girl came again, and he said to her: "Goodby. If I get out safely, some day I may come back to reward you."

"I've been thinking I'd go with you," she said, her eyes glistening.

He looked at her earnestly for some time without speaking. What he was thinking she didn't know. At last he said:

"All right. Meet me soon after 2 o'clock tomorrow morning outside the wall."

When the prisoner heard the jailer's clock wheeze out 2 in the morning, he removed the bars, got out of the window, climbed a wall and stole away. He was joined by the girl, and together they ran for a time, then when they could run no longer walked and consulted.

"It's only five miles t' the railroad this way," said the girl. "Reckon we better get on a train."

"Haven't got any money. Besides, we couldn't likely get a train till morning, and they'd get us sure."

"What'll we do?"

"Hide some place near by till the excitement has died out. There's a thicket. We'll go in there and see what we can find."

They went into the thicket just as a rancher near by was going into his stable to feed his stock. He saw them and wondered who they were and what they were doing there. When several hours later a posse headed by the jailer, frantic at the loss of his daughter, came along and asked the rancher if he had seen a man and a girl go by, he told them that he had seen them go into the thicket.

Now, the thicket was large, and there were places in it hard to get through. It was ransacked, but the fugitives were not found. The sheriff, who was with the party, sent the jailer on with a couple of men, while the rest completed the search. He intended to burn the couple out and expected the jailer if present would raise an objection, fearing for his daughter's life.

The couple had wormed themselves into a tangled place where they had not been followed. Presently they smelled smoke. The man paled.

"We must get out of this," he said. And they dragged themselves from their hiding place and moved on, coming to an open space. The man paused and looked about him. Then he began to scrape away the dead leaves and everything that could burn. The girl, seeing his object, joined her efforts to his. The fire came on, crackling and roaring, and when it reached them it found them in the open space covered by what loose earth they had been able to scrape together. The posse followed closely in the wake of the flames. Passing some fifty yards from the couple covered with dirt and ashes, they saw nothing more than a couple of earth heaps. The prisoner and the girl lay still till they could no longer hear sounds from the hunting party, then arose and threw off the dirt and ashes.

They stayed that day in the burned wood and when the night came on, guided by the north star, walked till morning, when they again rested in a wood. In this way, traveling nights and sleeping days, feeding on berries and what else they could find, they put miles between them and the jail. Finally they brought up at a large ranch, and the young man led the way to the house as though familiar with the premises. A man came riding toward them on horseback. When he saw them, he reined in his horse.

"Father," said the young man, "I've come home. I don't want any more independence. But for this girl I would have swung at the end of a rope, falsely accused by an enemy of horse stealing."

The father put out his hand to the returned prodigal.

Five years later after the jailer's daughter had returned from an eastern college she married the man she had saved from a felon's death.

ARNOLD ATHERTON.

The Bowling Tournament

Teams 2 and 1 won in the Red Men's bowling tournament this week. Team 2 was up against Team 4, and the latter were slow in warming up. The first and last games went to Team 2 which led 28 on totals.

TEAM 2.

Smith	86	94	86	266
Whall	79	71	76	226

CITY CHARTERS IN GENERAL UNDER FIRE.

JOINT DEBATE

Crowds Quincy Music Hall And Interests A Large Number

One of the largest and most intelligent audiences that ever graced Quincy Music hall was present Thursday evening to hear President Eliot's address on "Government by a Few Selectmen." The audience was by no means confined to men, for there were a very large number of ladies present, showing that they are equally interested in this important subject.

Practically all of the present City Council were present as well as many of the heads of departments, ex-Mayors and others and Selectmen from adjoining towns, all interested in anything that would tend to improve our form of government.

On the platform aside from President Eliot were George H. Brown, president of the Citizens' Association; Brooks Adams, Esq.; Mayor William T. Shea; ex-Mayors Russell A. Sears, Henry O. Fairbanks, John O. Hall and Charles M. Bryant; John W. McAnarney, Esq.; Judge Albert E. Avery of the District court; Representatives Eugene C. Hultman and Rednor P. Coombs; Walter E. Piper, president of the Board of Trade; Ralph W. Hobbs, president of the City Council; Dr. N. S. Hunting, chairman of the School committee, Richard R. Freeman chairman of the special committee of the City Council on the City Charter; Paul R. Blackmur, Walter S. Pinkham, E. H. Angier and Harry W. Read.

The arrangement was that President Eliot should take forty-five minutes in the affirmative and ex-Mayor Sears and John W. McAnarney, each fifteen minutes in the negative. President Eliot was then to have fifteen minutes in which to reply. This program was carried out to the minute.

George H. Brown, president of the Citizens' Association, called the meeting to order, and briefly introduced Brooks Adams as the presiding officer.

In taking the chair Mr. Adams said we all understand what we have come here tonight for. To have good government we must have good citizens, and to have good citizens we must have a good sense of duty. Thirty-eight years ago President Eliot gave the speaker his degree. What an amount of work he had done in these years. Yet loaded with honors he finds time to come here to give us his advice on our common welfare. He then introduced President Eliot who was received with an outburst of applause.

COMMONWEALTH OF MASSACHUSETTS, — STATE HOUSE, BOSTON, JAN. 29, 1908. The Committee on Insurance will give a hearing to parties interested in House bill No. 327, to protect mortgages of insured real estate; House bill No. 328, to prescribe manner of service of proof of loss by fire; House bill No. 329, to limit requirements for arbitration on fire losses, and House bill No. 659, for more time for Economic Life Insurance Society to organize, etc., at room No. 505, State House, on Wednesday, Feb. 5, at 10.30 o'clock A. M. Frank G. Wheatley, Chairman. Charles Mayberry, Clerk of the Committee. Jan. 31-2t

COMMONWEALTH OF MASSACHUSETTS, — STATE HOUSE, BOSTON, JAN. 29, 1908. The Committee on Insurance will give a hearing to parties interest in Senate bill No. 114 that life policies be incontestable after two years; House bill No. 520 for Charter for Lowell Burial Association; House bill No. 577 for publication of names and amount due on unclaimed paid up life policies! House bill No 518 to compel foreign companies to give cash value on industrial policies; House bill No. 658 for appropriations for expense of the Commissions on old age insurance, at room No. 505 State House, on Friday Feb. 7, at 10.30 o'clock A. COMMONWEALTH OF MASSACHUSETTS, — STATE HOUSE, BOSTON, JAN. 27, 1908. The Committee on Cities will give a hearing to parties interested in the petition of Michael J. Kenney, with House bill No. 470 to permit cities and town to pension call firemen after twenty years of service at room No. 444 State House, on Tuesday Feb. 4. at 10.30 o'clock A.M. Harry P. Morse, Chairman. William H. Trudel, Clerk of the Committee. Jan. 31-2t

CHANCE WANTED

President Eliot Advocates An Intelligent Experiment

President Eliot talked slowly and deliberately without attempt at oratory, and he brought his address to a close on the minute of the time allotted to him.

In opening he said he had done a great deal of work in the past forty years, but it was not much of a merit for he always liked work, and had not yet got his fill. Continuing he said in part:

"It was an extraordinary natural catastrophe that started the experimenting with city charters—the tidal wave at Galveston. The municipal reform that followed that, spread all over the country, and is nowhere being experimented with, more than in Massachusetts.

"In small cities we have adopted the one-chamber form of government, and that is an important advance. The same number as in the Texan charter, five, is used for the new school committee of Boston, elected at large, and Boston has never had so good and efficient a school committee before.

"Why is it better to have a small number? Because the voters can better acquaint themselves with a small number of candidates. A universal difficulty is the impossibility of the voters acquainting themselves with the merits of a large number of candidates.

"We need men as agents of the people who are competent business men and have proved themselves to be such. Municipal business has become very complicated and needs expert service. We can only get expert men into our city business as great business corporations get them. These corporations are governed by a small body of directors, whose chief function is to select experts. These directors have to be men capable of directing the grand policies of the corporation. We want in our cities men who have proved their competence in their private business.

"Why are men elected at large better than elected by wards? Because local interests are no longer local in a strict sense. They have expanded, taking in a greater radius. So ward election is not so good as election at large.

"The commonest objection is all in the word 'un-American.' So many good things nowadays are un-American. So many I have heard called that when first proposed, have later proved their worth and been adopted. Undemocratic is another such word. Whatever policy will get the work of the people well done ought to be democratic if it isn't now. Those are the very conditions of the life of democracy.

"But no form of government will receive good government unless there be behind the voting population which desires good government. I have heard sadly often that the quality of the suffrage has deteriorated. But that is not to be taken for granted. In my opinion universal suffrage should be given a chance to show what it can do under favorable conditions.

"If again we fail—and I say fail because universal suffrage has not yet succeeded—then will be the time, and not till then, to undertake other experiments. We know our present plan is not good. Let us change it. Let us make an intelligent experiment."

—We examine in our dark-room with modern instruments. If we find disease we send you a reliable oculist. Williams 1473 Hancock street.

A GOOD CHARTER

Says Mr. Sears While Commission Would Divide Responsibility

Ex-Mayor Sears in opening said President Eliot's devotion to the common weal had made him our first citizen. (Applause.) For nearly 20 years Quincy has existed under a peculiar form of Charter, the first I think in Massachusetts, and known as the "Mayor's Form of Government," where the Mayor is the one person who is responsible to the people. It seems to answer all purposes.

"But today" continued Mr. Sears, "under the circumstances as they exist, in our city a commission seems to me out of the question. Divide up the work of such a commission as best you may, even placing an expert at the head of each department, there still exists the opportunity to hide from responsibility. The opportunities for misunderstanding and confusion of rights seem to be plenteous.

"The Commission idea is nothing new. If I read my history aright the first important government by commission was sixty years before Christ, when Caesar, Pompey and Crassus entered into such an arrangement. The success of the scheme was dependent on the genius of Caesar, Pompey's strength and achievements with the army, and the wealth of Crassus, Caesar was made manager of the ring and the first agreement made by each was to support the others in perpetuating them in office.

"The spoils were divided and other trades entered into such as when realized in these days would make even an alderman of Boston pinch himself to see if he were alive; and all went well until the disagreements came; then it was the same old story. How like the pernicious features of the Roman Triumvirate are the opportunities two thousand years later! and how often during those years have the same traits in human character shown themselves.

"If you elect a man with four other men whose duties overlap each other, how can you place the responsibility? If you ask him why did you not construct a sewer through your street; why did you expend so much money on that schoolhouse and produce such a poor result, or why did you do this or that, his answer may be 'Not I, but my associates, are the ones who are at fault.'

"What the tax payers want to know is whose is the fault, or in other words whose is the responsibility? These questions have been asked and answered one way or another by our Mayors for the past twenty years. The city has gone on in the even tenor of its way with no more troubles or perplexing problems than any other city under any other form of government would do when an analysis of the conditions shows the true cause.

"In 1888 the time when the town became a city the population was about 14,000; in twenty years it has doubled. The valuation in 1888 was $9,000,000; in twenty years it has trebled! No real charge of fraud or corruption has ever been made against a city official, no industry has ever deserted the city because they were overtaxed—we're poor, but thank God, honorable, and we go on our way with faces hopeful in the light of the day.

"Why then should we seek to throw over a charter under which we have progressed in the face of unusual odds in order to try a novel and practically untried experiment?" Here Mr. Sears told a good Chinese story.

(Continued on Page 4.)

COUNTY METHODS

An Argument Against Commission Government Says Mr. McAnarney

John W. McAnarney in opening said that it was an old saying that "A rose by any other name would smell as sweet." It needs only a change of three words to read, "A thorn by any other name would cut as deep." He raised his voice in protest at what he considered an attempt of reform that will deprive the people of the rights that are theirs. He believed the people could be trusted with their own.

Government by selectmen sounds good. Government by a few selectmen, sounds even better. Yet rising to the top, is the inquiry what do you mean by select? That the affairs of the city shall be placed in the hands of a few, because they are business men regardless of what kind of business. Do you mean to draw from a governing class or from the rank and file irrespective of their financial standing?

Government by commission is old in this Commonwealth. No comparison ,however, can be drawn with a commission selected by the Governor after a careful study, and a commission elected by the cities at large. We have county commissioners and everybody knows what they are. Norfolk County can bear testimony to the amount of politics in its Commission, of which Quincy contributes its share.

The speaker then touched upon the matter of elections. It is an open and notorious fact, that we may have an unlimited number of candidates and we are bound to vote for one or the other. We may however in Massachusetts if not satisfied put up a citizens ticket. In the Des Moines plan there can be no citizens candidate.

How would you like to commit your city to such a system? There is another fault. The legislative and executive should never be merged. In Quincy under a commission five men would have the power to appropriate, raise and expend the money.

It is not true, in a vital sense, that directors run corporations. It is the power that comes from the voting stockholders. The very thing that makes for success in business corporations is the one thing to be guarded against in a municipal corporation. We want no minority stockholders in our municipal government.

The recall plan in the Des Moines system is a most vicious one. In Quincy with a voting population of 4,000 it would take but one quarter of them to demand the recall of the Mayor. Would that man accept the office if he knew he could be brought back for a new election at the request of 25 per cent of the voters? We should be having elections all of the time.

JOINT DEBATE.

ELIOT IN REBUTTAL

Finds Rivals Contradictory But Answers Their Arguments

President Eliot in his rebuttal said that he found it difficult to get an angle of attack, so contradictory were the two remarks of the two speakers. Mr. Sears would base all on a single Mayor. He understood there was another office in Quincy called the Commissioner of Public Works. (Laughter.) He must dissent from the theory to give one man all the power. He did not know of a single instance where it had succeeded, but had many of its failure. He could not think that government by one man would commend itself for any length of time. Another objection to an autocrat Mayor was, he has too short a tenure. I asked Mr. Sears how long he was Mayor and he replied one year. (Laughter.) The only successful autocrat Mayor is one of long tenure.

Turning to the other argument. No one suggested a selection from the governing class. Where it has been tried no such class exists. The only suggestion was that the selection should be from a competent class of citizens. We all know that in American cities we are getting men who are largely incompetent and often dishonest. Quincy must be a paradise. It is the only place of that sort in Massachusetts he had ever visited.

The inference that the people would lose power is not correctly applied. The recall is a popular form and intensely repulsive to the machine politician of both parties. All new charters will destroy political machines. Therefore we must expect that it will be adopted with considerable difficulty.

Quincy has adopted one element of reform, a single chamber. A board of five would be a safer and more democratic form of government than an autocratic Mayor. The selectmen are not experts. It is the men they select who are the experts. The question is not what we want but how to get them. It is a matter of pure business and nothing else.

At the conclusion of President Eliot's rebuttal Mayor Shea moved a rising vote of thanks to President Eliot, ex-Mayor Sears and ex-City Solicitor McAnarney which was voted.

IN A MASTERLY PLEA

Jerome Declares That Thaw Is Guilty of Murder

HE ACCEPTS STORY OF WIFE

Denounces Prisoner For Attempting to "Save His Worthless Life Behind Her Shame"--Justice Served If Less Than First Degree Verdict Is Found by the Jury

New York, Jan. 31.—William T. Jerome, representative of the people, made a masterly plea that justice be done in the case of Harry K. Thaw. Vindictiveness, sneers, insinuations, all were lacking; logic, analysis and a calm consideration of the facts were their substitutes. It was no appeal for the vengeance by the law that Jerome addressed to the jury, but always in his argument there was the note of fairness, even at times of mercy.

The year that has elapsed since the first trial had wrought a wonderful and startling change in the prosecutor. No longer attempting to shield the name of Stanford White, he said that he accepted the story told by Evelyn N. Thaw as true—all but the part about her being drugged—and he made frank confession to the jury that the velvet swings and mirrored rooms of the studio-houses described by the girl were indeed a miserable reality. No longer attacking Evelyn Thaw as a skilled adventuress, Jerome pleaded for the prisoner's wife because she had never had a chance for any of the higher, cleaner, sweeter things of life.

The climax came, however, when Jerome denounced both Thaw and White in one breath and classed them as "two degenerates quarreling over a woman." And the woman, the prosecutor declared, knew no more—had been taught no more by the world—than to play one against the other until in jealous rage, in blind hatred, to revenge "an undeniably gross wrong done to his wife," Harry Thaw shot and killed the architect.

District Attorney Jerome turned a willing ear to the testimony about insanity placed before the jury and emphasized it in a number of instances. He admitted that Thaw was always physically weak and that at times his mind was unstrung. While at no point in his address was there a direct suggestion of palliation, there was notably an indication in it that he would not feel that justice had been misdirected if a verdict of some lesser guilt than murder in the first degree should be rendered.

Mr. Jerome carefully explained the elements that enter into a verdict of primary murder, the penalty of which is death, and then he pointed the way to two other findings, which, he declared, were possible under the circumstances.

First degree murder, the district attorney said, must have been the result of both intent and deliberation; in second degree murder he said there must have been intent to effect death, but premeditation must have had no part; in manslaughter in the first degree, Jerome continued, the elements were an overwhelming fury which impelled the assailant to shoot, but without intent to inflict death. Jerome said he could not see how under their oaths as jurors the men in the jury box could go outside of these three verdicts.

To render a verdict of not guilty on the ground of insanity, the prosecutor declared, it would be necessary under the law for the jurors to believe that Harry Thaw was so insane that he did not know it was a pistol he held in his hand when he fired with good and deadly aim three bullets into the body of his victim; that he must have been so insane as not to know that the man he killed was Stanford White, the one man in the world whom he hated, and against whom he had a motive for vengeance; that he must have been so insane as not to know that it was against the law to take a fellow-being's life; that he must have been so insane as not to know what the police officers wanted with him when he voluntarily surrendered himself to them and asked them to take him quickly to the station house, with the added request that his brother-in-law and an attorney be sent for; and lastly that he must have been so insane as not to know the nature or quality of his act or that the act was wrong.

Lacking these essentials, the prosecution said, the insanity of the defendant, conceded to have manifested itself at certain times, had no standing under the law. Partial or incipient insanity, which does not rob the sufferer of a perception of the acts he commits, has no recognition by the law.

Coming to the conclusion of his long address, which lasted throughout the morning and afternoon sessions of court, Jerome denounced Thaw in bitterest terms as "a coward skulking beneath the petticoats of his wife, attempting to shield and save his worthless life behind her shame."

"Twice, in his sanity," declared the prosecutor, "he has sat in this courtroom and had her bare her shame, in all its pitiful nakedness, to all the world. Is such a man worthy of even the slightest consideration at your hands?"

Mr. Jerome's condescension towards the ex-chorus girl was in striking contrast to his treatment of her while she was on the stand, and his words exacted a murmur of interest in the crowded courtroom.

Thaw was very nervous while the district attorney was speaking. He fidgeted around in his chair a good deal as the prosecutor proceeded. At times he would shake his head at some statement of the district attorney and occasionally he would turn around to his wife and smile.

The case will go to the jury today and Thaw may know his fate before night. Justice Dowling postponed the reading of his instructions until today, so that the jury might have all day for a consideration of the evidence before being locked up in the stuffy little jury room at the courthouse for the night.

Diplomatic Rupture Threatened

St. Petersburg, Jan. 31.—A serious conflict appears to be impending between Russia and Austria-Hungary over the Austrian plans for the establishment of direct railroad connections between Vienna, Salonika and Athens. This is regarded here as likely to upset the whole Balkan situation and rupture the concert of powers, on which the continuance of reform work in Macedonia depends. The Russian government has no intention of submitting tamely to the execution of the Austro-Hungarian project.

Hadley Champions Our Students

Berlin, Jan. 31.—President Hadley of Yale university lectured last night on "American University Life" before one of the most brilliant assemblages representative of literature, art and the sciences ever gathered in Berlin. Hadley compared student life in Germany with that in America, summing up in favor of the latter, which, he said, while providing the highest degree of mental development and discipline, also encouraged a healthy love of sport, tending to the physical improvement of the students, which was lacking in European universities.

Shot Three of His Children

Chicago, Jan. 31.—William H. Mentsch, a carriage maker, shot and killed one of his daughters, 5 years old, and fatally wounded two of his other children. It is said that Mentsch recently quarreled with his wife because of the children. Mentsch is believed by the police to be of unsound mind. He confessed after his arrest that he intended to kill another daughter, 18 years old, who was absent when the tragedy occurred.

Hatmakers Out of Work

New York, Jan. 31.—The Waring Hat Manufacturing company of Yonkers closed its four factories yesterday, throwing nearly 2000 men out of employment. Officials of the company gave as a reason the fact that since the financial trouble last fall there has been a steady decrease in business. The Otis Elevator company of Yonkers, another concern employing nearly 2000 men, has laid off about half of its force.

Had Terrible Experience

Honolulu, Jan. 31.—The survivors of the American ship Eclipse, which foundered on Jan. 11, while bound from Newcastle, Australia, to San Francisco, arrived here yesterday. All are in a fearful condition from exposure, exhaustion and thirst. Sixteen men were crowded into one boat, in which they were sixteen days at sea, before reaching Hena Maui. During this time three men died.

To Answer Kidnapping Charge

New York, Jan. 31.—Mrs. Maude Clarke, who was arrested in Boston, charged with kidnapping her own child from its parents by adoption, Dr. and Mrs. George Kremer of New York, arrived here last night in the custody of a detective. The child, who was taken from his mother at the time of her arrest, is now with the Kremers, having been brought back from Boston several days ago.

Walker Will Be Extradited

New York, Jan. 31.—Word was received here by a detective agency that the Mexican government has finally consented to turn over to the American authorities for extradition William F. Walker, the absconding treasurer of the Savings Bank of New Britain, Conn., who was arrested recently in Lower California.

Disagreed as to Policy

St. Paul, Jan. 31.—Rev. W. H. Sallmon, president of Carleton college at Northfield, has tendered his resignation. A question of policy in connection with the administration and welfare of the college was raised in connection with some of Sallmon's efforts to reorganize the institution.

Two Hundred People Homeless

Albert Lea, Minn., Jan. 31.—Twin Lakes, a village nine miles from here, was burned yesterday. Not a structure was left standing and the entire population, numbering more than 200, are homeless. The village had no fire-fighting apparatus.

Cuban Conspiracy Trial Ends

Havana, Jan. 31.—The trial of Masso Parra, Lara Miret and others, charged with conspiracy to start a revolution in Cuba, has closed, decision being reserved by the court. The testimony throughout bore heavily against the accused.

Fight Against Local Option

Wilmington, Del., Jan. 31.—The court of general sessions, in a decision here, sustained the constitutionality of the local option law. An appeal will be taken to the Delaware supreme court.

The Weather Forecast

Almanac, Saturday, Feb. 1.
Sun rises—6:59; sets—4:57.
Moon rises—6:34 a. m.
High water—10:15 a. m.; 10:45 p. m.

It will be warmer, with increasing cloudiness, probably with snow, in New England.

ANARCHY IN IRELAND

Marquis of Londonderry Fears It Will Soon Develop

A CHARGE OF "COWARDICE"

British Government's Eyes Closed to Wide Spread Law Breaking In Ireland--Terrorized by Nationalists Into Permitting Cattle Raiding

London, Jan. 31.—Heated charges of cowardice in turning a blind eye to the "reign of terrorism" in Ireland to keep the Nationalists in good temper and assure a continuance of their support in the commons were launched against the government in the house of lords yesterday.

The Marquis of Londonderry, who was viceroy of Ireland in 1886-89, led in the attack, and so infectious were his sentiments that even Lord Langford, who has been a representative peer of Ireland since 1884, broke his silence of twenty-four years and devoted his maiden speech to a recital of his personal experiences with cattle driving outside his own gates.

The Marquis of Londonderry declared that the present state of Ireland is worse than in the dark days of the early 80s, when murder and outrage were rampant, and he attributed the conditions entirely to the cowardice of the government. The law breakers, he asserted, had the audacity to declare that they had at their back members of the government, and it was even reported that the constabulary had been ordered not to come into actual contact with them.

He pointed out that when James Bryce vacated the chief secretaryship Bryce reported that the condition of Ireland was reassuring, but shortly after Mr. Birrell's advent cattle raiding was inaugurated and it had now spread to ten counties. The judges were paralyzed in the sections subject to coercion by the Irish league and trial by jury was a farce, out of 237 prisoners tried only eight being convicted. Even the government's own attorney general had declared that if the present conditions continued anarchy would result.

The Marquis of Londonderry concluded by charging the government with cowardice and with being terrorized by the Nationalists into permitting a state of things disgraceful to any civilized government.

Lord Beauchamp, replying in behalf of the government, complained of the exaggerated pessimism of the Unionist peers and resented Lord Lansdowne's comparison between Ireland and Macedonia. He admitted that cattle driving had increased during the past year, but said that this was the sole sign of agrarian conditions becoming worse. The government deplored the cattle raids, but he declared the country was no more lawless than during certain periods of Premier Balfour's administration, and he stated that, following Gerald Balfour's precedent when he was chief secretary for Ireland in 1895-1900, the government had no intention of reviving the crimes act as suggested.

Business Men's Best Friend

New York, Jan. 31.—Defending the administration's attitude toward the corporations, and warning his hearers that they must be prepared to witness the fight of a generation before the wrongs that have grown up in corporation management would be righted, Commissioner of Corporations Smith, addressing the members of the Manufacturers' Association of New York last night, declared that President Roosevelt is the best friend of business success the country has.

Workmen In Sore Distress

Buffalo, Jan. 31.—The office of the superintendent of the poor at West Seneca was besieged by 500 men begging for food. The partial suspension of the steel and iron industry there has caused much suffering. Four men were taken to the county hospital suffering from starvation. Many others in the colony of 3000 foreigners are rapidly nearing the end of their resources. The town board will hold a special meeting to adopt measures of relief.

Charity Often Misplaced

London, Jan. 31.—In a debate in the house of commons on the question of the unemployed, John Burns denounced the unscientific distribution of religious, philanthropic and private charity, which he declared was usually misapplied and diverted to the wrong persons. He admitted that pauperism in London is on the increase and said that it would continue to grow as long as indiscriminate charity prevailed.

Predicts Clash With Japan

Paris, Jan. 31.—Captain Loir, an expert attached to the naval reserve, in a lecture before the French Maritime league last night expressed the opinion that war between the United States and Japan was inevitable at some later date, because the industrial and imperialistic ambitions of the two nations were bound to bring about a clash.

Anxiety Over Missing Steamer

Philadelphia, Jan. 31.—Alarm is felt here for the safety of steamer Bluefields, which left Jacksonville on Jan. 21 for this port. Nothing has been heard from her since the date of sailing. The vessel usually makes the trip in three days.

ONLY ONE WAY TO RETAIN HEALTH

Young Man with New Theory Says All Depends on Stomach.

L. T. Cooper's theory regarding the human stomach is rapidly becoming a topic of universal discussion. Cooper claims that the human stomach has become chronically deranged by modern conditions, and that sickness generally is the result.

In a recent interview, while introducing his medicine in a leading city, Mr. Cooper said: "There is just one way, in my opinion, to maintain general health, and that is by building up the digestive organs. The vast majority of Americans today have weak, flabby, distended stomachs. This has been caused by many generations of over-feeding and lack of exercise, until today the entire civilized race is affected. This is the true cause of most of the ill health of today. Little can be done to relieve it until the stomach is once more brought back to normal conditions.

"I am successful because my preparation puts the stomach in sound condition, and as I maintain this is the only way to secure general and permanent good health."

Among many prominent people who have recently become converted to Cooper's theory is Mr. E. M. Howey, of 47½ De Russey Street, Binghamton, N. Y., who says: "I had stomach trouble for about six years. After eating, I would become bloated and have a distressed feeling for several hours. This would be accompanied by heartburn, and I reached the point where I could not enjoy my meals at all.

"I tried different remedies in an effort to find relief, but without success. After taking three bottles of Cooper's New Discovery I am entirely cured. My stomach does not bother me in the least, and I can eat anything I like. I can cheerfully recommend Mr. Cooper's medicine to anyone afflicted with stomach complaints."

Mr. Cooper's medicines are making a remarkable record. We sell them. —E. J. Murphy.

QUINCY SAVINGS BANK.

Beginning February 1, 1908, the Quincy Savings Bank will be open for business every business day except Saturdays, 8.30 A. M. to 3 P. M.

SATURDAYS—8.30 A. M. to 12 M.

The Bank will not be open MONDAY EVENINGS after February 1, 1908.

IN MESHES OF LAW

Consolidated Steamship Company Owes Millions of Dollars

RECEIVERS ARE ASKED FOR

Great Boat Trust Was Formed by Morse to Carry Out Plans Looking to Control of Practically Entire Coastwise Steamship Business

Boston, Jan. 31.—The Consolidated Steamship company, the great $60,000,000 steamship syndicate, organized by Charles W. Morse, the "ice king," for the purpose of monopolizing the transportation business along the entire Atlantic seaboard, is threatened with disintegration, as the result of receivership proceedings, started by creditors in the federal courts of Maine yesterday.

The thousand and one interests affected are scattered all along the Atlantic seaboard. The Eastern Steamship company, the Metropolitan, the Clyde, Mallory, New York and Cuba Mail, and the New York and Porto Rico Steamship companies are all involved in the litigation, which promises to continue for years. These lines practically control the entire water transportation business, both passenger and freight, from Maine to Texas and the islands of the West Indies.

Scores of magnificent steamers, acres upon acres of valuable wharf property, great business houses and numerous banks and trust companies are caught in the meshes of the law, which creditors have spread out to safeguard their interests.

The liabilities exceed the assets by many millions of dollars, and the great $60,000,000 steamship trust company is insolvent. One of the remarkable things about the proceedings is that Calvin Austin, the general manager and president of the consolidated lines, admits the allegations of insolvency and joins in the petitions of the creditors for the purpose of having the courts safeguard the valuable properties and franchises from the designs of the hostile interests.

Three bills in equity were filed in the United States circuit court in Portland, Me., and auxiliary bills were filed in the circuit courts of Boston and New York, applying for the appointment of receivers for the Consolidated Steamship company and its subsidiary companies, the Metropolitan and the Eastern Steamship companies.

Upon these applications the Maine court and the courts in Massachusetts and New York have issued restraining orders protecting the properties and enjoining the officers and creditors of the various companies from interfering or intermeddling in any way with the property or business of the corporations involved, except so far as may be reasonable for conducting the current operations of the corporations.

William A. Muller, a real estate and insurance agent of Arlington, Mass., started the receivership proceedings against the Consolidated Steamship company, which is the legal title of the $60,000,000 trust.

In his petition he claims to be the holder of a promissory note of the Eastern Steamship company, a subsidiary concern of the trust, dated Oct. 25, 1907, and payable to the order of the treasurer on demand at the First National bank of Boston with interest. Muller alleges that payment was refused at the bank and by both the trust and the subsidiary concern, and, as a result, he started receivership proceedings against the Consolidated and the Eastern Steamship company.

The third bill was filed against the Metropolitan Steamship company by the Berwind-White Coal Mining company of Pennsylvania. The coal company in its petition claims to be a creditor of the Metropolitan line for $43,491 on a coal bill which is overdue and unpaid.

Notices have been issued in the suit upon the officers of the companies involved, returnable March 2. Judge Putnam, who issued the notices from the Maine court, also set a hearing on the receivership proceedings for Feb. 4 in the United States circuit court at Portland, Me.

Objection to Hibbard's Measure

Boston, Jan. 31.—The city council of Boston last night passed a resolution protesting against the bill recently offered to the Massachusetts legislature by Mayor Hibbard, providing for the government of the city of Boston by commission. A committee of five will be appointed to go before the legislature and appear against the bill.

Russian Is Champion Wrestler

London, Jan. 31.—George Hackenschmidt of Russia easily defeated Joe Rogers, American, in the wrestling match here for the championship of the world. The match was under catch-as-catch-can rules, best two out of three falls, with a ten-minute rest period between bouts. The first fall was in 7:35 and the second 6:45.

Lisbon Very Uneasy

Lisbon, Jan. 31.—Lisbon is outwardly calm, but there is a steady increase of nervousness and excitement among all classes of the population, owing to the constant rumors of plot and counter-plot and the persistent activity of the police, who daily and nightly examine the houses of suspects and make arrests.

WOULD SAVE OUR FORESTS

Effort to Have Congress Appropriate Money For That Purpose

Washington, Jan. 31.—Nearly 200 persons, representing nearly all of the states east of the Mississippi river, appeared as a special delegation before the house committee on agriculture and made an exceptionally forceful showing of facts and figures in support of the bill appropriating $5,000,000 for the purchase of about 7,000,000 acres of mountain lands in the Appalachian and White mountains, to be held as national forest reserves for the conservation and control of the navigable and power-producing streams of the states affected.

Though each speaker confined himself in a measure to the peculiar needs of the section he represented, all the speakers laid stress upon the vital necessity of federal reclamation of the headwater lands throughout the White mountain and Appalachian chains, so that by reforestation and water conservation, the vast power producing capacity of the streams shall be retained.

Startling facts as to the diminution and fluctuation of this capacity in nearly a score of states were presented by members of the delegation and, in a masterly summing-up, Governor Smith, of Georgia pleaded for a favorable report on the bill by the committee. "We did not come here to seek the aid of the next congress. We want this congress to appropriate the money," he said.

Charges Against an Editor

New York, Jan. 31.—Charges of disloyalty and slander preferred against Rev. Dr. J. M. Buckley, editor of The Christian Advocate, are being considered by a commission of nine clergymen of the Methodist Episcopal church in Brooklyn. The charges were made by Rev. Dr. G. A. Cook of Brandon, Vt., who preferred the charges against Professor Downe of Boston university, which resulted in his trial for alleged heresy a few years ago.

Denial of Over-Charges

Harrisburg, Jan. 31.—That John H. Sanderson did not really charge as much for furniture supplied for the new capitol as he was entitled under his contract will be the chief defense in the conspiracy suit against Sanderson, Synder, Mathues and Shumaker, now on trial. This was developed by the cross-examination of Architect Huston's active assistant during the construction and equipment of the capitol.

State Bank Withstands Run

New York, Jan. 31.—Consequent upon the closing of the New Amsterdam National bank and the Mechanics and Traders' bank, there was a run on the Oriental bank, a state institution, yesterday, which it successfully withstood. All depositors were paid promptly and it was given out last evening that the bank would be able to secure all the assistance necessary to tide it over the run.

Departure of Wedding Guests

New York, Jan. 31.—Several relatives of Count Laszlo Szechenyi, who came from Austria to attend the wedding of Gladys Vanderbilt to the count, returned to Europe on steamer Amerika. In the party were Count Paul Esterhazy, Count Stephan Szechenyi and Count Anton Sigray. Mr. and Mrs. Reginald Vanderbilt and Alfred Vanderbilt were passengers on the same steamer.

Explosion Kills Nine Miners

Charleston, W. Va., Jan. 31.—Nine miners met sudden death in the New River colliery, near Hawk's Nest. An explosion partially wrecked the mine. About twenty-five men were in the mine at the time. Those who escaped suffered only slight injuries. The cause of the explosion has not been definitely ascertained.

Cutting Down Naval Estimate

Washington, Jan. 31.—The house committee on naval affairs has decided to make a cut of about $25,000,000 in the estimated cost of maintenance and construction for the navy department for the coming fiscal year. The department asked for a total of $125,000,000.

Committee's Figures Cut Down

Washington, Jan. 31.—The urgent deficiency appropriation bill was passed by the house. The total amount carried by it is $23,664,450, or $410,000 less than as reported by the committee. The largest single reduction was that of $300,000 for clothing for the army.

Prohibition Knocked Out

Columbia, S. C., Jan. 31.—The prohibition bill was killed in the house of representatives by the decisive vote of 64 to 53. The senate also is opposed to prohibition. County local option is now provided for throughout the state.

NEWS IN BRIEF

The Christian Science church of Concord, N. H., presented to Mrs. Eddy, founder of the cult, a medal which had been struck for the purpose in France. The medal is commemorative of Mrs. Eddy's long residence in Concord.

The census of the republic of Chile, which has just been completed, shows a population of 3,250,000.

After kissing his wife and baby good-bye, Joseph P. Wise of Pawtucket, R. I., 22 years old, went out on the doorstep of his home and shot himself, dying within a few hours. No cause is known for his act.

A man thought to be A. Austin, about 57 years old, a painter of New York, dropped dead in the Worcester (Mass.) public library.

Frank P. Forbes, a dry goods dealer of Greenfield, Mass., has filed a voluntary petition in bankruptcy, the liabilities being given as $58,304.

HOW TO TELL IF YOU HAVE WORMS

THE REMEDY THAT QUICKLY EXPELS THEM

The common symptoms of worms in children and adults are:—Paleness of the face with occasional flushing; indigestion accompanied by an unnatural appetite at times; foul tongue and offensive breath; itching nose; vomiting; grinding of the teeth during sleep; swelling of the upper lip; hard swelled bowels; griping or colic pains; also convulsions and many other unaccountable nervous symptoms, which, if not checked in time, lead on to something more serious.

TOOK DR. TRUE'S ELIXIR AND GOT WELL

SOMERVILLE, ME.

DR. TRUE, DEAR SIR:—

"For more than three months one of my children had been troubled with spells of vomiting and symptoms of fever nearly every week, together with canker-sores about the nose and mouth. I obtained, about two weeks ago, two bottles of your Elixir, and before the first bottle was exhausted the sores were entirely healed, and no appearance of his vomiting or fever-spells has ever returned. I really believe that the lives of thousands of children suffering from worms or canker might be saved by a timely and judicious use of your Elixir." Yours truly,

J. L. HAMMETT.

This is only one of hundreds of such testimonials. This marvelous remedy has been made and sold by Dr. J. F. True & Co. for fifty-six years, and in all that time nothing but words of praise have been bestowed upon it. This is what Mr. Wing thinks of it.

AUBURN, ME.

DR. TRUE, DEAR SIR:—

"For the past seven years I have constantly kept a supply of your Elixir in my house, and it never failed to give prompt relief. It has been a great blessing to my children, and unsolicited I give you this tribute of gratitude, hoping the merits of your unrivaled family medicine may be widely known and appreciated."

Very respectfully yours,

CHAS. E. WING.

Even though worms may not be found present Dr. True's Elixir tones up the stomach and liver. Read what Dr. J. Haley, of Brunswick, thinks of it:

"It is a safe and effectual remedy. For worms it has no equal, and is an excellent remedy for canker of the mouth and throat."

Dr. True's Elixir is sold by druggists everywhere at 35c., 50c., and $1.00 per bottle. The booklet, "Children and Their Diseases," will be sent free by simply addressing Dr. J. F. True & Co., Auburn, Me. We have a special treatment for tape-worm. Send for free book.

New York, New Haven and Hartford R. R.

On and after Jan. 5th, 1908, trains will run as follows: Subject to change without notice.

BRIGANTINE'S CREW SAVED

Surfmen Had a Mighty Five-Hour Battle Off Cape Cod

Nantucket, Mass., Jan. 31.—After a desperate struggle for five hours' duration against intense cold and a turbulent sea, lifesavers rescued the entire crew of the New York brigantine Fredericka Schepp, which was wrecked on Coatue beach. Mrs. Charles Oversen, wife of the captain, and her year-old baby, who were on board, were also taken off the stranded vessel.

The Schepp left South Amboy, N. J., last Sunday with a cargo of coal for Vinal Haven, Me. Wednesday night the brigantine encountered a stiff northwest wind and Captain Oversen decided to anchor under the lee of the Handkerchief shoal. Towards morning the vessel became badly iced up and began to drift. The crew were unable to work the sails readily, and nothing could be done to keep her in deep water. At 6 o'clock yesterday morning she struck on the northerly end of the island. The heavy seas tumbled over the vessel, forming tons of ice as the water froze. The members of the crew were unable to move about the deck and early abandoned the idea of launching a boat. They suffered severely in the zero weather. Several of the men were frost bitten and narrowly escaped being swept overboard.

After daylight the wreck was observed from shore and the Coskata lifesaving crew hastened to the point on the bench nearest the stranded vessel. Again and again an attempt was made to approach the brigantine, but the seas ran so high that the lifesavers had to retreat. For five hours the struggle went on and finally the men were successful in reaching the vessel. With much difficulty all those on board were taken off. There were six men beside Captain Oversen in the Schepp's crew. Mrs. Oversen displayed rare courage during her trying experience.

New Head of Illuminating Concern

Providence, Jan. 31.—At a meeting of the board of directors of the United Illuminating company, which controls gas and electric light companies in Maine and Vermont, M. C. Fletcher, president of the concern, resigned, and H. D. Hart was elected in his place. Ruth L. Howe, who has been acting as secretary and treasurer of the corporation, also resigned. These resignations came as the result of charges of mismanagement in the company's affairs, made by stockholders.

Boy Suspected of Crimes

Claremont, N. H., Jan. 31.—Charged with attempted highway robbery upon Miss Della Durward, Albert St. George, 15 years old, of Pawtucket, R. I., was arrested here and given a hearing in court. St. George is also suspected of having something to do with two breaks in local stores and breaks at White River Junction. Under New Hampshire laws, the findings of the juvenile court against St. George were not made public.

Troublesome Coal

Newport, R. I., Jan. 31.—Fifty thousand tons of coal at the Bradford coaling station, consigned to the Pacific-bound fleet, was threatened with destruction by fire twice yesterday. Prompt work saved all but about ten tons of the coal. This coal has been causing considerable trouble since it was brought here last July in a wet condition. Colliers are expected here next week to ship the coal to Admiral Evans' fleet.

Fire Commissioner Removed

Boston, Jan. 31.—After Fire Commissioner Wells had refused an opportunity given him by Mayor Hibbard to resign yesterday he was removed from office, the action to take effect at the close of business this afternoon. The mayor declares that the organization of the fire department at present is lacking in discipline. Samuel D. Parker was named as Wells' successor. The salary of the position is $5000 per year.

Workmen's Rent Reduced

Hopedale, Mass., Jan. 31.—One hundred employes of the Draper company plant, who live in houses owned by the company, were notified last night that their rent will be reduced 50 percent, the reduction to continue until further notice. The company explained that the reduction was made owing to the financial condition of the country, which had caused the factory to run on shorter hours.

Plea For Narragansett Bay Defense

Newport, R. I., Jan. 31.—A largely attended mass meeting was held here last night at which steps were taken to urge upon the Rhode Island delegation in congress the importance of securing the passage of the bill now before congress in which $1,500,000 is asked for the defense of Narragansett bay.

Fatal Knife and Pistol Wounds

Lynn, Mass., Jan. 31.—Guiseppi Bellevia of Boston, who was stabbed in the cheek and shot in the brain while visiting his brother here on Jan. 20, died last night of his wounds. Bellevia had a family. The police are seeking Salvatore Neccosia, a missing Lynn expressman.

Two Drowned on Way to Work

Old Town, Me., Jan. 31.—James L. Collins, aged 65, and Alphonse Brodeur, 48, of Bradley, were drowned while crossing the Penobscot river to go to work in a mill. In a severe gale and snowstorm they lost their way on the ice and walked into open water.

Followed Wife In Death

Boston, Jan. 31.—Despondent over the death of his 18-year-old wife, who died Saturday after giving birth to a child, Frank B. Smith, aged 28, a traveling salesman, killed himself last evening by taking poison.

State House Hearinfis

The Observations In the Daily Walk

The City Council Committee on Finance meet tonight.

Benjamin French and wife are residing at 336 Washington street.

John Hendry has secured an orchestra for the entertainment of Feb. 26.

The Phi-Phi-Phi club met Tuesday evening with Mrs. Harold Winslow, Beach street.

Little Leonard Cross, son of Frank L. Cross of Cushing street, is ill with scarlet fever.

Richard Forrest of Hancock street is a sufferer from a severe acute bronchial affliction.

Miss Annie Peters of Brookline is the guest of Miss Lisabelle Linnell of Davis street.

Houses are beginning to be in demand, indicating a renewal of work in our midst.

A meeting of the Democratic City Committee for organization will be held tonight.

Rev. Thomas Simms of Braintree will be the speaker Sunday evening at Bethany Congregational church.

The B. T. club met Thursday afternoon at the home of Mrs. Charles Treadway on Billings road.

The Meadow Brook Ice Co. have seven inches of ice on their pond. They have not commenced to cut, however.

Mrs. R. S. Doane and Mrs. Harry Doane of Bromfield street were the guests of Miss Isabelle Linnell at Cambridge today.

Mrs. Herbert H. Albee of Warren avenue has been confined to her room for two weeks suffering from heart trouble, with a trained nurse in attendance.

The Bible class of the Park and Downs Congregational church held a social Tuesday evening at the home of Mrs. J. L. Smith on Phillips street.

The Theta Sigma club met Thursday evening in their club rooms at the Downs. A tie game of whist created much excitement. Next week the rubber will be played.

The D. O. club held its first meeting of the year on Monday evening at the home of its president, Miss Mouses of each street. The following officers were elected: Miss Marion Smith, treasurer; Miss Gertrude Sass, secretary.

The choir of the Park and Downs Congregational church was entertained this week by Mr. Northrop with a Chinese party. All were in Chinese costume, all the games were Chinese and the refreshments were served with chop sticks. About thirty were present.

The annual meeting of the Granite Railway Company was held in Boston this morning and the following officers elected:—President, Henry M. Faxon; vice president, Charles E. Morey; clerk and treasurer, Luther S. Anderson; Directors, Henry M. Faxon, Charles E. Morey, Henry H. Kimball, John A. Stanton and Stellman P. William.

Rev. A. F. Lloyd secretary of the board of missions, who has recently been around the world visiting the missions of the church, will address a Missionary meeting in St. Chrysostom's church, Monday evening at 7.45. This is the only church in the diocese in which he will speak, excepting Trinity, Boston.

MILTON.

There has been good skating on the Cunningham pond all winter, and the youth of Milton have had their fill of this sport.

Milton is a bad town for tramps. Anyone having the resemblance to one of this fraternity is immediately run in and put into court.

Although the annual town meeting is a month away candidates for town officers are being talked up.

Whist was the attraction at the Thursday Evening club this week.

A very pretty dancing party was held at Ellsworth hall Monday evening. The party was under the auspices of the Ladies' Guild of the Mission church, and was one of a series. Strahan's orchestra furnished music. Ice cream and cake were served.

Installation.

Ladies' Auxiliary, Div. 24, A. O. H. installed officers in Electa hall recently as follows:

President, Miss Nellie Connolly.
Vice President, Miss Mary Costello.
Recording Secretary, Miss May Gilraine.
Financial Secretary, Miss Agnes Collagan.
Treasurer, Mrs. Mary Tangney.
Mistress at Arms, Mrs. A. Leet.
Sentinel, Miss Nellie Desmond.

Refreshments were served and short addresses were made by invited friends.

Good Scores.

Wollaston whist players showed up well at the tournament of the American Whist club Thursday evening. A B. Hillman and F. T. James scored 8 plus. Plus scores were also made by E. E. Hoxie and R. F. Foster, G. B. Thompson and I. W. Crosby. On the line were C. E. Barker and G. R. Thompson.

New Principal.

A Fitchburg item in a Boston paper comments on Quincy's newly elected principal as follows:

Harry S. Brooks, for two years principal of Ashburham street school, tendered his resignation tonight to Superintendent of Schools Edgerly, to take effect Feb. 28. He has been elected supervising principal in the Quincy public schools. There were 19 candidates for the position.

Mr. Brooks came to Ashburnham street school from Maynard and is a graduate of Lowell Normal school. During his administration he has established a branch of the public library in his schoolhouse over which he has taken full charge.

Divorce Wanted.

Among the divorce cases heard by Judge Fessenden of the Suffolk Superior court on Thursday was that of Edith Noyes Porter, who asked for a divorce on the ground of non-support from her husband, Henry W. Porter. At the time of her marriage in 1898 he was submaster in the Quincy High school and later superintendent of schools in Lexington. He is now in Philadelphia filling some position in the schools.

Mrs. Porter testified that since June 1906, the time when her husband left Lexington, he has not contributed to her support, in fact has repeatedly said that he would not do so. She relies, she stated, upon her own work, and as a result her health is very poor.

Mrs. Jeanette Noyes Rice, mother of Mrs. Porter, and a well-known singer, corroborated her daughter's testimony, as did Dr. George B. Rice, her stepfather.

Decision was reserved.

Debate and Social.

Tonight at 8 the Employed Boys' Society and Debating clubs meet at the Y. M. C. A. for the second time. A debate in which Messrs. Dackers, Shirley, Melville and Childs will participate is first on the program. Subject—Resolved, That the use of the boycott is justifiable."

After some parliamentary practice, colored slides will be shown through the stereopticon illustrating the Egypt of today and the Egypt of the historic past.

New members will be voted into the club, followed by refreshments and a social time.

Master Harry Matfield of Berlin street who had two operations performed at City Hospital in December, is now able to be out. His parents are enthusiastic in their praises of the nurses at the Hospital.

DIED.

HALEY—In East Braintree, Jan. 30, Mrs. Margaret E. widow of Mr. Garret Haley.
KENT—In Braintree, Mrs. Emma L., wife of Mr. Harry H. Kent.

Established 1870. Telephone.
JOHN HALL
FUNERAL DIRECTOR
CARRIAGE and AMBULANCE Service.
1435 Hancock Street, Quincy, Mass.

SHIP SUBSIDIES

Joint Debate By President Bowles and A Congressman

There was another joint debate Thursday evening in which Quincy is interested to a large degree, when President Bowles of the Fore River Shipbuilding Company of Quincy met Congressman Henry T. Rainey of Illinois at the Boston City Club and discussed ship subsidies and the tariff.

In supporting his side of the question Admiral Bowles said:

"The subject of the tariff is in great need of elucidation. There are a few propositions to which I hold and which I will state briefly. I believe that the industries of New England cannot get along without a protective tariff. I do not believe that the tariff makes any material difference in the cost of building ships in this country as compared with England.

"We have built nine vessels in the last 15 months. The cost of the castings for these vessels, if bought in England, would have been just 50 cents less a ton delivered here than the cost of the same material was here. The control by the trusts here keeps the price of steel uniform, it is true, but not unreasonably high.

"One-half of the cost in building a vessel is labor cost. The cost of steel varies from 6 to 20 per cent. Our labor here costs 50 to 60 per cent. more an hour than abroad, and it is not so efficient. Difference in labor makes equality in cost of construction impossible. The condition of our shipping is to be attributed to the economic condition of our labor and materials, independently of the tariff."

Mr. Rainey came from Washington specially to speak to the club on the question of "Ships and the Tariff." He said in part:

"We do not build ships now—we manufacture them. Men who have mastered the mechanical trades are no longer in great demand in this industry.

"The man who makes the blue prints builds the ship. In order to build a steel ship now, we need only a few men slightly skilled in the metal trades and a number of ordinary laborers. It does not take a subsidy to teach men how to make blue prints and cut bass wood into strips. Steel ship building is no longer a craft. It is no trouble to find in this country enough men to build ships. What we need is material out of which to build them. Material that can be purchased here as cheap as it can be purchased in England.

"Compel the American steel trust to sell steel here at its export price—you can do that by giving us free raw material for ships—and there will be such a demand for American-built ships that a ship building plant will spring up near every one of our great coast cities. We will, under these conditions, soon be again supplying the nations of the world with ships, and it will be impossible to sell them abroad cheaper than at home. A subsidy would be an excellent thing for a few gentlemen who are continually asking alms from the public treasury. If we want a large merchant marine, a subsidy is the very thing we do not want.

"In order to create a great merchant marine, we need first of all men. We are not a seafaring nation. The problem now is not how to enormously increase the holdings of a number of multi-millionaires, who in return will be willing to add a few 12 thousand-ton or 16 thousand-ton steel ships to our merchant navy. The real problem is how to get men trained to the sea with which to man ships if we had them. Subsidies and tariffs do not develop men."

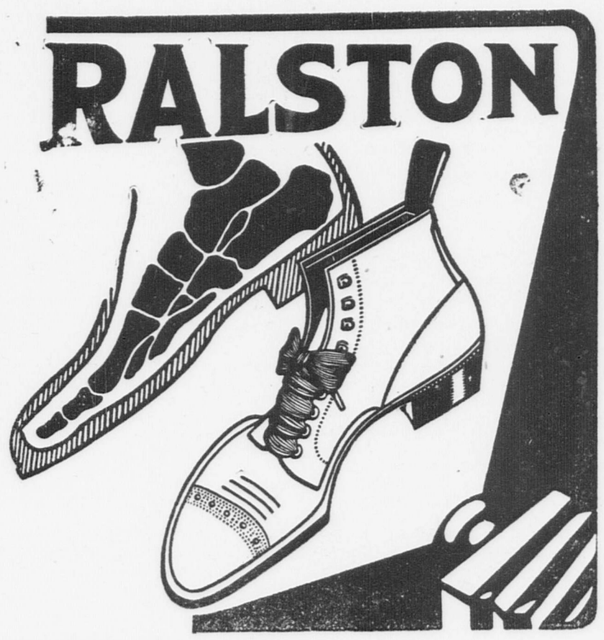

A Washington dispatch to the Herald says the House committee on naval affairs has decided to make a cut of about $25,000,000 in the estimated cost of maintenance and construction for the navy department for the coming fiscal year. The department asked for a total of $125,000,000 a considerable proportion of which comes under estimates for the construction of the buildings in navy yards. The greater part of the proposed $25,000,000 reduction comes within this classification.

A large number of the Quincy members of the Ancients with their lady friends and guests were present Thursday evening at the annual ladies' night of the organization at Tremont Temple. A handsome souvenir was issued.

Rich Hair

We publish the formula of Ayer's Hair Vigor. You know what you are using. Your doctor knows why it does things.

You may easily hide your ignorance of South Sea politics or North Pole explorations, but you cannot hide a scraggly, worn-out, ignorant-looking head of hair. Ayer's Hair Vigor is the natural exponent of intelligent hair culture. The hair promptly yields, becomes manageable, and appears well. J. C. Ayer Co., Lowell, Mass.

So Cleverly Have

the comfort features of the Ralston Health Shoe been hidden beneath a stylish and snappy exterior that there is no way for you to tell—until you try on a pair—that Ralston Shoes are foot moulded.

Ralston foot print lasts shaped like the bottom of your feet provide for sole fit as well as upper fit. This means a perfect fitting shoe—one in which the body weight instead of resting on heel and ball as in most shoes is distributed over the entire service of the foot bottom.

We'd like to hear you say "Show Me."

Quincy, Nov. 21 tf

Newsy Budget From Shipyard

Judging from the progress made thus far in the construction of the U. S. Battleship North Dakota at the Fore River the prospects are that this great fighting machine will be launched sometime in October. In comparing the percentages of completion of the North Dakota with the Delaware, a sister ship, building at the yard of the Newport News Shipbuilding Company, a vast difference will be noted in favor of the North Dakota.

During October, 1907, the month in which both of these ships were started, the North Dakota progressed 4.23 per cent. against 2.33 per cent. for the Delaware, making a gain in favor of the North Dakota for the first month 1.90.

In November, 1907, the second month of construction, the North Dakota progressed 3.61 per cent. against 2.75 per cent for the Delaware, which shows a gain for the second month of .86 per cent.

December, 1907, the third month, the North Dakota progressed 4.86 per cent against 1.97 per cent on the Delaware, showing the gain for the third month to be 2.89 per cent. in favor of the North Dakota.

On January 1, 1908 the North Dakota was 12.70 per cent. complete, as against 7.05 per cent. for the Delaware, which puts the Fore River Shipbuilding Company to the good 5.65 per cent. up to Jan. 1, 1908, the time of making up the last report.

J. J. Kermode, a civil engineer of London, who was commissioned to look into the fuel best adapted for propelling warships, reported in favor of oil. He stated among other things that if the giant steamship Lusitania were fitted for burning oil she would require only 27 stokers where now 312 are necessary for the work. The oil would measureably reduce the space now taken for coal so that 4000 more tons could be utilized and room still be left for 250 additional passengers. Besides, the voyage from England to New York could be shortened eight hours by the increased power of oil.

Carl W. Gram, and H. F. Miller, Jr., two graduates of the Quincy High school, are entered for the B. A. A. athletic meet Saturday night. Gram is entered in the 40-yard dash, initiation, scratch race, and Miller in the mile run handicap race.

The Cold Spell Causes a Fire

The alarm from Box 65 at 8.13 this morning was for a fire in the house of Robert Millett on the corner of Bay View road and Squantum street, Atlantic. Mr. Millett was thawing out water pipes in the bath room, and the fire started under the floor and worked into the kitchen. Mr. Millett soon discovered that the house was on fire and tried to extinguish it. Finding that he was unable to do so he rang in the alarm. The loss is estimated at $100.

School Attendance.

The percentage of daily attendance at the public schools for the month of December fell below 90. The Wollaston had the best per cent. but the Cranch, the High and the Gridley Bryant were very close rivals. Two buildings reported only 4 cases of tardiness. The summary:

	Whole No. at Date.	Ave. Daily Attendance.	Per cent. of Daily Attendance.	Tardinesses.	Dismissal.	Truancy.
High	735	672.3	91.3	215	105	2
Adams	488	431.2	88.2	50	13	0
Coddington	477	409.6	86.6	25	22	2
Cranch	405	373.3	91.4	30	39	1
Gridley Bryant	285	264.6	91.2	4	4	1
John Hancock	407	359.6	90.	4	13	0
Lincoln	404	360.7	89.3	15	25	2
Mass. Fields	368	337.2	89.2	27	48	0
Quincy	552	483.6	87.9	30	8	0
Washington	519	446.8	87.7	49	20	0
Willard	822	730.1	88.8	29	10	0

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

GAME BIRD PROJECT.

Professor C. F. Hodge's Plan to Raise Wild Turkeys For Massachusetts.

Wild turkeys for Massachusetts forests is the latest project of Professor Charles F. Hodge of Clark university, at Worcester, Mass., and he has the figures brought out to the enthusiastic limit, says the Worcester Telegram. With a start of a dozen pairs of the wild birds of the south he would have Massachusetts woods occupied by 3,244,911,744 beautiful wild turkeys in ten years, allowing for a few accidental shots and some misfortunes. The project is worth trying if the hunters can control their desire to get a few hundred thousand of the millions before they grow up. The wild turkey makes the best sport that hunters know on the wing after it is well understood and considering the value of the food when the game is cooked.

The wild turkey is a lordly bird when he has a reasonable chance for life, and he is at the same time so foolish that he can be caught easily. The Mongolian pheasant is said to be a failure in Massachusetts woods, and it is very unpopular with people who have regard for other birds. The pheasant is a robber and destroyer without gain to itself. The wild turkey has a good reputation in the south and is winning new popularity. The professor says it would cost only $60 for a dozen pairs, and they would make a reputation for Massachusetts by raising something like ten birds a year to each couple.

PHOTO TOO MUCH FOR THIEF.

Dropped Jewels and Took Only Picture of Girl In Bathing Suit.

A burglar who entered the home of Mrs. Mary McDade in Pittsburg the other morning had gathered together silverware and jewelry and was about to depart when he saw a photograph of Miss Margaret McDade, the eighteen-year-old daughter of Mrs. McDade, says a Pittsburg special dispatch to the New York Times. The picture showed Miss McDade in a bathing costume. It appealed to him more than did the gold, so he took the picture and left everything else behind. He also left a note, in which he said:

Dear Miss—I had intended to carry off all this junk that I have gathered together until I discovered this picture. What is mere gold compared with such a face and such a figure? Keep your gold—I want none of it. But I must keep this picture, and it will be more to me than all the gold in the universe.

Mrs. McDade turned the note over to the police, but they are not making a great effort to locate the burglar.

CEMETERY FOR DOGS.

Massachusetts Woman to Establish Institution Like One In Paris.

Having received encouragement from prominent persons in various sections of the United States, Mrs. G. H. Shapley announces, according to a special dispatch from Newton, Mass., to the New York Herald, that she will establish at Newtonville, Mass., a cemetery for dogs. Mrs. Shapley is widely known as the owner of Pinkie, the smallest dog in the world, which died some time ago. Ever since Mrs. Shapley started the idea of a burying ground for dogs many prominent persons have assured her of their help.

"I have quite a private burying ground of my own," said Mrs. Shapley. "Six of my dogs are buried in a vacant lot behind my house. This lot has some of the features of the Paris burying ground that so interested me. It slopes down to a small lake and could easily be made just like the famous dog cemetery in Paris."

Cowper's Home a Museum.

The home for many years of the poet Cowper at Olney, Bucks, in England, has recently undergone a thorough renovation, conducted on reverent lines, at the hands of the trustees in whom it is vested as a museum, says the Pall Mall Gazette. Previously only a part of the building was used, but now all the rooms are reserved for the exhibition of the many interesting relics of the poet that have been presented. The museum is especially rich in manuscripts, early editions of the poems and the personal possessions of Cowper. The exterior of the house has also engaged attention, and now as the result of a careful study of old prints a restoration to the appearance presented in the days of Cowper has been effected.

Wire to President Roosevelt.

If the ship of state needs calking
Or the lion's tail a twist,
If the senators are balking,
If a silver spoon is missed,
If the plague strikes Honolulu,
If there's trouble in the cup—
Why, just write to Mr. Roosevelt,
And he'll fix the matter up.

If they lynch a coon in Texas,
If the green bug's in the wheat,
If there's anything to vex us,
If you're troubled with cold feet,
If your dinner isn't ready
Or you're feeling rather dry,
Send a telegram to Teddy,
And you'll get a hot reply.

If there's too much rain in Kansas
Or it's dry in Tennessee,
If a summer cyclone fans us
Or if Towser has a flea,
If your sweetheart should prove fickle,
If you want to know the score,
If you get a punctured nickel,
Drop a line to Theodore.

If you need another member
Of the Ananias club,
If you're sunstruck in December
Or you're suffering for grub,
If the railroad rates are higher
Or the beef trust gets too gay,
Ring up Roosevelt on the wire,
And there'll be the deuce to pay.

If the stork don't visit promptly,
If we lose to the Maroons,
If Ben Tillman's full of malice
Or La Follette full of prunes,
If the troops shoot up a city
Or you cannot pay your rent,
Take a lesson from this ditty—
Wire to Roosevelt, president!

—Kansas City Journal.

A Good Charter

(Continued from Page 1.)

Continuing, "the fault of our condition today is not the charter; no matter what form of government may be adopted if the civic pride of the inhabitants will not come up to a high standard any and every form of government will fail.

"The fault with the charter? No! it is simply this: It is the way we do things under that charter; the difficulties are practical and not theoretical. But the charter itself, the form of municipal government under which we live is ideal, grand, noble, and calculated to bring out all that is best for the city if the Mayor be a man!"

Mr. Sears compared it to the command of a ship by the captain; of the army by a general. Continuing:

"In the great business corporations of today stands one man who is responsible to his stockholders and possibly to the great public for the success or failure of his administration.

"Now, what element is lacking in order to make our charter even more perfect? It is easily said—but not so easily acquired—just this—civic honor.

"Civic responsibility if recognized and properly enjoyed will make successful any of the various forms of municipal government that we now hear so much about. If the citizens have not enough pride, are wanting in responsibility and patriotism—in a word, civic honor—than any form of government will eventually become uninteresting and unfitted for the purpose intended. Cultivate those things which lead to a realization of a citizen's duty; the virtues of honesty, liberality and self-respect and the result will be civic honor—a condition that will eventually yield the best and most enduring form of government."

—Your Optical wants are safe with us as we guarantee complete satisfaction in all cases we fit. C. F. Pettengill optician, 1381 Hancock St., Quincy.
